Vol. 99 No 2 | 10 Pages PLUS ONE SUPPLEMENT | Serving Charlevoix County (Mich) Since 1883 | Wednesday, January 5, 1983 | 25

SAILBOARDING IN JANUARY? *"Why not?", said a crew of seven hardy souls who took to their boards on New Year's Day and got the 1983 sailboarding off to an extraordinarily early start on the icy waters of Round Lake. Hagen Manker, above, was joined by Gerry Brindel, Dick Lepman, Bob Lepman and Bob Schofield, all of Charlevoix and Ned Keys and Tom Shier of Harbor Springs in the New Year's race in which everyone brave enough to compete was declared a winner. A small crowd of about 20 snowsuited observers cheered the racers as they traversed a small section of the lake in front of the Chicago Club boathouse*

Aeration system to be 'fine tuned' as TCE levels top 80 ppb

by DAVE KNIGHT

Following reports last week of the highest levels yet detected of trichloroethylene (TCE) in city water, Charlevoix City Manager Robert Hunt told the City Council Monday night that aeration of the water supply reduced the TCE by 30 percent in the first test of the recently installed system

He added, however, that several experimental adjustments of the aeration equipment are planned this month which could increase the effectiveness of the system and potentially remove a higher percentage of the contaminant

State laboratory analysis from city water samples taken on December 16 revealed 75 ppb of TCE and a December 21 sample tested at 80 ppb of the chemical suspected to be carcinogenic, or, cancer-causing. These are the highest levels recorded since the discovery of TCE in Charlevoix city water in October, 1981 The highest reading for the municipal water supply previous to the December tests was 55 ppb of TCE.

Hunt said that it is difficult to draw conclusions from the recently detected high levels since there were no samples taken in December, 1981 with which to compare the December, 1982 data. He explained that the 75 to 80 ppb level may be part of an annual cycle and that such levels may have been present at the same time last year, though no one realized it because no samples were taken at the time

It has been theorized by Hunt and the Health Department that TCE levels in city water follow an annual cycle related to the seasonal recharge of underground aquifers from which the municipal well draws its raw water

The aeration system designated by the council as an immediate short term approach to the TCE problem was put into service December 22 Only one sample could be taken before temporary mechanical problems developed Before aeration, city water tested at 80 ppb of TCE. A sample taken after installation of the system contained 56 ppb of TCE.

In a statement released Monday, Hunt explained that many more adjustments are planned to make the aeration more effective

Wrote Hunt "City staff believe the performance of the aeration

Height variance will allow towers atop Weathervane

In its first meeting since being established by emergency action of the City Council last month, the new city Board of Appeals granted a height variance to the Weathervane Terrace which will allow the addition of three stylized towers to the Weathervane's expansion project now under construction

The highest of the three towers, the design of which is similar to the towers on the exsiting Weathervane Terrace structure, will rise 52 feet above ground level The city zoning ordinance dictates a maximum height of 35 feet so the developers, Arch Wright and Richard Georgi, sought the 17 foot variance first from the City Council acting last November 15 as the Board of Appeals and again Monday night from the newly formed board

The City Planning Commission had given its approval to the towers on November 8 citing the fact that no views were obstructed and no use of the property intensified because of them The City Council subsequently turned down the variance but later reconsidered and indicated tacit approval citing the aesthetic improvement added by the towers to the otherwise "box like" structure The Board of Appeals granted the variance Monday by a 4-1 vote

Meeting to be called on summer tax collection

by FRAN MARTIN

The proposed summer tax collection and the concern shown by parents regarding the drinking water at Charlevoix schools were the chief topics discussed at the regular meetin of the Charlevoix Board of Education Monday night

Superintendent Gordon Van Wieren outlined the recently adopted state legislation which allows summer tax collection. He explained how such a system in which one installment of tax collections from local units of government is made in the summer

Continued on page 4

John E. Kurtz, second from left, vice president and cashier of the First State Bank, is pictured presenting a check for $170,000 to Robert D Muma, city treasurer-comptroller, after Mayor Kenneth A Staley (far right) had presented the bonds which will mature in 1986 to Louis J Hollow, president of the banking institution which was awarded the bid at seven per cent interest The funds will help finance the city's sewer improvement project

Business Park grant goes to planners

by PEG OHLE

Among the items to be considered by the Charlevoix County Planning Commission when it meets this Thursday is the application by the City of Charlevoix to the U S Department of Housing and Urban Development (HUD) for $190,000 to help fund improvements to the Charlevoix Business Park

Consideration and approval of the application by the County Planning Commission is the first step in guiding it along to HUD The next step is consideration and approval by the Northwest Regional Planning and Development Commission, after which all approvals and comments will become part of the application It is expected that the application will be approved at both the local and regional levels.

In describing the proposed Business Park improvements to HUD, City Manager Robert A Hunt notes that the requested $190,000 would be used to fund a portion of the estimated $314,000 cost of roads, water, and sewer improvements. These would include a 12-inch water main, two gravity sewers, a new lift station, an inter-connecting force main, and road paving The remaining funds would come from a State Small Cities grant, and from the City's general fund and sewer funds

Hunt also enclosed with the grant request to HUD letters of intent from three local industrial firms to add a total of 33,600 square feet of building space in the Business Park if the above-mentioned improvements are made.

The industrial firms are Lexalite International, which would construct a new manufacturing plant of about 30,000 square feet, Charlevoix Manufacturing Company, which would add annodizing equipment to its present facility, and Metric Tool Company, which would construct a new 3,600 square foot building to replace its present rented facility

These three firms would make investments amounting to $560,000 and would generate 30 new permanent jobs and preserve another 19 permanent jobs which are currently at risk in the park, Hunt explained "Once completed, the project is expected to generate $20,572 annually in additional local governmental and school taxes," he wrote

Improvements to the Charlevoix Business Park are in line with the City's recently-adopted Comprehensive Master Plan which includes a growth management strategy objective to increase the non-residential tax base of the City to 40 percent of all valuation

In addition to improving the City's tax base, this objective is intended to increase overall community income and provide jobs in one of the State's highest unemployment areas. The target is $11 million in increased industrial valuation on 44 acres of vacant or underutilized land in and about Charlevoix

Most of the vacant land is City-owned property near the northern municipal boundary (north of Mercer Boulevard and west of US-31), known as the Charlevoix Business Park Although the immediate area surrounding the park is currently occupied by ten firms employing over 240 people, the area has no sanitary sewer service Water, electric, gas, and telephone services are currently available, although the water service is marginally able to meet fire protection needs

It is this lack of required utilities that is currently impeding private investment in the Business Park, Hunt concluded

First State awarded bond bid

The sale of $140,000 in General Obligation bonds was completed last week at the First State Bank of Charlevoix when Mayor Kenneth A Staley presented the bonds which will mature in 1986 to Louis J Hollow, president of the banking institution

During the exchange, John F. Kurtz, Vice President and Chasier, stood by with a check in the same amount which later was presented to Robert D. Muma, City Treasurer-Comptroller.

The transaction followed the acceptance of the bank's bids on the bond at the low interest rate of seven per cent. The bid was the lowest of three received for bonds which will underwrite the Sewer Improvement Project approved earlier by the voters of the city It will include the separation of the sanitary and storm sewers on State St, Antrim St and Prospect Ave The overall cost of the project, $349,000, will be underwritten by a 1 0 mill tax levy for five years approved in 1981 by the voters of the city

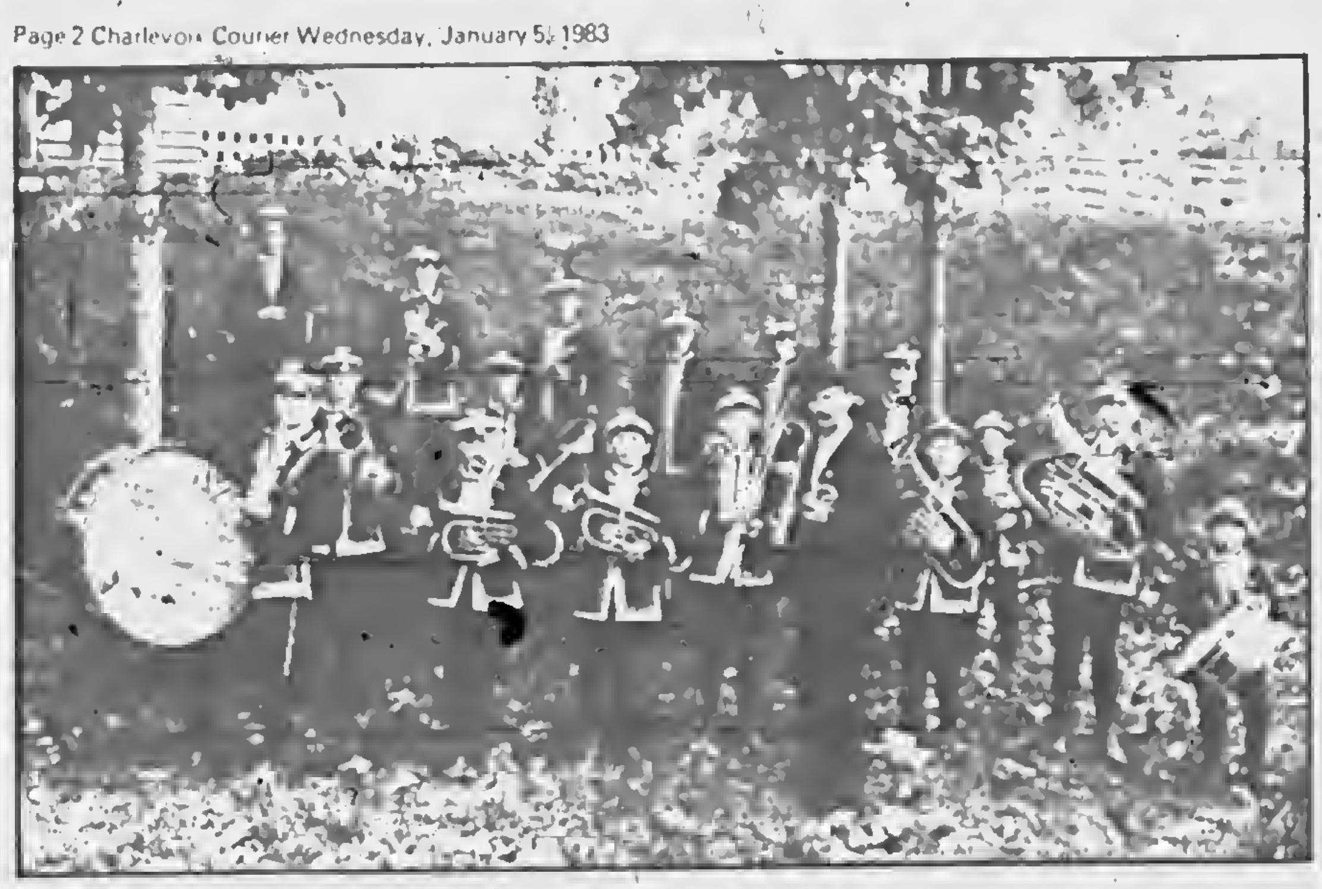
The work on the project was started in October with the major portion of the contract completed last fall by W A Porter Construction Co of East Jordan, successful bidder for the work The project will be completed in the spring

In presenting the bonds to Hollow, Mayor Staley thanked him for the bank's support of the city in purchasing the bonds at the rate of seven per cent "The banking institutions of Charlevoix have always been supportive of the city We certainly appreciate this."

Muma explained that the first payment on the bonds was made from taxes collected in July "This made it possible to borrow less money for a shorter time" he explained. He went on to say that he also appreciated the low interest rate at which the bid came in "The sewer improvement project was something we had to have. We were fortunate to obtain the funds we needed at the low interest rate We appreciate it."

Other bidders on the bonds were Charlevoix County State Bank whose bid came in at 7.6 per cent and the Manley, Bennett, McDonald Co. of Detroit whose bid was 10.497.

JAN



Charlevoix Yesterday

Even in the days of knickers, the boys of Charlevoix had a chance to display their musical ability. These members of "Jarvis' Juvenile Band" seem ready to come forth with a lively number. The names of some of them are scribbled on the back of the picture: Charles Jones, Milo Miller, Art Eagleton, Babe Gonyeau, George Thompson, Eugene Ripley, Guy Green, Cheney.

Obituaries

JOSEPH W. RICKSGERS

Graveside services for Joseph W. Ricksgers, 65, who died December 27 at the Allen Park Veterans Hospital, were held Thursday at Holy Cross Cemetery on Beaver Island. The Rev. Gabriel Fox, O.F.M., pastor of Holy Cross Church officiated.

Mr. Ricksgers was born on Beaver Island April 15, 1917. He was a veteran of World War II.

Among his survivors is a brother, Francis of East Jordan.

The Winchester Funeral Home was in charge of the services.

ANTONIA NALEPA

Funeral services for Antonia Nalepa, 68, who was found dead of natural causes at her Grant Street home Friday, were held Monday at St. Mary's Church. The Rev. R. Dale Magoon officiated. Interment was in St. Mary's Cemetery. The Rosary was recited at the Winchester Funeral Home Sunday evening.

Born in Toledo, Ohio, May 5, 1914, Ms. Nalepa came to Charlevoix at an early age and lived here until moving to Detroit in the early 1940's. She returned here to make her home in 1970. She attended St. Mary's Church.

Surviving are five half-sisters, Mrs. Jack (Anne) Schwarz of Cincinnati, Mrs. John (Betty) McConnaughey of Williamsburg, Mrs. Mary Cooper, Mrs. Wesley (Agnes) Summerman and Mrs. Frank (Terri) Jaskierski, all of Charlevoix.

KCB to meet Saturday

Keep Charlevoix Beautiful will hold its first 1983 meeting at 9 a.m. this Saturday, January 8, at Nanny's Old Place on Ferry Ave. The topic of the meeting will be water quality. Guest speakers will include Health Department sanitarian Larry Levengood and Charlevoix City Manager Robert Hunt.

Set mediation training session

A mediation training session will be held at The Chalet in Gaylord on January 10.

Sponsored by the Northern Michigan Christian Conciliation Service, the session is programmed to teach individuals about the Service and train them in its use. Laurence Eck, national director of Christian Conciliation Services, will be the featured speaker. The program will begin at 9 a.m. and continue into the evening.

The general public is invited to attend. Area attorneys and churches have received personal invitations.

Charlevoix County State Bank President Gordon Wellman presented Charlevoix Area Hospital Administrator Richard Krueger a check for $5,000 just before New Year's Day, as the fourth installment on the bank's $25,000 pledge to the hospitals Fund Raising Campaign that made the new wing and renovations possible.

Operation Petunia cited by KMB

Charlevoix's Operation Petunia and the man who conceived the idea received recognition at a recent meeting of the "Keep Michigan Beautiful" organization in Grand Rapids.

The City was given a plaque and Dale Boss received a Distinguished Service Certificate for the early summer beautification project which resulted in planting 30,000 petunias along US-31 from one end of the City to the other.

The City's and Boss's recognition came as a result of nominations made by local residents to "Keep Michigan Beautiful", which annually makes awards for endeavors undertaken to beautify communities.

Operation Petunia was the only beautification project to receive two awards, according to Boss, although several schools, churches, cities, businesses, newspapers, and clubs received one award for their efforts.

"Keep Charlevoix Beautiful", the local organization which worked with Boss in bringing Operation Petunia to a reality, has enough money in the bank to plant another 30,000 – maybe more – petunias next spring.

Charlevoix resident Dale Boss (right) receives a Distinguished Service Certificate from Anne Javoroski, president of "Keep Michigan Beautiful", while Charles Budd, manager of tour promotion and development for the Michigan Travel Bureau looks on.

McCune Art Center offers full slate of winter classes in arts

Six week winter classes will begin on January 10 at the McCune Arts Center on East Mitchell in Petoskey. They offer opportunities for people from pre-school age through adult to develop talents they have, or maybe discover new interests and hobbies. The programs are made possible with the support of the State of Michigan through a grant from the Michigan Council for the Arts.

The instructors are artists with degrees in art from nationally recognized universities and art schools, and have had many years of teaching experience at all age levels.

Among the courses being offered are "Making Things" by Louise Fuller, Indian River artist and teacher, where the very youngest (pre-school through first grade) can go and discover the fun and pleasure of self-expression through art. Louise has a degree in art education from Michigan State University, and studied art of the orient at the University of Ryukyus in Japan. She finds her students at the Art Center very enthusiastic and eager, and says that many studies have proven that children who have the opportunity to express themselves artistically have greater chances for academic success in school.

Ms. Fuller will also be teaching a course in mixed media for grades 2 through 7, where the students will do such things as paper sculpture, pen and ink drawings, soap carving, block printing, collages and painting.

On Saturday mornings, she, together with artists Sandy Selden and Carla DeLoria, will offer a course entitled "Art Experience" for students in grades 2 through 12. They will work on painting, drawing and pottery. The adult courses Louise Fuller will be teaching during the winter term include Framing and Matting and Life Drawing.

Other courses offered in the six week winter term are painting for grades pre-school through 3, and painting for grades 4 through 7, both taught by Sandy Selden; Pottery for grades 2 through 7 and pottery for grades 7 through 11, both taught by potter Carl DeLoria; Pottery for Adults by potter Bonnie Staffel; Introductory Design by Lynn Haviland; Spinning and Weaving for grades 9 through adult by Cathy Siterlet; and Watercolor for

LAKE TROUT SPEARING -STATEWIDE BAN

The Natural Resources Commission, at its July 14, 1978, meeting, under the authority of Sections 1 and 2, Act 230, P.A. 1925, as last amended by Act 82, renewed the order of August 10, 1973, that no person shall take lake trout by means of a spear or bow and arrow from any of the waters over which this state has jurisdiction for a period of five years effective January 1, 1979.

STURGEON SIZE LIMIT

The Natural Resources Commission, at its meeting on July 14, 1978, under authority of Act 230, P.A. 1925, as amended, renewed the order of August 10, 1973, that no sturgeon may be taken or possessed from the waters of this state of a length less than 50 inches for a period of five years beginning January 1, 1979.

Financial aid is CHS program topic

The Charlevoix High School Counseling Center will conduct a program on financial aid at the high school study hall at 7 p.m. Monday, January 10, to acquaint parents and their junior or senior sons-daughters with the concepts and programs for the 1982-83 school year.

Despite all of the doomsday publicity regarding financial aid for college, most programs are intact and aid is available to those with demonstrated financial need, Charles Bentley, who heads the counseling department, said in announcing the meeting.

He went on to say that public college for the 1982-83 school year will cost about $5400; private schools generally run $2000 to $3000 more per year. This quite obviously is beyond the means of most families though the underlying assumption for all financial aid programs is that the parents have the first responsibility to pay for a college education.

At the meeting scheduled for January 10, Cliff Denay, Financial Aid Counselor at North Central Michigan College, Mrs. Gayle Gennett and Mr. Bentley will present a program devoted to local, state and federal financial aid programs available to Charlevoix High School students.

College and scholarship programs require that financial aid be based on 1982 income. As a result, financial aid applications cannot be completed until parents have completed their 1982 income figures.

Combining the computer with an established example of need analysis from College Scholarship Service, Mark Oostmeyer, a senior student in the computer programming class, has developed a computer program to help parents determine what their expected contribution may be.

Fifteen pieces of information need to be supplied in order to estimate the parent's expected contribution. These are: number of parents at home; number of parents working; number of family members attending college; number of family members; wages of father; wages of mother; other income; adjustments to income; medical and dental expenses; home equity; real estate equity; net value of farm or business; value of cash, checking or savings accounts; value of stocks, bonds and other investments; age of older parent.

With this information, parents can receive a listing of: available income; total assets; asset protection allowance; remaining assets; income supplement from assets; adjusted available income; parent's estimated expected contribution.

If parents would like to obtain an estimate of what their expected contribution to their child's education might be, they are encouraged to bring the information listed above to the program or contact Mr. Bentley at the Charlevoix High School Counseling Center at 547-2811.

In all cases confidentiality is assured Mr. Bentley said.

JAN

Opinion

Knight on the Town

That was a short winter...

by Dave Knight

Ski hill operators, already understandably nervous about a lack of natural snow, should be further alarmed to know that people are sailboarding on Round Lake.

Suspected to be primarily a media event and photo opportunity for us news-starved reporters, the sailboard races held Saturday may actually herald a new trend.

Think of all the things we do in the summer that we could easily do in the winter, too.

Hitch up a tow rope behind the snow machine, put on a pair of skis, and go water skiing on the ice when the lakes freeze solid. But don't take the jump.

Pack a picnic basket and head for the beach. Just replace the lemonade in the thermos with hot cider and make that chili instead of cole slaw.

Seek out the nearest open space, plant a few flags in the snow and hit an orange golf ball around.

Before long, we'll have a summer atmosphere 12 months out of the year. Maybe the Bay Queen can mount an ice-breaker bow on its hull. Either that or get the Mesquite to accompany it around the lake.

Now, if we could only figure out how to keep petunias in blossom all winter...

Clockwise

And getting shorter

by Bob Clock

I HAVE INVENTED a little numbers game to help see me through January. But I had to do a little fudging with the calendar.

To simplify the arithmetic, I have reduced the number of days in January to 30 instead of 31. That means that as of last Saturday midnight — 24 hours after the New Year began, one-thirtieth of winter's worst month had slipped by practically unnoticed.

As of Sunday night, the percentage had soared dramatically to one-fifteenth. And as of midnight Monday, with three full days of January behind us, the percentage was up to one-tenth.

See how fast time flies when you're having fun?

At midnight Wednesday, Jan. 5, one-sixth of the month will have passed and at Saturday noon we will have disposed of one-quarter of our new 30-day January.

Although percentages are not so impressive from here on, they are sufficient to give some comfort to spring gardeners.

At midnight next Monday, for example, one third of the month will have passed and the following Saturday, the month will be half over.

MY LITTLE GAME will work even better in February, which has only 28 days this year, but February never bugs me as badly as January because it is followed so closely by March, the Vernal Equinox and all that happy celestial stuff.

My real problem is with January, which was a real barn-burner last year, as you'll recall. We had a blizzard every weekend and spent the rest of the week looking for our cars.

However, once we can get January behind us, we should be home free for another year. I remember some Februaries when we had nary a flake of snow. And although March storms can be vicious, the snow doesn't last all that long when the sun shines brightly and the days become noticeably longer.

SPEAKING OF SPRING, our Burpee's seed catalogue arrived last week and I have been poring over the new offerings, making my list and checking it twice. The most impressive of the new seeds is a variety of cantaloupe developed in Minnesota which does well in chilly climes where the growing season is relatively short. We'll see. I have cantaloupe on my shopping list.

I have always been puzzled why Northern Michigan muskmelons are so puny — when a couple of hundred miles away around Saginaw Bay they are plump and delicious.

THE BRIGHTEST news at the start of the New Year is that mortgage rates dropped four percentage points during 1982 — meaning that buyers of average homes could save a whopping $230 a month in interest payments.

The report is not only encouraging to home buyers, but also for the construction industry.

The reason for the decrease, however, is not so encouraging: The economy generally is so weak that there is little competition for credit.

Let us hope that 1983 marks the start of an era of unbridled prosperity for America and Americans. The recession has lasted quite long enough...

City Council...

Continued from page 1

system can be improved through adjustments to pumping cycles, raw water supply valves, and other apparatus at the pumping station. A program to test the effects of these adjustments on the TCE levels was developed earlier today and will be put into effect later in the week. This program was developed jointly by City staff, District and State Health officials and the City's consulting engineers. Sample data from the program should permit the City to 'fine tune' its aeration equipment for maximum TCE removal...The observed aerated levels should not produce any toxic effects, although there continues to be a slight possibility of carcinogenic effects if the TCE exposure was prolonged over many years and was combined with exposures to other carcinogens."

In a fact sheet released by the Health Department earlier this year, it was stated that a level of 75 ppb of TCE, if consumed regularly over a long period of time, could produce chronic toxic effects (excluding cancer) such as kidney and liver damage. The excess risk of cancer deaths were estimated at two in 100,000 at a 75 ppb level and one in 100,000 at a 45 ppb level, (assuming a 155-pound adult drinks about two quarts of water per day for 70 years.)

According to the Health Department, "Although TCE in drinking water represents only an estimated low level risk, individuals may not want to assume that risk. Alternatives include obtaining water from other sources, purchasing bottle water, buying a home distillation unit or boiling water. Boiling water for 3 minutes reduces the TCE concentration by 86 percent, for 5 minutes 93 percent and 10 minutes 99 percent. The person boiling the water should not stand over the pot and a range hood or vent should be used so the person will not inhale the vapors."

With several commercial distillers, purifiers, filters and other treatment methods becoming available locally, people are urged to check with the Health Department at 547-6523 before purchasing one to make sure it is effective in removing TCE.

Hunt said that the "fine tuning" of the aeration could take up to a month to complete becaus of the many variables to be tested. Meanwhile a pilot plant is scheduled to arrive this week to begin monitoring of Lake Michigan water for possible future use as a city water supply.

In a lengthy statement to the Council Monday night, Thomas Duke again assailed the proposal to build a lake water treatment plant telling council members, "You are going to have a few surprises when you find out more about using water from the lake. I believe it will cost much more than the $1.5 million that has been quoted when you figure in the cost overruns and other engineering complications that always occur with such a project."

Duke proposed that a citizen committee be established of both city and township residents to study ways of how the two units of government, both with water problems, can work together towards common solution. He also suggested that an out-of-state engineer be contracted to study alternatives to lake water treatement and be given a contract specifying that he will receive no followup work from his study.

In another expression of concern to the Council, Charlevoix Public Schools Superintendent Gordon Van Wieren read a statement passed by the Board of Education at their Monday night meeting.

The Board indicated that school officials have been hearing concerns from parents about children drinking city water with TCE and that alternative means of providing clean water are being investigated. The Board also suggested that the expense of removing TCE from the water used by the schools be reflected in their water bills.

In other action, the Council tabled approval of the Charlevoix County Solid Waste Plan. City Attorney Jeffrey Van Treese advised Council members that if the city wishes to keep using its brush landfill south of town near the Flight Deck bar, it should oppose the plan which calls for the closing of that dump.

Maintaining that the dumping of stumps, leaves and other organic matter poses one of the environmental threat associated with a conventional dump, the council opted to further study the matter before acting on the plan.

Two-thirds, or 14 of the 19 units of local government in the county are required to approve the plan for it to be ratified. Approval has already come from ten of the units.

School Board...

Continued from page 1

to provide an even cash flow for the school district and avoid the high cost of short term loans, could be implemented locally.

The board members decided to call a meeting of city and township officials in the near future to discuss the possible summer tax collection.

Van Wieren also conveyed to the board the concern of parents regarding the drinking water at the schools. Reportedly, some parents have voiced objection to their children drinking city water which has been found to contain the chemical TCE.

A communication to the City Council was composed relating the concern and asking for an adjustment in fees should the schools find an alternate source of drinking water. *(See City Council story.)*

The board was also advised of the loss of the windmill tower, used for generating electricity, at the Beaver Island lighthouse property owned by the school district. The tower fell down during a windstorm over the weekend and was completely destroyed. The district had not accepted the equipment at the time of the loss.

"Coping" group to meet in Boyne City

"Coping?" an ongoing education and support group for people with a life threatening disease and their care givers will meet January 8 from 9:30 to 11:30 a.m. at St. Matthews Rectory basement in Boyne City. Mary Frame, private counselor, will complete the two part series on "Imagery and Motivation". For further information call Lynda Christensen 582-9658 or Rev. Kathleen Smith, 582-2576.

Slimnastics course offered

Dance Slimnastics Ltd. will offer residents of the area an opportunity to "shape up" in an eight week series of aerobic dance classes scheduled to begin here the week of January 10.

The new winter session, titled "Body Shop", will give fitness-minded individuals the chance to work out aerobically as many times a week as desired. They will lose inches, tone muscles, and improve the cardiovascular, or heart-and-lungs system, instructors say.

Under the club's Open Class policy, members can attend class as many times a week as desired. The class fee covers the cost of two one-hour sessions a week. Participants may also attend an unlimited number of additional class sessions at no extra cost.

The classes are planned to be fun. Students enjoy the freshly-choreographed routines which are an important facet of each session. A non-competitive spirit prevails, and class members are encouraged to dance at a level that is comfortable.

Students need no previous dance or athletic experience to enjoy the session. There is a special program for everyone wishing to get in shape or stay in shape, both men and women as well as children and handicapped persons.

Dance Slimnastics Ltd. is a nonprofit fitness corporation headquartered in Port Washington, Wisconsin. Classes and instruction training sessions are offered in 24 states.

For more information on class times and locations in this area, call evenings, 547-4559 or 582-6322.

Engagements

Ortiz-Donaldson

The engagement of Elizabeth Ortiz of Hermosillo, Mexico, to James Donaldson of Charlevoix and Tucson, Ariz., has been announced by her parents, Mr. and Mrs. Jesus Ortiz of Hermosillo, Mexico.

The prospective bridegroom is the son of Mr. and Mrs. Richard Donaldson of Charlevoix and Tucson, Ariz.

Both the bride-elect and the prospective bridegroom are seniors at the University of Arizona in Tucson. The prospective bridegroom is also employed at Sid's Applicance Centre.

Wedding plans will be forthcoming.

Weddings

Mr. and Mrs. Gary W. Schmidt

Mulka-Schmidt

Beth Ann Mulka became the bride of Gary William Schmidt on Saturday afternoon, December 4, in St. Boniface Church in Bay City.

The bride, who has been living in Bay City, is the daughter of Mr. and Mrs. Kenneth J. Mulka of Charlevoix, and the bridegroom is the son of Mr. and Mrs. Edward G. Schmidt of Bay City.

Approximately 250 guests witnessed the double-ring ceremony performed by the Reverend Father Robert DeLand.

Given in marriage by her father, the bride wore a traditional gown of tulle and lace and a veil topped with a Juliet cap.

Karol Koerber served as maid of honor, and Patricia Serour, Amy Periard, and Mary Casper were bridesmaids. They wore gowns of lavender ribbon print.

Robert G. Larkin served as best man, and James Dodge, William Parks, and Jeff Westphal were groomsmen. The bride's brothers, Mark and Paul Mulka, were ushers.

Following the wedding ceremony, the bride's parents hosted a reception at Das Michigan Haus. The rehearsal dinner was hosted by the bridegroom's parents at their home.

The newlyweds will be at home in San Diego, where the bridegroom will be stationed with the United States Navy.

Mrs. Michael Rowe

Korn-Rowe

Joan Faith Korn and Dr. Michael Steven Rowe recently exchanged marriage vows at Congregation Shaarey Zedek in Southfield.

The bride is the daughter of Mr. and Mrs. Monte Korn of Southfield and Boulder Park, Charlevoix. The bridegroom is the son of Dr. and Mrs. Irving Rowe of Southfield.

The new Mrs. Rowe was graduated from the University of Michigan with a bachelor's degree in education and received a master's degree in teaching the learning disabled from Oakland University. She also holds a certificate in special education from Michigan State University.

Dr. Rowe earned a bachelor of science degree from the University of Michigan and his M. D. degree from Wayne State University's Medical School. He has completed a residency in internal medicine at Sinai Hospital of Detroit and is finishing a fellowship in allergy and clinical immunology at Henry Ford Hospital in Detroit.

Following a wedding trip to Bermuda, the newlyweds are at home in Southfield.

LEGAL NOTICES 207

NOTICE OF
MORTGAGE SALE
ON FORECLOSURE
BY ADVERTISMENT

Default having been made in the condition of a certain Mortgage made by Roger P. Shepard to Charlevoix County State Bank, dated May 23, 1980, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan on May 30, 1980, in Liber 160, of Mortages, on Page 303-304, on which Mortgage there is claimed to be due as of the date of this Notice, for principal and interest, the sum of $37,671.57, and no proceedings having been instituted to recover the debt now remaining secured by said Mortgage, or any part thereof, whereby the power of sale contained in said Mortgage has become operative;

Now, therefore, notice is hereby given that by virtue of the power of sale contained in said Mortgage and in pursuance of the statute in such case made and provided, the said Mortgage will be foreclosed by a sale of the premises herein described or so much thereof as may be necessary, at public auction, to the highest bidder, at the County Building, in the City of Charlevoix, County of Charlevoix, Michigan, that being the place of holding the Circuit Court in and for said County, on January 10, 1983, at 11:00 o'clock eastern standard time in the morning of said day, and said premises will be sold to pay the amount so as aforesaid then due on said Mortgage together with 17.50 percent interest, legal costs, attorneys' fees and also any taxes and insurance that said Mortgagee, Charlevoix County State Bank, does pay on or prior to the date of such sale. Said premises are described in said Mortgage as follows, to wit:

Township of Norwood, County of Charlevoix, State of Michigan, Lot 70 Clipper View Subdivision, Part of Section 11 & 12, T33N, R9W.

Further, said Mortgagee, Charlevoix County State Bank, is informed and does believe that Mortgagor, Roger P. Shepard, did on August 27, 1982, enter into a certain Mortgage with Priscilla M. Shepard, a single woman, concerning the above described real property contained in said Charlevoix County State Bank Mortgage and said Mortgage to Priscilla M. Shepard, a single woman, was recorded on August 27, 1982, in the office of the Register of Deeds for Charlevoix County, Michigan, at Liber 166, of Mortgages, of Page 195.

As made and provided by law, the length of redemption period is six (6) months from the time of said sale.

Official Notice

NOTICE

The Hayes Township Zoning Board of Appeals will meet Wednesday, January 12 at 8:00 P.M. to hear an appeal from Jerry L. & Patricia Sadowski. Section of Ordinance appealed: 4.13 Side Yard Setback. Reason: 20 ft. variance request because they thought parcel was 280 x 280 and found out that it is 260 x 260. Location of parcel: S. Pincherry Rd. Zoning: A-1.

Sandra Somerville
Hayes Twp. Clerk

Official Notice

EVELINE TOWNSHIP

The regular meeting of the Eveline Township Board was called to order by Supervisor, David Willson at 8:00 p.m. on December 14, 1982 at the township hall. All board members were present.

The minutes of the previous meeting were read and approved.

Larry Levengood of the county health department explained the proposed County Solid Waste Plan. Motion by John Smith to adopt the following resolution:

WHEREAS, the Township of Eveline, of Charlevoix County has had numerous opportunities to provide input into the development of the County Solid Waste Management Plan; and

WHEREAS, we have reviewed the plan; and

WHEREAS, we believe the plan will accomodate the solid waste generated in the county well into the future;

NOW, THEREFORE, BE IT RESOLVED, that the Township of Eveline, Charlevoix County, hereby goes on record as approving the Charlevoix County Solid Waste Management Plan, with these concerns;

(1) this landfill is to be limited to the 40 acres zoned for a landfill at the present time; and

(2) the landfill is to be operated in a safe and sanitary manner; and

(3) the D.N.R. should keep Eveline Township informed as to the results of all inspections and water sample tests.

The above resolution supported by Linda Hilderbrant; motion carried unanimously.

A treasurer's report was received. Motion by Wayne Saunders to transfer $4,000.00 from the Federal Revenue Sharing Fund into the General Fund to cover salaries; supported by John Smith; motion carried.

John Smith made a motion to pay the bills on hand with check #844-#880 amounting to $5,874.25; supported by Wayne Saunders; motion carried unanimously.

Motion by Wayne Saunders to adjourn; supported by Eric Belshleg; motion carried. Adjournment at 10:30 p.m.

Dane Tollas didn't let an East Jordan defender stop his drive to the basket in the Rayder victory last week.

EJ Red Devils scorched by red hot Rayders in 72-30 rout

The Charlevoix Rayders outscored the East Jordan Red Devils in every period as they defeated the visitors 72 to 30 in the only game in the area played between the holidays.

Charlevoix scored on 42 per cent of its shots from the floor or on 26 of 61 to the Red Devils 22 per cent. The Rayders had 39 rebounds to 29 for the visitors.

It was the Rayders all the way as they outscored East Jordan 21-3 in the first period, 16-9 in the second quarter for a 37-12 halftime lead and 20-4 in the third period to go ahead 57-16 as the game went into the final period.

Nine of the Rayders 11 players scored with Craig Klooster scoring 21 points plus having 21 rebounds and six assists. John Buick has six for the visitors.

Coach Dave Smith said the game was a good tune up for the meeting with Harbor Springs scheduled for Tuesday in Rayder territory. He went on to say that he was pleased with the team's defense and overall rebounding and the good team effort in the press during the first half. He said the team also moved the ball well against a zone defense.

He added that he was pleased with Tim LaBlance and the way he ran the offense. He also had seven assists.

Coach Smith also commented on two other players who came off the bench, Dane Tollas who shot well and had 12 points though he did not start and Doug Sloan, up from the JVs, who rebounded well and played his best game.

Charlevoix will host a strong Harbor five on Tuesday.

Junior Varsity team posts 49-41 victory over East Jordan

The Charlevoix Rayder Junior-Varsity got into the win column this week with a 49-41 victory over the East Jordan JVs.

Paced by Brent Cole with 17 points, the young Rayders jumped to a 12-4 first period lead, increased the advantage to 24-13 at halftime and 38-24 at the three-quarter mark. In the final period the visitors outscored the Rayders 17-11 to trim the victory margin to 48-41 at the buzzer.

The Rayders had 20 field goals and nine of 14 from the line while collecting 16 personal fouls.

The Red Devils had 14 from the floor and 13 of 18 from the line and 15 personal fouls.

Thad Morgan had 11 points to join Cole in the double figure bracket.

Gerry Coolman had 21 and Mike Goebel 12 for East Jordan.

Ski team awaits snow

"We're praying for snow" is the first thing Eric Lundteigen, ski coach at the Charlevoix High School, said when asked about the forthcoming season for the Rayder Ski Team.

"We're ready for the snow. We've been ready" Coach Lundteigen continued adding that the team has been undergoing a lot of dry land training including running, sprints and stretching in preparing for the season which is scheduled to

Tie Breaker Game
KIT CARSON

☐

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of one game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

Basketball contest winners

LeRoy Buchanan of Charlevoix was the top prize winner in last week's *Courier* Basketball Contest. Taking second was W. Sloan, also of Charlevoix. Both missed only one game but Buchanan came closer on the tie breaker and thus wins the $15 first place gift certificate.

Art Center winter classes

Continued from page 3

Adults by artist Stephen Kendall.

There will also be a large offering of classes in dance, beginning with the course in Movement and Dance which the pre-schoolers enjoy so much, taught by Diana Weltich. Classes such as this are not only fun for the little ones, but very helpful in developing their gross motor coordination, which aids academic learning in school.

Ms. Weltich also will teach beginning ballet for grades one to three, and Beginning Teen Jazz for grades 7 through 12. Wendy Timmer will teach the beginning ballet for adults, and the intermediate ballet for grades 4 through 7. The beginning class in Modern Dance will be taught by Sue Ponischil, and Diana Mason will offer Beginning Jazz I and Beginning Jazz II. In addition, the Treece Technique Aerobic Dance will be held at the Arts Center on Tuesday and Thursday mornings and evenings.

Music classes will include Beginning Voice for grades 6 to 8, and Beginning Voice for grades 9 through adult. Singing Folksongs will be held for grades 1 to 3, and also for grades 4 to 6. Fran Tollas will teach these group classes, and will also offer private lessons. Private music lessons will also be offered in piano, organ, violin, flute, low brass, clarinet and trumpet, all by qualified instructors.

Arts Center Director Sean Ley believes that the class offerings are probably the most important function of the Center, and is anxious to bring many new people into the classes. Please phone the Arts Center at 347-4337, Mondays through Saturdays from 10 till 5, for further information, to register, or to obtain a complete class listing with times, dates and prices.

Why not treat yourself or a member of your family to this opportunity to do something that might be new and different for you in the New Year?

Ski team ready to go

Continued from page 7

open Wednesday, Jan. 12, at Nub's Nob at Harbor Springs. Also competing in the meet which Petoskey and Harbor are hosting will be Gaylord and East Jordan.

He went on to say that the team had been at Boyne Mountain once and at Shanty Creek twice for workouts on the snow. "Though snow conditions were not ideal, it gave us the feel of the snow and that helped" Lundteigen said. He also said that during the holidays the team had received a lot of help from Mark Lignell, former Rayder skier, and Mike Bonello, former Rayder ski coach.

Among the 34 condidates reporting regularly for training sessions are Tom Egler, boys' team captain, Pete Cockfield and Scott Stebe, seniors, John Marsh and Chris Gibbons, juniors and Mark Trimper and Sam Supernaw, sophomores, all experienced skiers.

Among the returnees for the girls' team are Kim Snizik, a senior and team captain, Tammy Olinger, a junior, and sophomores, Christy Pace, Lenore Erber, and Cheryl Aull.

Other candidates who are showing promise are Jeff Kelly, a junior, and three freshmen, Jason Brindel, Matt Lignell and Noni Pace.

Lundteigen said he also has a group of upper classmen, all experienced skiers, who were out for the team for the first time and who should give the team depth. Among these are Jeff Novotny, A.J. Witthoeft, Mike Baer, Alan Thier and Dave Knepp, all juniors, and John Booms, a transfer from Florida, Mike Martin and Greg Andrick, seniors along with three candidates for the girls' team, Linda Ciuk, Susan Duke and Beth Revoir, all juniors.

Freshmen who are working hard and who are enthusiastic are Sandy Wanek, Wendy Olinger, Sue Miller, Brian Wilmot, Pat Zundel, Pat Gibbons and Jim Morgridge.

Dave Juilleret sets a warm table

by ANNE KELLY

On any given morning at a little unobtrusive restaurant south of town, you might find 20 to 25 early morning risers enjoying coffee, rolls and sharing conversation before heading to work. Juillerets is that kind of comfortable place. And Dave Juilleret is the man who makes the breakfast and the welcome and keeps them coming back.

A native of Harbor Springs, Dave comes from a long line of restaurateurs. Bearing the family name are two other Juillerets, the original in Harbor Springs, famous for their homemade ice cream, and one in Petoskey.

The Charlevoix restaurant was opened in 1951 by Dave's parents. He himself was born and raised in the business.

After graduating from high school, Dave spent three years in the Navy where he was trianed in cooks and bakery school. But his real expertise and love of the restaurant business was nurtured right at home where he worked for his parents until 1970 when his father retired.

How to be successful in the eatery business despite a declining economy and the ever present threat of competition? Dave boils it down to a simple formula: "You've got to make it so people really enjoy eating with you."

Dave, along with his wife who at one time worked in the restaurant with him, has been active in the community as well as the business. Dave has served on the Chamber, been a member of the Charlevoix High School Band Boosters and directed a youth group for the Church of God. He's always willing to sponsor a car wash on his parking lot. Recent controversy over the Indian fishing rights found him actively involved in the anti-gill netting campaign.

Celebrities eating at Juilleret's? Sure there are some who have found their way to his restaurant but the help usually has to point them out to Dave.

"I get more excited if a guy comes in who is a good fisherman and we can shoot the breeze," he says.

"The food business is very hard work," Dave is quick to admit. There are the long hours and the challenge of trying to please many different kinds of people.

Juilleret's seats about 50 and is open seven days a week. Dave's day starts at 3:30 a.m. when he comes in to bake the fresh-daily cinnamon bread for which the Charlevoix Juilleret's has become famous.

He works through until 2 p.m. when he is relieved by his son or son-in-law who carry on for him during the evening hours.

"We try hard to give people what they want," explained Dave. "Today if you are waiting for your dinner at a restaurant you've got to wonder: is it taking a long time to cook or is it taking a long time to thaw. We do 98 percent of the food preparation right here."

So if you are waiting at Juilleret's, at least you know you are waiting on some good home cooking.

A combination of putting out good food and a real gift for meeting and enjoying people are two factors that have made Dave's efforts successful over the years.

"If people like what you're doing and compliment you about it, that's what it's all about."

Photo by Anne Kelly

Dave Juilleret stands next to some trays of his cinnamon bread which has made Juilleret's Restaurant the morning place to be.

Puff's HOME CENTRE

NORTHERN MICHIGAN'S HEADQUARTERS FOR FINE FURNITURE, CARPETING, DRAPERIES, KITCHENS, BATHS, APPLIANCES, TV's, STEREOS.

PROFESSIONAL DESIGN SERVICES...

TO OUR VALUED CUSTOMERS ...

... In the Charlevoix, Ellsworth, East Jordan, Boyne City Area.

Effective January 22, 1983, our Charlevoix store will close and our staff and all merchandise will be consolidated in our Petoskey store. The reason for this change is complex ... but let me explain.

During the past six years, since I have been the owner and general manager of Puff's, our business has grown tremendously ... in fact by about 500 percent. We have gained this additional business by broadening our lines of products by adding fine furnishings, floor covering, kitchens, baths and stereos ... we also dramatically increased our television and appliance business, with which Puff's has served you over 20 years.

The primary reason for this growth has been a unique concept of combining five stores under one roof and making available to you heretofore unknown assortment of quality merchandise at fair prices and serving you with professional people that are specialist in each of the five stores.

This "complete store for the home" concept is impossible to duplicate In the 2000 sq. ft. facility we have in Charlevoix ... and obviously financially not feasible to duplicate so close to our Petoskey Home Centre.

We have found that people making a major purchase are very happy to drive a little bit further for a larger assortment of merchandise plus expert sales and design assistance. More and more ... our traffic pattern in our Charlevoix and Petoskey stores has reinforced this fact.

My personal goal is to constantly instill growth in our business and be a forward thinking merchant...therefore this move may appear to be the contrary...but I hope the above facts will help you understand that this is a positive move not only for Puff's but for you our very valuable clients.

During 1983 and the future...all of us at Puff's Home Centre will work even harder to provide you with: ...
- The finest SELECTION of Quality Products!!
- Professional SALES & DESIGN Assistance!!
- Outstanding Service!!
- The most for your Dollar!

I would certainly appreciate any comments you may have.

Sincerely,

Joe Blachy

J. W. F. Blachy

SCOTT ALLEN REICH *is the first baby of the new year to be born at Charlevoix Area Hospital. Born at 5:09 a.m. Wednesday, January 5, Scott tipped the scale at five pounds, 13 ounces. He is the son of Dale and Mary Reich of East Jordan. This New Year's baby had special significance to the hospital staff since his mother, shown above with the new addition, is employed in the housekeeping department of the hospital. For being the first baby of 1983, Scott and his parents are the recipients of prizes donated by twelve area merchants in the Courier's annual "First Baby Contest."*

Big Rock not planning to close or lay off, say plant officials

by DAVE KNIGHT

"Outlandish" is the word used by Big Rock Point nuclear plant spokesman Robert W. Grupp to describe rumors that Consumers Power Company will close the plant in the immediate future.

Grupp acknowledged last week that a decision to close the plant "was within the realm of possibility" but indicated that recommendations made recently by plant staff to senior management were to keep the plant operational by cutting costs and seeking a more favorable licensing treatment.

Big Rock's profitability has suffered from skyrocketing operating costs in recent years. The cost of running the plant has more than doubled since the 1970s from $3 to 5 million a year to about $9 million annually the past three years.

"Since the Three Mile Island incident the NRC has come down with several modifications we have had to implement, some at a cost of millions of dollars," said Grupp, "It's part of our cost cutting strategy to bring those projects to conclusion and work with the NRC to see that any future modifications are totally justified for a plant this size."

Big Rock produces 75,000 megawatts of electricity, about one percent of the Consumers Power grid, and is the oldest boiling water reactor still operating in the country. In September the plant observed its 20th anniversary.

According to Grupp, plant personnel have sent a two-pronged recommendation for continued operation of the plant to Consumers Power corporate headquarters in Jackson. A primary objective will be to cut costs by phasing out employees working on special projects, many associated with NRC-mandated modifications. More labor costs are also planned to be saved through attrition; some employees who retire or who are transferred may not be replaced.

Grupp stressed that no layoffs or other reductions of the work force at Big Rock are planned. He pointed out, in fact, that Burns Security, the firm contracted to handle security at Big Rock, has just completed a hiring phase.

Along with cutting operating costs, the recommendation also suggests that a "new licensing treatment" be sought from the NRC. Grupp said that the federal agency has indicated willingness to talk about Big Rock's unique situation when blanket modifications are ordered for nuclear plants in the future.

Further complicating the picture is the pending request by Consumers Power to enlarge the storage capacity at Big Rock for spent fuel rods. An Atomic Safety and Licensing Board hearing on whether Big Rock can store up to 441 fuel rods, up from a present capacity of 193, was begun last summer at Boyne Mountain. The hearing was adjourned indefinitely, however, and there is no firm indication as to when it will be reconvened and when the ultimate decision will be handed down. The plant can operate for less than two more years with its present spent fuel storage capacity. The application and hearing process for this request alone has cost Consumers Power almost $3 million.

Cost effectiveness is not the only factor in the decision to keep Big Rock open, added Grupp.

Fuel research has been an ongoing side-mission for Big Rock which has contracts for research projects with General Electric and Exxon Nuclear Corporation. Its longevity also makes the plant an interesting case study.

"Big Rock is actually very valuable to the entire nuclear industry," said Grupp, "It is one of the only examples of what happens to a plant that has been producing nuclear power for 21 years."

Grupp also noted Big Rock's value to Consumers Power as a training facility. Consumers Power employees destined for positions at the company's two other nuclear facilities, Palisades and Midland, are routinely stationed at Big Rock for initial training because of the plant's relatively simple operation.

The company sought last year to lease additional space for training in the City of Charlevoix but has since decided not to secure any additional facilities in the city.

Ludington firm will test private wells

by DAVE KNIGHT

At least one private laboratory has been located to serve Charlevoix area residents wishing to have their drinking water supply analyzed for such contaminants as trichloroethylene (TCE).

Aquatic Systems, Inc. of Ludington will test drinking water samples for volatile halogenated hydrocarbons, the family of chemicals including TCE, for about $75 a sample.

The complicated and lengthy testing procedure used for TCE at the state laboratory in Lansing has prevented the Health Department from being able to analyze samples from private wells. According to Health Department officials, the laboratory's testing capacity is already being taxed by the samples from municipal water supplies such as Charlevoix's.

Despite the work overload, results from water samples sent by the City of Charlevoix to Lansing are now being received in about a week to ten days. Results are due this week on the series of tests performed last week on the newly installed aeration system. The last results, from a sample drawn January 3, revealed a

Moerland to chair new county 'Board of Six'

by PEG OHLE

Lee Moerland of Charlevoix was elected chairman of the 115th session of the Charlevoix County Board of Commissioners at its organizational meeting last week.

Moerland, who represents the City of Charlevoix on the County Board, has served on that body since 1968 and before that he was a member of the County Board of Supervisers.

Larry Matthew of Walloon Lake was elected vice-chairman of the County Board. He represents the townships of Hayes, Bay, Evangeline, and Melrose on the Board, of which he has been a member since 1977. In the 1960's, he served on the County Board of Supervisers.

This was the first meeting of the "new" County Board, which last year was reduced from 15 members to six as a result of re-districting brought about by population shifts.

Because there are now fewer Commissioners on the County Board, the former committee system of handling County business has been changed to a liaison system in which a single Commissioner will be responsible for keeping track of the activities of the various County departments. However, there are still three standing committees consisting of three men each: Statutory Finance; Ways and Means; and Legal, Settlement with County Treasurer and Rejected and Charged Back Taxes.

The responsibilities of each Commissioner are outlined below.

Larry Matthew: Member of Statutory Finance and Ways and Means Committees and Liaison Commissioner for Conservation and Agriculture; Elected County Officials; and Insurance, Advertising and Printing. He will also be a Board Representative on the Building Code Board of Appeals; R.C. & D. and Fair Board; Health Systems Agency (alternate); Northwest Criminal Justice Planning (alternate); and the Act 258 Board (Mental Health).

Ralph Harmon of Boyne Falls, who represents Hudson, Chandler, Boyne Valley, Wilson, and the eastern part of Eveline Township, has the following assignments.

Member of the Ways and Means Committee; Liaison Commissioner for Building Codes Administration and Ironton Ferry and Airports. In addition, Harmon will be County Board representative on the Building Codes Board of Appeals, Health Systems Agency; Northern Michigan Counties Association (alternate); and the Road Commission.

Oral Sutliff, who represents the City of Boyne City, will serve on the Statutory Finance and Ways and Means Committees and will be a County Board Representative on the District Health Board (alternate); a member of the District Health Board Board of Appeals; Commission on Aging; County Parks and Recreation; Area Agency on Aging; Northwest Michigan Manpower Consortium (alternate); and Northern Michigan Counties Association.

Thomas Breakey, who represents the City of East Jordan and South Arm Township, will serve on the Legal, Settlement with County Treasurer and Rejected Back Taxes Committee and as a Liaison Commissioner for the Department of Public Safety, including Sheriff, Marine, Secondary Patrol, and Emergency Preparedness. Breakey will also represent the County Board on the District Health Board Board of Appeals; Area Agency on Aging (alternate); Northwest Michigan Human Services; Northwest Criminal Justice Planning; and Veterans' Affairs Commission.

Donald Smith of Charlevoix Township, who represents that township as well as western Eveline, Marion, Norwood, St. James and Peaine Townships, will serve on the Legal, Settlement with County Treasurer and Rejected Taxes Committee and as Liaison Commissioner for the County Planning Department; Elected Judiciary, including the Circuit, District, and Probate Courts; and the Equalization Department for

Flanking I. Lee Moerland, center, District 6 commissioner and new chairman of the Charlevoix County Board of Commissioners are, from left, County Clerk Jane Brannon, Commissioners Ralph Harmon, Dist. 2; Donald Smith, Dist. 5; Oral Sutliff, Dist. 3; Thomas Breakey, Dist. 4 and, seated, Larry Matthew, Dist. 1 who was elected vice-chairman of the board.

JAN

Obituaries

JOHN A. AARDEMA

Funeral services for a former Ellsworth resident, John A. Aardema, 60, of Worth, Ill., were held at the Colonial Chapel of Orland Park, Ill., Friday. Interment was in Fairmont Cemetery, Willow Springs, Ill.

Mr. Aardema died unexpectedly January 4 at the Charlevoix Area Hospital after suffering a heart attack while visiting relatives in Ellsworth.

Born in Central Lake Sept. 16, 1922, he was married to the former Tracy Solle in Chicago in June 1949. They lived in Chicago until 1959 when they came to Ellsworth to live. In 1958 they returned to Chicago where he was employed as a truck driver by the Chicago Sanitary Service. He was a veteran of World War II. He was a member of the Palos Heights Christian Reformed Church.

Besides his wife, he is survived by a son, Martin J. of Crestwood, Ill.; five daughters, Mrs. David (Barbara) Bruinius of Tinley Park, Ill., Mrs Dennis (Lorraine) Pegues of Hickory Hills, Ill., Mrs. Peter (Phyllis) Roeters of Worth, Ill., and Gwen and Joanne, at home; 11 grandchildren; one sister, Mrs. Edward (Marge) VanderLeest of Chicago and three brothers, Martin of Ellsworth, Robert of Lansing and Edward of Oaklawn, Ill.

The Hastings Funeral Home was in charge of local arrangements.

The family suggests memorials to Bethshan. Envelopes for this purpose may be obtained at the Hastings Funeral Home.

JERRY WALKER

Funeral services for Jerry Walker, 70, who died Thursday at his Lincoln Street home, were held Saturday at the Greensky Hill United Methodist Church. The Rev. David W. Yingling officiated. Burial was in the Greensky Hill Cemetery.

Born in Charlevoix June 7, 1912, Mr. Walker was graduated from the Charlevoix High School in 1930. He served as an airplane mechanic in the U.S. Air Force from 1942 until 1946. He was employed in construction in Chicago until 1957 when he returned to Charlevoix. He was employed as a custodian at the Charlevoix Middle School from 1964 until 1974. He was a member of the Greensky Hill United Methodist Church.

He is survived by a brother, William of Muskegon and two sisters, Mrs. Joseph (Irene) Compo of East Jordan and Ms. Clara Walker of Charlevoix.

The family suggests memorials to the Greensky Hill United Methodist Church.

The Winchester Funeral Home was in charge of arrangements.

LEONARD W. MONTGOMERY

Funeral services for Major Leonard E. Montgomery, 74, U.S. Army (Ret.), Little Torch Lake, were held Friday at St. Paul's Episcopal Church in Elk Rapids.

Major Montgomery died Jan. 4 at Munson Hospital in Traverse City.

A native of Detroit, he was graduated from Michigan State University in 1934. At that time he was commissioned an officer in the U.S. Army. He retired after serving 29 years and had lived at Little Torch Lake for the past 14 years.

He is survived by his wife, Peggy, of Ellsworth; a son, James W. of Grosse Pointe Woods; one daughter, Mrs. Thomas (Marcie) Plough of Seneca Falls, N.Y.; six grandchildren; one brother and three sisters.

Ice caves along Lake Michigan have long fascinated local residents. They are caused by the right combination of wave action and temperature and sometimes reach large proportions as indicated by the above photo taken in the 1920's showing eight people sheltered by a roof of ice. There have been no reports of ice caves yet this year as neither Lake Michigan nor Lake Charlevoix show signs of freezing in the unusually mild winter. (Photo courtesy of Tinker Kirby.)

Tie Breaker Game
OLESONS
☐
Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES
1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.
2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of one game in the tie breaker box.
3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.
4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

Bloodmobile tops quota by one pint

"We had a successful drive. We went over the top", Mrs. David Fowler, coordinator for the recent visit of the Bloodmobile, said of the blood drive which netted 126 pints, one over Charlevoix's quota of 125 pints.

It marked the first time in recent months that Charlevoix was able to meet its quota.

"Everyone responded. They must have realized the supply was short and we were really in need of a new supply following the holidays" Mrs. Fowler said, adding that the clinic was the busiest Charlevoix had known in a long time. "From the time the Coast Guardsmen started coming at 1 p.m. until we closed shop at 7 p.m. we were working hard" she added.

The response of the Coast Guardsmen from the Charlevoix station and the U.S.C.G. Cutter Mesquite are creditted with putting the drive over the top. They gave 20 pints between them Mrs. Fowler said.

A total of 148 donors responded Mrs. Fowler said. However, 22 were deferred for various reasons, most medical. There were 13 first time donors among this number.

However, there were still 23 persons who made appointments but did not keep them and another 20 who said they would walk in but didn't show. "This is disappointing because we count on them" she added.

The next Red Cross Bloodmobile visit is scheduled for June 9.

"We are in need of volunteers before another Bloodmobile visit. With people moving and for various other reasons our list of volunteers is getting shorter and shorter. This time our volunteer coordinator, Mrs. Vernon Mathews, Jr., had a hard time filling the various work slots. If any individual or any group of persons would like to assist we would appreciate it if they could call Mrs. Mathews and find out the types of volunteers she needs" Mrs. Fowler said.

The chapters of Beta Sigma Phi sorority staffed the canteen as in the past. Oleson Foods supplied the jucie and First State Bank the coffee. "I was also pleased at the response for the call for homemade cookies. Ten people responded with in excess of 20 dozen cookies. It was great" Mrs. Fowler commented.

TIM KITTS, *assistant head coach from the Olympic Academy of Gymnastics in Newark, Ohio, is shown above conducting the Christmas gymnastics clinic offered last week by the Charlevoix Gym Club. The academy is the national training and testing center for the United States Association of Independent Gymnastics Clubs.*

Workshop to feature Moffit's pottery

by ANNE KELLY

Joan Moffit examines some of her work.

The second in a series of library-sponsored workshops for kids will be held this Saturday, Jan. 15, at 11:00 A.M. in the library's lower level.

The first workshop was held last Saturday at WVOY-KHQ studios in Charlevoix and featured a tour of the radio station.

The program for this week will feature local artist and potter Joan Moffit of Norwood. She will be directing school children grades 1-4 in creating clay wall hanging reed plaques. Children should wear old clothing or smocks.

Ms. Moffit earned certification in Art Education from Michigan State University as well as her M.A. in Ceramics, also from M.S.U. She has taught in Haslett, Kalkaska, and Central Lake and has resided in Norwood where she has had a studio since 1973.

An "Off Bridge St." artist, Ms. Moffit has exhibited at The McCune Art Center, The Waterfront Art Fair, Shain Park of Birmingham, and has done shows in Midland, Plymouth and Traverse City.

Her work is "functional as well as decorative," explained Ms. Moffit. Notable for the technique of iron-oxide-on-clay-relief that is applied to her creations, her work includes a variety of useful objects of art from cookie jars and platters, to oil lamps and complete sets of dinnerware.

Extension to offer pet care clinics

The Charlevoix County Cooperative Extension Service will sponsor Pet Care Clinics at three locations around the county this month. Dates and locations are as follows:

East Jordan, January 15, 10 AM - 12 PM, City Garage, corner of S. Maple (M32) and State St.

Boyne City, January 15, 2-4 PM, Charlevoix County Road Commission Garage, 1051 E. Division.

Charlevoix, January 22, 10 AM-12 PM, Sheriff's Garage, Garfield Ave.

According to Rod Cortright, Charlevoix County Extension Director, the clinics are planned as educational events for pet owners. They are being held in cooperation with the Charlevoix County Sheriff Department.

Services which owners can expect to find at the Extension clinics are information on caring for pets, a schedule of innoculations for your cat or dog, tips on preserving your pet's health in winter, details about the diseases most apt to threaten a pet, a representative from the Humane Society for the convenience of pet owners who which to purchase a dog license, and a veterinarian on hand to provide vaccinations to dogs and cats.

The fee schedule for vaccinations is: Rabies only - $3.00; additional comprehensive innoculation for dogs - $8.00; additional comprehensive innoculation for cats - $6.00.

For more information call the Charlevoix County Extension Office at 582-6232.

More births than deaths in 1982

Vital statistics for Charlevoix County for 1982 seem to tell a stabilizing story: There were more births than deaths and more marriages than divorces.

There were 251 births and 122 deaths; 206 marriages and 96 divorces.

These figures do not differ significantly from 1981, which were 256 births and 126 deaths; 245 marriages and 126 divorces.

In 1980, there were 249 births and 111 deatghs; 232 marriages and 130 divorces.

In 1979, there were 263 births and 100 deaths; 202 marriages and 94 divorces.

Chamber sets dates

The calendar of special events being sponsored by the Charlevoix Chamber of Commerce during 1983 have been announced by Jacquie Merta, executive director.

Feb. 19-20...7th Annual Winter Cup.

Opinion

Knight on the Town

Now that we have your attention

by Dave Knight

To hear Tom Duke tell it, the Health Department, the City Council, the City Manager and any other bureacrat who wants to go along for the ride can take the next Bay Rail Express out of town while someone who knows what they're doing attaches carbon filters to the city water supply.

In his numerous appearances before the council, conversations on the street and, most recently, a debate at Saturday's Keep Charlevoix Beautiful meeting, Duke has almost singlehandedly aroused the public consciousness to what he maintains has been a gross mishandling of the TCE problem.

Actually, "mishandling" is a polite understatement of the terms Duke has used to characterize his feelings. He has gone as far as to suggest recalls and lawsuits. He likes to refer to the threats as "the two-by-four the farmer used to get his donkey's attention." Duke is even reportedly planning to mail to every city resident, at his own expense, a rebuttal to the informational brochure on the TCE problem issued by the city last week.

His crusade has been effective.

Never in the 15 months since trichloroethylene was discovered in the city's water has the public awareness of the situation been keener. Ironically, the Health Department officials Duke attacks for doing nothing have congratulated him for accomplishing what they claimed they could not: to get people concerned.

Where they, and City Hall, part company with Duke, however, is in the degree of immediacy with which the problem should be approached.

Does a level of 45 to 50 parts per billion of TCE in city water pose an immediate health threat? Are we dealing with a crisis, an emergency? Or is it a chronic problem requring a more pensive, thorough response? It depends on whom you ask.

I have been asking a lot of people lately. Some of what they tell me will be included in a special report in next week's *Courier*.

Writes Arthur C. Upton in *Scientific American*, "Sound policy decisions will depend on public understanding of the issues as well as on the data provided by science."

Tom Duke has used anger and frustration to "get the donkey's attention." He has performed a valuable service in doing so. That attention should now be focused on making the wisest possible decision using the broadest possible data base and reflecting the wishes of the majority.

Sounds easy but it never is.

Clockwise

Better move fast

by Bob Clock

EVEN ROCK-RIBBED trickle-down Republicans are beginning to wonder about President's Reagan's economic policies that have left Michigan with an unemployment rate of 17.3 percent in December — the highest in the state's history, according to the Michigan Employment Security Commission.

And although this corner has been staunchly behind Reagan on grounds that the American economy could not stand much more of Jimmy Carter's spend-and-tax policies, the time probably has come for Reagan to take a long hard look at what has been happening and come up with some incentives to put America back to work.

As terrible as the jobless rate is (10.8 percent nationwide, the highest since the Great Depression), we must not lose sight of the fact that Reagan has managed to bring our 20 percent inflation rate under control. And while other nations are experiencing double-digit inflation, Americans are enjoying modest increases of only five or six percent in the cost-of-living. (The Mexican inflation rate, incidentally, is approaching 100 percent.)

Critics of the Reagan Administration say our relatively low inflation rate is tied directly to our high unemployment rate, and there is unquestionably is some connection. There is no advantage in charging $1.50 for a product that isn't moving at $1.25.

But with the wealth of brain-power in Washington, Reagan's cohorts should be able to come up with a job-incentive program that would not destroy the gains made in reining back inflation.

If such a program calls for temporary wage, price and profit controls — so be it. We lived with controls during World War II, and we can do so again if the security of the nation is at stake.

And at a time when almost 20 out of every 100 willing workers cannot find jobs, the security of the nation is in grave jeopardy. Fortunately, patience is surfacing as one of our greatest national assets. It would behoove the administration to move swiftly before it wears thin — or wears out.

LIKE DECEMBER, January is proving a boon to those of us who must wrestle with home heating bills. We shudder to think what our latest Michigan Con bill would have been if we hadn't been blessed with such mild weather.

Of course, our ski resorts would appreciate a good old blizzard, which would blanket the hills and convince more downstate skiers to head north.

Weather watchers now are now beginning to wonder if Lake Charlevoix will ever freeze — an event that normally takes place the first week in January. Monday morning's warm rain was a discouraging blow to ice-boaters and ice fishermen.

However we can't recall a year when the lake didn't freeze — so it's probably still in the cards.

Private water testing available

Continued from page 1

TCE level in city water of 51 parts per billion with aeration.

To arrange testing of private water supplies, area residents can reach Aquatic Systems, Inc. at 5693 W. Third St., Ludington, MI, 49431. According to the firm, if enough people in this area request analyses, a company representative will be sent to help take the samples.

Local Health Department sanitarian Larry Levengood has also expressed willingness to assist people in taking valid samples for private analysis.

New board off to good start

by PEG OHLE

Residents of Charlevoix County need not worry about it any more.

Their smaller Board of Commissioners got off to a good start last week at its organizational meeting.

Despite the fears voiced by many that six men could not do the work previously done by 15, the new assignment lineup seems to allow every Commissioner breathing room.

And besides the organizational changes, other changes in meeting procedures were adopted to promote the efficiency of the County Board:

From now on, all meetings will be taped to provide a fuller record of the proceedings. Meetings will be conducted in compliance with a newly-adopted set of rules which streamline courses of action. Important business will be conducted early in the meetings, leaving committee reports and correspondence to the end. The long-posted "No Smoking" rule will be enforced.

These changes all portend a successful life for the 115th session of the Charlevoix County governing body.

The Courier offers its best wishes and pledges its support to County Board Chairman Lee Moerland and other members of the Board.

(A full report on Commissioners' assignments appears elsewhere in this paper).

Committee assignments

Continued from page 1

Apportionment and Township and City Clerks' Reports. Smith will also be County Board representative to Northwest Michigan Human Services (alternate); Northwest Michigan Regional Planning Commission; County Planning Commission; and the Social Services Commission.

Lee Moerland, in addition to his duties as Board Chairman, will serve on the Statutory Finance and Legal, Settlement with County Treaurer and Rejected and Charged Back Taxes Committees. His Liaison Commissioner responsibilities will be for Buildings and Grounds and Child Guidance and Youth Programs. Moerland will also be County Board representative on the District Health Board; the District Health Board Board of Appeals; Northwest Michigan Manpower Consortium; and Northwest Michigan Regional Planning Commission (alternate).

In addition to attending meetings required by the above appointments, all County Commissioners will attend two meetings of the Board each month, on the second Wednesday at 9:30 a.m. and 7:30 p.m. They are paid a salary of $150 a month for attending these two regular meetings and $60 a day for other meetings of over four hours (including driving time) and $40 for those of less than four hours.

Letters: We have been patient

To the Editor:

We have been patient. We have given the city a chance, the EPA, the Health Department, etc. The aeration system is given a chance, the engineers are planning, the city is trying to figure out how to finance all this mess.

In the meantime, our kids are freely drinking water in school that is boiled in most individual households. What hypocrisy.

Smug country residents are silently rejoicing that they are not on city water, never thinking a little farther ahead that the groundwater table is a complicated system. Not only can water pollutants come outside from the city limits, we just do not know where and what to expect in the groundwater around Charlevoix or elsewhere.

Why the County Commissioners are not involved in playing a large part in securing clean water rights for their residents is beyond me. Are they waiting for us, the residents in the townships, to develop little purple marks?

In Traverse City, restaurants that have TCE levels lower than in Charlevoix are not serving water to their unsuspecting customers. In Charlevoix we are told to boil our water. That is fine and helpful but what happens when you take a shower? You wallow in the stuff!

The Artists for Environmental Quality held a successful art auction in December to raise seed monies to supply the community schools with safe drinking water. We challenge the community that was so successful in raising thousands for petunias to grace our town, to provide at least safe water that is not at the mercy of "fluctuating levels of contamination" for our children. Let's give them a chance for not only do they have to cope with the water pollution but all kinds of other environmental and food pollutions that are questionable to their well being.

A word about water filters and pure water machines. I'd like the Courier to print a consumers report on the subject including lab reports as to their effectiveness. Also, a weekly notice about our TCE levels would be appreciated.

Christa-Maria

A thank-you

To the Editor:

We want to publically thank Ski & Shore for donating their Balloon-man machine for use at our annual Santa's luncheon on December 11, 1982. It is the support of local businesses that help make our community service organization successful.

Thank you,
Beta Sigma Phi

Out of the Blue

Often I look at the sticker price,
And I let the object be;
Let 'em stick it to somebody else –
They're not gonna stick it to me!

Home heating assistance now available

Home Heating Assistance is available to income eligible households in Charlevoix County who are experiencing extremely high home heating costs in relation to their income. Northwest Michigan Human Services Agency of Traverse City is currently operating the Targeted Fuel Assistance (TFA) Program, one of five components of Michigan's 1982-83 Home Energy Assistance Programs administered at the state level by the Department of Social Services and Department of Labor-Bureau of Community Services. TFA will provide a one-time only fuel assistance benefit up to $200 per eligible household. NMHSA has been allocated a total of $106,000 to be spread across the ten county service region which includes Antrim, Benzie, Charlevoix, Emmet, Grand Traverse, Kalkaska, Leelanau, Missaukee, Roscommon and Wexford Counties.

Eligibility for this assistance is determined by: 1) the total annual gross income, before taxes and other deductions, and the number of people residing in that household. For a household of ONE, the gross total income must be less than $5,850 per year. For each additional household member, add $1,925 per year. The maximum gross income for a household for FOUR, for example, would be $11,625; 2) the annual cost of all fuels used for heating the home (minus the Department of Treasury's Home Heating Credit or Department of Social Services Special Heating Allowance) must exceed twelve (12) percent of the total gross annual income. Electric costs can be included ONLY if electric heat is used.

Because the eligibility calculations are difficult and somewhat confusing, it is recommended that those who want to apply for the program contact NMHSA by phone to help determine whether or not they qualify. For those areas where the local office is a long distance call (Cadillac 775-9781; Traverse City 947-3780; Petoskey 347-9070) the NMHSA Targeted Fuel Assistance toll free number is 1-800-632-7334. Those who do qualify for the assistance must be able to provide proof of income and documentation of fuel costs.

Tuition aid offered at NCMC

Free tuition is available at North Central Michigan College for the Spring Semester which starts the week of January 24, 1983 according to the Women's Resource Center of Northern Michigan, Inc. in Petoskey. Funds come from the Michigan Department of Vocational Education and are exclusively for vocational classes at the college. This would include courses in the following fields: business, registered nursing, respiratory therapy, marketing, secretarial, allied health, automotive service, criminal justice, data processing-computer programming, construction technology, manufacturing processes, technical drawing, industrial arts technology, small engines and allied equipment and engineering.

These people may qualify for this tuition reimbursement program:

1. A person who has been a homemaker, but now, because of dissolution of the marriage, must seek employment.
2. A person who is a single head of household and lacks adequate job skills.
3. A person who is currently a homeowner and part-time worker but who wishes or needs to secure full-time employment.
4. A woman-man who is now in a job which has been traditionally considered a job for a female-male and who wishes to seek employment in a job area which has not been traditionally considered a job area for a female-male.

If you want to enroll in a vocational program at the college, or would just like to try a vocational class or two to see how you like it, and if you believe you might qualify under one of the above categories, contact the Women's Resource Center, Room 32 at North Central Michigan College or phone 347-0867.

Applications must be made by January 14, 1983.

Sports

Netters open with a victory

The Charlevoix girls volleyball team opened its season Wednesday with a 3-2 win over visiting East Jordan according to Coach Walt Drenth.

The team won by scores of 15-10, 4-15, 15-12.

Coach Drenth said the win was a super team effort.

Starting for the Rayderettes were Meg Fowler, Laura Kemp, Rhonda Buchanan, Connie Borths, Angela McClanaghan and Amy Sell with Maureen Buday and Treasure Drost also seeing action.

In the unofficial match, Mary Ellen Ciuk played well Coach Drenth said.

The JVs lost 3-0. The scores were 15-12, 15-12, 15-12 in East Jordan's favor.

Brimley emerged the winner of the 10-team Petoskey Invitational Volleyball tournamewnt held Saturday in which Charlevoix participated.

Charlevoix met four opponents in its division losing to Inland Lakes 2-0; defeating Cedarville 2-0 and losing to Kalkaska and St. Ignace by scores of 2-0 in each match.

Brimley, Gaylord St. Mary's, St. Ignace and Kalkaska met in the semi-finals with Brimley defeating St. Ignace 2-0 in the finals to take the title.

Charlevoix will be at Boyne City Wednesday.

Members of the girls volleyball team include, front row left to right, Connie Borths, Angie McClanahan, Missy Sandahl, Debbie Towsley, Chris Cunningham, Mary Sherwood, Carol Holmes and Ann Boulton; in the second row are Meg Fowler, Rhonda Buchanan, Treasure Drost, Beth Jones, Bonnie Bergmann, Laura Kemp, Carolyn Bearss and Lara Stargardt; in the third row are Coach Walt Drenth, Stacy Way, Maureen Buday, Amy Sell, Sue Annis, Marta Vliet, Chris Mitchell and Chaya Moore. Missing from the photo are Mary Ellen Ciuk, Laura Henry, Ann Wagner, Tammy Lambert, Sherrie Williams, Barb Stowe and Shawn Hodges.

Wrestlers lose to Rogers City

The Charlevoix Rayder grapplers lost to Rogers City 64-7 after winning only two matches according to Coach Greg Bryan.

Alan Bergmann in the 167 pound weight class won over Greg Smolinski by a 15-5 decision and Scott Mervyn decisioned Stan Malone 9-7.

In other matches Rich Gallant (132) lost by an 11-0 decision to Rick Sobeck; Matt Hull (145) was pinned in 3:13 by Doug Snow; Jeff Zednicek (155) was pinned in :53 by Todd Hentkowski; Wayne Bergmann (198) was pinned in 1:09 by Rob Buczkowski and Jeff Mervyn (hvy. wt.) was pinned in 1:02 by Rob Schieben.

Charlevoix forfeited matches in the 98, 105, 112, 119 and 138 pound weight classes.

Coach Bryan said that Hull and Jeff Mervyn, though only freshmen, showed great improvement against some very tongh competition.

Charlevoix will host St. Ignace Thursday and travel to the Kalkaska Invitational tournament Saturday.

Both Middle School teams win openers

The Charlevoix Middle School boys basketball teams opened their 1983 season Monday night against their counterparts at Boyne City. Both teams won their opening games. The seventh grade, coached by Henry Wagner, won by a 35-21 score and the eighth grade, coached by Barry Pierce, by a 42-35 score.

The seventh graders got off to a fast start and led Boyne City 7-5, 17-12 and 25-14 by quarters before posting their 14 point win.

Dan Drury had 14 points and Scott DeYoung eight for Charlevoix. Brian Napont scored six and Tom Hennessey five for Boyne City.

In the eighth grade game, Charlevoix trailed 8-7 at the quarter and 19-15 at the half before catching fire and outscoring Boyne City 13-2 for a third quarter 26-21 lead. They continued their scoring spree to win 42-35.

Darrin Batdorff paced the scoring with 11 points followed by Kevin Shepard with nine. Pat Weeks with 12 and Steve Stutzman with 11 were top scorers for Boyne City.

The teams were to travel to Harbor Springs Monday and will host Cheboygan on January 17.

BB contest winners

The Ladd family of Wixom cleaned up in the *Courier* basketball contest last week as James Ladd took the first prize and Margaret second. Both missed only one game but James guessed the correct tie breaker score. He wins a $15 gift certificate and Margaret will receive a $10 certificate.

JVs top Hurons

The Charlevoix Rayder JVs added another victory to their growing string last week, a 53-39 win over Rogers City on the Hurons' floor.

After trailing 13-5 at the quarter, the young Rayders came back to take a 20-19 lead at halftime and 34-30 going into the final period. In the last eight minutes they pulled away for the win after outscoring their hosts 19-9.

Charlevoix had 21 from the floor and 11 of 22 from the line. The team had 22 personal fouls. The Hurons had 15 field goals and nine of 29 free throws. They also had 19 personals.

Brent Cole with 15 points and Cris Havens with 14 paced the win. Ron Smolinski had 11 points for the Hurons.

Tim LaBlance drives for a layup against Harbor Springs.

Rayders add two more wins

Not even the pesky Harbor Springs Rams, who last year presented the unbeaten Rayders with their first loss of the season over Christmas vacation, could burst the Rayder bubble this year.

Charlevoix turned on its awsome offensive capabilities against both Harbor Springs Tuesday and Rogers City Friday to remain atop the Michigan-Huron Shores conference along with St. Ignace.

Both the Rayders and the Saints hold unblemished 6-0 records in conference play. A showdown for M-HSC supremacy will take place Friday night when St. Ignace visits the Charlevoix home court for the first meeting of the year of the two teams.

Last week's UPI high school basketball ratings showed the Rayders holding the No. 7 spot for Class C teams in the state and St. Ignace No. 2 in Class D rankings. Both are expected to either maintain those ratings or move up in this week's poll following victories last week.

In Tuesday's game against Harbor Springs, senior forward Craig Klooster demonstrated how he became Charlevoix's leading scorer last year by hitting 12 field goals and seven of seven free throw shots for a season high output of 31 points. Chris Putman aided the cause with 20 while George Smith hit 12.

Harbor was behind from the start trailing 18-12 at the end of the first quarter and 40-22 at the half. In the second half, Charlevoix never looked back enroute to a 61-33 advantage at the end of the third quarter and an eventual 79-47 easy non-conference win.

At Rogers City on Friday, Charlevoix romped again but this time it was as much their defense as offense that spelled victory.

With first quarter and halftime scores of 19-18 and 32-24 respectively, the ballgame was still a contest when the teams took the floor for the third quarter. It was a stingy defensive effort that proceeded to hold the Hurons to eight points in the third quarter and an amazing five in the fourth that sealed a 71-37 rout for the Rayders.

Klooster again led individual scoring by converting on an outstanding 9 of ten free throws and sinking six from the floor for 21 points. Putman and Tim LaBlance both had 13 points as all eleven Rayders on the roster saw action, eight scoring.

Putman, who Coach Dave Smith lauded for having a great game against the hurons, led the team in rebounds with 16; Klooster had 10. The Rayders comletely dominated the boards with 41 team rebounds to Rogers City's 20. The Rayders were also superior in shooting percentage hitting 48 percent to the Hurons' 27 percent.

MORTGAGE SALE

DEFAULT having been made on the part of the mortgagors in the terms and conditions of a certain mortgage given by MID-AMERICA DEVELOPMENT CORP., INC., a Michigan corporation, JOSEPH W. BREIDENSTEIN, President to FIRST SAVINGS AND LOAN ASSOCIATION OF SAGINAW, MICHIGAN, now known as Great Lakes Federal Savings and Loan Association, bearing date the 2nd day of July, 1976 as recorded on the 12th day of July, 1976, in Liber 146, Page 274, Charlevoix County Records.

BECAUSE of said default, said association by virtue of the option given it in said mortgage, has heretofore, and does now, declare the entire principal sum secured to be paid by said mortgage to be due and payable, and there is now claimed to be due and unpaid thereon the aggregate sum of $38,075.32 Dollars and, as of the date of the sale, the sum of not less than $38,456.84 Dollars plus costs of the sale and authorized disbursements, and no suit or proceedings having been instituted at law to recover said sum, the debt remaining secured by said mortage, or any part thereof.

THEREFORE, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default and the statutes in such case made and provided, notice is hereby given that said mortgage will be foreclosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of said County, on the 18th day of February, 1983, at ten o'clock in the forenoon at the front door of the Courthouse in the City of Charlevoix, County of Charlevoix, Michigan; said Courthouse being the place of holding the Circuit Court for said County, which premises are situate and being in the Township of Melrose, County of Charlevoix, State of Michigan and described as follows:

----Lot 137, Plat of Springbrook Hills No. 2 as recorded in Liber 2 of Plats, Page 271-273, Charlevoix County Records—

The period of redemption is six months.

Official Notice

PUBLIC NOTICE

The following Ordinance was adopted by the Common Council of the City of Charlevoix at a regular meeting held on January 3, 1983.

ORDINANCE NO. 422

THE CITY OF CHARLEVOIX ORDAINS that:

The Charlevoix City Code, Chapter 51, entitled Zoning, Article X, entitled Board of Appeals, Section 5.251, entitled Duties and Procedure, is amended by deleting therefrom the words and figures contained in brackets below:

(The City Council shall serve as the Zoning Board of Appeals).

And by inserting the new language in brackets below, as follows:

(The City Council shall appoint a Board of Appeals consisting of five (5) members each to be appointed for a term of three (3) years. Appointments for the first year shall be for a period of one, two, and three years, respectively, so as nearly as may be to provide for the appointment of an equal number each year, thereafter each member to hold office for the full three year term.)

And by further deleting therefrom the words and figures contained in brackets below:

(The concurring vote of four (4) members of the Board of Appeals shall be necessary to reverse any order, requirement, decision or determination of the administrative official, or to decide in the favor of the applicant any matter on which they are required to pass under this Chapter, or to effect any variation of this Chapter.)

And by inserting the new language in brackets below, as follows:

(The concurring vote of three (3) members of the Board of Appeals shall be necessary to reverse any order, requirement, decision or determination of the administrative official, or to decide in the favor of the applicant any matter on which they are required to pass under this Chapter, or to effect any variation of this Chapter.)

City Clerk

VFW to discuss widows' rights

"Widows rights and service benefits" will be the subject of the meeting of the V.F.W. Auxiliary to be held at the V.F.W. Post Home Thursday, Feb. 17.

Servicemen's wives-widows are invited to attend the meeting to hear Ronald G. Geer, Charlevoix County Veterans' Counselor, address the subject. Members of the Coast Guard and Air Force Wives Clubs and the American Legion Auxiliary have been invited to attend the meeting scheduled for 8 p.m.

At the recent meeting of the V.F.W. Auxiliary, Mrs. Joseph Seidel, president, announced that the District 13 meeting of the V.F.W. and Auxiliary will be held at Indian River Sunday, Feb. 6. Anyone needing a ride is asked to call Mrs. Seidel.

Mrs. Albert Russell, Legislative chairman, advised members to be aware of the new legislation relating to 10 per cent withholding tax on interest and dividends scheduled to be enacted by Congress July 1, 1983. Anyone objecting to the proposed legislation is asked to write to their legislators asking that they veto the legislation.

Mrs. Clarence Rabach advised members of the forthcoming special winter Olympics. The membership went on record as assisting in any way possible.

Mrs. Kenneth Staley, Cancer Chairman, advised that she had received $175.93 in reimbursements from Glen's Market to be forwarded to the V.F.W. Auxiliary Cancer Research project. Anyone with slips may turn them over to Mrs. Staley for the refund.

Mrs. Russell also reported that the Auxiliary had made a contribution to the Community Christmas Fund. She also reported on the successful Christmas party for V.F.W. and Auxiliary members and their families.

Plans were made for the monthly potluck suppers to be held at the post home the last Saturday of every month. The next one will be held at 6 p.m. Jan. 29. Members of the V.F.W., and Auxiliary and their family and friends are invited to attend. Those attending are asked to bring a dish to pass and their own table service. Rolls and beverages will be furnished.

The new drapes for the post home have been purchased and placed at the windows.

Upcoming events include a social meeting at the post home at 6 p.m. Thursday, Jan. 20 and a business meeting on Feb. 3.

Acknowledgments of comfort items sent to the veterans at the Traverse City State Hospital and from shut-ins who received flowers at holiday time were read at the meeting.

Mrs. Melvin Plum and Mrs. Florence Dundas will serve refreshments at the Feb. 3 meeting. Mrs. Russell hosted the recent meeting.

ERBER AUTO of Charlevoix has been named in three recent award programs. Above, General Manager Pat McKeown, left, presents mechanic Marv Thompson with checks for $100 and $35 for placing first at the zone level (which involves about 30 Northern Michigan dealerships) and first at the dealership level in the 1982 Certified Training Program. Service manager Bill VanDerCar, right, presents mechanic Mike Patrick with a $25 check for placing second at the dealership level. McKeown, below left, holds a Certificate of Achievement in truck sales awarded the dealership by Ford Motor Company. Salesman Marvin Bradley, below right, has been named for the 14th year to the Society of Professional Sales Counselors.

Dept. of Social Services seeks abuse complaints

The Charlevoix County Department of Social Services is again making known its responsibility for receiving and investigating complaints of possible abuse or neglect of adults.

Doug McCombs of the Department of Social Services reports that the abuse may be minor, such as an inappropriate meal schedule, to a major problem such as physical abuse. The abuse or neglect may occur in the person's home or in another place of residence such as a foster home, home for the aged, or nursing care facility.

All complaints are investigated by the Department of Social Services Adult Services Worker. The Worker then makes an evaluation to determine the degree of risk and appropriate action.

Any person knowing of possible abuse or neglect of an adult is urged to contact the Charlevoix County Department of Social Services at 547-4471. Calls after business hours and on weekends may be made to the 24 hour on-call number, 347-1700. This number will put the caller in contact with a worker who will help or give advice.

Official Notice

PUBLIC HEARING

The City Treasurer of the City of Charlevoix will hold a Public Hearing on Proposed Use of Federal Revenue Sharing money for 1983-1984. Estimated amount to be received is $58,939.

The hearing will be held in the City Council Chambers at 210 State Street, Charlevoix on January 21, 1983 at 10:00 a.m. The public is welcome to attend and express their point of view.

Robert D. Mume
City Treasurer

CITY OF CHARLEVOIX COUNCIL MINUTES

January 3, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time in Council Chambers, 210 State Street, Charlevoix, Michigan with Mayor Staley presiding.

Present: Councilmembers Wood, Whitley, Olach, Porter, Timms, and Roloff. Absent: None.

The Minutes of the December 20, 1982 regular meeting were approved as presented in writing and as recorded in the Council Minutes Book.

Moved by Councilman Timms and supported by Councilman Olach that Councilman Wood be elected Deputy Mayor for 1983.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Whitley, Olach, Porter, Timms and Roloff. Nays: None. Absent: None. Abstaining: Councilman Wood.

Tom Duka, a member of the General Public present, spoke at length regarding the City's water quality problem. Mr. Duka asked the Council to place a time limit on the City's current attempt to eliminate Trichloroethylene (TCE) from the City water supply by aeration and urged Council to install carbon filters on the water supply within 30 days if aeration fails to eliminate the TCE. Gordon Van Wieren, Superintendent of the Charlevoix Public Schools, presented a written statement from the Board of Education expressing their concerns regarding the TCE level in the drinking water in the various school buildings and directing Mr. Van Wieren to investigate alternative means of providing drinking water in the schools.

A Public Hearing was held regarding a proposed permanent amendment to the City's Zoning Ordinance which would provide for a five-member Zoning Board of Appeals appointed by the City Council.

The following Ordinance was offered and moved for its adoption by Councilman Olach and supported by Councilman Wood.

(See Ordinance No. 422 printed elsewhere in this edition of the Courier).

Ordinance was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Whitley, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

Moved by Councilman Wood and supported by Councilman Timms to approve Mayor Staley's appointment of the following individuals to the City Compensation Commission with their terms to expire as designated:

Name	Term Expires
Jeannine Wallace	12-31-87
Don Meggison	12-31-86
James Block	12-31-84

and further, to extend the present terms of Edward Hansen and Oscar Ward, whose terms are currently scheduled to expire 2-83 and 2-86, respectively, to terminate on 12-31-83 and 12-31-86, respectively, in order to provide a uniform term expiration day for all members.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Whitley, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

Appointments to the Board of Review were tabled until the next regular meeting scheduled for January 17, 1983.

Council discussed the County's proposed Solid Waste Plan with Larry Levengood of the County Planning Committee. Mr. Levengood stated that adoption of the Plan requires the approval of two-thirds of all governmental units in the County. He further stated that failure to receive such approval will result in State preparation of a Solid Waste Plan for the County which will be final and binding. Jeffery Van Treese, City Attorney, presented a written recommendation that Council not approve the proposed Plan if they wish to retain use of the City-owned stump and brush disposal site as the County Plan calls for its closure.

Moved by Councilman Olach and supported by Councilman Timms to table any action regarding the County's proposed Solid Waste Plan for an indefinite period.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Whitley, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

Council authorized the City Manager to hire a firm to do study of present and possible future demand on the May Street sewer line at a cost not to exceed $1,000.

Council approved the payment of bills totaling $288,266.79.

Council adjourned.

Deanne Balch
City Clerk

Masons lead in cribbage

The 52nd annual Masons-Oddfellow cribbage tournament opened Thursday night at the Masonic Temple with eight tables in play, Robert C. Heise, tournament secretary reported.

The Masons won by 391 points after receiving 745 points. The Oddfellows had 354.

Henry Supernaw and Heise, playing for the Masons, were high with perfect hands of 968, a rarity. Harry Baker had 953 for the Oddfellows.

The Oddfellows are the defending champions in the tournament which opened Thursday and which will run for 10 weeks at alternative sites. All cribbage players in the area are invited to play. Membership in the sponsoring organizations is not necessary.

The next night of play will be Thursday at the American Legion Post Home, home of the host team, the Oddfellows.

CLIPPERVIEW COTTAGE

Custom built cottage nestled on the sand dunes of Lake Michigan near Charlevoix. (Could be readily converted to a year round home.) Two BRs. and 1½ car garage. Listed at $60,000, it's a perfect recreation home away from home. Contact Dick Wendt for more details.

A-League basketball scores

Action in the A League of the Charlevoix Recreation Department program saw four games being played with Townhouse continuing to lead the league after wins over Boyne Auto by a score of 72-64 on Monday and Village Inn Pizza by a 73-50 on Thursday.

In other games Depot Restaurant won over Ellsworth IDC 64-61 and Depot Restaurant over Boyne Auto 68-66.

In Monday's game, Townhouse headed Boyne Auto 16-15 at the quarter only to lose the lead to Boyne Auto by a score of 33-30 at halftime. The barmen, however, came back 51-45 during the third period before coasting to victory. Steve Dunkelberg had 27 points, Kevin Griffen 16 and Bud Klooster, 15 for Townhouse. Keith Fitzpatrick had 20 points and Jim Kondrat 10.

Depot Restaurant led Ellsworth IDC all the way by scores of 16-11, 39-21 and 54-39 behind the scoring of Dean Hicks with 22, Ted Beyer with 21 and Tom Beyer with 16. Tex Drenth had 18, Larry Taylor 14 and Jim Danbert with 13 for IDC.

On Thursday, Townhouse played Village Inn Pizza to a 12-12 tie at the quarter and 30-all at halftime before pulling away to a 50-42 lead at the three quarter mark and the victory.

Klooster and Griffen shared scoring honors with 18 points each and Rick Leslie had 10 for Townhouse. Vince Left had 19 points, Woody Peirson 13 and Jerry Skippergosh 11 for V.I.P.

In the second game, Depot Restaurant edged Boyne Auto 68-66 after trailing at the quarters 21-19, 39-37 and 54-50.

Tim Hartwick had 19, Dean Hicks 14, Tim Beyer 13 and Al Looze 12. Hal Price had 22 and Keith Fitzpatrick and Dale Tims 13 each for Boyne Auto.

B-League basketball scores

Two overtime games in the B League marked the action in the Charlevoix Recreation Department program last week as Carlson Plumbing knocked Kit Carson-Charlevoix Garbage out of the ranks of the undefeated by a score of 62-57 and Medusa defeated Wojan Aluminum 45-43. In the third game of the night, Staley Hardware defeated First State Bank 55-50.

Carlson Plumbing and Carson-Charlevoix Garbage played to a 12-12 first period tie before Carson-Charlevoix Garbage went ahead 27-22 at halftime and 40-38 going into the final period when the plumbers outscored their opponents 16-14 to knot the score 54-54 at the buzzer. In the overtime they continued their scoring spree, dumping in eight points to three for Carson-Charlevoix Garbage to hand them their first defeat of the season.

Randy Holecheck with 31 points led the attack for the victors. Dale Boss had 19 and Barney Way 12 for the losers.

The second overtime game was a seesaw battle with the teams tied 8-8 at the first period, Wojan Aluminum snatching a 20-18 halftime advantage and Medusa going ahead 26-24 going into the final period when Wojans came back to tie the score again, this time at 38-all. In the overtime, Medusa outscored Wojans 7-5 for the win.

Jim Parrish had 19 for Medusa. Stan Martin had 16 and Don Ward 10 for Wojans.

JV team beats Rams by 30

The Charlevoix Rayder JVs came through with a 59-29 win over Harbor Springs in a game played here Tuesday.

The young Rams got off to a 12-10 first period lead which was soon taken over by the Rayders as they outscored the visitors 14-4 in the second period for a 23-14 lead which they stretched to 41-25 at the three-quarter mark before taking the game by a 30-point margin.

Brent Cole set the pace with 17 points with Thad Morgan contributing 12 as the Rayders scored 27 field goals.

Engagements

Kathryn Cook and Kirk Heckendorn

Cook-Heckendorn

Mr. and Mrs. Norman J. Cook of Charlevoix announce the engagement of their daughter, Kathryn Jean, to Kirk David Heckendorn. He is the son of Mr. and Mrs. George Heckendorn, also of Charlevoix.

The bride-elect graduated from Charlevoix High School in 1979 and is now a senior at Western Michigan University majoring in Occupational Therapy. Her fiance graduated from Charlevoix High School in 1980, attended Western Michigan University, and is currently a sales representative for E.C.P. Auto Armor, Inc.

The wedding will take place next August in St. Mary's Catholic Church in Charlevoix.

(Photography by Martinchek)

Names In The News

KATHRYN M. HALL, 214 Bridge St., Charlevoix, entered the United States Air Force September 1, 1982, attended a six-week basic training course at Lackland Air Force Base in Texas and is now receiving technical training in the administrative area. Ms. Hall is a 1980 graduate of Harbor Springs High School.

●

Taking part in pre-season drills for the Ferris State College baseball team is **SCOTT KELLY** of Charlevoix, a 1982 graduate of Charlevoix High School. Kelly is a freshman infielder for the Ferris State Bulldogs which open their season March 24.

●

SALLY A. DISHONG, 103 W. Dixon Ave., Charlevoix, was among 408 students to receive degrees from Northern Michigan University at commencement ceremonies held December 18 in Marquette. Ms. Dishong received a Bachelor of Science degree in Law Enforcement from NMU.

●

ELAINE PLACKNER, business administrator of the Chip Counseling Center in Charlevoix, has been awarded a scholarship from the Michigan Office of Substance Abuse Services (OSAS) to attend Midwest Institute of Alcohol Studies on January 9-14 at the Kalamazoo Center Hilton Inn.

One hundred Michigan residents received Midwest Institute scholarships from the Michigan Office of Substance Abuse Services which co-sponsors the training along with the other state alcoholism agencies in Illinois, Indiana and Wisconsin. Approximately 325 to 350 persons from these four states will attend the Institute. More than 175 of the participants will be from Michigan.

The Midwest Institute of Alcohol Studies is an educational project which provides basic information on alcohol problems for professional people whose work brings them in contact with persons experienceing a drinking problem. Workshops focus on techniques for dealing with alcohol-related human problems and methods to promote better public understanding of alcoholism. All participants will receive a Certificate of Achievement upon successful completion of the five day course.

This session marks the Ninth Annual Winter Midwest Institute. Summer sessions have been conducted annually for the past 28 years. Further information about the Institute is available by contacting: Margaret Bernhard, Executive Secretary to the Institute, Division of Continuing Education, Western Michigan University, Kalamazoo, Michigan 49008 or call (616) 383-0795.

Judith Darnton, above, daughter of Mildred and Bill Darnton of Holly, Mi and seasonal visitors to Charlevoix, has begun her first year at the Hilberry Repertory Theatre in Detroit, Michigan as a member of Wayne State University's Graduate Fellowship Company.

This program of advanced training offers the individual the opportunity to participate actively in a 32-week repertory season while simultaneously working towards a graduate degree.

This year's company is composed of 22 actors, 20 technicians and 6 management personnel representing 19 states and Canada. Together, they hold 49 degrees from 41 colleges and universities and were chosen from over 1100 applicants at national auditions.

The 1982-83 repertory season offers Edmond Rostand's "Cyrano de Bergerac", Shaw's "Saint Joan", Jean Anouilh's "Ring Round the Moon", John Patrick's "The Hasty Heart", Shakespeare's "Henry IV, Part I" and "Julius Caesar", Chekhov's "The Seagull" and Kaufmann and Hart's "You Can't Take It With You".

Judith Darnton (BA, University of Michigan) has acting and directing talents in addition to box office experience. She has appeared as Frauline Schneider in Cabaret, and has directed at Lansing Catholic Central High School. She has also done graduate work in education.

Last year, Charlevoix county committee assisted 78 veterans, widows and dependents of veterans for a total of $5,093.59. Throughout the state of Michigan, county committees assisted 29,661 veterans, widows and dependents, with a total expenditure of $1,818,264.18.

●

Students from this area included on the Lake Superior State College Dean's List for the term recently ended are **SHELLEY KEVELDER**, **KENNETH OTMANOWSKI**, and **JULIA ROGERS** of Charlevoix, **BEN GRIFFIN** and **DAVID SHOEMAKER** of East Jordan and **TODD INGALLS** of Ellsworth.

Two area men have entered the U.S. Air Force Delayed Enlistment Program. **RICHARD D. GREENWAY, JR.**, son of Mr. and Mrs. Richard Greenway, Sr., 501 Upright, and **MICHAEL R. CLARK**, 604 Bridge St., will both participate in the program which allows enlistees to schedule openings for special job or skill areas in basic training. Greenway, a 1981 graduate of Charlevoix High School, will enter the Air Force on March 2, 1983 to receive training in the administrative area and Clark, a 1978 graduate of Charlevoix High School, will enter on April 18, 1983 to receive training as a security specialist. Both will attend a six-week basic training course at Lackland Air Force Base in Texas.

●

Two Charlevoix students were among the more than 2200 candidates to receive degrees from the University of Michigan at commencement ceremonies held December 19 in Ann Arbor. **SUSAN M. KILLIAM**, Rt. 1, Box 55, received a Bachelor of Science degree in Nursing from the U of M School of Nursing and **MITCHELL G. MARTIN**, 406 Antrim, received a Bachelor of Science degree in Engineering from the U of M College of Engineering.

SNOW-COVERED CAT IN A SNOW-COVERED CITY...*Though a bit tardier than usual, winter finally arrived in Charlevoix last week with the first arctic temperatures of the season and some white stuff to appease the skiers and snowmobilers. Round Lake froze quickly Saturday night as did sizeable portions of Lake Charlevoix. Did we really think we were going to make it to April without any winter?*

County revenue sharing funds endangered

by PEG OHLE

Consequences of the State of Michigan's financial crisis were brought home last week when the County Board of Commissioners learned that about one-third of State Revenue Sharing Funds due for 1982 had not been received and that 1983 funds would be delayed for an undetermined period of time – perhaps forever.

The County has included $100,000 in State Revenue Sharing Funds as a source of income in its 1983 budget, the same amount that was included in the 1982 budget.

It was further learned that the future of the County Transit System is in jeopardy because of the possibility that the State might not be able to meet its support payments for the Transit System, which presently amount to over $16,000 a month.

In another area of Transit System operation, it was brought out that by the end of 1983, all eight of the System's buses will have rolled up enough mileage to call for replacement or expensive overhauls. Under normal circumstances, the State would replace these buses free of charge, but whether they can do so now is questionable. At present prices, replacing the eight buses would cost $329,000, according to Transit System Manager Art Saworski.

The distressed local economy is also showing up in the number of people using the County Transit System. For the last three months of 1982, the average monthly number of rides provided by the System has been under 6,000. This is down considerably from the 7,640 rides provided in January, 1981.

So far, no local funds have been spent to operate the Transit System. However, as a result of the .25 mill tax levy voted in November, the County will be expected to contribute amounts starting with $2,427 a month and increasing to $7,500 a month in October, 1983.

The need for local funds was brought about by the State cutting its support payments by 25 percent last summer and scheduling another 25 percent cut next summer. However, these cuts were part of the contract the County signed with the State Department of Transportation when the System started in 1980.

December figures show that over 33 percent of Transit System riders were senior citizens, over 23 percent were handicapped persons, and 43 percent were regular customers.

Photo by Peter Plagge

CRAIG KLOOSTER WAS DOWN *but managed to still control the ball Saturday night against the St. Ignace Saints who came to town for a basketball showdown of the last two unbeaten teams in the conference. To the delight of Rayder fans, Charlevoix prevailed easily in a 83-56 victory. See the details on today's Sports page.*

Board to call public meeting on summer tax collection

By FRAN MARTIN

A public meeting to discuss the collection of school taxes in the summer will be held at the Charlevoix High School at 7:30 p.m. Wednesday, Jan. 26, it was announced at the regular meeting of the Charlevoix Board of Education Monday night.

The summer tax collection was the major issue discussed at Monday's meeting with each member voicing his or her ideas regarding the possibility of implementing the new legislation which was approved late in 1982.

Numerous thoughts on the proposal were made. Major among them was that the school district should not rush into such a project without surveying all facets of it; that the residents of the school district should be given an opportunity to become better acquainted with legislation; that the residents of the district should have an opportunity to air their views and that to put the idea into operation this year would not be fair until everyone was better acquainted with the proposed summer tax collection.

It was for this reason that the special meeting was scheduled for January 26.

It was explained, as it had been earlier to township and city officials, that the district can choose to levy 50 percent or 100 percent of the school taxes in the summer or to continue to levy them in December as is presently done. There are some who are exempt from paying during the summer such as the farmer who receives 50 percent or more of his income from the farm, veterans, persons who are handicapped and others.

The idea behind the summer tax collection is to do away with borrowing in order to meet budget needs from the time school opens until taxes are collected in December and the early part of the following year thus saving the residents of the district from paying interest on the borrowed funds.

Residents of the school district will have an opportunity to air their views at the public meeting scheduled for Jan. 26 to discuss the issue.

Action on the issue is expected to be taken following this meeting. At Monday's meeting, board members gave no indication of what their decision might be. All, however, urged that the board move with caution.

In other action, a proposed new Consumers' Math textbook was presented for study upon the recommendation of the instructor and the curriculum council. Action will be taken at the next meeting.

Two vehicles, both vans, a 1973 GM van and a 1975 Ford, which had been in use on Beaver Island, will be offered for sale.

Council approves drainage

by DAVE KNIGHT

A right-of-way that will allow the Weathervane Terrace motel expansion to run an underground pipe down West Dixon into Lake Michigan for the release of heating and cooling water was granted Monday night by City Council.

The innovative heating and cooling system to be employed in the 33-unit addition to the Weathervane will pump 47-degree groundwater water out of a well, remove seven degrees for heating purposes, and return the water, at 40 degrees, to the lake.

The developers' orignal plan was to drill a second well for the return of the water to the aquifer but that was ruled out because of cost.

The proposed outlet into the lake will consist of an intake about 100 feet offshore in about ten feet of water. Engineer Alvin Ranger assured the Council that such as system has been shown to be workable and that he anticipates no problems with it.

Also approved by Council were resolutions endorsing the planting of both brown trout and Chinook salmon in local waters. The resolution, requested by the Charlevoix Chamber of Commerce, also called for the constructio of a weir on the Jordan River to accomodate the expected heavy runs of salmon if plantings are eventually approved by the Department of Natural Resources.

It was reported Monday that the DNR has set a timetable that would result in salmon plants this spring, however no confirmation has been received on funding for the plan.

Council also reacted favorably to a proposal by the Keep Charlevoix Beautiful executive committee to conduct a scientifically developed survey to determine public awareness of the trichloroethylene contamination problem.

KCB President Bruce MacArthur, who told the Council the project could be undertaken by volunteers at little or no expense, was given approval to work with City Manager Robert Hunt on formulation of the survey questionnaire.

Dynamite the Clown

Dynamite the Clown to appear at Skate-A-Thon

Dynamite the Clown, known throughout Michigan through his appearances on radio and television, will be appearing at the March of Dimes Skate-athon being held at the Civic Center in East Jordan on Saturday, January 29th. Dynamite has been a professional circus clown for 27 years, appearing at over 75 events a season and traveling an area from southern Illinois and Indiana to the top of Michigan's U.P. Having toured with three major tent circuses, he is proud of his record of being a clown for 20 years and never having missed a scheduled event. As well as skating with everyone, Dynamite will entertain with balloon-animals and suggests bringing a camera to take pictures.

The fundraiser, which takes place from 4 to 8 p.m. on a Saturday afternoon, is sponsored by the local chapter of March of Dimes. Those wanting to participate may pick up a sponsor form at school, a local business, including 7-Eleven in Charlevoix and Petoskey, or at the East Jordan Civic Center. A minimum of $5.00 in sponsorship, collected in advance, is necessary for participation. No admission charge.

For information, call March of Dimes office, 547-5877.

Buses to make runs on set schedule

by PEG OHLE

Charlevoix residents who want to travel to East Jordan or Boyne City can now "catch" a Transit System bus at either Oleson's parking lot or at Edward's IGA parking lot at a scheduled time each week day.

Buses will leave Oleson's for East Jordan Senior Center at 8:10 a.m., 4:05 p.m., and 5:10 p.m. (The latter bus will leave Edwards at 5:00 p.m.).

Buses will leave Oleson's for Boyne City City Hall at 8:15 a.m., 9:05 a.m., and 4:05 p.m. (All buses will stop at Edwards and at the Horton Bay General Store. The 4:05 bus will continue to Boyne Falls then return to Boyne City).

In addition, a bus will leave Oleson's for Petoskey every Monday morning at 9:15 and leave Petoskey at 12:30 p.m. for the return trip.

Travel time between the cities is approximately 30 minutes.

Regular fares between Charlevoix and East Jordan and Charlevoix and Boyne City, as well as between Charlevoix and Horton Bay, are $1.10 one way. Regular fares between Charlevoix and Petoskey are $1.85 one way. In all instances, senior citizens and handicapped persons ride for half fare, as do children under 12.

Passengers are asked to allow at least a five-minute leeway, plus or minus, for bus departures. Also, those requiring a bus with a lift are asked to call the Transit System at 582-6900.

It should also be remembered that buses run only on Monday through Friday. There is no Saturday or Sunday service.

Trips from East Jordan Senior Center to Oleson's, via Ironton, are scheduled at 8:15 a.m., 8:35 a.m., 3:30 p.m., and 4:55 p.m.

Trips from Boyne City City Hall to Oleson's, via Horton Bay and Edwards IGA, are scheduled at 7:55 a.m. and 3:25 p.m.

The complete schedule appears elsewhere in this newspaper. It should be cut out for future reference.

Square dance set

An Old-Time Square Dance will be held from 8-12 p.m. on Saturday, January 22 in the Community Room of the McCune Art Center in Petoskey. The dance will be preceeded by a pot-luck supper beginning at 6:30 p.m.

A live stringband will provide music for dancing. All dances will be taught so no experience is necessary. A demonstration of Appalachian clogging will also be given.

Admission to the dance is $2.00 for adults and free for children under 12. There is no admission charge for the pot luck. Those coming to the pot-luck are asked to bring a dish to share and their own place setting. Cider and iced tea will be sold.

For further information about the organization or the dance call 347-3415 or 347-2381.

CHS makes plans for 1983 Winter Homecoming

Winter homecoming festivities at the Charlevoix High School are scheduled for February 4 according to Bridget Nolrot, president of the Student Council, sponsor of the special event.

Candidates for Homecoming King and Queen will be nominated by the senior class and announced at a pep assembly on Friday, January 28.

The week of January 31-February 4 will be Spirit Week with a variety of special days planned by the Rayder cheerleaders.

Minature floats built on little red wagons will replace the wall decorations of the past. Theme of the floats will be "Video Games". They will be paraded before the student body at the pep assemply preceding the Charlevoix-Gaylord game on February 4 and again at halftime of the game.

The names of the King and Queen will not be revealed until the time of the coronation when the 1982 royalty, Mike Loper, now a student at Central Michigan University, and Lisa Pischner, a student at Lake Superior State College, will crown their successors.

A homecoming dance will follow at the Charlevoix Elementary School. Tom Pluister of Station KIIQ will furnish the music for dancing from 10 p.m. until 1 a.m. Friday night.

Named to Chx. Twp. board

Nancy Rajewski was elected trustee of Charlevoix Township by the Township Board last week.

Mrs. Rajewski fills the vacancy left when Donald R. Smith was elected to the Charlevoix County Board of Commissioners in November.

Five other persons had expressed interest in the job but were not nominated. They were Joe Beaudoin, Dale Boss, Larry Campbell, Ron Geer, and Dave Herboldsheimer.

The election of Mrs. Rajewski gives women the majority vote on the Township Board. She joins secretary JoAnn Elzinga and treasurer Rose Bergmann. The other two Board members are supervisor Oscar Stroud and trustee Dale Glass.

Ostling on Appropriations

Roscommon Republican State Representative Ralph Ostling whose district includes Charlevoix County, has been reappointed to a third term on the House Appropriations Committee and he will continue to be the Vice Chairman of the most important committee in the Michigan House of Representatives.

"The State of Michigan faces some very grave economic problems during the next two years, and I am pleased that I will continue to serve on this critical committee," Ostling stated. "The Appropriations Committee makes all decisions regarding state expenditures, and it also is charged with the task of approving all executive orders to cut the state budget. In the past, these executive orders have given us the opportunity to trim wasteful programs, and reduce unnecessarily high department and agency budgets."

Ostling also explained that the current budget is estimated to be nearly one billion dollars in the red, and that further budget cuts are unavoidable.

"The debt we are experiencing in the state budget is growing every day, and something obviously must be done soon to remedy that situation," Ostling saidd. "With a new Governor, and a new Speaker of the House, it is even more important to have experienced people on the Appropriations Committee. There are still many more budget cuts to be made, and they can be made and they will be made."

Ostling stated that he has also been appointed to several subcommittees of the House Appropriations Committee, including the subcommittees on Social Services, Joint Capital Outlay, General Government, and K-12 Education.

"Public education received the largest share of budget cuts last year and in 1981," Ostling said. "I think it is time to carefully study other segments of the budget this time to not only insure quality education for every Michigan student, but to also insure that no waste exists in any other department or agency in the state."

Judge Allen seeks to acquire property

Michigan Appeals Court Judge Glenn S. Allen, Jr., who is a seasonal Charlevoix resident, has filed suit in Charlevoix Circuit Court to acquire title to a parcel of property he has been using as his own since 1972.

The parcel in question adjoins the property in Hayes Township on which Judge Allen's summer home is located. The home is the former Susan Lake School House, which has been in Allen's possession for over 10 years.

In his complaint, Judge Allen states he thought the property in question was part of his purchase in 1972. It is a triangular lot, 135 feet by 50 feet, directly on the Charlevoix-Boyne City Road. The driveway for Judge Allen's house crosses the lot and has been a driveway for the School House property by whomever has owned that property since 1954, according to the complaint. For a while during the 1960's, the School House was used as a restaurant.

Judge Allen is seeking title to the property under a legal process called "adverse possession". Under this process, a person may take over another person's property if the person uses it and treats it like his own, without objections from the owner, for more than 15 years.

The problem came to light last fall when Mr. and Mrs. John Rowley of Shelbyville, who are listed on local tax rolls as owners of the property, tried to sell the property for $3,500. Judge Allen then filed the suit against them in an attempt to acquire the land under adverse possession.

In a downstate newspaper, Mrs. Rowley is quoted as saying she "never heard of such a thing until we got served with the papers." She added they thought they were being "good neighbors by letting the judge use the land for his driveway". The Rowleys vow to fight Judge Allen's lawsuit.

Records in the Charlevoix County Equalization Department show that the 135 feet by 50 feet parcel is assessed at $2,000, giving it a supposed market value of $4,000. The Rowleys have offered it to Judge Allen for $3,500, but he has countered that it is not worth more than $1,000 because "it is not even large enough to build a house on".

The present Hayes Township Zoning Ordinance calls for a minimum lot size of 32,670 square feet in the area around Susan Lake. The parcel in question contains 8,750 square feet. However, because it is a lot of record, it might be possible to secure variances that would permit the building of a house, according to County Planner Larry Sullivan.

County records indicate that the Rowleys own several other parcels of land in the area.

SIX SPECIAL OLYMPIANS *from Charlevoix's Bergmann Center brought home medals from the Regional Winter Special Olympics held January 13 at Crystal Mountain. Events at the competition included such seasonal activities as skiing and snowshoing. Medalists shown above and the events they placed in are, front row left to right, Helen Limron, 3rd in cross country skiing and 3rd in snowshoing; Mary Wedenoja, 1st in cross country skiing and 1st in snowshoing and Dianna Farmer, 1st in snowshoing and 2nd in cross country skiing; in the second row are Fred Chappell, 1st in cross country skiing and 2nd in snowshoing, Sean Sweany, 2nd in cross country skiing and 3rd in snowshoing and David Wallace, 3rd in snowshoing.*

JAN

Opinion

Knight on the Town

Speech impediment

by Dave Knight

Monday night saw of the most bizarre exchanges yet at the Charlevoix City Council.

And the most amazing thing about it was that it didn't even involve a City Manager.

Mayor Ken Staley has heard enough from Tom Duke and he made that clear as glass. Trouble is, he trampled on some pretty basic rights and procedures in the process.

Duke was at Council again Monday night to further his contentions that immediate filtration is the only salvation for Charlevoix's problem of trichloroethylene contamination of city water. After spending hours preparing detailed proposals - he even had charts on the wall ready to go before Council even started - Duke was ready to go into his spiel.

Staley was prepared, too. At the outset of the meeting, he pointedly reviewed the rules of procedure that had been adopted by Council last year for the purpose of shortening meetings. Included in the rules was the time limit of three minutes for each citizen wishing to make a public comment.

When the time came, Duke took the floor but, sure enough, when Staley surmised that Duke's time was up, he interrupted and asked him to sit down. Of course, Duke had just gotten warmed up and had several more points to make. And by then, the Council's interest had been picqued.

Council member Shirley Roloff made a motion that Duke be allowed to speak. Incredibly, Staley refused to recognize the motion. Asked for his opinion on the stalemate, City Attorney Jeff Van Treese said he would have to review Roberts Rules of Order. With Council and audience in disbelief, Staley called for a recess to let Van Treese review the Rules. And then he left the room.

Five minutes later, with everyone back in the chambers, Van Treese told the Mayor that Roberts Rules allowed the Council to overule the Mayor. Staley asked Van Treese to quote the particular section and he did.

Then Staley asked if it was the city charter that Van Treese was citing. Van Treese said it was not. Said Staley, "Doesn't the charter overrule Roberts Rules of Order?" Van Treese said, "Yes, it does." Replied Staley, "Then I suggest you refer to the charter."

And with that, the meeting was halted again as Van Treese leafed through the poor charter book, already dogeared from past battles.

Finally, about 20 minutes after Duke had been interrupted, Van Treese finished reviewing the charter and repeated his original opinion telling Staley, "You have the power to preside over the meeting but that power can be overridden by the Council...The rules adopted by the Council to run meetings are an excellent concept but they can be overruled."

Thirty-three minutes after the 8 p.m. meeting starting time, Staley finally relented and allowed Mrs. Roloff to repeat her motion giving Duke 15 more minutes.

The motion passed unanimously.

Letter to the Editor

WHAT THE CITY HAS NOT TOLD YOU
ABOUT YOUR WATER:

The T.C.E. question really boils down to a simple, single question. Will the people in Charlevoix see a substantial rise in cancer in their families in the years to come and other ill health effects as a result of T.C.E. ... Yes or No? Obviously, if the answer is "No" we will all be delighted. If the answer is "Yes", however, then we should reflect on what has not been done to protect the public since September of 1981.

Could the T.C.E. have been removed when it was found? The answer is "Yes".

Was the technology available to the Health Department and officials? The answer is "Yes".

Has it been removed? The answer is "No" and still we drink.

Let's talk about breathing T.C.E. Not once have the officials brought to your attention this chilling fact. They tell you, you can remove T.C.E. from your drinking water by boiling it for 10 minutes. They warn you specifically against breathing the vapors. They suggest a fan in a well ventilated room while you boil your 2 or 3 quarts of water.

Boiling the water is a form of aeration. The air bubbles that the City is using at the water plant is a form of aeration. The use of sprinklers at East Jordan on their sewage liquid affluent, comparable to your lawn sprinklers, is also aeration.

Therefore, when you stand in the shower and use 10 gallons of water to take a shower, you are performing a perfect job of aeration of that water as it sprays from the showerhead and splashes from your body. Unfortunately, you are in the center of an aeration chamber and inhaling the fumes full strength. If you do as many of us do and leave your door open and your fan off to protect and save the warm moist air to provide humidity and warmth for your home, you are flooding your home with T.C.E. vapor. The boiling for 10 minutes will remove 100% of the TCE. The shower aeration will most probably remove only 30%. However, 30% removal of TCE, from 10 gallons of water, is putting 680 PPB into your lungs, body an air you breath. You boil off 50 PBB from your daily portion of drinking water and the shower returns, 13 times the amount you laboriously removed, 680 PBB, to you in one shower. The kids in the tub also take it in through their skin.

The taking in of all of this T.C.E. is totally unnecessary and is continuing and has continued since 1981 and 1983 by the specific decision of the City Manager, Mayor and City Council. They could have, at any time had filters installed after a phone call, within 21 days and eliminated the problems for all of us. They will not.

If our water system were privately owned as many are in the United States rather than owned by the City, you can rest assured that our public officials would be screaming for the private water company to "protect the public" and "install the filters immediately". They would have called in the law enforcement agencies by now and demanded criminal prosecution for the malfactors. What a difference in opinion when they themselves are the malefactors.

I spoke with Dean Mikulski of the Health Department the other day for over an hour and told him I would quote him. Dean Mikulski calls the water "crap". He informed me that he appeared before the City Council in May together with 5 other health officials trying with all their might to get the City Council, Mayor and City Manager to move. He stated to me "that they showed no concern and, in fact, laughed at us".

Further action beyond that was taken by Dr. Brian L. Young, M.D. Medical Director with the Health Department. He wrote me January 14th and I quote, "Concerning your specific question on enforcement of laws relating to public water supplies, this question has been discussed by us with representatives from Michigan Department of Public Health. In fact, ever since we discovered T.C.E. in public water supplies, staff members of District Health Department #3 to include myself, have on numerous occasions discussed with M.D.P.H. officials the responsibilities for providing safe drinking water to area residents...I share with you the concern we all have in insuring that area residents are provided with safe drinking water". He further stated that he had himself contacted the attorney for the Michigan Department of Public Health seeking some legal efforts to force the City to move.

Other groups including the K.C.B. group appeared in May urging the City to act. In June, I appeared before the Council with several other citizens demanding action and that they install filters.

Later on, the K.C.B. (Keep Charlevoix Beautiful) group voted unanimously 30 to 0, asking the City immediately to install carbon filters.

Now let's see what the City has told you: On City of Charlevoix letterhead, "Public Announcement For Immediate Release," "Therefore, experts believe that the levels of concentration observed locally do not represent a significant health risk to the public."

That is what the City has told you. Now let's quote some experts.

The United States Environmental Protection Agency is communicating with the State of Pennsylvania states, "Thank you for your October 10, 1979 letter regarding the T.C.E. problems in Pennsylvania. I share your concern about dealig effectively with the occurrence of suspected carcinogens at very low levels in drinking water...concerning appropriate risk levels, the Office of Drinking Water is currently reviewing its policy and methodology used to determine the appropriate lifetime risk level of carcinogens in drinking water...Human exposure to contaminants in drinking water such as T.C.E. should be reduced to the maximum extent feasible to avoid the unnecessary risks from their presence as adulterants. The applicable treatment technologies include ..... granular activated carbon ... We do feel because of the potential carcinogenic effects that all available steps should be taken to reduce exposure to a T.C.E. level below 4.5 pbb (our Charlevoix water contains 10 times this amount) ... As a matter of practical application, the following policy will be used by E.P.A. Where levels in the distribution system of a public water supply exceed 4.5 pbb, E.P.A. recommends that the State take action ... This may include taking wells off line ... and solutions such as treatment".

The Michigan Department of Public Health on May 17, 1983, in a letter to the City of Charlevoix states that "The position of the Michigan Department of Public Health is that the contamination of the water supply poses a health treatment to the City's residents and action must be initiated ... and substantially reduce the health risk".

Next letter, again the Michigan Department of Public Health, "T.C.E. is a suspected human carcinogen. The presence of T.C.E. in the municipal water system represents a significant public health concern and a chronic health hazard to the City's residents".

Another communication from the Michigan Department of Health, Dr. David R. Wade, P.H.D., Toxicologist, to William Kelly, Chief of Water Supply Division, "Compounds detected are considered to be carcinogens by the E.P.A. and therefore will have some risk associated with their consumption to any concentration. These compounds include T.C.E." (This letter was in reference to Battle Creek and Kalamazoo municipal water supply speaking on the same subject of T.C.E.) and they state, and I repeat, "therefore will have some risk associated with their consumption at any concentration ... If we accept numerical risk assessment for what it is, a crude approximation of actual risk, the question now becomes, 'Are these risks acceptable for these populations?' " (For my part, this cancer risk is not acceptable.)

Next, again from the E.P.A., a document from our Health Department dated December 21, 1979 as to T.C.E. from the Director of Criteria and Standards Division of Regional Water Supply Representative, (about T.C.E.) "These risk extrapolations were based on an assumption that there is no threshold level for carcinogens. The state of the art at the present time is such that no experimental tools can accurately define the absolute numbers of excess cancer deaths attributable to trichloroethylene in drinking water".

The last expert I quote is the United States Department of Health, Education and Welfare publication, "Summary. Preliminary evaluation of the carcinogenic activity of trichloroethylene in laboratory rodents by the National Cancer Institute indicates that this material is a potent liver carcinogen."

How could the City Manager, City Council and Mayor state "(T.C.E.) levels do not represent a significant health risk to the public" (**all my quotes are from health dept. documents on file)

In a recent debate about the T.C.E. in the water conducted at Nanny's Restaurant by the Keep Charlevoix Beautiful Committee, a presentation was made by Jeff Porter stating the City's position and myself stating the opposite position. At the conclusion a gentleman in the office by the name of Jim Braithwaite, Professional Engineer, from the Environmental Consultants Inc. spoke. He stated that "it was unforgiveable to leave T.C.E. in the water in these amounts."

Quoting another publication, "The good news is the technology exists to remove .... and industrial chemicals from our drinking water. The bad news is municipal treatment plants are not about to spend the money to implement it. That technology is a treatment entailing the use of granular activated carbon in filter beds. Under the edict of the Federal Safe Drinking Water Act of 1974, the E.P.A. is required to prescribe regulations for contaminants that may have an adverse effect on human health. In 1978, the agency proposed a ruling to mandate granular activated filter beds in water treatment plants. Granular activated carbon is generally accepted as the best practical way to remove hazardous chemicals from our water."

It is interesting that not once during all this time, to my knowledge, has the Council brought any motion to the point of vote indicating who on the council is for or against filters.

Talking about the business end, since human health doesn't seem to encourage the officials to move: How many new plants will be interested in settling in Charlevoix with our water conditions? Our officials have

Clockwise

Memories of Dr. King

by Bob Clock

EVERYTIME the birthday anniversary of Dr. Martin Luther King rolls around I cannot help wincing inwardly as I recall the day he out-smarted me.

It sometime in the early 1960's when I was a reporter for United Press International in Detroit. Something big had happened on the integration front. Probably another big southern department store had agreed to open its lunchroom to black customers, or some such. It is hard today to imagine the length and depth of the discrimination that was practiced in those days.

In any event, the UPI office in Montgomery, Ala., wanted to know Dr. King's reaction to the move, but Dr. King was in Detroit. UPI bureau manager Jim Klockenkemper traced him to the Statler Hotel and sent me over to the hotel with a copy of our inquiry from the teletype.

Of course, Dr. King was out and I was forced to cool my heels in the hall outside his hotel room.

Suddenly I heard footsteps coming up the stairs and a few seconds later Dr. King was standing before me. Although I had seen pictures of him in the newspaper and on television, I was surprised at how small he was — just a little fellow who hardly came up to my shoulder.

I introduced myself, shook hands and handed him the wire. He studied the message carefully.

"We'd like your reaction," I explained.

"Well, this is very interesting," Dr. King said. "First I've heard of it. But before I comment, I think I had better check with my father in Montgomery. You wait right here until I get him on the phone."

With that, Dr. King slipped inside his room and closed the door.

Five minutes passed. Ten minutes. Fifteen minutes. I found a pay phone down the hall and called Jim.

"You're going to have to wait a few more minutes for Dr. King's reaction because he is checking with his father," I said.

"Come on back to the office," Jim said. "He's given you the slip. We just got word he's on his way to the airport."

To this day I don't know how Dr. King got out of the room without my seeing him. Quite probably the room — more likely an executive suite of some sort — had a second exit to assure the privacy of VIP visitors.

I often wondered later if Dr. King had any regrets over leaving a poor UPI reporter in the hall without a word of apology. Probably not. He was doing his job and I was trying to do mine.

However, it really doesn't matter. Dr. King is gone. Jim Klockenkemper is gone. And so is the old Statler Hotel.

It feels sort of strange to be the only one around who remembers.

Out of the Blue

Guns or butter? What'll it be
That we spend our deficit on —
The dairy interest's subsidy ...
Or the whims of the Pentagon?

Mrs. Blair looks back at 93 eventful years

by FRAN MARTIN

Mrs. Katherine Blair, the eldest of the residents of Pine River Place, celebrated her ninety-third birthday anniversary last Thursday.

Hosting the event were her son and daughter-in-law, Mr. and Mrs. John W. Blair, former Detroit residents who now live at Bay Shore.

Guests at the party were the residents of Pine River Place where Mrs. Blair has lived for the past year and where she is a great favorite.

Though her activities are now limited, the former Katherine Ahearn had had a full and exciting life and many happy memories.

She was born January 13, 1890 at Fort Douglas, a U.S. Cavalry outpost near Ogden, Utah, then an Indian territory which wasn't to become a state until seven years later. Her parents were William Ahearn, a red-haired Irish emigrant who had enlisted in the U.S. Cavalry and was stationed at Fort Douglas during the Indian uprising and where he had met and married the former Marth Groskopf, when she journeyed west to visit friends at the fort.

Later, when her mother and her daughters, Katherine and Annie, were returning east via train, she remembers the train being held up by Indian renegades, dressed in little more than loin cloths, boarding the train and robbing the passengers and her mother covering her eyes with her hand so she wouldn't see the scantily clad robbers.

Following her father's Army career, the family lived in Detroit where she met and married James Blair. When she was widowed at the age of 56 years in 1944, she saw a serious need for nurses so she and her sister went back to class to become Licensed Practical Nurses. She followed this second career, working in Detroit hospitals until she decided to retire at the age of 75 years.

Robert Clock, now of the Petoskey News Review editorial staff who lived in the same neighborhood as the Blairs, recalls what a striking figure she made as she went off to work at the hospital, her little white cap atop her Irish red hair, and wearing her nurse's uniform.

Though the red has faded from her hair and the spring is gone from her step, the spirit that brought her through 93 years is still very much alive.

Mrs. Blair came north three years ago when her only child, John W. Blair, and engineer, retired and, with his wife, moved to northern Michigan where they had vacationed for many years. After living with them for the first two years, she decided she wanted her independence so moved to Pine River Place shortly after it opened in 1982.

Mrs. Blair also has five grandchildren and five great-grandchildren.

Standing from left, Ernie Goode, Mrs. Hannah Corrigan and Mrs. Betty Anderson help Mrs. Katherine Blair celebrate her 93rd birthday at Pine River Place Thursday.

'Grief' is program topic

"Grief is good," say those who have studied death, and the feelings of loss everyone experiences.

Exploring those feelings about death and dying in a hopeful manner is the theme of a special presentation at Charlevoix Area Hospital, Wednesday evening January 26, at 7:30 p.m. Open to the public, the gathering will be held in the Lake Michigan wing classrooms.

R.N. Betty Priest will draw from the studies of Elizabeth Kubler Ross, poetry, music, personal experinece and her own observations based on 10 years as a nurse, including several working with cancer patients.

Mrs. Priest, whose previous presentations on the subject have been very well received, will offer a variety of views on death, dying and the grieving process and she will provide printed materials for these interested.

She will draw from Elizabeth Kubler Ross's study of the five stages of grieving – denial, anger, bargaining, depression, and acceptance – to show grief as a natural process.

"Hopeful" is the word Mrs. Priest uses to describe her approach to this difficult subject. "It is part of the human experience. We practice for this our whole life. Many of life's experiences are painful, but after the pain is usually the sunshine," she continued.

Two pieces of music which she will use to illustrate a positive and hopeful approach are by the group Blood, Sweat and Tears and Neal Diamond.

Blood, Sweat and Tears sings: "And when I die, there'll be one child born to carry on ... to carry on..."

She will close with the soaring theme by Neal Diamond from Jonathan Livingston Seagull – "Sky Bird".

NOTICE OF A PUBLIC MEETING TO INSTITUTE A SUMMER PROPERTY TAX LEVY FOR CHARLEVOIX PUBLIC SCHOOLS

Administrative offices: 208 Clinton Street
Telephone No.: 547-6573

PLEASE TAKE NOTICE that on January 26, 1983, at 7:30 o'clock p.m. at Charlevoix High School the Board of Education will hold a meeting at which will be offered for adoption a resolution to impose a summer property tax levy of 100% of its annual school tax levy upon property located within the school district.

Passage of the proposed resolution would result in the annual levy of school property taxes on July 1 against property located within the school district. The Board of Education, under Act 333, Public Acts of Michigan 1982, may impose a summer property tax levy of either one-half (½) or the total of annual school property taxes. If a summer property tax levy is imposed, the school district may enter into agreements with each city or township in which it lies, or a county treasurer, for collection of the summer property taxes, or may collect such taxes itself pursuant to said Act 333.

This notice is given by order of the Board of Education.

Secretary

CHARLEVOIX PUBLIC SCHOOLS COMMUNITY EDUCATION PROGRAM 1982-1983 WINTER TERM

HIGH SCHOOL COMPLETION PROGRAM

Tha schedule below lists the classes which are being offered each night beginning the week of Feb. 1-3 and continuing for 17 weeks. These classes are FREE to those 18 or older who do not hava their high school diploma or those under 20 who have their diploma. Any others are welcome in these classes for a fee of $25. Upon successful completion of each class you will be given ½ credit toward tha 20 credits needed for your diploma. If you have already completed a number of credits, call us so we can find out how many classes you should take to complete your work. Age does not matter; an older person may be given credits for 'life experiences', military service, or G.E.D. tests that have been taken. You may be surprised at how close you are to that diploma ... so call and find out. Tha phone number to call to enroll or inquire about your situation is 547-6491.

Monday: U.S. History
Wednesday: Typing
Thursday: Government

ADULT ENRICHMENT PROGRAM

The following classes ara being offered as the winter schedula of the Charlevoix Adult Education program. Please note day, tima, course length, and fee end additional charges for books and supplies.

Classes	Time	Day	Length	Fee
Intermediate Stained Glass (For those who have completed the first course. Materials fees will be collected during tha course)	7-9 p.m.	Mon.	10 weeks	$20
Beginning Stained Glass (For the beginnar. Matarials fees from $15 to $40 will be collected depending on the siza of your project.)	7-9 p.m.	Wed.	10 weeks	$20
How to Construct Learning Games and Activities for your Children. (Sava money while providing educational activities for your children.)	7-9 p.m.	Mon.	10 Weeks	$20
Life on Earth Film Series (This is the series that was on PBS last year. Tha first night for this series is Feb. 8)	6:30-8	Tues.	14 Weeks	$14
Welding (Individualized for novice or beginner. Note Mon. and Tues. for 5 weeks starts March 7. Prica includes materials.)	6:30-9:30	Mon. & Tues.	5 Weeks	$50
Art Metals Project (Artistic and utility projects. Materials fees will be collected during the course.)	7-9 p.m.	Tues.	10 Weeks	$20
Judo and Self Defense	7-9 p.m.	Wed.	10 Weeks	$20
Typing	7-9 p.m.	Wed.	10 Weeks	$20
Hatha Yoga	7-9 p.m.	Wed.	8 Weeks	$16
Woodworking-Skills & Projects (Materials fees will be collected during the course.)	7-9 p.m.	Thurs.	10 Weeks	$20
Fundamentals of Investing	7-9 p.m.	Thurs.	4 Weeks	$10

To Enroll:

1. Call 547-9551 to sign up for any class or classes; your class will meet as scheduled unless you are notified to the contrary.
2. You will pay tha class fee at the first meeting of tha class.
3. All classes will begin during the week of Jan. 31-Feb. 3 unless a differant date was stated above.
4. All classes meet at Charlevoix High School. A list of class room #'s will be posted at the door of tha school.

Saints no match for 10-0 Rayders

The Charlevoix Rayders were undisputed Chairmen of the Boards Saturday night when St. Ignace finally made it to town for the year's biggest showdown in the Michigan-Huron Shores Conference.

Strong rebounding helped the Charlevoix cagers breeze past the Saints 63-56 to take sole possession of the conference lead with a 7-0 clean slate, 10-0 overall. Both teams entered the contest with identical 9-0 records. The game was originally scheduled for Friday night but was postponed until Saturday when a winter squall kept the Saints at home.

The decisive victory should move Charlevoix up from its No. 8 UPI Class C ranking last week while St. Ignace, ranked No. 2 in Class D, will most likely take a tumble from that lofty position.

Weather was also the reason for the postponement of Tuesday's game against Onaway which has been rescheduled for Saturday, January 29.

The final score Saturday night against St. Ignace was not indicative of the domination by Charlevoix of most of the game.

After a tentative first quarter, after which the Saints led 15-14, the Rayders began to seize the momentum. Midway through the second quarter, with the Saints still clinging to a one-point, 21-20 lead, Charlevoix slapped on a press and St. Ignace never saw the lead again.

By halftime, Charlevoix was up 35-24. In the second half the Rayders never let down until the final minutes when the game had been decided. By the end of the third quarter it was 51-33, too much of a disadvantage for the Saints to overcome despite a 23-point fourth quarter.

Junior Doug Sloan, in his first start of the year, was a pleasant surprise for Coach Dave Smith pumping in 16 points. Offensive stalwart Craig Klooster led the team with 19 and George Smith had 14.

The real domination was under the basket: Charlevoix grabbed 35 rebounds to the Saints' 14. Of those, Smith had 13, Klooster 8, Chris Putman 7 and Sloan 6.

Charlevoix's next appearance will be at home against Boyne City Friday night.

Chris Putman looks for the open man.

Doug Sloan puts one up against the Saints

7th graders win, 8th graders lose to Harbor Springs Middle Schoolers

The Charlevoix Middle School boys basketball teams split last week in their games with Harbor Springs with the seventh graders winning by a 37-25 margin and the eighth graders losing by a score of 35-33.

The seventh graders got off to a fast start and led Harbor Springs 9-4, 20-11 and 22-18 by quarters behind the scoring of Dan Drury who had 19 points for the game. Willie Helmes had seven for the young Rams.

In the eighth grade game, Charlevoix failed to score in the first period and trailed Harbor 4-0 at the quarter, 12-11 at halftime and 26-23 at the three-quarter mark.

Terry Bonar had 12 and Kevin Shepard 11 for Charlevoix. Doug Dickinson had 16 for the Rams.

Charlevoix was scheduled to host Cheboygan Monday and will travel to Central Lake for a game on Wednesday.

A-League adult basketball scores

Boyne Auto edged Ellsworth I.D.C. out of third place in the A League of the Independent Basketball League Thursday night when they handed them an 88-67 defeat.

In a second game, Depot Restaurant defeated Village Inn Pizza 62-49.

Ellsworth I.D.C. jumped to a 23-25 final period lead over Boyne Auto but lost it at the half as Boyne Auto went ahead 37-35 at halftime and 58-52 going into the final period.

Dale Tims with 23 points led the scoring followed by Keith Fitzpatrick with 19 points. Hal Price with 16 and Rob Spencer with 14.

Tex Drenth had 23 and Jim Danbert 18 for Ellsworth.

Depot Restaurant trailed Village Inn Pizza 12-11 at the quarter but snapped back with a 27-16 lead at halftime and 40-36 going into the final period.

Dean Hicks had [illegible] points and Tom Beyer 16 for the victors. Vince Left scored 16 and Woody Pierson 14 for V.I.P.

Frosh cagers beat Central Lake, lose to St. Ignace

The Charlevoix Rayder freshmen split during the week, winning over Central Lake 51-36 and losing to St. Ignace 58-51.

This week the team will be a Boyne City Thursday and host Petoskey the following Monday at 8:30 p.m.

In the game with Central Lake, the young Rayders got off to a 13-6 first quarter lead and headed the visitors 30-16 at halftime and 39-26 going into the final eight minutes.

Jody Putman was top scorer with 15 points, all of them scored in the first half. Brian Yomans had 14 points for Central Lake.

After playing St. Ignace to a 13-13 first period tie and leading 28-26 at halftime, the Rayders trailed 39-38 at the three-quarter mark and were outscored 19-13 in the final period for the loss.

Putman had 16 points and Sean Ferguson and Tim Salmonson 12 each for Charlevoix. Alfred Peters had 13 for the Saints.

Bergmann still undefeated

The Charlevoix Rayders had one champion, Alan Bergmann (167) emerge from the Kalkaska Invitational tournament Saturday, according to Coach Greg Bryan.

Bergmann, who now has a 15-0 record for the season, won by a 6-1 decision over John Currie of St. Ignace, pinned Paul Hill of Kalkaska and decisioned Jamie Beilfuss of Reed City in the finals.

Mike Steele (126) placed third in the meet while Rick Gallant (132), Shawn Harnett (138) and Jeff Mervyn (heavyweight) placed fourth.

Charlevoix finished last among eight teams in the meet which was won by Kalkaska with 170½ points. St. Ignace placed second with 170 points. Other teams entered were Reed City, Onaway, Frankfort, Mancelona and Elk Rapids.

After losing to Gary Horn of St. Ignace in his first match in the tournament, Mike Steele (126) pinned Bill Andrews of Mancelona and decisioned (9-6) Brian Cursey of Reed City to finish third in his weight class.

In his match, Gallant lost by an 8-3 decision to Jeff Schultz of Reed City, pinned Keith Burns of Mancelona in the next match and lost by a 9-4 decision to Ernie Lotta of Kalkaska in the consolation barcket.

Shawn Hartnett had one of his best appearances on the mat according to Coach Bryan. After being pinned by Louie Stump of Reed City, Hartnett had a spectacular match against Dave Ranky of Onaway, winning by an 11-4 decision in an overtime. He was down 9-4 and came back to win by an 11-4 decision in an exciting overtime Coach Bryan said. He then was pinned by Stump in the finals.

Mervyn was pinned by Jim Mott of Mancelona and Tony Walcel of St. Ignace to come in fourth.

Others who participated were Matt Hall (145), Jeff Zednicek (155) and Scott Mervyn (185).

Charlevoix will be at Kalkaska for a double dual with the Blue Blazers and Elk Rapids on Thursday.

Lose to Saints

The Charlevoix Rayder wrestlers won three matches in their meeting with St. Ignace Thursday and posted 17 points to the Saints 51 despite losing five by forfeit.

Coach Greg Bryan said the wrestlers were much improved over their recent performances and lost some close matches against some excellent competition.

Mike Steele in the 126 pound weight class had an outstanding win, a pin in 2:20 over Gary Horn; Alan Bergmann won by a 14-2 decision in the 167 pound class over John Currie and Scott Mervyn (185) won by a pin in 5:16 over Jim Hardy.

In the other weight classes Rick Gallant (132) lost by a 10-7 decision to Russ Franz; Matt Hull, in a close match, was pinned by Matt Oja in 5:36; Jeff Zednicek lost by a pin in 2:37 to Mike Kelley in the 155 pound division; Wayne Bergmann (198) was pinned in 1:49 by Joe St. Andrew and Jeff Mervyn (heavyweight) lost by a pin in 2:58 by Bob Massey.

Neither team had an entry in the 98 pound class.

JV cagers win

The Charlevoix Rayder Junior Varsity racked up a 68-49 victory over the visiting St. Ignace JVs Saturday night in a game that had been postponed from Friday.

The Rayders got off to a slow start and trailed 20-15 at the quarter before going ahead 31-30 at the half and 45-41 at the third period.

The Rayders dumped in 29 field goals and connected on 10 of 19 free throws while picking up 21 personal fouls. St. Ignace had 18 field goals, 13 of 23 free throws and 19 personal fouls.

Brent Cole accounted for 25 and Will Syvertson 24 points for the Rayders. J. Soblensky had 11 and Andy Brown 10 for the young Saints.

Masons still lead

The Masons continued to increase their lead in the Masons-Oddfellows cribbage tournament as they won last week 402-337 over the Oddfellows. They now lead by 456 points according to tournament secretary, Robert C. Heise.

Ron Putman was high for the Masons with 963 points and M.H. Herriman had the top score for the Oddfellows, 941 points, with eight tables in play.

The next round in the tournament will be held at the Masonic Temple at 8 p.m. Thursday. All Cribbage players in the area are invited to participate.

Tie Breaker Game
JUDY'S RESTAURANT

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of the game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

LEGAL NOTICES 207

MORTGAGE SALE

DEFAULT having been made on the part of the mortgagors in the terms and conditions of a certain mortgage given by JOSEPH W. BREIDENSTEIN and NANCY J. BREIDENSTEIN, husband and wife, to FIRST SAVINGS AND LOAN ASSOCIATION OF SAGINAW, MICHIGAN, now known as Great Lakes Federal Savings and Loan Association, bearing date the 22nd day of August, 1977 as recorded on the 25th day of August, 1977, in Liber 150, Page 406, Charlevoix County Records.

BECAUSE of said default, said association by virtue of the option given it in said mortgage, has heretofore, and does now, declare the entire principal sum secured to be paid by said mortgage to be due and payable, and there is now claimed to be due and unpaid thereon the aggregate sum of $37,437.00 Dollars and, as of the date of the sale, the sum of not less than $37,887.21 Dollars plus costs of the sale and authorized disbursements, and no suit or proceedings having been instituted at law to recover said sum, the debt remaining secured by said mortgage, or any part thereof.

THEREFORE, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default and the statutes in such case made and provided, notice is hereby given that said mortgage will be foreclosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of said County, on the 18th day of February, 1983, at ten o'clock in the forenoon at the front door of the Courthouse in the City of Charlevoix, County of Charlevoix, Michigan; said Courthouse being the place of holding the Circuit Court for said County, which premises are situate and being in the Township of Melrose, County of Charlevoix, State of Michigan and described as follows:

----Lot 83, Plat of Springbrook Hills No. 1, as recorded in Liber 2 of Plats, Pages 197-200, Charlevoix County Records—

The period of redemption is six months.

MORTGAGE SALE

DEFAULT having been made on the part of the mortgagors in the terms and conditions of a certain mortgage given by MID-AMERICA DEVELOPMENT CORP., INC., a Michigan corporation, JOSEPH W. BREIDENSTEIN, President to FIRST SAVINGS AND LOAN ASSOCIATION OF SAGINAW, MICHIGAN, now known as Great Lakes Federal Savings and Loan Association, bearing date the 2nd day of July, 1976 as recorded on the 12th day of July, 1976, in Liber 146, Page 274, Charlevoix County Records.

BECAUSE of said default, said association by virtue of the option given it in said mortgage, has heretofore, and does now, declare the entire principal sum secured to be paid by said mortgage to be due and payable, and there is now claimed to be due and unpaid thereon the aggregate sum of $28,075.22 Dollars and, as of the date of the sale, the sum of not less than $28,455.84 Dollars plus costs of the sale and authorized disbursements, and no suit or proceedings having been instituted at law to recover said sum, the debt remaining secured by said mortage, or any part thereof.

THEREFORE, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default and the statutes in such case made and provided, notice is hereby given that said mortgage will be foreclosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of said County, on the 18th day of February, 1983, at ten o'clock in the forenoon at the front door of the Courthouse in the City of Charlevoix, County of Charlevoix, Michigan; said Courthouse being the place of holding the Circuit Court for said County, which premises are situate and being in the Township of Melrose, County of Charlevoix, State of Michigan and described as follows:

----Lot 127, Plat of Springbrook Hills No. 2 as recorded in Liber 3 of Plats, Page 271-273, Charlevoix County Records—

The period of redemption is six months.

LEGAL NOTICES 207

NOTICE BY PERSONS
CLAIMING TITLE
UNDER TAX DEED

To the Owner or Owners of any and all Interests in, or Liens upon Lands Herein described:

Take Notice, that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a reconveyance thereof, at any time within 6 months after return of service of this notice, upon payment to the undersigned or to the Register in Chancery of the County in which the lands lie, of all sums paid upon such purchase, together with 50 per centum additional thereto, and the fees of the Sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description without other additional cost or charges: Provided, That with respect to purchasers at the tax sale held in the years 1938, 1939, and 1940 the sum stated in such notice as a condition of reconveyance shall only be all sums paid as a condition of the tax title purchase, together with 10 per centum additional thereto. If payment as aforesaid is not made, the undersigned will institute Proceedings for possession of the land.

NOTICE OF
MORTGAGE
FORECLOSURE
SALE

TO BARBARA J. WHEELER OF ROUTE 1, EAST JORDAN, MICHIGAN; AND ALL PERSONS CLAIMING UNDER AND THROUGH HER

Default having been made in the terms and conditions of a certain real estate Mortgage made by Barbara J. Wheeler of East Jordan, Charlevoix County, Michigan, as Mortgagor, to the First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated September 5, 1979 and recorded September 8, 1979 in Liber 158, pages 447-450, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage, Mortgage Note and agreement supplemental thereto, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal, accrued interest and late charges, the sum of $15,255.74, and further default having occurred by reason of the nonpayment of real property taxes for the years 1980 and 1981, contrary to the terms, conditions and convenants in said Mortgage contained, in the amount of $1,445.18, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan in such case made and provided, notice is hereby given that on Tuesday, February 22, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at the rate of 13.5 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may subsequent to the date of this Notice be paid by the undersigned, necessary to protect its interests in the premises. The premises to be foreclosed, described in said Mortgage, is as follows:

All that part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 8 West, lying West of the Pleasant Valley Road, EXCEPT THE FOLLOWING: Commencing at a point where the North ½ line intersects the Westerly line of Pleasant Valley Road for the point of beginning; thence Westerly along said North ½ line a distance of 400 feet; thence Southerly perpendicular to the North ½ line a distance of 200 feet; thence Easterly parallel with the said North ½ line to the Westerly line of Pleasant Valley Road; thence Northerly along the Westerly line of Pleasant Valley Road to the Place of Beginning and being a part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 8 West; Wilson Township, Charlevoix County, Michigan.

The redemptive period afforded Mortgagor by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 13th day of January, 1983.

Jinsky teaches Middle School students the new 'language of drafting'

by ANNE KELLY

Originally from Wisconsin, Middle School Science-Drafting instructor Jim Jinsky, earned his B.A. from Stout University there. His degree includes a major emphasis area in Industrial Education as well as minors in Math, Science and Social Studies. Since then he has done graduate work in Michigan out of Central and Michigan State, taught in Petoskey, Eaton Rapids and Charlevoix and worked in the field of drafting in industry and for private concerns.

Receiving a Vocational Drafting Certification through Michigan State was a factor instrumental in the acquisition of drafting equipment at reduced prices for the high school and consequently in the setting up of a drafting program in Industrial Arts comparable to that of Petoskey here in Charlevoix.

This is the first year that drafting has been offered in Middle School as part of the curriculum separate from shop. This specific class is being offered for the purpose of building up the drafting program and to offer a practical course in which there will be "something for everyone".

Students enrolled in drafting are learning a new language, terminology peculiar to mechanical drawing and, the identifying of machine parts. They are also being exposed to architectural drawing, pictorial drawing and some three dimensional work.

"We are basically introducing the students to the techniques and tools used in the world of drafting," explained Jinsky.

To what careers would students interested in this field aspire? Draftsman, Mechanical Engineer, Architect. While there are not a lot of drafting related jobs in this area due to the relatively few industries, Jinsky points out that there are many opportunities for drafting related careers in metropolitan areas. And while they're pursuing that career, he will tell them that he knows of particularily adept students who have earned money designing and drawing up plans as a side line as they continue their education.

Drafting is only a small part of Jinsky's day. He also teaches five classes of 6th grade science every day. The Science course provides a basic Physical Science background: air, atmosphere, weather, energy, electricity.

"My purpose in my science classes is to provide an active hands-on experience for the students," said Jinsky. "According to a recent NASA film, we are once again falling behind in the areas of Chemistry and Physics. I'm trying to give them as wide a background as possible before sending them on to the 7th and 8th grade."

Getting students involved in making and doing projects appears to be a main objective of this energetic teacher in both of his courses.

Jinskey and his wife Shirley reside in Charlevoix along with their two children, a second grader and a Middle schooler, who Jinskey feels help keep him atuned to the times.

Jim Jensky

19.1% out of work in county

Charlevoix County had the highest November unemployment rate of any of the three counties served by the Petoskey office of the Michigan Employment Security Commission (MESC).

Figures released by the MESC show that of the 8,650 people in the County's civilian labor force, 1,650, or 19.1 percent, were unemployed.

At the same time, there were 2,150 unemployed in Emmet County, for a rate of 16.3 percent, and 1,150 unemployed in Otsego County, for a rate of 13.2 percent.

The unemployment rate for the State of Michigan was 16.4 percent in November, increasing to 17.3 percent in December.

Official Notice

CHARLEVOIX COUNTY
FEDERAL REVENUE SHARING
PUBLIC NOTICE

The county has submitted its annual local unit fiscal report (F-65) which includes the actual expenditures of revenue sharing funds to the bureaus of the census. This report and supporting documentation are available for public inspection at the Charlevoix County Treasurer's Office, between the hours of 9:00 a.m. and 5:00 p.m.

Official Notice

OFFICIAL NOTICE TO THE CITIZENS OF THE COUNTY OF CHARLEVOIX OF PUBLIC HEARING TO CONSIDER RATIFICATION AND APPROVAL OF A PROJECT PLAN AND THE ISSUANCE OF THE BONDS PROPOSED THEREIN AS SUBMITTED TO THE COUNTY BOARD OF COMMISSIONERS OF THE COUNTY OF CHARLEVOIX BY THE ECONOMIC DEVELOPMENT CORPORATION OF THE COUNTY OF CHARLEVOIX FOR CHARLEVOIX DEVELOPMENT COMPANY PROJECT

PLEASE TAKE NOTICE that pursuant to Act 338 of the Public Acts of Michigan of 1974, as amended, The Economic Development Corporation of the County of Charlevoix has submitted a project plan to the County Board of Commissioners for its ratification and approval.

Said project plan deals with a motel facility project to be used by Charlevoix Development Company, a registered Michigan joint venture, and to be located on a project area or site described as follows: the site adjoining 106 Pine River Street, Charlevoix, Michigan.

Said project plan details all information required by law relative to said project and its impact on the community. No persons will be displaced from the project area as a result of this project. Said project plan also proposes the issuance of revenue bonds by said Economic Development Corporation to assist in the financing of said project.

The County Board of Commissioners will meet at 7:30 o'clock p.m., Wednesday, the 26th day of January, 1983, at Antrim Street, Charlevoix, Michigan, and will conduct a public hearing, at the County Building Annex.

The public hearing shall consider the advisability of the County Board of Commissioners ratifying, approving, modifying or rejecting by resolution said project plan and the issuance of bonds as proposed therein.

THIS NOTICE is given pursuant to the requirements of Sections 10 and 17 of Act 338, Public Acts of Michigan, 1974, as amended. The project plan and relevant maps or plats are available for inspection at the County Clerk's office.

All interested citizens are encouraged and will be offered an opportunity at said hearing to address the County Board of Commissioners concerning said project, said project plan, and the bonds proposed to be issued.

Jane E. Brannon, County Clerk

ANNUAL TAX SALE

STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE COUNTY OF Charlevoix

ORDER FOR HEARING
NO. 80 [illegible] PZ

In the Matter of the Complaint of the State Treasurer of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the complaint of the State Treasurer of the State of Michigan praying for a judgement in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said complaint will be brought on for hearing and judgement at the February term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 7th day of February A.D. 1983, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a judgement will be taken and entered as prayed for in said complaint. And it is further ordered that in pursuance of said judgement the lands described in said complaint for which a judgement of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such judgement, on the first Tuesday in May thereafter, beginning at 10 o'clock a.m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the county of Charlevoix, State of Michigan, and that the sale then and there made will be a public sale, and each parcel described in the judgement shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be reoffered, and if on such second offer, or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Martin B. Breighner, Circuit Judge, and the seal of said Circuit Court of Charlevoix County, this 20th day of December A.D. 1982.
Countersigned: Jane E. Brannan, Clerk
Martin B. Breighner, Circuit Judge

STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE
COUNTY OF CHARLEVOIX

In the Matter of the Complaint of the State Treasurer of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

TO THE CIRCUIT COURT FOR THE COUNTY OF Charlevoix

LOREN E. MONROE, State Treasurer of the State of Michigan, respectfully shows unto the Court:

1. That he is the State Treasurer of the State of Michigan and makes and files this complaint under by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 380 of P.A. 1965, as amended.
2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent; the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent.
3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the nonpayment of which the same may lawfully be sold at the next annual tax sale; (b) interest computed thereon as provided by law to the first day of May next ensuing; (c) a collection fee of four per cent which shall be a minimum of $1.00 as provided by Section 211.59 C.L. 1970, as amended, and (d) $10.00 for expenses, all in accordance with the provisions of the act first above mentioned.
4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your plaintiff prays:

a. That within the time provided by law this court may determine and adjudge that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended.
b. That within the time provided by law this court make a final judgement in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses as computed and extended in said schedule against the several parcels of land therein contained, and the amounts listed in the column headed "aggregate" shall constitute the amounts adjudged against the said several parcels, unless so amended by this court.
c. That said judgement provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount adjudged against the same, shall severally be sold as the law provides.
d. That your plaintiff may have such other and further relief as the premises may require as the court may deem just and equitable.

And your plaintiff will ever pray, etc.
Dated: December 1st, 1982

LOREN E. MONROE
State Treasurer of the State of Michigan
for and in behalf of said State

Letter to the Editor

Continued from page 4

asked to be included in the "super fund" and by that application, made Charlevoix's T.C.E. problem known all across the United States.

Those officials or industrialists who may have considered settling in Charlevoix, will think of Charlevoix and its water system, for years to come, as it is, a problem, that they don't need.

While our officials refused to put in a filter system that would cost $150,000 installed, they continue to rush towards spending $1.5 million for another system. Isn't it ironical that in the new system as stated in the Petoskey News-Review on January 14, 1983 that the "GOOD" lake water was considered safe only after "the water is passed through chemicals, causing the water to coagulate and reducing turbidity ... the water is pumped through a series of mixed media filters, again reducing the amount of sediments in the water, and through a final filtering system".

Good grief! What incredible hypocrisy! They won't put on dual carbon filters and solve the problem immediately and yet they want to spend 10 times as much, make you drink T.C.E. from 1983 to 1984 or 85 and after spending 10 times as much money, it is going to install a series of 3 filters to make it usable. How ready this group is to spend your money to run that water years later through several filters so that they can claim a grand accomplishment of a totally new water system. These are monies wasted when a single filter system is available now, and has been, for one tenth cost, and permanent.

On top of that, the water we are drinking now is filtered through 25 feet of sand and only has a T.C.E. problem. They would take raw lake water, run it through even more filters and have the possibility, to immediately draw into the water system any sewage from our nearby sewage plant that should, because of a breakdown, be sent in a raw condition into that area from which they will be drawing water. Also, anything released by Medusa would be immediately in the raw water area and, of course there is Big Rock. How much better it is to draw from the existing source and have 25 feet of sand as a first filter. They talk about being concerned of drawing from a "shallow surface well" and yet they draw from the lake water itself, an open source.

The City Manager, Mayor and City Council, in my opinion, are afraid to now put on the carbon filters and clear up the water because it would show how wrong they have been in that it could have been done in 1981. They have committed themselves to a course from which they do not have the courage to turn. Rather than clear up your water immediately and do so for $150,000 they are determined to "stonewall" the situation and spend $1.5 million of your money. When you figure out how many hundred dollars this is going to cost you out of your spending money each year to pay for that system together with the interest and maintenance of same, maybe you will wake up.

I hereby name the "PEOPLES ALTERNATIVE" the carbon filter method, its fast, frugal and free of T.C.E. ...

Let's remember that the engineer, Rommelman, that studied our problem, stated he would not let his wife and child drink the water. There are those on the Council that won't drink the water.

At this date in 1983, we have been drinking since 1981 and even after the aeration has been installed, they are still getting readings of 73, far higher than the earlier readings and climbing. It is incredible that not a single member of the Council will come out for an immediate end to the citizens' ingesting of this chemical.

If you were considering a vacation in another state and when the town was suggested, you remembered that that town had a suspected carcinogen in the water, would you consider taking your family to another town to vacation? Certainly you would. That decision will be made by a great many people with all of the adverse publicity Charlevoix's water has received. We will never be able to count those who went elsewhere to vacation and visit. They simply will not be here and the lost business can never be counted, but whatever business volume our stores, motels and restaurants will have, it will be substantially less than what it could have been.

Thomas A. Duke

For Your Information

JUST MARRIED

Marriages

The Charlevoix County Clerk recently issued marriage licenses to:

Maxwell K. Houck, 30, Boyne City, and Janice E. Laurie, 20, Boyne City.

Harry R. Wood, 71, Charlevoix, and Josephine M. Bergmann, 64, Charlevoix.

Steven D. Drenth, 24, Ellsworth, and Gail M. Hilden, 23, Ellsworth.

Michael Duane Smith, 27, Charlevoix, and Terri D. Brown, 24, Charlevoix.

Assumed Names

The following assumed business names were recently registered with the Charlevoix County Clerk:

Hooker's Electric, 110 West Upright Street, Charlevoix, by Mark Hooker.

Williams Dockside Pharmacy, 401 Bridge Street, Charlevoix, by James F. Williams.

The Hair Stop, 103 Esterly Street, East Jordan, by Thomas J. Burr.

Building

The Charlevoix County Department of Building Inspection recently issued permits to:

James W. Milks, to construct residential pole outbuilding on Behling Road, between Jaquay and Anderson Roads, Wilson Township.

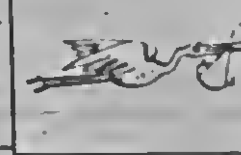
Arthur Barkley, to construct new modular residence on corner of Camp Daggett and Sumner Roads, Bay Township.

Martin Braman, to construct masonry chimney in residence at 812 Huron Street, East Jordan.

Glenn Arden, to construct residential storage pole barn on Pine Street, St. James.

Jewell F. Gillespie, to remodel residence on King's Highway, St. James Township.

Ronald L. Wojan (for Charles Anglin), to construct new residence on Bonner's Landing, off Slop Town Road, Peaine Township.



Births

Recent births at the Charlevoix Area Hospital included:

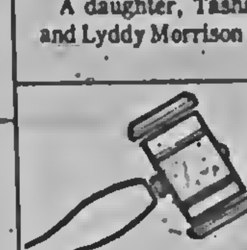
A son, Thaddeus Dean Bakker, born to Jeffrey and Karen Bakker of Charlevoix on January 6.

A son, Joshua Lee Hoeksema, born to Wesley and Cynthia Hoeksema of Ellsworth on January 8.

A son, Phillip William Vilenski, born to Michael and Clare Vilenski of Charlevoix on January 11.

A daughter, Lindsay Kaye Nelson, born to Mark and LeAnn Nelson of Brutus on January 13.

A daughter, Tasha Lee Morrison, born to Thomas and Lyddy Morrison of Charlevoix on January 13.



Court

District

The following cases were recently heard in Charlevoix District Court by Judge Harvey C. Varnum:

Sally Jo Timmer, 26, East Jordan, simple assault and battery. $205 fine and costs, six months' probation, and Court Referral Program.

Gerald F. Peterman, 40, Ann Arbor, allowing unlicensed minor to drive. $85 fine and costs.

Dave S. Walker, 20, East Jordan, larceny under $100. $105 fine and costs, 10 days in County jail with credit for two days served, two years' probation, Court Referral Program, restitution to injured party, and restitution for court appointed attorney fees.

Raymond D. Argetsinger, 20, East Jordan, two counts of receiving and concealing stolen property valued at $100 or less. $210 fine and costs, 18 days in County jail with credit for three days served, two years' probation, Court Referral Program, eight days on County Work Program if unable to pay fine, restitution to injured party, and restitution for court appointed attorney fees.

Kevin L. Warner, 18, Lansing, (1) no insurance. $500 fine and costs, six days in County jail with credit for six days served, and six months' probation. (2) no operator's license (never applied). Fine and sentence concurrent with above.

James A. Hellebuyck, 36, Boyne City, impaired driving. $225 fine and costs, three days in County jail with credit for one day served, one year's probation, and Court Referral Program.

Raymond J. Adams, 30, Boyne City, impaired driving. $225 fine and costs, three days in County jail with credit for one day served, one year's probation, and Court Referral Program.

James L. Zeitler, Jr., 18, Charlevoix, impaired driving. $225 fine and costs, three days in County jail, one year's probation, and Court Referral Program.

Dennis G. Brazie, 22, Petoskey, unlawful use of an auto and larceny in a building. Preliminary examinations waived, bound over to Circuit Court.

Circuit

The following new civil cases were recently filed in Charlevoix Circuit Court:

Patricia Ann Wilson vs. Asa Edward Wilson, Jr. (complaint for divorce).

Cecil L. Drost, Jr. vs. Penn-Dixie Industries (general civil).

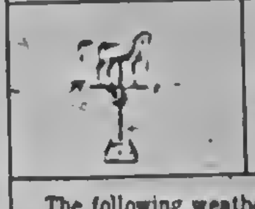
Vicki L. Bohne vs. Mark K. Bohne (complaint for divorce).

Fire calls

The following fire calls were recorded by the Charlevoix Fire Department last week:

Wednesday, Jan. 12, 7:30 a.m.: Chimney fire at the Rick Davis residence, 1220 State.

Friday, Jan. 14, 11:15 p.m.: Chimney fire at the Barry Pierce residence, 504 Meadowlane.



Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment Plant:

Date	High	Low	Precip.
Jan. 10	40	30	.03" rain
Jan. 11	30	10	.14" rain
Jan. 12	22	9	1" snow
Jan. 13	24	18	1.5" snow
Jan. 14	28	10	0
Jan. 15	15	0	1.2" snow
Jan. 16	14	0	.2" snow

Candy Smith

Library workshop to feature art instruction this week

by ANNE KELLY

"I really disagree with the theory that you are born with artistic talent," believes Candy Smith, this week's library activity hour guest instructor. "I think a true artists knows reality very well and has the ability to see things (that perhaps some of us overlook)." That is the objective, then, for Ms. Smith's drawing and sketching workshop at the library this weekend. To help young aspiring artists to "see things well in order to draw them better." The workshop is recommended for school age children in grades 1-4. Time is 11:00 a.m. downstairs in the Library.

Art has always been a hobby with Ms. Smith. Her home is evidence of that hobby. Oils featuring a variety of subject matter are hung on the walls and she talks enthusiastically of some of the projects she tries out with her own children. One day she may supplement her training in Education and Math and go for an Art degree as well, but in the meantime, she enjoys using and sharing her talents just for the pleasure of skething, drawing and painting.

Candy, besides being an artist, a wife and mother, also is instructor, area coordinator and training instructor for Vial Options, Inc.

The schedule of library activity hours for the remaining 5 weeks of the series is as follows:

Jan. 29 - Clay glazing with Carol Dutcher, grades 1-4.

Feb. 5 - Decoupage with Marge Davenport, grades 5-7.

Feb. 12 - Safety and Drug Abuse with Bob Seil, grades 3-7.

Feb. 19 - A visit to Charlevoix's Historical Society Museum: Dale Boss, grades 1-7.

Feb. 26 - Making Puppets with Nancy Smith, grades 1-4.

Quilt committee sets meetings

Members of the quilt committee of the Charlevoix Garden Club are asked to meet Tuesday at the home of Nancy Fowler to begin work on the quilt the club is planning to make.

The following Tuesday, January 25, all volunteer quilters are asked to bring brown bag lunches, scissors, and material scraps for a cut-out session, also at the Fowler home.

At the January meeting of the club, Bonnie Staffel, widely known local potter, presented a program on containers for various types of bouquets. Mrs. Staffel had made special containers and unusual dried flower arrangements to demonstrate the ways containers may be used to emphasize an arrangement. Her talk related to the club's upcoming flower show scheduled for next August. Mrs. Staffel is a former member of the Maumee, Ohio, Garden Club.

Mrs. Barbara MacArthur hosted the meeting. June Couse and Jean Heininger were co-hostesses. Keith Morris, program chairperson, introduced Mrs. Staffel.

Special Report

TCE

What do we know about the potential health hazards of trichloroethylene?

by Dave Knight

Of the literally thousands of chemical pollutants that have found their way into the American living environment, trichloroethylene is but one. Decades of careless handling and inadequate disposal have bestowed upon the land an alphabetic legacy of poisons.

By their abbreviations we have come to know them. TCE, PCB, PBB, PCE,...discoveries of new contaminants seem to appear in the headlines daily. This report is an examination of the effects of one chemical, trichloroethylene, on one community, Charlevoix. But the story could be retold in hundreds of other American cities. It is a typical example of how an industrially useful substance becomes an environmental time bomb through mishandling and ignorance of the fragile systems upon which we depend. As awareness in the scientific community has grown and the technology of monitoring become more sophisticated, the hazards of such insidious threats as groundwater pollution have become more understood. Sadly, if there is anything we have concluded with any certainty, it is that we have discovered only the tip of the iceberg.

The environmental awakening of the 1960s and 1970s focused largely on villains that could be seen, smelled or tasted. Symbols of the era were belching smokestacks and putrid streams. We are now becoming more aware of the subtle invasions on our lives made by substances we cannot see, smell or taste but which pose, collectively, every bit as much of a threat to our well being.

This case study is an attempt to help Charlevoix residents place into clear perspective the health threat posed to them and their families by the levels of trichloroethylene contamination that have been discovered in the city water supply. One object of the project was to bring into the dialogue fresh sources of information, some of which are neccesarily technical.

Conclusions are avoided as is the issue of treatment systems. This report is intended as solely an addition to the data base from which those decisions can be made.

The discovery of trichloroethylene in the Charlevoix-Petoskey area was made like many of the most famous revelations in science - by accident. Dr. Brian Youngs, District Health Officer, had been on the job only a matter of months when in the late summer of 1981 he inquired about the chlorination of Petoskey's water supply.

Dr. Youngs was aware that when chlorine is used to treat raw water with high levels of organic materials such as leaves and sewage effluent, one result can be the formation of trihalomethanes, a family of compounds including chloroform which are linked to cancer.

Results of the analysis of Petoskey's water revealed harmless levels of trihalomethanes but it happens that the same laboratory scan for trihalomethanes can also detect trichloroethylene. And it did.

Charlevoix's water supply being basically similar to Petoskey's, Dr. Youngs immediately took samples from it also and in early October the results from test samples taken on September 17, 1981 revealed a level of trichloroethylene at 16 parts per billion.

In retrospect, the confirmation of tricholoroethylene in the Charlevoix and Petoskey water supplies was a major catalyst to statewide action. Since that discovery, and to a large extent because of it, the Michigan Department of Public Health has instituted its "Organic Monitoring Program" to detect similar groundwater pollution in other communities and private well systems in the state.

With just the first tier of tests complete, contamination by organic solvents such as trichloroethylene has been found in at least 17 additional locations in the state. Tainted municipal systems include those in Clare, White Cloud, Montague, Whitehall, Saranac, Battle Creek, Kalamazoo, Albion, Jackson, Berrien Springs, and Sturgis. Of these only Saranac's contained tricholorethylene alone as is the case in Charlevois. All the others contained a variety of organic solvents. In the case of Battle Creek, for instance, a total of nine contaminants were identified in the water supply.

Contamination of private groundwater supplies has been found in Atlanta, East Bay Township near Traverse City, and in two mobile home parts, Kent City and Pine Gate, in the Grand Rapids area. At Wurtsmith Air Force Base, where the degreasing of aircraft engine parts is a frequent practice, high levels of both tricholoroethylene and tetrachloroethylene (perchloroethylene) were found and are being abated through aeration. Statewide testing is still in process.

In Charlevoix, only trichloroethylene has been detected in the municipal water system. A second pollutant, however, perchloroethylene, has been detected at levels as high as 310 parts per billion at one of the groundwater monitoring wells near the intersection of Hurlbut and State Streets. Perchloroethylene is chemically very similar to trichloroethylene and is considered equally as much of a potential health threat. The only other location at which perchloroethylene has turned up is at the old city well, now the Department of Natural Resources Great Lakes Fisheries Station on the Pine River Channel, where two samples tested at 31 and 51 parts per billion.

Ironically, chloroform, the contaminant for which Dr. Youngs was searching when he found trichloroethylene, finally did turn up at a monitoring well on Newman St. in Charlevoix in concentrations of 45 and 85 parts per billion in two tests. There was no trichloroethylene detected at the same site. Of the 17 monitoring wells drilled in Charlevoix the highest level of trichloroethylene, 330 ppb., was found in one well drilled just off Park Ave. near the intersection of Clinton St. A series of five samplings were made on June 25, 1982 at various depths with the following levels of trichloroethylene found: 100 ppb at 60 feet, 330 ppb at 70 feet, 210 ppb at 80 feet, 240 ppb at 90 feet, and 83 ppb at 100 feet.

Coordinating the search for the source of trichloroethylene contamination is Thrasos Eftaxiadis, a geologist in the Water Quality Division of the Department of Natural Resources. According to Eftaxiadis, the failure to locate the source of contamination in Charlevoix has been unusually frustrating. Said Eftaxiadis, who has worked with groundwater contamination problems in several other Michigan communities, "In every other case I have worked on, we have located the source of the contaminant with one quarter of the time and effort we have spent here in Charlevoix." He added that "this city has done more to resolve the problem than any other city I have worked with."

From the data gleaned from monitoring well samples, Eftaxiadis has theorized that there are two separate contaminating plomes present in groundwater aquifers under the southwest sector of the city. One, which contains trichloroethylene, appears to be flowing from somewhere on the southwest side toward the city well and the other, containing perchloroethylene, seems to be flowing along a more easterly path toward the DNR station.

Eftaxiadis also noted that some samples of the contamination appeared to be fresh; that is, it had been introduced to the groundwater as recently as one week before the sample was taken. This leads Eftaxiadis to believe that whatever the source, it is actively leaking contaminant into the groundwater at this moment.

Planned for the next round of testing, hopefully with EPA funding, are more monitoring wells, deeper wells, soil samples and a geo-magnetic survey which will basically use metal detectors to search for buried drums.

On the north side of Charlevoix, soil samples have indicated heavy contamination by trichloroethylene of the property on Martin Rd. formerly occupied by the now defunct Charlevoix Chemical Company and currently the site of the Bergmann Center. Though there have been no groundwater samples taken on the site, which is only blocks from the Charlevoix Township northside well, Eftaxiadis said, "My opinion, from the soil samples we have taken and from the geology of the area, is that there is probably groundwater contamination and that it is flowing toward Lake Charlevoix."

Efforts by the DNR to initiate a clean-up of the site have been stymied by the contention by Bergmann Center that it was not responsible for the contamination and thus bears no responsibility to pay for the clean-up which has been estimated to cost from $15,000 to $42,000. Attorney Jeffrey Wilson, representing the Bergmann Center, also pointed out in a December interview that the Bergmann Center, a non-profit organization which has been at the site only since 1980, simply does not have the financial means to effect a clean-up.

Trichloroethylene is a clear, nonflammable liquid with a sweetish odor. It boils at 188.6 degrees Fahrenheit and freezes at minus 184.6 degrees F. It is practically insoluble in water but easily dissolves in lipids (oils, greases, waxes, etc.). It is a volatile substance that vaporizes readily (vapor pressure of 94 mm at 86 degrees F.).

Trichloroethylene was first developed in the laboratory in 1864 during experiments on the reduction of hexachloroethane with hydrogen. Preparation of most trichloroethylene produced in the U.S. today involves the chlorination and dehydrochlorination of the chemical ethylene dichloride.

Trade names of trichloroethylene include Algylen, Blancosolv, Chlorylen, Cincosolv, Crawhaspol, Dukeron, Flock Flip, Gemalgene, Germalgene, Threthylene, Threthylene, Trethylene, Trichloran, Trichloren, Triclene, Tri-clene, Trielene, Triklone, Trilene, Triline, Trimar, Triol and Westrosol.

Commercial production of trichloroethylene began in Austria and Britain in 1908. By 1910 it was being produced in Germany and in 1925 production of the compound began in the United States. By 1970, production levels in the United States had reached about 610 million pounds of trichloroethylene annually but the enactment of legislative restrictions on emissions and the closing of four major production plants that year have caused a steady decrease in total U.S. output since. By 1974, according to US International Trade Commission figures, production had dropped to about 425 million pounds.

By far the most common use of trichloroethylene in the U.S. is vapor degreasing of metal engine parts and other machinery. An estimated 90 percent of all trichloroethylene consumption in the country is used for this industrial pupose.

Vapor degreasing is a fairly simple procedure. Typically, a drum containing about six inches of trichloroethylene is mounted on a hot plate. A greasy metal part, such as a piston, is suspended from the top of the drum over the chemical. When the trichloroethylene is heated, its vapors condense on the cold piston. When the piston eventually gets hot enough, the trichloroethylene and dissolved grease then evaporate leaving the piston clean and dry.

In this type of process, it is evident why trichloroethylene might be favored over other hydrocarbonic solvents. One would certainly not want to heat up a drum containing six inches of gasoline, for instance, nor would a factory worker care to breathe the fumes of a more toxic agent such as carbontetrachloride. Trichloroethylene's nonflammability and relatively low toxicity make it so attractive choice for the vapor degreasing procedure.

Of the remaining ten percent of the trichloroethylene used in the U.S., about six percent is used as a chain terminator in the prodoction of polyvinyl chloride. The rest is used in a variety of ways including dry cleaning and other processes requiring a solvent for grease-based substances. Until 1975, trichloroethylene was used to extract the caffein in the production of decaffeinated coffee. When the National Cancer Institute issued an alert that year that the chemical may be carcinogenic, however, that use was discontinued.

Pharmaceutical grades of trichloroethylene have been used in the past as general anaesthetics in medical procedures but that practice has also been discontinued.

According to District Health Officer Brian Youngs, because of its widespread use in the United States, we can assume that trichloroethylene is present in many consumer products that originate in areas where contamination may not yet have been detected.

The testing procedure used in Lansing by the Michigan Department of Health laboratory to detect contaminants such as trichloroethylene in amounts as minute as parts per billion is a complicated and time-consuming affair.

Dr. Ted Williams, chief of the laboratory section, explained the process. It involves three different types of tests. First, the five milliliter water sample is subjected to a "purge and trap" procedure. As a gas is purged through the sample, it carries the trichloroethylene onto a trap. The trap is then heated rapidly and exposed to a gas chromatograph which separates the various components. Those components are then processed by an instrument called a Hall's detector in which they react with hydrogen and are converted to acids which indicate which substances were present in the sample and in what quantities.

Additional confirmation of the three-phase test is lent by one more procedure called mass spectrometry. A mass spectrograph disperses radiation, in the form of electromagnetic radiation or sound waves, for instance, into a spectrum which can be mapped to indicate the substances present.

The entire battery of tests employed by the state laboratory for one sample takes about an hour and a half, one hour of which is taken up by the mass spectrograph. According to Dr. Williams, the lab can process a maximum of about 16 samples a day though the average daily routine is about ten samples. Despite the heavy demand on water sample analysis from all over the state, the time from when samples are submitted to when results are returned has been reduced in Charlevoix's case from two to four weeks to about a week. Test samples are now taken every two weeks at the Charlevoix municipal well.

Recent strides in the technology in the chemical analysis of groundwater samples has been one factor in the relatively new awareness of the scope of the problem. The testing procedure described above has only been developed over the past five to seven years. As has been pointed out, trichloroethylene may have been present in Charlevoix's city water supply for years - or even decades - before the test was developed to detect it.

Testing of Charlevoix's water was initiated only after the discovery in 1981 of trichloroethylene in the Petoskey city water supply.

The scan used in this sort of procedure, says Dr. Williams, is capable of identifying and quantifying about 22 different compounds. In total, there are thousands of various organic compounds in raw water.

To comprehend the concept of dealing with parts per billion of any substance stretches the non-scientist's imagination. For example, if you wanted to mix a scotch and water at the ratio of one part per billion scotch, you would have to add, to one jigger of scotch, 7.8 million gallons of water.

Dr. Williams points out that with detection technology becoming ever more sensitive, it is becoming practically impossible to define zero amounts of a component anymore. Using the techniques presently at hand, he said, the tiniest detectable amount of an organic compound such as trichloroethylene is about one part per billion. If somebody was willing to spend the time and money, however, he added, it is not unlikely that a way could be devised to detect parts per trillion, or quadrillion or quintillion. (To look at it another way according to recent samples, Charlevoix city water has a tricholorethylene concentration of about 50 billion parts per quintillion.) Thus, if the goal is to eliminate trichloroethylene, or any other undesirable substance, from drinking water completely, it must be qualified with the disclaimer: as completely as can be detected with available means.

The other important factor to keep in mind when discussing levels of trichloroethylene in parts per billion is the error factor of the test used at the state lab. According to Dr. Williams, in this case the error factor in the detection of a substance in the range of 30 to 50 parts per billion is about plus or minus ten parts per billion. As the range diminishes to the 1 to 10 ppb levels, the error factor improves to about plus or minus one part per billion and, likewise, as the range of levels increases, so does the error factor.

Dr. Williams pointed out that it is therefore meaningless to quibble about statistical differentials, such as between 40 and 50 ppb since they represent ranges, in a sense, not precise figures.

According to the Michigan Department of Health Vital Health Statistics records, there was one death attributed to liver cancer in Charlevoix County (the specific locality was not given) for the period of 1977-81. In Emmet County, there was one death from liver cancer in the 1970-80 ten year span.

National averages indicate a normal expectancy of 2 deaths from liver cancer per 100,000 population per year. Said Dr. Youngs of the local Health Department, "According to national averages, we should expect about one death a year from liver cancer in the Emmet-Charlevoix County population. If our reporting is accurate, we are below the national average." Dr. Youngs pointed out, however, that there is no way to reflect in the records people who may develop liver cancer in the area and then move away or people who develop it elsewhere and move here.

Dr. Justin McCormick is a professor of Microbiology, Public Health and Biochemistry at Michigan State University. He is also co-director of the MSU Carcinogenesis Laboratory and has performed extensive research on cancer causes.

Calling trichloroethylene "a weak carcinogen at best", Dr. McCormick said, "Since there has been considerable exposure to human populations to this agent, I would have expected to see increased tumor frequencies or toxic effects of this agent were it highly dangerous. The absence of such data suggests that trichloroethylene is not a highly dangerous agent, particularly in the parts per billion range."

Asked if he lived in Charlevoix whether he would drink the water with the present levels of trichloroethylene, he said "Yes, I would drink it."

William Lappenbush of the U.S. Environmental Protection Agency Office of Drinking Water in Washington, D.C., expressed surprise that trichloroethylene was the sole contaminant identified in the Charlevoix city water supply.

He said, "Normally if you have one solvent, there's a better than even chance of having more than one." Said Lappenbush of the trichloroethylene concentrations found in Charlevoix, "I would consider the health risk fairly small. I would not be alarmed about the situation but I would certainly make sure to watch the levels of trichloroethylene to see if they are increasing to any extent."

Asked if he lived in Charlevoix whether he would continue to drink the water at the present levels of contamination, Lappenbush said, "I would continue to drink the water."

In an August 12, 1982 letter to the Michigan Department of Commerce endorsing Charlevoix's application for grant money to replace its water source, state Department of Public Health District Engineer Timothy Benton wrote: "The presence of TCE in the (Charlevoix) municipal water system represents a significant public health concern and a chronic health hazard to the city's residents."

Asked, however, in a December, 1982 interview whether he would drink the water if he lived in Charlevoix, Benton said that he would.

Benton continued in his August 12 letter, "Although there are no existing state or federal standards for TCE in drinking water, this department's position is that TCE and other similar compounds should not be present in potable water and the public's exposure to them should be minimized."

The American Conference of Governmental and Industrial Hygienists (ACGIH) is a professional organization "devoted to the development of administrative and technical aspects of worker health protection." The ACGIH publishes a list, regularly updated, of Threshold Limit Values (TLVs) for the most commonly used industrial chemicals.

The TLVs, which represent the average concentration for a normal eight-hour workday and a 40-hour work week to which nearly all workers may be repeatedly exposed, day after day, without adverse effect, are used only as guidelines for industrial hygienists and carry no force of law. TLVs deal with airborne concentrations and are listed in parts per million (one part per billion equals 1,000 parts per billion).

For trichloroethylene, the TLV is listed at 50 parts per million, (50,000 ppb). The short term exposure limit for trichloroethylene, or, the concentration to which workers can be exposed continuously for a 15 minute period without ill effects, is 150 parts per million, or, 150,000 parts per billion.

Raymond Devoret is a French physician and researcher on the staff of the Centre National de la Recherche Scientifique. In an article published in August, 1979 in *Scientific American*, he makes the following observations about chemicals that cause cancer:

"Appreciation of the carcinogenic role of chemicals in the environment has come slowly, even though instances of cancer caused by occupational exposure have long been observed. As early as 1775 the British physician Sir Percival Pott correlated the incidence of cancer of the scrotum in men who had once been chimney sweeps with the accumulation of soot in their groin area many years before. Experimental findings on chemical carcinogens date back at least to 1918 when two Japanese investigators, K. Yamagiwa and K. Ichikawa, showed that skin cancers could be induced by repeated applications of coal tar to the ear skin of rabbits. One of the chemicals responsible for causing such cancers is benzo(a)pyrene, which is also present in soot, cigarette smoke and charred meat.

"Progress toward understanding chemical carcinogenesis has been slow for at least three reasons. First of all, most chemical carcinogens are not biologically active in their original form so that testing them in that form does not reveal their carcinogenic nature. Only about a decade ago did it become clear, as a result in particular of the investigations of James A. Miller and Elizabeth C. Miller of the University of Wisconsin, that normal metabolic processes, which convert food into substances the body can absorb and eliminate and convert harmful compounds into harmless ones, transform environmantal chemicals into metabolites capable of inducing cancer. Those metabolites had to be characterized just to show how their parent substances are threats.

"A second delaying factor was that the actively carcinogenic metabolites react with various cell components, including RNA and proteins as well as DNA. Since there are a lot of proteins performing inportant functions, it was often assumed that damage to proteins might play the major role in the cancerous transformation initiated by chemical carcinogens. The key role of damage to DNA in carcinogenesis by chemicals was recognized only recently, and the results of the bacterial tests have provided strong (although indirect) evidence for such a mechanism.

"Finally, the understanding of chemical carcinogenesis has been obscured by the fact that DNA damage, although it is the essential event in the initiation of carcinogenesis, does not usually in itself lead to cancerous transformation; additional factors are apparently required to promote the complex chain of cellular events culminating in the transformation. DNA-damaging agents in themselves are therefore only potential carcinogens."

Trichloroethylene levels in the Charlevoix water supply

Results of the samples are in parts per billion. Each figure in the right hand column represents the results of one sample.

Dr. Edward Reynolds, chairman of the Pathology Department at the University of Texas in Austin, has personally conducted research on the association of trichloroethylene with cancer in humans. He recently explained in a telephone interview what happens when trichloroethylene is ingested into the body's gastro-intestinal tract.

Basically it goes through four processes. First it is absorbed into the bloodstream, then it is metabolized (broken down) fairly rapidly by the liver, then conjugated, or joined with other wastes by the kidneys and finally it is excreted in the urine.

In levels of about 45 parts per billion, said Dr. Reynolds, probably 90 percent or more of the trichloroethylene would be excreted in the form of sugar acid with the other ten percent excreted as other combinant substances.

Is there an accumulation over time of trichloroethylene in the fatty tissues of the body such as in the case of PBB, a chemical contaminant familar to most Michiganians?

"If it is at a low level such as 45 parts per billion," said Dr. Reynolds, "There would probably be no residual effect. PBB is a completely different type of substance. It is very chemically resistant to metabolism. Once you take it on board, it remains with you for a long time. I would not expect trichloroethylene to accumulate like PBB."

Asked if he would drink the water if he lived in Charlevoix with the present levels of trichloroethylene contamination, Dr. Reynolds said, "Yes, probably."

When, in animal studies, trichloroethylene has appeared to have been the cause of cancer development, it has involved only the liver. In an interview last week, an organic chemist explained how such test were conducted by the National Cancer Institute.

Male and female rats and mice were exposed to trichloroethylene for 18 months. They were then observed for three to six months after the exposure. Doses were administered by pouring trichloroethylene mixed in corn oil through tubes inserted directly into the test animals' stomachs through their throats. Rats were given doses at either 1000 miligrams per kilogram of body weight (roughly hundreds of thousands of times greater than the concentration of trichloroethylene in Charlevoix water) or 500 mg-kg, five times a week. Male mice were given 2400 or 1200 mg-kg and female mice 1800-kg or 900 mg-kg five times a week.

No liver cancer was found in the rats. Thirty of the 98 mice given the low dose (30.6 percent) and 41 of the 95 mice given the high dose (43.2 percent) developed liver cancers. Of the 40 control mice not exposed to trichloroethylene, only one developed liver cancer.

One factor to be noted, said the chemist describing the test, is that mice are known to have a high incidence of liver cancer under natural conditions. Rats do not share that characteristic. The human liver also has a relatively low incidence of cancer thus prompting a certain skepticism in the scientific community of the validity of extrapolating the incidence of liver cancer in mice to the human level.

The actual process of cancer development begins with the abnormal evolution of a single cell. It can happen at high levels of chemical contamination but it can also happen with miniscule levels - all it takes is one cell to be damaged.

That damage might occur when a chemical agent such as trichloroethylene reacts with DNA, the hereditry material of all living cells. The "poisoned" cell then reproduces forming identical cells of the same "sickness". The result is a tumor.

Sometimes the tumor remains localized, sometimes it disperses throughout the body. Sometimes it is eventually fatal.

Separate from the issue of whether trichloroethylene causes cancer in humans are the other toxic effects that have been shown to result from various levels of exposure. Long term exposure, for instance, may cause damage to the kidney and liver. The central nervous system is also susceptible.

As in cancer studies, much of the information on this subject has been compiled from animal studies. Maximum concentrations for airborne trichloroethylene which produced no toxic effects after exposure for seven hours daily on five days a week for six months were: 200,000 parts per billion for rats and rabbits, 100,000 ppb for guinea pigs and 400,000 ppb for monkeys.

In eight cats exposed to 20,000 ppb of trichloroethylene in the air for one to one and a half hours a day for four to six months, damage was observed in the brain, kidneys, lymph glands and spleen.

There is also data available from experiments conducted on direct human exposure to trichloroethylene. In an experiment published in 1969, researchers found that a two-hour exposure of a volunteer to 1,000,000 ppb of trichloroethylene caused diminished visual perception and motor skill while two-hour exposures to 300,000 ppb and 100,000 ppb had no significant effect.

In a later report, the same researchers found that low levels of alcohol in the bloodstream contributed to substantially heightened effects from the same exposures to trichloroethylene.

When human volunteers were exposed, in test results published in 1967, to 100,000 ppb of trichloroethylene, there were no abnormal effects observed in performance tests. Some sleepiness and fatigue was observed, however, when the concentrations were increased to 200,000 ppb.

At the very heart of the concern about trichloroethylene contamination is the question of risk. Parts per billion, threshold limit values, physical properties and other data have little meaning to the general public until they are applied to the question: Just how much of a health threat are we facing?

Unfortunately that is a very difficult question to answer with any scientific certainty. Given all the research data already noted and the present levels found in the Charlevoix water supply, the best health officials can do is estimate how many more people will die of cancer from ingesting trichloroethylene than would normally die and at what level of concentration will other biological effects develop.

In assessing the health treat posed by a host of suspected carcinogens - including trichloroethylene - in the water supplies of Battle Creek and Kalamazoo in 1981, Michigan Department of Health toxicologist Dr. David R. Wade computed a table of estimated risks but added the following observation in the report to his division chief: "I'm sure you're well aware of the problems associated with numerical risk assessments and that the numbers presented in the table are most likely an overestimate of the actual risk. For purposes of this assessment I've also made the assumption that the carcinogenic risk is simply additive when in fact it may be antogonistic or potentiated. If we accept numerical risk assessment for what it is - a crude approximation of actual risk - the question now becomes: are these risks acceptable for these populations?"

Crude though it might be, defining health risks in terms of numerical odds is about the only way to make some type of comparative analysis upon which to set priorities and formulate strategy. Health officials have estimated that the risk of excess cancer deaths at a level of 45 parts per billion to trichloroethylene in Charlevoix's drinking water is one in 100,000. How do those odds compare with some other risks people face in everyday life?

E.E. Pochin of Britain and Harvard University's Richard Wilson recently computed some of the risks we face daily:

-For someone traveling a distace of 7,000 miles by air, there is one in 100,000 chance of dying in a plane crash.

-Someone visiting Denver, Colorado for a period of 20 months faces a one in 100,000 chance of dying from cancer caused by exposure at high altitude to cosmic rays.

-On a 600-mile automobile trip, there is a one in 100,000 chance that someone will be killed in an accident.

-Someone smoking from ten to thirty cigarettes faces a one in 100,000 chance of dying from cancer or cardiovascular disease.

-A typical factory worker faces odds of one in 100,000 that he will be killed in an accident over a period of 15 weeks.

-Rock climbing for 15 minutes poses a one in 100,000 chance of death by accident.

-Someone living in a stone building for 20 months faces a one in 100,000 chance of dying from cancer caused by low level radiation from the stone.

Obviously the above risks cannot be compared directly with Charlevoix's problem. One does not have to take a plane ride, visit Denver, smoke cigarettes, climb rocks, etc. But people who live in Charlevoix have to drink water and have every right to expect the water from their taps to be safe.

In another *Scientific American* article published in February, 1982, Arthur C. Upton wrote about the biological effects of low-level radiation, a health threat with many of the same characteristics of groundwater contamination: People are exposed to low level radiation every day through natural background sources (such as crushed stone in buildings) dental and medical x-rays and other sources. Upton assesses the risk of death from low-level radiation as negligible, especially compared with the aforementioned risks of daily life. But he adds:

"...No risk can be regarded as acceptable if it is readily avoidable or if it is not accompanied by a commensurate benefit. In general the acceptability of a risk tends to decrease to the extent that it is involuntary, particularly if it is imposed on those who do not share equitably in the related benefits. The weighing of risks and benefits calls for personal value judgments, which can vary widely among individuals...It is noteworthy that the problems encountered in evaluating the risks of low-level radiation are paralleled by similar problems in evaluating the risks of low-level exposure to toxic chemicals. The latter problems are even more complicated: they involve not only poorly defined variations among individuals and among species in the intake, distribution, metabolism, detoxification and excretion of substances but also other sources of uncertainty. Nevertheless, the scientific bases for assessing the risks of radiation and chemicals are sufficiently similar for the concepts and principles derived from efforts to understand and protect against the biological effects of radiation to be helpful in developing strategies for protection against the health impact of toxic chemicals and other potentially harmful environmental agents."

Simply put, any excessive risk to the general public that can be avoided by practical means should be. That is one point upon which it is easy to get general agreement.

It is the matter of defining, to everyone's satisfaction, *excessive risk* and *practical means* that becomes a much more complicated proposition.

Sorry. No simple answers.

Telephone interviews to sound out residents on water quality concerns

by DAVE KNIGHT

About 350 area residents are to be surveyed this week by telephone to determine their attitude toward drinking water quality.

Finishing touches on the survey questionnaire were added by City Council Monday night.

Proposed by the Keep Charlevoix Beautiful (KCB) organization as a means of gaging the public concern over such matters as trichloroethylene contamination of city water, the survey was developed from input of both the council and City Manager Robert Hunt.

Telephone interviews will be conducted by Charlevoix High School students in instructor Charles Bentley's Behavioral Science class. According to KCB President Bruce MacArthur, the interviewers have been specially trained and will use a randomly selected list of registered voters in an attempt to make the survey as scientifically accurate as possible.

On another TCE-related topic at Monday night's meeting of the council as a committee-of-the-whole, City Manager Hunt requested the council to hold off a final decision on water treatment processes until they can review the findings of an engineering study on the feasibility of a lake water treatment plant. Hunt said the data should be ready for review at the council's February 7 meeting.

Out-of-towners can respond

Summer visitors and those city residents who spend the winter months in warmer places also have a chance to express their views on water quality. Since they will not be reached in the telephone survey to be conducted this week, Keep Charlevoix Beautiful has offered to survey their opinions upon request. Those wishing to be interviewed are asked to write KCB at P.O. Box 123, Charlevoix, 49720. In order to maintain the scientific accuracy of the telephone survey, however, the interview data compiled from mailed requests will not be included in the survey results.

Waldner to present request for county tax reduction to 13 mills

A plea to reduce the amount of taxes that may be levied in Charlevoix County from 15 to 13 mills will be presented to the Charlevoix County Board of Commissioners this (Wednesday) evening.

Kari Waldner of Boyne City, spokesman for the Organized Voters of America, in Michigan will appear before the County Board to ask that the Board put the proposition to the public in a referendum vote this year.

Waldner told the Courier that he will discuss several tax matters with the Commissioners that have never before been discussed. He will also make suggestions about how enough money can be eliminated from the County budget to make the millage cut possible. Among them are elimination of some County departments, consolidation of otghers, and perhaps even consolidation of Charlevoix and Emmet Counties.

"We want the County Board to be able to take credit for cutting taxes," Waldner said, "rather than alwsys being on the negative side."

He also acknowledged that if the County Board does not take action toward a referendum, his groop would do so by petition.

THIS AWARD-WINNING PHOTO, *taken by Peter O. Plagge, Charlevoix, will be on display in The Equitable Gallery in New York City, Jan. 18 - Feb. 11, as part of a presentation of winners and and selected finalists in the 1982 Kodak International Newspaper Snapshot Awards (KINSA). It won a $100 Special Merit Award. Plagge is a free lance photographer whose photos appear regularly in the Courier.*

The exhibit includes winners of local summer contests conducted by 181 newspapers in the United States, Canada and Mexico with more than 385,000 entries.

Plagge is represented by a black-and-white picture of a shadow on a table. It was a winner in the Petoskey News-Review's summer snapshot contest and as such was submitted to the international competition.

Solid Waste Plan needs one more approval

by PEG OHLE

Charlevoix County's plan for disposal of solid waste (garbage and trash) needs only one more vote of approval by a local unit of government before it can be sent to the Department of Natural Resources (DNR) for that body's blessing.

In preparation by a special committee of County residents for over two years, the Solid Waste Disposal Plan was submitted to Cities, Townships, and Village late last summer for their study and approval.

Guide rules set up by the DNR under Act 641 (Solid Waste Management) of 1978 require that 67 percent of the municipalities in the County approve the Solid Waste Disposal Plan. This means that 13 of the 19 units of government in Charlevoix County must do so.

So far, 12 units have approved the Plan, five have tabled it, and two have not yet acted on it.

Approval has been received from Charlevoix Township, Hayes Township, Bay Township, Boyne Valley Township, Hudson Township, Chandler Township, Eveline Township, Marion Township, Norwood Township, South Arm Township, the City of East Jordan, and the Villge of Boyne Falls.

The Plan has been tabled by Evangeline Township, Melrose Township, Wilson Township, Boyne City, and the City of Charlevoix. It has not been acted upon by the townships of St. James and Peaine on Beaver Island.

Approval by the City of Charlevoix has been witheld pending further consideration because the plan calls for the closing of a city-owned landfill used for disposal of trees, stumps, construction wastes, and similar material. This landfill is located south of town approximately across from the airport and is presently considered important to city operation.

The Charlevoix County Solid Waste Disposal Plan calls for continued operation of the Charlevoix Garbage Service landfill in Eveline Township, shipping waste to landfills in Kalkaska and Crawford Counties, mini transfer stations in the Boyne City, East Jordan and Charlevoix areas, continued use of green box transfer tations in Boyne Valley and Melrose Townships, and either a modolar incinerator or lined landfill on Beaver Island. It also calls for the possible later installation of a major transfer station near the Charlevoix Landfill or somewhere along M-66.

When the Charlevoix County plan finally receives the necessary local and DNR approval, it will become law and no unit of government or individual will be permitted to establish a landfill or transfer station that is not part of the plan. The DNR will not license them.

Seek public input at Wednesday night meeting

Summer taxes? Board to decide this week

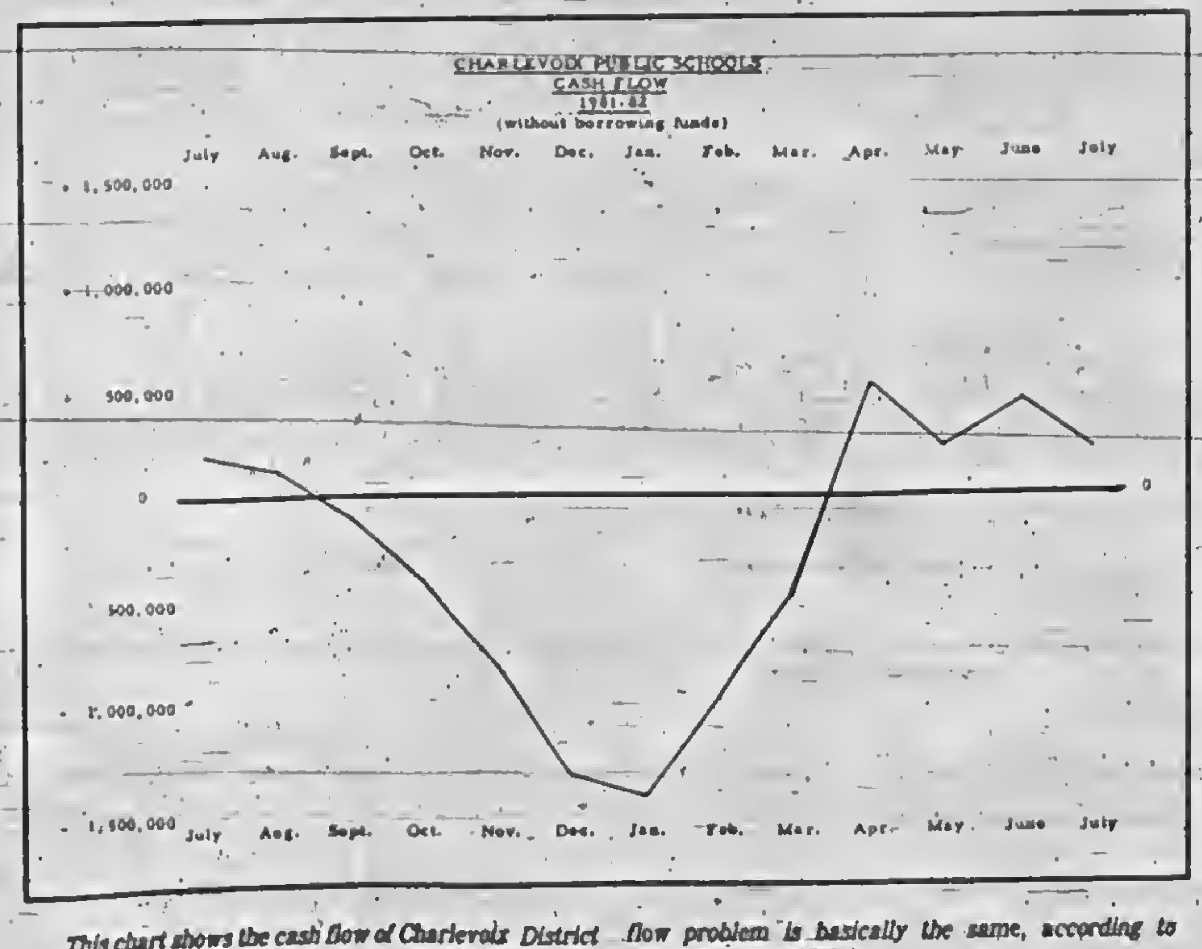
by DAVE KNIGHT

Summer in Charlevoix is beach time and sailing time, softball time and fudge time. The Charlevoix Board of Education now wonders if summer should be tax time, too.

With new state legislation in place enabling school districts to collect summer taxes, the Charlevoix school district is weighing the merits of establishing a summer tax collection to avoid the cost of borrowing money each year.

Summer tax collection will be the subject of a special public meeting scheduled for 7:30 p.m. Wednesday, January 26 at the Charlevoix High School study hall.

All interested parties are encouraged to attend the meeting and provide the school board with their input. Following the public discussion, the board is expected to take formal action on the matter.



This chart shows the cash flow of Charlevoix District Schools, without borrowing, for the 1981-82 school year. Though exact figures are different this year, the cash flow problem is basically the same, according to administration officials.

More than one option

Several alternatives are available to the board.

According to the new law, Act No. 333 of the Public Acts of Michigan, there are three options available to the board pertaining to the amount of percentage of taxes that may be collected in the summer. The board may collect 50 percent of the taxes coming to it in the summer, it may collect 100 percent in the summer or it may elect not to collect any summer taxes.

Not every taxing unit, city or township, has to bide by the same percentage policy. The schools may collect 50 percent of one township's taxes in the summer, 100 percent of another's and zero from a third.

If the townships and city refuse to collect summer taxes, the school district may request that the county collect them. If the county refuses, the school district may collect summer taxes itself.

Another alternative being examined is to delay any action this year in order to give the taxing units and the general public more time to prepare for a change. If the board decides to go to summer taxes in 1984, for instance, the city and townships would have over a year to adjust the administrative machinery accordingly.

Should the decision be made to collect summer taxes this year, a millage election will have to be held in March giving the district little time to explain its request to taxing units and voters.

According to Charlevoix District Schools Business Manager Vincent Olach, the district has offered to pay the townships the added cost of collecting summer taxes.

That offer is hard to quantify in terms of dollars and sense, however, since, says Olach, "At this point we really don't know what the extra cost would be to collect summer taxes."

Estimates have ranged from $5 per tax slip to 75 cents each.

Even if the cost turns out to be in the upper range of those estimates, the school district will save money by collecting taxes in the summer.

Problem is timing

The heavy borrowing the school system has had to do each year stems from a problem of cash flow timing. The problem is the result of modern fiscal needs clashing with an outdated collection system.

Way back when the tax system was first developed, it was based on the then dominant rural economy. Tax collection was timed for the farmers' convenience. Since they were in best financial shape in the winter after crops had been harvested and sold, that is when tax collections were scheduled.

Today the Charlevoix economy is no longer agriculturally oriented. Because of its heavy dependance in modern times on the resort industry, the area's wealthiest time of year is now in the summer, not the winter.

This, points out the school district administration, makes a good case for summer tax collection.

Borrowing costs are high

Operating expenses for the schools begin July 1. Under the present set-up, taxes come in six months later. To pay the bills during the deficit months, the district borrowed $1,155,000 for 212 days this school year. The interest amounted to $50,027, even with an extremely attractive 7.39 percent interest rate.

"We happened to time it just right this year," said Olach, "We caught the interest rates at their lowest point in years. Since then they have gone up, too."

In the 1981-82 school year, the district borrowed $1,450,000 but at almost double the interest rate they have this year. Last year $104,813 was paid in interest alone.

The administration has also pointed out that many area taxpayers may prefer paying taxes in the summer rather than the winter when Christmas expenses and high utility payments also come due.

Olach expressed hope for a good turnout at this week's special meeting Wednesday night saying it has been hard to determine public sentiment on the matter since not much input has been received from the general public by the school board.

JAN

Names In The News

Four Alma College students from Charlevoix County are among the 200 students named to Alma College's Dean's List for outstanding academic performance during the 1982 Fall Term ending December 17. Students who achieve a 3.5 or better grade point average during a term, while carrying a minimum of 13 credits (at least 8 of which are evaluative grades), are named to the Dean's List.

The students are:

ELIZABETH WALLS, a 1981 graduate of Boyne City High School, is the daughter of the Rev. Milton and Mrs. Diana Walls, of Boyne City. She is a sophomore at Alma.

KRISTY MATHEWS, a 1980 graduate of Charlevoix High School, is the daughter of Vernon and Andrea Mathews of Charlevoix. She is a junior majoring in economics.

TERESA NOIROT, a 1981 graduate of Charlevoix High School, is the daughter of Alva and Evelyn Noirot of Charlevoix. She is a sophomore at Alma.

SHARON BLEVINS, a 1979 graduate of Stow High School (Ohio), is the daughter of the Rev. Gerald Blevins of Iron Mountain. Sharon, a junior majoring in elementary education, lives in East Jordan.

MK2 JEFFREY A. HARRINGTON, a veteran of 2½ years in the U.S. Coast Guard, has been voted "Sailor of the Quarter" aboard the U.S. Coast Guard Cutter Mesquite for the quarter ending January, 1983.

The "Sailor of the Quarter" is nominated by the ship's crew. The selection is based on the individual's military bearing, uniform, work habits, professionalism, and leadership.

For being named the "Sailor of the Quarter", MK Harrington will receive a 96-hour pass, have his name engraved on the ship's plaque, receive a parking space and have head-of-the-line privileges.

MK Harrington is the son of Ralph and Shirley Harrington of Greenville, Michigan. He was graduated from Greenville High School in 1979 and enlisted in the U.S. Coast Guard in August 1979. After completing his initial training, he attended Machinist Technician School at Yorktown, VA, and reported to the CGC Mesquite on March 25, 1980.

A close-range architectural study by **ARTHUR RANGER** of the old Mecosta County Jail was featured in an article in the Professional Surveyor, Vol. 2, No. 6, November-December 1982, pp 19-24. The article entitled "Hands-On Education At Ferris" was written by Robert Burtch, assistant professor of surveying and mapping at Ferris State College, Michigan.

Arthur, the son of Alvin and Pat Ranger of Charlevoix, is a 1977 graduate of Charlevoix High School. He received a bachelor of science degree in land surveying from Ferris State College in June 1981. Arthur and his wife Beth live in St. Joseph, Michigan where he is employed by Wightman and Associates, Inc. as a surveyor in training.

The historic architectural recording of the Mecosta County Jail in Big Rapids, Michigan was completed by using photogrammetric methods during April and May 1981 by Ranger and a fellow student Terrance Mish. The survey design and stereoscopic compilation they performed was submitted as a senior project in the land surveying program at Ferris. The equipment they used in the work included a Wild Heerbrugg camera P30-203 and a stereoplotting instrument A7-816.

CINDY ENGLER, daughter of Mr. and Mrs. Anthony Engler of Charlevoix, was named to the Dean's List at Central Michigan University for the fall quarter. A 1982 graduate of Charlevoix High School, Miss Engler is presently pursuing a double major in Psychology and Dress Design and Making.

Mrs. Cameron is 99

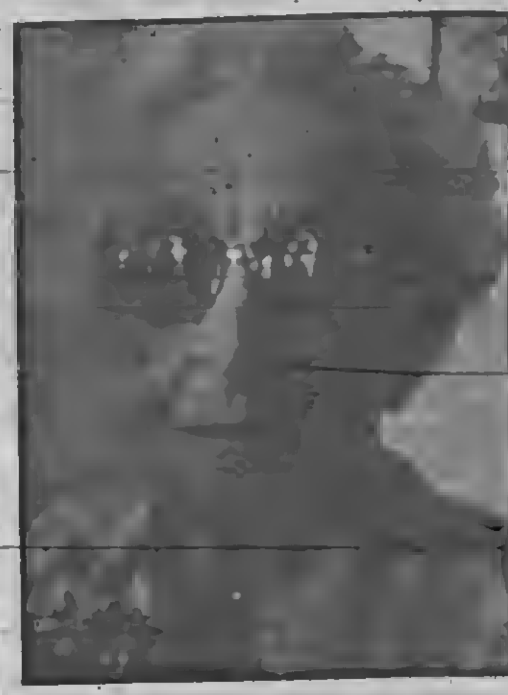
Mrs. Jeannette Cameron observed her nineth-ninth birthday anniversary at a party held Wednesday, January 19, at the home of Mrs. James Williams. Mrs. Frank Webb was the co-hostess.

Mrs. Cameron was born in Whitehall Jan. 19, 1884, the daughter of Peter Dougall and Lois (Allen) Campbell. The family came to Charlevoix in 1907. She was graduated from the Charlevoix High School and went on to graduate from Albion College with a major in music. She was married to Arba H. Cameron in Charlevoix. They made their home in Chicago and later in Minneapolis before returning to Chicago. Upon Mr. Cameron's retirement, they returned to Charlevoix to make their retirement home.

Mrs. Cameron is a member of the First Congregational Church and for a number of years after returning to Charlevoix played the piano in the Sunday School. She is a life member of the Charlevoix Women's Club, the Charlevoix Garden Club, the Mary Brewster Circle of the First Congregational Church and Kappa Alpha Theta sorority with which she became affiliated while at Albion College.

She has been an avid bridge player for many years.

Her only son, Oaonald A. Cameron, resides in Arlington Heights, Ill, and Fort Pierce, Fla. She also has three grandchildren and three great-grandchildren.



Mrs. Jeannette Cameron pictured at her nineth-ninth birthday anniversary party on January 19 hosted by Mrs. James Williams and Mrs. Frank Webb.

Mary Ann Cox

To head Nursing Services

Mary Ann Cox, R.N., has been appointed Director of Nursing Services, at Charlevoix Area Hospital, Richard Krueger hospital administrator announced this week.

A Charlevoix native, Mrs. Cox, the former Mary Ann Cummings, graduated from Charleviox High School in 1965 and received a Bachelor of Science in Nursing degree from Wayne State University in 1970. She worked as a staff nurse at Charlevoix Area Hospital from 1970 to 1971.

Since 1971, she has worked two years in the Intensive Care Unit at Little Traverse Hospital and at Central Michigan Community Hospital in Mt. Pleasant. She was also an emergency room staff nurse at Madison County Hospital in London, Ohio in 1973.

During 1974-75, Mrs. Cox was an instructor in the Practical Nurse Program, including supervision of clinical students at Mid-Michigan Community College in Harrison, Michigan.

More recently, from January 1976 to present she has been at Charlevoix Area Hospital working as a staff nurse in the Intensive-Coronary Care Unit, the recovery room and as a medication nurse. From April 1979 to July 1982 she served as Nursing In-Service Coordinator for Charlevoix Area Hospital, in which position she implemented and became involved in many new activities, including employee, nursing, patient and public health educational projects.

Commenting on the appointment, Administrator Krueger said, "We were fortunate to have within our hospital a person with such varied experience and skills that we could promote."

Mrs. Cox lives in Marion Township with her husband Ron, a teacher at Charlevoix Elementary School and their two children, Melissa, 7, and Dan, 10.

Obituaries

KATHRYN M. GAMBLE

Kathryn Moore Gamble, 78, a former Charlevoix resident, died at her home in Bradenton, Florida on January 18.

Mrs. Gamble was born in St. Johns and later moved with her family to Charlevoix, where she lived until 1962.

She is survived by a son, Alfred James Gamble of Montgomery, Alabama; a daughter, Mrs. Carolyn Gamble Brown, also of Montgomery; a sister, Mrs. Edith A. Markley of Lansing; two brothers, Llyal J. Moore of Jackson and Eladen E. Moore of Mesa, Arizona; two grandchildren and two great grandchildren.

Services were held January 21 at Griffith-Cline Funeral Chapel. Interment was at Manasota Memorial Park in Oneco, Florida.

RENA DORMAN

Mrs. Lloyd (Rena) Dorman, 82, formerly of Loeb Road, Charlevoix, died January 14 in Harrisburg, Illinois.

The deceased, who was born in Schoolcraft, is survived by three children: Lloyd of Fennville; Alice Walker of Harrisburg; and Donna Doty of Carey, Illinois; three grandchildren and six great grandchildren. Her husband and a daughter preceded her in death.

Funeral services were held January 17 in Fennville with interment in the Fennville Cemetery.

EDWARD J. LAGERMAN

Funeral Services for Edward J. Lagerman, 80, a former resident who died January 20 at Northwest Community Hospital in Arlington Heights, Ill., were held Monday at St. Mary's Church here. The Rev. O.F.M., of St. Francis Xavier Church in Petoskey officiated. Interment was in Holy Cross Cemetery at St. James, Beaver Island.

Born in Milwaukee, Wis., Aug. 6, 1902, Mr. Lagerman was married to the former Margaret Left in Chicago in 1925. They made their home in Charlevoix. Mrs. Lagerman preceded him in death June 1, 1961. He was a merchant seaman on the Great Lakes for 30 years until his retirement.

He is survived by two sons, Clifford of Traverse City and Frank G. of Pensacola, Fla.; four daughters, Mrs. Norma Hansen of Rolling Meadows, Ill., Mrs. Ronald (Briggs) Cunningham of Fenton, Mrs. Loren (Ann) Holfeld of Arlington Heights, Ill., and Mrs. John (Midge) Orlando of Everett, Wash.; 30 grandchildren; 13 great-grandchildren and a sister, Mrs. Alfred (Margaret) Neundorf of Algoma, Wis.

The family suggests memorials to the Holy Cross Cemetery Perpetual Care Fund at St. James, Beaver Island.

The Winchester Funeral Home was in charge of arrangements.

Chamber names officers, sets 1983 goals

by FRAN MARTIN

David Knight, editor of the Charlevoix Courier who is serving his second year as a director of the Charlevoix Chamber of Commerce, was elected president of the Chamber at the organizational meeting held recently. He succeeds James McGarry in the position.

Other officers are Jeannine Wallace, first vice president; Michael Greeley, second vice president, and James Mahee, treasurer. Jacquie Merta is executive director of the Chamber.

Other members of the board of directors are Josh Barnes of the LesaLite Corp., Dr. David Strawbridge, local dentist, and John Frey, Marion Township farmer who were elected recently to three year terms, Roy Hayes, Linds Mason, Peter Pace, Suzi Reis and Dr. F. James Stewart.

Following his election as president, Knight said "I am looking forward to a very productive year. We happen to have a unique combination of a tougher than average job to do and a better than average board to do it."

Following the organizational meeting, the board set its goals for the year. Speaking of this Knight said "Our objectives for the year can best be summed up in two words: jobs and promotion. We have definite plans to actively seek new businesses and jobs. We also plan to work hard to improve the tourist business which is vital to our area's economic health."

"With the economic climate what it is; with every chamber in the state putting forth every effort to 'sell' its community as a tourist's haven, we, as directors, are going to have to impress on everyone how important tourism is to our area. It is important that every resident of the area join with the chamber in encouraging people to come to Charlevoix and treating them as 'special guests' once they are here."

Knight said that plans have been made for the follow up process on the Industrial Retention program started in November. Interviews have been completed and data is now being compiled for review next month.

A new committee has been formed within the board to attract new businesses to Charlevoix.

Other long range plans are in the hopper Knight said.

Among these are a newsletter on a more regular basis and a minimum of three general membership functions a year to make the membeship more aware of the impact it can have when working as a group.

Efforts will also be made to better organize the membership in the hospitality groups; i.e. motels, hotels, restaruants who cater to the personal needs of visitors to the community in the hopes of finding better ways to serve their needs.

Looking forward to the fall, efforts will be made to better organize next year's Christmas sales promotion among local businesses. Efforts will also be made to make it possible for more businesses to remain open during the winter months.

Knight concluded by saying "These goals will not be accomplished in a short time. It will take work, a lot of hard work. However, this board is more committed than ever to serving its membership. This is one point we talked about at the retreat last weekend. We will be very receptive to any and all imput and are planning a lot of activities involving the entire membership this year. If you have any suggestions or ideas contact us. We will be grateful for your interest."

Ski school reset

The Family Day Ski School at Mt. McSaoba has been re-scheduled to Sunday, January 30, Owight Boss, Charlevoix Recreation director, has announced.

Sign-up for the classes in five catagories will be held at Mt. McSaoba up until Saturday, January 29.

Lessons will be available for children (beginners) at 12 noon on January 30; adult (beginners) 1 p.m.; women (beginners) 2 p.m.; adult or children (intermediate) 3 p.m.; adult (intermediate) 4 p.m.

A minimum of five participants for each class is necessary in order to offer the low rate of $3.00 per lesson or $10 for four lessons.

There will be a limit of 10 participants in each class.

Those planning to take lessons are urged to sign up by Saturday, January 29, so the classes may be organized.

We all can't have Pyramids Filled with gold ... But we Can Secure a million dollars for retirement, with an IRA Account from Charlevoix County State Bank.

New tax laws, allow, almost everyone to take advantage of the high earnings & tax benefits of an IRA —

Individual Retirement Account

TAX BENEFITS
A Charlevoix County State Bank IRA allows you to save taxes two ways:
1. Your IRA contributions are deducted from your taxable income.
2. Taxes are deferred on their interest your IRA earns until you begin making withdrawals. Even then, you will be taxed only on the amounts you withdraw. Withdrawals may begin as early as age 59½, but must begin by age 70½.

HIGH EARNINGS
Based on current projections, an individual wage earner who makes the maximum contribution of $2,000 each year could accumulate over $1,000,000 in a Charlevoix County State Bank IRA in only 35 years. Consult the accompanying chart to see how much you could earn. Contributions may be made to an IRA until age 70½.

$2,000 deposited at the beginning of each year

Age when you start plan	Age 60	Age 65	Age 70
25	$1,161,128	$2,130,041	$3,895,341
30	629,324	1,161,128	2,130,041
35	337,435	629,324	1,161,128
40	177,226	337,435	629,324
45	89,293	177,226	337,435
50	41,030	89,293	177,226
55	14,540	41,030	89,293

If you deposit $1,000 per year, halve these sums. The above chart is based on the assumption that deposits earn at a rate of 12% per annum. Interest is compounded daily. The actual interest rate paid throughout the life of your plan may vary considerably from the example. Amounts shown are projections and are not guaranteed.

Payroll deductions can be made directly into your Charlevoix County State Bank IRA account.

The professionals at Charlevoix County State Bank will be happy to discuss the many benefits of the Charlevoix County State Bank IRA with you.

Opinion

Knight on the Town
Real men go ice fishing

by Dave Knight

Sunday afternoon found the Gooze and me hunched over a hole in the ice in the middle of Lake Charlevoix.

Scanning the bleak winter landscape, dully defined in shades of grey, the Gooze said it reminded him of a bad black and white photo. The overcast sky and the snow-covered lake were the same dirty white; only the tree line separated the two.

Distant figures hunched over their own holes in the ice and we could hear their voices. Sound travels amazingly across the ice. From where we sat we could hear somebody plowing a drive in Ironton, dogs barking on Hemingway Point and a snow machine grinding its way toward Horton Bay.

The lake that day was covered with slush. Trudging through it, our boots made a sound like a ringer washer in the rinse cycle. The Gooze and I chuckled as we pictured Peggy Fleming trying to skate on the stuff, in her little pink dress, gliding from a triple toe loop into a face-first header into the slush.

That's what sitting over a hole in the ice all day does to your head. You think too much. You look at that hole and wonder what it's like down there. You stare at the fishing line as it disappears in the inky blackness of the world-beneath-the-ice.

It's different when fish are biting and there's something to do.

But when they're not, one's mind goes adrift. Eventually you get around to wondering about the logic of ice fishing. You compute the odds of a lake trout happening upon a one-inch lure dangling from a hole in the middle of hundreds of square miles of lake. You wonder about the recreational value to two grown men of sitting next to that hole all day gnawing on beef jerky drinking beer and mumbling something aboot Peggy Fleming covered with slush.

You decide it's best not to try to explain. Like the Gooze says, that takes the fun out of it.

Clockwise
Splashdown relief

by Bob Clock

I'M SURE EVERYONE is happy that the Russian sputnik with its nuclear cargo has crash-landed in the Indian Ocean rather than Round Lake.

The first time around, Mother Earth wasn't so lucky. That spacecraft came down like a Model T over northern Canada and spread debris over hundreds of square miles.

Of course, the denizens of the Indian Ocean probably aren't too happy over having a nuclear junk pile in their front room.

Take the coelacanth, for example, a gigantic fish which has survived unchanged since prehistoric times off the coast of Madagascar. The fish was once thought to be extinct, until one showed up in a fisherman's net a few years ago.

However, a good dose of nuclear energy could cause him to sprout wings or grow an extra dorsal fin and the world will never be the same.

It is difficult, at best, to take sides in this business of sending nuclear spacecraft aloft.

Certainly, nuclear engines providing a virtually inexhaustible source of power can be important to space exploration. But for the sake of all living creatures, you can't help but wonder about the advisability of sending anything atomic into the wild blue yonder — if there is an outside chance it may tumble back to Earth.

When our space expertise reaches a point where interstellar craft can be wafted aloft without danger of return, we definitely should consider the sun as a depository for nuclear waste.

It certainly would be better than burying it under Alpena or storing it in a swimming pool at Big Rock Point.

I NOTICED Saturday that Oleson's Food Store is now stocking bottled spring water for those of us who are becoming timid about the presence of trichloroethylene (TCE) in our tap water.

In fact, some Charlevoixans tell me they have been drinking bottled water ever since TCE was discovered more than a year ago.

Should we be worried? I really don't know. We are subjected to so many ghastly chemicals every day, I wonder if one more foreign agent make any difference. Have you ever checked lately on the chemicals that go into every slice of commercially packaged bread?

A highly respected Charlevoix physician tells me that years ago TCE was used as a treatment of tic douloureux, an extremely painful form of neuralgia. Doctors had their patients saturate a piece of cotton with the chemical and sniff it for relief.

Since then TCE has had wide application in so many areas it is difficult to keep track of them all.

I do know that an increasing number of Charlevoix residents are doctoring their tap water with Haig and Haig and Cuttysark in an effort to mitigate any harmful effects. It may not do any good, but it keeps them from worrying about the problem.

Letters: TCE

Greetings Mr. Editor:

I take pen in hand to write in regards to the TCE water contamination. It is my opinion the contamination comes from seepage from the sewer pipes. Just about everything imaginable is poured into the sewage system or gets in other ways such as drain holes in garage floors, basement floors, etc. The sewer pipes are jointed every 10 feet or so and it would be a miracle if some seepage did not occur.

I'm not too enthused about using water from the Lake either. Filter it all you want I still think of some farmers cows that wash their feet in some creek upcountry. Sure the creek water is supposed to clear itself in so many feet, but; And also the septic tanks outflows which are led into the rivers from many of the cottages alongside the streams. I myself helped to build, many years ago, while working for a contractor, such a septic system on the Jordan.

Although it perhaps could be the most expensive way to get pure water I believe the City should but some acerage a mile or so up in the hills and drill a series of wells for water there.

I remember, many years ago, and not in Charlevoix, where a bottomless 55 gallon barrel was cemented over, under the floor, in a basement and all the wash water from the clothes washmachine was drained into it. It would of course drain away before the next washday. Might not such have been the cause of our water trouble? I also remember the odour in that basement from that drain. It wasn't attar of roses by any means!

Although I find the taste of boiled water slightly different then tap water it is not at all an objectionable taste once I got used to it and I believe it's better to drink then too much of some of those pops which may contain some ingredients which may be even worse than a small amount of that TCE.

When I sailed the Lakes at the time of the last Great War we always filled our drinking water tank up on Lake Superior. Never, if we possible could help it, from any of the lower lakes.

One more thought comes to my mind and it is this: The location of the city well. One might almost say it is located at the cities foot. Some of the water MUST seep in from under the City.

Respectfully signed,
Frank Kubicek

Facts are important

To the Editor:

I have been quick to criticize and I wish to be as quick to offer plaudits for an exceptionally well researched and informative article on our current problem with T.C.E.

There has been an excessive use of scare tactics directed at forcing a quick solution to a problem which had not been fully defined. The City council did not neglect it's duty as regards the protection of public health but, merely tried to interject a modicum of reason into a situation which under worst conditions would not become a serious hazard for some years to come. Your article provides the necessary intelligent expansion of factual information which responsible persons must assimilate, analyze and utilize in making major decisions regarding not only health and welfare, but the best overall approach within the financial means of the community.

In closing I would also like to state that I are getting a little tired of being compared with mice and rats. Lest we react irresponsibly, remember the past scares which were fallacious, i.e.: mercury in fish and monosodium glutemate. The latter almost ruined some companies.

Paul O. Burlew

Out of the Blue

Intelligent life in outer space?
Let's try, for what it's worth –
Before we efface the human rce –
To find it here on earth!

More opinion on water treatment options

Did you know that the lake water treatment plant, planned by the City of Charlevoix will cost the taxpayers approximately three million two hundred thousand dollars?? $3,200,000.00.

Since the city must borrow the $1,650,000 to build the plant, and pay the fees, the actual cost, assuming an interest rate of 10% for 15 years will approximate $3,200,000. If the fees are included in the cities estimate of $1,500,000 construction cost, the end cost will be $2,900,000. If the city finances the cost by higher water rates or any other methods, the cost of interest is still there. You will still pay it.

Did you know that your officials will be spending more of your money, over $165,000.00 on "engineers' fees." Than it would cost to purchase and put in place and in operation. The carbon filters, which remove TCE and 100 other chemicals? The cost of carbon filters, with the same interest and term, will only cost $150,000 estimated to install and total $290,000. The engineers' fees, estimated at $165,000 with the same interest and term, total $320,000. How would you spend your money?

Now, about my recent letter to the editor.

City Manager, Bob Hunt, responded to my letter to the Petoskey New-Review with the following quote, "The fundamental question is; what is the problem?", Hunt said, "Is it T.C.E., or is it the susceptibility of our water supply to contamination."

His statement, which I have quoted verbatim, is exactly the reason we are in the problem that we are today.

Young Bob doesn't seem to appreciate the fact that it isn't a question of "or", but a question of both.

The people of Charlevoix want the T.C.E. removed, and they have wanted it removed since 1981.

Now let's go to the second part of his "or" question, "the susceptibility of our water supply to contamination."

The people of Charlevoix are equally concerned about this.

Unfortunately, there is no place where we can take water that is problem-free.

The Lake Michigan water which is unfit for human consumption in its present form, must be passed through two filters and treated with three chemicals to make it drinkable.

The same would hold true if we took our water from Lake Charlevoix.

The same would hold true if it is taken from shallow wells or deep wells.

The only difference is that the water taken from the shallow wells can be made pure with carbon filters.

The water taken from the deep wells may well become contaminated with chemicals, if not already, and require carbon filters and in addition water softeners because of the hardness of water at those depths.

This provides additional problems for people with heart conditions.

Therefore, all of the sources available to us need treatment.

The safest location, and best location, for the cleanest water with the simplest and least expensive treatment, is exactly where it is being drawn from today.

The logical question is;

How do we get pure water to drink, in abundance, at the lowest, practical cost?

This is the question we ask ourselves when we purchase anything.

The carbon filters are immediate and it is also a marvelous bonus, that the carbon filters also remove approximately one hundred other chemicals that may or may not be in the water or may come along in the future.

Therefore, Mr. Hunt's question, "Is it T.C.E. or the susceptibility" completely misses the point.

It is both.

And still we drink and inhale.

Young Bob also states in his article that he believes they are taking the "proper measures to remove T.C.E."

I guess you might relate that to him saying that they are on track.

This provides an interesting mental picture.

Imagine, if you will, Engineer Bob in the cab of a locomotive which is on track.

Unfortunately, Bob's "choo-choo" is on the wrong track, headed in the wrong direction.

He is heading full speed ahead for a towl called "Monumental Debt."

On board are 3,000 souls, being "taken for a ride" and not a free ride.

The conductors and ticket takers on the train, six of them, are the city council folk collecting over three million dollars from their fellow citizens.

Back in the caboose is the mayor saying "where are we going?"

Unfortunately, Bob listens not. His choo choo rumbles on.

Engineer Bob forgot to bring on board a brakeman, the one crewman needed.

The train rumbles through a village called "bad publicity."

This is the new home of the F.A.A. flight station that didn't want to settle in a town that it heard on national television had a suspected carcinogen in the water.

The train also passes through other picturesque little towns where tourists and visitors are enjoying their summer vacation free of concern of impure water, that the officials application to "superfund" made known to the world. Our officials inaction has put Charlevoix on the map.

Onward young Bob drives the engine toward "Monumental Debt."

But wait!

Will someone pull the cord and stop the train so that the passengers can disembark?

Engagements

Erik J. Fiedler and Sherry Jensen

Jensen-Fiedler

Mr. and Mrs. James R. Jensen of Charlevoix are announcing the engagement of their daughter, Sherry, to Erik J. Fiedler. He is the son of Mr. and Mrs. James Fiedler of Charlevoix.

The bride-elect and her fiance are both 1981 graduates of Charlevoix High School. She is presently employed by the Pizza Hut and he is a student at North Central Michigan College.

The wedding is planned for next fall.

Wendy Lou Kowalk and Richard Friske

Kowalk-Friske

Mr. and Mrs. Pete Kowalk of Kalkaska have announced the engagement of their daughter, Wendy Lou Kowalk, to Richard W. Friske of Charlevoix. He is the son of Mr. and Mrs. Richard Friske, also of Charlevoix.

A June 11, 1983 wedding is planned at the Evergreen Bible Baptist Church in Kalkaska.

The bride-to-be is a 1978 graduate of Ellsworth High School and a 1979 graduate of the Practical Nursing program at Northwestern Michigan College. She attended Bob Jones University for three semesters as an Elementary Educator major and is presently employed as an L.P.N. at Grayling Mercy Hospital.

The groom is a 1977 graduate of Ellsworth High School and received a Bachelor of Science degree in Business Management from Bob Jones University in 1981. After receiving his college degree, he was employed by Graco Metal Products near Philadelphia as part of the management staff. He returned to the family business, Friske Orchards of Charlevoix, in 1982 as co-owner.

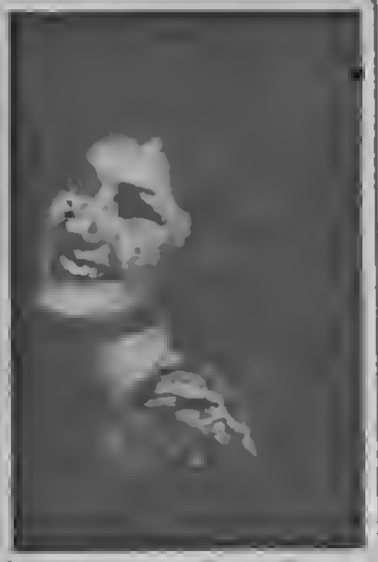
Montgomery-Henkel

Mr. and Mrs. William G. Montgomery of Bowie, Maryland recently announced the engagement of their daughter, Pamela Janesse, to Christopher Jay Henkel, son of Mr. and Mrs. Rudy A. Henkel of Charlevoix.

The announcement was made at a dinner party given for the couple.

Miss Montgomery recently graduated cum laude from Bowie College with a degree in Chemistry and Biology.

Her fiance is studying Aerospace Engineering at the United States Naval Academy in Annapolis and was recently selected for entrance into the Navy's nuclear power program following graduation in May. He is a 1979 graduate of Charlevoix High School.



Pamela J. Montgomery

The wedding is planned for May 27 at the Academy Chapel

Boosters to raise funds for 7th & 8th grade uniforms

The Charlevoix Band Boosters have announced plans to raise funds to purchase hand uniforms for the 7th and 8th grade band members.

They are hoping to buy matching sweaters in time for the spring band festival.

The Medicine Chest of Petoskey has donated 1,000 bumper stickers saying: "'GO RAYDERS" in the Charlevoix colors of maroon and white. Band students will be selling the stickers only at Rayder games. They will not be sold door to door.

Stickers can also be purchased by contacting a band member or the band director, Terry Isenbarger, at 547-2882.

Buy a Big Mac and help the firemen

The Charlevoix McDonalds restaurant plans to boost the Fire Engine Fund through sales of Big Macs.

The fund is sponsored by the Charlevoix Volunteer Firemen as a means of purchasing for the city a new fire truck.

Between January 31 and February 3, McDonalds will donate 50 cents to the Fire Engine Fund for every Big Mac sold.

Plan joint potluck

Plans for the joint potluck with members of the Leslie T. Shapton Post No. 226, American Legion, were made at a recent meeting of the Auxiliary held at the home of the president, Mrs. Nancy Wood.

The meeting will open with a potluck supper at 6:30 p.m. sharp at the post home with the two organizations attending business meetings of their own following the supper.

At a recent meeting, the membership drive, the report on the delivery of fruit baskets to patients at Grandvue Medical Care Facility and a contribution of $100 to the Veterans Hospital at Battle Creek were discussed.

Mrs. Wood expressed her appreciation on behalf of the Auxiliary for the work accomplished by many of the members. She mentioned, especially, Mrs. Josephine Bindi for sending many cards to absent members over the years; Mrs. Clarence Goldstick, secretary; Mrs. Lester Smith who has served as treasurer for the past 15 years; Mrs. William Farkas, kitchen chairperson and Mrs. George Lochner, Poppy chairperson.

Plans were also made for the District meeting to be held at Petoskey March 13.

Mrs. Goldstick reported that seven junior girls at the Charlevoix High School were candidates for Girls' State. The names of the candidates and alternates will be announced shortly.

Girl skiers first, boys second at Bear Mt. meet

The Charlevoix Ski Teams did very well at Bear Mountain Wednesday as the girls team came in first with 56 points while the boys placed second with 58 points among four teams.

Bellaire finished second behind Charlevoix with 61 points while Grayling placed third with 63 and Kalkaska fourth with 125 points.

In the boys meet Grayling had 42 points; Charlevoix, 58; Kalkaska 93 and Bellaire 121.

The geams will be at Sylvan Nob at Gaylord Wednedsay with Petoskey, Bellaire, East Jordan and the host team, Gaylord.

In the girls' meet, Christine Pace placed first in the slalom; Cheryl Aull, ninth; Kim Snizik, 11th; Nonie Pace, 13th and Sue Miller, 14th.

In the giant slalom, Christine Pace was first, Nonie Pace, fifth; Miller, sixth, Snizik, ninth; Lenore Erber, 12th and Aull, 13th.

In the boys' meet, Peter Cockfield finished first in the slalom; Jason Brindel, fourth; Tom Egler, sixth; Mark Trimper, seventh and Matt Lignell, ninth.

In the giant slalom, Cockfield was seventh; Brindel, ninth; John Marsh, 11th; Lignell, 13th; Trimper, 16th and Egler, 20th.

In an earlier meet at Nub's Nob, the Charlevoix girls finished second behind Petoskey with 84 points and the boys team was third with 92 points behind Petoskey and Harbor Springs.

In this meet Christine Pace with fifth in the slalom; Aull, ninth; Erber, 11th; Beth Revoir, 16th and Susan Duke, 23rd.

In the giant slalom, Christine Pace was fourth; Aull, ninth; Nonie Pace, 14th; Erber, 16th; Duke 20th and Revoir, 21st.

In the boys' meet at Nub's Nob, Lignell was eighth, Scott Stebe, 10th, Trimper, 11th and Brian Wilmot, 13th in the slalom.

In the giant slalom, Egler was ninth; Brindel, 11th; Trimper, 12th; Steve, 18th and Marsh 23rd.

V-Ball team splits games

The Charlevois Rayder girls volleyball team split during the week, winning over Inland Lakes on Monday and losing to Petoskey on Wednesday.

In their meeting with Inland Lakes, Charlevoix won 15-9; 15-13.

On Wednesday, Charlevoix won the first game with Petoskey 15-7 and lost the next two 16-14 and 15-5. In the second match, Petoskey won two straight, 15-11, 15-6.

The JV squad lost to Inland Lakes by scores of 6-15, 15-11, 10-15 while with Petoskey the scores are 16-14, 0-15 and 4-15.

Charlevoix will be at Gaylord Wednesday.

George Smith, who led all rebounders in Friday night's game, goes high for this one.

Boyne City is latest Rayder cage victim; falls 57-45

Charlevoix continued its triumphant march through the ranks of Michigan-Huron Shores opponents with win number eight Friday night. Last week's victims, falling for the second time at the hands of the Rayders this season, were the Boyne City Ramblers who dropped 57-45 decision on the Rayders home court.

Yet to taste defeat in the 1982-83 campaign, the Rayders now stand at 8-0 in M-HSC play, 11-0 overall. United Press International rankings published January 16 had Charlevoix listed in the No. 8 position for Class C schools in the state.

As has been the case in several of Charlevois's recent games, it took a couple quarters of close ball before the Rayders were able to put the game away.

First quarter action Friday night saw Boyne City trailing by only a point, 16-15 at the horn. In the second stanza, Charlevoix was held to nine points and, as a result, the Ramblers were able to take a four-point lead, 29-25, into the locker room at halftime.

Turning to an effective press in the second half, however, the Rayders put the clamps on Boyne City's offense and held them to two points in the third quarter. Meanwhile, Chris Putman went about the business of scoring ten points alone in the quarter to put Charlevoix solidly in front 43-31 going into the last quarter.

Boyne City could not seem to get a valid comeback effort going and ended up at the short end of the 57-45 final score. Only one Boyne City player, Jeff Gabos, scored in double figures and he had ten points.

For Charlevois, individual scoring was balanced as Putman and George Smith tied for game honors with 15 points apiece; Tim LaBlance had 12 and Mark Oostmeyer had eight.

Coach Dave Smith said he continues to be pleased with LaBlance's leadership on the court. Smith also praised the second half efforts of Putman and George Smith, who led in individual rebounding with 12.

In team rebounding, Charlevoix dominated the Ramblers by a 34-24 edge.

Mike Steele works from underneath in his match last week.

Volleyball team is 5-5 at Rogers City tournament

The Charlevoix Rayder freshman and sophomore volleyball players who participated in the annual Frosh-Sophomore Volleyball tournament sponsored by Rogers City came out of the tournament with five wins and five loses according to Coach Walt Drenth.

Charlevoix Rayder Meg Fowler, a sophomore, received Most Valuable Player honors from the officials with a second Charlevoix player, Angie McClanaghan, rating high among the candidates for the recognition.

Coach Drenth said this was the first tournament for all but two of his 16 players. The pair were Flowler and McClanaghan.

"It was a fine experience for my players. It exposed them to tournament play and gave them an opportunity to watch other teams in action," Drenth said.

Oscoda won the tournament. Others besides Charlevois entered were Rogers City, Kalkaska, St. Ignace and Petoskey.

JV battle was closer

The Charlevoix Rayder JVs edged the visiting Boyne City Ramblers 52-51 in a seesaw battle Friday night.

While Charlevoix was outscoring the young Ramblers from the floor 23-20, Boyne City was connecting on free throws, scoring on 11 of 21 to threaten the Rayders. Charlevoix scored on six of 18 free throw tries. Charlevoix had 18 personals to 13 for Boyne City.

After getting off to a slow start and trailing 12-9 at the quarter, Charlevoix went ahead 24-20 at the half and held on 38-36 going into the final period when Boyne City trimmed the lead to one point.

Brent Cole had 21 points for Charlevoix. Mark Carson had 16 points, Matt Gabos, 12 and Steve Rickard 10 for the visitors.

Frosh complete sweep

The Charlevoix Rayder freshman basketball team defeated Boyne City 58-40 in a game played on the Rambler floor Thursday night.

Sean Ferguson with 16 points and Jody Putman with 15 paced the game as the young Rayders led 17-12, 32-24 and 42-30 by quarters.

Mike Redman had 26 points for Boyne City.

Charlevoix will be at Central Lake Thursday.

Wrestlers lose to Kalkaska 50-21

The Charlevois Rayder wrestling team bowed to Kalkaska Thursday by a score of 50-21 according to Coach Greg Bryan.

Charlevois came through with one decision and three pins to account for the 21 points.

Rick Gallant (132) decisioned Ernie Lotte 11-4 while three grapplers in the higher weight classes won by pins.

Alan Bergmann (167) pinned Paul Hill in 4:37; Scott Mervyn (185) won by a pin in 3:45 over Ron Colling and Wayne Bergmann (198) pinned Rob Hall in 2:37.

Mike Steele (126) lost by a 6-5 decision to Ed Sinke; Shawn Harnett (138) lost by a pin to Scott Kreitzbender and Matt Hull lost by a pin in 2:36 to Dennis Hittla. Paul Matthews won by forfeit in the 155 pound weight class.

Charlevoix gave up five matches by forfeit.

The Rayders will host Petoskey at 6:30 p.m. Thursday in their last home meet.

B-League basketball scores

Staley Hardware downed Kit Carson-Charlevoix Garbage 59-49; Carlson Plumbing defeated Medusa 56-45 and Wojan Aluminum won over Air Force 44-36 in action in the B League of the Independent basketball program Wednesday night.

In a game that was a battle from start to finish, Staley Hardware headed Kit Carson-Charlevoix Garbage 18-8, 32-23 and 44-36 by quarters.

Terry Smith had 16 points, Scott Olmstead 14 and Larry Skippergosh 12 for the victors. Barney Way had 20 points for the losers.

Carlson Plumbing moved into a tie for second place following the team's 11 point victory over Medusa after heading the team 20-9, 34-22 and 45-28 by quarters.

Randy Holecheck with 20 points, Beano Archey with 14 and Scott Blanchard with 10 led the scoring for Carlson. Jim Parrish had 10 points for Medusa.

In the Wojan Aluminum-Air Force game, the airmen trimmed the margin to 29-28 at the third period after trailing 17-8 at the quarter and 23-14 at halftime but failed to capitalize on their gain as they went down to defeat by an eight point margin. Don Ward had 13 points and Stan Martin 12 for Wojan. Chris Claytor scored 16 and Tony Star 10 for the Air Force.

A-League basketball scores

Townhouse chalked up another victory, 79-59 win over Depot Restaurant, as the team continued to lead the A League in the Charlevoix Recreation program.

In a second game, Ellsworth I.D.C. defeated Village Inn Pizza, 54-51.

Paced by Steve Dankelberg with 26 points, the Townhouse five led Depot Restaurant 15-12, 34-28 and 56-50 by quarters to maintain the league lead.

Rick Leslie contributed 21 points and Bud Klooster 19 for Townhouse. Dean Hick scored 19 points and Tim Hartwick and Tom Beyer 12 each for Depot.

Ellsworth I.D.C. found itself trailing Village Inn Pizza for three periods, 14-13, 28-23 and 43-38 before outscoring V.I.P. 16-8 for the victory. Tex Drenth and Larry Taylor shared scoring honors for the victors with 14 points each. Jim Danbert had 12. Woody Pearson had 20 points, Vince Left 16 and Jerry Skippergosh 14 for V.I.P.

Contest winners

May Ladd, who missed one game, was the winner of the *Courier* basketball contest this week. She wins a $15 gift certificate. Harry Ladd, who missed two games, took the second place prize of a $10 certificate. Five others missed two games also but Ladd was the closest to the tie breaker score.

Tie Breaker Game
STALEY HARDWARE

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of the game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

LEGAL NOTICES 207

NOTICE OF MORTGAGE FORECLOSURE SALE

TO: BARBARA J. WHEELER OF ROUTE 1, EAST JORDAN, MICHIGAN; AND ALL PERSONS CLAIMING UNDER AND THROUGH HER:

Default having been made in the terms and conditions of a certain real estate Mortgage made by Barbara J. Wheeler of East Jordan, Charlevoix County, Michigan, as Mortgagor, to the First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated September 5, 1979 and recorded September 6, 1979 in Liber 158, pages 447-450, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage, Mortgage Note and agreement and supplemental thereto, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal, accrued interest and late charges, the sum of $15,235.74, and further default having occurred by reason of the nonpayment of real property taxes for the years of 1980 and 1981, contrary to the terms, conditions and covenants in said Mortgage contained, in the amount of $1,445.18, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan in such case made and provided, notice is hereby given that on Tuesday, February 22, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at the rate of 13.5 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may subsequent to the date of this Notice be paid by the undersigned, necessary to protect its interests to the premises. The premises to be foreclosed, described in said Mortgage, is as follows:

All that part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 6 West, lying West of the Pleasant Valley Road, EXCEPT THE FOLLOWING: Commencing at a point where the North ½ line intersects the Westerly line of Pleasant Valley Road for the point of beginning; thence Westerly along said North ½ line a distance of 400 feet; thence Southerly perpendicular to the North ½ line a distance of 200 feet; thence Easterly parallel with the said North ½ line to the Westerly line of Pleasant Valley Road; thence Northerly along the Westerly line of Pleasant Valley Road to the Place of Beginning and being a part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 6 West; Wilson Township, Charlevoix County, Michigan.

The redemptive period afforded Mortgagor by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 13th day of January, 1983.

LEGAL NOTICES 207

MORTGAGE SALE

DEFAULT having been made on the part of the mortgagors in the terms and conditions of a certain mortgage given by MID-AMERICA DEVELOPMENT CORP., INC., a Michigan corporation, JOSEPH W. BREIDENSTEIN, President to FIRST SAVINGS AND LOAN ASSOCIATION OF SAGINAW, MICHIGAN, now known as Great Lakes Federal Savings and Loan Association, bearing date the 2nd day of July, 1976 as recorded on the 12th day of July, 1976, in Liber 146, Page 274, Charlevoix County Records.

BECAUSE of said default, said association by virtue of the option given it in said mortgage, has heretofore, and does now, declare the entire principal sum secured to be paid by said mortgage to be due and payable, and there is now claimed to be due and unpaid thereon the aggregate sum of $36,075.33 Dollars and, as of the date of the sale, the sum of not less than $38,455.34 Dollars plus costs of the sale and authorized disbursements, and no suit or proceedings having been instituted at law to recover said sum, the debt remaining secured by said mortgage, or any part thereof.

THEREFORE, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default and the statutes in such case made and provided, notice is hereby given that said mortgage will be foreclosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of said County, on the 18th day of February, 1983, at ten o'clock in the forenoon at the front door of the Courthouse in the City of Charlevoix, County of Charlevoix, Michigan; said Courthouse being the place of holding the Circuit Court for said County, which premises are situate and being in the Township of Melrose, County of Charlevoix, State of Michigan and described as follows:

----Lot 127, Plat of Springbrook Hills No. 2 as recorded in Liber 2 of Plats, Page 271-273, Charlevoix County Records----

The period of redemption is six months.

Dated January 3, 1983

LEGAL NOTICES 207

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the terms and conditions of a certain mortgage granted by Gordan D. Boydston and Joyce J. Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 23rd day of March 1981, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 162 of Mortgages, Page 665, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of 28,929.32

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m., said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Fifteen per cent (15) per annum and all legal costs, charges or sums which may be paid by the undersigned necessary to protect its interest in the premises.

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 501 Mercer Blvd., Charlevoix and; Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981, and recorded May 5th, 1981, in Liber 162, page 667, Charlevoix County Records and; James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981; and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and; Robert W. Christoph, Rt. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 16th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17 and 18 of Block 12 of Lindsay Park Addition to the City of Charlevoix, according to the plat recorded in the office of the Register of Deeds for Charlevoix County, Michigan. MORTGAGE SALE

DEFAULT having been made on the part of the mortgagors in the terms and conditions of a certain mortgage given by JOSEPH W. BREIDENSTEIN and NANCY J. BREIDENSTEIN, husband and wife, to FIRST SAVINGS AND LOAN ASSOCIATION OF SAGINAW, MICHIGAN, now known as Great Lakes Federal Savings and Loan Association, bearing date the 22nd day of August, 1977 as recorded on the 25th day of August, 1977, in Liber 150, Page 406, Charlevoix County Records.

BECAUSE of said default, said association by virtue of the option given it in said mortgage, has heretofore, and does now, declare the entire principal sum secured to be paid by said mortgage to be due and payable, and there is now claimed to be due and unpaid thereon the aggregate sum of $37,487.00 Dollars and, as of the date of the sale, the sum of not less than $37,887.21 Dollars plus costs of the sale and authorized disbursements, and no suit or proceedings having been instituted at law to recover said sum, the debt remaining secured by said mortgage, or any part thereof.

THEREFORE, by virtue of the power of sale in said mortgage contained, which has become operative by reason of said default and the statutes in such case made and provided, notice is hereby given that said mortgage will be foreclosed and the premises described therein sold at public auction to the highest bidder, by the Sheriff of said County, on the 18th day of February, 1983, at ten o'clock in the forenoon at the front door of the Courthouse in the City of Charlevoix, County of Charlevoix, Michigan; said Courthouse being the place of holding the Circuit Court for said County, which premises are situate and being in the Township of Melrose, County of Charlevoix, State of Michigan and described as follows:

----Lot 52, Plat of Springbrook Hills No. 1, as recorded in Liber 2 of Plats, Pages 197-200, Charlevoix County Records----

The period of redemption is six months.

LEGAL NOTICES 207

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the terms and conditions of a certain mortgage granted by Gordan D. Boydston and Joyce J. Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 3rd day of January 1978, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 152 of Mortgages, Page 239, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of 88,708.09.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m., said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Nine percent (9) per annum and all legal costs, charges or sums which may be paid by the undersigned necessary to protect its interest in the premises.

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 501 Mercer Blvd., Charlevoix, and: Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981; and recorded May 5th, 1981, to Liber 162, Page 667, Charlevoix County Records and; James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981, and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and: Robert W. Christoph, Rt. No. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 16th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17, and 18 of Block 12 of Lindsay Park addition to the City of Charlevoix, according to the plat recorded in the office of the Register of Deeds for Charlevoix County, Michigan. ALSO, Beginning at the Northwesterly corner of Lot 16 of Block 12 of said plat of Lindsay Park Addition; thence Westerly, on the extension of the Northerly line of Lot 16, 50 feet; thence Southerly, parallel with the Westerly line of Lot 16, 158 feet to the center line vacated Oak Street; thence Easterly, parallel with the Southerly line of Block 12 of said plat, to the Northwesterly line of Mercer Boulevard; thence Northeasterly along the Northeasterly along the Northwesterly line of said boulevard to the Southeasterly corner of Lot 17 of Block 12 of said plat; thence Westerly along the Southerly line of said Block 12 to the Southwesterly corner of Lot 16 of said Block 12; thence Northerly along the Westerly line of said Lot 16, 125 feet to the point of beginning; being all of Lot 15 as platted and now vacated and the Northerly half of Oak Street (now vacated) contiguous to Lots 15, 16 and 17 of Block 12 of said plat of Lindsay Park Addition."

The redemption period shall be 6 months from the date of such sale.

Raymer is his own success story

by ANNE KELLY

If there was ever a background that didn't fit the norm of the typical school administrator, it might be that of Ralph Raymer.

Elementary school principal in Charlevoix since 1974, Raymer admits to being a high school drop-out in the 10th grade and a teenage marriage statistic at age 16. Not necessarily proud of his slow start in gaining insight into long range priorities, he presents his record as an incentive, or perhaps an encouragement, to those students who would take a defeatist attitude and declare: "It can't be done."

Between the ages of 16 and 29, at which time Raymer had the opportunity to take the G.E.D. test and resume his schooling, he tried many things from working at a gas station to acting as a cost accountant in a factory which made fire trucks. Raymer found, when the chance to go to school to become a fisheries biologist presented itself, that he in fact loved education enough to persue it as a career.

He earned his degree in Fisheries and Education from Michigan State University and taught Science, Math and Biology in both junior and senior high school in the Battle Creek area from 1957-1965. In 1966, he completed work on his M.A. and went to work for the government in the Office of Economic Opportunity for Calhoun County. Other job experience included directing student teaching at Western Michigan University and 6 years of the same at Olivet College, before coming to Charlevoix.

As for the teenage marriage, Raymer, while realizing the number of these that don't succeed, is proud to report that their's is alive and doing well 40 years later. The Raymers have 1 child, 3 grandsons, and 1 great granddaughter.

With retirement not too many years down the pike, Raymer is fairly satisfied with his track record. If pinned down to one all-encompassing educational philosophy, it would have to be his belief in the fact that based on his own life's scenario, "children can succeed."

"We have a community that is very supportive," Raymer commented. "We are able to go about our business of educating thanks to the community's input in this school and the support of the teaching staff."

Raymer sees Charlevoix Elementary as a "happy school, where the staff has a willingness to try new things...where there are a minimum of discipline problems, and where the whole staff is dedicated to the philosophy that children can succeed... It makes my job very easy," he concluded.

Raised by foster parents, Raymer lost an arm in a freak hunting accident at the age of 11. He has never seen this handicap to be a hinderance. Raymer attributes many of his positive life attitudes to his foster mother who "always made me feel that I was a pretty neat guy." Thus his own conviction about liking to see children "feel good about themselves."

Among Raymer's hobbies are golf and operating his own saw mill.

"I always said that on my tombstone I wanted engraved: Here Lies An Educator, but I'm sometimes afraid it might read: Here Lies A Golfer." His expertise in that sport have led him to win state level golf tournaments and rank 3rd in the National Amputee Gold Tournament in 1970.

Pasttimes aside, Raymer believes that he has succeeded in fulfilling most of the basic objectives which were his aim when entering the field of education. But he also continues to keep up with new trends in education in an atmosphere where "working well" and "comfortable" are only part of the story.

Ralph Raymer

Hold party for foster residents

Volunteers for the Charlevoix County Department of Social Services held a Christmas party for adult foster care residents on December 20, 1982. Eighteen foster care residents attended the luncheon and party at the senior citizens center in East Jordan. Following lunch, Christmas carols were led by several volunteers and two volunteers demonstrated a very light-hearted chicken dance. Gifts for each of the foster care residents were purchased with funds from Glen's save-share receipts collected by volunteers and Social Services staff. Eight volunteers planned the party, purchased presents, and provided transportation and entertainment for the party.

Clay projects to be completed at library activity hour

This week's Library Activity Hour will be the completion of the clay projects children made under the direction of Joan Moffit as well as a class on birds and bird feeders. Children in grades 1-4 are encouraged to attend even if they were not present at the clay workshop.

Carol Dutcher, a member of the Garden Club who has experience working with dried flowers, will be helping the children make small straw flower arrangements and hangers for their wall plaques.

Mrs. Dutcher, who has 14 grandchildren, has done missionary work in Honduras and India, and enjoys ceramics as a hobby.

Official Notice

Eveline Township Board Minutes

The regular meeting of the Eveline Township Board was called to order by Supervisor, David Wilson on January 11, 1983 at 8:00 p.m. at the township hall. All board members were present.

The minutes of the previous meeting were read and approved as read.

We discussed the Hemingway Pointe Association development.

Motion by Wayne Saunders to reappoint Robert Stowe, Everett Beshlag, and Dickson Alderton to the Board of Review — term beginning January 1, 1983 through December 31, 1984, supported by Linda Hilderbrant, motion carried.

The salaries and wages were reviewed for the coming year and no changes were made.

Linda Hilderbrant gave a treasurer's report. Motion by Eric Beshlag to approve the payment of the bills on hand amounting to $581.89 with check #861-#870, supported by Wayne Saunders, motion carried unanimously.

Motion by Wayne Saunders to adjourn, supported by John Smith, motion carried. Adjournment at 9:45 p.m.

ANNUAL TAX SALE

STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE COUNTY OF Charlevoix

ORDER FOR HEARING
NO. 82-[illegible]

In the Matter of the Complaint of the State Treasurer of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the complaint of the State Treasurer of the State of Michigan praying for a judgement in favor of the State of Michigan against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said complaint will be brought on for hearing and judgement at the February term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 7th day of February A.D. 1983, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a judgement will be taken and entered as prayed for in said complaint. And it is further ordered that in pursuance of said judgement the lands described in said complaint for which a judgement of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such judgement, on the first Tuesday in May thereafter, beginning at 10 o'clock a.m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the county of Charlevoix, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the judgement shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be reoffered, and if on such second offer, or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Martin B. Breighner, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 28th day of December A.D. 1982.
Countersigned: Jane E. Brannan, Clerk

Martin B. Breighner, Circuit Judge

STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE
COUNTY OF CHARLEVOIX

In the Matter of the Complaint of the State Treasurer of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

TO THE CIRCUIT COURT FOR THE COUNTY OF Charlevoix:

LOREN E. MONROE, State Treasurer of the State of Michigan, respectfully shows unto the Court:

1. That he is the State Treasurer of the State of Michigan and makes and files this complaint under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 380 of P.A. 1965, as amended.
2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent; the description of all lands in said county heretofore bid off in the name of the State and thus held, and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent.
3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the nonpayment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May next ensuing, (c) a collection fee of four per cent which shall be a minimum of $1.00 as provided by Section 211.59 C.L. 1970, as amended, and (d) $19.30 for expenses all in accordance with the provisions of the act first above mentioned.
4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were so assessed and are extended in said schedule at the next annual tax sale for the nonpayment thereof, and that the said taxes, interest, collection fee and expenses as extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended, in favor of the people of the State of Michigan, the payment of which lien the court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your plaintiff prays:

a. That within the time provided by law this court may determine and adjudge that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended.
b. That within the time provided by law the court make a final judgement in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses as computed and extended in said schedule against the several parcels of land therein contained, and the amounts stated in the column headed "aggregate" shall constitute the amounts adjudged against the said several parcels, unless so amended by the court.
c. That said judgement provide that in default of the payment as ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount adjudged against the same, shall severally be sold as the law provides.
d. That your plaintiff may have such other and further relief in the premises as to this Court may seem just and equitable.

And your plaintiff will ever pray, etc.
Dated: December 16, 1982

Water treatment opinions

Continued from page 4

Yes. But was it the conductors or the citizens?

They do, in fact, disembark and board a train headed in the other direction, with an engine driven by carbon filters. The fare for this trip is only ten percent of what they were facing on Bob's train.

Everybody has abandoned Bob's train except Bob and, oh yes, there's still someone in the caboose, as his train rumbles off into the distance.

The story ends happily as the citizens arrive back in a picturesque little town on the Pine River channel called "Affordability."

A town, incidentally, known now, for its clean water, pure water in abundance.

Just a few last points:

1. I understand that the proposed new Lake Michigan project contemplates using some new innovative engineering. Will it be as new and innovative as that used on the Zilwaukee Bridge, which is now incurring millions of dollars of cost overruns?

2. Just for debate, let's assume that T.C.E. has absolutely no health problems to our citizens. The filters should be installed in any event because the people all over Michigan and the United States that heard above Charlevoix's problem, will in no way be able to be reached and convinced that they can drink this chemical with safety. The official's application putting us in the super fund, made an indelible mark on all of those people's minds that our water was unsafe. If only to immediately bring this publicity to a halt, and attempt to preserve our F.A.A. station application and other industries considering the area, and the oncoming tourist season, we must remove that chemical.

3. If the lake water project goes forward, and chemicals appear, the carbon filters will then need to be installed as a fourth filter.

4. The city sent around a mailing piece at taxpayer's expense, and using a city mailing label, this is an attempt to tell you one side of the story. My side of the story is totally different, and I will try to get a mailing piece out to show you the other side.

I was refused the use of the city labels by the city manager.

He stated that he could not release them without an attorney's opinion. A councilperson called him for me, and was told that it would take "an act of the council." Previously, the city made them available to a private citizen for commercial business purposes.

More important, obviously, than getting information to the public, that conflicts with the officials "on track" position.

Even when I offered to pay any costs involved and that it was for an informational item to the citizens the answer was "no."

This conflicts with his statement on the pamphlet itself that the City of Charlevoix welcomes a dialogue.

Evidently, what they prefer is a monologue.

Their side only.

Thank God, for the press. We have no voice without them. A dictatorial administration, 180 seconds to disagree. No use of labels to give the citizens an alternative. Even when the citizen is willing to; research, compose, write, pay for the printing, the stamps, the cost of the lables and do all this at his own expense, they try to stifle a debate with city hall.

Yet they send out their propaganda, at taxpayers expense.

Where do you want to live folks?

Monumental Debt or Affordability?

Remember, we are accustomed now to high flown unnecessary projects that have saddled our national government with unbelievable debt.

We have even become accustomed to that at the state level.

Are we going to allow our town of Charlevoix to be treated the same way?

Past administrations didn't let that happen.

A great many changes have been made in the last year, our train trip to Monumental Debt, the reorganizing of the City Hall meeting procedures, the elevation of the mayor and city council to a grand dias, where they can look down at the townfolk, the taxpayers, the Great Unwashed.

I can remember, attending meetings for years, people could voice their opinions.

Now, it is different.

Not many people in town are accustomed to public speaking and will rise from their seats and walk up to the center of the room to the podium, announce their name and attempt to gather their thoughts and jam them into the 180 seconds allowed.

The vast majority of our citizens are intimidated by that.

Rather than face that formality, they do not attend the meetings, or if they do, remain quiet.

And let me assure you that the reason meetings run on adinfinitum is not due to public comment.

They are due to the inability of the chairman, the mayor, to recognize when a subject has been talked to a point of apparent consensus.

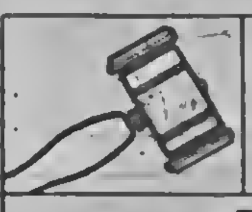
His failure to recognize that point and to call for a motion and move on to another subject, is cause for the extended meetings.

Will any official 'take on' the City Manager and Mayor; and allow the citizens, to board the train to the city of "Affordability?"

Finally: For over a decade I have attended council meetings. The free speech of the past, always an annoyance to the officials, was far better than the 'gag' we suffer under today. If the people of Charlevoix Township vote to merge or consolidate with the city with the present administration in office; they are "out of their tree" and will deserve what they get.

Thomas Duke

For Your Information



Court

District

The following cases were recently heard in Charlevoix District Court by Judge Harvey C. Varnum:

Ernest Fitzpatrick, Jr., 19, Boyne Falls, no operator's license (never applied). Sixty days in County jail with credit for Circuit Court sentence and $290 fine and costs.

CHARLEVOIX PUBLIC SCHOOLS COMMUNITY EDUCATION PROGRAM
1982-1983 WINTER TERM
HIGH SCHOOL COMPLETION PROGRAM

The schedule below lists the classes which are being offered each night beginning the week of Feb. 1-3 and continuing for 17 weeks. These classes are FREE to those 18 or older who do not have their high school diploma or those under 20 who have their diploma. Any others are welcome in these classes for a fee of $25. Upon successful completion of each class you will be given ½ credit toward the 20 credits needed for your diploma. If you have already completed a number of credits, call us so we can find out how many classes you should take to complete your work. Age does not matter; an older person may be given credits for 'life experiences', military service, or G.E.D. tests that have been taken. You may be surprised at how close you are to that diploma ... so call and find out. The phone number to call to enroll or inquire about your situation is 547-6491.

Monday: U.S. History
Wednesday: Typing
Thursday: Government

ADULT ENRICHMENT PROGRAM

The following classes are being offered as the winter schedule of the Charlevoix Adult Education program. Please note day, time, course length, and fee and additional charges for books and supplies.

Classes	Time	Day	Length	Fee
Intermediate Stained Glass (For those who have completed the first course. Materials fees will be collected during the course)	7-9 p.m.	Mon.	10 weeks	$20
Beginning Stained Glass (For the beginner. Materials fees from $15 to $40 will be collected depending on the size of your project.)	7-9 p.m.	Wed.	10 weeks	$20
How to Construct Learning Games and Activities for your Children. (Save money while providing educational activities for your children.)	7-9 p.m.	Mon.	10 Weeks	$20
Life on Earth Film Series (This is the series that was on PBS last year. The first night for this series is Feb. 8)	6:30-8	Tues.	14 Weeks	$14
Welding (Individualized for novice or beginner. Note Mon. and Tues. for 5 weeks starts March 7. Price includes materials.)	6:30-9:30	Mon. & Tues.	5 Weeks	$50
Art Metals Project (Artistic and utility projects. Materials fees will be collected during the course.)	7-9 p.m.	Tues.	10 Weeks	$20
Judo and Self Defense	7-9 p.m.	Wed.	10 Weeks	$20
Typing	7-9 p.m.	Wed.	10 Weeks	$20
Hatha Yoga	7-9 p.m.	Wed.	8 Weeks	$16
Woodworking Skills & Projects (Materials fees will be collected during the course.)	7-9 p.m.	Thurs.	10 Weeks	$20
Fundamentals of Investing	7-9 p.m.	Thurs.	4 Weeks	$10
Basic Sewing (plus supplies)	7-9 p.m.	Wed.	10 Weeks	$20

To Enroll:

1. Call 547-6491 to sign up for any class or classes; your class will meet as scheduled unless you are notified to the contrary.
2. You will pay the class fee at the first meeting of the class.
3. All classes will begin during the week of Jan. 31-Feb. 3 unless a different date was stated above.
4. All classes meet at Charlevoix High School. A list of class room #'s will be posted at the door of the school.

JAN

Anniversaries

Mr. & Mrs. DeVries cite 30th

Mr. and Mrs. Seblo DeVries of Ellsworth observed their 30th wedding anniversary on Jan. 17.

Mr. DeVries and the former D. Fay Burns were married Jan. 17, 1953, at the home of Fay's parents, Mr. and Mrs. Roy Strange, by Rev. Herman Goodyke of the Atwood Christian Reformed Church. Rink and May DeVries were their only attendants.

Today, their family includes a son, Rev. Roy of Forestville, N.Y., his wife Marilyn and children Henry and Jennie; a daughter, Marcia Mort of Cadillac, her husband Dan and children Matthew and Joel; a daughter, Sonia Vanniman of Ellsworth, her husband Jack and children Neil and Carl.

Mrs. DeVries is currently employed at the Petoskey Big Boy and Mr. DeVries is an Electrolux salesman in the area.

The family is planning a special dinner honoring Mr. and Mrs. DeVries.

Mr. and Mrs. Seblo DeVries

Model Ts to converge on Charlevoix

Old car buffs and others who just like to see spit and polish should mark July 20, 1983 on their calendars.

On that day, some 200 Model T cars will be in Charlevoix as part of the 27th Annual Model T Ford Club International Tour.

The group will leave Traverse City at 8 a.m. and travel back roads through East Jordan to Boyne City for a coffee break, then on to Charlevoix with a stop at Price's Old Barn Antiques Shop.

In Charlevoix, the group will break into two parts, with one contingent proceeding down Belvedere Avenue to Ferry Road for the first serving of a picnic lunch at Ferry Beach catered by Nanny's Old Place. The other group will visit Charlevoix shops and the Harsha House Museum before going on to Ferry Beach to exchange places with the first group for their lunches.

Plans have been made with the City to provide ample parking space around the business section for the vintage Fords.

Local businessman John Gaskin, who owns a 1912 Model T Touring Car, has begun preliminary planning for the event with Jacquie Merta of the Chamber of Commerce and city officials.

TCE reaches 117 ppb; city quickens pace

by DAVE KNIGHT

Concentrations reaching 117 parts per billion (ppb) of trichloroethylene (TCE) in the Charlevoix water system were revealed from a series of samples taken over a 24-hour period on January 19.

The 117 ppb reading is the highest yet recorded in the system since TCE was first discovered in September of 1981.

In an experiment to test the effect of pumping on TCE levels, the pumps were shut down for eight hours before the January 19 samples were taken and the aeration system was turned off. The first sample taken after the pumps went back on contained the 117 ppb concentration. A sample taken 20 minutes later, however, tested at 80 ppb, one taken after 40 minutes had 63 ppb and after one hour, 40 ppb registered.

Samples taken at regular intervals for the rest of the 24-hour period seemed to stabilize in the high 50s range. Readings were as follows: after 80 minutes 59 ppb, after 100 minutes 54 ppb, after two hours 60 ppb, after three hours 63 ppb, after four hours 77 ppb, after five hours 53 ppb, after seven hours 51 ppb, after nine hours 59 ppb, after 11 hours 58 ppb, after 15 hours 58 ppb, after 19 hours 57 ppb and after 24 hours 58 ppb.

Said City Manager Robert Hunt of the tests, "The results are good because we can see that TCE levels are reduced by running the pumps but they are also bad because we are seeing a level higher than we had ever seen before. We may be dealing with a potentially worse problem than we had realized since we've never sampled with the pumps having been off before."

Hunt said that the newly discovered high TCE levels have given a new immediacy to the search for a removal process.

"We are now examining all possible alternatives," he said, "including the quickest means available which could include skid-mounted carbon filters."

According to the Calgon Corporation, suppliers of granular activated carbon filters, the filters could be installed in a matter of weeks on a rental basis.

Also being installed this week is a specially designed baffle to make the aeration system more effective. With some more powerful blowers also being added, Hunt says the air contact with water should be "tripled, if not quadrupled."

The City Council's February 7 meeting will be concerned entirely with the TCE problem, said Hunt, and will feature presentations from a variety of sources including the consulting firm hired by the city to study alternatives, State Health Department officals and others.

At an emergency work session called Friday at 5 p.m., Hunt told council members that not enough information had been compiled at that time to warrant a final decision on the matter.

Indications were that some council members had wanted to make a decision this past Monday night but agreed to hold off until the February 7 meeting.

Downtown development is meeting topic

A special presentation on downtown development will be held at 9 a.m., this Saturday, February 5 at City Hall. The featured speaker will be Northville City Manager Steven Walters who will decribe his city's innovative and successful efforts in downtown renovation. Walters is expected to explain the means Northville employed to raise the neccessary funds including tax-increment financing. The presentation is being sponsored by the Charlevoix Chamber of Commerce, the Downtown Development Authority and Keep Charlevoix Beautiful. All interested citizens are invited to attend.

Photo by Dave Knight

THE 1983 WINTER HOMECOMING *King and Queen will be named from among the candidates for the honors nominated by the senior class at the Charlevoix High School. Candidates for Homecoming Queen are (l to r) Sheila North, Valerie Miller, Mary Beth Staley, Kim Novotny and Erin Campbell. King candidates are Ron Way, Craig Klooster, Jon Supernaw, Jeff Trimper and Mark Oostmeyer. The student body at the Charlevoix High School is voting for their favorite candidates during this week known as Spirit Week. The 1982 royalty, Lisa Pischner and Mike Loper, will be present to crown their successors. Miniature floats, mounted on children's wagons, will be a part of the festivities. They will be paraded at the pep assembly and at the halftime of the homecoming game between Charlevoix and the Gaylord Blue Devils on Friday. The coronation ceremonies will highlight the event. The homecoming dance will follow at the Charlevoix Elementary School. The Charlevoix High School Student Council is in charge of the homecoming festivities.*

Survey results reflect TCE concern

by DAVE KNIGHT

Results were tabulated Monday of a telephone survey conducted in the Charlevoix area January 25 on the level of community concern about trichloroethylene (TCE) contamination of city water.

The survey was proposed by the Keep Charlevoix Beautiful organization and endorsed by the City Council. Charlevoix High School students in Charles Bentley's Behavioral Science class, specially trained in survey techniques, manned phoning stations at three locations last Tuesday evening to conduct the 33-question interviews.

A total of 303 respondents were surveyed. Of those, 266 were city residents; the rest were residents of Charlevoix Township.

Based on the populations of the city and township, scientific estimates indicate a 90 percent confidence level (accuracy rate) for the city and 80 percent for the township. A scientific approach was taken toward the project with help from several professional sources experienced in the field.

The complete survey report will be presented to City Council at its Feb. 7 meeting however printouts of the results will be available for public inspection at the Charlevoix Public Library.

Following are a few selected findings of the survey.

Of city residents surveyed:

-136 considered TCE in the water a "serious problem", 86 called it a "problem" and 40 considered it "not a problem."

-In the area of treatment, 6 wanted to keep the present system, 3 had not heard about the probelm, 23 favored a lake water treatment plant, 12 perferred wells, 78 preferred carbon filters, 77 said they didn't know, 32 indicated preference for "other" solutions and 18 gave no answer.

-184 said they were willing to pay, in the form of higher taxes, higher rent or higher water bills, to have TCE removed, 46 said they were not willing to pay, 24 were not sure and 10 had no answer.

-96 said they would pay whatever it takes to remove the TCE, 81 said it would depend on the amount; 30 were not sure and 58 had no answer.

-163 said that, if the city were to take up to two years to build a lake water treatment plant, the city should install interim equipment to remove TCE, 61 said the interim equipment should not be installed, 2 did not care, 28 were not sure, 6 had other ideas and 6 had no answer.

-63 said the speed with which the city has approached the TCE problem was OK, 10 said the city was moving too fast, 145 said the city was moving too slowly, 28 were not sure, 15 gave other answers and 5 had no answer.

-220 thought the city and the township should work toward the development of a joint water supply, 20 thought the two units should not work together, 16 were not sure, 6 had other ideas and 4 had no answer.

Of people surveyed who use city water:

-192 said they drank water right from the tap, 31 said they sometimes drank it, 45 said they did not drink it right from the tap and 6 had no answer.

-Of those who either did not drink city water from the tap or sometimes did not, 24 drank bottled water, 5 borrowed water, 25 boiled water, 2 used filters, 4 did not drink any water and 12 had other answers.

-161 considered local companies going out of business a "serious problem", 155 considered federal budget deficits a "serious problem", 151 considered home heating costs a "serious problem", 140 considered TCE in the water a "serious probelm", 46 considered Medusa cement plant dust a "serious problem" and 40 considered Big Rock power plant safety a "serious problem".

Of people surveyed who pay taxes in the City of Charlevoix:

-70 said they would support a three-mill tax increase to pay for water improvements, 58 said they would not, 21 were not sure and 80 had no answer.

-Of those who would not support a three-mill increase or who were not sure, 52 said they would support a one-mill increase, 20 said they would not and 15 were not sure.

-53 said they would pay $12 more on their water bill if the water improvements were paid through rate increases rather than taxes, 68 said they would not, 22 were not sure and 86 had no answer.

-Of those who were not willing to pay $12 more on their water bills or who were not sure, 44 said they would pay $6 more a month, 28 said they would not and 22 were not sure.

County house numbering back on track

by FRAN MARTIN

The house numbering project in Charlevoix County, which has been on the drawing board since 1977, is finally becoming a reality under the guidance of Howard Carson of the Department of Building Code Inspection, to whose department the project has been assigned.

"We don't have much of a budget and we don't have much time but at least we've made a start on the project" Carson said recently after two members of his staff, Russell Geeck, electrical inspector with the department, and Moira Martinchek, "Girl Friday" in the department, have all but completed the work necessary to assign house numbers to the residents of Norwood township, the first of 15 townships to be worked.

"There's a few things that have to be cleared up before we can say we're through in the township...things like finding names for five roads that have no names and finding one for a road that has three different names" Geeck explained.

Carson, Geeck and Ms. Martinchek are elated about their accomplishments to date but realize they have a long way to go before every residence in the county can be assigned a house number. Carson estimates that the project will take five years without any more help than the department has now. "If construction in the county picks up and we get busy, I have no idea when it will be completed," Carson said.

The house numbering project sounded like a great idea when it was first presented to the Charlevoix County Board of Commissioners back in 1977. It was agreed that it would facilitate the answering of calls by fire departments and ambulance attendants and deliveries by postmen and a host of others.

At that point, the project was turned over to the planning department but after a limited amount of work the short-handed department turned it back to the Board of Commissioners which turned it over to Emergency Services which is in charge of Civil Defense. "What better department to handle the project" everyone said. But this department, like the planning department, was already busy with its regular duties and again, the numbering project found itself without a sponsor.

Then came the slump in the construction business. As a result, the Department of Building Code Inspection wasn't as busy as it had been so why not assign the project to this department.

Carson, in recalling the decision by the commissioners, said he and his staff looked over the project and found next to nothing to go on despite the fact that it had been around for five years. Determined to do something about the assignment, he started asking questions and found that Otsego County had completed a successful numbering system. This looked like a good place to start so, when he could spare them from their assigned duties within the department, he sent Geeck and Ms. Martinchek to Otsego County where people were most helpful, to seminars, to meetings where the subject was being discussed and every other place where numbering was the topic. "A good part of the time these people were doing this on their own time" Carson added.

Finally, they had reached the point where a decision had to be made about the system they would use. They settled on a single grid system comparable to that utilized by Consumers Power Co. in assigning numbers to customers throughout the areas where its lines extended.

This, however, required a vehicle. After a time the department was assigned one that had been abandoned by the Charlevoix County Sheriff's Department. After acquiring the necessary equipment, a footometer, which checks off as many as 1,000 numbers per section if there aren't too many hills and curves, the workers were ready to begin their job.

The job, however, required locating the county line and then the section markers and, much to their dismay, they discovered that this was not easy. There were no markers at the county line so by asking residents in the area in which county property was located, they found what had always been considered the county line to establish a base. In September they began traveling highways and rural roads in Norwood Township. They soon found that early settlers tended to build fences and plant lines of trees in a given pattern, that some roads wander around marshes and bogs, gullies and other obstacles and thus are not the shortest distance between two points therefore section markers are often off the beaten path.

The process has been slow because the department work had to come first. Then there was the weather to reckon with. Added to that, the data collected each day had to be transferred to the calculators at the office when the field work was completed for the day. And if that wasn't enough, there ws the problem of finding the names of the people who owned the property or lived at the residences along the roads.

"We've found that not too many mailboses have the name of the addressee on them. We received a lot of funny looks from people as we sought this information. We hope they will understand that we were just doing our job. To help in this respect, we've ordered markers to identify the vehicle so people will know what we're doing," Geeck said.

With the job about completed in Norwood Township, the first order for house numbers has been made. "The minimum order the company will accept is for 30,000 numbers. We are now seeking someone to make blocks to hold a five-digit number because we know that few people

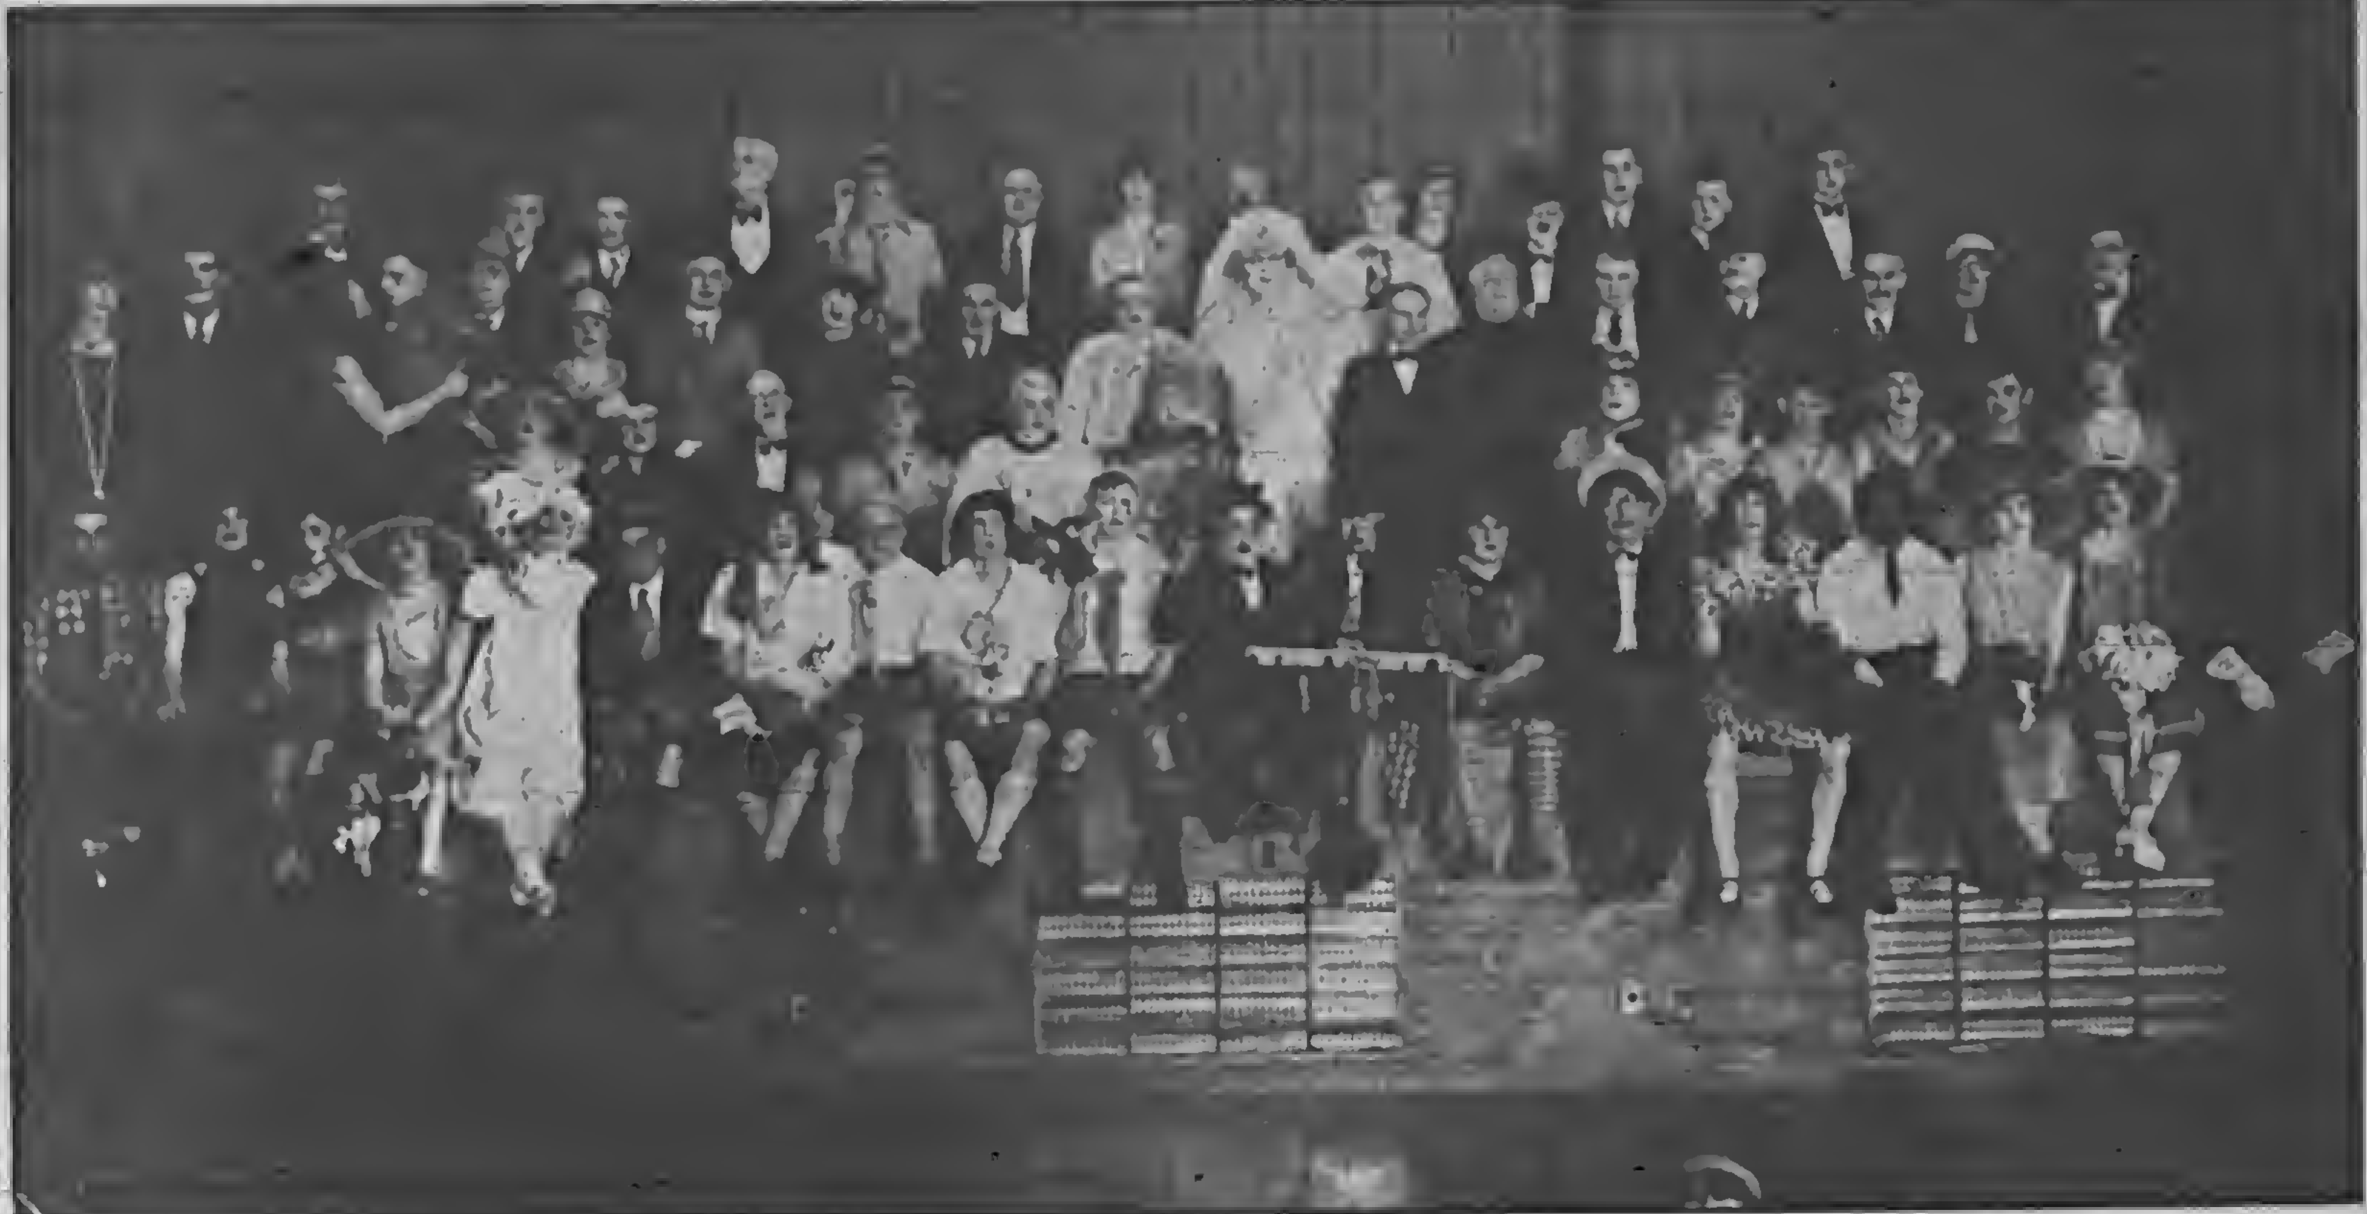
Russell Geeck, Charlevoix County electrical inspector (right), points out one of the trouble areas he and his partner, Moira Martinchek, encounter in Norwood Township recently in the house numbering project of the county, to Howard Carson (left) Charlevoix County Building Codes inspector, under whose guidance the project is being carried out.



Charlevoix Yesterday

There was a time when Charlevoix residents whiled away the long winter evenings by rehearsing and presenting dramatic productions. The above picture shows the cast of something called "A Womanless Wedding". Close scrutiny reveals that there probably isn't a woman in the whole cast.

Headlights work?

The Charlevoix County Sheriff's Department has issued a request to motorists in the county to make sure their headlights and tail lights are functional.

In December alone, 73 warnings, citations and repair orders were issued for defective headlights and tail lights.

According to the department, enforcement will continue to be vigorous during the winter months when maximum visibility is most important to motorists in Northern Michigan.

CITY OF CHARLEVOIX COUNCIL MINUTES

January 17, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time at 210 State St., Charlevoix, Michigan, with Mayor Staley presiding.

Present: Councilmembers Olach, Porter, Timms, and Roloff. Absent: Councilmembers Whitley and Wood.

The Minutes of the January 3, 1983 regular meeting were approved as presented in writing and as recorded in the Council Minutes Book.

Tom Duke, a member of the General Public present, presented a comparison study of the proposed raw water treatment plant on Lake Michigan vs. an activated carbon filter system on the City's existing water system.

After Mr. Duke had completed three minutes of his presentation, Mayor Staley asked him to be seated in compliance with the time limit previously established by Council for those persons addressing the Council who are not scheduled on the agenda. Council expressed a desire to let Mr. Duke continue his presentation and Councilwoman Roloff offered a motion to that affect. Mayor Staley did not recognize the motion and Council recessed briefly while the City Attorney reviewed the point of order. Following the recess, the City Attorney reported that the Council has the right to make a motion and have it stated by the Mayor. Councilman Porter called for the question.

Moved by Councilwoman Roloff and supported by Councilman Porter to allow Tom Duke (fifteen minutes or less) to complete his presentation regarding the City water system.

Motion was adopted by the following yea and nay vote:

Yeas: Councilmembers Olach, Porter, Timms, and Roloff. Nays: None. Absent: Councilmembers Whitley and Wood.

Mr. Duke continued his presentation stating that a new Lake Michigan water treatment plant would cost each local family approximately $238 per year as opposed to the carbon filtration system costing approximately $61 per family per year. He further stated that the carbon filtration system is capable of removing approximately 100 contaminates from water including the existing trichloroethylene. Mr. Duke requested that he be advised of any bond proposal for funding of a water treatment plant that may be submitted to the voters so he can prepare an alternate proposal for funding a carbon filtration system which he would submit to the voters at his own expense. He also asked to purchase a set of mailing labels from the City for distribution of a pamphlet that he has prepared to local residents. Alvin Ranger, a member of the General Public present, urged Council to make the mailing list available to Mr. Duke.

A Public Hearing was held regarding the City's 1983-84 fiscal budget to allow citizen input prior to final preparation of the budget. Mayor Staley suggested that a budget for the newly established Board of Appeals and compensation for that group be included in the budget. Council generally agreed that they did not intend to compensate the Board of Appeals members. The following additional items were submitted for funding consideration by the Councilmembers and the General Public:

1. An in-house engineer
2. A beach rake
3. A flow through at the Ferry Ave. Beach pier.
4. Continuation of the City tree program.

Enter Councilman Wood.

Moved by Councilman Porter and supported by Councilwoman Roloff to grant a revocable license to the Weathervane Terrace Motel addition to allow ground water being used for heating and cooling purposes to be disposed of through a pipe under the Dixon Avenue right-of-way to a discharge point in Lake Michigan, subject to the following conditions.

(1) All areas within the right-of-way, including the pavement, curbing, park, bluff, and beach, be returned to their original state upon completion of construction.

(2) The Weathervane Terrace will assume all liabilities associated with the construction, operation, and maintenance of the improvement.

(3) The Weathervane Terrace is responsible for the removal from the right-of-way of all improvements, if at any time the permit is revoked for a period of six months or more.

(4) The permit may be revoked by the City Manager at any time the Weathervane Terrace fails to meet any of the requirements of this or any other permits, or otherwise fails to operate or maintain the improvement in any manner which, in the opinion of the City Manager, is threatening to the public health or safety, causes any erosion or surface disturbance, or otherwise creates or exacerbates undesirable conditions within the right-of-way or adjacent areas.

(5) The Weathervane Terrace will assume the full responsibility and cost for relocating the improvements at any time subsequent improvements are to occur within the right-of-way which are blocked or made more costly as a result of the Weathervane Terrace improvements.

(6) Plans and specifications will be subject to the approval of, and construction will be under the supervision of the City Manager or his designees, in addition to other public officials having jurisdiction over the project.

(7) The Weathervane Terrace will hold the City harmless, or any of its agents and associates, for any damages, or responsibility to repair damages, that may arise out of construction or maintenance work relating to other improvements within the right-of-way.

(8) These terms will apply to any successors or assigns of the Weathervane Terrace.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: Councilman Whitley.

Moved by Councilman Olach and supported by Councilwoman Roloff to support the planting of Brown Trout and Chinook Salmon in Lake Charlevoix and Lake Michigan and the construction of a weir on the Jordan River by the Department of Natural Resources in order to rebuild the sport fishing in Northwest Lower Michigan as requested by the Charlevoix Chamber of Commerce.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: Councilman Whitley.

Council generally agreed to consider the Keep Charlevoix Beautiful Organization's request for joint sponsorship of a random sample phone survey of area residents to determine their concern over the trichloroethylene water contamination problem and related concerns pending Council review of the survey questions.

Appointments to the Board of Review were tabled for consideration at a special Council meeting to be held at 8:00 P.M. on January 24, 1983.

Council generally agreed to renegotiate a lease with Central Radio Telegraph Co. to maintain a tower on top of Mt. McSauba and to set the rent at $250 per year, twice the previous rate, for a period of five years.

Council directed the City Manager to write a letter to Lake Charlevoix Cable T.V. Co. expressing disapproval of the withdrawal of cable channel 2 (WBBM) from the system due to the limited cable service in the City.

Council approved the payment of bills totaling $508,783.99.

Council adjourned.

Deanna Balch, City Clerk

Kenneth A. Staley, Mayor

Rate re-adjusted on EDC bonding for Weathervane

A public hearing held during the regular meeting of the Charlevoix County Board of Commissioners Wednesday allowed the Charlevoix Development Co., which is developing the Weathervane Terrace Hotel on West Dixon Ave., to re-adjust the interest rate on its $725,000 in limited obligation revenue bonds.

The Economic Development Corporation of Charlevoix County joined with the Board of Commissioners in allowing the re-adjustment which trimmed the interest rate from a low of 15 percent and a high of 21 to a low of 13 percent and a high of 17 percent. The bonds, purchased by the Leppink Development Co. of Belding, are scheduled for delivery Feb. 4.

Representing the E.D.C. board at the meeting were Arthur Rouse and Casimir Toton of Boyne City, Dennis Jason of East Jordan, Oscar Ward, David Hand, Frank Cook and Lee Moerland of Charlevoix.

At the same meeting, Richard Sayward, whose term of the E.D.C. board has expired, was reappointed to a six year term. Toton and Ward, who were appointed to the E.D.C. board when the corporation was formed as representatives of the Board of Commissioners, were asked to serve for another year until the new six-member Board of Commissioners adjusts to its new format.

BROOMBALL ACTION *at the Charlevoix Coast Guard Station last week saw a strong team from the Cutter Mesquite beat a squad from the Station 8-1. The game was originally to have been a match between the local Coast Guardsmen and a team from the Cutter Mackinaw but apparently the visitors backed out at the last minute. According to Mesquite team officials, they are looking for more competition.*

To explore city-township cooperation

Concerned about the cooperation between the city and the township, a fact finding committee of Charlevoix women has recently been formed. This committee is comprised of three women from the township and three form the city. The members are: Pat Sherman, Mary O'Brien, Pat Kenney, Shirley Lusk, Anne Kelly and Marily Friedley.

Initiated by the Keep Charlevoix Beautiful organization, the committee will be acting independently in gathering information beneficial to the possibility of renewed cooperation between the city and township on the issue of water systems.

Board to act soon on buses

A decision regarding the operation of the Charlevoix County Transit System will have to be made no later than the next meeting of the Charlevoix County Board of Commissioners on Wednesday, Feb. 9, Lee Moerland, chairman of the board, advised the members at the recent meeting.

The urgency is necessitated by the need to decide the tax levy approved in the November general election.

Among the other actions taken at the January 26 meeting was the naming of Larry Matthew to the Northern Michigan Community Health Services Board to fill the unexpired term of Sam Kosc who resigned recently.

The Department of Social Services was given permission to use funds in its budget for emergency expenses instead of coming to the board for permission to spend the funds. The failure of the refrigerator system at the Grandvue Medical Care Facility resulted in the request to spend funds in the budget in such emergencies.

The board was advised that Moerland, who represents the county board of commissioners as a member of the District 3 Health committee, was named chairman of the board and that Frances Hooper, a veteran member of the District Health Department No. 3 nursing staff, would be retiring soon.

Was advised that with the economic crisis in the state, there was a possibility that the county would not be receiving an estimated $35,000 in State Revenue Sharing Funds and an estimated $46,000 in Small Business taxes. The funds have been included as revenue in the 1983 budget.

Advised that the Ironton ferry transported 35,185 cars across the South Arm of Lake Charlevoix during 1982. It was also reported that cost of operating the ferry during 1982 had been $56,248 and that it had operated at a deficit of $13,714. The deficit will be shared equally by the Charlevoix County Road Commission and the Board of Commissioners. The above deficit figures do not include the entire cost of removing the ferry from the water for its five-year Coast Guard inspection and the accompanying overhaul expenses.

Heard a request from the Michigan State Medical Society for stray and abandoned animals for use in research at Michigan State University. These animals are eventually destroyed by the county if not claimed or adoped. No action was taken on the issue.

Was advised that the initial implementation of the Job Training Partnership Act had been received by the Region 10 Manpower Consortium. The act, which hopefully will result in a manpower training program, will become effective Oct. 1 of this year.

Requested and received from the board members permission to name a non-member of the board of commissioners to the Northwest Michigan Manpower Consortium. The appointment will be made at a later date.

Received an invitation from the Charlevoix County Planning Commission to attend the Feb. 4 meeting of the organization to be held at the county building annex at 8 p.m.

The next meeting of the Board of Commissioners will be held at 9:30 a.m. Feb. 9 at the County Building Annex.

Local students do "very well" on state tests

by FRAN MARTIN

How well did Charlevoix students do in the State Assessment Tests as compared with students throughout the state?

Very well according to test comparisons received recently by Condit Drury, Counselor at the Charlevoix Middle School who administers the tests in math and reading to students in the fourth, seventh and tenth grades.

The results show that Charlevoix students did not do as well in fourth grade reading and seventh grade math as in 1981. However, they were still well above state averages.

The percentages are based on the number of objectives achieved in each subject. The graphs show that since the tests were first given in 1973, Charlevoix students have always been above the state level.

Though local students achieved fewer objectives in fourth grade reading and seventh grade math, these are the same areas in which students elsewhere did not do well.

Drury suggests that one can find if students are improving by checking back three years on the graphs to see how that class did when in the fourth grade. Since the tests have only been given to tenth graders since 1977, one can only check back to when the class was in the seventh grade.

Drury warned that you cannot compare this year's student results with those of the year before because the results deal with a different group of students.

Following are the results of Charlevoix students as compared with state figures which will be in parentheses:

Fourth grade reading 76.2 (75.6), math 85.7 (77.8).

Seventh grade reading 96.2 (80.1), math 76.2 (62.5).

Tenth grade reading 88.5 (77.5), math 77.0 (61.0).

What will be done to bring these averages up?

"We will make a complete study of the problem. The teachers and I have enough material available that we can really zero in on the problem areas and identify them. We can then devote more time to those areas that need more study. A look at the tenth grade chart will show you how we did that with students who were having trouble in both reading and math between the seventh and tenth grades. We concentrated on more reading and introduced additional math subjects in order to bridge the gap between those grades," Drury answered.

While Phillips E. Runkel, State Superintendent of Public Instruction, did not single out Charlevoix students, he did say that there has been an improvement in scores each year; that fourth graders received the best test scores; that seventh and tenth grade math scores "are lower than they should be" and that efforts should be made to improve them. On the other hand, seventh and tenth graders are doing well on reading tests.

He concluded by saying that administrators and teachers deserve a large share of the credit for the improvement in state assessment test scores during recent years. Parents and students, too, are to be commended.

Runkel emphasized that state assessment tests are designed to learn the strengths and weaknesses of students in reading and math. Results are used by administrators and teachers as a tool to improve learning.

Seek info on damage

Information is being sought by the Charlevoix County Sheriff's Department on damage recently done to about 40 mailboxes in rural areas of the county.

Damaged mailboxes have been reported in Hudson, Eveline, Boyne Valley and Wilson Townships over the past few weeks, according to the department.

Any citizen with information helpful to the investigation is asked to contact the Sheriff's office.

Knight on the Town

Carbon revisited

by Dave Knight

These pages in recent weeks have seen some strong statements in favor of immediate activated carbon filtration of the City of Charlevoix's groundwater supply to eliminate trichloroethylene (TCE) contamination. In at least two extensive letters to the editor, published also by the *Petoskey News Review*, Tom Duke has stated a case for carbon filters and berated City Hall for pursuing a solution, lake water treatment, that he feels will take too long to complete, is too expensive and too risky.

Carbon filtration of the existing groundwater supply, he says, is the only logical long term solution.

Is it?

In the State of Michigan, there is presently no other municipality using granular activated carbon (GAC) filters to cleanse its water supply. Such a system is being used, however, by the Amway Corporation at its headquarters in Ada. In fact, Amway employs carbon filters along with both aeration and conventional means to treat the water of extremely low quality it takes from the Grand River.

City Manager Robert Hunt and some State Health Department officials traveled to Ada last week to inspect Amway's water treatment system and learn more about carbon filters. It is believed that the pressurized GAC filters in use there, the type proposed for Charlevoix, are the only ones of their kind currently operating in the state.

One thing the Amway people said was that the filters have a tendency toward bacterial infestation. On a regular basis, the carbon in the filters has to be steam cleaned, at substantial cost, to eliminate what the technicians call "bug nests", or, concentrations of bacterial growth.

Robert O'Brien, manager of the municipal marketing group of the Calgon Corporation in Pittsburgh, said in a recent telephone interview that the incidence of bacterial growth on carbon filters is particularly evident when aeration is also employed. It is the increased oxygen content of the water, he said, that makes the bacteria grow more rapidly.

O'Brien added that generally, however, the 30 GAC systems his firm has installed across the country have had "very minimal problems" in this regard.

One thing he recommended was chlorination *after* filtration and that poses some other complications that to date have not been fully addressed.

The reason chlorine should be added to the water after it is filtered instead of before is that contact between raw water and chlorine often results in the formation of chloroform, a substance with known links to cancer. Though carbon filters will remove chloroform, said O'Brien, the filters become saturated with the chemical much faster than with other substances such as TCE.

"They (carbon filters) will do the job on chloroform," said O'Brien, "But the usage rate will be higher."

In Charlevoix's case, adding chlorine after filtration would require some special consideration. To effectively kill any bacteria in the water, the contact time (time that chlorine should be present in the water before drinking) is suggested by the State Health Department to be from a half-hour to an hour. The first customers using city water, however, are only a few hundred yards from the well so if chlorine is injected directly into the system as it leaves the water plant, it does not have sufficient contact time by the time it reaches the first customers.

According to Tim Benton of the State Health Department, the department would allow a simple injection system on an interim basis but would require the city to look into ways to increase the contact time.

"We would be looking for the city to construct a reservoir of some kind within 12 to 18 months after carbon filters went on," said Benton, "This would also require additional high service pumping."

Such a reservoir would collect chlorinated water from the filters and give the chlorine a chance to work before it left the plant. The additional battery of pumps would then be neccessary to pump the water out of the reservoir.

Benton declined to estimate the cost of such a reservoir system.

The State Health Department is also concerned about monitoring procedures should the city install carbon filters.

"The more Charlevoix looks toward carbon filters as a permanent solution," said Benton, "the more we would look toward establishment of a laboratory to monitor the effectiveness of the system."

Factors such as the reservoir and laboratory would all be included in a compliance schedule, explained Benton, to which the city would be committed should it seek carbon filtration as an interim solution.

In the total picture, does $200,000 to $300,000 look like an appropriate range of estimated cost?

Said Benton, "That's what it will cost for the filters but it's pretty low when you add the ancillary equipment."

Another question yet to be resolved is whether there would be enough pressure in a carbon filtered water system to fill the city's water tower. It takes 98 pounds per square inch (psi) of water pressure to fill the tank. Presently the city pumps can pump at 103 psi. According to O'Brien, the filter vessels manufactured by Calgon will reduce pressure by about 10 psi.

Though not seen by O'Brien or Hunt as a major problem, it does appear that additional pumping capacity may be needed to fill the tower.

The matter of quantity available also comes up in the discussion, especially in the context of future service to Charlevoix Township. Says Hunt, there cannot be any long term agreement to provide water to the township using the present source because "the quantity is just not there."

Might lake water eventually be added to the supply going through the carbon filters?

According to Hunt, probably not because of the turbidity. The one undesirable characteristic of lake water is its turbidity, or, suspended particulate matter. This matter is not absorbed by the carbon and would only clog the system, he said.

One possibility being studied, however, is the addition of lake water to the supply after the carbon filter stage. The end product may be slightly more turbid but the health factor would not be significantly affected, said Hunt.

Despite some of the questions mentioned here, carbon filters may still be an attractive solution to the problem. It is inaccurate to say the city has totally abandoned the idea in favor of a lake water treatment plant.

Dick Force of McNamee, Porter and Seeley, the consulting engineering firm hired by the city to study alternatives, said last week, "Initially we were charged with looking at a surface water plant. We are now looking at carbon filtration of groundwater as well as some ways of combining the two sources."

Force's report will be only one of several to be presented Monday night, February 7, at the City Council meeting devoted solely to the subject of TCE.

This meeting will provide the most comprehensive examination to date of the scope of the problem and ways to approach it. The council has wisely avoided taking action until all the facts are made available at that time.

County house numbering...

Continued from page 1

will mount the numbers in a conspicuous place if it is not already to mount. If that isn't done, then our work will have been wasted," Carson said.

The matter of road signs still must be settled. If townships do not name their roads or make necessary changes, the department will do it, Carson explained. As for the placing of signs, the Charlevoix County Road Commission has offered to put the signs in place if the townships will purchase the signs. Townships, however, have made no decision regarding the offer at this time.

"With Norwood Township nearing completion, we'll be starting Marion Township in the near future. After all the obstacles Russ and Moira have encountered, They've decided they're ready to get going on another township. If we don't get too busy at the office, they figure they can accomplish the job in the five years I've allotted them," Carson said with a grin.

"We are now being identified as the house numbering division of the department. We have our own telephone number. We have two days a week set aside to do this job if the office doesn't get too busy. Now,

if we can get a budget worked up and keep our vehicle running, I think we can complete what we've set out to do. If it took five years to get it started, surely we can do the job in another five," Ms. Martinchek said with confidence.

Mayor responds to meeting rule enforcement questions

Dear Editor:

In reference to your January 19th "Knight on the Town" and other coverage given to City Council proceedings, let me congratulate you on the accuracy of your reporting and the research you have done on your "Special Report".

I have had calls about Council meeting rules from an individual who has chaired a state insurance organization and from a chairman of a well known county group, as well as an ex-council person so I feel many are interested in the rules governing how a meeting of the Council is conducted. All of the above individuals indicated to me the rules adopted last spring should be adhered to. These are concerned "leaders" in our community. These rules provided anyone who needed more than the allotted "public comment" time (rule 4) to "ask the City Manager to schedule you or your group in advance for the next available Council meeting" (rule 9). The repeated motion to allow Mr. Duke additional time to speak actually put a 15 minute time limit on the speaker - a time limit the original attempt to be recognized (motion) did not include. The 3 minute rule (rule 4) has never been "rigidly enforced" and the speaker had occupied the floor for 6 minutes when he was asked to abide by the same rules others have found no problem with during the 7 or 8 months it has been in effect. Two council members were absent from the meeting during the above proceedings and one of those in attendance had not been a member of Council when the rules were discussed and formulated.

Public comments, on anything not on the agenda, are purposely put at the beginning of the meeting so that individuals will not have to sit through long presentations to gain Council's attention. Public comments are the only part of the agenda Council is not made aware of in advance of the meeting. An overview of matters to be discussed is usually delivered to each Council member on Friday night so they can do whatever homework they deem necessary for the Monday meeting.

The role of Council is leadership. If the governing body abdicates it's leadership responsibilities, special interest people will fill the void by default. The focus of some of the Council on administration detail, reacting to pressure forces brought to bear on them, seems to be a comfortable way to "run a city". Actually it reduces the governing process to its lowest common denominator because it fosters fragmented decision making (reacting to the "here and now") and a disregard for many of those community needs that transcend the present Council's term of office. This approach has more hindsight than foresight and doesn't pay much attention to the long-run consequences of short-run decisions.

Charlevoix is fortunate to have many dedicated appointed individuals serving with very enviable professionalism and skill. Council needs to be encouraged to develop their decision-making, group-process, and conflict-management skills to the same degree they expect skill in the appointed individuals. They don't need any more frustrations in public office. Encouragement by informative phone calls and a pat on the back once in a while do more good than harm.

Good government doesn't just happen. In reality, there is a great deal more to the process of governing and providing leadership than just getting elected. Leadership and governing are skills that must be developed and maintained with the same dedication and discipline that elected officials demand of any professional. The differences between a professional and a non-professional are attitude, skill, discipline, and results. The citizens of the 80's expect and demand a professional approach to municipal leadership and performance. I ask all citizens to urge their Council to follow this approach to Keep Charlevoix Beautiful.

Now about the TCE and the excellent research by Dave Knight as presented in the Courier in his Special Report.

Three high level people involved in Public Health Research have said they would drink our water (see Courier). Management and Council with the cooperation of the Health Department and Department of Natural Resource officials have done more to systematically address the problem than any other city. As a result of our efforts we know we must not gamble on underground area wells and must move toward an uncontaminated source of water, as well as a source with more capacity.

A new plant would economically filter lake water. Presently we get about two-thirds of our water from Lake Michigan through our shallow well. The rest of the water in the well comes from ground water sources. Isolation of these two water supplies requires a plant with lake intake. Frequent monitoring of the present water supply will continue as well as efforts to keep contaminant levels at a minimum.

Congratulations to the Keep Charlevoix Beautiful organization and to Bruce MacArthur who devoted so much time and effort to the recent water quality survey. A special thanks to Mr Bentley and the 21 members of his Behavioural Science class who devoted so much time in and out of the class room to the survey. Also, thanks to Superintendent VanWeiren for his very qualified expertise in putting together the questionnaire and to all the people who answered the phone call questionnaire. Charlevoix City Council is interested in all constructive input from citizens interested in the Charlevoix area.

Mayor Kenneth Stsley

Clockwise

I will kid you not

by Bob Clock

MRS. AUDREY COLLLINS, one of my colleagues in the column-writing department at the *Petoskey News-Review*, was complaining the other day how her children are growing up and robbing her of one of her most popular column subjects: Kids.

"Some of the nicest comments I've had over the years are on my columns dealing with the children. But now they are growing up and they aren't easy to write about any more," she lamented.

Of course, Mrs. Collins was speaking Gospel and I knew whereof she spoke.

Back when my kids were little, I used to drag them into print periodically because their simple, point-blank philosophy offered a refreshing point of view on age-old problems.

I don't write about them any more because they are growing up. They are falling into social stereotypes and their fresh outlook on the world around them is beginning to stale. Which is truly unfortunate.

I also steer clear of mentioning them in the paper because I'm afraid they'll sue.

OF COURSE, maturation is not their fault. If you hang around long enough you're bound to grow old. And with age comes a certain jaundiced cynicism about the world at large. Poet-philosopher William Wordsworth used to believe that kids had a private connection with the Supreme Being or some all pervasive Life Force because of their relatively recent arrival from the Unknown. He looked upon the patter of tiny tots as Divine Revelation. "The child is father of the man," is the way he put it.

Old Wordsworth probably was right, as usual. Little kids do have an uncanny way of arriving at universal truths before they become saturated with hackneyed, conventional ways of thinking and acting.

Parents, of course, are partly responsible. So are the schools, churches and social institutions generally. And it doesn't help to have generous doses of peer pressure applied daily — pressure that dictates what kind of music they listen to, what books and magazines they read, what clothes they wear and what television programs they watch. Unless the TV program has a half-dozen souped up cars chasing each other through the wilds of Southern California, forget it.

ALTHOUGH PARENTS must share the blame, they are the ones I feel sorry for when kids come of age. Judy and I, for example, had children because we like children. If we had wanted adults we would have joined the Kiwanis Club.

But all of a sudden our big house isn't big enough. Our little tykes now have arms and legs seven feet long and bodies to match. You can't walk across the living room without stepping on one of them.

Probably worst of all is the fact that they have minds of their own. They don't even share my pet prejudices; they have new ones of their own. And when you ask them a civil question, they answer in the lingo of the Valley Girls.

Their diets are gastronomical nightmares. Unless it is spelled "pizza" they are not interested.

We share the same roof, and that's about it.

Write about my kids? No thanks. I'll wait until my grandchildren arrive.

Letters: Duke needed editing

To the Editor,

Neither Tom Duke nor City Manager Robert Hunt is well served by the belittleing Mr. Hunt received in Mr. Duke's Letter to the Editor in the Courier Jan. 18th.

Over a period more than 30 years I've attended many city and township meetings. I'm singularly impressed by the dedication, conscientiousness, and professionalism of Mr. Hunt and what that means to the political process in Charlevoix. He is an asset to Charlevoix which the larger community perhaps does not yet full appreciate.

Mr. Duke is to be commended for being an involved citizen and galvanizing greater community awareness of the TCE problem. But personal attacks lessen his effectiveness.

Perhaps you, Mr. Knight, should have exercised your editorial privilege and edited the letter.

Barbara MacArthur

Out of the Blue

Secretary Watt's a two-way Moses
Who's itchin' to begin
To lead us out of the wilderness—
And lead the developers in!

Weddings

Mr. and Mrs. Daniel M. Key

Voss-Key

Judith Lynn Voss of Jenison, Michigan and Daniel Marvin Key, of Wyoming, Michigan were joined in marriage Friday, January 21 in an evening ceremony held at the First Protestant Reformed Church in Grand Rapids.

She is the daughter of Mrs. Jeanette Voss and the late John Voss of Jenison and he is the son of Mr. and Mrs. Roger M. Key, Carson Avenue, Charlevoix.

One hundred sixty-two guests attended the double ring ceremony which was presided over by Rev. Herman Hanko.

The bride was given in marriage by her uncle, Mr. John Dyskstra. She wore a taffeta and tulle Victorian style gown and carried a bouquet of white carnations, red rosebuds and white baby's breath.

Soloist Deoa Riogel was accompanied by Miss Deborah Decker on the organ.

Matron of honor was Mrs. Nancy Key, sister-in-law of the groom. Bridesmaids were Marcia Hanko and Julie DeWald, friends of the bride. They wore cranberry red dresses with crepe-backed satin and carried bouquets of pink and white carnations with white baby's breath.

Stephanie Key, niece of the groom, was flower girl and also wore a dress of cranberry red with crepe-backed satin.

Steven Key, brother of the groom, was best man and David Voss, brother of the bride and Thomas Key, brother of the groom, were groomsmen. Daniel Schipper and Jeffrey Evers, frinds of the groom, were ushers.

A reception for the couple was held in the church basement following the ceremony and a rehearsal dinner hosted by the groom's parents was held Thursday, January 20 at the Boston House in Grand Rapids.

After a wedding trip to Hawaii, Mr. and Mrs. Key will be at home at 2732 Newstead, Wyoming.

Oddfellows take cribbage lead

The Oddfellows, defending champions in the annual Masons-Oddfellows cribbage tournament, took the lead Thursday night after four nights of play Robert C. Helse, tournament secretary, has announced.

Trailing until now, the Oddfellows took a 58 point lead with 7½ tables in play.

Gordon Rower, with 950 points, was top scorer for the winners. Ted Pennell, Jr., had 947 for the Masons.

The tournament will be played at the Masonic Temple Thursday. All cribbage players in the area are invited to participate.

New officers

An election of officers heads the agenda of the next meeting of the Charlevoix County Humane Society to be held at the East Jordan Public Library at 7:30 p.m. Wednesday, Feb. 8.

At a recent meeting DeeAnn Rothenberger, Jan Ballard, Diane Charlebois and Virginia Heick of Charlevoix and Martha Mathews of East Jordan were elected to the Board of Directors for terms of three years.

At the same time, William Miller of Charlevoix, a charter member, was elected an honorary director.

St. Mary's to cite Catholic School Week

St. Mary's Catholic School here will join with Catholic Schools elsewhere in observing National Catholic School Week, February 5-12 Sister Agnes Mary Wojtkowiak, O.P. principal of the school, has announced.

The theme selected the year is "In God We Trust...and Teach".

In discussing the special observance, Robert J. Rose, Bishop of the Gaylord Diocese, said "This theme gets to the heart of what Catholic schools are about: education centered in God, in Jesus as Lord of our lives, in the worship and teachings of our Catholic faith."

"We can be greteful that our country, through its constitution and its Bill of Rights, guarantees us the freedom to own and operate our own schools. Our brothers and sisters in the faith are deprived of that right by oppression of governments in many countries of the world."

Sister Agnes Mary said St. Mary's school students would be observing National Catholic School Week not only in the classroom but with a series of special events. On Tuesday, Feb. 8, the students will be treated to a pancake lunch at noon; Wednesday, the teachers at the school will be guests at a luncheon; Thursday has been designated as "Community Day" and in observance the students will visit Pine River Place, a senior citizens housing facility, with Valentines and a treat for each resident; Friday will be Grandparents Day. Students will be joined by grandparents at Mass at 11 a.m., for lunch at noon and a social hour including bingo games.

The students have been making posters to inform the community of this special observance.

Past High Priestesses to meet

The Past Worthy High Priestesses and the Past Watchmen of Shepherds will meet at the Holiday Inn in Petoskey at 1:30 p.m. Feb. 9 for their next meeting.

A further discussion of programs and meeting places for the year will be a highlight of the meeting. At a recent meeting held at the Flap Jack Shack in Petoskey, Mrs. Henry Erber, president, initiated a discussion on these subjects. Mr. and Mrs. Rodney Saxton hosted the meeting. Joho Borton of Wolverine gave the blessing.

Members are urged to attend the February meeting.

Seven Charlevoix high school juniors have been named candidates-alternates to the annual Girls' State at Central Michigan University in June under the sponsorship of the Auxiliary of the Leslie T. Shapton Post No. 226, American Legion.

They are (l to r) Mary Lenhart, Beth Jones, Melissa Walker, Janet Wimmer, Shelly Davis, and Lisa Mosher pictured with Mrs. Clarence Golstick, Girls' State chairman for the local Auxiliary.

Missing from photo is Jacquie Erber.

Name CHS Girls State reps

Seven Charlevoix High School juniors have been named as candidates-alternates to the 43rd annual Girls' State to be held on the campus of Central Michigan University at Mt. Pleasant June 11 through 19 Mrs. Clareoce Goldstick, Girls' State chairman for the Auxiliary of the Leslie T. Shapton Post No. 226, American Legion, has announced.

Candidates are Melissa Walker, daughter of Mr. and Mrs. Quinton Walker, Janet Wimmer, daughter of Mr. and Mrs. Patrick Wimmer, and Lisa Mosher, daughter of Dr. William Mosher and Mrs. Ann Mosher.

Alternates are Beth Jones, daughter of the Neil Juneses, Shelly Davis, daughter of the Rick Davises, Mary Lenhart, daughter of the Robert Lenharts and Jacqule Erber, daughter of the Thomas Erbers.

Sponsoring the students to Girls' State will be the Charlevoix Kiwanis Club, Charlevoix Lions Club, Medusa Cemet Co. and the Auxiliary.

Scholarships available for MSU Week from county extension office

The Michigan division of the Woman's National Farm and Garden Association will again provide up to three scholarships per county for College Week, a four-day experience in informal learning at Michigan State University.

In 1982, the association contributed over $6,000, providing scholarships for more than 85 persons to attend College Week.

College Week, an annual event sponsored by the MSU Cooperative Extension Service Family Living Education program, and held on the MSU campus in East Lansing, attracts more than 1,200 persons, who come from every county in Michigan. This year, it's scheduled for June 20-23.

While at College Week, participants attend classes and workshops, sleep and eat in a residence hall, have the opportunity to go on tours, attend the theatre and participate in a wide variety of growth experiences.

"This year, more than 60 classes are being offered," says Sheri Rhoads, Charlevoix County Extension Home Economist. "Topics cover such subjects as microwave cooking, handling stress, financial estate planning, solar and other energy options, family communications and leadership development."

Dr. Wayne W. Dyer, psychologist and author of "Your Erroneous Zones" and "The Sky's the Limit", will give the keynote address. His topic is "how to be a no limit person." There will also be an outdoor barbecue and a variety of after class programs such as color selection and energy efficient homes.

Any interested person may apply for a National Farm and Garden Scholarship by contacting Rhoads at the Extension Office. Deadline for applying is February 15. Call 616-582-6232 to request an application form.

Dane Tollas fights for a loose ball against Onaway Saturday night.

The beat goes on; Petoskey and Onaway crushed by Rayders

Neither Petoskey nor Onaway provided much competition for the surging Charlevoix Rayder basketball squad over the weekend. Back to back games on Friday and Saturday nights didn't seem to slow the conference-leading Rayders either.

More significant to the Rayder cause was a hard-fought 71-70 double overtime victory by Gaylord over St. Ignace which now gives the Rayders a little more breathing room atop the Michigan-Huron Shores conference standings. Charlevoix now stands at 9-0 in M-HSC action, 13-0 overall, while the Saints slip to 7-2.

Friday night's contest at Petoskey, approached warily by Charlevoix coach Dave Smight because of the always-unpredictable results of the strong Rayder-Northman rivalry, turned out not be a cause for concern as the Rayders cruised to a 55-44 win.

On Saturday night, it was even more of a laugher with Charlevoix totally outclassing Onaway in a 70-34 rout.

With clear dominance of the boards and a balanced scoring attack that left four players in double figures, Charlevoix was never seriously threatened against Petoskey Friday night.

At the end of the first quarter, it was Charlevoix up 15-10 and by halftime the Rayders held a 29-18 advantage. It was during the second quarter when the Rayders went from an 18-16 lead with 4:20 left to 29-18 that the game was blown open. The score at the end of three was 41-26, a lead that even an 18-point fourth quarter spurt by the Northmen could not surmount.

Craig Klooster and Chris Putman tied for individual Rayder scoring honors with 15 while George Smith and Tim LaBlance had 11 and 10 respectively. Petoskey's Mickey Walker led all scoring with 18.

In rebounding, it was Charlevoix over Petoskey 40 to 26 with Klooster accounting for 14. Smith led in assists with 10 plus 11 rebounds.

Saturday night saw Klooster and Smith almost singlehandedly take care of Onaway in the first quarter as the two combined for 20 points enroute to a 26-6 advantage at the end of the quarter. By halftime it was 36-17 and at the end of the third quarter 56-25. At that point Coach Smith started clearing his bench giving everyone on the squad a chance to play and almost everyone ended up scoring.

Klooster had the most points when it was over with 24; Smith and Putman both had 12. Nobody on the Onaway scored more than eight.

Again, the Rayder board strength was evident as Charlevoix bagged 36 rebounds to Onaway's 19.

This Friday's Winter Homecoming game finds Gaylord visiting Charlevoix.

Skiers look good at rare home meet

The Charlevoix Rayder ski team hosted the Petoskey Northmen at a meet Friday, the first meet held at Mt. McSauba for many years.

"Petoskey left its big guns at home. However, other skiers from Petoskey and the Charlevoix team had a good meet at the Mountain," Coach Erik Lundteigen said of the meet.

The teams were divided into smaller teams. The Charlevoix girls A team won the meet with 15 points followed by Petoskey with 29 and the Charlevoix B team with 41 points.

In the boys division, the Charlevoix A team had 24 points, Charlevoix C team, 44; Petoskey A team, 45; Charlevoix B, 50 and the Petoskey B team, 57.

Only the slalom was run during both meets.

In the girls' meet, Christine Pace placed first; Karen Snizik, second; Noni Pace, fourth; Susan Duke, 5th; Beth Revoir, 6th; Lenore Erber, 8th and Tammy Olinger, 13th.

A skier heads down the Mt. McSauba course in Friday's meet.

In the boys meet, Jason Brindel was first, Matt Lignell, second; Mark Trimper, 4th; Sam Supernaw, 8th; Mike Baer, 9th; Scott Steve, 10th; Brian Wilmot, 11th; Pat Zundel, 12th; Dave Knepp, 13th; Chris Gibbons, 15th; Jeff Themm, 16th; Jim Morgridge, 17th; John Booms, 18th.

the Charlevoix team will be at Boyne Mountain at 1 p.m. Wednesday with Boyne City, Bellaire and the Soo.

Northman JVs fall

The Charlevoix Rayder JVs added another victory to their growing skein of wins by downing Petoskey 68-42 at Petoskey Friday.

With Brent Cole setting the pace with 26 points, the young Rayders took a commanding 21-4 first period lead and outscored their hosts in all but the final period as they led 33-14 at the half and 52-25 going into the final period.

Chris Havens added 12 and Thad Morgan 11 as nine players scored.

Denny Hewitt had 11 for the young Northmen.

The Rayders scored 30 field goals and eight of 14 from the charity line while collecting 18 personal fouls.

Petoskey's totals were 18 field goals, 10 of 20 from the line and 10 personal fouls.

7th and 8th graders win

The Charlevoix Middle School boys basketball teams posted double victories over Boyne City teams in action on the Rayder floor Wednesday night.

The seventh grade team downed Boyne City seventh graders 41-32 while the Charlevoix eighth grade won by a 45-36 margin.

The Charlevoix seventh graders trailed Boyne City 12-8 at the quarter and 20-18 at halftime before grabbing the lead at the three-quarter mark, 33-26, and coasting to a nine-point victory.

Scott DeYoung with 12 points and Don Drury with 11 were top scorers for the Rayders. Tim Hennessy with 14 and Mike DeSchryver with 10 paced the Ramblers.

Three eight graders, Kevin Shepard with 14, Terry Bonar with 13 and Quint Walker with 10, led their team to a 45-36 win over Boyne City after trailing 8-6 at the quarter. After taking a 19-14 halftime led, the team went ahead 32-26 going into the final period to post the win.

Stotzman had 14 and Billings 10 for Boyne City.

The teams will be at Cheboygan Feb. 7 after playing at Petoskey Monday.

V-Ball team drops two

The Charlevoix Rayder volleyball team dropped games to Gaylord and Central Lake last week according to Coach Walt Drenth.

In the first game with Gaylord on Wednesday, the team lost the first match 15-10, won the second 15-7 and lost the third 15-9 while in the second game Gaylord won 15-12, 15-5.

Earlier in the week, the team lost to Central Lake 15-7, 15-9.

Meanwhile the JV squad won over Gaylord 15-4, 15-13, 15-7 and over Central Lake 15-6, 15-1, 15-6.

The teams will be at Kalkaska Wednesday.

Includes appliances and draperies. 117 feet of sandy lake front is shared with three families. Beautifully maintained inside and out. Contact Bill Carey for an appointment.

No shortage of cheerleaders at Middle School

by ANNE KELLY

If you're attending a Middle School basketball game this season, and find that you can't find a seat in the stands, it may be because of the cheerleaders. There's a lot of spirit, and you're sure to hear it from the thirty 7th grade and eight 8th grade squad members.

Now some might scoff at the number, and there well may have been some hassle in getting together enough material to make all those skirts. But the fact remains that these thirty-eight ladies are cheering their hearts out and getting a lot more fans to come out for the games.

It's no secret that a goodly number of parents are there primarily to watch their daughter strut her stuff.

Coach for this year's cheerleaders, Mary Bingham, came to the position only two weeks before the season began. She has worked through a lot of crises with the girls from uniforms to lack of transportation for away games, and somehow has gotten the girls organized into a Rayder spirit powerhouse.

Ms. Bingham felt very strongly at the outset that every girl who wanted to cheer should be allowed to do so.

Photo by Anne Kelly

The Middle School cheerleading squad en masse.

"I believe that if the girls are given the chance to get the nervousness out, they will do a great job of cheering. There were no cuts. Every girl who wanted to could become a cheerleader."

Ms. Bingham reports that the girls are learning to get along well, and have developed the willingness to help one another.

The thirty-eight girls practice twice a week (when they might be hanging out downtown or at home watching General Hospital). They have personally financed their own uniforms and in many cases, made them. There were no "cuts" so the girls aren't divided by cliques or the cliches of "cutest" or "most popular" or "most gymnastic". They have one thing in common: school spirit.

Matmen stomped by Petoskey

The Charlevoix Rayder grapplers were over-powered by a score of 68-3 by the strong Petoskey Northmen in a meet held here Thursday.

On Saturday, Charlevoix will host the Michigan-Huron Shores Conference meet with teams from St. Ignace, Rogers City, Gaylord, Grayling, Petoskey and Boyne City joining Charlevoix in the meet which will get underway at 11 a.m. The last matches are expected to be played at approximately 6 p.m. Coach Greg Bryan said.

In Thursday's meet with Petoskey, Bryan said his wrestlers looked good but were no match for the Northmen.

The team's single win was by a 7-0 decision with Alan Bergmann (167) decisioning Terry Galmore.

In the other weight classes in which the Rayders filled weight classes, Mike Steele (126) lost by a 2-1 decision to Doug Kruskie; Rick Gallant (132) lost by a pin in 3:19 to Kip Howse; Shawn Hartnett (138) lost by a pin in 3:40 to Randy Feltig; Matt Hull (145) lost to Karl Yentz by a pin in 2:21; Scott Mervyn (185) lost by a 14-2 decision to Mike Smith; Wayne Bergmann (198) lost by a pin in 1:04 to John Hudson; Jeff Mervyn lost by a pin in :13 to Mark Dorenberg in the heavyweight class.

Charlevoix forfeited in the 98, 105, 112, 119 and 155 pound weight classes.

Alan Bergmann is lone champ

Charlevoix Rayder wrestlers had one champion in the eight-team tournament hosted Saturday by Petoskey.

Gladstone won the meet, with Petoskey coming in second.

Charlevoix had six points won by Alan Bergmann (167) who won all three matches. His record now stands at 20-0.

Mike Steele (126) won two matces and lost one. Rick Gallant (132) won one and lost two matches.

Others who participated were Shawn Hartnett (138), Matt Hill (145) who wrestled very well, Scott Mervyn (185), Wayne Bergmann (198) and Jeff Mervyn (hvy).

Charlevoix grapplers met those from Traverse City, Glen Lake and St. Ignace.

Charlevoix will host the Michigan-Huron Shores Conference meet Saturday beginning at 11 a.m. The finals are scheduled at 4:30 p.m.

A league scores

Townhouse, with a perfect 10-0 record, defeated Ellsworth IDC 93-73 and Boyne Auto, with a 5-5 record, won over Village Inn Pizza 71-66 in A League action Thursday.

Townhouse, paced by Rick Leslie with 29 points, took command early and headed the Ellsworth outfit 26-20, 51-37, and 73-53 by quarters to remain undefeated. Steve Dunkelberg added 24 points, Bud Kloster 20 and Dan McKenzie 12 for the winners.

Jim Danbert scored 23, Tex Drenth 20 and Brian Farrell 17 for IDC.

Boyne Auto had no trouble with Village Inn Pizza as the team rolled up leads of 18-15, 35-29 and 49-42 at the quarters for the victory.

Keith Fitzpatrick led the scoring with 21 points followed by Dale Tims with 15 and Hal Price with 13. Vince Left had 25, Jerry Skippergosb 18 and Woddy Pierson 13 for VIP.

Photo by Peter Plegge

Tim LaBlance goes in for a layup Friday night against Petoskey while Craig Klooster, left, and Chris Putman wait for the rebound.

JV's win

The Charlevoix JVs came through with a 61-36 win over the visiting Onaway JVs in a make-up game Saturday night.

The young Rayders had a field day, dumping in 28 field goals to 12 for the visitors for the lion's share of their points. They connected on five of 12 free throw attempts while collecting 18 personal fouls. Onaway had 12 of 19 charity shots and had 11 personal fouls.

The Rayders jumped to a 19 to five first period lead, moved to a 33-15 halftime lead and were ahead 42-26 at the three quarter mark.

All 12 players saw action for Charlevoix with 10 getting into the scoring column. Brent Cole led the pack with 20 points.

Horrocks had 15 and Beatty 10 for Onaway.

B-League basketball scores

Staley Hardware and Kit Carson-Charlevoix Garbage are again tied for first place in the B League of the Independent Basketball League after Staley Hardware was defeated 60-53 in a double overtime Monday night.

In other games, Wojan Aluminum won over First State Bank 51-47 and Kit Carson-Charlevoix Garbage downed Air Force 52-45.

In the Carlson-Staley game, Carlson lost a 10-9 first period lead to Staley Hardware which led 26-20 at halftime and 38-28 at the third period before being outscored 16-8 in the final period as Carlson came back to tie the score 46-all at the buzzer. In the first overtime, both teams scored four points as the score remained at 50-all. Carlson then outshot Hardware 10-3 in the second overtime for the win.

Randy Holecheck had 20 points, Scott Blanchard 15 and Ray LaVole 11 in the winning effort. Terry Smith had 24 points for Staley Hardware.

After playing to 12-12 and 20-20 ties at the quarter and the half, First State Bank went ahead 37-32 at the three-quarter mark only to lose the game to Wojan's in the final period. Dave Swanson paced the win with 19 points. Tim Carey and Ike Boss has 12 points each for First State Bank.

Kit Carson-Charlevoix Garbage took an early lead over the Air Force to go ahead of the airmen 14-8, 27-20 and 38-30 by quarters. Ron Way had 15 points and Roger Crain 12 fo the victors. Chris Claytor had 22 and J.R. Greenway 10 for the Air Force.

Frosh beat both Petoskey and Central Lake

The Charlevoix Rayder freshman basketball team posted two wins last week, a 53-43 win over Petoskey on Thesday and a victory by the same score over Central Lake Thursday.

Charlevoix trailed Petoskey 14-12 after the first period but outscored the young Northmen 13-5 for a 25-18 advantage at halftime and 38-35 going into the final period when the Rayders stretched the winning margin to 10 points.

Joe Hayes set the tempo with 21 points. Jody Putman had 11. Scott Roscvear, Tim Proctor and Jim Ross shared scoring honors with 10 points each for Petoskey.

In the game at Central Lake Thursday, the young Rayders again trailed 10-7 at the quarter before taking over 25-21 at the half and 37-26 going into the final period.

Putman contributed 16 and Hayes 12 points to the winning cause. Mike Keissel had 14 for the Trojans.

Charlevoix will be at Gaylord Thursday.

Contest winner

W. Sloan of Charlevoix was the first place winner in this week's *Courier* basketball contest and will receive a $15 gift certificate for his efforts. The second place prize of a $10 certificate goes to James R. Ladd of Wixom.

TO: BARBARA J. WHEELER OF ROUTE 1, EAST JORDAN, MICHIGAN; AND ALL PERSONS CLAIMING UNDER AND THROUGH HER:

Default having been made in the terms and conditions of a certain real estate Mortgage made by Barbara J. Wheeler of East Jordan, Charlevoix County, Michigan, as Mortgagor, to the First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated September 5, 1979 and recorded September 6, 1979 in Liber 158, pages 447-450, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage, Mortgage Note and agreement and supplemental thereto, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal, accrued interest and late charges, the sum of $15,225.74, and further default having occurred by reason of the nonpayment of real property taxes for the years of 1980 and 1981, contrary to the terms, conditions and covenants in said Mortgage contained, in the amount of $1,445.18, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan in such case made and provided, notice is hereby given that on Tuesday, February 22, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at the rate of 13.5 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may subsequent to the date of this Notice be paid by the undersigned, necessary to protect its interests in the premises. The premises to be foreclosed, described in said Mortgage, is as follows.

All that part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 6 West, lying West of the Pleasant Valley Road; EXCEPT THE FOLLOWING: Commencing at a point where the North ⅛ line intersects the Westerly line of Pleasant Valley Road for the point of beginning; thence Westerly along said North ⅛ line a distance of 400 feet; thence Southerly perpendicular to the North ⅛ line a distance of 200 feet; thence Easterly parallel with the said North ⅛ line to the Westerly line of Pleasant Valley Road; thence Northerly along the Westerly line of Pleasant Valley Road to the Place of Begining and being a part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 6 West; Wilson Township, Charlevoix County, Michigan.

The redemptive period afforded Mortgagor by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 12th day of January, 1983.

NOTICE OF
MORTGAGE
FORECLOSURE
SALE

Default having been made in the terms and conditions of a certain mortgage granted by Gordan D. Boydston and Joyce J. Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 3rd day of January 1978, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 152 of Mortgages, Page 229, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of $8,708.09.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m. said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Nine percent (9) per annum and all legal costs, charges or sums which may be paid by the undersigned necessary to protect its interest in the premises.

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 501 Mercer Blvd., Charlevoix, and: Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981, and recorded May 5th, 1981, in Liber 182, Page 667, Charlevoix County Records and; James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981, and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and: Robert W. Christoph, Rt. No. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 14th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17, and 18 of Block 12 of Lindsay Park addition to the City of Charlevoix, according to the plat recorded in the office of the Register of Deeds for Charlevoix County, Michigan. ALSO, Beginning at the Northwesterly corner of Lot 16 of Block 12 of said plat of Lindsay Park Addition; thence Westerly, on the extension of the Northerly line of Lot 16, 50 feet; thence Southerly, parallel with the Westerly line of Lot 16, 158 feet to the center line vacated Oak Street; thence Easterly, parallel with the Southerly line of Block 12 of said plat, to the Northwesterly line of Mercer Boulevard; thence Northeasterly along the Northeasterly along the Northwesterly line of said boulevard to the Southeasterly corner of Lot 17 of Block 12 of said plat; thence Westerly along the Southerly line of said Block 12 to the Southwesterly corner of Lot 16 of said Block 12; thence Northerly along the Westerly line of said Lot 16, 125 feet to the point of beginning; being all of Lot 15 as platted and now vacated and the Northerly half of Oak Street (now vacated) contiguous to Lots 15, 16 and 17 of Block 12 of said plat of Lindsay Park Addition."

The redemption period shall be 6 months from the date of such sale.

School nurse Gerry Brady tends to a variety of ills

by ANNE KELLY

Photo by Anne Kelly

Gerry Brady

As I talked with Gerry Brady, Charlevoix's school nurse, two elementary students wandered into her office and infirmary which is located just off the main lobby.

"Mrs. Brady, my throat hurts," complained the first. "I think I have streph."

"Well," replied Mrs. Brady condescendingly, "Let's take a look. And then we'll take your temperature. If you don't have a temperature it's probably just drainage we sometimes get in the winter. Our houses are all closed up and it get's dry. That makes throats feel sore."

After the appropriate time, the thermometer was extracted and another self-diagnosis was invalidated. Back to the classroom for the young man with "Aw shucks" writen all over his face on the way out.

"We don't send a student home without a very good reason, Mrs. Brady explained, "or we would be setting a pattern. That's especially important in the high school when good attendance habits are important for future job seekers. We can't always just stay at home because he have a little headache."

The second student came in scratching at an allergic rash caused perhaps by dry skin. A little cream fixed that problem.

"I love the kids," explained Mrs. Brady. "They come in and talk to me because I'm their friend."

Besides being their "friend", Gerry Brady spends a busy week rationing out her nursely duties among four school buildings. Her job includes: continuing the immunization program, co-ordinating visits by specialists and the Health Department who do vision, hearing, dental and recently, scoliosis screenings each year, and of course, dealing with the everyday major and minor medical crises that come her way.

Receiving her R.N. from St. Luke's in Fargo, N. Dakota, Mrs. Brady has practiced nursing at Receiving Hospital in Detroit in the psychiatric division, at Veteran's Hospital in Alden Park as the head nurse of the hematology department and was school nurse for Holy Cross Lutheran School in Detroit. The Brady's moved to Charlevoix in 1970, where she soon found herself starting the Welcome Wagon Program. In 1975, she became the school nurse for Charlevoix Public Schools and St. Mary's.

Mrs. Brady continues to take courses as she has all her professional life. "Keeping up with the latest techniques in medicine and nursing is an on-going process," she commented. Currently, she is planning to participate in an individualized degree program out of Central Michigan University in Community Health. Mrs. Brady has also served on the Human Growth and Development Committee for ten years.

"We've had a bumper crop of chicken pox this year," Mrs. Brady remarked to a questions regarding annual epidemics at school. "About 140 cases so far."

Apparently there hve been a few cases of Scarlet Fever and the usual head lice thrown in for good measure. Then there's always cases of impetigo, scabbies, pink eye, and the flu, that annual bugaboo.

According to Mrs. Brady, because parents have been very co-operative about getting their children the proper immunizations against measles,

DOUBLE DECKERS
Sun., Jan. 23, 1983

[illegible]

Set program on stress

The St. Francis Xavier Church Family Life Commission will sponsor a three-part program entitled, "Modern Day Stresses on the Family". The series will be presented on Thursday evenings February 3, 10 and 17, from 7:30 till 9:00 p.m. at the St. Francis Parish Hall, by Bob Sell, M.A., Education Specialist for CHIP Counseling Center.

With so many families under economic stress today, often alot of time and energy is spent dealing with this, and parents may miss early warning signs of problems with their children. Sell will also go into ways parents can help influence their children's decision making on various matters.

Bob Sell has been a substance abuse counselor and director of the Substance Abuse Program for the District 3 Health Department. He has a Master's Degree in Mental Health and Personal Counseling, as well as advanced specialized training in the substance abuse field. He is a faculty member of the 1983 Midwest Institute on Alcohol Studies, at Purdue University.

This program is open to any interested persons, not only members of St. Francis Parish. A coffee hour, question and answer period and discussion will the follow the presentation.

Ann. meeting

The annual meeting of the Bergmann Center Board of Directors will be held Monday, February 14 at 7 p.m. at the Bergmann Center, 457 Martin Road.

The Center's annual audit has been completed and is available for inspection at the Center.

Tie Breaker Game
KWIKIE DUPLICATING

☐

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of the game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

For Your Information

Assumed Names

The following assumed business names were filed last week with the Charlevoix County Clerk:

Advanced Tool & Engineering by Betty J. Reich and Richard Reich, 1578 Snyder Rd., Boyne City.

Community Trash & Waste Hauling by Albert Sharrow, Barnard Rd., Charlevoix.

North Country Kids by Richard Verne Schnackenberg and Leola Schnackenberg, 101 Park, Charlevoix.

Crooked Tree Environmental Consultants (CTEC) by Michelle Marie Rick, 335 Collins, Boyne City.

Births

The following births were recorded last week at the Charlevoix Area Hospital:

A daughter, Jamie Sue Thomson, was born on January 24, 1983 to Kim and Karen Thomson of East Jordan.

A daughter, Elizabeth Marie Nettles, was born on January 24, 1983 to Arnold and Melody Nettles of East Jordan.

A son, Ryan David Derenzy, was born on January 27 to Timothy and Dawn Derenzy of East Jordan.

Marriages

The Charlevoix County Clerk issued marriage licenses to the following couples last week:

Charles R. Weisler, 18, Charlevoix and Brenda L. Kotsch, 18, East Jordan.

Building

The Charlevoix County Department of Building Inspection recently issued a permit to:

Fiel Construction Company (for Bob Sevenski), to construct residential pole outbuilding on M-75 between Boyne Falls and Dietz Roads, Boyne Valley Township.

The folowing building permits were issued last week by the Charlevoix County Department of Building Inspection:

Seals & Roberts (for William B. Howell), construct addition and remodel residence in Melrose Township.

John Zell, construct new residence in Evangeline Township.

Fire calls

The Charlevoix Fire Department recorded the following calls last week:

Tuesday, Jan. 25, 5:35 p.m.: Chimney fire at 314 Mason.

Saturday, Jan. 29, 8:17 p.m.: Chimney fire at Weldon Price residence on Boyne City Road.

Court

Circuit

The following new cases were recently filed in Circuit Court:

The Huntington National Bank vs. Robert W. Schleman a-k-a R.W. Schleman (General Civil).

Gerald A. Clark vs. Sandra J. Clark (Complaint for Divorce).

District

The following cases were recently decided by Judge Harvey C. Varnum in the 90th District Court Charlevoix County:

Daniel A. Telgenhof, 23, East Jordan, open container in vehicle, $55 fines and cost.

Christopher J. McCleese, 23, Boyne City, no insurance, $305 fines and costs or eight days community service program.

Res E. VanWormer, 35, Texas, operating under influence of liquor, second offense, 365 days in jail or volunteer sis months of inpatient treatment program (Halfway), two years probation and court referral program, six months suspension of license without restrictions.

Donald W. Cadieux, Jr., 28, Charlevoix, driving against license restriction, $145 fines and cost (suspended).

Daniel L. Vermilion, 18, East Jordan, breaking and entering in a building (two counts), preliminary examination waived on both counts, bound over to Circuit Court.

Date	High	Low	Precip.
Jan. 24	32	20	.2" snow
Jan. 25	21	12	1.7" snow
Jan. 26	20	12	.2" snow
Jan. 27	24	5	Tr.
Jan. 28	30	16	0
Jan. 29	34	26	0
Jan. 30	34	24	.02" rain

Gerry Brody: Elementary School Nurse

Continued from page 9

mumps, rubella and polio, and since antibiotics are very effective in dealing with infections, her job is easier than it might be.

What rules of thumb might Mrs. Brady give to parents who might wonder: "Should I send my child to school today?"

DON'T SEND YOUR CHILD IF:

1. He really looks sick and obviously doesn't feel well.

2. He has a temperature.

3. He has a suspicious rash.

4. He has head lice.

Two last reminders for parents might be to remember that your child needs fresh air and exercise at school. Staying indoors from 9-3 is not necessarily good for them unless the weather is inclement and are recovering from an illness; and that she is prohibited by law to give out medication to a child unless the medication is accompanied by a written doctor's authorization.

Mrs. Brady is the mother of four children and has two grandchildren. She and her husband reside in Charlevoix.

Davis rep sets hours

Congressman Bob Davis' District Representative Charles P. Goddeyne will hold office hours in Charlevoix County on Wednesday, February 2, at the Charlevoix County Court House from 9:30-10:30 a.m. He will then have lunch with the senior citizens from 1:00-2:00 at the Charlevoix High School cafeteria.

Constituents who wish to discuss federal government matters with Mr. Goddeyne may do so at these times, no appointment is necessary.

The toll free number for the District Office is 1-800-682-8982.

Official Notice

OFFICIAL NOTICE

Bids are being accepted for the following:

1975 Ford Van
1973 GMC Van

Bids must be received at the office of the Business Manager, 208 Clinton Street, Charlevoix, Michigan 49720, not later than the close of business Friday, February 4, 1983.

The Board of Education reserves the right to reject any and/or all bids.

COGENERATION:
Making Energy Work Harder

A system that makes the Midland Nuclear Cogeneration Plant more efficient will make world history as the first such commercial system powered by nuclear fuel.

The system uses a process called cogeneration. Basically, that means that the exhaust heat left over from generating electricity is captured and reused. Most generating plants do not have a cogenerating system, so that excess heat is wasted.

Making Midland a cogeneration plant means more efficient use of energy resources, says the plant's owner, Consumers Power Company.

At Midland, the exhaust heat will be used to produce what is called process steam. That steam will be sold to Dow Chemical Company, for use in Dow's neighboring industrial complex.

A large portion of the Midland nuclear plant's total cost is attributable to equipment needed to produce the steam. This amount—approximately 25 percent of the plant's total cost—will be paid by Dow when it buys steam, rather than by Consumers Power's electricity customers.

Producing steam is like heating water in a tea kettle, where heat from the stove is transferred through the kettle to the water inside. At the nuclear plant, three separate water systems will do basically the same thing.

The nuclear reaction process, called fission, produces heat inside the nuclear fuel; that heat is absorbed by the surrounding water in the "primary" system. This very hot water, under high pressure to prevent it from becoming steam, is then piped to a steam generator.

There, water in a second system surrounds the steam generator pipes. The pipe walls transfer heat from the hot water inside to the cooler water outside, much like the tea kettle on a stove. The second system's water becomes so hot that steam is formed.

This steam is piped to a turbine. There, it exerts force against turbine blades, giving up most of its energy and causing the spinning action necessary to drive an electrical generator.

Then, some of this used steam is piped to another set of "tea kettles" called evaporators. Those evaporators contain water from a third system. As the steam passes through pipes in the evaporators, its remaining useful heat is again transferred outside, turning the surrounding water to low pressure steam. This new steam is then piped to Dow's plant, where it is used in Dow's manufacturing process.

This advertisement is paid for by the shareholders of Consumers Power Company.

Names In The News

JACK D. GEBOTT of Charlevoix was recently awarded the degree of Specialist in Education (Ed.S.) in General Education Administration at Commencement ceremonies held at Central Michigan University.

Gebott, a native of Ludington and presently a teacher at St. Mary's School here, was graduated from Grand Rapids Junior College and later earned Bachelor of Science and Master of Arts degrees from Western Michigan University. Formerly employed by the Kalamazoo Public Schools and the Ellsworth Community Schools, Gebott is widely known in Charlevoix as founder and director of the Mt. McSauba Day Camp.

He is an active member of the Charlevoix County Big Brother-Big Sister Program and currently is serving as Grand Knight of the Pierre Charlevoix Council of the Knights of Columbus.

Gebott is married to the former Barbara Jansen of Ellsworth. They have two children, Stacy, 11 and Eliana, eight, who attend the Charlevoix Public Schools.

●

Newly promoted Air Force Col. **STEVEN T. POWERS**, son of Edward W. and Eulalah Powers of 206 Cossell Drive, Indianapolis, has been decorated with the second award of the Meritorious Service Medal at Maxwell Air Force Base, Ala.

The Meritorious Service Medal is awarded specifically for outstanding non-combat meritorious achievement or service to the United States.

Powers is a student at the Air War College.

His wife, Nancy, is the daughter of Mary and Robert L. Cook of 110 Eaton Ave., Charlevoix

He received a master's degree in 1971 from Purdue University, Lafayette, Ind.

●

Airman **LAWRENCE C. GOLKE**, son of Leo E. and Elsie M. Golke or Route 2, East Jordan, has completed Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks at Lackland, the airman studied the Air Force mission, organization and customs and received credits towards an associate degree in applied science through the Community College of the Air Force

The airman will now receive specialized instruction in the command control systems operations field at Eglin Air Force Base, Fla.

Two Charlevoix students were among nearly 450 included on the list of those who have completed requirements for degrees at Ferris State College during the fall quarter. **MARK RYBICKI**, Rt. 2, received Bachelor of Science degrees in Data Processing and Accounting. **JANET TROPPMAN**, 220 W. Hurlbut, received a Bachelor of Science degree with High Distinction.

●

Ferris State College students included on the fall quarter academic honors list were, **COLLEEN MOL, JANET TROPPMAN** and **GREGORY WOJAN** from Charlevoix; **SHELBY KRABOWSKI** from Ellsworth and **LYNNE HAWKINS** and **MARY RUHLMAN** from East Jordan.

●

ANGIE SPIELES of Charlevoix, a freshman pre-arts major at Ferris State College, was a participant in the recent FSC theatre production of "Duet on Age", one in a collection of three one-act plays presented as part of the 25th Anniversary Festival of the Arts now underway on campus.

●

Included on the first semester Dean's List at Hope College in Holland, Michigan were **JOHN GROOTERS** of Charlevoix and **DUANE CARPENTER** of East Jordan.

●

PATTY MUMA of Charlevoix was the recipient on January 21 of a Sheriff's Citizen Award presented by Charlevoix County Sheriff George T. Lasater. Mrs. Muma is the advisor and coordinator of the Sheriff's Junior Deputy Program. As a representative of the Charlevoix Womens Club, said Lasater, Mrs. Muma was instrumental in obtaining financial support and providing the leadership neccessary to make the Junior Deputy Program a reality.

Added Lasater, "Patty has proven to be a moving force in getting things done and has a true belief in our young people and deserves our appreciation for a job well done."

●

Pfc. **SCOTT F. YARDLEY**, son of Joseph R. Yardley of Pembroke Pines, Fla, and Annette D. Yardley of Boyne City has completed a combat engineer course at the U.S. Army Training Center at Fort Leonard Wood, Mo.

During the course, students were trained in the techniques of road and bridge building, camouflage and demolition. They also received instruction in combat squad tactics as well as in the use of infantry weapons.

He is a 1980 graduate of McArthur High School, Hollywood, Fla.

Waldner gets no action on millage request

Karl Waldner of Boyne City, representing the Charlevoix-Emmet division of the Organized Voters of America, addressed the regular meeting of the Charlevoix County Board of Commissioners Wednesday, asking that the 15-mill tax limitation now in effect be cut back to 13 mills.

He proposes 3.30 mills for the county, 8.25 mills to the school districts, 1.10 to the townships, .15 to the Char-Em Intermediate School District and .20 to public libraries.

At the present time the county receives 4.7 mills; school districts, 9.1 mills; townships, 1.0 mills and the Intermediate School District .2 mills.

Waldner said the 2.0 mills less would represent $157,525 based on the county's present State Equalized Valuation. He proposed several areas where he felt it would be possible to cut back by this amount.

Among them was a six per cent across the board reduction in the budgets of all departments; cutting back on the amount allocated in the county budget for insurance and bonds; decreasing monies earmarked for the Board of Commissioners; eliminating the building codes department; decreasing the appropriation to the equalization department; limiting the contingency fund and operating the sheriff's department as it was in 1958-60 among others. He also asked about the revolving tax fund and said the monies in the fund did not show up any place in the financial report. He was advised to consult with the county treasurer who could show him where the monies are.

He then asked what action the board proposed to take on his request. When the six commissioners said they had no comment at the time, Waldner said that he could always petition to have the issue placed on the ballot.

He then asked "Is the board saying 'there will never be a future?'"

No action was taken on the proposal.

Obituaries

MARIE R. MICHAEL

Funeral services for Mrs. Arthur C. Michael, 86, mother of John R. Michael, were held Saturday at the Winchester Funeral Home, The Rev. officiated. Interment was in Brookside Cemetery.

Mrs. Michael died Jan. 27 at her home at 327 Meech St.

The former Marie R. Roth was born in Dobbin, W.Va., Dec. 19, 1897, and moved to Oakland, Md, as a young woman. On Jan. 4, 1926, she was married to Mr. Michael at Oakland, Md. They then moved to Detroit to make their home until coming to Charlevoix in 1979. She was a member of the Society of Engineers Wives in Detroit.

She is survived by her husband; one son, John R. of Charlevoix; five grandchildren and a brother, Leland Roth of Oakland, Md.

The family suggests memorials to the American Cancer Society.

CHARLES E. SMITH

Funeral services for Charles E. Smith, 60, of Alden, husband of a former resident, Helen Smith were held Friday at the United Methodist Church in Alden. The Rev. David Cheyne officiated. Burial was in Helena Township Cemetery at Alden.

Mr. Smith died January 25 at Traverse City Osteopathic Hospital.

Born at Alden March 8, 1922, Mr. Smith was a machinist and had been employed at the Cone Drive Gear Co. of Traverse City for many years. He was a veteran of World War II. On Sept. 23, 1945, he was married to a former local resident, Helen Smith. They always made their home in Alden.

He is survived by his wife; five daughters; one son; eight grandchildren; four great-grandchildren; four brothers and three sisters.

The family suggests memorials to the American Cancer Society.

In Alden Friday for services were Mr. and Mrs. Carlton Smith, Mr. and Mrs. Clayton Smith, Jasper Warner and Mrs. Arthur Stoel.

KATHLEEN M. MILES

Funeral services for Mrs. Kathleen M. (Tat) Miles, 68, who died January 25 at the Charlevoix Area Hospital following a long illness, were held Thursday at the Winchester Funeral Home. The Rev. Roger Ames of Christ Episcopal Church officiated. Interment was in Brookside Cemetery.

Born in Charlevoix Feb. 13, 1914, the former Kathleen M. McCall was graduated from the Charlevoix High School in 1932. She was employed as secretary and receptionist at the office of Dr. G.B. Saltonstall for 39 years until she retired in 1976. She was married to Lyle V. Miles in Detroit on Dec. 11, 1945. She was a member of the Charlevoix Area Hospital Guild.

Surviving are her husband; a son, Norman K. Ketchman of Stevensville; three grandchildren; two great-grandchildren and a sister, Mrs. Thyma Shumsky of Detroit.

The family suggests memorials to the American Cancer Society.

Women's Club meeting notes

The Charlevoix Women's Club met at the home of Mrs. Robert Martin recently for an old-fashioned games party. Joining Mrs. Martin as co-hostesses were Mrs. Charles Duerr and Mrs. Harold Kohn.

A highlight of the business meeting was the presentation of a life membership to Mrs. Jeannette Cameron who observed her ninety-ninth birthday anniversary January 19. She was also presented with a plant and a card signed by all club members.

Mrs. Bruce Bartlett reported on the mitten tree sponsored by the club prior to the holidays. The mittens, gloves and scarves it netted were turned over the Mrs. Geraldine Brady, school nurse, for distribution in the event of an emergency and to the needy.

Members enjoyed a sack lunch and dessert and beverages provided by the hostesses.

The February meeting of the club will be held at the Charlevoix County Sheriff's Department on February 15. Hostesses will be Mrs. Gerald Muma, Mrs. John Cross, Jr., and Mrs. Arthur Reibel.

May buy Township water in the meantime

It's final; city to start lake water plant

by DAVE KNIGHT

For the short term: either aeration or township water. For the long term: a lake water treatment plant.

These were the decisions made Monday night by the Charlevoix City Council on how to remove trichloroethylene (TCE) from its municipal water system. The most recent test data, taken January 31 at a distribution point, indicated TCE in a concentration of 50 parts per billion (ppb) in Charlevoix's water.

Following the recommendation of the consulting engineering firm of McNamee, Porter and Seeley, the council voted 4-1 on a motion by First Ward representative Jeffrey Porter, to initiate the first phase of a $1,766,000 lake water treatment plant. Council member Clement Olach of the Third Ward cast the only negative vote; Second Ward representative Ivan Whitley was absent.

According to the MP&S report, lake water could be flowing into the city water system as early as this June now that the council has given the go-ahead. Phase I will consist of building a buried water intake structure from a point near the existing municipal well extending 1500 feet out into Lake Michigan. The intake itself will be in an H-shaped configuration eight feet under the lake bed in about 24 feet of water.

Chlorination equipment is also included in the Phase I plan. Phase I carries an estimated total price tag of $275,000.

In a "fast track" scheme suggested by MP&S, Phase II of the project would consist of a chlorine contact tank and associated pumping capacity at a cost of $390,000. Completion of this phase, if begun soon, could be accomplished by October, 1983 according to the report.

The third, final and most costly phase of the recommended direct filtration type of lake water treatment plant would entail installation of sand or mixed-media filters, floculation tanks and the neccessary building and plumbing at a total estimated cost of $1,101,000

Indications by the state Health Department officials present at the meeting were that approval by the council of Phase I would be interpreted by them as a commitment to completion of the plant by a "mutually agreed upon date."

Should the council continue with the fast track implementation schedule proposed by MP&S, the finished plant could be in operation by December 31, 1984.

In the meantime, the City of Charlevoix may purchase water from Charlevoix Township should an improved aeration system being installed this week not prove effective enough in removing TCE.

Charlevoix Township Supervisor Oscar Stroud, who made a special trip back from Florida late last week at Charlevoix City Manager Robert Hunt's request when TCE levels topped the 100 ppb mark, told the council Monday night, "We think we can supply it (the water needed by the city) and we are willing to do it."

Under a contingency plan worked out by Stroud and Hunt, the township could supply the city with about 90 percent of its water needs from the township's new northside well. The pumps and valves neccessary to tie in the township water to the city system still, however, have to be installed before the exchange could take place.

Charlevoix Township, which has had a problem of turbidity with the water from its new well, is planning the construction of a holding tank in which the water will have a chance to settle before being pumped to distribution.

Acting on another motion by council member Porter, the council moved to "negotiate the purchase of township water beginning in March pending the outcome of aeration." The motion passed 4-1 with Second Ward representative Robert Timms dissenting.

City Water Superintendent Ed Whitley explained to the council a four-part plan to improve aeration at the city well which he said should be completed by next week.

As part of the plan, 1) more powerful blowers will be added to increase air being injected into the city's clear well as much as six-fold, 2) a specially designed baffle has been installed to increase air-water contact efficiency, 3) an exhaust fan is to be added to help draw TCE-laden air more rapidly from the closed well structure and 4) because of recent tests that indicated high TCE levels when pumps were off,

Some good news...for a change

Back to work

With the Medusa Cement Company preparing for a mid-March start-up for the 1983 season, the work force at the Charlevoix plant located at South Point was increased from 20 to 70 hourly employees last week Tom Thimm, plant superintendent has announced.

At the same time the salaried staff was increased to 23 Thimms said.

Workers will continue to be called back until the plant reaches its full compliment of 112 hourly workers and 24 salaried personnel Thimm added.

The workers who were at the plant during the winter have been doing general maintenance. The increased work force will begin the general maintenance and the preparation of the plant for the start-up scheduled for mid-March Thimm explained.

He went on to say that a lot of work has been done on the existing equipment. This has included the rebuilding of a dust collector to be used in the clinker handling area where the plant has experienced fugitive dust problems. He said that every effort will be made to control this problem.

Medusa is looking forward to a better year in 1983 than in '82 Thimm said. "We are budgeted to produce more cement and we are projecting an economic recovery. It will not be a rapid recovery but a stable one" he added.

Record sales

LexaLite International's chief executive officer Josh Barnes announced this week that the combined annual sales for LexaLite and the LexaLite Signal Products division topped $1 million for the first time in 1982.

Barnes said that, although precise figures were not immediately available, LexaLite sales amounted to approximately $900,000 in 1982 while sales for Signal products were between $100,000 and $150,000.

The festive atmosphere at LexaLite was further enhanced last week by the celebration of the firm's 20-year anniversary. Founded in Charlevoix in 1963, the company has recently added a significant addition to its main plant in Hayes Township following an August 1981 fire, has established the Signal Products Division in the City of Charlevoix, which may expand in the near future and has acquired the American Louvre firm in Illinois.

Something big

At an "informal gathering" scheduled for 5 p.m. Wednesday at the Grey Gables, an announcement expected concerning a large scale development project for Charlevoix.

Involved in the project, according to developers Water's Edge Inc. owned by John McGoff and Altman Development Corporation owned by Joel Altman, are Bridge St. properties now occupied by the former Finn Lumber business, the former Fochtman automobile dealership and the Weathervane Restaurant.

All the properties involved are currently vacant.

Hosts for the Wednesday gathering were listed on invitations as including local dentist Jeffrey Porter, Gordon Wellman, president of the Charlevoix County State Bank, Jedd Greer, an executive officer of Midwest International and Greg and Lindy Smith, owners of the Bahnhof ski shop and local realtors.

Mrs. Chew's students pack the books bound for Jamaica.

Books to Jamaica: A story of sharing

by SARA GAY DAMMANN

A special relationship is developing between a rural Jamaican elementary school and Charlevoix Elementary School, thanks to the generosity and cooperation of a lot of people.

Eight cartons of school books and teaching materials are en route to the West Indies because everyone who heard a request for these materials responded with enthusiasm.

Working together were the elementary school administration and faculty, Mrs. Mary Ann Chew's fourth grade students, Republic Airlines and Air Jamaica, Staley's Hardware and Oleson's Food Market which donated boxes and packing materials.

This mini-airlift of books to Robins Bay Elementary School on Jamaica's rural north coast began with a simple request last spring. Our family was visiting in the area. A member of the local PTA explained how financially strapped the rural schools were, how they lacked the sorts of teaching materials we take for granted in the United States.

"Would you see if your school has any extra texts and teaching materials?" we were asked.

"I'm sure we can find some," was Elementary Principal, Ralph Raymer's immediate response, sometime later.

Soon after Christmas, Joan Carson in the learning center began listing spare books. As teachers heard what she was doing they made suggestions. Geography, math, spelling, reading, maps, head phones for listening centers, and so on began piling up outside her office.

Meanwhile the question of how to get the books to Jamaica had to be solved.

A phone call to a travel agent in New York who owns property in Robins Bay produced the name of a gentleman with the Jamaican Tourist Board – Darcy Crooks. In turn, Mr. Crooks called Air Jamaica. In 36 hours he returned the call to Charlevoix.

"It's all set. Air Jamaica will see that the books get to Kingston."

The next question was how to get the books from northern Michigan to the Air Jamaica offices at O'Hare Airport in Chicago.

One call to Republic Airlines in Minneapolis, a brief explanation of the problem and Republic agreed to fly the books to O'Hare, expediting them on to Kingston via Air Jamaica.

One more call to Chicago to get all the flights lined up, then a telegram to the Robins Bay parent: "Eight boxes school books arriving flight 060 Tuesday Feb. 8, 4:00 p.m., Kingston, Air Jamaica. Arrange pickup."

Last Wednesday, during their afternoon social studies, Mrs. Chew's fourth graders carefully packed the boxes, placing inside the first box a neatly packaged group of letters to the students in Jamaica. Friday the eight boxes were delivered to the Traverse City freight terminal of Republic to await a Monday flight to O'Hare.

As he looked over the boxes of books, Republic's freight representative said "This is really something. You realize that the cost of sending these books would be at least $500."

The usefulness of these books to the children of Robins Bay, the fun sharing for the children of Charlevoix is far more valuable.

FEB

Obituaries

FORREST A. PIERCE

Funeral services for the Rev. Forrest A. Pierce, 67, retired United Methodist minister who died Jan. 30 at the Petoskey Nursing Center, were held Feb. 2 at the United Methodist Church in Durand. The Rev. Edward McCracken of the Durand Church and the Rev. David W. Yingling of the Charlevoix church officiated. Interment was in Greenwood Cemetery in Vernon, Michigan.

Born at Durand Aug. 16, 1915, Forest A. Pierce was graduated from Durand High School and attended Michigan State University before becoming a supply minister in Michigan for the United Methodist Church. On Feb. 19, 1942, he was married to the former Fern Bedell at Durand. In 1946 he entered Vennard College to study for the ministry and was graduated in 1952. He was also a Licensed Practical Nurse having received his training at Commanch Memorial Hospital in Lawton, Okla. He was affiliated with the Detroit Conference and later with the Oklahoma Annual Conferences of the United Methodist Church. He retired in 1982 at Temple, Okla and returned to Michigan. As a youth he was active in Boy Scouts and was a member of the Order of the Arrow and an Eagle Scout.

He is survived by his wife; two daughters, Mrs. Michael (Faye) Rostar of Charlevoix and Mrs. Steve (Carol) Heron of Grand Blanc; three grandchildren; a brother, Jack Pierce of Battle Creek and a sister, Mrs. Dale (Laurene) Streeter of Irons.

The Winchester Funeral Home was in charge of local arrangements.

MARY K. SPANG

Funeral services for Mary Kathleen Spang, 4½ month old daughter of James and Margaret Spang who died Feb. 2, were held Saturday at St. Mary's Church. The Rev. R. Dale Magoon officiated. Burial was in St. Mary's Cemetery.

A prayer sevice was held at the Winchester Funeral Home Friday evening.

Mary Kathleen was born at Petoskey, Sept. 12, 1982.

Besides her parents, she is survived by a brother, Daniel; three sisters, Amy Marie, Margaret Elizabeth and Ann Marie, all at home; paternal grandparents, Mr. and Mrs. Daniel Spang and maternal grandparents, Mr. and Mrs. Leo Nartker, all of Dayton, Ohio.

The family suggests contributions to the March of Dimes.

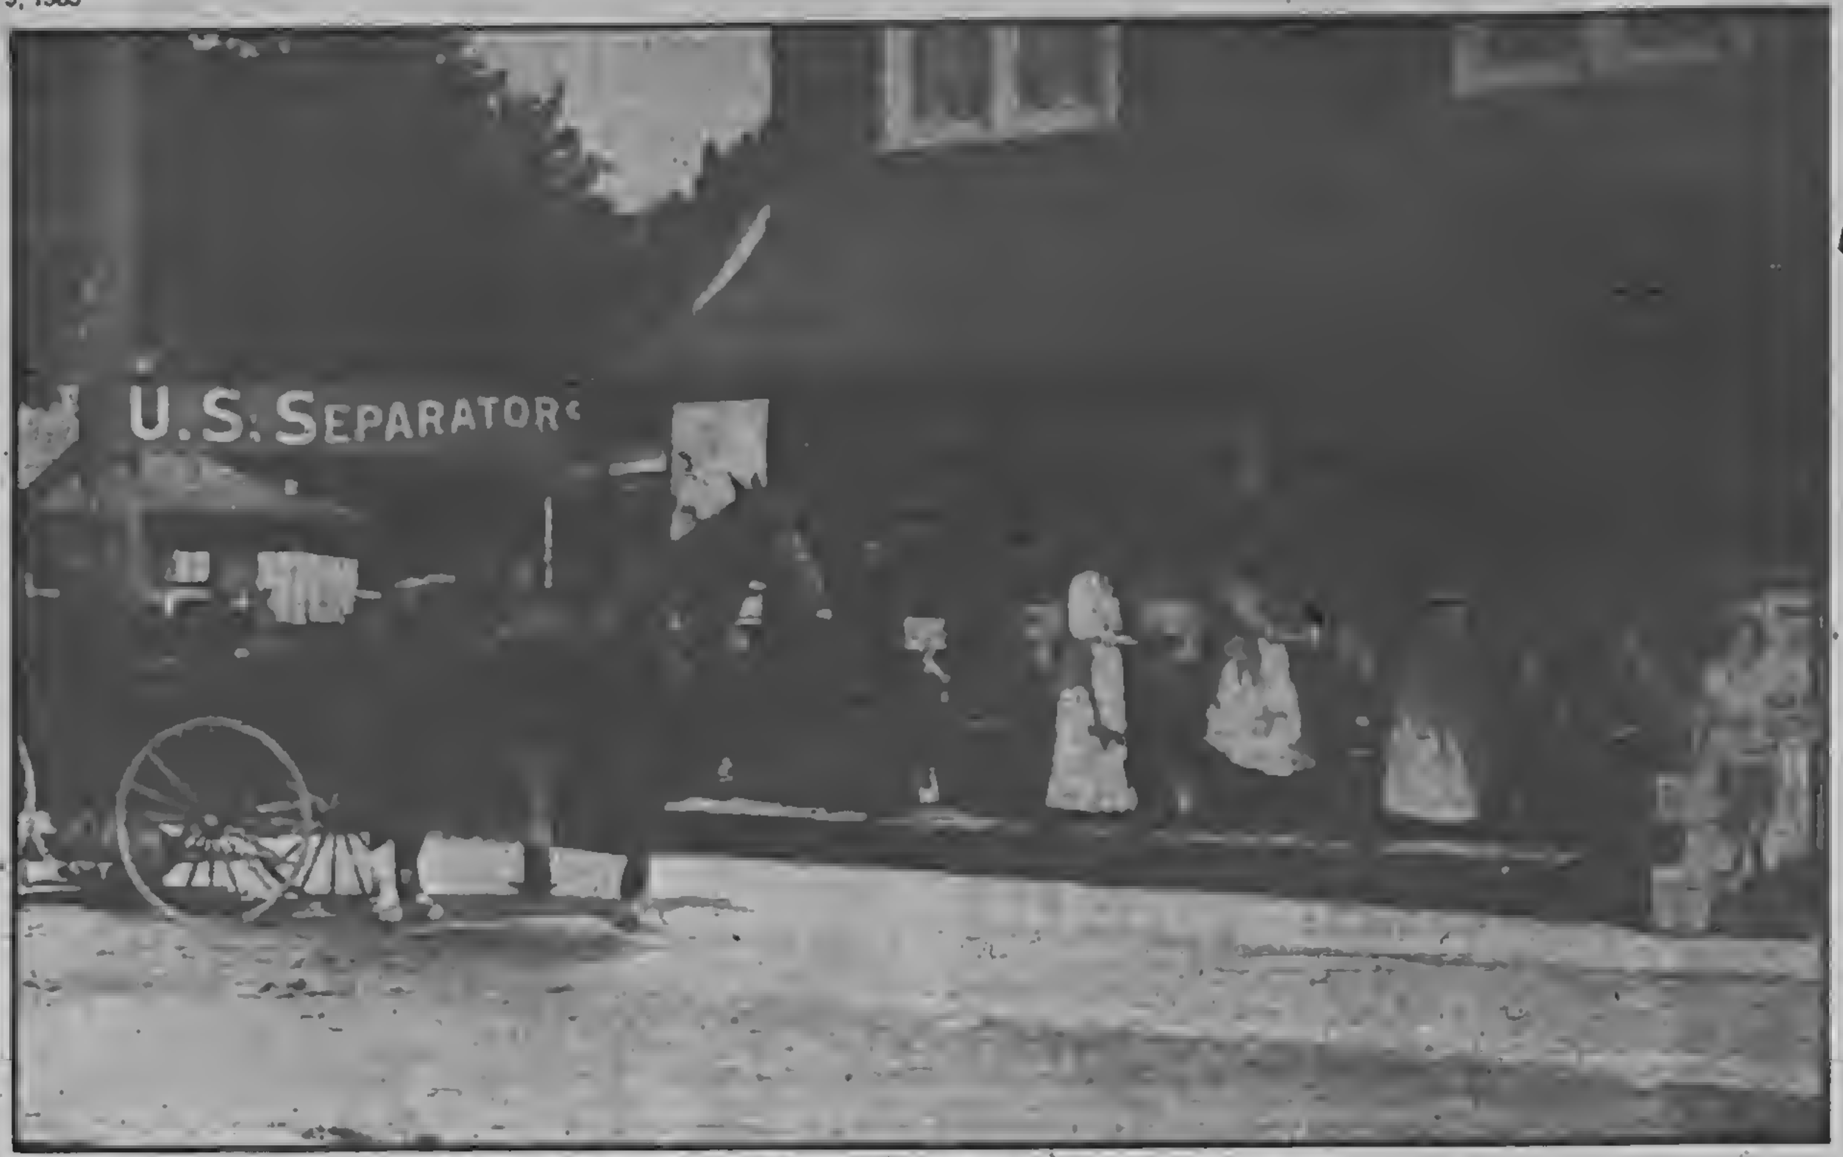
ANTON MUTZ

Funeral services for Anton (Tony) Mutz, 85, who died Sunday at the Grandvue Medical Care Facility where he had been a patient for two weeks, were held Tuesday at the Winchester Funeral Home. The Rev. Cecil Drost officiated.

Born Jan. 3, 1898, in what was to become Yugoslavia, Mr. Mutz had served in the Austrian Army before migrating to Canada in 1920 and later to the United States, settling in Chicago. He became a U.S. citizen in 1935. He was a stationary engineer at St. Mary's Hospital in Chicago until he retired in 1956. Two years later he moved to his present home in Marion Township. He had been a member of East Chicago, Ind. Lodge No. 1256 of the Loyal Order of Moose in Chicago.

He is survived by his wife, Lulu; a son, David J. of Charlevoix; a daughter, Mrs. John (Jeanne) Hamilton of East Tawas and one grand-daughter.

The family suggests memorials to the Michigan School for the Blind. Envelopes for this purpose may be obtained at the funeral home.



Charlevoix Yesterday

This Charlevoix merchant of long ago apparently knew something about merchandising. He has lined up his milk separators in front of his store with three comely young women to demonstrate them. (Photograph courtesy of Tinker Kirby.)

Seminar will address industrial safety issues

The Michigan Department of Labor, Safety Education and Training Division (SET) and the Petoskey Chamber of Commerce will conduct a safety seminar entitled ''Traditional Approaches May Not Be Working''. This is a special training program on back problems that takes an indepth look at one of industry's leading problems and why traditional prevention techniques may not be working.

The program will be held February 15, 1983, 8:30 a.m. at the Holliday Inn of Petoskey.

Attendees will learn techniques on training employees to take care of their backs including physical fitness program, diet, and corrective posture.

Employers will discover how to do pre-employment screening, job designing to reduce potential problems and eliminating hazards in the workplace that contribute to back injuries.

Special guest speaker will be Katy Goodwin from Rehabilitation Associates, Troy, Michigan.'

A program fee of $10.00 is required which will include lunch the day of the program. Advance registration is required with the Petoskey Area Chamber of Commerce, 401 East Mitchell Street, Petoskey, Michigan 49770.. Conducting the program will be Jerry Medier and Bill Vandrese, Occupational Safety Specialists from the SET Division.

For more information call the Chamber at 616-347-4150 or the S.E.T. Division at 517-322-1800.

1982 building down again

The Charlevoix County Department of Building Inspection issued 448 permits during 1982 for construction amounting to $7,744,485.

These figures indicate that for the fifth consecutive year, building starts in the County have fallen below the previous year.

In 1981, 500 permits were issued for $8,752,508 worth of construction; in 1980, 579 permits were issued for $10,751,844 worth of construction; in 1979, 699 permits were issued for $10,867,335 worth of construction; and in 1978, 673 permits were issued for $15,247,635 worth of construction, including a new building at the Medusa Cement Company.

Boyne City led all political units in number of permits issued in 1982, with 63. The City of Charlevoix was second, with 46 permits, followed by Eveline Township, 44; Hayes Township, 35; East Jordan, 28; Wilson Township, 27.

Evangeline Township, 28; South Arm Township, 25; Boyne Valley Township, 18; Melrose Township, 16; Marion Township, 15; Hudson Township, 13; St. James Township, 10; Boyne Falls, six; Chandler Township, four; and Norwood Township, four.

The first three months of 1982 were the slowest for building starts. In January, only 12 permits were issued; in February, 18 permits; and in March, 12 permits. By April, permits picked up – 49 that month, 54 in May, 59 in June, 44 in July, 41 in August, 44 in September, 45 in October, and 47 in November. Then, in December the figure dropped to 26.

Irwin's committee assignments include chairmanship

Recently named as Chairman of the Subcommittee on Natural Resources and Agriculture for the Senate Appropriations Committee, State Senator Mitch Irwin (Sault Ste. Marie) said he looks forward to the opportunities created by the Chair positions which will slate the operating budgets for the Department of Agriculture and the Department of Natural Resources.

Irwin, named to the Appropriations Standing Committee last week, said the positions are important for the 37th Senatorial District, which includes Charlevoix County, as he hopes to be able to insure a high level of protection to those areas most critical to northern Michigan.

"Natural Resources is crucial for its tourism development and forest management potential, as well as the whole issue of protecting our natural resources in this state," Irwin said. "I believe Agriculture represents one of our prime growth potentials as we strive to diversify our economy, and I hope to promote that through the budget.

"We need to spend where we must in a cost-effective way," Irwin explained, "providing a good service level to our state while at the same time living within our means." According to Irwin, the Appropriations assignments present a challenge "in the face of this staggering fiscal calamity." Irwin said the Committee needs to "face up to tough decisions in reducing the size of government and cutting the budget" while increasing the revenue flow.

"We need to keep afloat financially in order to begin our economic development and recovery program,'' he explained.

In addition to his Chair responsibilities, Irwin will sit as a member of the Subcommittees on Higher Education, Mental Health and Transportation. As a member of the Appropriations Committee, he votes to approve all state budgets.

Irwin will be a member of one other Standing Committee– the Senate Committee on Agriculture, Consumers, and Veterans Affairs. He also serves as an alternate for the Legislative Council.

A SUCCESS STORY *involving downtown development was the featured program Saturday morning at a special meeting co-sponsored by the Charlevoix Chamber of Commerce, Downtown Development Authority and Keep Charlevoix Beautiful. Northville City Manager Steven Walters, center, showed a slide presentation of Northville's "Mainstreet '78" project which attracted widespread publicity for its successful use of a downtown development authority and tax increment financing in renovating its downtown business district. Joining Walters at the meeting was Northville Mayor Paul Vernon, right, who was highly enthusiastic about the DDA concept.*

To assist vets with tax forms

The Charlevoix County veterans counselor is presently assisting veterans, eligible servicemen and eligible widows with Homestead Property Tax Forms numbers CR-1, CR-2 and CR-3 Ronald G. Geer has announced.

Anyone having questions regarding these forms or anyone needing assistance in completing them is asked to contact him at his office on the first floor of the Charlevoix County Building on Tuesday or Friday when the office is open.

The office will close at 11 a.m. Friday, Feb. 19, so he might attend a training session in Detroit.

For the convenience of people calling the office a record-a-call machine has been installed in the office to receive messages 24 hours a day. At the sound of the tone, the caller need only leave his name and telephone number or where he or she may be reached. When he clears the machine, Mr. Geer will then return your call.

"This has been installed for your convenience. I hope you will take advantage of the service" Geer said. The number 547-9365.

Contest winner

Margaret Ladd is the first prize winner in the *Courier* basketball contest this week having missed only one game and coming closest to the tiebreaker. She wins a $15 gift certificate. Taking second was Doug Sloan who also missed only one game but lost in the tiebreaker. He receives a $10 certificate.

Scoreboard to honor Syl

A memorial fund to purchase an electric scoreboard for the Charlevoix Softball field [illegible] Carpenter Ave. has been established in the name of the late Syl Weislik.

Friends of Mr. Weislik who died unexpectedly December 17 have established the fund at the M-66 branch of the Charlevoix County State Bank with Barbara Swanson in charge of the account. Any contributions to the [illegible] may be directed to Mrs. Swanson.

Mr. Weislik as owner of the Townhouse Lounge has sponsored men's and women's softball, bowling and volleyball teams and men's basketball teams as well as tournaments since coming to Charlevoix from the Detroit area in 1962.

"Syl was supportive of all the teams he sponsored. He didn't always make it to an entire game and when he'd show up he'd always ask 'What's the score?' and then would add 'What you need is a scoreboard so I don't have to ask.' Remembering that and all the support he gave to all forms of recreation sports in the community, we felt this would be a fitting memorial'' a spokesperson for the group establishing the memorial said.

Plans call for the purchase and installation of the scoreboard prior to the opening of the 1983 softball season.

Further information regarding the project may be obtained by contacting Mrs. James Alger or James Willis, softball commissioner.

Dr. Mansfield completes advanced CPR training

Physicians working in hospital emergency rooms are recommended to be certified in Advanced Cardiac Life Support demonstrating their thorough knowledge of and ability to use all aspects of cardio-pulmonary resuscitation.

Dr. Richard Mansfield, of Boyne City, already certified in Basic Cardiac Life Support, recently successfully completed an intensive four-day training seminar in all aspects of advanced cardiac life support. The seminar, held January 27-31 at Sugar Loaf Ski Resort near Traverse City, was conducted jointly by the American Heart Association and the Osteopathic General Practitioners of Michigan. Some 38 physicians and nurses attended from around northern Michigan.

Two days of intensive lectures of cardiologists, internal medicine specialists and other physicians and nurses were followed by two days of practice on Resusci Annie mannikens which simulate realistic situations of heart arrest and respond to CPR only if properly applied. During the practice sessions the physicians seeking their ACLS cards were overseen and repeatedly questioned on procedure by the team of physicians administering the tests.

Mansfield described the experience as both ''grueling'' and "satisfying".

The two hour written examination was followed by a final testing on the mannikens, with the physicians and nurses being subjected to rapid fire questioning on procedures, medications and diagnosis.

"We had to explain exactly why we were doing each procedure. We had to know the exact doseages of any medication used, and everything had to be done in proper sequence,'' Dr. Mansfield explained, pointing out that "This was as close to a real-life situation as it could be. My adrenalin was pumping. I felt very anxious. It seemed like a real emergency room situation."

Dr. Mansfield, who received his degree in Osteopathic Medicine from Kansas City College of Osteopathic Medicine, has been a member of the Charlevoix Area Hospital medical staff since 1969. He practices in Boyne City at the Boyne Valley Medical Clinic and is the Charlevoix County Medical Examiner.

Dr. Mansfield is a member of the American Osteopathic Academy of Sports Medicine, the International Association of Coroners and Medical Examiners, the Civil Aeronautics Medical Association, and is a Certified Member of the American College of General Practioners in Osteopathic Medicine and Surgery.

Dr. Richard Mansfield, Charlevoix Area Hospital staff physician, and physician at the Boyne Valley Medical Clinic, demonstrates cardio-pulmonary resuscitation for Nursing Services Director Mary Ann Cox. Dr. Mansfield recently attended an intensive four-day seminar for certification in Advanced Cardiac Life Support. The physician credited Mrs. Cox's earlier coaching with assisting him during his testing for certification.

CO poisoning is silent killer in home, auto

Contributed by the District No. 3 Health Department

Over 65 Michigan residents died from accidental carbon monoxide gas poisoning last year. Carbon monoxide poisoning, the silent, creeping killer, causes more deaths than any other type of gas poisoning. Carbon monoxide is treacherous because it is odorless, tasteless and colorless. It is doubly treacherous because in concentration it acts so quickly that a victim often has no warning of the gases danger.

Carbon monoxide (CO) is dangerous because it sickens and kills by cutting off the oxygen supply to body tissue. Oxygen is carried throughout the body by red cells. When CO is present it can combine with the red blood cells 200 times easier than oxygen. If enough oxygen is driven out of the cells, death will occur.

About ¾ of Michigan carbon monoxide deaths were caused by improper use of motor vehicles. When ever you drive or park a car with the engine running, CO goes with you. The following list of precautions can help prevent carbon monoxide poisoning:

1) Check exhaust systems regularly, especially in areas where salt and chemicals are used on ice and snow.

2) Only work on a running engine in a properly vented area. Winds can blow CO back into a garage.

3) Shut engine off when sitting in a parked car.

4) Never drive with all windows closed completely. A side window should be left open slightly.

5) If you become sleepy while driving or while parking, the cause could be carbon monoxide (CO). Stop at once; get out and get fresh air. With the window open drive to the nearest service station and have the exhaust system checked.

6) If a vehicle is parked, or stuck in the snow, the tail pipe should be cleared of snow.

There are many sources of CO besides automobiles. A prime example is the portable space heater. Others include gas-fired appliances, gasoline-powered lawnmowers and snowblowers, charcoal grills, wood stoves, fireplaces, gas (natural or bottled) heaters, kerosene or gas-powered camp lanterns, stoves and similar equipment.

Gas fired appliances - furnaces, refrigerators, ranges, and water heaters, represent a very significant potential hazard, if proper and regular maintenance is neglected. These appliances should be checked at least annually and more frequently if they are used intermittently, as in a cottage, hunting cabin, or in a recreational vehicle. The appliances should be vented, burners cleaned and adjusted, and vent pipes checked for leaks or blockages. Also be sure to follow the manufactors and under writer laboratories instructions for use, service and repair.

Symptoms of CO poisoning are tightness across forehead, throbbing, headache, weariness, weakness, dizziness, loss of muscular control, nausea and increased pulse and respiration.

Knowing what to do can save a life. If you suspect CO poisoning remove victim to fresh air and begin artificial respiration. Call for ambulance or rescue unit. Continue artificial respiration. Keep victim warm and continue artificial respiration until professional help is available.

If you have further questions about carbon monoxide please contact the Environmental Health Division of your District Health Department.

Knight on the Town

Now, forward

by Dave Knight

For a minute or two Monday night, it appeared that the Charlevoix City Council would pull an all-too-characteristic ploy of putting off an important decision "to have more time to think about it."

It was 12:30 a.m. A steady parade of engineers and public health types had been trotted up to the podium one by one since 8 p.m. in a beautifully orchestrated series of testimonies.

It was an orgy of facts. Over four hours worth. And when the time came to make the $1.7 million dollar decision to build a new lake water treatment plant, it seemed almost anticlimactic.

The easy way out would have been to call another meeting this week and hash it over one more time. There would be no more new facts - every fact conceivable had been churned out Monday night.

City manager Robert Hunt foresaw the reticence that would greet such a costly venture when he wrote to the council in a February 4 memo: "I know that many of us have been hoping that there was an economical way to rid our water of TCE. I am sorry that the facts do not support this conclusion. It is time to stop hoping that TCE might diminish or go away. It is time to stop believing it can be solved easily and without cost. And it is time to stop seeing villains in those who must administer decisions."

Gulp.

The time of reckoning was at hand. For the first time since this whole mess started, all the neccessary information was on the table, having been sifted and winnowed *ad infinitum*.

And the council, thank goodness, responded.

The decision will not be popular with everyone. We know that. But it's made and now we move forward. Together. This has been a learning experience for everyone involved; the council, the city manager, the health departments, the DNR, the EPA, the *Courier* editor. Chances are, what Charlevoix is going through (we're not done yet) may ease the trauma for another place.

We are all a little sadder, a little wiser.

As Bob Hunt says, "TCE has made each of us feel a tinge of helplessness. As long as the future of our water is tied to the level of TCE, some of that helplessness will remain, whether or not we are successful in containing, controlling or filtering it. We deserve better. It is time each of us examined this matter from a perspective of reason, resolve and destiny rather than anger, reaction and fear.

This is our choice."

Clockwise

Space solution

by Bob Clock

THE SOVIET reactor that has been limping around in space for several months re-entered the earth's atmosphere early Monday and vaporized — "harmlessly" according to one report — before crashing.

I suspect wheels in the scientific community already are beginning to turn. If 100 pounds of radioactive material can be vaporized "harmlessly" in space, why not commit the vast quantities of radioactive waste now collecting dust around the world to the same fate?

Of course, for years there has been speculationthat the sun itself might be an ideal dumping ground for nuclear residue. But there has been a general reluctance to send such material into space for fear it doesn't make it.

However, our rocketry success rate seems to be reaching a point where the shipment of nuclear debris into space might be the best solution to the problem of what to do with it.

The first few minutes of flight, of course, will be critical. But if we can get the junk up 100 miles or so before the flight aborts, we'll probably be home free because it should burn up "harmlessly" on its way down.

I really don't like the idea of radioactive material flying around out of control in the wild blue yonder, but I have a feeling this might be a better solution to the problem than burying it in the salt mines under Alpena or storing it *forever* in a swimming pool at Big Rock Point.

A big part of the problem is that no one wants such deadly waste interred in his own backyard. State after state has filed its objections with the federal government over being turned into a nuclear dumping ground —and with good reason.

However, if we shipped our nuclear waste to outer space no one would complain — with the possible exception of a few disgruntled Mercurians, Venusians, Martians, Jupiterians, Saturnians, Uranians, Neptunians and Plutonians. But they're always looking for something to grouse about anyway.

ALTHOUGH NORTHERN Michigan is getting a mild taste of winter, the big question along these lonesome shores is whether Little Traverse Bay and Lake Michigan will freeze this season. I'm betting they won't.

The groundhog predicts an early spring, and for once he may be right. Winter just doesn't seem to have the oomph of other years. The February sun is more brilliant than ever and it stays in the heavens longer with every passing day. I somehow have the feeling that the winter of 1982-83 will be one for the record books — on the cheery side.

Letters: Taxes, TCE

To the Editor:

On Wednesday, January 26, during his first "State of the State" address, Governor James Blanchard urged the State Legislature to enact a 38 percent increase in the state income tax, raising it from the current 4.6 percent to 6.35 percent. In addition, he unveiled plans to cut 30 various programs and agencies from state government, saving the state an additional $4.5 million. He also called for a budget cut of $225 million, including $60 million from social services and another $50 million in aid to education. He has asked the Michigan House and Michigan Senate to adopt these proposals, and set an Easter deadline for their passage.

Is this what the people of Michigan want? As the State Representative for the 103rd District, which includes the counties of Roscommon, Crawford, Oscoda, Antrim, Otsego and Charlevoix, I will be casting votes on these issues both in the full House of Representatives, where the tax increase will be decided, and on the Appropriations Committee, where the budget cuts will be made.

I am calling on all my constituents to study the proposals. I want to know if the people of my district, and the rest of the state of Michigan, really think a tax increase is necessary. And if so, should it be an income tax increase, permanent or temporary? Should we increase our sales tax? (A one percent hike, from 4 percent to 5, would generate $450 million annually.) Should we repeal the sales tax exemption on food and drugs? (That would require a public vote of the people.) Should we tax entertainment and professional services? There are numerous alternatives, and all require some sort of sacrifice.

If not a tax increase, what about further budget cuts to help erase our estimated $900 million deficit? Where should we cut and how much? But, keep in mind that this year's budget is one billion dollars less than the state budget was tow years ago. Soon, there will be little left to cut at all.

More now than ever, the people of Michigan must work together to solve our problems, and that is why I need your ideas, your input, and your reactions to these various proposals. Solving our $900 million problem will be a painfull and expensive proposal, no matter what is finally resolved. That is why it is so important that I hear from concerned citizens, and why I plan to travel throughout the district to speak to as many people as I can. If you want to share your opinions with me, even if you have never writen or contacted an elected official before, my address is:

State Capitol Building, Room 1101½, Lansing, Michigan 48909.

Sincerely,
Ralph Ostling

Which is best?

To the Editor:

I should like to thank Mr. Duke for interjecting some much needed levity into a situation which was becoming estremely tight with limited alternatives. With his highly imaginative and entertaining flight of fancy he has relaxed the tensions and supported the fact that there is ample time to study all the alternatives, and still be able to change direction and to take the "right track", that which is most reasonable and economical for all of Charlevoix and which will provide for present and future requirements.

1. Which is the best method or system that can be installed within the financial means of our City?

2. What is the initial installation cost and the future maintenance cost?

3. What guarantee is offered that future maintenance costs will not be escalated at an exorbitant rate?

4. Which filtration system is most compatible with the expanded future requirements of a larger capacity modern water system to supply the needs of future Charlevoixans? Is it carbon filters? Is it various types of micron filters? Is it ceramic filters?

The abiding question of course is what is the best and most useful for the long range at the most reasonable cost to all? Especially the property owners on fixed incomes. We citizens of Charlevoix should not be precipitated into a sudden irresponsible decision based upon over zealousness of opposing factions. Remember that there is still time to consider establishing a commission to study all aspects of the problem and present a concensus opinion to the City Council for consideration. Also, remember that a large expenditure covering many years still must be accepted and approved by the electorate.

Let us all work together to accomplish our finally determined goal!!!

Paul O. Burlew

Stay the course?

To the Editor:

Whenever congressmen raise their salaries, and the salaries of other federal executives, they claim that it is in the interest of good government because high salaries attract superior personnel. This position would be more convincing if congressmen would name superior candidates that would do a better job than they do, and would campaign for their job if congressional salaries are increased, otherwise we are just supporting the same government at inflated prices. High salaries can also attract greedy people.

The Reagan administration has cut back drastically on social services, but whenever anyone mentions this fact administration officials claim that appropriations for social services have increased. This proves that the Ronald Reagan charge that the federal government bureaucracy is a very inefficient provider of social services is correct, at least his administration is an enefficient provicer of socail services.

Should we "stay the course" or should we stay the coarse (stop the vulgar)? "Stay the course" could mean either continue, or stop, the course.

Ray E. Peltz
Charlevoix

Out of the Blue

It's Wednesday so soon!
The week's half gone;
The calendar's at noon—
But my work's still at dawn.

--Amos

Aeration system to be improved but township is standing by ready to provide water

Continued from page 1

they will now be run virtually nonstop with the excess water "pumped to waste" into Lake Michigan.

According to Whitley, test samples could be taken as early as next week to make a final determination on the effectiveness of aeration.

There was no indication by council as to what percentage of contaminant removed by aeration would be considered acceptable.

The decisions made by the council Monday night followed over four hours of reports by a variety of resource people ranging from two Charlevoix High School students who conducted the recent telephone survey on TCE to William Kelley, Chief of the Water Supply Division of the state Department of Public Health.

Kelley told the council that, to date, there is no state or federal standard applying to acceptable concentrations of TCE in drinking water supplies.

"We have several standards (for other contaminants)," said Kelley, "But not for the volatile organic chemicals such as TCE that we have been finding over the past five years. The technology used in detecting these chemicals has just become available."

Kelley said that, in the asbsence of established standards, the approach adopted by his department has been to minimize the concentrations of contaminants wherever they are found.

He referred to Charlevoix's as a unique problem saying, "In other communities with more than one well we have been able to eliminate the contamination by just shutting down the polluted well." Since the City of Charlevoix depends on a single well, however, that solution, said Kelley, does not apply.

Questioned about the vulnerability of Lake Michigan water to chemical pollution, Kelley said that the volatile organic substances such as TCE could not exist in the lake environment. The only present concern, he added, is with non-volatile chemicals which he said are being constantly monitored for in the lake but which are not being found.

Robert Hufnagel, project engineer for MP&S, addressed concerns about the effect of effluents from the Charlevoix Waste Water Treatment Plant and the Big Rock nuclear plant on a lake water system.

Hufnagel said that outflow from the sewage plant, which would be located about 3000 feet west of the proposed lake water intake, is consistently released with 98 to 99 percent of impurities removed. Should there be an episode of untreated discharge, he said, it would be so diluted before reaching the intake point as to not pose a problem.

Also cited was the typical close proximity of sewage outflow and water intake facilities used by communities on the Mississippi River as examples of how the two systems have been successfully operated in the past.

In the case of a discharge from the Big Rock plant of unacceptably radioactive waste water, Hufnagel told the council that data on Lake Michigan current flows indicate a current along the Charlevoix shoreline heading north. Any effluent from the Big Rock plant would thus be carried away from Charlevoix, he said.

He also pointed out that the computed probability of an accident resulting in higher-than-permitted levels of radionuclides in drinking water is one in 100,000 years.

Lending his expertise on lake water treatment was Ron Bowen, Director of Utilities for Traverse City which utilizes a lake water treatment plant. Said Bowen, "We feel that our water quality in Traverse City is next to none in the State of Michigan."

Bowen said that since the Traverse City plant was built in 1964, the water quality has not changed significantly. The absence of iron, nitrates and chloride in lake water, he added, has made their water system especally trouble-free.

He also said that over the 18-year life span of the Traverse City water system, which requires chlorination, his department has received "less than a dozen complaints" about the smell or taste of the water.

MP&S project manager John Adams explained to the council why a surface water system was preferred over carbon filtration, one of the alternatives studied by the firm.

With all the eventual components that would be required by the state Health Department to be added on a compliance schedule, carbon filtration was estimated by MP&S to have a total cost of $1,469,500, about $300,000 less than the proposed lake water treatment option. Annual operating costs were pegged at $172,600 compared to $94,000 for the lake water plant.

Adams stated that operating costs for carbon filters could increase dramatically, however, if chloroform made its way into the system. Chloroform, another commonly found chemical pollutant, has been detected at one groundwater monitoring well in the City of Charlevoix at levels of over 50 ppb.

Because of the vulnerability of carbon to saturation by chloroform, its presence in the water could boost annual operating costs up to $720,000 according to Adams.

Hufnagel told the council that emergency carbon filtration units from the Calgon Corporation could be delivered within 48 hours on a lease basis. The cost to the city under such an arrangement would be $64,000 plus $6000 a month. Another $16,600 would have to be spent for addtional pumping to restore pressure loast in the filter vessels. Even with immediate delivery, said Hufnagel, the concrete foundations required along with other accessories would take three to six weeks before the system could be on line.

Such a system, added Hufnagel, would be presumed by Calgon to be temporary.

"They (Calgon) typically let these out for a matter of months at the longest," he said.

In further explaining the proposed lake water treatment plant, Adams said that the design is for a pumping capacity of three million gallons per day. The current average annual usage in Charlevoix is 700,000 gallons per day with a maximum usaage rate of 1.7 million gallons per day on the peak summer days.

The extra pumping capacity, explained Adams, would allow the plant to be run for eight hours a day and shut off for 16. It would also allow for the most optimistic growth projections for the City of Charlevoix into the year 2000.

On the matter of potential funding, City Manager Hunt told the council that the Environmental Protection Agency (EPA) Superfund is still a possible means of funding up to 90 percent of a new treatment plant but that the "strings" attached and the delay involved must be considered. He said that a decision on Charlevoix's application for funds should be made in Washington by late march or early April.

Weddings

Mr. and Mrs. Forrest Robinson

Goldstick-Robinson

Helen L. Goldstick of Silver Springs, Florida became the bride of Forrest H. Robinson, also of Silver Springs, on Thursday, December 2, 1982 at the First Assembly of God Church of Ocala. Rev. Fred McDaniels officiated at the ceremony.

The bride is the sister of Mrs. Esther Miles of Charlevoix and was given in marriage by her brother, Harry Goldstick, of Rome, New York. Loretta Goldstick, sister-in-law of the bride, served as Matron of Honor.

Scott Ekberg of Belleview, Florida served as best man while Robert Obde and James Butz were ushers.

A reception was held in the fellowship hall of the church following the ceremony. After a post wedding trip to Sanibel Island on the Gulf of Mexico the couple will be in residence in Silver Springs, Florida.

CHS's "Grease" heads for Ann Arbor

It's on to Ann Arbor for the Drama Division of the Forensics Class at the Charlevoix High School on Feb. 18 and 19 after qualifying for state competition with its production of "Grease" Connie Ford, director of the play, has announced.

The production rated a third place in District competition at Bay City to qualify the cast for state competition.

In the interim, area residents will have an opportunity to see the award-winning production at the Charlevoix High School gymnasium at 6 p.m. Saturday, Feb. 12. "This will be a fund-raising event in order to raise monies to underwrite the cost of the over-night trip to Ann Arbor" Mrs. Ford said.

In receiving the third place rating in district competition individual groups within the cast received numerous awards for their performances and work Mrs. Ford explained. "The students in the leading roles, the choruses, the orchestra and even the lighting crew received recognition that covered the entire group of 71. We did very well and I am very pleased with this group which includes only a few experienced students and a host of novices in drama" Mrs. Ford said of the cast.

For those unfamiliar with "Grease", it is set in the 1950s and portrays the conflict between the All-American "jock" group of students and the "Fonzies" who are seeking to find an identity of their own. Rather than showing the seamier side of life, the local group has chosen to point out the different routes the two groups chose to depict their roles in society.

Heading the cast are Gary Carson and Dianna Loder who received superior acting awards, the higest ranking given in the drama division of the speech program, for their portrayal of the leading characters, Danny Zuko and Sandy Dumbrokie.

Complimenting the pair were 13 other students who received an excellence award for their work in the acting-choral ensemble. They are Maureen Buday, Kim Novotny, Ann Wagner, Cathy Shepherd, Jacque Erber, Beth Jones, Kathi Dillon, A.J. Witthoeft, Norman Carlson, Shawn McLelland, Tim Noirot, David Umlor and Matt Landon.

In awarding the cast the third place award, the judges included the entire dance and vocal chorus section. Dancers for specials in the production as well as the chorus were four of the major cast members plus Paul Arnold, Amy Bartlett, Lauri Moore, Tara McLelland and Lara Thomas.

The other chorus members are Rick Bartz, Cathy Boal, Kyle Bremmeyr, Kathleen Buday, Cathleen Campbell, Karen Carson, Jennifer Clock, Mary Donnelly, Toni Eakes, Holly Edger, Shawn Elliott, Craig Glass, Eric Green, Jeff Grooters, Laura Grooters, Bryan Noirot, Jeff Novotny, Sharon Martin, Lynn McKay, Leslie Miller, Rusty Parker, Susan Ragina, Missy Sandahl, Debbie Seelye, Dawn Sitzema, Nick Swanson, Karen Speigl, Donna Thorp, Veronia Wilson, Richard Wurst.

Receiving a superior award for its part in the production was the orchestra composed of Danielle Johnson, freshman pianist, Dean Kerridge on drums, Mark Mosley, electric guitar, Lara Stargardt, bass, and Richard Wurst, accoustic guitar.

Capping off the awards was the "behind the scene" crew in charge of lighting headed by Jim Young, first year student, on the board, and Kris Foster and Karl Lieberman on the spotlights. They are assisted with cues by Sanya Soulliere and Shawn Elliott.

The class built and painted its props under the direction of Tim Noirot. The Art Department has cooperated in the project by painting back drops for the production which will be presented locally on Feb. 12.

Cast members from the Charlevoix High School musical "Grease" rehearse on a stage constructed by the students to resemble cement blocks

Two-part series at Charlevoix Area Hospital will explain signs, symptoms of heart attack

Charlevois Area Hospital is presenting a two-part series on heart attacks and rehabilitation, conducted by two staff physicians, Dr. James Geis and Dr. Bruce Lindsay, Wednesday Fabruary 16 and Wednesday, February 23.

Signs and symptoms of heart attacks will be included in the opening presentation by Dr. Geis, February 16, at 7:30 p.m. Dr. Geis, a doctor of internal medicine, will discuss what happens during an heart attack, what to be aware of, and what to do if a heart attack is suspected. He will discuss the dangers and complications of heart attacks and discuss hospital treatment.

The feature film, "I am Joe's Heart" produced by the American Heart Association will be shown during this first evening presentation.

Dr. Geis will allow time at the end of this first session for questions and answers.

The following Wednesday, at 7:30 p.m., Dr. Lindsay, also a physician specializing in internal medicine, will present a program on rehabilitation after a heart attack.

Dr. Lindsay will explain a typical rehabilitation program, when it starts and when a patient can expect to begin such a program. He will discuss diet, exercise schedules, and when a heart patient is likely to return to work.

At the end of the final evening's gathering a mini-workshop will be held to review the two sessions and permit participants to ask questions.

These two evening sessions, held in the hospital's Lake Michigan wing classrooms, are a free service of Charlevoix Area Hospital.

To ensure space, people planning to attend should call the hospital at 547-4024 by Monday Feb. 7, for reservations.

Sell to present workshop at Lansing conference

CHIP Counseling Center's Substance Abuse Coordinator, Robert Sell, will present workshops on "Intervention with Families" at the 9th Annual Conference on Substance Abuse for Clergy and Lay Persons, February 22-23, 1983.

Conference leader Claudia Black will focus on "The Religious Community and the Child of the Alcoholic". Ms. Black is the author of "My Dad Loves Me, My Dad Has A Disease", a work book for young children raised in alcoholic families and "It Will Never Happen To Me" a book to help adults to understand how children are influenced by parental alcoholism.

Headquarters for the conference will the The Kellogg Center for Continuing Education, Michigan State University, East Lansing, Michigan. For further information on this conference contact CHIP Counseling Center at 547-6551.

Plan Valentine party

The Kappa Sigma chapter of Beta Sigma Phi sorority, as a community service, is arranging a Valentine party for the residents of Pine River Place on Feb. 14.

In preparation for the party, members decorated the main lounge in a Valentine motif on Monday.

The residents of Pine River Place are presently voting for their choices of the King and Queen of Hearts who will be crowned as a part of the festivities on Feb. 14. There will also be bingo with prizes and refreshments.

Kids Corner has openings

The Kids Corner Nursery has openings and is now taking registration for the winter semester. Kids Corner is a cooperative Christian nursery school with classes limited to 12 children. It is designed to give three-year-olds a chance to develop social skills in a supervised environment.

Kids Corner is located in First Congregational Church. For more information, call Mary lou Norton at 547-6874.

Upstart Blue Devils give Rayders a scare

Gaylord was out to repeat its role of giant-killer Friday night. The Blue Devils had knocked off second place St. Ignace the week before and came close to giving undefeated Charlevoix its first "l" but a string of Gaylord turnovers in the waning minutes of the game let the Rayders off the hook.

By a final score of 58-53, Charlevoix preserved its perfect record, now at 10-0 in the conference and 14-0 overall. The Rayders hold a commanding lead in Michigan-Huron Shores standings with St. Ignace, who beat Petoskey 79-71 Friday, not too far behind at 8-2.

While Friday night's Winter Homecoming festivities provided the fans with a traditional bit of pomp, they may have taken the basketball team's mind's off the business at hand momentarily. The Rayders strolled through the first half amassing leads of up to 19 points.

They came out flat in the third quarter, however, allowing Gaylord to get back into the game and set the stage for a rousing final three minutes.

At the end of the first quarter it was Charlevoix up 21-12 and by halftime the Rayders led 35-24. After the halftime ceremonies, which saw leading scorer Craig Klooster crowned Homecoming King and cheerleader Erin Campbell crowned Queen, Gaylord starting chipping away the Rayder lead. At the end of the third it was 47-41 with the Devils clearly having seized the momentum.

After being outscored 11-2 in one stretch, the Rayders found themselves on the mat with three minutes left. Gaylord had scrapped to a 51-48 advantage and went into a slowdown offense. The tactic backfired, however, as the Blue Devils committed four costly turnovers in short order.

The Rayders went on to capitalize on a steal tying the ballgame at 53-53. A Chris Putman free throw put Charlevoix back on top 54-53 and George Smith added two more with a timely field goal that gave the Rayders a 56-53 edge with 32 seconds to play. Two more free throws at the very end of the game sealed the 58-53 win.

Klooster led all scoring with 20 points, even ater being shut out completely in the fourth quarter; Smith added 14 to the cause. For Gaylord, Kurt Kakaviska and Gary Scott had 16 and 14 respectively.

Other individual statistics showed Putman with 10 rebounds, Smith with 9 and Tim LaBlance with seven assists.

Craig Klooster goes "head to head" for a rebound.

Junior varsity ski teams compete at Nub's Nob

The Charlevoix Junior Varsity ski teams competed against Harbor Springs teams at Nub's Nob Thursday with Charlevoix A and B boys teams placing first and second and the girls team coming in second according to Coach Eric Lundteigen.

It was a good meet. The kids skied well. It was a good experience for the younger skiers who don't always have a chance to participate in the Varsity meets Lundteigen said of the meet.

Charlevoix A team placed first with 28 points; and B team second with 70 and Harbor Springs in thrid place with 76 points.

Scott Stebe finished first in both the slalom and the giant slalom with the A team; John Marsh, 14th in the slalom and second in the giant; Mike Baer, fourth in the giant; Brian Wilmot, fourth in the slalom and third in the giant; Alan Thier, third in the slalom and fifth in the giant and Pat Zundel, tenth in the slalom.

In the B team action, Jeff Themm was 11th in the slalom and 10th in the giant slalom; Chris Gibbons, 6th in the slalom and 9th in the giant; Mike Martin, 8th in the slalom and 6th in the giant; John Booms, 15th in the giant; Jeff Kelly, 13th in the slalom and 11th in the giant; Greg Andrick, 9th in the slalom and 7th in the giant and Pat Gibbons; 12th in the slalom and 16th in the giant.

Harbor Springs won the girls' division with 33 points. Charlevoix had 40.

Sue Duke came in third in the slalom and first in the giant; Wendy Olinger, eighth in the slalom and 7th in the giant; Tammy Olinger, 9th in the giant; Sandy Wanek, first in the slalom and 11th in the giant and Beth Revoir, 7th in the slalom and 4th in the giant.

B-League scores

Action in the B League of the Charlevoix Independent Basketball League last week saw Wojan Aluminum defeat Kit Carson-Charlevoix Garbage 53-50; Medusa win over Air Force 59-50 and Carlson Plumbing top First State Bank 62-53 on Thursday.

Earlier in the week, First State Bank defeated Kit Carson-charlevoix Garbage 60-53; Staley Hardware stayed in first place with a 67-50 win over Medusa and Carlson Plumbing edged Air Force 44-42.

In defeating Kit Carson-Charlevoix Garbage, Wojan Aluminum came from behind after trailing 11-9; 28-21 and 37-30 at the quarter markers. However, an explosive 23 points in the final period by Wojan's gave them the victory.

Stan Martin paced the game with 28 points. Dale Boss had 17 and Barney Way 11 for the losers.

With Jim Parrish pouring in 29 points and Doug Winnell contributing 13, the Medusa quintet had no trouble with the Air Force as they headed the airmen 14-12; 32-19 and 42-37 at the quarters. Tony Starr had 16 and J.R. Greenway 11 for the Air Force.

Carlson Plumbing moved into second place with its win over First State Bank. The game saw First State leading 14-10 at the quarter, Carlson's tieing the score 28-all at halftime and going 40-34 at the third period before chalking up the 62-53 win.

Randy Holecheck had 21 points, Beano Archey 16 and Scott Blanchard 10 for the plumbers. Tim Carey scored 24 and Kevin Swanson 11 for First State.

First State posted its third win of the season when they defeated Kit Carson-Charlevoix Garbage 60-53. It was a 19-12 fourth period surge that gave the bankers the win after they had played to a 12-12 first period tie; trailed 28-27 at the half and held their opponent to a 41-41 third period tie.

Tim Carey came through with 21 points and Steve Martin scored 12 for the winning cause. Roger Crain had 20 and Barney Way 14 for Carson-Charlevoix Garbage.

Air Force, playing one of its finest games of the season, gave Carlson Plumbing a fright, heading the plumbers 11-10, 24-23 and 30-27 at the quarters before Carlson Plumbing knotted the score 40-all at the buzzer, throwing the game into overtime. A bucket in the overtime gave Carlson's the victory.

Randy Holecheck had 24 points for the victors. Chris Claytor and Tony Starr had 13 points each for the Air Force.

Staley Hardware was in control all the way in winning over Medusa as they led 21-10, 37-10 and 40-31 at the intermissions.

Terry Smith had 24, Scott Olmstead 15 and Bill Hoagland 12 for Staley's. Jim Parrish had 20 and Doug Winnell 12 for Medusa.

Alan Bergmann places in conference meet held here

Alan Bergmann, shown here in action last week, was the lone place-winner for Charlevoix.

The Charlevoix Rayder grappers came out of the Michigan Huron Shores Conference meet held here Saturday with 27 points according to Coach Greg Bryan.

The Rayders ranked seventh among the nine teams entered.

Petoskey placed first with 176½ points followed by Gaylord with 172; Grayling with 156½; Rogers City, 118; St. Ignace, 93½; Onaway, 60; Boyne City, 19 and Sault Ste. Marie with seven.

The only Rayder wrestler to place was Alan Bergmann (167) who placed second in his class after being decisioned 11-2 by John Solomonson of Grayling in the finals.

Other Charlevoix entries were Mike Steele (126) who went to the finals in the consolation bracket; Rick Gallant (132) who lost his first match by an 11-0 decision to the second place winner in the weight class, Jess Franz of St. Ignace; Shawn Harnett (138) who lost his first match by a 9-2 decision to the third place winner in the class, Dennis Fleming of Rogers City; Scott Mervyn (185) who was pinned in 1:52 by Renkiewicz of Gaylord who placed second in his class; Jeff Mervyn (hvy wt) who lost by a pin in :20 to Jim Peffers of Gaylord who went on to finish second in his class.

The team will go on to the Class C District meet Feb. 19.

Tie Breaker Game
QUILTING BARN

☐

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of one game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

NATIONAL BOY SCOUT WEEK
February 6-12, 1983

by FRAN MARTIN

Louis Edwards

The week of February 7-13 has been designated as National Boy Scout Week.

The week marks the seventy-sixth anniversary of the Boy Scout program which originated in England and the seventy-third anniversary of Scouting in the United States.

Scouting, however, did not come to Charlevoix to stay until the late 1930's when the Charlevoix Kiwanis Club assumed the responsibility of a Boy Scout program.

Since that time the Kiwanis Club has sponsored troops for the Scouts and Cub Pack for the younger boys. Though there have been other troops, Boy Scout Troop 11 has been active as has Cub Pack 11 since that time.

For the past 25 years, Boy Scout Troop 11 has known only one Scoutmaster, Louis Edwards, whose name has become synonomous with Scouting throughout the Scenic Trails Council of which Charlevoix is a part.

Boy Scout Troop 11 along with Scoutmaster Edwards and his assistant, John Houting, will celebrate the birthday of Scouting at the annual Boy Scout banquet at the Charlevoix High School cafeteria Wednesday. Scouts, their parents, local and district Scout officials and members of their sponsoring organization, the Charlevoix Kiwanis Club, will be in attendance at the dinner meeting at which awards will be presented and at which two members of the troop, Gerald Chase and James Smith, will receive their Life Awards.

Cub Scout Pack 11 will celebrate Boy Scout week at the annual Blue and Gold banquet at the Charlevoix Elementary School Cafeteria at 7 p.m. Tuesday, Feb. 15.

Plans for this event have been made by the Cub Scout Committee headed by Cubmaster James Mansen.

Brian Granger, the new Northern Distric Scout executive of the Scenic Trails Council, will be present. Entertainment will include a presentation by the Council's Order of the Arrow.

Scouting is no different than any other group, that is, it's only as strong as the people at the helm. In the case of Troop 11 Scoutmaster Edwards and Assistant Scoutmaster Houting are backed up by a strong Boy Scout committee composed of Valois Avery, David Novotny, Frank Schuck, Charles M. Bergmann, Melvyn Thayer, Robert Rajewski, Gerald Chase, Terry Salmonson and Gunnar Lundteigen, treasurer.

In the past 25 years, the Scout committee has had only three

Continued on page 13

The Pinewood Derby is an annual event for local Cub Scouts that involves participation by both Cubs and their parents.

Boy scouting takes a boy and gives him a clearer outlook ... makes him feel good about himself
... teaches him to care about others and to take an active part in his own future.
We're proud of our Scouts and the responsibility adults they become ... we're proud to support them!

He's A Winner!
He's a Boy Scout, and thats one of the best things he can be! We're proud to support him ... and this super organization!

NOTICE OF SALE
OF REAL ESTATE
ON FORECLOSURE

IN Pursuance and by virtue of a decree of the Circuit Court for the County of Charlevoix, State of Michigan, made and entered into on the 13th day of December, 1982, to a certain cause therein pending, wherein VELMA E. SMITH was Plaintiff and F. WARD AND ASSOCIATES, and F. WARD OURADNIK, were the Defendants, notice is hereby given that I shall sell at public sale to the highest bidder, at the entrance to the County Building in the City of Charlevoix, County of Charlevoix, State of Michigan, on the 11th day of February, 1983, at 10 o'clock in the forenoon, the following described property, situated in the City of Charlevoix, County of Charlevoix, State of Michigan, to wit:

Lot No. 1 of Block No. 6 of Mason's Addition to the Village (now City) of Charlevoix, according to the plat thereof.

Pursuant to MSA 27A.2140 and MCLA 600.3140, the Vendee of a land contract, and those claiming under him, have six months from the time of sale to redeem the premises.

File No. 82-38708-CH

NOTICE OF SALE

Pursuant to Judgment and Order for Sale rendered by the Honorable Martin B. Breighner, Circuit Judge, dated December 13, 1982, in favor of Plaintiff and against Defendants, which Judgment as of the date hereof remains unsatisfied, the following described property situate in the City of Charlevoix, County of Charlevoix, Michigan, will be sold by the undersigned at public auction to the highest bidder on the 21st day of March, 1983, commencing at 1:00 o'clock on the afternoon at the main entrance of the Charlevoix County Building, City of Charlevoix, County of Charlevoix, Michigan, that being the building where the sessions of the Charlevoix County Circuit Court are held.

The property to be sold is more particularly described as follows:

Land located in the City of Charlevoix, County of Charlevoix, State of Michigan, described as: A parcel of land located in Section 26, Town 34 North, Range 8 West; beginning at a point on the West line of Burns Street 445 feet North of the North line of Dixon Avenue; thence North 136 feet; thence West 156.25 feet; thence South 136 feet; thence East 156.25 feet to the point of beginning; being a part of Government Lot 2, Section 26, Town 34 North, Range 8 West.

As made and provided by law, the length of redemption from said sale is six (6) months.

NOTICE OF
MORTGAGE
FORECLOSURE
SALE

Default having been made to the terms and conditions of a certain mortgage granted by Gordan D. Boydston and Joyce J. Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 3rd day of January 1978, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 152 of Mortgages, Page 239, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of $8,708.09.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m., said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Nine percent (9) per annum and all legal costs, charges or sums, which may be paid by the undersigned necessary to protect its interest in the premises."

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 501 Mercer Blvd., Charlevoix, and; Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981, and recorded May 5th, 1981, in Liber 153, Page 887, Charlevoix County Records and; James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981, and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and; Robert W. Christoph, Rt. No. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 16th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17, and 18 of Block 12 of Lindsay Park addition to the City of Charlevoix, according to the plat, recorded in the office of the Register of Deeds for Charlevoix County, Michigan. ALSO, Beginning at the Northwesterly corner of Lot 18 of Block 12 of said plat of Lindsay Park Addition; thence Westerly, on the extension of the Northerly line of Lot 18, 50 feet; thence Southerly, parallel with the Westerly line of Lot 16, 158 feet to the center line vacated Oak Street; thence Easterly, parallel with the Southerly line of Block 12 of said plat, to the Northwesterly line of Mercer Boulevard; thence Northeasterly along the Northeasterly along the Northwesterly line of said boulevard to the Southeasterly corner of Lot 17 of Block 12 of said plat; thence Westerly along the Southerly line of said Block 12 to the Southwesterly corner of Lot 18 of said Block 12; thence Northerly along the Westerly line of said Lot 18, 125 feet to the point of beginning; being all of Lot 15 as platted and now vacated and the Northerly half of Oak Street (now vacated) contiguous to Lots 15, 18 and 17 of Block 12 of said plat of Lindsay Park Addition."

The redemption period shall be 8 months from the date of such sale.

Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 23rd day of March 1981, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 162 of Mortgages, Page 665, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of 26,329.32

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m., said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Fifteen per cent (15) per annum and all legal costs, charges or sums which may be paid by the undersigned necessary to protect its interest in the premises.

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 581 Mercer Blvd., Charlevoix and; Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981, and recorded May 5th, 1981, in Liber 152, page 887, Charlevoix County Records and; James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981, and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and; Robert W. Christoph, Rt. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 16th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17 and 18 of Block 12 of Lindsay Park Addition to the City of Charlevoix, according to the plat recorded in the office of the Register of Deeds for Charlevoix County, Michigan. ALSO, Beginning at the Northwesterly corner of Lot 16 of Block 12 of said plat of Lindsay Park Addition; thence Westerly, on the extension of the Northerly line of Lot 18, 50 feet; thence Southerly, parallel with the Westerly line of Lot 18, 158 feet to the center line vacated Oak Street; thence Easterly, parallel with the Southerly line of Block 12 of said plat, to the Northwesterly line of Mercer Boulevard; thence Northeasterly along the Northeasterly along the Northwesterly line of said boulevard to the Southeasterly corner of Lot 17 of Block 12 of said plat; thence Westerly along the Southerly line of said Block 12 to the Southwesterly corner of Lot 18 of said Block 12; thence Northerly along the Westerly line of said Lot 18, 125 feet to the point of beginning; being all of Lot 15 as platted and now vacated and the Northerly half of Oak Street (now vacated) contiguous to Lots 15, 18, and 17 of Block 12 of said plat of Lindsay Park Addition."

The redemption period shall be 8 months from the date of such sale.

Super-Secretaries at Chx. schools come to the rescue every time

by ANNE KELLY

"Please, I can only do twelve things at once," reads the caption on a poster hanging on the wall behind the secretary in the Middle School's central office. A typical day there begins with mass confusion and sometimes gets worse. The phone is ringing, students want lunch tickets, absences have to be checked out, a student with a minor injury needs to be taken care of. The efficient lady who has been sorting it all out for the past eleven years is Ginny Woods, Middle School secretary. With one hand on the intercom, the phone tucked under her chin, and a quick answer for the student, teacher or parent waiting at the counter – Ginny does it all and pleasantly at that.

Mrs. Woods is one of three fine building secretaries employed by the Charlevoix School system. All three: Ginny Woods, Middle School; Marge Coleman, Elementary School, and Joane Grubaugh, High School, handle a multitude of daily tasks and problems – some of which were probably never written into their contracts.

Some of the secretaries call substitutes for teachers, some schedule parent teacher conferences, start the coffee in the lounge and peddle pencils and lunch tickets. All of them spend a large part of their day on the phone, answering questions and requests. All of them dabble, by necessity, in minor first aid. All of them handle daily attendance, supervise student office aides, register new students and take or

NOTICE OF
MORTGAGE
FORECLOSURE
SALE

TO: BARBARA J. WHEELER OF ROUTE 1, EAST JORDAN, MICHIGAN; AND ALL PERSONS CLAIMING UNDER AND THROUGH HER:

Default having been made in the terms and conditions of a certain real estate Mortgage made by Barbara J. Wheeler of East Jordan, Charlevoix County, Michigan, as Mortgagor, to the First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated September 5, 1979 and recorded September 8, 1979 in Liber 154, pages 447-450, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage; Mortgage Note and agreement and supplemental thereto, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal, accrued interest and late charges, the sum of $15,235.74, and further default having occurred by reason of the nonpayment of real property taxes for the years of 1980 and 1981, contrary to the terms, conditions and covenants in said Mortgage contained, in the amount of $1,443.18, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan in such case made and provided, notice is hereby given that on Tuesday, February 22, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at the rate of 13.5 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may be paid by the undersigned, necessary to protect its interests to the premises. The premises to be foreclosed, described in said Mortgage, is as follows:

All that part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 8 West, lying West of the Pleasant Valley Road, EXCEPT THE FOLLOWING: Commencing at a point where the North ½ line intersects the Westerly line of Pleasant Valley Road for the point of beginning; thence Westerly along said North ½ line a distance of 400 feet; thence Southerly perpendicular to the North ½ line a distance of 200 feet; thence Easterly parallel with the said North ½ line to the Westerly line of Pleasant Valley Road; thence Northerly along the Westerly line of Pleasant Valley Road to the Place of Begining and being a part of the Southwest ¼ of the Northwest ¼ of Section 14, Township 32 North, Range 8 West; Wilson Township, Charlevoix County, Michigan.

The redemptive period afforded Mortgagor by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 13th day of January, 1983.

Obituaries

LEANORE DICKEN

Mrs. Leanore K. Dicken, 85, died Feb. 4 at the Emmet County Medical Care Facility in Harbor Springs.

Services will be Tuesday at 11 a.m. at the Stone Funeral Home. Dr. Wesley Hager of the Bay View Association and Rev. Robert Kyser of the Petoskey First Presbyterian Church will officiate. Burial will be in Sunset Hill Cemetery, East Jordan.

The former Leanore K. Kenny was born Dec. 13, 1897, in East Jordan, the daughter of John and Charlotte Kenny. She attended East Jordan schools and graduated from East Jordan High School in 1914. Mrs. Dicken then attended Michigan State College in East Lansing and graduated with top honors, receiving a B.A. degree in home economics. She also was very interested in music and while in college toured for three years as the lead soprano with the Michigan State College Opera.

Following graduation from college, she taught home economics at Petoskey High School until 1922 when she married Dick W. Dicken in East Jordan. The couple made their home in Boyne City and in 1943 moved to Grosse Pointe where Mrs. Dicken continued her teaching career in Detroit schools.

Mr. and Mrs. Dicken returned to this area following retirement in 1963 and Mr. Dicken preceded her in death in 1971.

Mrs. Dicken was a member of the First Presbyterian Church in Petoskey; a member and past president of the Petoskey Garden Club and a continued supporter of the Bay View Association where she had been a member of the Bay View Choir.

She is survived by one daughter, Mrs. Roger (Peggy) Schwer of Spring Lake; one son, John Dicken of Whitehall; five grandchildren; and four great-grandchildren.

The family suggests anyone wishing to honor the memory of Mrs. Dicken may do so by contributing in her name to the Bay View Association. Envelopes for that purpose are available at the Stone Funeral Home where the family will receive visitors from 2 to 4 and 7 to 9 p.m. today (Monday).

Group sessions to be offered for children of divorced parents

by DAVE KNIGHT

Divorce is an emotionally painful experience for all members of a family but its trauma sometimes leaves the deepest scars on the children involved.

It is hard for a young child to understand why parents divorce and that makes it all the more difficult for the child to cope with the situation.

In an effort to help local children of divorced parents deal with the problems and realities of their lives, Chip Counseling Center is organizing for them a new series of group sessions to be held at the Charlevoix Public Library.

Offered to children from 8 to 12 years old, the sessions are expected to begin in mid-March. One-hour sessions twice a week, probably Monday and Wednesday after school, are planned for a nine-week period.

Conducting the program will be Chip staff counselors Patricia Gaskin, M.S.W., A.C.S.W., C.S.W. and Robert Sell, M.S.

"Group therapy is more effective with children," said Mrs. Gaskin, "It is often better to work with children in a group because, in a one-on-one situation, they sometimes feel they are being singled out as part of the problem."

The idea for the program came from a member of the community who thought it would be helpful to address a problem faced by several families in the Charlevoix area. Although Mrs. Gaskin has had experience in such counseling in other places, the concept is completely new for Chip, she said, adding, "We really don't know quite what to expect,"

"We want to approach it with the philosophy that children with divorced parents can lead as productive lives as others," explained Mrs. Gaskin, "The program will concentrate on the positive aspects of their families."

One advantage of gathering the children in a group is the sharing that is hoped will take place. The sessions are meant to give the participants an opportunity to share with each other feelings, concerns and methods of coping.

A major goal of the program, said Mrs. Gaskin, is to help the children learn new communication skills and encourage them to generate a positive interchange on the realities of divorce.

"By helping the children develop a more realistic picture of divorce, we hope to dilute or diffuse the self-blaming that might be taking place," she said.

The sessions, to be held in the library's downstairs community room, will be highly structured with such activities as role playing, visual aids and graphic exercises.

For families wishing to take part in the program, Mrs. Gaskin will first arrange to meet with one or both of the parents along with the child. There will be a $4 fee per session per child to cover the two counselors' participation, however that amount is negotiable based on ability to pay.

If the series of sessions to be held this spring is successful, more will be scheduled in the future according to Mrs. Gaskin. She is also hoping that a "component" program for the parents will also evolve as the concept grows.

Those interested in registering or wanting more information may call 547-6551 or write to Patricia Gaskin, 723 Park Avenue, Charlevoix, 49727.

Pistol shoot held

In a pistol shoot held Tuesday, February 1 at the Charlevoix Rod & Gun Club, a team representing the host club outpointed a team from the Emmet County Sportsmens Club 831-791.

For the Charlevoix club, Jamie Waller had the high score of 286, Terry Gray had 280 and Frank Zednicek shot a 265.

Emmet County shooters were Bob Ball at 281 and Kurt Glaser and Steve Foster who each shot 255.

Other participants from the Charlevoix club were Bob Sharrow, Gary Pfane, Mike Westenbroek, Dave Plumm, Bill Blisset and Harold Lang.

The Emmet County club will host the next meeting of the two teams at their clubhouse February 10.

Super-Secretaries...

Continued from page 11

transmit messages for students and teachers.

Marge Coleman, who has been with the schools either part or full time for nearly 20 years, reports that just keeping the phone answered and kids supplied with pencils is a full time job. But Marge, like her Middle and High School counterparts, is an indispensable part of the clockwork that mades the Elmentary School tick. Lunch menus, notes to go home with the kids, ordering supplies, passing along messages – so the busy day goes, just as it does for the "senior set" at the High School.

"No two days are ever the same, and I've been here 16½ years," says Joane Grubaugh.

Ginny Woods received a call recently requesting that she measure a student's waist. Seems that Mom finally got a few minutes to sew a cheerleading skirt while the baby was at nap, and she needed the vital statistics. Joane Grubaugh, reports that she recently got frozen fingers trying to get chewing gum out of a young lady's hair with a spray freezing compound.

Such is the life of a school secretary. A combination of the mundane and zany. Added to the list of secretarial duties, Mrs. Grubaugh might add: adult education enrollment, selling tickets for basketball tournament games, scheduling games for the sports seasons one and two years in advance with the athletic director, and handling all revenues that go through the offices of the principal, assistant principal, and athletic director.

"We're here to help the kids." School is a learning experience for them in more ways than book knowledge alludes Mrs. Grubaugh. "Sometimes we have to say no to them."

Mrs. Woods would agree. She was recently heard turning down a loan request for a malt.

For Mrs. Grubaugh, the proudest moment is graduation, when the students she's gotten to know and love over the four years of high school, walk down the aisle for their diploma.

All the secretaries agree that the counselor, mother and confidant roles are built right into their job description. They can't help becoming attached to the students.

In retrospect, all the "mass confusion", the cookies set out for the administration meeting which mysteriously disappeared the preceding period, the tardy excuse that won "Excuse of the Year" (John is late for school because we couldn't find the school) – all these dilemmas are the comic relief that make their job worthwhile. They're also the things that make school secretaries say "T.G.I.F." and school personnel say, "T.G." for their Gay Fridays.

Court

District

The following cases were recently decided by Judge Harvey C. Varnum in the 90th District Court in Charlevoix.

William B. Stokes, 18, Boyne City, violation of city ordinance, $65 fines and cost.

Thomas P. King, 33, Charlevoix, no insurance, $205 fines and cost.

Richard A. Proctor, 20, Boyne City, attempted resisting and obstructing, $250 fines and cost, one year probation and community referral program, ten days community service program if unable to pay fines and cost.

Thomas A. Johnson, Jr., 31, Boyne Falls, impaired driving, $225 fines and cost, three days in jail, one year probation and community referral program.

Arthur K. Rouse, Jr., 40, place of residence not available, resisting and obstructing, preliminary examination waived, bound over to Circuit Court.

Circuit

The following new cases were filed in Circuit Court the week ending February 4, 1983:

Leonard Kenneth Bergwall vs. Secretary of State (reinstatement of drivers license).

Sheila Fiel vs. Randy Fiel (complaint for divorce).

Karrilee Ruth Lott vs. Walter Daniel Lott (complaint for divorce).

Lynda L. Gronseth vs. Edward Cole Gronseth (complaint for divorce).

Births

The following births were recorded last week at the Charlevoix Area Hospital:

A daughter, Shelly Diane Barraw, was born January 28 to Ramona and Robert Barraw, Jr. of Central Lake.

A daughter, Elizabeth Iamba Clare, was born February 2 to Kimberley and Mark Clare of Anchorage, Alaska.

A daughter, Leslie Renee Hoffman, was born February 3 to Sharon and Dennis Hoffman of Ellsworth.

Fire calls

The following fire calls were recorded by the Charlevoix Fire Department last week:

Saturday, February 2, 1:50 a.m.: False alarm at the Byron Jorgensen residence at Clipperview.

Assumed Names

The following assumed business names were recently filed with the Charlevoix County Clerk:

Promotional Management Services by Terry L. Edger, 432 Carson Ave., Charlevoix.

Yesterdays Treasures Amity Furniture Stripping & Restoration by Ernst & Associates, 207A Main St., East Jordan.

The Energy Place by Donald M. Snizik, 101 Park Ave., Charlevoix.

Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment plant.

Date	High	Low	Precip.
Jan. 31	25	14	.5" snow
Feb. 1	29	12	Tr. snow
Feb. 2	25	18	0
Feb. 3	20	10	4.0" snow
Feb. 4	13	8	.5" snow
Feb. 5	24	13	Tr. snow
Feb. 6	30	14	1.5" snow

Marriages

Marriage licenses were recently issued by the Charlevoix County Clerk to the following:

Bradley S. Warner, 22 and Debra M. Shields, 22, both of East Jordan.

Boy Scouts...

Continued from page 9

treasurers, Harry Ladd, the late Ormiston Bergeon and Lundteigen, a fact that points up the stability of the organization.

Boy Scout Troop 11 presently has 22 members.

Assistant Scoutmaster Honting and John Dixon are in charge of the Polar Bear or winter Campout for the troop.

The Cub Scout program in Charlevoix boasts 74 members assigned to eight dens under Cubmaster Mansen. Frank Rathjens is his assistant.

The dens are Den 2: Jeff Pines and John Borths, Den Fathers; Den 3, Cheryl Thayer, Den Mother; Den 5, Larry Campbell, Den Father; Den 6, Pam Smith, Den Mother; Den 7, Shirley Vorbeis, Den Mother; Den 8, Betsy Arnold, Den Mother and Den 9, Jacqui Habel, Den Mother.

David Phillips, Paul Stephen and Frank Rathjens are in charge of the Webelo Den composed of boys who will be entering Boy Scouts as their next advancement in Scouting.

Serving on the Cub Scout committee are Mrs. Donna Rathjens as chairperson; Robert Rajewski as Scouting coordinator, Carol Prevo, treasurer, Rev. David W. Yingling and Mr. Rathjens.

Listed above are the names of people directly involved in the Boy Scout program in Charlevoix.

However, there are those who are not listed. They are parents who, with 96 boys in the Boy Scout program in Charlevoix, add up to a wide circle of people.

"In other words, scouting is a family and community affair. It touches the lives of many people and it has a lasting effect on all it touches. I have in my troop today the sons of boys who were members of the troop when I took over as Scoutmaster 25 years ago," Scoutmaster Edwards said.

"Scouting is a learning process. From the time the littlest boy joins as a Tenderfoot until he reaches the pinnacle in Scouting, the rank of Eagle Scout, he is growing mentally as well as physically. He is learning new things and acquiring many new interests, all things that will make his adult life fuller and more rewarding", Scoutmaster Edwards said in summarizing what he feels scouting means to a boy.

Bringing all these things to Scouts during their years in the program is a large corps of volunteers who make it possible to offer a wide range of activities to all boys in the program.

The only compensation these volunteers receive is the knowledge that they have helped boys, to paraphase the Scout Oath, "do their duty to God and country and to the Scout Law; to help other people at all times; to keep themselves physically strong, mentally awake and morally straight."

Ski teams post two wins

Charlevoix Rayder girls and boys ski teams posted wins in triangular meets with Boyne City and Bellaire at Boyne Mountain Wednesday Coach Eric Lundteigen reports.

The teams are scheduled to meet host, Bellaire, Petoskey and Grayling at Schuss Mountain Friday.

In winning last week, Lundteigen said Charlevoix did very well as a team. The girls team, he said, has been consistent and steady all season. The boys team is just now coming into its own with all the skiers reaching their potential. "We've had more opportunity with more snow to get in the practice that we need" he said of the team.

In the girls meet, Christine Pace placed second in the slolam, Cheryl Aull, 5th; Noni Pace 6th; Kim Snizik, 8th; Sue Miller, 10th and Lenore Erber, 11th.

In the giant slolam, C. Pace was 3rd; N. Pace, 4th; Snizik, 7th; Erber, 10th; Miller, 12th and Aull, 17th.

In the boys' meet Jason Brindel placed second in the slolam; Pete Cockfield, 3rd; Tim Egler, 6th; Jim Morgridge, 8th; Matt Lignell, 9th and Mark Trimper, 11th.

In the giant slolam, Egler was 3rd; Brindel, 5th; Sam Supernaw, 6th; Trimper, 7th and Lignell, 11th.

In discussing Wednesday's meet, Lundteigen said Morgridge and Supernaw came through when they were needed. He went on to say that when some of the top skiers fell, the younger, less experienced skiers were able to come through. This resulted in both the boys and girls team winning the meet he said.

Middle Schoolers drop two

The Charlevoix Middle School dropped two games to Petoskey on the Northmen's floor Monday night, losing to the seventh grade 32-31 and to the eighth grade in an overtime game 44-40.

In a game that saw the lead change numerous times, Charlevoix took an 11-8 first period lead before trailing 12-11 at halftime and 22-13 going into the final period. Charlevoix outscored Petoskey 18-10 in the fourth quarter to cut Petoskey's winning margin to one point.

Dan Drury had 13 points and Chad DeVries 10 for Charlevoix. Jeff Linklater had seven for Petoskey.

In the eighth grade game, Charlevoix trailed 10-8 and 15-13 at the first two period breaks before tieing up the game 21-all at the end of the third period and 36-all at the final buzzer throwing the game into overtime.

Petoskey outscored the Charlevoix five 8-4 in the additional three minutes for the victory.

Terry Bonar had 10 for Charlevoix. Eric Beer scored 15 and Kyle Diamond 10 for Petoskey.

Charlevoix will host Petoskey in return games at 6 p.m. Monday, Feb. 14.

A-League scores

Action in the A League of the Charlevoix Independent Basketball League was marked by upsets Thursday as Townhouse was handed its first defeat of the season by Boyne Auto by a score of 72-66 and second place Depot Restaurant was defeated by Ellsworth I.D.C. by a score of 63-60.

A short-handed Townhouse quintet, playing without regulars Rick Leslie and Bud Klooster, fell victim to Boyne Auto as the latter overcame an 18-14 first period deficit to take command 39-36 at halftime and 57-46 at the third period to upset Townhouse by a six point margin.

Keith Fitzpatrick scored 19 points, Dale Tims 16 and Hal Price 14 for Boyne Auto. Steve Dunkelberg had 23 points, Don Trodanell 13 and Dan McKenzie 10.

Ellsworth I.D.C. trailed Depot Restaurant 15-14 and 39-34 before outscoring their opponent 17-11 to take a slim 51-50 lead before coasting to a three-point victory.

Larry Taylor, Neil Vandenberg and Tex Drenth had 12 points each and John Nachazel 10 for the victors. Dean Hicks had 22 points, Tim Hartwick 12 and Al Looze 11 for Depot.

Frosh cagers beat Gaylord, Kalkaska

The Charlevoix Rayder freshmen chalked up two wins last week, a 49-45 win over Gaylord Thursday and a 49-47 victory over Kalkaska Tuesday.

In the game at Gaylord, the young Rayders overcame a 12-8 first period deficit to tie the score 21-all at halftime and 33-all going into the final period when Charlevoix outscored the Blue Devils 16-12 for the victory.

Jody Putman poured in 22 points. Sean Ferguson added 11 and Marc Himebauch 10 for Charlevoix. Larry Smith had 10 points for Gaylord.

In the game with Kalkaska, the Rayders trailed 12-11, 27-23 and 34-31 by quarters before catching fire and outscoring the Blue Blazers 18-13 in the final period to pull out the victory.

Putman had 20 and Tim Plagge 10 for the victors. Mike Prokup had 23 for Kalkaska.

Charlevoix will close out its season with two home games, Cheboygan on Thursday and St. Ignace on Monday.

Names In The News

Air Force Airman **CHARLES F. PETERSON**, son of Okey M. and Isabel A. Peterson of Ellsworth, has completed the Army's construction machine operator course at Fort Leonard Wood, MO.

During the course, students were trained to operate and maintain heavy construction equipment and received practical experience by actually working at construction sites.

He is a 1980 graduate of Ellsworth High School.

JULIE E. HEDDLE, daughter of Herbert B. Schofield of Petoskey and Carol Dutcher of Charlevoix, has been named to the fall semester Dean's List at Northern Maine Vocational Technical Institute where she is enrolled in the Practical Nurses program. Mrs. Heddle and her husband Tom are former residents of Charlevoix and now live in Fort Kent, Maine.

Teri F. Weidner and Dusty Rhodes, two Boston women recognized respectively in the communication-marketing and meeting planning-special events fields, have formed a professional association. Weidner is the daughter of Eleanor Freedman and the late Gordon Freedman of Charlevoix and is a Charlevoix High School graduate.

Under the aegis of Conventures, Inc., Weidner, vice-president of marketing, and Rhodes, who remains president of the firm, are planning new directions for the seven-year-old company. Current services offered clients in convention and meeting planning, special events organization, and sports activity management will be expanded to include the full range of communication and marketing services. While leading that effort, Weidner's role will also encompass new business development which includes the marketing of Bayside Exposition Center.

Optimism for their venture is founded in Rhodes' and Weidner's combined experience. Weidner was most recently affiliated with Urban Investment & Development Co. where she was manager of communications for the Copley Place project since 1979.

Plum honored upon retirement from DNR

by FRAN MARTIN

Melvin L. Plum, left, admires a plaque presented to him as a retirement gift by Frank Opolka, right.

Melvin L. Plum, a veteran of 34 years with the Law Enforcement Division of the Michigan Department of Natural Resources, was honored Friday night at a retirement dinner at the Harbour Inn.

On hand for the event were officials from the department, fellow workers and others who had retired with whom he had worked most of his adult life, commercial fishermen and members of his family.

Plum, who at the time of his retirement was the oldest employee in years of service in the Law Enforcement Division of the D.N.R., was presented with a plaque by Frank Opolka, Chief of the Law Enforcement Division. Other officials who spoke briefly were Ransom Hill of Roscommon, regional supervisor, Patrick Pyers of Gaylord, district supervisor, and his immediate superior, Victor Patrick, who is in charge of the division's patrol boats and who served as master of ceremonies.

In behalf of his fellow employees and friends he was presented with a ski package of skis, boots, and poles so he may enjoy one of his hobbies, cross country skiing.

Plum joined the Law Enforcement Division of the D.N.R. in 1949 when commercial fishing was a major industry in Michigan.

For him it was a "natural" at the time because he'd been interested in commercial fishing from the time he was a kid. "When other kids were caddying at the golf course, I was spending my summer and after-school hours at the waterfront, working in the net sheds and around the docks for one commercial fisherman or another."

He was out of high school a short time (he graduoted from the Charlevoix High School in 1940) when World War II interupted any plans he had and he spend the next four years aboard a mine sweeper in the North Atlantic, the Mediterranean and the Pacific. On his return, he did some commercial fishing and when a job with the D.N.R. came up he took it. In the interim he had married the former Beverly Fisher and they had the first of their three children.

"When I joined the Law Enforcement Division of the D.N.R., Charlevoix had two industries, commercial fishing and the resort business" Plum said of the community et that time. He went on to say that in those years as many as 1100 commercial fishing licenses were issued by the xtate. "Not everyone fished for a living but for each license issued, it meant lake trout whitefish, perch anc chubs were being taker in large and small numbers from the lakes and shipped to markets as far away as Chicago and New York."

With the advent of the lamprey eels and depletion of stock in the Great Lakes, gill nets were outlawed in the mid-1970s and, with the successful planting of salmon, sports fishing came to the forefront.

Today only trap nets for the impounding of whitefish are legal and the number of commercial fishing licenses has dropped to no more than 50. "In the southern part of Lake Michigan were commercial fishing was big business 30 years ago there are probably no more than three licenses issued today" Plum said.

As the trend in commercial fishing has changed, so has law enforcement he said. At one time, there were four patrol boats in the waters bordering the state of Michigan, today there are two; one that works the Michigan shoreline on Lake Snperior and the northern part of Lake Michigan and a second that patrols the western shoreline of the state on Lake Michigan and that on Lake Huron.

"It'x a whole different world as far as fishing is concerned. Where once commercial fishing and the resort business were Charlevois's' cheif industries, It's now the resort business which has come to include sport's fishing and small industry" Plum said of the changes he had seen dnring his 34 years with the D.N.R.

Had he ever had any serious problem as a member of the Law Enforcement Division as it related to commercial fishing? "If yoo mean vlioence, no. I've seen lots of arguing and shouting and a fair number of threats but never anything beyond that" he answered.

Plum said he has no definite plans for the immediate future now that he's retired. "We might do a little traveling. There are things I want to do around the house but nothing unusual."

What do you plan to do with the commercial fishing artifacts you've gathered through the years? "I don't know" he answered to that question. "I had hoped that Charlevoix, which had been a commercial fishing center for so many years, migbt establish a marine museum but it doesn't look as though that's going to happen. I wish they would for I have many things I would donate to such a museum."

Attending the retirement dinner were Mrs. Plum and their three children, Mr. and Mrs. David Plum of Tyler, Tex., Mr. and Mrs. Gary Plum of Traverse City and Mr. and Mrs. Merrilt (Mary) Clark of Reed City. The couple also have 11 grandchildren.

Others were Mr. Plum's brother, Calvin J. Plum of Long Lake, Minn., his sister-in-law, Mrs. Roy (Marjorie) Plum of Stanton, Mr. and Mrs. Wayne Anderson of Traverse City and Mr. and Mrs. Burton Kadlec of Thompsonville.

Variances okayed by Planning Commission

Plans revealed for $5.9 million complex

by DAVE KNIGHT

"It's a difficult task in front of us. If we roll up our shirt sleeves together, we can make it happen."

With that, developer Joel Altman announced to a gathering of community leaders last Wednesday that his firm, Altman Development, Inc. and Waters Edge, Inc. owned by John McGoff, will seek to build a $5.9 million hotel and conference center in downtown Charlevoix.

The project is planned for sites now occupied by the former Finn Lumber building, the former Northwest Marine building and the former Fochtman Oil Company, all of which are presently vacant.

Also included in the plan are the renovation of the Weathervane Restaurant and the Velkommen House at the corner of Michigan Ave. and West Dixon Ave.

At its meeting Monday night, the City Planning Commission gave unanimous approval to seven zoning variances sought by the developers.

Variances included, for the Conference Center, a 10-foot frontyard setback and an 8-foot sideyard setback; for the Parking Structure, a 17-foot frontyard setback, a 10-foot sideyard setback and a 25-foot rear yard setback; for the Restaurant, a 5-foot sideyard setback and an approximate rear yard (channel side) setback.

Plans for the restaurant include an outdoor patio area which the planners asked remain five feet from the sidewalk along the channel.

The commission also heard concerns voiced from residents of Thistle Down Road including Thomas Duke and Richard Donaldson who asked that the main access to the hotel be from the highway and not their road.

According to City Manager Robert Hunt, no parking variances were required by the project.

The variances will next be taken up by City Council at their February 21 meeting. The Charlevoix County Economic Development Corporation will also discuss possible involvement that day.

The hotel itself is designed as a vee-shaped, three-story structure gradually stepped toward Round Lake. From the entrance and lobby at the point of the vee, people will look across a court yard with swimming pool to the Round Lake shoreline where the Bay Queen will be docked in the summer months.

Fifty-eight units are planned which, when combined with the adjoining facilities of the Weathervane Terrace and the Lodge, will make over 100 units available in the immediate area.

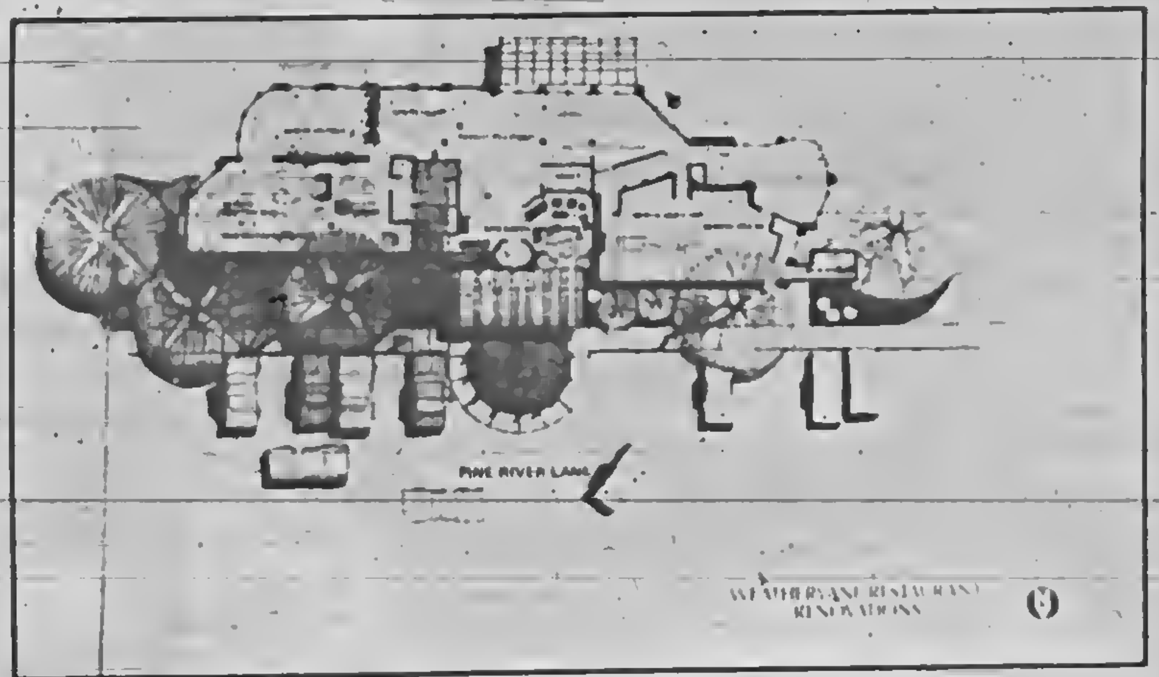
Across the street, the former Fochtman building is to be reconstructed into a conference center and adjoining parking deck. The conference center design accomodates about 250 people and features kitchen facilities.

Renovation of the restaurant will include the moving of the bar area downstairs to open up more dining area on the main level. According to Altman, the restaruant will be leased to the Shelby operation of Traverse City which presently operates Bower's Harbor, Wanigan's and other restaurants.

Altman told the Wednesday gathering that the complex could mean the addition and-or retention of up to 150 total jobs.

"This project gives all of us, developers and citizens, an opportunity to create an anchor for the community. We can take what God has given us and 'polish the brass' ", said Altman.

Phasing of the project, he said, will depend on financing methods. Financial assistance is expected to be sought from the U.S. Department of Housing and Urban Development in the form of Urban Development Action Grants, County EDC bonding and city tax abatement.



Flight station bonding will be put to vote

by DAVE KNIGHT

Charlevoix County voters will have an opportunity on April 7 to decide whether the county shall borrow $750,000 to build a flight service station to lease to the federal government, should the Federal Aviation Administration choose the Charlevoix Municipal Airport as the site for the facility.

At their regular meeting last week, the Charlevoix County Board of Commissioners voted 4-2 to place the bond proposal on a special election ballot.

Charlevoix County is one of 14 cities and counties that are vying for the flight station which will consolidate eight existing stations into one to serve the Lower Peninsula and eastern part of the Upper Peninsula. A site adjoining the City of Charlevoix Municipal Airport has been selected for application to the FAA.

County Planner Larry Sullivan told the board that a decision by the FAA on the site of the station is expected ax early as this May. He added, however, that the decision might come as late as mid-summer.

Opposing the motion to hold an election were commissioners Thomas Breakey and Donald Smith.

Breakey reported that he received an unfavorable response from the East Jordan City Council when he appeared before that body to seek direction on the matter. He also criticized the spending of county funds for the special election when there is no assurance the county will be chosen as the site for the flight station.

Costs for the election were estimated at $10,000 to $14,000. The motion to hold the election, made by commissioner Oral Sutliff, dictates that the funds be allocated from the county's contingency account.

Smith was critical of the FAA's handling of the bidding for the station saying, "I'd like to meet the federal bureacrat who came up with this system." He added that thousands of dollars are being wasted by communities applying for the station and holding millage elections.

Already, Otsego County voters gave almost 2-1 support to a millage backing their bid and Emmet County has committed county funds for a building if selected. Antrim County has also expressed interest in the station.

Sullivan responded to Smith's concerns saying, "The FAA is not out to wring every last penney out of the county. They are just looking for the best possible proposal."

Former commissioner and local plumbing contractor John Haggard agreed with Sullivan pointing out that, in the building trades, large amounts of money are routinely spent on bids with usually a very small percent eventually being accepted.

Arthur Ranger, who has coordinated the Charlevoix County bid for the station, urged the board to follow through on the special election.

Said Ranger, "The idea of holding an election is a good one because it gives you a chance to first publicly debate the pros and cons of the proposal and then later work out the details for the financial package."

Although there will be no reference on the April 7 ballot to an amount or duration of millage involved, Sullivan assured the board that a millage will be neccessary to retire the general obligation bonds and that those details will be worked out by the board should voters indicate support for the proposal.

Breakey accused the backers of the flight station bid of "putting the cart before the horse."

"Education of the public has to come before any election," he said.

Ranger agreed and suggested that the board organize a campaign to get information on the flight station proposal out to residents of the county.

Also lending support for the bid was Charlevoix Mayor Kenneth Stafey who emphasized the importance of obtaining the heavily computerized flight station in a time when high technology firms are expanding rapidly.

"This is the way of the future," he said.

FAA specifications for the flight station call for a 10,000 square foot building, estimates for which, according to Sullivan, range around $620,000. The station would employ about 60 in highly skilled positions, most of whom would be transferred from other locations.

Winter Cup planners hope for more snow

Charlevoix's Winter Cup 1983 is scheduled for this weekend and fingers are being crossed that there will be snow on the ground for the many outdoor events planned.

A warming trend early this week was resulting in heavy snow melt but, as of Tuesday, the show is to go on.

On Saturday, February 19, the Bahnhof will conduct a "Learn to Cross Country Ski" clinic on the City golf Course next to Duffy's Restaurant at 11 a.m. Free rentals will be available as will be free hot chocolate and coffee. At 1 p.m., "Fun Races" will be held at the same location with prizes from the Bahnhof. The day's activities close with various festivities at local restaurants and lounges.

On Sunday, registration begins at noon for downhill ski races at Mt. McSauba. Dual slalom races will be held for the following age groups: Bunny Race, 7 to 9 years, 10 to 12 years, 13 to 15 years and 16 to 18 years. At about 3 p.m. bump jumping competition will be held.

Boss to relate unique story of Harsha House

by ANNE KELLY

There is a story about Harsha House and Dale Boss, local history buff, will be be sharing part part of it with area children this Saturday.

The visit to Harsha House will be the seventh in a series of eight library activity hours for children held on Saturday mornings at 11:00 a.m. Children will be meeting at the library and then walk to Harsha House, Charlevoix's Historical Society Museum, where they will be exposed to a little bit of Charlevoix - times past.

The home which houses the museum, was built in 1891 and never changed hands out of the Harsha family until it was bequeathed to the Charlevoix Historical Society in 1979. It is located between the Congregational Church, where Anne Harsha's mother had served as church treasurer and the First State Bank where her father had been on the Board of Directors for many years. Dale Boss would say that the coincidences leading to the actual willing of the property to the Historical Society as well as its location, which seems to be "spiritually" protected in the familial sense have snown "Divine intervention from the very beginning."

The beginning of the story has to do with the man who has a knack of dreaming and making things happen.

"When I was a kid," Boss recalled, "about 12 years old, it was 1943. I worked for Mr. Harsha that summer cutting the grass around the Harsah House for 40 cents an hour."

He also tended to the lawn of the Harshas's Boulder Park cottage. A native of Charlevoix and born in the house on State St., Mr. Harsha later went to Detroit with the Michigan Consolidated Gas Co. Sometime later, he took over the family home and used it as a summer rental. When Boss was 14, he continued to keep contact with the family as he was delivering milk door to door and the Harsha's were on his route.

Many years later, Boss became a member of the Charlevoix Historical Society and subsequently was elected to the Board of Directors of that organization. It was as a member of the Society, that be took it upon himself to seek the Harsha House as a possible site for a future museum. The house was one of several possibilities, but Boss had a feeling that it was just right for the purpose.

The next task was to make an offer on the house which was of necessity below market price. Boss pleaded his case with the elderly Anne Harsha making promises to preserve and restore the home to its original quality all the while maintaining the three operational apartments which would provide continued source of revenue for the property. One fortuitous provision was that which guaranteed the family's carekeeper, Jim Flynn, continued residence in the building for life with no increase in rent.

When Boss first approached Miss Harsha, she "needed time to consider" the possibility. Shortly thereafter she became ill and required hospitalization, the "deal" never having been consumated.

Whether through the workings of "Divine Providence", or the influence of Jim Flynn who apparently convinced Miss Harsha that Boss was "for real" and a man of his word, the property was actually bequeathed to the Historical Society, not sold. The time between Boss's request and the knowledge that the property had been willed upon Miss Harsha's death to the Society was exactly 65 days.

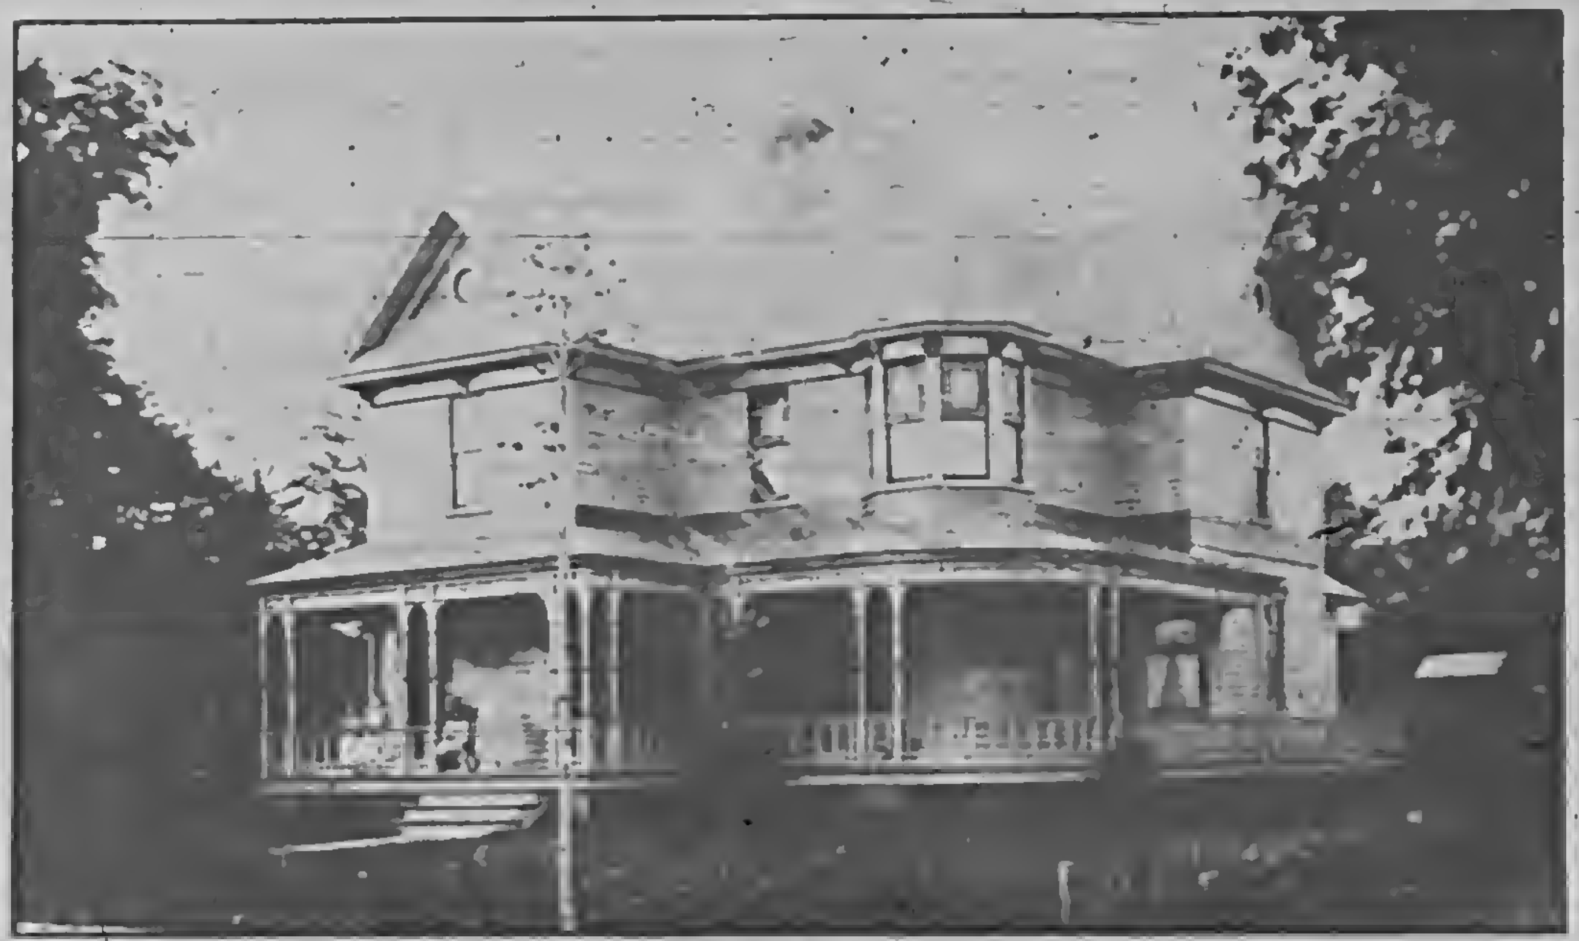
Since then, Boss has personally supervised the restoration of the home scrupulously adhering to the promises he had outlined to Anne Harsha. In 1980, a 1700 square foot L-shaped addition was constructed by Boss and his two sons. The $6,000 a year revenue collected from the three rentals are fed back into the building.

Boss's dream is to have the end product of his efforts result in the restoration of an authentic 1891 Charlevoix home as it should be. Boss who spent 76 hours on the house in the last three weeks, says that any artifacts or photographs included in the museum have to be authentically "Charlevoix". Regarding reconstruction, Boss is committed to the idea that "everything we do, we do with a 100 years in mind - with quality so that future generations can see what we've done."

As for the story about Harsha House, Boss believes that it's a story "of mutual trust. You have mutual trust and you can do just about anything."

Why, one mught ask, does Boss concern himself with such projects?

In the words of the dreamer who planted and maintained 30,000 petunias last year and is aiming for 43,000 more this year, "if you love a community, you'll put your whole heart and soul into it. And I really love Charlevoix."



Harsha House looked like this in its prime.

Names In The News

Marine Lance Cpl. **ANDREW M. BIRDSALL**, son of Frank M. and Doris E. Birdsall of East Jordan, has returned from a deployment to Fort Pickett, Va.

He is a member of 3rd Battalion, 6th Marine Regiment, Camp Lejeune, NC.

During the four-week deployment, his unit participated in training exercises including platoon and company level operations, a fire support coordination exercise and a combine arms exercise.

●

Marine Cpl. **THOMAS B. REDDING**, son of Phyllis J. Thomas of East Jordan, recently participated in "Aviation Element Exercise (AVELEX) 1-83", "Anti-Air Warfare Exercise 2-83" and a Marine Corps Combat Readiness Evaluation.

He is a member of Marine Air Control Squadron Five, Marine Corps Air Station Beaufort, S.C.

Army, Navy, Air Force and Marine Corps units participated in the exercises which were designed to provide a realistic combat environment.

The squadron received a grade of 97 percent on the readiness evaluation.

●

Sixty-nine students were named on the Dean's List for the Fall semester at North Central Michigan College by Robert Vratanina, Dean of Instruction. To win a place on the honor list, a student must have earned at least 12 credit hours in the semester and maintained a grade point of at least 3.5 on a 4.0 scale.

Of the group, 20 earned a perfect 4.0 including **TIMOTHY BOROWIAK** of Charlevoix High School.

Others that earned a place on the Dean's List included **CHERYL BROWE, BONNIE JOHNSON, KELLY ELZINGA** and **MICHAEL PAUL OF** Charlevoix High School.

Will inform seniors on dentistry

A special program relating to dentistry to which all senior citizens in the community are invited will be presented by Dr. David Strawbridge and his staff at the main lounge of Pine River Place at 7 p.m. Tuesday, Feb. 22.

The program entitled "A Beautiful Smile is Ageless" will feature a film "Options, Dental Health in the Latter Years".

Dr. Strawhridge will also present some new restorative procedures in dentistry followed by a question and answer period.

The program will be presented on the first floor lounge opposite the front entry. All senior citizens in the area are invited to attend.

The address of Pine River Place is 210 W. Garfield, Charlevoix.

Glen's SAVE-SHARE REACHES $1,000,000 MILESTONE!

Glen's Save-Share is a program which was started in June of 1972. It was set up to enable community organizations and groups a means from which they could earn money for projects that would help improve the communities in which we live.

Any registered group can simply save Glen's Markets and Family Centers green register tapes, add them up and turn them in to their local Glen's Market to have shared with them 1% of the qualified total. The qualified total being the total minus any beer, wine, or cigarette purchases and sales tax.

Where does the money come from...?? The dollars are taken out of Glen's Advertising budget. As Save-Share grows, Glen's Markets slowly cuts back on their advertising.

For further details for your group or organization, please contact the Store Manager or Assistant Store Manager at your local Glen's Market and Family Center.

Industrial medicine is valuable specialty of Dr. Harry Custer

Dr. Harry Custer consults with Medusa Cement Company Environmental and Safety Engineer Bill Nall, right, during a recent visit to the plant.

Twelve years ago this region of northern Michigan had a significant problem with employee absenteeism, safety, and workmen's compensation claims.

Today this same region has one of the best employee health and safety records in the state.

A major reason has been the introduction of Industrial Medicine and its safety programs in local industries.

Dr. Harry Custer, staff physician at Charlevoix Area Hospital, serves as a consultant to 18 plants in Charlevoix and Antrim Counties. He is a member of the American Occupational Medical Association, specializing in General and Industrial Surgery, as well as Occupational and Environmental Medicine.

He defines occupational medicine as concerned with providing a healthy and reliable work force in a safe and healthy environment. This, he says, involves a positive attitude throughout the employee's life style. It also involves employee protection with proper safety clothing, safety devices, ventilation, lighting and other adjustments of the work place.

"Ergonomics" is a key, the physcian stresses, explaining the "ergonomics" is the "science of adjusting the job to the worker."

He recalled an example to demonstrate this approach: One group of employees were working all day with their hands above their heads and had many complaints of arm and shoulder pain. This was easily corrected by building a platform, so the employees hands were at waist level.

William Deneen, Occupational Safety Consultant for the State of Michigan has worked closely with Dr. Custer to evolve a successful program for business and industry in this region.

When such a program is begun the first step is an assessment of the work environment. Following that, an accupational health and safety program is established with a worker safety director. Dr. Custer reviews all chemicals and potentially hazardous substances and recommends ways of avoiding unnecessary exposure for the workers. The initial survey also reveals what safety equipment is recommended - from safety shoes to respirators.

Education, which Dr. Custer says is an important on-going part of such a program, includes classes in standard first aid and treatment for all employees.

Once a program is in place, pre-employment examinations are given to each job applicant, including complete physical examinations, hearing, vision and pulmonary function tests, by a certified technician. Whatever special tests are required for particular job placements are also included, such as blood tests, and chest and back x-rays. If an employee is currently seeing another physician, consultation is obtained to determine if any limitations are necessary.

Sometimes Dr. Custer's work leads to Ellory Queen type mysteries. Once an employee thought fumes she was inhaling at work were causing her a breathing problem. After considerable digging and elimination of causes, it was discovered that a hair tint she was using caused the irritation. Another worker was found to be sensitive to a chemical on carbonless copy paper, a condition which is very rare.

Occupational Medicine, Dr. Custer explains, also involved hiring the handicopped and placing them were they will be productive and not exposed to unsafe conditions. Also, federal and state laws and rules of OSHA and MIOSH (federal and state safety agencies) must be taken into consideration to protect the employer and the employee.

Dr. Custer thinks that the good record of health and safety in local industry for this region is in large part due to good communication between labor and management. He says such communication is essential to make the programs work.

"All incidents at work must be reported and educational programs must be continuous," he explains.

"My primary responsibility is to the employee," the physician stated. "After all, a better work force invites industry to this area to ensure a better standard of living and a greater tax base for the whole community."

Obituaries

WILLIAM R. MORGAN

Funeral services for William R. Morgan, 52, retired U.S. Air Force veteran, were held Saturday at the Winchester Funeral Home. The Rev. R. Dale Magoon of St. Mary's Church officiated. Interment was in St. Mary's Cemetery.

Mr. Morgan died Feb. 7 at St. Joseph's Hospital in Ann Arbor following a lengthy illness.

Born in Alliance, Ohio, Aug. 21, 1930, Mr. Morgan joined the U.S. Air Force in 1950 and served in the Korean Conflict and in Vietnam as a radar electronics technician. He was awarded the Air Force Accomendation Medal with four oak leaf clusters. He was attached to the U.S. Air Force installation at Bay Shore prior to his retirement in 1976. On Feb. 23, 1963, he was married to the former Martha E. Erbacher at Lisbon, Ohio. They had made their home in Charlevoix since 1974.

Besides his wife, he is survived by two daughters, Patricia and Melinda of Charlevoix; two sisters, Dr. Patricia K. Morgan-Renaud of Houston, Tex., and Mrs. Earl (Mary Ellen) Pinkerton of Sebring, Ohio.

NORMA M. ROBINSON

Funeral services for Mrs. Norma M. Robinson, 81, who died Feb. 9 at the Charlevoix Area Hospital, were held Saturday at the Winchester Funeral Home. The Rev. Charles Hastie of the First Congregational Church officiated. Interment was in Brookside Cemetery. An Eastern Star service was conducted at the Winchester Funeral Home Friday evening.

The former Norma M. Ward was born in Boyne City Feb. 3, 1902, and lived in various southern Michigan communities before going to Detroit where she was married to Elmer F. Robinson Jan. 29, 1923. In 1961 they moved to Suttons Bay and in 1973 they came to Charlevoix to make their home. She was a life member of the Victoria Chapter No. 290 of Redford and attended the First Congregational Church.

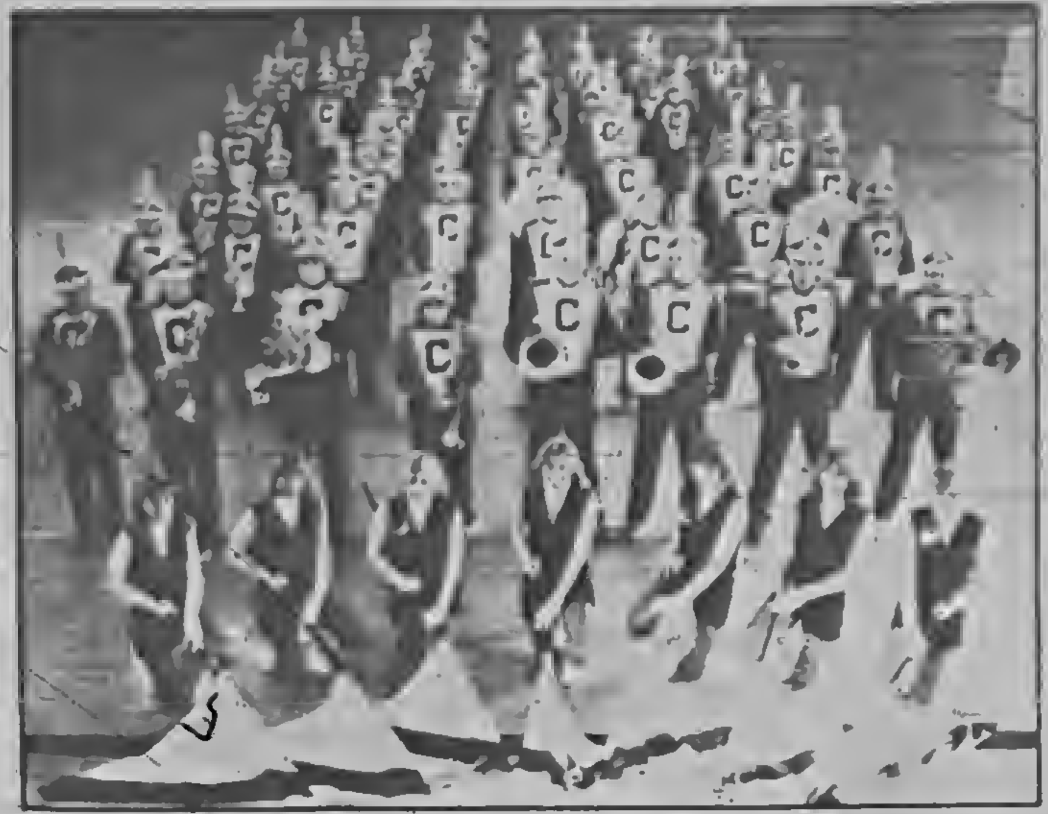
She is survived by her husband and one son, Philip N. Robinson of Helsinki, Finland.

CARL F. KORTH

Funeral services for a former resident, Carl F. Korth, 97, who died Feb. 9 at Grand Traverse Medical Care Facility where he had been a patient for three years, were held Saturday at the Winchester Funeral Home. The Rev. James Plackner of Bethany Luthern Church officiated. Interment was in Brookside Cemetery.

Mr. Korth was born in Pierce, Neb., Jan. 14, 1890. During World War I he served with the U.S. Army. On Oct. 5, 1927 he was married to the former Josephine A. Jacobsen. They lived in various midwestern states until coming to Charlevoix in 1948 to make their home. Mrs. Korth preceded him in death Aug. 7, 1959. He was a member of the Leslie T. Shapton Post, No. 226 of the American Legion. Mr. Korth had gone to Traverse City four years ago to make his home with Mr. and Mrs. Michael Ready, former residents, prior to entering the medical care facility.

He is survived by two sisters, Mrs. Frieda L. Bergeson and Helen Korth of St. Paul, Minn.



Band Boosters plan Bean Soup Dinner

Times may be tough, but the Band Boosters will help with a hearty Thirteen Bean Soup dinner (both traditional and spicy) on Friday evening, February 25 at the high school cafeteria - from 5 to 7 p.m.

Bring the whole family for dinner and stay to enjoy the basketball games afterwards. Tickets from any Band Booster are $2.50 each in advance and $3.00 at the door, or $10 for a family. Children under 8 years of age are free.

We know you'll enjoy the soup and will want the recipe, so we will have available special packages of beans with the recipe for the soup.

Proceeds from the dinner will be used for ongoing needs of the band program sweaters for the Middle School Bands, to establish a band camp scholorship fund and a portable band shell.

If you have any questions please call 547-9314 or 547-6170.

Opinion

Knight on the Town

Name game

by Dave Knight

After inspecting a couple dozen renderings, floor plans and sketches which were explained by developers, engineers, landscape designers and architects at Wednesday's splashy unveiling of the $6 million hotel complex planned for the north side of the Pine River Channel, Josh Barnes still looked puzzled.

"But what's it called?" he wanted to know.

Good question.

To date, the proposed development described in detail elsewhere in today's paper remains officially nameless. On the street, it is most commonly referred to as "The Project" or "The North Side Thing:"

Let's face it; variances, rezoning, financing, and grantmanship aside, the most important task facing the developers of this complex is choosing a creative but marketable name for it.

How about the "Charlevoix Grand"? What's good enough for MGM, Amway and Mackinac Island is certainly good enough for Charlevoix.

"Pine River Place" would have been perfect but that one is already taken - and by the elderly housing project on Garfield Avenue, half across town from the channel no less. Why not work out a trade? Let the hotel be "Pine River Place" and the senior housing be the "Garfield Grand"?

If the developers are inclined toward truth in advertising and don't mind a big sign, an appropriate name might be "The Ambitious New Hotel And Conference Center That Will Revitalize The Charlevoix Tourist Industry And Provide Many New Jobs For Local People But Which Is Going To Cost One Heek Of A Lot Of Bread."

Since the Bay Queen dinner boat will be berthed at the site, some other possibilities arise. How about "The BQ", (not to be confused with the DQ up the street.)

Atlanta named its downtown center "Peachtree Center". Might the counterpart in Charlevoix be aptly titled "Petunia Place?"

One national lodging chain, Motel 8, has used a number to avoid thinking up a name. Should the Charlevoix developers take the same cop out, we may be stuck with "Hotel Six Million".

If the developers want to stick with the French theme used by other projects such as LaCroft or LeHavre but still retain an identification with the properties that have occupied the location for years, we may see "LaFinnlumber" or "LaFochtmanoil".

Why, you say, make an issue out of such a trivial matter as finding a name when the real story is the great economic boost this project could give our community?

Because I know what will result if the developers don't step in soon with a suggestion and the media is allowed to christen the unnamed project.

"Hotel Doe."

Bring back the flair

Dear Charlevoixians,

This week I was privileged to see first hand, many well done drawings of the proposed re-development of the north hill in Charlevoix. I was very much impressed with what the developers have in store. Last fall, Mike Gibbons, local attorney, asked the Historical Society for support in the renovation of the old Adam's house located at the top of the south Bridge Street hill in Charlevoix. We did support him, and the council had to put smoked glasses on to bend some of the laws to make this restoration possible. The building is now a beautiful asset to the community.

On the north side of town, the site of the old lumber company is a historical site, but due to the fact that none of the buildings are original, there is no worthwhile reason to preserve them.

I have been very concerned with the demise of various Charlevoix businesses, and the sight of so many closed buildings downtown. If you were an outsider, driving through from the north, as you come down through town, you would observe the following closures this winter: the house at the top of the hill on the corner, the former Fochtman Oil Company building, the Weathervane building, the lumber company buildings on the left. Across the bridge, there are seven store fronts in the first block. Only one is occupied this winter. The first block on the east side of the street as you are travelling south, has eight store fronts, with only 3 occupied. As you can see, an outsider would wonder what is happening. We know the economy is bad, but we can do something about it. Let's do it before we become a ghost town in the wintertime. We must realize that we have to get into the year around resort business if we are going to survive.

This is where you and I, as citizens, enter into the picture. We can tell our council people, planning commission, zoning board members, and others, that we would like to take a positive attitude and see if we can help promote trade here, and make our town flourish.

The proposed development will bring back some of the flair that the town used to have. We were able to accomodate many people in town, and today we have only a portion of the capacity needed. Last summer, the Bay Queen people had to send visitors to other towns, for our rooms were soon used up. We need more accommodations. When you consider the capacity we had in previous years, you will get a clearer picture of what has disappeared. The Inn Hotel could sleep around 400; the Beach Hotel, and 11 adjoining guest houses, 450; the Bartlett, 50; the Tower Hotel and annex, 75; the Alhambra, 100; the Lakeview Inn, 150; the Hallett, 100; the Belvedere, 350, the Blue Post Inn, 20, and there were many rooming houses, also. Today we have a selection of lovely motels, but all in all, not enough capacity.

In the past, every time something comes up that is new, a person's first and normal reaction is "We don't want anything to change Charlevoix". This is our natural feeling, but we should really consider how much this new development would enhance our town. We need a boost in our economy, and these plans are designed to add much beauty to this area, as well as accomodations, parking spaces, and a conference center. Their landscaping ideas are very nice, including placing green plantings on the north (street side) of the Weathervane. Turning into Pine River Lane would be a treat, with the plantings which are planned for both sides of the street by the Weathervane and the building across from it. When you would drive up the north side hill, instead of having a building crowding the sidewalk as now, there would be lovely trees, shrubbery and flowers, surrounding the new hotel, which will bring some of the grandeur back of some of the former hotels we had.

I'm sure there are many local laws, zoning ordinances, and regulations regarding these plans, which will need to be bent, amended, and changed in order to accommodate the proposed development. Let's all be positive and see what we can do to help expedite this beautiful addition rather than take negative attitudes. Charlevoix needs help, and we should be most thankful that a development of this nature is proposed for our town.

In this past year, I have visited other prosperous towns in Michigan, and those which are making it, are the ones who are actively bringing in new ideas and innovations to attract year around tourism. It's all we've got left, and with the God-given beauty we have here, we can let others enjoy it, and also bring a prosperity to all of our businesses, including the other motels and restaurants in the area.

History is being made every day. It is something that has happened as recently as last week. You cannot stand still. We will either go forward or backward. Let's be like the old pioneers were and "go out and do it."

Marilyn Boss
President
Charlevoix Historical Society

Clockwise

Exciting news

by Bob Clock

THE PROPOSED hotel-convention center-restaurant complex on the old Finn Lumber, Charlevoix Oil and Weathervane Inn properties on Pine River Channel and Round Lake is the most exciting news to hit Charlevoix in years.

The project — if it comes to pass — will cost almost $6 million, much of which, hopefully, will go into local construction wages.

When it is completed, the center will provide about 150 year-round jobs.

THE PROJECT, unfortunately, is still in swaddling clothes. Zoning changes and setback variances must be secured from the city; federal grants must be nailed down; and Economic Development Corporation bonds approved and sold.

The Altman Development Corp., owned by Joel Altman, and Water's Edge, Inc., owned by John P. McGoff, are the developers. Work is expected to begin as soon as funding is available.

Charlevoix has needed such a center for years, but previous moves in that direction have died aborning. Back in the 1960s plans were announced to build a convention center on the site of the former Beach Hotel at the foot of W. Dixon Avenue. The center was to have a revolving restaurant on the top story, as I recall.

Then a feasibility study showed that such a center could not expect to turn a profit for several years and the project was dropped. La Croft condominium — minus the revolving restaurant — was erected on the site instead.

WHY ARE REVOLVING restaurants so appealing? There must be some good psychological reason, but I believe there is a certain mystique about moving and eating at the same time. Remember the dining cars on the trains of yore and how much fun it was to sit down to a T-bone steak while downtown Sacramento slipped past your window?

SPEAKING OF new developments, I received a telephone call over the weekend from a young lady conducting a survey on whether Charlevoixans would make use of an exercise club, if one were established.

I am not exactly into physical punishment — but I think it would be a grand idea if a swimming pool were included.

The young lady did not mention a pool specifically, but she did say there would be exercise equipment, courts for various games like handball and tennis and a sauna and whirlpool. The swimming pool was my idea, but judging from her response, I wasn't the only one to broach the subject.

Why a pool? Swimming is good exercise for the entire family. Furthermore, I think anyone living in our watery environment should perfect his swimming skills. Of course, we have beaches aplenty in Charlevoix, but the swimming season is so short in these northern climes that we really don't have much of an chance to develop top-notch swimmers.

Unhappily, swimming pools cost more to construct and maintain than handball courts.

A correction

Last week's *Courier* reported that LexaLite Internation and its LexaLite Signal Products division broke the $1 million mark in combined sales for the year 1982. The record combined sales, more accurately $1,080,000, were, however, for the month of January, 1983, not the year 1982. Also, LexaLite was not successful in the acqusition of American Louvre as was reported.

Tourney support appreciated

To the Editor:

Charlevoix High School hosted the conference wrestling tournament Feb. 5, an opportunity available only once every eight years. I would like to thank everyone involved with the planning and execution, especially the Charlevoix Boosters, Ted Miller who was tournament director, Norm Probert as head scorer, Mike and Pat Carland, Ed Lindsey, Clem Olach, the High School Cheerleaders, former wrestlers, parents, and friends of the sport of wrestling.

The tournament was a success and all of the participants and spectators left Charlevoix after the "long day" with only good things to say about our hospitality and our high school.

Again I would like to thank everyone for their support and goodwill towards not only the sport of wrestling but for their support of sports in general in the public school system.

Greg Bryan
Coach

Out of the Blue

Virginity is never "lost",
Is proper argument—
For who can't say to this very day
Just where and when it went?
— Amos

Weddings

Mr. and Mrs. Joseph F. Seidel

Lewke-Seidel

The American Community Chapel in West Berlin, Germany was the setting for the November 11 marriage of First Lieutenant Gail Louise Lewke and First Lieutenant Joseph Forrest Seidel.

She is the daughter of Mrs. Marguerite Louise Lewke, 531 Ontario St., Buffalo, New York and the late Mr. Glen Otis Lewke. He is the son of Lieutenant Colonel and Mrs. Francis J. Seidel, U.S. Army Retired, Charlevoix.

One hundred fifty guests attended the 2 p.m. ceremony in the chapel which was decorated by peach roses with white carnations and greens. Father (Colonel) Conrad Loftus, Catholic Chaplain, conducted the double ring ceremony.

The bride was given in marriage by Major Timothy Gilbert, U.S. Army. She wore a gown made by herself and her mother from off-white matted satin with lace bodice and sleeves, with high collar and beads from her grandmother's bridal veil. The gown was chapel-length with fingertip veil and blouse. She carried a bouquet of silk flowers, peach roses with dried flowers and baby's breath.

Maid of honor Miss Debbie Gustoff wore a peach gown with lace collar and cuffs and carried a small version of the bride's flowers. Bridesmaid Mrs. Renee Smith wore an off-white dress with lace collar and cuffs and also carried a small version of the bride's flowers.

Best men were First Lieutenant Bruce Empric of Buffalo and First Lieutenant Andy Smith, both of who serve with the U. S. Army in West Berlin.

Music was provided by the church organist who played the wedding march from Tannhauser while a member of the choir sang.

A reception was given by the bride and groom at the British Officers Club of West Berlin. A rehearsal dinner was hosted by the groom's parents in Zehlendorf, Berlin. Following the wedding the couple flew to Mas Palmas in the Canary Islands off the coast of West Africa for their honeymoon.

The new Mr. and Mrs. Seidel are both members of the U.S. Army stationed in West Berlin. She is with the Provost Marshal's Office and he serves in the office of U.S. Command.

Bill Ratigan, author, lecturer and operator of the Dockside Bookstore in Charlevoix, is photographed here with Bill White, of Franklin, Michigan. But there's more to the story than that. They hadn't seen each other since 1933, the year both of them graduated from the University of Tennessee at Chattanooga. At Chattanooga Ratigan was quarterback on the university football team, and White was editor of the student newspaper and manager of athletic teams. Both have since written numerous books, Ratigan on "Soo Canal" and White a national best-seller, "By-Line: Ernest Hemingway". But everytime White has visited Jim and Nancy Grant in Charlevoix, Ratigan was out of town. Finally they were at the same place at the same time, on Bridge Street and a picture was taken as they reminisced about Chattanooga 50 years ago.

Newcomers Club sets activity dates

The Newcomers Club of the Charlevoix Welcome Wagon has announced its activities for the coming weeks and have issued an invitation to any newcomers to the community to join the group.

A spokesperson for the group, in explaining the purpose of the organization, said the membership which ranges from young matrons to retired homemakers, have one thing in common...all have re-located to the Charlevoix area. Activities have been planned to include the interests of all members and are all voluntary. "If you see nothing that interests you, come to a meeting and suggest what you'd like. Perhaps we have been trying to start your activity without success and you are just the person to make it succeed" she continued.

Activities have included potlucks for couples or families, progressive dinners, craft demonstrations, and fund-raisers for various charities.

The next meeting will be a dutch treat luncheon at Nanny's Old Place at Ferry Ave. and Stover Rd. at 1 p.m. Tuesday, Feb. 22.

Regular monthly meetings are usually held on the last Tuesday of the month. This month is an exception.

Mrs. Ronald (Lisa) Winchester has organized several craft events. The next of these will be held at her home on Tuesday, March 8, when Judy Crook will demonstrate making the Ukranian eggs in time for the forthcoming Easter holiday. There will be a $2.00 registration fee. Registrations must be made by March 1 by calling Mrs. Winchester. Mrs. Crook will provide the materials. Those attending the 2 p.m. meeting are advised to bring an egg carton to carry the egg home in.

There will be a demonstration of basket weaving on March 19 and Candlewicking on April 12.

Those interested are asked to call Jean Davidson at 547-4636 to arrange a St. Patrick's Day potluck scheduled for 7 p.m. March 18 at the Davidson home.

Engagements

Ann M. Healey and Jeffrey R. Leipprandt

Healey-Leipprandt

Mr. and Mrs. Bruce Healey of 1100 State St., Charlevoix, have announced the engagement of their daughter, Ann Marie Healey, to Jeffrey Robert Leipprandt. He is the son of Mr. and Mrs. Robert Leipprandt, 333 N. Circle Dr., Williamston, Michigan.

A June 4, 1983 wedding is planned at the United Methodist Church of Williamston.

The bride-to-be is a 1980 graduate of East Jordan High School and is presently attending Michigan Technological University at Houghton where she is majoring in Accounting. The groom, a 1979 graduate of Williamston High School, is also a student at Michigan Tech and is majoring in Chemistry.

Name new Humane Soc. officers

Jan Ballard was elected president of the Charlevoix County Humane Society at the annual election of officers held recently at East Jordan.

Deanne Rothenberger was elected vice president; Barbara Wheeler of East Jordan, treasurer, and Donna Wojan of Charlevoix, secretary.

The Humane Society is a county-wide organization which meets regularly the second Wednesday of every month at alternate sites in East Jordan and Charlevoix.

The next meeting of the organization will be held March 9 at the community room of the Charlevoix City Hall.

Sports

Cagers climb to 16-0 season mark

The Charlevoix Rayders advanced two more games closer to an undefeated season last week with easy victories over the Harbor Springs Rams on Tuesday and the Cheboygan Chiefs Friday.

The pair of wins puts the Rayders at a 16-0 overall mark for the season and 11-0 in Michigan-Huron Shores action. With three games left on the schedule, it would take nothing less than total catastrophe for the Rayders to lose the conference title. Going into this week's action they hold a two-game lead over St. Ignace.

In Tuesday's game played at Harbor Springs, some hot shooting, especially from the free throw line, helped the Rayders pull out a 75-58 win. Craig Klooster hit ten of eleven free throws while Tim LaBlance, George Smith and Chris Putman sank 2 for 2, 3 for 3 and 4 for 4 respectively from the line.

The Rams kept within striking distance in the early going, trailing by only two points, 18-16, at the end of the first quarter. By halftime, however, the Rayders were pulling away. With ten of the team's 19 free throws converted coming in the second quarter, the Rayders took a 44-32 advantage into the locker room.

At the end of the third quarter, the game was pretty well decided with Charlevoix comfortably ahead 62-46.

Klooster led all scoring with 24 points; Smith had 21, Putman 12, Doug Sloan 10 and LaBlance 8. Klooster led in assists with 7 and Putman was top rebounder with 10.

Against Cheboygan Friday night, Klooster again led in individual scoring with 24 but amazingly, after going 10 of 11 at the line against Harbor, he missed all six free throws. In fact, the whole team that had been so hot from the line the preceding Tuesday; somehow lost its touch; the Rayders hit only seven in 18 attempts.

The game itself was never in question. Charlevoix held the Chiefs to only three baskets in the first quarter and led at that point 18-7. By halftime it was 34-17 and at the end of the third quarter it was 58-29. With Coach Dave Smith substituting freely, the Rayders coasted to a 71-45 rout.

Other individual scoring included Putman with 18, LaBlance with 14 and Smith with eight. Not a single Cheboygan player cracked double figures.

Two members of the Charlevoix Girls volleyball team try to block an opponent's shot in action last week.

B-League basketball scores

Staley Hardware remained in first place in B League standings of the Charlevoix Independent Basketball League after posting wins over the Air Force and First State Bank.

In action Monday, Staley Hardware won over Air Force 53-33; Carlson Plumbing defeated Wojan Aluminum 49-38 and First State Bank downed Medusa 69-53.

On Wednesday Carlson Plumbing defeated Kit Carson-Charlevoix Garbage 51-42; Staley Hardware defeated First State 60-57 and Medusa dumped Wojan Aluminum 63-41.

Air Force played Staley's to a 6-6 first period tie before Staley's went ahead 24-18 at halftime and 40-20 going into final period. Terry Smith had 16 points and Larry Skippergosh 10 for Staley's J.R. Greenway scored 13 for Air Force.

Wojan Aluminum held Carlson Plumbing to a 10-10 first period tie and slim 20-19 halftime and 30-29 leads before the plumbers took the game by an 11 point margin. Randy Holecheck canned 18 points and Jim Marsh 14 for the victors. Stan Martin had 14 for Wojan's.

First State Bank trailed Medusa 13-12 at the quarter before jumping to a 35-20 halftime lead and 51-31 going into the last period.

Tim Carey with 28 points and Kevin Swanson with 13 lead the scoring for the bankers. Jim Parrish had 24 and Doug Winnell 10 for Medusa.

Carlson Plumbing with a 9-3 record headed Carson-Charlevoix Garbage 13-10 only to have their opponent take over 23-21 at halftime. The advantage was short-lived, however, as Carlson's took a 37-32 lead before going on to win 51-42.

Bill Annon had 17 and Randy Holecheck 12 for Carlson's Dale Boss scored 18 and Mike Crain 11 for the losers.

In their meeting with First State Bank, Staley Hardware trailed 17-10 at the quarter and 31-30 at halftime before finding their stride and going ahead 50-41 going into the final period.

Terry Smith led the scoring with 21 points followed by Mark Schaberg with 14 and Larry Skippergosh with 10. Tim Carey with 27 points and Ike Boss with 10 were top scorers for the bankers.

Medusa had to overcome deficits of 11-4, 27-19 and 37-35 to defeat Wojan Aluminum 63-41. Jim Parrish had 17 and Rob Hilton 12 for Medusa.

A-League basketball scores

Townhouse edged Village Inn Pizza by a one-point margin, 58-57 and Depot Restaurant defeated Boyne Auto 73-58 in games played in the A League of the Charlevoix Independent Basketball League Thursday.

Village Inn Pizza in the cellar of the A League gave the league-leading Townhouse team a close game, trailing at the quarter 16-12, going ahead 29-28 at the half and losing ground, 41-35 at the three-quarter mark before out-scoring Townhouse 22-17 in the final period to trim the Townhouse win to one point at the buzzer.

Dan McKenzie with 20 points, Don Trojanek with 14, Bernie Ward with 11 and Kevin Griffen with 10 led the scoring for Townhouse. Vincent had 17 and Jerry Skippergosh 14 for V.I.P.

In the Depot Restaurant-Boyne Auto game, Depot Restaurant trailed their opponent 14-12 and 30-28 at the quarters before going ahead 48-44 at the three quarter mark and going on to win.

Dean Hicks with 30 points paced the scoring with Tom Beyer adding 19 and Dave Williams 12. Jim Kondrat had 18, Rob Spender 13 and Keith Fitzpatrick 10 for Boyne Auto.

V-ball team loses two

The Charlevoix Rayder girls' volleyball team dropped games to East Jordan and Grayling in action during the past week according to Coach Walt Drenth.

The scores of the games of the East Jordan matches were 15-8, 15-0, and 15-4, 15-7.

The Charlevoix JV squad won two of three games by scores of 15-10, 10-15 15-8 to win their match.

In the meet with Grayling, the Charlevoix team lost 15-7, 15-3 and 11-15, 15-9, 15-11 with the JVs dropping all three games, 15-12, 15-4, 15-13.

Charlevoix will be at Rogers City Wednesday and at Gaylord Monday to take on the Gaylord St. Mary's team in a non-league game.

Skiers place third out of five teams at Schuss

The Charlevoix Rayder ski teams placed third among the five teams entered in the meet at Schuss Mountain Friday according to Coach Eric Lundteigen.

The Charlevoix boys' team scored 93 points and were behind Petoskey with 38 and Roscommon with 79. Grayling had 110 and Bellaire 129.

In the girls' meet, Charlevoix was third with 81 points. Petoskey with 33 points won the meet followed by Grayling with 68. Bellaire had 138 and Roscommon 188.

In the boys' meet Pete Cockfield was fourth, Jason Brindel seventh; Tom Egler ninth in the giant slalom.

Matt Lignell was eighth in the slalom.

In the girls' meet Cheryll Auli came in seventh; Sue Millier ninth in the giant slalom.

Christine Pace placed fifth; Karen Snisik eighth in the slalom.

Shooters fall to Emmet club

The Emmet County Sportsmens Club was the easy winner in a pistol shoot held at the Emmet County clubhouse with a team from the Charlevoix Rod & Gun Club.

The final score was 1532 for Emmet and 1430 for Charlevoix. High individual scores were 273 by Riley Turcott of the host club and 272 by Charlevoix's Terry Gray.

Other Charlevoix scores were Frank Zednicek 240, Bill Blissett 215, Harold Lang 239, Gary Plane 218 and Mike Westenbroek 246.

For Emmet County it was Bob Ball 261, Steve Foster 255, Jerry Glaser 260, Kurt Glaser 226 and Carl Mumma 257.

Basketball Contest results

Pal Potter of Charlevoix missed only one game in last week's *Courier* Basketball Contest and, by virtue of coming closest on the tiebreaker, won the first prize of a $15 gift certificate.

Joe Potter, of East Lansing, took the second place prize of a $10 certificate.

MSU Alums plan annual dinner this weekend

The annual dinner of the "Top of the State Michigan State University Alumni Club" will be held on February 19, 1983, at Stafford's Bay View Inn, Petoskey. The event will begin with a 6:30 p.m. Happy Hour, followed by dinner at 7:30 p.m. This will mark the Club's fifth year as an official MSU alumni organization, and by charter, represents Charlevoix and Emmet Counties.

Featured program speaker will be Chuck Webb, Executive Director of the Michigan State University Alumni Association. Mr. Webb will update the Club on current happenings at MSU, as well as the structure of the University's Alumni organization. Green and white door prizes will be awarded to lucky participants.

All alumni, anyone who attended MSU, and friends of the University, are welcome to attend the dinner. For information on reservations contact one of the following: John Rohe of Petoskey, 347-7327; Sally Tabor of Charlevoix, 547-9364; Fred Mulhuaser of Petoskey, 347-1329

Snowmobile safety course offered to county youngsters

A snowmobile safety course for the certification of young people over the age of twelve will be offered on two Saturdays this month in the Boyne City City Hall Auditorium. The instruction will be given by Deputy David Hague of the Charlevoix County Sheriff's Department and arrangements made by Charlevoix County 4-H Youth Programs.

This sixteen hour course of instruction is required by law for anyone over twelve and under sixteen who wishes to operate a snowmobile. The course is free to participants.

All county youth are welcome to attend. In order to complete the necessary class time and testing for a certificate and finish while there is still plenty of snowmobiling weather, two full Saturdays will be used. Hours are 9 am to 5 pm, February 19 and 26. Those attending are asked to bring their lunches, both days.

Anyone wishing to register for the snowmobile safety course or having questions should call the 4-H Office (Cooperative Extension Service) at 582-6232. Registration can be made by calling and leaving your name by February 18. The Sheriff's Department and 4-H both urge teens who need instruction and certification to take advantage of the opportunity to learn proper procedures and methods. That will not only place young operators within the law, but make snowmobile operation safer and better in Charlevoix County.

NEXT GENERATION: *Nicole Marie Bunting, was two years old February 13. She is the daughter of Gregg and Elaine (Putman) Bunting and the granddaughter of Mr. and Mrs. Enno Bunting of Ananosa, Iowa and Mr.s and Mrs. Ron Putman of Charlevoix.*

Chx. Properties, Real Estate Place to merge

Gene Steele, president of Charlevoix Properties, Inc., has announced a merger between his company and The Real Estate Place of Charlevoix, Inc.

The new firm will be named Charlevoix Properties-The Real Estate Place, Inc. The offices will be located in the present location of the Real Estate Place at 101 Park Avenue in Charlevoix.

"The combining of our two offices will help to better serve our clients and customers in several ways," according to Steele. "Our expanded sales staff with different areas of expertise will be a big benefit to those seeking a full service real estate office. We will be able to provide our customers with relocation services, appraisals, investment counseling, real estate development, home building and, of course, marketing of all types of real estate."

"We are all pleased with the joining together of these two companies and are looking forward to serving the people in the Lake Charlevoix area with our three offices in Charlevoix, Boyne City and East Jordan."

WRC to hold workshop in Charlevoix

A workshop entitled "Transition into Single Life" is planned by the Women's Resource Center of Northern Michigan, Inc. This workshop is for those people in the process of adjusting to separation and-or divorce. As in so many occurrences in daily life, one goes through stages in a divorce: anger, grief, acceptance, etc. The workshop will go through these stages and teach how to make that "transition back into single life."

Charlotte Kline, staff person at the WRC, will be starting the workshop on Monday, February 21 at her home in Charlevoix from 7:00 - 10:00 p.m. The cost of the workshop is $20 (There is also a workbook to purchase for $5.00) per person.

Oddfellows increase cribbage lead

The Oddfellows increased their lead to 1,083 points over the Masons in the annual cribbage tournament which has passed the halfway point according to Robert C. Heise, tournament secretary.

Gerald Johnson had the high score for the Masons, 953 points. Bill Beggmann was high for the Oddfellows with 949 points.

CARDS OF THANKS 072

IN BEHALF of our daughter and sister, Mary Kathleen, we would like to give thanks to all her friends who shared in her short 4½ months by your many prayers, concerned thoughts, warm visits and personal help. With so many good people behind her, she could have had no better care. Since Mary Kathleen had no Godparents, we consider all who gave of themselves her honorary sponsors for the love you so freely gave to her. Jim and Peggy Spang, Danny, Amy, Meg and Ann.

ANNOUNCEMENTS 070 AND NOTICES

NORTH CENTRAL MICHIGAN COLLEGE CLERICAL TRAINING PROGRAM
(Including Computer Data Entry and Word Processing)

North Central Michigan College has a limited number of openings in a twelve week Clerical Upgrading Program.

The program is designed to improve skills in typewriting, secretarial procedures, office practice, business math, business communications, business machine operation, computer data entry, and word processing with the micro computer. Each enrollee may receive 20 hours of college credit upon successful completion of the program.

Classes will begin at 8:30 a.m. on Monday, March 14, 1983 in Room 144 of the Main Classroom Building at NCMC. Classes will meet from 8:30 a.m. until 4:00 p.m. five days per week. The last day of class and presentation of certificates will be June 2, 1983.

To be considered for acceptance a student must request an application for admittance from Special Programs, Room 109, North Central Michigan College, Petoskey 49770, before February 20, 1983. Students must have some typing skills (35 wpm) for entry.

The cost of the program will be:

Tuition 120 Cr. Hrs.	$440.00 Emmet County Residents $560.00 Non-Residents
Registration Fees	$ 40.00
Books & Supplies	$150.00
Special Program Fee	$ 43.00

A limited number of dormitory room and board applications will be accepted.

Various forms of financial aid may be available to students through CETA, Vocational Rehabilitation and other agencies.

North Central Michigan College is a fully accredited public community college.

COUNTY OF
CHARLEVOIX
ALYNN L. D'ANGELO BALL,
a married woman,
Plaintiff,
vs.
COLLEEN TITSWORTH
and
MICHIGAN NATIONAL BANK - NORTH, a Federally chartered banking association,
Defendants.
File No. 82-38708-CH
NOTICE OF SALE

Pursuant to Judgment and Order for Sale rendered by the Honorable Martin B. Breighner, Circuit Judge, dated December 13, 1982, in favor of Plaintiff and against Defendants, which Judgment as of the date hereof remains unsatisfied, the following described property situate in the City of Charlevoix, County of Charlevoix, Michigan, will be sold by the undersigned at public auction to the highest bidder on the 21st day of March, 1983, commencing at 1:00 o'clock on the afternoon at the main entrance of the Charlevoix County Building, City of Charlevoix, County of Charlevoix, Michigan, that being the building where the sessions of the Charlevoix County Circuit Court are held.

The property to be sold is more particularly described as follows:

Land located in the City of Charlevoix, County of Charlevoix, State of Michigan, described as: A parcel of land located in Section 26, Town 34 North, Range 8 West; beginning at a point on the West line of Burns Street 445 feet North of the North line of Dixon Avenue; thence North 136 feet; thence West 156.25 feet; thence South 136 feet; thence East 156.25 feet to the point of beginning; being a part of Government Lot 2, Section 26, Town 34 North, Range 8 West.

As made and provided by law, the length of redemption from said sale is six (6) months.

DISTRICT COURT FOR
THE COUNTY OF
CHARLEVOIX
HURD, a Michigan co-partnership, consisting of WALTER J. HUFFORD and RICHARD SAYWARD,
Plaintiffs,
-vs-
ROBERT PARKER, d-b-a NEPTUNE ENTERPRISES
Defendant.
File No. 83-0008-C
ORDER ALLOWING
SERVICE OF
PROCESS BY
SUBSTITUTED MEANS

At a session of said Court held in the City of Charlevoix, County Building, on the 1st day of Feb., 1983.

PRESENT: HONORABLE HARVEY C. VARNUM, DISTRICT JUDGE.

Plaintiff's Motion for an Order allowing process to be served upon the Defendant, ROBERT PARKER, d-b-a NEPTUNE ENTERPRISES, pursuant to DCR 105.8, having been heard, and the Court finds that service of process in the matter provided under other rules cannot reasonably be made upon the Defendant.

IT IS THEREFORE ORDERED that service of process may be made upon the Defendant by the following means:

1. Publishing a copy of an Order to Answer in the newspaper of general circulation at least once a week for four (4) consecutive weeks.

2. Mailing by first class mail a copy of the Order to Appear to the Defendant at the following address: Rte. No. 2, Loeb School Road, Charlevoix, Michigan 49720.

NOTICE OF
MORTGAGE
FORECLOSURE SALE

Default having been made in the terms and conditions of a certain mortgage granted by Gordan D. Boydston and Joyce J. Boydston, husband and wife, 501 Mercer Blvd., Charlevoix, MI, Mortgagor, to Northwestern State Bank, A Michigan Banking Corporation, 101 River St., Boyne City, MI, Mortgagee, dated the 23rd day of March 1981, and recorded in the Office of the Register of Deeds in the County of Charlevoix on the 9th day of January, 1978 in Liber 162 of Mortgages, Page 665, on which mortgage there is claimed to be due at the date of this Notice for principal and interest, the sum of 26,929.32

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof;

NOW THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on the 21st day of February, 1983, at 10:00 o'clock a.m., said mortgage will be foreclosed by a sale at public auction, to the highest bidder at the main entrance of the County Building, Charlevoix County, Charlevoix, Michigan 49720, of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with the interest thereon at Fifteen per cent (15) per annum and all legal costs, charges or sums which may be paid by the undersigned necessary to protect its interest in the premises.

The Mortgage Foreclosure Sale will foreclose any and all interests in and to the below described property Gordan D. Boydston and Joyce J. Boydston, 501 Mercer Blvd., Charlevoix and; Charlevoix County State Bank, Charlevoix, MI, pursuant to a Mortgage dated, May 4th, 1981, and recorded May 5th, 1981, in Liber 182, page 887, Charlevoix County Records and, James L. Boydston, Rt. 1, Wauseon, Ohio 43567, pursuant to a mortgage dated, September 29th, 1981, and recorded October 2nd, 1981, in Liber 163, page 895, Charlevoix County Records, and; Robert W. Christoph, Rt. 2, Charlevoix, MI, pursuant to a mortgage dated April 8th, 1982, recorded April 16th, 1982, in Liber 165, page 202, Charlevoix County Records.

WHEREAS, said lands and tenements more particularly described as follows:

"Lots 16, 17 and 18 of Block 12 of Lindsay Park Addition to the City of Charlevoix, according to the plat recorded in the office of the Register of Deeds for Charlevoix County, Michigan. ALSO, Beginning at the Northwesterly corner of Lot 16 of Block 12 of said plat of Lindsay Park Addition; thence Westerly, on the extension of the Northerly line of Lot 16, 50 feet; thence Southerly, parallel with the Westerly line of Lot 16, 158 feet to the center line vacated Oak Street; thence Easterly, parallel with the Southerly line of Block 12 of said plat; to the Northwesterly line of Mercer Boulevard; thence Northeasterly along the Northeasterly along the Northwesterly line of said boulevard to the Southeasterly corner of Lot 17 of Block 12 of said plat; thence Westerly along the Southerly line of said Block 12 to the Southwesterly corner of Lot 18 of said Block 12; thence Northerly along the Westerly line of said Lot 16, 125 feet to the point of beginning; being all of Lot 15 as platted and now vacated and the Northerly half of Oak Street (now vacated) contiguous to Lots 15, 16, and 17 of Block 12 of said plat of Lindsay Park Addition."

The redemption period shall be 6 months from the date of such sale.

NOTICE OF
APPLICATION FOR
PERMISSION TO
ESTABLISH AND
OPERATE A FULL
SERVICE BRANCH

Notice is hereby given that First State Bank of Charlevoix, 111 State Street, Charlevoix, MI., 49720 has made application with the Commissioner of the Michigan Financial Institutions Bureau for permission to establish and operate a full service branch, at 225 Main Street, (Community of St. James) St. James Township, Charlevoix County, Michigan. The application was accepted for filing by the Financial Institutions Bureau on February 14, 1983.

Any person who desires to protest the application must file a written notice of protest with the Commissioner of the Financial Institutions Bureau, P.O. Box 30224, Room 300, Third Floor, Law Building, Lansing, Michigan 48909 and with the applicant not later than March 5, 1983. The application is on file with the Commissioner and may be inspected during regular business hours.

This notice is published pursuant to section 30 of the banking code of 1969, as amended, being section 487.330 of the Michigan Compiled Laws as amended by act No. 524 of the Public Acts of 1978, which sets forth the procedures for processing applications and the manner in which protests may be made.

ADOPTED GRANDPARENT OF THE DAY *was Mary Ann Cudd who is shown above with St. Mary's third grader Marie Lovell. St. Mary's Grandparents' Day was held last week as a culmination of Catholic Schools Week.*

To present sacred drama

The Covenant Players will present a program of contemporary sacred drama this Wednesday, February 16, at the Community Church of God, 202 W. Hurlbut Street in Charlevoix, according to Rev. Walter G. Hastings, pastor. The public is invited at no charge.

Covenant Players was born in September 1963, when the first production of the Christian Dynamics series was presented. Prior to this time the director, Charles M. Tanner, had sought to develop the idea of drama in the church for years. The opportunity came with the commission to write and produce three one-act plays dealing with three themes relating man to God. The plays were received with enthusiasm and other churches wanted similar presentations. To fulfill these requests Covenant Players was established.

Some 64 presentations were made that first year, jumping to 364 the next. The year following Covenant Players went on their first road trip to Seattle, Washington, where the reception was so good that their first permanent touring group was formed. Its success can be measured by the fact that since that time, they have grown to over 40 full-time touring units and have given more than 250,000 performances in all 50 states, all the free countries in Europe, Canada, Australia and New Zealand and 10 countries in Asia.

The founder and director of Covenant Players is Charles M. Tanner. A man of may talents. Tanner was born in Salamanca, New York and completed his formal education at Columbia and Syracuse Universities. He is a full member of the Screen Producers Guild of Hollywood and a signatory participant to the Title Registry Bureau of the Motion Picture Association of America.

He has completed over 600 properties, for both screen and stage, in addition to numerous short stories and novels.

Tanner's life-long participation in the church laid the groundwork for his total involvement in the covenant Players ministry.

Official Notice

The Eveline Township Board of Review will meet at the township hall on Ferry Road, March 8, 1983 at 9:00 a.m. for the purpose of reviewing the 1983 Assessment Roll.

PUBLIC NOTICE
1983
CHARLEVOIX COUNTY

Section 1, Act No. 206 of the Public Acts of 1893, as amended, being Sections 211.1 to 211.157 of the Compiled Laws of 1948, is amended by adding Section 34a to read as follows:

Section 34a. The equalization director of each county shall prepare a tabular statement each year by the several cities and townships of the county, showing the tentative recommended equalization ratios and estimated multipliers necessary to compute individual state equalized valuation of real property and of personal property. The county shall publish the tabulation in a newspaper of general circulation within the county on or before the third Monday in February each year and furnish a copy to each of the boards of review in the county and to the state tax commission. All notices of meeting of the boards of review shall give the tentative ratios and estimated multipliers pertaining to their jurisdiction. The tentative recommended equalization ratios and multiplying figures shall not prejudice the equalization procedures of the county board of commissioners or the state tax commission.

Local artists to hold special Winter Cup exhibit

Off Bridge Street Artists Gallery featuring the art works of 15 area artists located at 108 Clinton Street will open for a special exhibit and sale to coincide with the Annual Winter Cup Festival, a spokesperson for the group has announced.

Entitled "Snow Escapes", the exhibit will feature new art works by several of the cooperative's members as well as the works of others.

New works to be exhibited will include jewelry by Linda Beers Aydlott and Diane Huber; photography by Jerry Aydlott and Nancy Carey; stained glass by Jennifer Almas; prints and pottery by Sue and Russ Bolt; paintings by Dan Cote and Stephen Kendall; pottery by Charles Kocky, Tami and Ray Bier and Jo Moffit; weavings by Nancy Riggs Koucky and Sari Ruthven and bronze sculptura by Scott Nelles.

The gallery, located at 108 Clinton St., will be open from 7 until 10 p.m. Saturday and on Sunday afternoon.

The area artists have extended an invitation to all to come in out of the cold and view the art work on exhibit and for sale.

The gallery is open every Saturday from 10 a.m. until 5 p.m. during the winter months.

Off Bridge Street Artists, a cooperative of professional artists living and working in northwestern Michigan, opened its doors in June. Fifteen area artists working a wide variety of media are involved in the cooperative.

Keeping fit this winter?

by ANNE KELLY

If you find yourself whiling away these cold winter days by eating bon-bons and watching the soaps or by getting a bad back sitting at your Monday through Friday desk job, better shape up Charlevoix! Folks out there are trimming the tummies, firming up the flab and toning up the tarsels. It's your's for the signing up and stick-to-it-iveness.

Outdoors

Outdoors, most exercise is free as it is invigorating. Runners, thanks to a mild winter in December and January, have had plenty of opportunity to pound the pavement. Even in the not-so-mild weather, you might have seen some never-say-it's-too-cold runner chugging along under scarf and mittens.

At first sign of snowfall, cross-country ski enthusiasts head for Windmill Farm, Pa-Ba-Shan Lane, Norwood, Belvedere or Chicago Clubs, or right out their back doors.

Downhill skiers, have been finding plenty of man-made if not always nautral base snow at neighboring ski resorts since Christmas. Here at home, Mt. McSauba has been pleased to announce the Mt. McSauba Downhill Ski School this season. Ike Boss, Recreation Director, reports that 88 students of the slopes meet on Monday, Wednesday and Thursday nights under the tutelage of Instructor Karen Doughty or one of her assistants.

Weather permitting, the ice skating rink located at the High School, is a fine place to take the kids, or to forget that you're not a kid any more and go to it, figure eights and all.

There are those who swear by walking through rain, sleet or snow. Some hop on a sled. There are even those who were spotted windsurfing in the harbor on New Years Day. Somewhere out there are ice sailors, and we all know that Smeltania isn't the only collection of ice shanties around the County.

Indoors

But what's happening indoors this winter is at least as exciting for those who have committed themselves to rejuvenation or rehabilitation.

Those who groove on the team effort will find themselves in good company. Statistics have it that 270 Charlevoixans are playing organized volleyball this season. There are 14 women's teams on Monday, and Wednesday evenings, 5 men's teams on Tuesday and a mixed league of 10 teams on Tuesday and Thursday. All play from 7:00 to 10:00.

B League basketball teams, of which there are 7, play on Wednesdays from 6:30 to 10:30 and A League basketball, which includes out-of-towners, has 5 teams this year and plays on Thursday nights at 6:30. All together, 120 men are involved in basketball this winter.

Don't like volleyball or basketball but want to be on a team? Try bowling at Paul Bunyan Lanes. Join a league or use up those free bowling coupons Oleson's threw into the grocery bags this fall.

Then there are the persons who are really serious about toning biceps and building bodies. They set up a regular exercise program schedule with one of the Charlevoix coaches namely: Hal Evans, Roger Gowell or Brian Certa. They may then have access to the weight equipment at the High School for a $10.00 a season fee.

Perhaps the most enthusiastic of the winter indoor exercisers are the dancers. They turn off Richard Simmons and T.V. Hatha Yoga and go out in a group to dance, exercise and have a good time. "Keep on Dancin" could be the theme of all four dance exercise groups currently underway in Charlevoix. Each has its own individual program and philosophy, but all thrive on the positive reinforcement supplied by an instructor who encourages participants by urging them to push harder towards that goal which is looking better and feeling good.

1. "Vital Options" conducted by Candy Smith, is a "multifaceted physical fitness and exercise program (that boasts) a tested program of fitness that is not only safe, but very beneficial for its students." It provides stretch, strength, and stamina exercises to popular music and promises to give a total body work out. One of its strongest assets, according to Ms. Smith, is that it's techniques are carefully checked out by a competent medical advisory staff. Besides all that it's fun agree the 90 some participants this session. Classes meet Monday and Wednesday at 4:15 at the Asembly of God Church, a 5:30 co-ed class and a 7:35 class at the High School. Tuesday and Thursday, 9:15 at the Charlevoix Gym Club and Saturdays at 3:00 at the Intermediate School District Bldg. Price is $50 for 12 weeks.

2. "Dance Slimnastics" with instructor Barb Miller, meets on Tuesdays and Thursday at 4:30 at the High School. This is an aerobic dance exercise class which is cardio-vascular in nature. Classes include warm-ups, sit-ups, dancing, stretching, and cool downs. Price is $25 for 8 weeks plus a $2 per year membership fee.

3. "Jazzercise" meets on Tuesdays and Thursdays at 5:40 in the High School cafeteria. Directed by certified instructor Jeannie Morin, dance exercise is performed to up-beat current top 40 songs. More than a cardio-vascular work out, Jeannie describes her program as one which works more specifically on muscle groups in the toning and shaping of the body. Price for Jazzercise is $18 for 8 classes or $3 per single class session.

4. The fourth dance exercise program is a freebie offered every Monday and Thursday evenings from 7:30-8:30 in the St. Mary's cafeteria. "Come as you are" says Keri Wojan who directs the dance exercise and utilized Jane Fonda and Joanie Greggain material.

These Middle School students work out under the direction of physical education instructor Toni Felter, right.

Joggers taking advantage of unseasonably warm winter weather were, from left, Dan Gilbert, Dennis Joy, Dick Aull and Vicki Voisin.

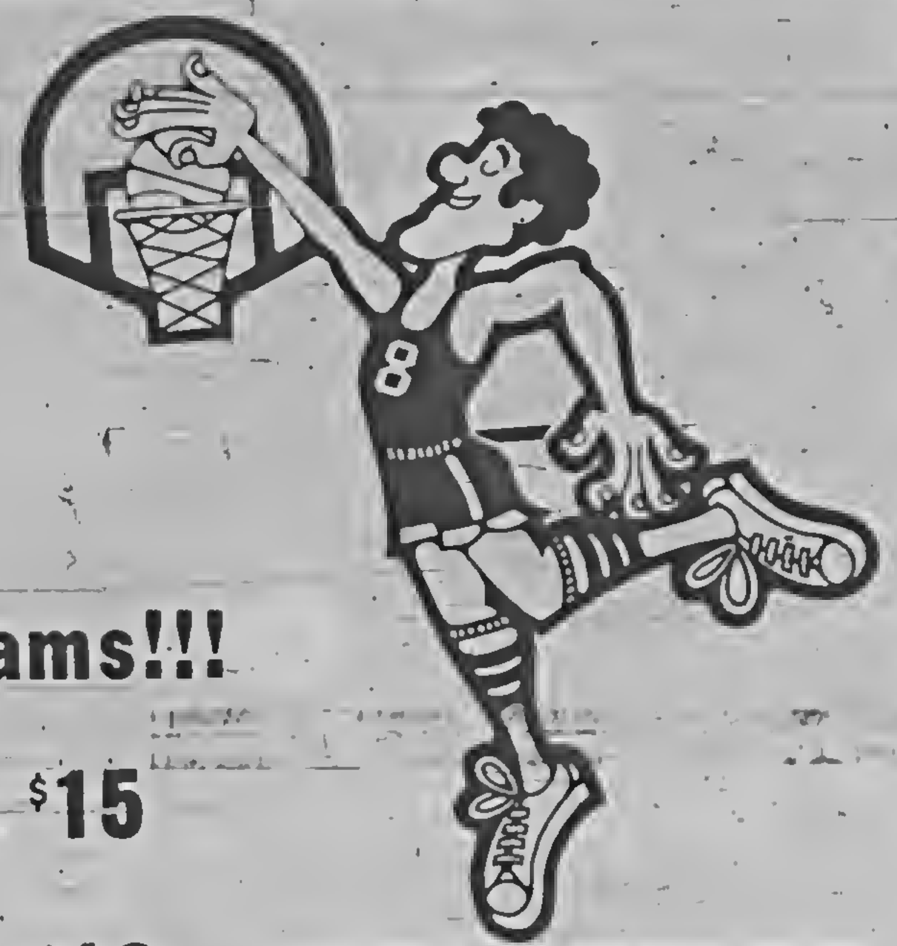
Remaining options for winter exercise may take you as far as Traverse City or Harbor Springs for court time or to one of the swimming facilities open to the public. Indoor pools for family membership are offered seasonally at Hayners, Petoskey and the Hilton in Acme. Swim rooms for the day are available at the Holiday Inns of Petoskey or Traverse City. Indoor swimming can also be found in Traverse at the Civic Center or at the Park Place Motor Inn.

But exercise can also be as nearby as your own living room. Just turn on one of the many exercise shows on T.V. and join in or hop on your exercycle and do five miles before breakfast.

Whatever the form winter exercise takes for you, have fun and feel better! Better not wait for spring. It won't be here 'til June.

A young skier starts up the Mt. McSauba tow rope for a night of fun on the slopes.

Charlevoix Courier BASKETBALL CONTEST



Guess The Winning Teams!!!

Weekly Prizes

First Place Gift Certificate $15

Second Place Gift Certificate $10

Circle the numbers of the teams you predict will win.

Tie Breaker Game
KIT CARSON

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of one game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

For Your Information

Marriages

The following marriage licenses were recently issued by the Charlevoix County Clerk:

Stephen Fred Kenyon, 19, and Sarah Louise Wingo, 19, both of Charlevoix.

Melville E. Nowland, 34, Boyne City, and Christine M. Hampton, 34, Walloon Lake.

Births

The following births were recorded last week at the Charlevoix Area Hospital:

A daughter, Leslie Renee Hoffman, was born February 3 to Dennis and Sharon Hoffman of Ellsworth.

A daughter, Jennifer Mary Dean, was born February 6 to Steven and Janet Dean of Charlevoix.

A daugher, Devon Merie Maat, was born February 8 to Donald and Dava Maat of Boyne City.

Court

Circuit

The following new cases were recently filed in Circuit Court:

Charles S. Leese vs. Carman E. Leese (Complaint for Divorce).

William A. Feldkircher & Barbara vs. Howard Erickson & Gail (General Civil).

State Farm Fire & Casualty vs. John Huyghe, Shari Huyghe; Julia Daubenspeck & Paul (Personal Injury).

Chad B. McDonald & Peggy L. McDonald vs. John May & Hannah C. May, Mike Flynn d-b-a Flynn's Trenching Service & Curtis Homes (General Civil).

District

The following cases were decided by Judge Harvey C. Varnum in the 90th District Court, Charlevoix County:

Alan D. Kline, 22, East Jordan, driving with license revoked, $145 fines and costs, three days in jail.

Dennis Wood, 23, East Jordan, use of artificial light and illegal firearms, $216 fines and costs, five days in jail, one year probation.

Robert J. Stark, 25, East Jordan, use of artificial light and illegal firearms, $216 fines and costs, ten days in jail, one year probation and court referral program.

Mark DeHaff, 18, East Jordan, school trespass and attempted resisting and obstructing, $135 fines and costs, six months probation and restitution to injured party.

Richard J. Flanders, 20, Boyne City, attempted resisting and obstructing, $205 fines and costs, ten days in jail with credit for one, two years probation and court referral program.

Barry A. Sydow, 18, Boyne City, assault and battery, reckless driving, attempted fleeing and eluding, $210 fines and costs, ten days in jail, six months probation and court referral program.

Cecil R. Hawkins, 29, Charlevoix, first degree criminal sexual conduct, preliminary examination waived, bound over to Circuit Court.

Robert G. Sarasin, 21, Charlevoix, breaking and entering in a moter vehicle, preliminary examination waived, bound over to Circuit Court.

Robert L. King, 18, East Jordan, breaking and entering, preliminary examination waived, bound over to Circuit Court.

David W. Marr, 17, East Jordan, breaking and entering in a building, preliminary examination waived, bound over to Circuit Court.

Michael L. Nelson, 19, Charlevoix, breaking and entering with intent to commit larceny, preliminary examination waived, bound over to Circuit Court.

Building

The following building permits were recently issued by the Charlevoix County Department of Building Inspection:

Frank Foster Construction, for Henry Sanders of Chicago, IL, new residence off Ferry Rd. in Eveline Township.

William E. Gill, construct new residence and garage, Poplar Lane, Eveline Township.

Erwin Smalley, demolish residence, Stolt Rd. in Hayes Township.

Marshall Grillo, construct addition, Carlisle Lane, Peaine Township.

Assumed Names

The following assumed names were recently filed with the Charlevoix County Clerk:

Unique Chimney Sweep Service by Christopher Carl DeNio, 108 W. Upright, Charlevoix.

Two Fingers Promotions by Edward R. Jensen, 28 "A" Old Mackinaw, Boyne Falls.

CC Creations by Edward R. Jensen, 28 "A" Old Mackinaw, Boyne Falls.

Fire calls

The Charlevoix Fire Department logged the following fire calls last week:

Saturday, February 12, 12:22 p.m.: Electrical fire at the Semple residence at 306 Park Ave. Firemen were recalled to the same location at 2:22 p.m.

Sunday, February 13, 6:01 p.m.: False alarm at Harbor Industries.

Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment Plant:

Date	High	Low	Precip.
Feb. 7	28	11	.5" snow
Feb. 8	32	12	0
Feb. 9	25	-1	0
Feb. 10	26	-3	0
Feb. 11	33	-2	0
Feb. 12	34	9	0
Feb. 13	38	26	0

CHIP's "Sing-Help-Enjoy" program to be presented

CHIP Counseling Center and the Michigan Council for the Arts present "Sing-Help-Enjoy" with Fran Tollas on Sunday, February 27th, at 3:00 p.m. at the First Congregational Church in Charlevoix.

The program will feature selections to please every age group that are representative of specialized programs presented in the area: children's songs; show tunes - old and new; classics and old favorites.

Trina Wiser, a student of Fran's and a scholarship recipient from the MCA grant will also take part in the recital. A reception will follow.

"Sing-Help-Enjoy" has as it's purpose the teaching and encouragement of singing as a tool to better emotional health. Programs will be particularly geared toward people who would otherwise not have access to musical performances and instruction in singing.

Programs and workshops have been held at Inland Lakes Elementary School, the Safe House, and Charlevoix High School Speech Class. Upcoming programs will be held at Boyne City High School Drama Club, East Jordan Elementary School, Harbor Springs Elementary School and Holy Childhood. We would like to schedule programs at area nursing homes. For more information, call CHIP Counseling Center, 547-6551.

BIG MAC EATERS helped boost the Charlevoix Fire Department's Fire Engine Fund by $400 last week. In a special promotion, the Charlevoix McDonalds contributed 50 cents to the fund for every Big Mac sold over a specified period. General Manager Bill Bluegge, left, presented the check to fireman Doug Bergmann.

To provide clean water

The Artists for Environmental Quality, who recently held an art auction to raise money to provide TCE-less water in local schools, have announced their plan of action.

With the money raised, they are providing each school, Elementary, Middle and High School, with ten jugs of distilled water, drinking cups and trash bags to dispose of the cups.

AEQ members Christa-Maria and Joanne Bier received permission from Charlevoix School District administration last week and hoped to have the supplies delivered by Friday.

Musicians qualify

Four Charlevoix High School instrumental soloists and one ensemble received first division ratings in the Annual District II Michigan School Band and Orchestra Solo and Ensemble Festival held at Central Lake recently.

Those receiving I ratings qualify for participation in the state festival to be held at Big Rapids March 26.

Those who qualified are: Andre Fiedler and Peter Plagge, trombone soloists; Tom Graf, trumpet soloist; Stephanie Balch, alto saxophone soloist; Jim Dorofske, Kathy Dohm, Cheryl Aull and Laurie Moore, brass quartet.

Receiving II ratings in the festival were Lara Stargardt and Karolyn Bearss, flute soloists; Gerry Chase and Treasure Drost, trumpet soloists; John Pearl, tuba soloist; Dan Jensen, snare drum soloist; Kelly Thompson and Patti Newton, oboe duet; Tom Graf, Treasure Drost, Andre Fiedler, Peter Plagge, Garrett Cooper and John Pearl, brass sextet.

CITY OF CHARLEVOIX COUNCIL MINUTES

February 7, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time in Council Chambers, 210 State Street, Charlevoix, Michigan with Mayor Staley presiding.

Present: Councilmembers Porter, Timms, Roloff, Wood, and Olach. Absent: Councilman Whitley.

The Minutes of the regular meeting of January 17, 1983 and the special meeting of January 24, 1983 were approved as presented in writing and as recorded in the Council Minutes Book.

Shelly Rosema and Kelly Thompson, two Charlevoix High School students who participated in the recent survey of area residents to determine citizen concern over the City water contamination and related concerns, addressed Council regarding citizen reaction to the survey. Written results of the survey were distributed to Councilmembers prior to the meeting.

The City Manager recapped the history of the trichloroethylene (TCE) contamination of the City water supply to date and stated that the City now has sufficient knowledge to make the best educated judgement in providing a solution to the problem. The Manager then introduced the following individuals who addressed the Council and members of the General Public in their respective areas of expertise: (1) David Wade, Toxicologist, State Health Department, regarding the health risk involved in the TCE contamination; (2) Ron Bowen, Director of Utilities at Traverse City, regarding that City's experience with a conventional Lake Michigan water treatment plant; (3) Larry Levengood, District Health Department, and Bob Hufnagel Project Engineer with McNamee, Porter, and Seeley, regarding the raw water quality of the existing water supply and Lake Michigan water; (4) William Kelley, Chief, Water Supply Division of the State Health Department, and Tim Benton, Engineer, State Health Department, regarding drinking water standards; (5) Richard Force, Partner, McNamee, Porter, and Seeley, regarding the long range alternatives available to the City; (6) John Adams, Project Manager, McNamee, Porter, and Seeley and Bob Hufnagel, regarding capital costs and operating costs of the long-term alternatives, phased construction of a Lake Michigan plant or carbon plant to provide a short term alternative, and emergency leasing of carbon filters as a short term alternative; (7) Ed Whitley, City Water Superintendent, regarding the City's efforts to reduce the TCE level through aeration; (8) Oscar Stroud, Charlevoix Township Supervisor, regarding the Township's willingness to sell water to the City as a short term alternative, and; (9) William Kelley, regarding the compliance schedule that would be required by the State for phased construction of any type of treatment plant.

The City Manager outlined the various financing alternatives available for improvements to the water system including water and/or property tax increases, partial funding through the Small Cities Block Grant program or the EPA Superfund, and possible participation by Charlevoix Township in the ownership and cost of a treatment plant.

Moved by Councilman Porter and supported by Councilman Olach that the City negotiate buying water from Charlevoix Township on an interim basis beginning in March, pending the outcome of the affectiveness of aeration in reducing the TCE level in the City water supply.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Porter, Roloff, Wood, and Olach. Nays: Councilman Timms. Absent: Councilman Whitley.

Moved by Councilman Porter and supported by Councilman Timms to begin Phase I of the Lake Michigan water treatment system as proposed by McNamee, Porter and Seeley.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Porter, Timms, Roloff, and Wood. Nays: Councilman Olach. Absent: Councilman Whitley.

Council generally agreed to commence work on the design of Phase I of the proposed water treatment plant but to delay any bid award for construction of the plant until May when they may know whether or not Phase I will receive EPA funding. Council also generally agreed to entertain a resolution at their March 7, 1983 regular meeting which would place the question of funding the water treatment plant by general obligation bond to a vote of the City electorate.

Council approved the payment of bills totaling $148,099.52.

Council adjourned.

Deanne Balch, City Clerk

ON HIS WAY TO A RECORD BUMP JUMP, *Bo Boss sailed over 36 feet in competition held Sunday at Mt. McSauba as part of the Winter Cup festivities. Balmy temperatures nearing 60 degrees failed to spoil the Winter Cup fun which attracted several entrants for slalom ski races, bump jump races and the bump jump distance contest. A complete list of Winter Cup competition results will follow in next week's Courier.*

City budget proposal calls for no new tax, no less service

by DAVE KNIGHT

Charlevoix's 1983-84 proposed city budget has good news, so-so news and bad news.

The good news is that no increases are planned in taxes or fees, that service levels will remain basically the same and that most of the city employees whose hours were reduced last year will be back at work full time.

The so-so news is that nothing has been included in the budget proposal pertaining to the recently approved construction of a new lake water treatment plant, a project estimated to cost about $1.75 million.

The bad news is that, while city finances are currently on a more even keel than they have been in years, expenses are consistently exceeding revenues making a day of reckoning inevitable if some long term fiscal adjustments are not made.

The budget proposal released last week by City Manager Robert Hunt features a total projected expenditure by the city of $4,147,380 in the fiscal year 1983-84 which begins April 1. This figure represents a negligible increase (less than two-tenths of a percent) over last year's expenses of $4,139,721.

Factors allowing the city to hold the line on expenses for the coming year include lower projections of wholesale electrical costs, the need for very few major purchases and no planned capital improvements (other than the water plant which is not addressed in the budget.)

Some of the more substantial expenses projected in the budget include a land contract balloon payment of $33,000 on the city-owned property at 204 State St., $30,000 for a back hoe, $30,000 for a bucket truck, $8,500 for a police car, $8,000 for a pickup truck, $10,000 toward a fire truck support equipment reserve fund and $20,000 toward a new street sweeper reserve fund.

Compared to the bitter battles fought over last year's service cuts and employee reductions, this year's budget process may be relatively painless.

"Some very tight fiscal management on the part of our department heads and more junior employees, has made it possible to maintain service levels in the face of declining revenues," wrote Hunt in his 31-page budget summary.

General fund expenses for the fiscal year about to end are expected to fall about $76,000 of projections. This will more than offset a shortfall in revenues of about $10,000 and create a budget surplus of $86,000 in the general fund by the end of the fiscal year on March 31.

Budget surpluses are expected in other funds as well, such as the electric fund where the surplus could run as high as $275,000.

As a result of the black ink that characterizes the city's 1982-83 fiscal performance, property taxes are proposed to remain at current levels (10.5 mills for operating and 3.0 mills for debt service), no user rates or fees are expected to increase and no city services are planned to be reduced or eliminated.

To the contrary, some services, such as police protection, should improve. A City Council mandate to avoid any raise in property tax rate last year prompted a personnel reduction program in which police officers and some city hall clerical employees took one day a month off without pay.

Hunt proposes in the new budget to restore all these employees to full time status. The only personnel reductions of last year that will continue are in the Street Department which is proposed to operate at its present level, two and a half less men than two years ago.

The planned replacement of eight inadequate hydrants and purchase of additional hose should improve fire protection also, according to Hunt.

Also proposed is a half-time seasonal litter control employee to keep the city's beaches clean.

Hunt's budget summary for 1983-84 repeats his concern about some ominous financial trends, however, that he first mentioned in last year's budget document.

"The long term outlook for the general fund is still weak," writes Hunt. "Although good fiscal management has allowed us to plow fund surpluses back into the budget, operating expenses exceed operating revenues. The city has no capital program and has made no allowances for replacing sidewalk, curbs and gutters or paving

Continued on page 4

Council says no to compensation hikes

by DAVE KNIGHT

City Council rejected Monday night recommendations by the Compensation Commission that would have boosted the mayor's transportation allowance, committee meeting allowances for council members and the city clerk's annual salary.

Calling the increases "not appropriate at this time" Council Member Shirley Roloff proposed rejection of the Commission's February 8 meeting minutes setting the increased compensations.

Under the Commission's recommendation, which by state law and city charter set salaries and other compensations for city officials, the mayor's transportation allowance would have been increased from $50 a month to $75 for local transportation and he would have been reimbursed 20 cents per mile for non-local transportation with that rate following any change by the mileage rate for Charlevoix County Commissioners.

Salaries of the mayor and council members would have remained at $2,640 and $1,320 respectively but the city clerk's salary would have been increased from $18,720 to $20,700. Committee meeting allowances for council members would have been raised from $25 per meeting to $30 for meetings held within a 25-mile radius of the city and $40 per meeting outside the radius.

Council members rejected by a 4-0 vote (Council members Ivan Whitley and Clement Olach were absent) the recommendations with instructions to the Commission to rework their proposals.

In other action, the council:

-Awarded to the firm of McNamee, Porter and Seeley the engineering contract for all three phases of the planned lake water treatment plant but issued a notice to proceed for only Phase I which will include a buried intake structure, temporary chlorination equipment and hook-up to the city's present system. Phase I design costs are estimated at $24,500 with total design costs for the plant estimated to be $79,700.

-Approved site plans for an addition to Phillips Northside Standard Station and the conversion of an exisiting house next to McDonald's to an office for Dr. Thomas Dekorte. Both site plans were approved without recommended stipulations that sidewalk be constructed on the properties.

Altman gets DDA, City nods

by DAVE KNIGHT

Progress on the $5.9 million hotel-conference center proposed for the north side of the Pine River Channel in Charlevoix was made on at least two fronts over the past week.

At its February 17 meeting, the Downtown Development Authority responded positively to a request by developer Joel Altman for DDA participation in funding public improvements required by the project.

Specific needs described by Altman as most crucial to the project included heavy landscaping north of the channel, curb and gutter improvements, the refining of Pine River Lane into a bonafide street, improvements of the walkway along the channel and traffic controls more oriented to pedestrian use of the area.

Although Altman said that the improvements north of the channel were the most important to address first, he added that he expects the same theme of renewal to be extended throughout the downtown area eventually.

By unanimous resolution, the DDA initiated a drive Thursday night to raise funds for the development of cost estimates for the first phase of improvements sought by Altman on the north side of the channel.

At Monday night's City Council meeting, DDA President Michael Greeley announced that $2,250 in pledges had been received. Greeley successfully sought council approval to proceed with plans to have designer Robert Leighton provide the neccessary cost estimates. Leighton, of the Ann Arbor firm of Johnson Associates, has been involved by Altman as a chief planner of the hotel-conference center project.

Council authorized the DDA to spend up to $3,000 for the initial phase of planning.

On hand last Thursday to explain to the Charlevoix DDA downtown improvement projects in their respective cities were City Manager Gerald Felix of Harbor Springs and City Manager Timothy Clifton of Boyne City.

The DDA expressed particular interest in tax increment financing (TIF) as a method of funding the neccessary improvements. The TIF mechanism involves creation of a specified district for which tax proceeds can be captured and used to implement public improvements that, theoretically, will eventually increase the tax base in the district.

The site plan for the Altman project was approved by City Council Monday night with several conditions recommended by City Manager Robert Hunt. Also addressed to the apparent satisfaction of all involved were concerns voiced last week by residents of Thistledown Lane.

Attorney William McTaggart, representing Thomas Duke, approved of a redesign of an access to the hotel from Thistledown. The new design would direct hotel traffic toward the lobby and require a sharp turn, through a signed and gated entrance, to continue to the residential properties on Thistledown.

Some of the other conditions to which Altman agreed included the alignment of Pine River Lane and the Bay Queen driveway, the provision for 61 parking spaces on the hotel site, a minimum of five feet clearance between the channel sidewalk and the restaurant deck, intensive landscaping between the Michigan Ave. sidewalk and the parking structure, and pedestrian access between the Weathervane Terrace game room and the conference center.

Council also unanimously approved rezoning of the property from "Marine-Commercial-Scenic" to "Motel-Hotel".

Chicago Club wins tax assessment appeal

By FRAN MARTIN

The Charlevoix School District has been informed in a letter that the State Tax Tribunal has decided in favor of the Chicago Club of Charlevoix in the club's appeal of its 1980 and 1981 assessments.

The Chicago Club, a private club located on the city's north side, had appealed its 1980 and '81 assessments.

The school district joined with the city, county and intermediate school district in appealing the case to the Tax Tribunal which has decided in favor of the club.

The four units which receive tax revenue from the property will decide this week if they will appeal the decision to the Court of Appeals.

Should the appeal stand, the school district, will be obligated to repay between $26 and $30,000 in taxes and interest Vincent Olach, business manager for the district said.

In other action at the meeting, the board set Monday, June 13, as the date of the annual school election. At that time a straw vote will be taken regarding the proposed summer tax collection. The specific issues to be placed on the ballot for the election will be determined by the board at a later date.

Supt. Gordon VanWieren presented a brief resume of the survey conducted by the Charlevoix-Emmet Intermediate School District relating to schools and what those contacted expected of their schools. In the survey, the schools rated exceptionally high; people believed the basics should be taught and that the schools were providing a quality education.

A request from Thomas Laudenslager who had purchased the 1981 Building Trades house, to re-sell the property and transfer the present land contract to the new owner was approved.

Approval was also given to the Charlevoix County Republican party to use the high school cafeteria for a Lincoln Day dinner open to the public on April 1.

The next meeting is scheduled for March 7.

Night parking ban lifted

Charlevoix Police Chief Jack Mol announced this week that, because of the lack of snowfall recently, city residents may now park their cars in the street again from 2 a.m. to 6 a.m. without fear of getting ticketed. Mol thanked local residents for their cooperation in the winter parking ban, which technically is still in effect, but said the mild weather has made it possible to allow people to park on the street and not damage their lawns. He added that the ban will only go back into effect in the case of a major snowfall.

Obituaries

PAUL A. DANIELS

Funeral services for Paul A. Daniels, 71 who died Feb. 13 at the Charlevoix Area Hospital, were held Wednesday at St. Mary's Church. The Rev. R. Dale Magoon officiated. Interment was in St. Mary's Cemetery.

Mr. Daniels was born in Petoskey July 2, 1911, and resided in Petoskey where he was employed at the Petoskey Portland Cement Co. from 1946 until 1954. He later was employed at Montgomery Ward as a mechanic from 1969 until he retired in 1972. In 1964, he moved from a farm on East Mitchell Road to Hayes Township in Charlevoix County.

On June 21, 1967 he was married to the former Pansy L. Haskell in Petoskey.

He was a former member of St. Francis Xavier Church in Petoskey and a member of St. Mary's Church in Charlevoix.

Besides his wife, he is survived by two sons, Harold A. Daniels of Alanson and Bernard E. Daniels of West Olive; 10 grandchildren; nine great-grandchildren and two sisters, Mrs. Alfred (Kunie) Simon of Petoskey and Mrs. Helen Ulrich of Harbor Springs.

Arrangements were made by the Winchester Funeral Home where the Rosary was recited Tuesday evening.

EARL M. HOLBORN

Funeral services for Earl M. Holborn, 60, who died Feb. 16 at the Veterans Facility in Grand Rapids, were held Saturday at the Winchester Funeral Home. The Rev. George R. Jacobs of the Christian Life Center in Petoskey, officiated. Interment was in Brookside Cemetery.

Born at Vanderbilt Dec. 20, 1922, Mr. Holborn later lived in Petoskey and attended the Petoskey schools. During World War II he served with the U.S. Army. On Aug. 23, 1943, he was married to the former Nellie M. Vosburg at Petoskey. They always made their home in Charlevoix. He was a carpenter by trade and was affiliated with United Brotherhood of Carpenter and Joiners No. 1461 at Traverse City. He was also a member of the Leslie T. Shapton Post No. 226, American Legion.

Besides his wife, he is survived by two sons, Melvin D. and David E., both of Hobbs, N.M.; a daughter, Mrs. Gale (Sherry) Sheldon of Charlevoix; four grandchildren; his father Finley Holborn of Petoskey; a brother, Orville of Los Angeles and three sisters, Mrs. Myrtle Duncan of Traverse City, Mrs. Richard (Evelyn) Philleo of San Diego and Mrs. William (Vera) Harris of Flint.

The family suggests memorials to the Alzheimer's Support Group. Envelopes for this purpose are available at the funeral home.

To hold hold square dance

An Old-Time Square and Contra Dance will be held from 8-12 pm on Saturday, February 26 in the 4-H Center at the Emmet County Fairgrounds, Petokey. The dance will be preceded by a pot-luck supper beginning at 6:30 p.m.

Hootowl, a live string band, will provide music for dancing. All dances will be taught so no experience is necessary. A demonstration of Appalachian cloggin will also be given.

Admission to the dance is $2.00 membership donation for adults and free for children under 12. These is no admission charge for the pot-luck. Those coming to the pot-luck are asked to bring a dish to share and their own place setting. Cider and iced tea will be sold.

This is the third monthly square dance sponsored by the Music Conservancy, a group dedicated to supporting traditional music, arts and dance. The Conservancy plans to offer concerts, arts workshops and other future events. As part of the Little Traverse Hisotric Festival, the Conservancy will hold a special dance on Friday June 24.

For further information about the organization or the dance, call 347-3415 or 347-2381.

Individual receivers to supplement early warning system

The early warning system in the event of an emergency at the Big Rock Nuclear plant or a natural emergency will be enlarged with the placement of special equipment in the radio stations that serve the area Earl Muma, director of the Office of Emergency Services for Charlevoix County has announced.

Muma called a meeting of personnel from the various stations in the area Monday at his office at the Charlevoix County Sheriff's Department to acquaint them with the receivers.

Muma explained that Consumers Power Company, owner of the Big Rock Plant, has supplied 15 receivers which are to be placed in each radio station. The receivers will be operated from the Office of Emergency Services. In the event of an emergency, the signal equipment will be activated from this office to alert radio stations that there is an emergency that will require evacuation of the five-mile area surrounding the plant. Radio stations will immediately put the information on the air thus facilitating the evacuation process.

"This system will supplement the existing system of sirens and loud speakers that are already in operation" Muma explained. "The majority of residents in the area have radios on in their homes. By sending out the warning over the air waves as well as via sirens and loud speakers, we feel that we will reach that many more people. This is especially true in are of high noise levels and during the months homes are closed up because of the weather" Muma continued.

"The use of the receivers in area radio stations will make it possible to reach many more people than the present system now reaches. This is just one more way this office has found to better protect the people within the five mile radius of Big Rock should an emergency occur there or should there be a natural emergency any place in Charlevoix County," Muma added.

New program will furnish Arts Center info

Jan Glass, Charlevoix artist, announces the beginning of a docent program at the McCune Arts Center. The purpose of the program will be to have a trained core of persons to educate student and other groups as well as Art Tree Volunteer workers about the exhibits, the building history, and the work of the Crooked Tree Arts Council.

Docents will attend at least one meeting a month to familiarize them with the monthly gallery exhibits. They will be educators and goodwill ambassadors for the Arts Council, and will conduct student and other groups of ten or more persons through the Arts Center and explain about the Gallery exhibit, which changes monthly. They will also go to school groups with slide presentations on request, as it is not always possible for interested classes to visit the Arts Center as a group.

This month, on Sunday February 20 at 3 p.m., there is a movie on the current Karel Appel exhibit, explaining Appel's work and place in the art world, and films such as this will be required viewing for the docents. It will be an opportunity for a person who likes art to learn more and share this knowledge with others.

Jan Glass, originator of the docent program here, has a B.S. in Art Education from Central Michigan University. She is a Charlevoix native, and has taught art at all grade levels. She says that art helps us see the world around us, things we never knew were there.

"Art is an appreciation of life." Jan says that if someone learns to see better, they'll also learn to hear music better and even to take a more meaningful walk. "Art is just learning to see and to appreciate the things around us.".

Jan would like to see art, this "awareness of life", brought to all people in the Emmet-Charlevoix area. She envisions an ambitious program and would like to have at least one person from each school and from various clubs and groups included. She would also like to see special education and alternative education classes involved in the program.

Jan Glass is married and has two children. She is an exhibitor at the Art Tree, and prefers the media of watercolor and pen and ink, although she says she dabbles in many art forms, including poetry.

Please call the Arts Council office at 347-4337 if you'd like to make a one-year committment to the docent program, which will be a learning experience and opportunity to share this knowledge with others.

THE FIRE ENGINE FUND *is $2250 richer thanks to a recent donation by Jim Bellinger, owner of Bellinger Marine Service, 125 Belvedere, in Charlevoix. Bellinger is shown above writing out the check as fireman Doug Bergmann looks on. Bergmann is one of five volunteer firemen who have been employed by Bellinger over the years. Bellinger, a Charlevoix native who has been operating his marine service on Round Lake since 1950, has another special interest in the Charlevoix Fire Department's efforts to raise money for a new truck; the Department has saved his building twice.*

Screening set for kindergarten

There will be Developmental Screening Clinics for all children who will be entering kindergarten in the fall of 1984. These clinics are sponsored by the Charlevoix-Emmet Intermediate School District. The purpose of these clinics is to provide parents information regarding normal child development, an opportunity to interact with parents of other three year old children, and to have your child informally screened in order to identify any potential learning difficulties which may arise during the school years. These are a free service with appointments made on a first come, first served basis.

The clinics are scheduled in Charlevoix for March 9 and April 13 at the Charlevoix-Emmet Intermediate Service Center.

If your are interested in attending the above clinics, or reside in a district other than those listed above, please contact Pat Gauthier, 547-9947, at the Charlevoix-Emmet Intermediate School District for an appointment or for further information.

THE JOHN C. VAALER AWARD, *presented biennially by Chemical Processing magazine, went this year to Ron Pair, president of Ron Pair Enterprises, Inc., parent company of Midwest International. On hand for the recent presentation of a commemmorative plaque at Midwest's Charlevoix plant were, from left, Ron Boss, Assistant Plant Manager, Pair, David Toy, Assistant Editor of Chemical Processing, Judy Lozo, Midwest's Vice President for Marketing and James McCready, Chief Engineer for the firm. The award cited an article in Chemical Processing on a dust material loading system developed by Midwest International. Criteria for the award, according to Toy, includes significance to processing, originality and breadth of application. Seventy-six impartial judges were involved in choosing Midwest as a "Top Honors" winner.*

For Saints and Sinners

This is the first in a series of weekly messages to be contributed by the Charlevoix Ministerial Association.

by REV. DAVID W. YINGLING
UNITED METHODIST CHURCH

Have you ever been on a winding road, late at night when, "BANG!", a tire blew? Of course some of you have, but many have not. What do we do? How do we feel?

That's what happened to Cheryel (my wife) and I last week. While driving from a Church dinner with a beautiful bouquet of flowers (a gift from friends) that familiar yet haunting sound occurred. With no flashlight, I began to change the tire that would not get us home - with a tire I wasn't sure had the strength to move us.

You've been there before, people pass by, don't stop - I'm thinging - "what has happened to people?" - "no caring" - "no love" - "oops" - I'm beginning to sound like a real pessimist.

"Do you need help," asked the man. "Yes sir!" I replied. The man turned his car around - so his head-lights shown brightly on my surgical procedures. In a matter of minutes I had completed the operation - and the patient (the spare tire and the car) was again well. With many "thanks" to the man who had helped me, he departed for home.

I, in turn, joyously returned to my duties of churning - well almost; you see while I was changing the tire the cars flashers were on - the tired old battery had been drained of every last ounce of energy.

What to do? Walk! And we did. "Will anyone pick us up?" "Would we pick up anyone - walking, late at night on a winding road?

Well of course we were helped! A very friendly young couple with five young children in the car - returning home from visiting grandma picked us up and took us to our home.

My wife Cheryel asked them "How did you decide to do that?" And the woman replied, "well, we thought that anyone carrying a bouquet of flowers, late at night, on a dark and winding road had to be okay."

Seriously though - in the New Testament, hope is a strong, positive word. It speaks of something certain. Paul says that the knowledge that Christ dwells in us is "the hope of glory" for us. When Christ Jesus abided in us, makes us the dwelling place of the divine - we are assured of coming to glory. Paul also teaches us that we are being changed from "glory to glory". This is a reminder that we have been created most gloriously - we have been made in the image and likeness of God.

That glory, shattered and distorted in us by disobedience has been recreated and restored in our flesh, in and through Jesus.

Our hope is rooted in the assurance of glory.

Oh yes - we rescued our car from the elements of winter with the help of a young man from a local service station.

Opinion

Knight on the Town

On second thought

by Dave Knight

I'd like to know your opinion on something.

There is a movement afoot to invite the Detroit Symphony Orchestra to Charlevoix this summer for a special appearance to coincide with the 25th Anniversary version of the Waterfront Art Fair.

Already, Suzi Reis and her committee have made many exciting plans for the Art Fair weekend. Special invitations have been extended to artists who first exhibited in 1958 and many have accepted. Over the past 25 years, a number of those individuals who first gathered in East Park as young, struggling artists, have gone on to win international acclaim. Their participation in the upcoming silver anniversary celebration promises to make for a gala weekend indeed.

It would seem entirely appropriate, then, to ice this cultural cake with an appearance by a world class symphony such as the DSO.

What cumplicates the issue, however, is that the concert is proposed to be held at Castle Farms Music Theatre, a facility heretofore identified primarily with rock music and associated clientele.

When the Charlevoix Chamber of Commerce Board of Directors was first approached by Castle Farms promoters last year to endorse an invitation to the DSO, the board declined.

It was generally felt at the time that, given the Castle's turbulent past, an endorsement would not be in the best interests of the Chamber or the community as a whole. Despite oft-stated intentions to broaden its musical horizons and legitamize itself as a family attraction, Castle Forms' actions have spoken louder than its words. Last year's schedule, led off by the infamous Ozzy Ozbourne, was dominated by heavy metal.

It should also be noted that the Castle was and is not a member of the Chamber of Commerce and the Chamber has an understandable policy of not endorsing non-member businesses.

Transpose the request now to February, 1983.

Again the Castle seeks a broad base of community support for a DSO appearance.

My first inclination was to respond in a similar fashion as last year. It has since occurred to me, however, that the circumstances are a little different now.

The community is at a point where every bit of promotion and positive image-building is sorely needed. No further explanation neccessary.

I am seriously wondering if we can afford to pass up the opportunity, on grounds of past experiences and prejudice, to give Charlevoix's cultural prestige a monumental boost by hosting an internationally recognized orchestra in concert.

People would come from all over the north to hear a DSO performance. And they would remember coming to *Charlevoix the Beautiful*, not Castle Farms Music Theatre. If such an experiment in classical fare was financially successful, perhaps the Castle would see the wisdom in providing more of the same. The alternative would only further alienate the facility from the community and I don't think that does anybody much good.

What do you think?

Letters: Water cooperation

Let's negotiate

To: Charlevoix City Council

The Air and Water Quality committee of Keep Charlevoix Beautiful, Inc. has recommended that we congratulate the city and township of Charlevoix for their progress toward solving our water problems. We're particularly pleased with the cooperative spirit that has prevailed during this emergency and urge immediate steps to use township water after a final attempt at aeration.

The mandate from the Charlevoix redidents who are using city water is clear. Based on the recent survey 93 percent said that the "city and township should work toward the development of a joint water supply."

Also, the survey makes it clear that the TCE should be reduced or eliminated "until the water plant is built."

While a "reduction" may be acceptable to some there is a clear advantage to moving forward with the plan to use water from the township well until June. If the June committment cannot be met for any reason, the township alternative will be in place as a back up. Any subsequent failure of either source of water (city or township) will make it possible to serve the community in trouble on an interim basis. For this reason it behooves both municipalities to negotiate a fair water rate now.

Executive Committee
Keep Charlevoix Beautiful, Inc.

Enjoyed tribute

To the Editor,

I loved your article regarding the secretaries at the Charlevoix Schools. I remember they were very neat ladies over 12 years ago and I knew they continued to be super ladies since that time. It's rather impressive when one happens to be your own "special" mom and grandmother of your children too. You are special Ginny Woods.

Clockwise

Fire bash

by Bob Clock

THE SECOND fundraiser for the Charlevoix Volunteer Fire Department's new engine Friday night at Grey Gables was a roaring success.

The entertainment was a mixed bag: A belly-dancer from Elk Rapids, Grey Gables' own Al Breeze, Jasper Warner and His Tag-a-Longs and Leo Meyer and his One-Liners. Can't think of a better way to start the weekend.

It is difficult to estimate how many attended, with the crowd in perpetual motion between the banquet room and the bar. But 200 is a good, round number.

Of course, every fundraiser moves the bottom line closer to the $125,000 pricetag of the new engine.

Promoters are now talking about holding a third party before summer sets in — hopefully at Nanny's.

I just hope the engine gets paid for before we all become hopeless inebriates.

The first fundraiser — for the record — was at Duffy's and was equally successful, with both Sean Ryan and Leo Meyer holding court.

ARE YOU SICK of everyone crowing about the weather? I'm not. I can't think of a nicer way to bid goodbye to February than with a beach party.

Our thermometer almost hit 60 degrees Sunday and it was a fine day to hike around in a sweater.

Judy and I even walked down to Depot Beach where Mick Smith had reported beavers at work near the Yacht Club dock. We didn't actually see any of the little critters, but we did admire their handiwork. They had cut down three young poplars, leaving characteristic pencil-point stumps surrounded by wood chips.

Oddly enough, the trees themselves were no where in evidence and we suspect the beavers dragged them away to wherever they are building a dam.

Several years ago beavers were at work along the banks of Old River — and I wouldn't be surprised if they didn't haul their latest crop of saplings down the ice to the same site.

WE WERE SURPRISED at how thin the ice on Lake Charlevoix has become. We found open water along the shore in places, with soft, slushy ice a few feet out measuring no more than two inches thick. The lake already has taken on that dark look that means a strong wind could break it up.

And it's still February!

WEATHER BUFFS, of course, are speculating what sort of a spring and summer we will have after such a mild winter. It would seem an early, warm spring is in order since there is virtually no ice at all on Lake Michigan or Little Traverse Bay. With any luck we'll be cutting grass in March, planting lettuce and radishes in April and tomatoes in May. You might even plan on tomato and bacon sandwiches by Labor Day.

City budget proposal

Continued from page 1

streets."

Hunt blames preoccupation this past year with development of a master plan and water contamination problems for lack of progress on possible alternatives to long term budgetary problems. He also points to the difficulty of getting the public concerned about problems that do not appear serious or immediate.

Until the city comes to grips with its long term problem areas, Hunt warns, "we shall continue to manage the city's fiscal affairs in a manner that leaves our employees jittery about layoffs, our citizens edgy over service reductions and fee increases and our streets and sidewalks in disrepair."

Weddings

Mr. and Mrs. Donald J. Willis

Frye-Willis

Lori Lynn Frye of Hillman and Donald James Willis of Charlevoix were married Jan. 29 at the Hillman Community Center. Rev. Virgil Elliott performed the candlelight double ring wedding ceremony.

Parents of the couple are Mr. and Mrs. Roger Frye of Hillman and Mr. and Mrs. James Willis of Charlevoix.

Given in marriage by her parents, the bride wore a chiffon gown with accents of Chantilly lace. Pearls and lace trimmed the Queen Anne neckline and the bride's fingertip veil of illusion was edged with lace and attached to a Juliet cap of lace. She carried a colonial style bouquet of pink roses and pink miniature carnations, babys' breath and asparagus fern. Two of the roses in her bouquet were given to the mothers of the couple during the ceremony. The bride also wore a necklace that her mother wore at her wedding.

Attending the bride as maid of honor was her sister Lisa Frye. Bridesmaids were Ann Willis, sister of the groom, and Kris Barton. Kelly Boldrey of Hillman was flower girl. The attendants wore wine colored ruffled gowns with bustles in the back and caplet sleeves. They wore matching wide brimmed chiffon hats and carried bouquets of pale pink and dark rose pink miniature carnations, babys' breath and asparagus fern. The flower girl carried a white basket of pink miniature carnations, white pom pom mums and asparagus fern.

John Frye, brother of the bride, was ringbearer.

Art Falting attended the groom as best man and groomsmen were Mark Koontz and Richie Wojan, all of Charlevoix. Ushers were Ken Benac and John Gibson.

A reception followed the ceremony at the Hillman Community Center. A rehearsal dinner was hosted by the groom's parents on Friday evening in Hillman.

The bride and groom are honeymooning on Beaver Island and then will make their home in Charlevoix. The bride is a graduate of Hillman High School and the groom is a Charlevoix High School graduate. He is a member of Local 639, Plumbers and Pipefitters.

Mr. and Mrs. Richard Lesley, Jr.

Pagan-Lesley

St. Mary's Catholic Church in Charlevoix was the setting for the January 29 wedding of Chrisann Pagan and Richard Lesley, Jr., both of Charlevoix.

She is the daughter of Mr. and Mrs. Joseph Pagan of Harrieta, Michigan and he is the son of Mr. and Mrs. Richard Lesley, Sr. of Grosse Point Park, Michigan.

Father Dennis Stilwell presided over the afternoon, double ring ceremony attended by about 200 guests. The altar at St. Mary's was decorated with white spider mums and ivory antheriums.

The bride was given in marriage by her father. She wore an ivory taffeta ankle-length dress with a cotton lace jacket over the top of the dress and an ivory cotton lace cap with ivory netting and long train. Her bouquet consisted of nine red antheriums.

The matron of honor, Mrs. Kathleen Burek, and bridesmaids Mrs. Linda Washburne, Mrs. Janice Rollo and Miss Lisa Lesley, wore teal green taffeta satin ankle-length dresses with ruffles off the shoulder and carried ivory and red antheriums.

Best man was Steve Lesley and groomsmen were Bud Klooster, John Snider and Jeff Smrekan. Ushers were Dan McKenzie and Steve Dunkelberg.

A reception was hosted by Mr. and Mrs. Richard Lesley, Sr. at Duffy's of Charlevoix and a rehearsal dinner was held Friday night, January 28 at the Grey Gables Inn.

Following a wedding trip to San Diego, the couple is at home at 402 Antrim St., Charlevoix. Rick is an installer technician for Lake Charlevoix Cable TV and Chrisann is a former employee of Wickerville Station in Charlevoix. (Photo by Jerry Martinchek).

Engagements

Marjorie Timms

Timms-Walker

Mr. and Mrs. Robert N. Timms, Sr., have announced the engagement of their daughter, Marjorie Jean, to Mickey Walker.

The prospective bridegroom is the son of Mr. and Mrs. Lyle Walker of Ironton and Clearwater, Fla.

No date has been set for the wedding.

Hankins-Russell

The engagement has been announced of Karen Marie Hankins, 218 W. Carpenter, Charlevoix, and Mark William Russell, 302 Clinton, Charlevoix.

She is the daughter of Mr. and Mrs. Jesse A. Hankins of Petoskey and he is the son of Mr. and Mrs. Bud Russell of Charlevoix.

A June 18, 1983 wedding is planned at the Church of Latter Day Saints in East Jordan.

Russell is a 1979 Charlevoix High School graduate and is presently employed at W.R.W. in East Jordan.

Karen Hankins and Mark Russell

Churches, peace to be discussed by panel

"What the Chruches are Doing to Promote Peace among Nations" is the subject being explored in a panel discussion at the First Presbyterian Church, in Petoskey, lower level room, on Saturday, February 26. Panelists will include members of four demonimations and three communities. They are: Father Medard of the Catholic Church in Petoskey; Ms. Margaret Duerr of the Congregational Church in Charlevoix; the Rev. Richard Matson of the United Methodist Church in Harbor Springs and Ms. Pam Waldvogel of the Presbyterian Church in Petoskey. The discussion will begin at 2 p.m. and the public is cordially invited.

George Smith eyes a Grayling opponent during a break in the action Friday night.

Grayling, Onaway are no match

Though Coach Dave Smith admits that "getting up" for some of Charlevoix's recent games against the likes of Onaway and Grayling is becoming more difficult, that fact did not seem to matter last week as the undefeated Rayders lengthened their string by routinely walloping the two above mentioned teams.

At Onaway last Tuesday, the host team managed to score only one basket in the first quarter as Charlevoix methodically jumped to a 14-2 lead by the end of that period, led 37-10 at the halftime, 65-24 at the three-quarter mark and cruised to a 71-38 rout in the non-conference contest.

Craig Klooster had a field day scoring 22 points on ten field goals and two free throws out of three tries. George Smith had 14 for the Rayders and Chris Putman 10.

Back in Michigan-Huron Shores Conference action Friday night, Charlevoix held the Vikings to 10, 11, 12 and 15 points respectively in each quarter while they recorded point totals of 12, 20, 8 and 18 in the same quarters for a 58-48 win.

Charlevoix shot 42 percent from the floor, sinking 26 of 81 shots, while the Vikings went 22 for 59 for 39 percent.

Rebounding, as always, was dominated by Charlevoix. The Rayders outrebounded Grayling 39-20 with Smith contributing 11 and Klooster and Putman nine each. Tim LaBlance led in assists with nine and Klooster logged five blocked shots.

Turnovers were a pesky problem for the Rayders, however, and according to Coach Smith, Friday night's game was the first time this season that the team had more turnovers than their opponents.

Charlevoix is now 12-0 in conference action and 18-0 overall.

Mark Oostmeyer muscles a rebound against Cheboygan two weeks ago.

Pace is lone ski medalist

The Charlevoix girls' ski team placed third and the boys team eighth among 18 teams in all classes entered in the regional meet held at Schuss Mountain.

In the girls' meet, Traverse City placed first with 98 points and Grayling second with 152 to win a chance to compete in the state meet at Crystal Mountain this week.

Charlevoix placed third with 162.5 points.

Medals were won by the top 10 finishers. Charlevoix had one, Christine Pace, who finished ninth in the giant slalom.

Sue Miller finished 15th and Nonie Pace 16th in the event.

In the slalom, Kim Snizik finished 17th; Nonie Pace, 22nd; Cheryl Aull, 23rd and Miller, 28th.

Traverse City also won the boys meet with 58.5 points followed by Petoskey with 98.5. Charlevoix was eighth with 305 points.

In the boys' meet, Pete Cockfield was 17th and Tom Egler 24th in the giant slalom.

In the slalom, Mark Trimper came in 16th; Jason Brindel, 21st and Jim Morgridge, 24th.

The meet marked the end of the 1983 ski season for the Michigan-Huron Shores Conference teams.

3rd and 4th in M-HSC meet

The Charlevoix Rayder Ski teams finished in third and fourth places, respectively, at the Michigan Huron Shores meet held Tuesday at Sylvan Nob.

The Charlevoix boys' team placed third with 115 points behind Petoskey with 53 and Harbor Springs with 95.

The Charlevoix girls' came in fourth with 124 points. Petoskey won the meet with 54; Grayling was next with 106 and Harbor Springs third with 107 points. There were nine teams in each class.

In the boys' meet Pete Cockfield placed fourth; Jason Brindel 11th; Jeff Trimper 12th; Jim Morgridge, 17th and Matt Lignell 24th in the slalom.

In the giant slalom, Tim Egler was ninth; Cockfield, 12th; Trimper, 21st; Sam Supernaw, 29th; Brindel, 30th and Lignell, 31st.

In the girls' meet Nonie Pace was 12th in the slalom followed by Sue Miller, 14th; Christine Pace, 19th; Lenore Erber, 31st and Cheryll Aull, 35th.

In the giant slalom, Christine Pace was sixth; Nonie Pace, 10th; Miller, 14th; Aull, 18th; Erber, 23rd and Susan Duke, 25th.

Wrestlers qualify three

The Charlevoix Rayder wrestling team qualified three of their number for regional competition in the Class C Regional meet to be held at Hart Saturday Coach Greg Bryan has announced.

Grayling won the meet. Charlevoix placed eighth among the 12 schools entered.

Alan Bergmann, wrestling in the 167 pound weight class, placed second after losing by a 10-4 decision to John Solmonson of Grayling. He had defeated three other opponents to advance to the finals. Bergmann now has a 26-2 record for the season.

Mike Steele (126) and Scott Mervyn (185) finished in fourth place. Steele had two wins and two losses; Mervyn had three wins and one loss.

V-ball team to finish with Saints

The Charlevoix Rayder Volleyball team will close out its regular league season Wednesday when the teams host St. Ignace at Parent's Night Coach Walt Drenth has announced.

The first or Junior Varsity game will begin at 6:30 p.m. with the Varsity game to follow.

On Wednesday night the teams each dropped games to strong Rogers City teams. The Varsity lost its matches by scores of 15-1, 15-11 and 15-6, 15-9.

The JV team, playing only one match, lost all three games by scores of 15-4, 15-5, 15-8.

Middle School teams complete regular season

The Charlevoix Middle School basketball team closed out its regular schedule last week before entering the Cheboygan Invitational Junior High tournament on Monday.

The seventh grade team racked two wins during the week, a 40-34 win over Petoskey and a 33-20 victory over Central Lake.

The eighth grade lost to Petoskey by a score of 36-34 and won over Central Lake 50-34.

The seventh grade trailed Petoskey 14-10 at the quarter before going ahead 23-18 at the half and 31-22 at the three-quarter mark.

Dan Drury with 15 points paced the game. Ted Festerling had 13 for Petoskey.

The 33-20 win over Central Lake Thursday gave Charlevoix a 9-1 record for the season. In the game, Charlevoix led Central Lake 16-6, 25-12, and 31-17 by quarters. Drury had 12 points and Chad DeVries 10 for the victors. Jim Disbrow had 11 points for Central Lake.

A bucket at the buzzer by Mike Beer gave Petoskey the 36-34 win over the eighth grade in a game that saw the lead change numerous times in the final period. Charlevoix had gotten off to a 9-8 first period lead and were ahead 22-9 at halftime and 25-15 going into the final period when Petoskey grabbed the lead at the buzzer.

Beer had 10 for Petoskey. Terry Bonar had 12 for Charlevoix with every player seeing action.

In the game with Central Lake, Kevin Shepard joined Bonar in leading the scoring with 12 points each as the victors led 10-5, 21-12 and 33-22 by quarters.

Hall had 11 and Withey 10 for Central Lake.

To enter Cheboygan invitational

The Charlevoix Middle School basketball teams are entered in the Cheboygan Invitational Junior High Basketball tournament after completing their regular season.

Both teams played Monday night with the seventh grade playing the Cheboygan Red team, one of the other seven teams in the tournament. The eighth grade team played the Gaylord St. Mary's team.

The seventh grade winner's bracket is scheduled to play at 4:45 p.m. Monday, Feb. 28 against the winner of the Soo-Cheboygan game. Teams in the consolation bracket will play at 8 p.m. the same day.

The finals in each bracket will be played March 3.

The semi-finals for the eighth grade teams will be held Wednesday, March 2, with the winner-loser of the Charlevoix-Gaylord St. Mary's game at 4:45 p.m.-6 p.m. The finals in the brackets will be played at 4:45 and 7:15 p.m. March 5.

Frosh beat last conference foe

The Charlevoix Rayder freshman basketball team closed out the Michigan-Huron Conference portion of its schedule last week with a 58-48 victory over St. Ignace.

The team was to play East Jordan in the final game of the season on Monday.

The victory over St. Ignace gave the young Rayders a 13-4 record.

In the game at St. Ignace, the Rayders pushed to a 10-9 first period lead, increased it to 21-14 at halftime and 34-24 going into the final period. With all Rayders seeing action, the Saints doubled their score to cut Charlevoix's victory margin to eight points, Coach Barry Anderson said.

Sean Fer[illegible] with 15 points and Jody Putman with 10 paced the victory. Brad Erskine had 12 points for the Saints.

JVs roll in romp over Onaway

The Charlevoix Rayder JVs rolled over the Onaway Cardinals 70-40 in a lop-sided win Tuesday.

The Rayders poured in 32 field goals to the Cardinals' 19 as they led 18-8, 40-18, and 55-32 by quarters.

Charlevoix hit on eight of 11 free throws and had seven personal fouls. Onaway had two of four from the line and six personal fouls.

Eleven of the 13 Rayders who played scored. Thad Morgan had 16 points, Cris Havens 11, Brent Cole and Jim Martin 10 each for the victors. Horrachs had 18 and Beatty 14 for the Cardinals.

Costume ball planned by Crooked Tree Arts Council

The Crooked Tree Arts Council is planning a gala Beaux Arts Ball Costume Party and Fund Raiser at the McCune Arts Center on Saturday, March 5 from 9 p.m. till 1 a.m.

Costumes are encouraged, and are available for rental from the Little Traverse Civic Theatre's costume closet at a cost of $20 for persons who are not theatre group members, or $10 for LTCT members. Jill Leetsma, costume designer, has recently completely reorganised the costumes. She reports that there are lots of outfits which can take you back to whatever era you'd like to be a part of for an evening, and you can contact Jill at 347-4337 to set up an appointment.

There will be a costume-judging parade at the Beaux Arts Party, and prizes to be awarded include two season tickets to the Lakeside Players. Winners will be chosen in such categories as funniest, most unique and most authentic historic costume.

Party admission to all Blaser fund-raider ticket holders and to all in costume will be free. Others will be asked to purchase an Arts Council membership ($10 individual, $15 family) at the door or pay $5 per person.

The Epsilon Jazz Band will play for dancing, and there will be fun and games for all at this gala party. The Beaux Arts parties sprung up in Paris in the early part of this century and are known for their festive atmosphere, with many artists and musicians coming in creative costumes. The Crooked Tree Arts Council hopes to duplicate this festive atmosphere at their first Beaus Arts Party on March 5.

G.S. Troop re-dedicates itself

The members of Troop 264 re-dedicated themselves as Girl Scouts at a special ceremony conducted recently at the home of their leader, Mrs. Kenneth Olinger.

Re-dedication is the renewal of the Girl Scout Promise and laws. At the ceremony, 10 green candles representing the laws and five representing the promise were lighted. The candles were made by the girls. Parents of the troop members attended the ceremony and enjoyed refreshments served by the Scouts.

The 10 energetic members are: Rachel Meyers, Christy Dillon, Jolie Ballard, Kallie Washburn, Stacy Russell, Sonja Wilhite, Natalie Jones, Stacy Bunting, Kendra Olinger, Gretchen Laudenslager.

The leaders are Mrs. Olinger and Carol Wilhite.

Girl Scouts participating in rededication ceremonies included, front row left to right, Natalie Jones, Stacy Bunting, Kendra Olinger and Gretchen Loudenslager; in the top row are Rachel Meyers, Chrissy Dillon, Julie Ballard, Kallie Washburn, Stacey Russell and Sonya Wilhite. (Photo by Jan Ballard.)

V.F.W. to hold dinner for prospective members Saturday

The Charlevoix V.F.W. Post No. 1153 and its Auxiliary will host a dinner for new and prospective members at the post home at 6:30 p.m. Saturday, Feb. 26. Plans for the event were made at a meeting of the auxiliary.

Reservations for the dinner may be made by calling 547-2636.

At the same meeting plans were made for a casserole-salad luncheon to be served at the post home April 8.

Mrs. Albert Russell, Legislative chairman, asked that people continue to write to their representative and senators in Washington asking that they veto the bill now in Congress to withhold 10 percent of the interest earned on savings accounts. Eight replies have already been received from Senators Levin and Reigle and Rep. Davis.

The local auxiliary has contributed $50 to the Special Olympics to help underwrite the cost of sending entries from Bergmann Center to the summer event. Special Olympics has been selected by the organization as their project for the year.

Mrs. Clarence Goldstick attended the recent district meeting held at Indian River as a delegate from the local auxiliary. Clement Olach, post commander, and Clarence Rabach, post quartermaster, represented the post at the meeting at which the district Voice of Democracy essays were read.

Mrs. Goldstick asked members who had not sent their remittances for V.F.W. National Home stamps to do so because the home depends on the revenue from the sale of stamps for its support.

The auxiliary hosted a recent meeting regarding rights and benefits of survivors presented by Ronald Geer, Charlevoix County Veterans Counselor. Members of the American Legion Auxiliary as well as Air Force and Coast Guard wives were invited to attend.

Mrs. Joseph Seidl, Mrs. Robert Rajewski, Mrs. Melvin Plum and Mrs. Goldstick served refreshments following the recent social meeting.

The Auxiliaries of the Charlevoix Post No. 1153, V.F.W., and the Leslie T. Shapton Post No. 226, American Legion, have shown their support of local participants in the Special Olympics by contributing $50 each to Bergmann Center to help underwrite the cost of transportation to the summer Special Olympics. Mrs. Clarence Goldstick, representing both organizations, is pictured presenting the checks to Kenneth Brill, director of Bergmann Center.

FIRECHIEF FOR A DAY *was Joleyn Clark, a student at the Charlevoix Co-op Nursery class. When the class recently visited the Charlevoix Fire Department, some of the students got to try on the chief's hat for size.*

Choir workshop set

A choir workshop will be held this spring sponsored by the Christian Nurture Committee of the United Church of Christ and the Crooked Tree Arts Council.

The Workshop will be held Saturdy, March 19, 1983, at the Charlevoix First Congregational Church, from 9 a.m. to 4 p.m.

Clinicians will include Danford and Emily Byrens of Olivet College, Elizabeth Humphreys from Charlevoix, Ellen Addington from Charlevoix, and Lu Ann Erbes from Harbor Springs.

An organ session sponsored by the American Guild of Organists, will be conducted by John DeKorne from Empire.

The theme of this year's workshop will be vocal skills. There will be sessions for both large and small choirs.

Members of the workshop committee are Fran Tollas, Charlevoix, Barbara Hoig, Brutus, Marion Kuebler, Petoskey, Margaret Thomson, Charlevoix and Payge-Wilson, East Jordan.

The workshop is open to anyone interested in the music of the church. All denominations are welcome.

For more information, call 347-6534 or 547-9479.

NEW AT VILLAGE INN PIZZA *is a daily, all-you-can-eat salad bar buffet, above. From 11:30 a.m. to 2 p.m., lunchtime customers at V.I.P. can select from four kinds of pizza and over 50 other items including soups, fresh vegetables and pasta dishes. Seating at the restaurant has been increased to accomodate the new addition according to owners Jim and Sherry Withers.*

Official Notice

Notice of Public Hearing on Increasing Property Taxes

The Common council of the City of Charlevoix will hold a public hearing on a proposed increase of .25 mills in the operating tax millage rate to be levied in 1983.

The hearing will be held on Monday, March 7, 1983 at 8:00 o'clock in the p.m. at Council Chambers, City Hall, 210 State St., Charlevoix, Michigan.

If adopted the proposed additional millage will increase operating revenues from ad valorem property taxes 2.3% over such revenues generated by levies permitted without holding a hearing.

The taxing unit publishing this notice, and identified below, has complete authority to establish the number of mills to be levied from within its authorized millage rate.

Janis Ley sees importance of music, arts in students' lives

by ANNE KELLY

The arts, especially music, are as important commodity for Janis Ley, music teacher for the Charlevoix middle school and St. Mary's.

Raised in Cheboygan, Janis graduated from Central Michigan University with a degree in music education. After college, she embarked on a teaching career in music. Included in her teaching experience is a position held in Port Austin, Michigan where Janis was responsible for the entire K-12 music program including band and vocal music, teaching elementary band in Durand, and Jr. high school band in Gladwin.

Before coming to the area this past year, Janis married Sean Ley, who is currently the director of the Virginia McCune Arts Center. The Leys reside in Petoskey.

As a music teacher, Janis includes instruction in the elements of music, an introduction to instruments and general music appreciation.

"I follow the Kodaly approach," Mrs. Ley explained. Kodaly, a Hungarian composer and musician, promulgated the theory that "everyone can sing." He collected hundreds of Hungarian folk songs and used them as a tool from which to teach music and music literacy.

Operating on the same assumption, that everyone can in fact sing, Janis first teaches children to work on getting the beat and pitch in simple songs and progresses from there.

"If children can't sing, it's because they probably aren't listening," she said of children who supposedly "can't carry a tune." They haven't been taught to listen to their own voices and those around them. Sometimes their voices are too loud so they can't hear the song, or too soft so they can't hear their own voices. "When they start listening, they start singing better."

An accomplished musician, with instrument of choice being the French Horn, Janis has participated in community orchestras and special performances.

Janis Ley

Photo by Anne Kelly

College Day will feature 33 classes on home, family life, working world

The Michigan State University Cooperative Extension Service will present the seventh annual College Day to be held Saturday, February 26, 1983 at North Central Michigan College in Petoskey.

The theme is "Families: Coping in the 80's". The program is designed for families who are trying to cope with dual roles - those of wage earners outside the home who are continuing with responsibilities in the home.

The thirty-three classes offered center around how to manage the home, family life and the work world. It will address the needs of young families, families of adolescents and those facing stressful situations.

All classes will be taught by area professionals, some from as far as Traverse City.

"And Baby Makes Three - Via Adoption" as one class option. It will be informal sharing on becoming parents through the adoption process. Mr. and Mrs. Steven Maniaci, who have an adopted infant, will discuss their anxieties and joys while awaiting their baby. Sharing the panel are Mr. and Mrs. Ron Graybiel, foster parents.

Women interested in fashion will have an opportunity to hear Jill Leestma, costume-fashion designer, present tips on how to update and remake their current wardrobes.

For families wanting to be mores cost effective in home decorating, Felis Sperra will hold wallpapering and painting classes. An energy efficient window treatment class, with Martha Drake, Extension Energy Coordinator, will be featured.

A wide variety of learning opportunities are offered to meet the needs, interests and concerns of a wide variety of people. Additional classes are: Recognizing Stress in Yourself and Your Family; Family Money Management; Shopping for Child Care; Home Computors - Fact or Fantasy?; Cutting Your Bills, Understanding the Indian Value System; Getting to Like Yourself; Your Food - Eating Better for Less; Seat Belt and Child Restraint Safety; Freshen Up Your Home for Spring; Take Care of Yourself; Social Security: Pre-Retirement and Changes for the 80's and Beyond; When You've Had All The Children You Want; Entering the Work Force Past 30.

There will also be Living in Color; Family Communication: Hidden Pressures and Hidden Messages; How to Survive Your Child's Teen-Age Years; Preventing Child Abuse; Minding your Own Home Business; Families, Alcoholism and Marijuana or How Not to Go Crazy; Infant Care for the Working Parent; Parenting; Single Parenting; Toward More Effective Communication; and, The Two Faces of Eve.

Registration for the day is $2.00, or $5.00 including the luncheon. It is due by February 23 to the Emmet County Extension Office. Child care for 2 to 6 year olds is available but limited to 20 children.

For a free brochure and complete class description list, call Sheri Rhoads, Charlevoix and Antrim County Extension Home Economist at 582-6232 or 533-8607 Ext. 31, or call Julie Michael, Emmet County Extension Home Economist at 347-2596.

ORDER TO RESTRICT SPEARING SEASON

The Natural Resources Commission, at its meeting on October 8, 1982 under authority of Act 230, P.A. 1925, as amended, ordered that for a period of five years beginning April 1, 1983, through March 31, 1988, it shall be unlawful during the month of April of each year to take any fish by spearing or bow and arrow north of Highway M-72 in the Lower Peninsula and from April 1 to April 14, inclusive, of each year between Highways M-46 and M-72 in the Lower Peninsula.

Official Notice

The Marion Township Board of Review will meet at the township hall on Marion Center Road March 8, 1983 at 9 o'clock A.M. for the purpose of reviewing the 1983 assessment roll.

A WELCOME VALENTINE worth over $600,000 was presented to Hayes Township Supervisor Lee Sneathen last week by Consumers Power officials. A check for $606,139 handed over to Sneathen represented the Big Rock nuclear plant's 1982 property tax. On hand were, from left, Big Rock public affairs director Robert Grupp, plant superintendent David Hoffman, Sneathen, and Consumers Power regional representative Dick Dahlquist. Of the 1374 taxing units to which Consumers Power payed $99,729,102 in taxes this year, Big Rock's was the 21st largest single payment.

Oddfellows stretch lead in cribbage tourney

The Oddfellows continue to increase their lead in the annual Masons-Oddfellow cribbage tournament Robert C. Heise, tournament secretary said following Thursday's games at the Masonic Temple.

With seven tables in play the Oddfellows won by 133 points to increase their lead to 1216 points.

Ted Pennell, Sr., led the scoring with 965 points for the Masons. Don Couse had 935 for the Masons.

With only three nights of play remaining in the tournament, action will be at the American Legion Post Home Thursday.

Official Notice

Hayes Township
February 7, 1983

The Regular Meeting of the Hayes Township Board was called to order by Supervisor, Lee Sneathen at 8:15 P.M.

One Member Absent; Leah Green, Trustee

The Clerk's report of the January 1983 regular meeting was approved as read.

A Motion was approved to accept a letter of resignation from Frank Marquardt. Mr. Marquardt will be unable to serve on the Board of Review.

A Motion was approved to appoint Charles Matthews for a 2 year term on the Board of Review.

A Motion was approved to raise the per diem salary of the Board of Review from $35 per day to $50 per day.

A Motion was approved to change the zone on the Glen Huston property on US 31. This is a 12 acre parcel. Zone change from A-1 to I-1. This property is in the process of being sold and the new owner plans to develop a truck terminal there.

The Township received some estimates for road projects being considered for 1983. Ditching and drainage structures on roads in the Susan Shores Subdivision, Estimated Cost, $8,000.00. Grading, Gravel and Triple Seal Coat on a section of Murray Rd. Estimated Cost $22,000.00. No decision on these projects was made by the Board.

The Board received an update on the status of the Zoning Violations at Susan Shores from the Township Zoning Administrator.

The bills were approved for payment by a Roll Call Vote of the Board. Total Bills $2,927.42.

On Motion meeting was adjourned.

Sandra Somerville
Hayes Township Clerk

'Rural Electric Youth Days' to explain role of cooperatives

Area high school students will have an opportunity to learn about farm and consumer cooperatives at Michigan Rural Electric Youth Days '83 to be held April 21 and 22, 1983 at the 4-H Kettunen Center, Tustin. This second annual event is sponsored by Top O' Michigan Rural Electric Cooperative, along with other rural electric co-ops in the state.

Three students from each rural electric cooperative will be selected to attend Rual Electric Youth Days '83.

Tom Hanna, Manager of Top O' Michigan in Boyne City, said students will be selected on the basis of their interest in cooperatives, their commitment to rural life, and their leadership potential.

He said interested students, whose parents are members of the rural electric co-op, should write a letter to the co-op espressing their desire to attend Rural Electric Youth Days '83. The deadline for letters is March 1.

He said chosen students will learn from a variety of activities and speakers about co-ops in general and rural electric co-ops in particular. They will also take part in mock board meetings, where "they will make the decisions for a change".

"Rural Electric Youth Days will acquaint the students with the vital role that cooperatives have in rural America and rural Michigan," Mr. Hanna said. "This is a worthwhile educational experience, especially for those students who plan to remain in areas and occupations where cooperatives will play an important role in their lives.

A total of 40 students are expected to attend the event, which is coordinated by the Michigan Electric Cooperative Association, Lansing.

Contest winners

Ed Olson, Loeb Rd., Charlevoix, was the only entrant in last week's *Courier* Basketball contest to guess the winners in every game. Olson therefore wins the first prize of a $15 gift certificate.

May Ladd, also of Charlevoix, was one of eight entrants to miss only one game but of those she came closest to the tie breaker - in fact she guessed it on the head - thus winning the $10 gift certificate for second place.

Tie Breaker Game
OLESON'S

☐

Pick the number of points you believe will be scored in the tie-breaker game, and write it in the box.

RULES

1. Anyone can enter, except the employees of the paper and their families. Use the entry blank from the paper or make your own, following the same plan. A copy of the Charlevoix Courier will be available at the Courier office to anyone wishing to copy the list of names.

2. Weekly gift certificates will be awarded to the persons naming the most winners. All tie games are considered incorrect unless picked as ties on your entry blank. In case of a tie, persons guessing nearest correct score in the tiebreaker box will win. Insert what you think total score will be of the game in the tie breaker box.

3. Gift certificates are redeemable at any of the participating sponsors on this page only. Entries should be addressed to: Contest Editor, Charlevoix Courier and postmarked by not later than 5 p.m. Thursday night. Winners will be announced the following weeks.

4. On the entry form simply draw a circle around the number of the team you predict will win each of the games listed in each of the ads. Then, predict the total on the points "tie breaker" at the bottom of the entry form.

For Your Information

Building

The following building permits were issued last week by the Charlevoix County Department of Building Inspection:

Larry Smith, Morton Buildings for Jim Sherman, Rockford, Illinois, to construct pole barn on Mountain Rd., Eveline Township.

Walter A. Graff, demolish storage building, M-66, Eveline Township.

Myron Matz, for McVeigh Goodson, construct addition, 119 Coleridge, Belvedere Club, Charlevoix.

Ivan Witthoeft, construct garage addition, Old Orchard Road, Charlevoix Township.

Roger C. Jones, construct roof over mobile home, Deer Lake Road, Wilson Township.

McCafferty Construction, for Richard Prawat, Williamston, MI, construct new residence, Allen's Lakeview Rd., Peaine Township.

Seals & Roberts Construction, for Earl Schreiber, Birmingham, remodel residence and construct addition, 519 W. Michigan Ave., Boyne City.

Court

Circuit

The following new cases were filed last week in Circuit Court:

Mark Kantola vs. Secretary of State of State of Michigan, (Petition for reinstatement of drivers license).

Vallerie A. Ploe vs. William J. Ploe (Complaint for Divorce).

Lonnie R. McBee vs. Terril L. McBee (Complaint for Divorce).

Wayne E. Boss and Sandra L. Boss vs. John Best, individually and d-b-a John Best Agency (General Civil).

District

The following cases were recently decided by Judge Harvey C. Varnum in the 90th District Court, Charlevoix:

James A. Clark, 18, Charlevoix, impaired driving, $225 fines and costs, three days in jail with credit for one, one year probation and court referral program.

Alfred P. Volz, 25, Charlotte, impaired driving, $225 fines and costs, three days in jail with credit for one, one year probation and court referral program.

Daniel J. Murray, 22, Charlevoix, impaired driving, $225 fines and costs, three days in jail with credit for one, one year probation and court referral program.

Peter J. Sweeney, 22, Charlevoix, impaired driving, second offense, $505 fines and costs, ten days in jail with credit for one, two years probation and court referral program, one year suspension of license with restrictions.

Kenneth J. Myers, 25, Boyne City, impaired driving, second offense, $505 fines and costs, 30 days in jail with credit for one, one year probation and court referral program, one year suspension of license with restrictions.

James D. Ehrcke, 40, Charlevoix, attempted resisting and obstructing, $205 fines and costs; one year probation and court referral program.

Dean Hicks, Boyne City, malicious destruction of property under $100, $205 fines and costs, one year probation and court referral program, restitution to injured party.

Edward G. Brannon, 19, Boyne City, shoplifting, $105 fines and costs, one year probation and court referral program, restitution to injured party.

Births

The following births were recorded last week at the Charlevoix Area Hospital:

A son, Brad Michael Lavanway, was born February 11 to Phillip and Caroline Lavanway of East Jordan.

A daughter, Cailin Jill Dulaney, was born February 16 to Rollin and Sharmon Dulaney of Charlevoix.

A son, Kyle Allan Louiselle, was born February 16 to Richard and Carol Louiselle of Charlevoix.

Fire calls

The Charlevoix Fire Department responded to the following fire calls last week:

Friday, February 18, 7 a.m.: Chimney fire at McClanathan residence on M-66 in Marion Township.

Friday, February 18, 4:23 p.m.: Dumpster fire at the House of Royalty, 1110 Bridge St.

Country Ceramics by Carolyn Esch, Box 32, Sloptown Rd., St. James.

Colwell & Co., Realtors by Edward T. Colwell, 228 Bridge St., Charlevoix.

Redman Enterprise by William H. Redman and Joan L. Redman, 14270 Pleasant Valley Rd., Boyne City.

Nik's Refrigeration & Appliance Repair by Nikka Jo DeCeuster, Rt. 3, Box 368A, Burnett Rd., Charlevoix.

Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment Plant:

Date	High	Low	Precip.
Feb. 14	35	28	.01" rain
Feb. 15	34	28	.01" rain
Feb. 16	34	28	.01" rain
Feb. 17	35	20	.16" rain
Feb. 18	34	22	0
Feb. 19	45	27	Tr. snow
Feb. 20	56	26	0

Marriages

The Charlevoix County Clerk issued the following marriage licenses last week:

David Lee Scott, 18, and Corinna Irene Argetsinger, 19, both of East Jordan.

Assembly of God to host Leadership Training seminar

The Charlevoix Assembly of God Church will be hosting a Leadership Training Seminar on Feb. 28-Mar. 2 at 7:00 p.m. each evening. Rev. Randy Stoecker will be the seminar speaker. Rev. Stoecker pastors the fast-growing Pennfield Assembly Church in Battle Creek, Mi.

The theme of the seminar will be "Motive Plus Message Equals Ministry". An in depth look will be taken at each of these areas and such topics as priorities, exercising liberty, methods, growth attitudes, etc. will be discussed.

An invitation is extended to all who consider themselves a part of the body of Christ, and want to see His kingdom built, to join us for these sessions. there is no cost for the seminar.

Refreshments will be provided.

Pastor Randy T. Stoecker

Last Library Activity Hour to be on making puppets

by ANNE KELLY

Nancy Smith has been working with and loving puppets for the past 5 years. This Saturday she will be concluding the Library Activity Hours for children with a puppet making class. This one is recommended for kids grades 1-4.

There's more to puppetry than how to make them. One has to know how to use them once made. Nancy, who has attended puppet seminars in Massachusetts and Maine has made and presented puppet shows with all styles of puppets, including the Muppet style.

"It's amazing to see how the children relate to a puppet," says Nancy of her craft. "Even though they know it's only a puppet and can see the person who brings it alive, they still will tell the puppet things they wouldn't tell an adult."

Children will be creating puppets made from socks and felt. Materials for the workshop will be supplied.

Nancy Smith and friend.

Official Notice

NOTICE OF PUBLIC HEARING
Budget Ordinance
City of Charlevoix

The Common Council of the City of Charlevoix will hold a Public Hearing on Monday, March 7, 1983 at 8:00 P.M. in Council Chambers at 210 State St., Charlevoix, Michigan for the purpose of reviewing the proposed ordinance to adopt the 1983-84 annual operating budget for the City of Charlevoix. Names In The News

GRETCHEN R. GOEBEL of East Jordan was among students from this area who were awarded degrees from Central Michigan University following the fall semester in December. She received a Bachelor of Science degree in Education with a major in Teaching the Emotionally Impaired.

•

Included on the honors list at Central Michigan University for the fall semester ending in December were, from Charlevoix, senior PAMELA S. BEATTY, sophomore SHERYL L. COOK, junior GERDA O'BRIEN and freshman SALLY J. WESTENBROEK; from East Jordan, senior KIMBERLEY BARNETT; and from Ellsworth, junior KIMBERLEY HEERES.

•

Airman Dale M. Pleszko, above, son of Ronald Pleszko of Bayshore and Joan S. Pleszko of Westland, Mich., has been assigned to Keesler Air Force Base, Miss., after completing Air Force basic training. During the six weeks at Lackland Air Force Base, Texas, the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree in applied science through the Community College of the Air Force.

The airman will now receive specialized instruction in the commonications-electronics systems field.

He is a 1982 graduate of Charlevoix High School.

•

Charlevoix High School seniors have successfully completed the American College Test and, as semi-finalists, are eligible for Michigan Competitive Scholarships.

They are KRISTEN ALLARD, GREGORY ANDRICK, CHARLES BAER, DAVID BATDORFF, ALAN BERGMANN, STEVEN COOPER, WILLIAM DOHM, LISA FINCK, THOMAS KEY, CRAIG KLOOSTER, SUSAN KNIGHT, MICHAEL R. MARTIN, JACK MORAN, MARK MOSLEY, MARK OOSTMEYER, AUZANNE PARKER, MICHELLE RAUM, STEVEN SCHMIDT, and JOHATHAN SUPERNAW.

•

Army Pvt. RALPH F. JONES, son of Ralph W. and Glenda L. Jones of East Jordan, has completed basic training at Fort Leonard Wood, MO.

During the training, students received instruction in drill and ceremonies, weapons, map-reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

4-H Youth Program to be held at PHS

"Exploring Today and Imagining Tomorrow", an Emmet County 4-H Youth Program, is being held March 14 at 7:30 p.m. in the Petoskey High School Team Teaching Room. This event will feature fashions created and-or sewn by 4-H youth along with spring and summer fashions from the J.C. Penney Store. This is the 37th year of cooperation between 4-H programs and J.C. Penney.

The fashion commentator will be Carolyn Chambers, who has taught 4-H'ers the "ins and outs" of sewing for four years.

The 4-H Penney Party will also feature a slide presentation on EPCOT Center (a Walt Disney vision) - narrated by Rod Cortright, Cooperative Extension Director from Charlevoix County.

The 4-H Penney Party has been a harbinger of spring for a number of years, and in 1983, will bring forth a galaxy of color and styles from the ever popular warm-up suits in soothing shades of pastel to appliqued skirts and tops adorned with frolicking frogs, moouth-watering strawberries or tantalizing tulips!!

The public is welcome. No admission. Door prizes.

Questions? Call the Emmet County Cooperative Extension Office at 347-2596.

James Smith was the recipient of the first Leonard "Pete" Burns Memorial Award to be presented annually to the scout who personifies the ideals of scouting. Mrs. Michael (Jan) Raecke, daughter of Mr. Burns, made the presentation at the annual Boy Scout banquet as Scoutmaster Louis Edwards looks on.

Smith wins Burns Award

by FRAN MARTIN

The presentation of the first "Scout of the Year" Award to James Smith of Troop 11 and a film strip projector to Troop 11 in memory of veteran Scouter, Leonard "Pete" Burns highlighted the program at the annual Boy Scout banquet held recently at the Charlevoix High School cafeteria.

The award, named for Mr. Burns who was involved in Scouting from 1948 until 1970, will be presented annually to the Scout who best personifies the ideals of Scouting. The selection will be made by the Scout Committee.

The recipient will receive a plaque designating him as "Scout of the Year". An accompanying plaque will carry a picture of Mr. Burns and the dates 1907-1982 along with a brief history including such information as: he was a lone Scout while growing up in Hayes Township; the 22 years he was involved in Scouting during which he served as Cubmaster, Scoutmaster, Scenic Trails Council Commissioners and Scout Committeeman; he received the Silver Beaver Award in 1966, the highest honor a Council can present a volunteer and that he was a teacher and coach in the Charlevoix Public Schools from 1947 until he retired in 1970. Mr. Burns died in June 1982.

An accompanying plaque will carry the names of the recipients of the Scout of the Year award.

James Smith, the first recipient, has been involved in the program as a Cub and Boy Scout for six years and at the banquet received the Life Rank Award. Gerald Chase also received the Life Rank Award.

The film strip projector will bear a small plaque as a memorial to the veteran Scouter.

Mrs. Michael (Jan) Raecke, daughter of Mr. Burns, in making the presentations said "My Dad loved Scouting. He would be pleased that his name will be perpetuated in the Scout program to which he had devoted so much time". Louis Edwards,, veteran Scoutmaster, accepted the projector in behalf of the troop.

Rank awards were presented by Scoutmaster Edwards and his assistant, John Houting, and members of the Scout committee. The new Scout rank was presented to Jason Wiser, James Gaskin, Bill Burns and Scott Novotny; Tenderfoot Award to John Norman, Matthew Dixon, David Salmonson, Jason Wiser and Bill Burns; Second Class Award Michael Smith, Brian Phillips, Harold Chase and Patrick Rajewski; First Class, Richard Thayer and Tim Salmonson.

Thirty-four merit badges were presented by Robert Rajewski; Skill awards were presented by Gerald Chase, Richard Wurst and Robert Norman; Badges of office by Scoutmaster Edwards and John Houting; mile swim award by Brian Granger, Northern District Scout executive; Polar Bear award by Mr. Houting; year pin presentations and perfect attendance awards.

The program included camping slides with accompanying music by Terry Salmonson; skits by the Owl and Fox Patrols and a report on the winter campout by Matthew Dixon.

James Smith served as master of ceremonies.

Scouts are: James Smith, senior patrol leader. Owl Patrol: John Norman, patrol leader, Michael Smith, Matthew Dixon, Brian Kerr, David Salmonson, James Gaskin, Jason Wiser.

Fox Patrol: Brian Phillips, patrol leader, Harold Chase, Patrick Rajewski, Scott Novotny, Barry Loper, Bill Borns, Pat McKay.

The leadership corps members are Robert Norman, Richard Wurst, Gerry Chase, Richard Thayer, Tom Ochs and Tim Salmonson.

Scout committee members are Valois Avery, Gunnar Lundteigen, John Houting, Melvyn Thayer, Gerald Chase, Terry Salmonson, David Novotny, Robert Rajeswki, Frank Schuck, Charles Bergmann and Scoutmaster Edwards.

Gerald Chase was presented the Life Scout award at the banquet by District Scouting Executive Brian Granger, right, as his parents, Mr. and Mrs. Gerald Chase, left, look on.

Crooked Tree volunteers meet

Approximately thirty Crooked Tree Arts Council volunteers from Charlevoix, Pellston, Harbor Springs, Goodhart, Boyne City, Petoskey and Mullett Lake met on Tuesday, February 1, for their monthly meeting, in the Gallery at the McCune Arts Center.

After a brief business meeting, potter Bonnie Staffel gave an informative, educational talk concerning her work over the years in pottery. She illustrated her presentation with slides of the various stages of the process of her art. Many of those present are planning a trip in the near future to her studio. Bonnie also told the volunteers how important the Art Tree Shop at the Center is as an outlet for the work produced by artists in the area, as well as providing income for the operation of the building.

Mary Latimer, volunteer coordinator, reported on the docent program which Jan Glass, Charlevoix artist, is heading. The docents, under Jan, will have monthly mandatory training sessions to familiarize them with the present Gallery exhibit, the Arts Council's work and current programs and the history of the building. Docents will then be available to greet groups such as school classes and area clubs who come to visit the Center, or to go out to the schools with presentations. Any persons with an interest in art who would like to consider joining this docent program, please call the Center at 347-4337.

Engagements

Lenihan-Martin

The engagement has been announced of Elizabeth A. Lenihan and Mark G. Martin, both of Troy, Michigan. she is the daughter of Mr. and Mrs. Robert Lenihan of Troy and he is the son of Mr. and Mrs. Norbert G. Martin, 406 Antrim St., Charlevoix.

A June 11, 1983 wedding is planned at St. Peter & Paul Catholic Church in Detroit.

The bride-to-be received a Bachelor of Arts degree in Political Science from the University of Michigan in 1982 and is currently attending the University of Detroit Law School. The groom received at Bachelor of Science in Civil Engineering degree from the University of Michigan in 1982 and is currently employed as a structural engineer with Detroit Edison Company. He is also a part-time graduate student at the University of Detroit working toward a Masters degree in Civil Engineering.

Ivan Whitley is dead at 47

Second Ward City Council member and longtime Charlevoix businessman Ivan Whitley died at his home early Toesday morning following a long illness. He was 47. Whitley was co-owner of the Whitley Floor Covering firm and was elected to the City Council last November. He had been a member of the council for several years before his most recent term. A full obituary will follow in next week's *Courier*.

Big Rock to seek temporary fuel storage

Consumers Power Company, owner of the Big Rock nuclear power plant, is preparing an application for permission to store fuel bundles in a temporary storage rack during routine inspection of the reactor core.

Big Rock is due this year for onsite inspection of the reactor core, a procedure required by the Nuclear Regulatory Commission to be carried out every ten years. The problem, however, is that 84 fuel assemblies must be removed for the inspection and there are only 61 open spaces on existing racks to store them.

According to Robert Grupp, plant spokesman, the application is expected to be ready for filing with the NRC within the next two weeks.

Christa-Maria, a member of the Concerned Citizens of Charlevoix, said Monday that her group will most likely contest the addition of a temporary fuel storage rack but that no specific response will be made until the application is filed and made available to the public.

Some concerns mentioned by Christa include the degree of exposure of Big Rock employees to radioactive materials during the offloading procedure and capability of the concrete fuel pool to accomodate the temporary storage arrangement.

The reactor inspection is planned to be carried out by a completely mechanized ultra-sound unit. Grupp said that the application for temporary storage is for a period of 70 days.

County Board keeps buses running

By FRAN MARTIN

The Charlevoix County Board of Commissioners approved application to the Department of Transportation for state funds for the Charlevoix County Transit System at its regular meeting recently.

Arthur Saworski, who was re-appointed as liason between the county board and the Department of Transportation at the same meeting, said the application was a formality and that the request for funds could be cancelled any time prior to 30 days before the allocation of funds.

The proposed budget for 1984-85 has been set at $315,000. Of this amount $143,083 will come from the state: $76,570 from federal sources; an estimated $68,000 from the fare box and $27,372 from local sources.

James McGarry, past president, and James Marshall, coordinator for Big Brothers/Big Sisters of Charlevoix County, addressed the board, asking for financial support in the amount of $3,550 until the organization can find alternative funding. Formerly funds from a Juvenile Justice grant had helped support the organization. These funds have been diverted to a program for juveniles operated by Michael Davis. The request was referred to the Ways and Means Committee.

The board gave approval to a ruling that unscheduled appearances before the board will be limited to five minutes unless otherwise authorized.

Ronald G. Geer, Charlevoix County Veterans Counselor, presented his annual report to the board and answered questions relating to his office. Members of the Veterans Council attended the meeting with him.

Approval was given the recommendation that Cyndie VanderGriff be hired as a half-time reporter and half-time deputy, juvenile deputy at the Probate Court.

Sheriff George T. Lasater, in a communication to the board, advised that all 10 infant seats at the department were presently on loan.

Donald Smith presented a report on the Northwest Regional Planning Commission and Oral Sutliff on the Michigan Association of Counties meeting they had attended.

The next meeting of the board is scheduled for 9:30 a.m. Wednesday, March 9.

Skip Patrie was uniquely Charlevoix

By TOM DAMMAN

The short man, a dark blue beret carefully fitted over his gray hair, spectacles over his quizzical eyes, his right hand holding a stubby briar pipe to his mouth, was a familiar figure along the Charlevoix waterfront for a third of a century.

Just a casual glance at him told an observer that he was a person worth knowing. A short conversation verified that Geoffrey A. "Skip" Patrie was indeed a many faceted man, whose resources and accomplishments were not readily revealed.

He loved boats, built them and wrote about them.

He loved history and wrote about it.

He had an absorbing interest in statistics which he applied to poker, among many things. He made a board displaying the mathematics of poker, with all its winning hands. Of being dealt, a simple pair, he wrote, a player has one chance in two and a half. For a royal straight flush, he calculated the chances are one in 649,740.

Skip was a purist, when it came to poker. He had no use for wild cards and all the other frills that the majority of card players use.

He was an inventor.

He designed and built a folding boat table.

In 1943, he copyrighted the "Geographic", a hand fact finder, which by simply turning a cardboard wheel would give one all the pertinent facts, from population to industry and farming, about each of the then — 48 states.

Skip died at the age of 93, a few days ago in Charlevoix Area Hospital, his fertile brain destroyed by a massive stroke.

His immediate memorial is the Fairport Marine Electronics Marina on Round lake, which he founded in 1966 after he came here from Sheboygan, Wis., across the big lake. The marina is one of three in Michigan, specializing exclusively in the installation and care of such electronic marine equipment as radar, Loran C (a long range navigation system) and radio telephone.

Skip was born in the French Canadian community of Nadesu, Mi., near Escanaba in the Upper Peninsula. He always wanted to work on the railroads and so on May 12, 1913, he applied for a job as a telegraph operator for the Chicago and Northwestern Railroad. After several assignments he was transferred to Sheboygan in 1917.

A few months later he enlisted in the Navy as a radio operator. He was stationed at Mount Desert Island, off Bar Harbor, Maine, as a radio communications specialist, receiving coded messages from the Navy High Command in Europe, which he relayed on to Washington. After his discharge in 1919 he returned to Sheboygan, retiring in 1966.

It was there he met Muriel Dressler, whom he married in 1923. They have two children, David who manages Fairport and Mrs. James (Joan) Milske, of Gresham, Wis.

Skip's varied interests bloomed during those years in Sheboygan.

He became interested in boats and restored three old fishing boats, each of which he named SINBAD.

In the '40's, he took up writing a column called "Minute History" for the Sheboygan PRESS, which described the historic events of the day; and a monthly feature called "Porthole Patter" for LAKELAND BOATING, a monthly nautical magazine which recently moved its headquarters from its Sheboygan birthplace to Ann Arbor.

In the late forties and early fifties, Skip and his wife began exploring the east shores of Lake Michigan, fell in love with Charlevoix and moved here permanently when he retired in 1966.

He bought a small marina.

"It was nothing but a dilapidated boat house, when we bought it," he told an interviewer some years ago. "We fixed it up, had boats and scuba gear for rent, and sold bait."

He took in a partner, Philip Lawrence, who had a TV service in Sheboygan and was an ham radio operator. It was only natural that they began to emphasize marine electronics, then in its infancy on the Great Lakes. When son David, who had become an electronics specialist in Milwaukee, moved to Charlevoix to join the enterprise in 1962, Fairport became exclusively engaged in marine electronics.

At about that time, Skip found an all purpose tug boat that had been used to carry freight, mail and passengers between Mackinaw City and Mackinac Island.

Named the Buddy L. the boat was affectionately called the "Bloody L" because she would sail when nobody else would," David said, during the inverview with his father.

"When I found her, they were going to haul her out of the water and convert her into a fish camp house," Skip interjected, obviously still outraged.

He bought her and brought her back to Charlevoix.

"I tore everything off her from stem to stern and put a good floor on her hull, so I'd have a walk around deck," Skip continued. "We have a 15 horsepower gasoline motor and comfortable accommodations for four people."

They named the tidy little vessel WAMPUM and because he was its skipper, the senior Patrie was named "Skip". Prior to that he had always been known as Pat.

On Monday, October 7, 1968, father and son left Charlevoix on a trip that provided them with enough anecdotes for many a long night of tale telling. They took Wampum to Chicago, then down the Illinois and Mississippi Rivers.

As we approached New Orleans the river on the Mississippi side became more and more commercial," Davis recalled. "Then we took the canal into Lake Pontchartrain, where it was all yachts and sailboats as far as you could see, and our wake became foamy from churning up the brackish water.

Skip spent his winters aboard the WAMPUM in various Florida hamlets and his summers in Charlevoix. Occasionally David joined him in Florida to help move the boat to a new docking.

Early in April, 1972, they began the long trip back home, up the Atlantic Intracoastal Waterway, through the canals and sounds of Georgia and to Cape Hatteras, revelling all the while in the new sights and beauties they passed.

For Saints and Sinners

by Pastor James Plackner
Bethany Lutheran Church

"Awesome Love"

Just as every good football team should know when to punt, so should every good pastor know when to quote. Therefore I offer you this section of a devotion written by Larry Neeb of Creative Communications for the Parish, St. Louis. Read and stand in awe of God's love for you.

"The really Good News in the Gospels is that God's love knows no limits. He is extravagant in His love for us, stopping at nothing to reclaim us as His sons and daughters. But that special unconditional love that God has for us also means that Lent is the story of the power we have over God. When someone loves you, you have great power over them — power to make them happy or power to make them sad. That's always the way it is with lovers. One little word, a smile, the smallest of gifts can bring incredible joy. Perhaps you can remember when you were a little child how easy it was for you to bring joy (or sadness) to your parents with a small gift which you made yourself but brought to your parents because of your special love for them. Because their love was so great for you, they really could not be happy without your appreciation, and even the smallest of gifts could be an expression of that special love. It is a marvelous thing to be a fiancee, to have such power over another that the least little thing can bring pleasure. And so it is with the passion of God. He has made Himself defenseless and handed Himself over to us, extending Himself into our history in order that He might become vulnerable to our acceptance."

Vulnerable — able to be hurt by you — able to suffer because of you — able and willing to die — for you. God's love in Christ for you makes Him that vulnerable.

That kind of love is awesome — it takes your breath away. It also takes away your sin and gives you forgiveness — takes away your death and gives you life. And that love is for you whether you love Him back or not! But what else can you do with that kind of love?

Winners named in ski races

The following winners were awarded medals at the 1983 Winter Cup festival held Sunday, February 20 at Mt. McSauba in Charlevoix.

Downhill ski races:

Bunny group: 1. Steve Kang, 2. J.H. Heck, 3. Justin Gengle.

Girls 7-9: 1. Becky Martin, 2. Heather Keller, 3. Elizabeth Campbell.

Boys 7-9: 1. Brian Coolman, 2. Guy Gengle, 3. Jason Pajtas.

Girls 10-12: 1. Allison Hall, 2. Marci Center, 3. Michelle Mailloux.

Boys 10-12: 1. Shawn Putman, 2. Marvin Wittboeft, 3. Jacob Smith.

Girls 13-15: 1. Wendy Volsin, 2. Lauren Pace, 3. Heidi Olinger.

Boys 13-15: 1. Rusty Coolman, 2. Kari Erber, 3. Mike Chew.

Girls 16-18: 1. Sue Miller, 2. Tammy Olinger, 3. Wendy Olinger.

Boys 16-18: 1. Tom Egler, 2. Chris Gibbons.

Bumpjumper races:

Nine & under: 1. Kristin Harvey, 2. Kurt Harvey, 3. Todd Hamill.

10-12: 1. Ted Behan, 2. Keith Harvey, 3. Chris Seymour.

13-15: 1. Brett Nye, 2. Kerri Harvey, 3. Bob Sharrow.

16-18: 1. Chris Gibbons, 2. Sue Miller, 3. Tom Egler.

16 & over: 1. Guy Wager, 2. Bo Boss, 3. Jeff Babrick.

Tom Egler edges past Chris Gibbons in the slalom races held at the Winter Cup festival.

Obituaries

MARION T. ALLEN

Marion Turner Allen, 61, a frequent visitor to the Charlevoix area, passed away on Feb. 21, 1983. She was born in Lansing on May 18, 1921 to Howard Elmer Turner, and Cora Marie Lee.

She had been associated with the Mich. Dept. of Public Health since 1948, serving as Secretary to the Chief, Bureau of Laboratories, Office Manager, Administrative Analyst, and Program/Personnel Coordinator for the Bureau of Disease Control and Laboratory Services.

Surviving are: Husband, Judge Glenn S. Allen, Jr. of the Michigan Court of Appeals, and former Mayor of Kalamazoo; 2 stepdaughters, Mrs. Gale (Holly Allen) Mull of Atlanta, Ga., Susan Allen Karpen of Eaton Rapids; 3 grandchildren, Carter Mull, Ginger Verdier Watson, and Glenn Allen Watson. Religious services were conducted by Rev. William S. Hill at 11:30 a.m. Thursday at St. Paul's Episcopal Church, with interment in Evergreen Cemetery.

E.L. ROBBINS

Funeral services for E.L. "Jack" Robbins, 78, who died February 21 at his North Point home, were held Thursday at the Zaagman Memorial Chapel in Grand Rapids. Interment was in Chapel Hill Memorial Gardens.

Born in Hesperia June 20, 1904, Mr. Robbins had spent most of his life in Grand Rapids where he operated the Robbins Lock Shop from 1941 until he retired in 1964. On May 4, 1962, he was married to the former Lucille Hendrickson. They had spent the summer months in Charlevoix for 14 years prior to moving here three years ago to make their home.

Besides his wife, he is survived by two daughters, Mrs. Myron (Gaye) Scott of Saunders, Ala., and Mrs. Edward (Chara) Potyraj of Grand Rapids; five grandchildren and three great-grandchildren.

Visitation was held at the Winchester Funeral Home Monday evening prior to the service in Grand Rapids.

EDWARD J. EDWARDS

Funeral services for Edward J. Edwards, 90, who died Sunday at the Charlevoix Area Hospital, will be held at the Winchester Funeral Home at 2 p.m. Wednesday. The Rev. Charles Hastie and the Rev. Raymond Giffin of the First Congregational Church will officiate. Interment will be in Brookside Cemeter.

Friends may meet the family from 2 until 4 p.m. and 7 until 9 p.m. Tuesday.

Born in Charlevoix Feb. 12, 1893, Mr. Edwards was graduated from the Charlevoix High School and Albion College in 1918. During World War 1, he served in Europe with the U.S. Army. On March 27, 1921, he was married to the former Ethelyn Morrison at Petoskey. They always made their home here expect for a short time spent in Elkhart, Ind., and Toledo, Ohio. He was associated with his father in the Edwards truck farm and later was manager of the Waller farm known more recently as Birchwood Ranch. He was manager of the Belvedere Club including seven years as manager of the Belvedere Hotel for 27 years prior to his retirement in 1962. He later was maitre d' hotel at the Weathervane Inn.

He was affiliated with the First Congregational Church; member and the second post commander of the Leslie T. Shapton Post No. 226; life member of the Charlevoix Lodge No. 282, F. & A.M.; member of the Knights of Pythias; member and past president of the Charlevoix Chamber of Commerce; member of the Charelvoix Area Hospital Board of Directors for 14 years and a former director of the First State Bank.

Besides his wife, he is survived by a daughter, Mrs. Margery Malone of Jacksonville, Fla; a grandson, Paul Malone of Ypsilanti and two brothers, Arthur S. and Arthur V., both of Charlevoix.

The family suggests memorials to the Charlevois Area Hospital.

WALTER D. KRUEGER

Funeral services for Walter D. Krueger, 60, who died Saturday at the Charlevoix Area Hospital, were held Tuesday morning at St. Mary's Church. The Rev. R. Dale Magoon officiated. Interment was in St. Mary's Cemetery.

The Rosary was recited at the Winchester Funeral Home Monday evening.

Born in Sandusky, Ohio, Aug. 18, 1922, Mr. Krueger became employed at the Bay Bridge Plant of the Medusa Cement Co. in Sandusky in 1941. He later was employed at the Manitowoc, Wis., plant from 1960 until coming to Charlevoix in 1967 as personnel clerk at the South Point plant here. At the time of his death he was plant and personnel administrator. He was married to the former Delores Higgins at Sandusky Jan. 22, 1942. He was a veteran of World War II having served with the 103rd A.A.B.B. He was a member of St. Mary's Church, V.F.W. Post No. 2529 in Sandusky and the Charelvoix V.F.W. Post No. 1153.

He is survived by his wife; three daughters, Mrs. Paul (Sharon) Parrish and Mrs. Dale (Debbie) Boss, Jr., both of Charlevoix, and Mrs. David (Linda) Nolan of Chagrin Falls, Ohio; three grandchildren; a brother, Donald Krueger, and a sister, Mrs. Louis (Betty) Biglin, both of Castalia, Ohio.

The family suggests memorials to the Charlevoix Area Hospital.

There were few empty seats for the N.M.R.T.A. annual conference Thursday night.

Photos by Vincent Chew

Reading conference draws large crowd

About 380 area teachers and school administrators were packed the East Jordan High School gym Thursday evening February 24 for the seventh annual Reading Conference sponsored by the Northern Michigan Reading Teachers Association.

The program, "Writing is for Reading", was highlighted by guest speaker Jacque Woertenberg, a widely known author, consultant, lecturer and reading instructor from St. Louis.

Among publications authored by Ms. Wuertenberg are "Helping Children Become Writers", "The Playful Learner", "Helping Children Write", "The Classroom Writing Collection" and "Reflections on Writing".

Displays featuring Ms. Wuertenberg's books and those from other reading education publishers were inspected by participants. Also featured as part of the program was a film festival and dinner.

Teachers look through book displays at the conference.

Jacque Wuertenberg

Oddfellows pad cribbage lead

The Oddfellows, after eight weeks of play in the annual Masons-Oddfellows cribbage tournament, now lead by a margin of 1668 points according to Robert C. Heise, tournament secretary.

With eight tables in play, Bruce Reinhart was high for the night with 982 points. Thurmond McKinney had 933 for the Masons.

Play this week will be at the Masonic Temple.

Charlevoix to host District band festival

by FRAN MARTIN

The Charlevoix High School will be the site of the annual District II Michigan School Band and Orchestra Junior High Festival Friday and Saturday Terry Isenbarger, festival host, has announced.

Twenty-two junior high bands and one orchestra will join the Charlevoix eighth grade band at the festival.

Each entry will play three concert selections and each will be asked to sight read two pieces of music they have never seen. The bands will be adjudicated by three concert judges and one sight reading judge. Each band will receive a rating from I to V with the I being the highest.

Those bands that receive a I rating will qualify for the state festival to be held early in May.

The Charlevoix Eighth Grade Band will open the festival at 6:30 p.m. Friday at the Charlevoix High School gymnasium. The concert portion of the festival to be held in the gymnasium is open to the public without charge.

The schedule for the festival follows:

6:30 p.m. Friday: Charlevoix Eighth Grade Band; 6:55 p.m. Cheboygan Eighth Grade Band; 7:20 p.m. Rogers City Eighth Grade Band; 8:00 Northport Symphonic Band; 8:25 p.m. Posen Junior Band; 8:50 p.m. East Jordan Eighth Grade Band.

The Saturday division of the festival will begin at 8:00 a.m. with the Petoskey Eighth Grade Band; 8:25 a.m. Kalkaska Middle School Concert Band; 8:50 a.m. Glen Lake Concert Band; 9:30 a.m. Boyne City Eighth Grade Band; 9:55 a.m. Inland Lakes Junior High Band; 10:20 a.m. Harbor Springs Middle School Bnad; 10:45 a.m. Ellsworth Junior High Band; 11:10 a.m. Traverse City Junior High Concert Band; 11:35 a.m. Traverse City Junior High Symphony Orchestra.

1:00 p.m. Gaylord Eighth Grade Concert Band; 1:25 p.m. Traverse City Junior High Symphonic Band; 1:50 p.m. Suttons Bay Junior Band; 2:15 p.m. Frankfort Junior High Band; 2:40 p.m. Mancelona Middle School Band; 3:20 p.m. Onaway Area Junior High Band; 3:45 p.m. Bellaire Junior High School Band; 4:10 p.m. Elk Rapids Middle School Band; 4:35 p.m. Central Lake Junior High School Band.

The Charlevoix Band Boosters will assist throught Friday evening and Saturday by supplying a corps of members to assist in various areas including the concessions facility.

Adoption service

The Gaylord office of Community, Family & Children Services provides infant adoption services to residents of Charlevoix, Cheboygan, Crawford, Emmet, Otsego and Roscommon counties. Reflecting the fact that the need for adoptive homes for healthy infants has decreased markedly in the last five years, the agency's waiting list is closed from time to time. The agency has had a closed waiting list since December 1981.

Effective February 1, 1983 however, the agency is once again taking names and addresses of couples interested in adopting and attending an orientation meeting to be held in late spring. This meeting is open to anyone interested in information about adoption.

Additional information may be obtained by contacting Ellen Campbell at Community, Family & Children Services, 202 W. Mitchell, Gaylord, MI 49735 or telephone (517) 732-5313.

Opinion

Knight on the Town

Foresight needs hindsight

A glance at the front page of today's *Courier* reveals an unintended but rather appropriate theme that is coincidentally carried out in a few other stories this week.

Page one mourns the passing of two respected elders but also celebrates the delightful innocence of a creative child.

Page two features the smugly victorious Charlevoix High School basketball team of 1931, with legendary Charlevoix coach Ray Kipke, while page six crows about the 1983 edition of the team which has become one of the most successful Rayder cage squads in recent history.

Page twelve reminisces with 90-year-old Mike Hamlin about the characters and scenes of Charlevoix's past while page ten explains how a group of precocious fifth graders are already confronting the issues of the 21st century.

Exploring this theme of young and old, past and future, is, I think, an extremely important role of the local newspaper.

One of the unique strengths of a closeknit community is the continuum that survives from decade to decade, from generation to generation. Without a sense of heritage people find themselves lacking direction. "How do we know where we are going if we don't know where we've been?" is the phrase most often applied.

One cannot blame Charlevoix natives and "oldtimers" for sometimes wondering if the community has its vision locked onto the future with little regard to the past. Lately, change has been happening at a seemingly breakneck pace. At the fore are several physical changes proposed as strong medicine for an ailing economy. More subtle are the changes in the ways and means of running the city. Those changes are less tangible than trees and buildings but have just as much impact on our lives.

To think that change is something new to Charlevoix is mistaken. Looking back through microfilmed pages of the *Courier* from past decades, one finds an uncanny recurrence of the same concerns, the same debates, the same symptoms of change.

Parking problems were being discussed in the 1940s. Water pollution was an issue in the 1950s and probably before. Pros and cons of development projects have been regular features in the paper since Volume One.

The community newspaper provides an important forum for discussing change and for shaping it. The accompanying responsibility, however, is to add the perspective of history. We are harbingers of the future, but also chroniclers of the past.

In this issue, those dual missions are clearly evident.

Clockwise

Tennessee Williams

by Bob Clock

THE WORLD WILL be a long time assessing how much it has lost in the death of Tennessee Williams, 71, in New York City on Friday.

Already the bizarre circumstances of his demise (he apparently choked on a bottle cap) are beginning to obscure the fact that a great man — one cast in the mold of William Shakespeare — is dead.

In a way, his odd death was a fitting climax to a long and sometimes tortured career. If one of his characters had died in the same manner, none of his fans would have been surprised.

Tennessee Williams has been a major literary force in America since I was a schoolboy. I remember seeing "The Glass Menagerie" at the University of Detroit when I was still a teenager and marveling how Williams could make high drama of such commonplace people and situations.

But this is the stuff great drama is made of.

Later when I was in college we thought it was kind of smart to prowl the streets of East Lansing in torn T-shirts, a la Stanley Kowalski in "A Streetcar Named Desire." Marlon Brando played the screen role and for years after he was type-cast — in the eyes of his fans if not in the eyes of his directors and producers — as the insufferable Stanley, lording it over the hapless Blanche DuBois.

DID THE WORLD lose much by Williams' untimely death?

Probably not. Most of Williams' most successful plays were written in the 1940s and 1950s and included, in addition to "Streetcar" and "Glass Menagerie" such theatrical landmarks as "Rose Tattoo," "The Roman Spring of Mrs. Stone," "Cat on a Hot Tin Roof," "Suddenly Last Summer," "Sweet Bird of Youth" and "The Night of the Iguana."

After "The Milk Train Doesn't Stop Here Anymore," which was written in 1963 and made into a movie in 1968, Williams continued to write, but few of the titles are familiar — at least to the man-on-the-street.

Are you acquainted with "Clothes for a Summer Hotel" (1980), "Lovely Sunday for Creve Coeur" (1979), or "Vieux Carree" (1977)? I'm not.

SATURDAY MORNING I picked up a copy of "Cat on a Hot Tin Roof" at the library to see if I had somehow been mistaken about his early genius. I wasn't.

Like most of Williams' plays, "Cat" is laid in the steamy South; but unlike most of his plays the characters are fabulously rich — or will be as soon as Big Daddy dies.

Big Daddy has $10 million and thousands of acres of prime cotton land. The drama of the story revolves around who will inherit the bulk of his estate: his eldest son and his money-grubbing wife or his youngest son Brick, a former high school athlete who has driven himself to drink worrying about his latent homosexuality. The "cat" is Brick's childless but loving wife, Maggie, who doesn't know whether to jump or stay put.

I was a little surprised to learn that Williams and his director, Elia Kazan, had a serious disagreement over the final act. When "Cat" played in New York, Kazan's ending — which ties up most of the loose ends — was incorporated. However the perpetual yearning that runs through most of Williams' other work is missing.

Otherwise, it's still heady drama — and always will be.

Letters: Mat meet, arms

Thanks for support

To the Editor:

The Charlevoix Sports Boosters were privileged to be asked to be responsible for the concession at the Wrestling Conference held on February 8, 1983. We were pleased with the response and success of our efforts. Without the following people and businesses, who contributed food, time, and considerations our efforts would not have been so successful. We wish to thank Mr. Leroy Buchanon, Manager of Oleson Food Market, for helping to supply us with the Majority of food and also, publicity, which appeared in the Oleson Shopping Ad. The Village Inn Pizza and Pizza Hut for donations of pizza, which helped to feed our hungry volunteer help and McDonald's for the donation of an orange drink, that went so well with the pizza. Edward's IGA for ordering the Hot Dogs and Liz Meadows of the Charlevoix High School Food Department for ordering the milk. Members of the Sports Boosters for contributions of Sloppy Joes, Cookies, Brownies and Sandwiches. And a special thank-you for the Kitchen committee, which consisted of Caroline Batdorff, who headed the breakfast crew, Maureen LaBlanche, Caroline Klooster, Colleen Mitchell, Linda Putman, Janet Buchanan, Kate Smith, Cathy Tillen, Joanne Jones, and Joan Buday.

It was fun day and a very rewarding one. Thank you one and all.

Larry C. Lemerand, President
Charlevoix Sports Boosters
Joan C. Lemerand Chairperson

Disarmament

To the Editor:

The expressed intent of the president is mutual disarmament with the Soviet Union. The defense budget request of the president is a big increase in funds for rearmament amounting to an arms race with the Soviet Union. The presidential explanation for the seeming discrepancy between these two positions is that the Soviet Union will only negotiate seriously on disarmament if they are convinced that the United States is prepared to negotiate from a position of military strength. Several times he has used the antiballistic missile experience as an example. Only when the Soviet leaders were convinced that the United States would match their antiballistic missile system did both countries agree to cancel their antiballistic missile systems, according to the president.

Another explanation of that cancellation is that while one faction of the American military industrial complex was trying to sell the multibillion dollar antiballistic missile system to the public with all of the zeal that the multibillion dollar MX missile system is now being sold to the public, another faction of the American military industrial complex was trying to figure out how to foil the antiballistic missile system, and their solution was multiple warhead missiles. When both nations adopted missiles with multiple warheads the obsolete antiballistic missile systems were dropped. When the Minuteman missile system was planned experts did not carefully calculate the number of Minuteman missiles required to accomplish their mission. One hundred missiles were considered insufficient and one thousand missiles were chosen as the quantity to be ordered because it was a convenient number to cost out the system. After multiple warheads were developed the Minuteman missiles provided transportation for 3000 warheads instead of the 1000 warheads originally expected.

Ray E. Peltz

Remembering Skip Patrie

Continued from page 1

"But seeing the Statue of Liberty from the decks of WAMPUM was something we'll never forget," David said.

His father, who always let David do the talking interrupting only for vital corrections, nodded.

"We stopped long enough in New York to water the dog at the 48th Street Marina," he broke in, taking the omnipresent pipe from his mouth long enough to laugh.

The Erie Canal was still blocked by ice when they reached Catskill on the Hudson, so they left WAMPUM there for the summer. They brought her home the following autumn, reaching Charlevoix on October 7, 1972, exactly four years after they began their odyssey.

In 1979, the family sold Fairport to Donald H. Perrey, of Fort Wayne, Ind. David remained on as manager, but Skip really retired.

One of Skip's proudest moments came that same year. Charlevoix honored him by making him Grand Marshall of the 49th Annual Venetian Festival boat parade.

As he stood on the foredeck of the WAMPUM, waving, the crowd on shore shouted "WAMPUM, WAMPUM Hooray for Skip."

Tears in his eyes and a broad smile were the only outward evidence of the old man's pleasure.

Now as WAMPUM rests alone at her Fairport berth, the interviewer still sees Skip's image standing on the dock beside her, his gray hair capped by the ever-present beret, his right hand holding the pipe to his mouth, looking out at the water.

A memorial service for Mr. Patrie will be held at the home of his son and daughter-in-law, Mr. and Mrs. David Patrie, at 3 p.m. Friday, March 4. Father R. Dale Magoon will officiate.

Besides his son, David, Mr. Patrie is surivived by his wife, Muriel, of Shawano, Wis., a daughter, Mrs. Joan Patrie Milske of Gresham, Wis.; 13 grandchildren, two great-grandchildren and a brother, Ronald Patrie, of Atlanta, Georgia.

Out of the Blue

The Reagan administration
Is all mixed up today—
In constant vacillation
'Twixt 'dis' and 'dat' array.

Ricardo L. Ramirez and Marie A. Beckett

Beckett-Ramirez

The engagement has been announced of Miss Marie A. Beckett and Mr. Ricardo L. Ramirez, both of Charlevoix. She is the daughter of Mr. and Mrs. Lester Beckett of Petoskey and he is the son of Mr. and Mrs. Alberto Ramirez, Whealer, Michigan.

A July 30, 1983 wedding is planned for St. Francis Xavier Catholic Church in Petoskey.

The bride-to-be is a 1979 graduate of Petoskey High School and is presently employed as a cashier at Edwards IGA in Charlevoix. The groom is a 1978 graduate of Breckenridge High School and holds an associate degree in Plastic Engineering Technology from Ferris State College. he is presently employed at LexaLite International in Charlevoix as a Project Manager. (Photo by Aartvark Studio.)

Engagements

Raum-Craig

Rev. and Mrs. James M. Raum, 118 Upright, Charlevoix, have announced the engagement of their daughter, Michelle Lou Raum, to HS3 Scott Cameron Craig, son of Mr. and Mrs. Charles Craig, Jr., Casho Valley, California.

An August 6, 1983 wedding is planned at the Charlevoix Church of the Nazarene.

The bride-to-be is a 1983 graduate of Charlevoix High School and plans to attend North Central Michigan College in the fall. The groom, a 1980 graduate of Casho Valley Sr. High, is presently enlisted in the U.S. Coast Guard and is stationed aboard the U.S. Coast Guard Cutter Mesquite in Charlevoix.

Michelle Raum

Thomas Hogarth and Jody Ann Hicks

Hicks-Hogarth

Mr. and Mrs. Orval Hicks of Charlevoix, announce the engagement of their daughter, Jody Ann, to Thomas Hogarth, son of Mr. and Mrs. Robert Hogarth of Holt, Michigan.

The wedding will be held at the Holt United Methodist Church in Holt on May 7, 1983.

Co-op nursery school sets registration

Charlevoix Co-op Nursery will be holding registration for the 1983-84 school year on Thursday March 10 in the nursery school room at the Charlevoix Elementary School. Alumni will register from 7 to 7:30 p.m. and new members who will register on a first come basis from 7:30 to 8 p.m. A $7 registration fee will accompany each registrant.

Pine River Place crowns Valentine King and Queen at party

Betty Taylor and Harold McFarland, residents of Pine River Place, were named the Queen and King of Hearts by the residents of the facility at the Valentine Party hosted by Kappa Sigma chapter of Beta Sigma Phi sorority.

Entertainment included bingo games with prizes furnished by the members and others donated by Birdie's Beauty Shop, Yellow Submarine, Literary News, Village Inn Pizza, Staley's Hardware, Judy's Restaurant, and Pizza Hut.

Refreshments were donated by Oleson's Food Store.

At the same time, dozens of Valentines sent to the residents of Pine River Place by Girl Scout Troop 264 whose leaders are Carolyn Olinger and Carol Wilhite.

Earlier, the students from St. Mary's School made and distributed Valentines to the residents along with Valentine cookies.

The King and Queen of Hearts at Pine River Place were Harold McFarland and Betty Taylor.

'Saturday Special' to feature discussions, fashion show, exercise

A unique combination of lecture-discussions, fashion show and exercise session is on tap this Saturday, March 5 as part of a "Saturday Special" being coordinated by Candy Smith, local instructor for the Vital Options fitness program.

The day's activities get under way at 11 a.m. in the Charlevoix Elementary School gymnasium.

First on the agenda is a fashion show interspersed with fitness facts. Outfits to be shown will be provided by Mettlers on the Bay, the Pro Spot and the Clothing Company, all of Charlevoix.

Following the show, lecture-discussions will be held over two class periods from 11:55 until 12:15 and from 12:20 until 12:40. Participants will have three topics to choose from.

A discussion on "Mind and Body Connectiveness" will be led by local counselor Mary Missilts Frama. "Spring Looks" will feature tips on hairstyling by Gawn Anderson of Gwen's Harbor View along with makeup suggestions by Debbie Bellinger of New Creations. A third discussion group will cover diet and nutrition.

After the discussion groups, an exercise session will be held from 12:45 to 1:55 featuring warm-up, aerobic activity, calisthenics, yoga, back exercises, stress and relaxation techniques.

Last on the program is a salad luncheon.

Those interested in attending are asked to bring a salad to pass, $1, and exercise clothes including tennis or jogging shoes. More information can be obtained from Candy Smith at 547-6358.

Parents urged to watch for Reyes

Not too long ago we expected our children to recover nicely from bouts of chicken pox or influenza-like illnesses. However, in recent years we have been hearing a lot aobut Reye's Syndrome, a very serious disease that appears during children's recovery from these viral illnesses.

Parents are urged to be alert to the Reye's syndrome signs. If your child is recovering from a flu-like illness or chicken pox, and displays persistent and continuous vomiting or shows changes in behaviour such as excessive drowsiness; combativeness, irritability, disorientation, confusion and delirium, get medical help immediately. If you can't reach your own doctor, take the child to a hospital emergency room. If the symptoms indicate Reye's Syndrome, threament should begin at once.

Between 80 to 90 percent of the young Reye's Syndrome patients, ranging in age from infancy to 18 years, survive with appropriate treatment.

According to information supplied by the Michigan Department of Public Health, although the specific cause is unknown, there seems to be a relationship between the disease and children's taking aspirin and aspirin-containing medication during chicken pox and flu-like illnesses. Rather than giving aspirin in some form, parents are advised to leave their children's low grade fevers untreated, or make the patient more comfortable by sponging with lukewarm water.

The District Health Deparmtnet Number Three area (Antrim, Charlevoix, Emmet and Otsego counties) has experienced an increase in the number of flu-like and chicken pox cases. One case of Reye's Syndrome has been reported in December from Alpena County.

Dr. Brian Younga, Medical Director for the District Health Department stressed "I strongly recommend that all parents should be aware of the symptoms of Reye's Syndrome. Early contact with the family physician or emergency medical facility can aid in the prevention of serious complications." Parents should contact their family physician if they have questions concerning the treatment of ill family members.

Most children recover nicely from chicken pox and flu-like illnesses, but some of them do not. As a parent, be alert to the symptoms of Reye's Syndrome. Your detection of the disease's early symptoms could determine your child's good recovery.

Flower show set

The first Flower Show to be sponsored by the Charlevoix Garden Club in August has set the format for meetings and workshops in coming weeks.

The first of these was a workshop held Tuesday afternoon at the Charlevoix Public Library at which the basics of flower arranging was the theme of the session.

A slide presentation on flower arranging presented by Keith Morrisawa was incorporated into the workshop program.

The quilt project is now underway with members appliqueing squares to be made into a quilt designed by Nancy Fowler.

Members will be growing the flowers to be exhibited in the August Flower Show. Members are reminded to start planning future plantings. Incoming seed catalogs are exciting enough to inspire the early planning.

The refreshment period at the recent meeting was hosted by Pat Wakulat and Jolyn Hall.

The March 8 meeting will be hosted by Marge Dinwiddie with Lucille Ingram and Bonnie Staffel as co-hostesses.

World Day of Prayer service is Friday

The annual World Day of Prayer will be held at the Church of the Nazarene on Waller Road at 12:15 Friday.

At that time, the women of the Charlevoix area will join with Christian women around the world in a service whose theme in 1983 is "New Persons in Christ". Church Women United sponsor the annual service on the first Friday of March.

Participating in this year's service will be representatives of the host church, Community Church of God, Bethany Lutheran Church, Christ Episcopal Church, Community Reformed Church, First Congregational Church, United Methodist Church, Assembly of God Church and St. Mary's Catholic Church.

The Charlevoix High School choir under the direction of Steven Stargardt will sing.

Marquerite Ikens will be the pianist. Mrs. Cheryl Thayer of the United Methodist church will speak on "New Persons in Christ".

Attending the planning session were the Rev. and Mrs. James Raum and Agnes Lombard of the host church, Bertha Smith of Bethany Lutheran Church, Ruth Dyer of Christ Episcopal Church, Jeannette Boss of the Community Reformed Church, Leola King of the Church of God, Carol Duthcer of the First Congregational Church and the Rev. David Yingling of the United Methodist Church.

There will be a nursery available Mrs. Raum said.

Beverages will be served following the service.

Rayders are champs

Nineteen down, one to go.

The Charlevoix Red Rayders charged to an 88-52 victory over Rogers City Friday night clinching an undisputed conference championship and edging to within a game of an undefeated regular season.

It was Parents Night at the Charlevoix High School gym Friday and also the final home appearance for four seniors on the Rayder cage squad.

The team rose to the occasion in a game that followed a pattern that has become typical for the 1982-83 Rayders.

The early going was a seesaw affair with both teams showing flashes of brilliance but neither grabbing a clear upper hand. In the first quarter it appeared that the Hurons of Rogers City, with a couple of 6'4" forwards under the basket, might challenge Charlevoix's heralded rebounding strength.

The challenge was met, however, and in the waning minutes of the first quarter, the Rayders began to work on a lead. George Smith hit a shot off a rebound with 30 seconds to play in the quarter that put Charlevoix up by an 18-11 margin. The Hurons managed another basket before the end of the period to make the score 18-13 but the momentum had been established in the Rayders' favor.

Second quarter action saw the Charlevoix lead grow to as much as ten points with 2:39 left when Smith again connected to make it 34-24. By the half, Rogers City was down 36-29.

Any possibility that the Hurons might have made their way back into the game were dashed immediately in the second half as the Rayders sped up the pace and ran away with the ball game by midway in the third period.

A Tim LaBlance jump shot at the 6:00 mark capped a flurry of scoring that put the Rayders on top 48-31. By the end of the quarter, the Rayders held a 63-38 advantage, and Coach Dave Smith started substituting freely.

Even though the Rayder subs managed to lose little ground in the fourth quarter - junior guard Dan Buday went six for six at the free throw line -, Coach Smith opted to give his starters one last fling before the home crowd. Following a couple slam dunks which salted the wounds of the humiliated Hurons, Rogers City coach Dennis Lyk responded with a stall offense with his team down by about 30 points.

Craig Klooster, leading scorer in the Michigan-Huron Shores Conference, led in individual scoring with 24 points; LaBlance had 18, George Smith 16 and Chris Putman 12.

Charlevoix, now holding an unmatchable 13-0 conference record, will be put to perhaps the toughest test of the season this Friday night when they travel to St. Ignace for a rematch with the only team that came close to challenging the Rayders for M-HSC honors this year.

The Rayders will be looking for their 14th conference win and 20th overall when they tangle with the Saints.

A 20-0 season would mark the first undeafeated season for the Rayders since 1968.

Doug Sloan makes the long reach for a rebound.

Draw bye in tournament

Drawings held Monday in Boyne City, the host for the Class C District tournament to begin next week, found Charlevoix receiving a bye in the first round. The Rayders play their first tournament game at 7:30 p.m. Thursday, March 10 against the winner of a Kalkaska-East Jordan game on Tuesday. Finals of the tournament are set for Saturday night. Other teams participating include Boyne City, Elk Rapids, East Jordan and Traverse City St. Francis.

Bergmann advances

Alan Bergmann, Charlevoix Rayder senior wrestling in the 167 pound weight class, placed third in the regional Class C tournament at Hart Saturday and qualified for competition in the State Class C finals at Middleville Saturday.

John Solmonson of Grayling placed first in the weight class; Ryan Fisher of Whitehall whom Bergmann has lost to by a 7-2 decision placed second; Paul Simon of Clare who was decisioned 4-0 by Bergmann in his last match placed first.

Bergmann had pinned Terry Green of Hesperial in 1:22 in his first match. In the finals in the consolation bracket, he pinned Todd Adams of Ravenna in :23.

The top four finishers in each weight class will advance to state competition.

Bergmann, the only senior on the Rayder team, presently has a 29-3 record for the season.

Mike Steele (126) lost his first match by a pin in 3:22 by Tim Balzeski of Comstock, two time state champ and one time runner-up - who went on to take first place and, by Todd Thompson of Hesperia in 1:30. Thompson took third place in the tournament.

Scott Mervyn (185) lost by a pin in 2:20 to Paul Ringler of Tri-County who took first place in the meet and to Brent Yeager of Benzie Central in 2:32.

Grayling won the tournament with Whitehall placing second as a team.

Girls end season, prep for tourney

The Charlevoix girls volleyball team placed third among four teams entered in the Central Lake Invitational Volleyball Tournament held Saturday according to Coach Walt Drenth.

Charlevoix lost their first match to Elk Rapids by scores of 15-6, 15-10; won the next match in the consolation bracket by scores of 15-3, 15-11 and lost the third to Elk Rapids 15-6, 15-11.

Kalkaska, the fourth team in the tournament, finished first; followed by Elk Rapids, Charlevoix and Central Lake.

Coach Drenth said the team looked the best it had all season in this tournament.

The team will enter the District Class C Tournament at Kalkaska Saturday.

The Charlevoix Rayder volleyball team played out its scheduled games Wednesday night to end the season with a 5-15 record.

In action Wednesday night, Charlevoix lost to St. Ignace 15-4, 15-9 in the first match and 15-4, 15-0 in the second.

The JV's posted 15-5, 1-12 wins and 11-15 loss in their match.

The Charlevoix Rayder girls volleyball team will be among the eight area teams entered in the Class C District tournament to be held at Kalkaska Saturday.

The tourney will bet underway at 10 a.m. Saturday with Kalkaska hosting Elk Rapids.

Grayling will meet Rogers City at 11 a.m.; Boyne City and Charlevoix will clash at 12:30 p.m. and East Jordan and Traverse City St. Francis will meet at 1:30 p.m.

The winners in the top bracket will play at 3 p.m. and those in the lower bracket at 4 p.m. with the finals scheduled for 5:30 p.m.

The tournament champions will advance to the Regional tournament at St. Louis March 12.

Frosh finish at 14-4

The Charlevoix Rayder freshman basketball team closed out its season Monday with a 14-4 record after defeating East Jordan 39-18 in the final game of the schedule.

The young Rayders jumped to a 17-10 first period lead, increased the advantage to 23-14 at halftime and 39-25 going into the final eight minutes.

Jody Putman led the scoring with 18 points. Bill Joyce had 13 for East Jordan.

Barry Anderson was the freshman coach.

COLWELL REALTORS YOUR KEY TO BETTER LIVING
547-4444 DOWNTOWN CHARLEVOIX

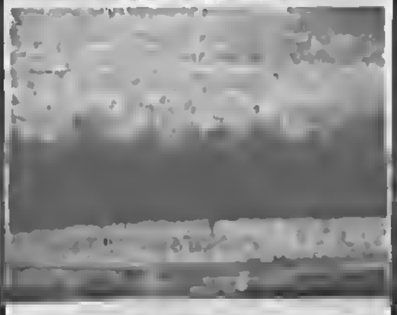
LAKE CHARLEVOIX

A striking Acorn temporary vacation home. Three bedrooms and a loft. Two full baths. 8x12 upper deck overlooks Lake Charlevoix. Fireplace. Includes appliances and draperies. 117 feet of sandy lake front is shared with three families. Beautifully maintained inside and out. Contact Bill Carey for an appointment.

VERSATILITY

8½ acres of land with 815' of US 31 Highway frontage across from Antrim Dells. Older 5 bedroom farmhouse, 26x40 basement barn, 24x60 cement block storage building and a superlative 40x46 steel machine shop building with 8" cement slab floor. Some cherry trees, too. Land contract terms. Quick delivery. Ask Jim Corbin about this offering.

SUGARBUSH KNOLL



5 year old, 3 bedroom ranch home in a popular subdivision, 2 car attached garage, full basement, natural gas heat and hot water. Full carpeting, drapes and all kitchen appliances are included. Heavily insulated and triple glazed windows make for unbelievably low utility bills. Get in touch with Paul Senter on this truly exceptional value.

PINE POINT-LAKE CHARLEVOIX

Stunning 3 bedroom home with a sensational Pine Point setting overlooking Lake Charlevoix. Imaginative flowing floor plan, yet designed for easy living. Perfect for an active family and ideal for formal entertaining! A thoroughly modern kitchen. The warm den and fireplace living room are connected by a unique wet bar. The master bedroom is breathtaking. Immediate Lake Charlevoix access for boating and swimming pleasure.

CUSTOM BUILT 3 BEDROOM

Dollar for dollar you won't find a better housing value around. 1,344 sq. ft. of comfortable township living next door to the city. Only 6 years old and with natural gas. Heavily insulated. Walk-out basement that's half finished. Contact Jim Corbin to see this excellent home.

BAY SHORE WEST

Eight year old, 3 bedroom ranch home midway between Charlevoix and Petoskey. Total electric home with average cost of ALL utilities only $150 per month. Ideal family home with big rooms and an attached garage. Big lot, beautifully landscaped. Priced to sell at $59,900. Call Jim Corbin for details.

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by Roger P. Shepard and Priscilla M. Shepard, his wife, Mortgagors, to GENESEE MERCHANTS BANK & TRUST CO., a Michigan banking corporation, Mortgagee, dated the 27th day of September, 1973, and recorded in the Office of the Register of Deeds for the County of Genesee and State of Michigan, on the 9th day of October, 1973, in Liber 137 of Mortgages, on pages 170-173 on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum Thirty-three Thousand, One hundred and Sixteen and 06-100 ($33,116.06) Dollars.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof and default having occurred whereby the power of sale has become operative.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, the 11th day of APRIL, 1983, at 10:00 o'clock, a.m., local time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the easterly front entrance to the County Building in Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at 9.25 percent per annum and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum or sums which may be paid by the undersigned, necessary to protect its interest in the premises, which said premises are described as follows:

All that certain piece or parcel of land situate in the Township of Norwood, in the County of Charlevoix and State of Michigan, and described as follows, to-wit:

Lot 70 of Clipper View Subdivision, a part of Sections 11 and 12, Town 33 North, Range 9 West

NOTICE IS FURTHER GIVEN, that the right of redemption from said sale shall expire six (6) months from the date thereof.

Official Notice

EVELINE TOWNSHIP

The regular meeting of the Eveline Township Board was called to order by Supervisor, David Wilson on February 8, 1983 at 8:00 p.m. at the township hall. All board members were present.

The minutes of the previous meeting were read and approved as read.

Representatives from Hemingway Points Association asked about the possibility of being allowed to build multi-family dwellings instead of the single units as voted on in the referendum. This could only be achieved if the township incorporates P.U.D. into the existing zoning ordinance. The concensus of the board, after much discussion, was that the Association should take the matter to court to have it settled.

Motion by Wayne Saunders, supported by John Smith, to transfer $400.00 from the Contingency Fund to the Township Hall and Grounds. Motion carried to amend budget as stated.

Federal Revenue Sharing Proposed Use Hearing will be held on March 8, 8:00 p.m. at the township hall. Motion by Wayne Saunders to hold the Annual Meeting on March 22 at 8:00 p.m. at the township hall; seconded by Linda Hilderbrant; motion carried.

A treasurer's report was received. Eric Beishlag made a motion to pay the bills on hand with check No. 871 through No. 887 amounting to $575.04; supported by Wayne Saunders; motion carried unanimously.

An application for P.A. 116 from Stella Hott was received, but tabled until further information is received from the various county agencies.

Motion by Eric Beishlag to adjourn; supported by Linda Hilderbrant; motion carried. Adjournment at 11:45 p.m.

Eric Beishlag, Clerk

Photos by Anne Kelly

CHARLEVOIX HIGH SCHOOL'S *production of "Grease" was presented in Ann Arbor February 19 in the finals of state high school drama competition. Although the production did not achieve a top rating, at least three excellence awards were taken home by students involved with the musical. Male lead Gary Carson received an excellence award for acting, the six-piece pit orchestra and choreography won an excellence award and stage manager Bryan Noirot also won an excellence award.*

Members of the orchestra, shown above, included, from left, Richard Wurst, accoustic guitar, Mark Mosely, electric guitar, freshman Danielle Johnson, piano, Dean Kerridge, drums, Lara Stargardt, bass guitar and Darren Olach, saxaphone.

Stage crew members, right, included, clockwise from top left, stage manager Bryan Noirot, Jeff Grooters, Roni Wilson and Tim Noirot; missing from the photo are Tim Gibbons, Missy Sandahl and Jim Young.

March of Dimes

Boyne City residents are asked to turn on their porch lights at 6 p.m. on Wednesday night, March 2nd, for the Mother's March. Club women will be out collecting for March of Dimes Birth Defects Foundation. Participating in the porch light campaign will be the Child Study Club, Eta Nao, and the Monday Study Clubs. Two other clubs are being sought to completely cover the city.

Both Charlevoix and East Jordan chairwomen are planning their campaigns early in March. They are in the process of completing their roster of volunteers and would appreciate a call to help. Charlevoix volunteers are asked to call Mrs. Clara Loomer, 547-6842. In East Jordan, volunteers can call Mrs. Beverly Joseph, 536-2630.

More Sports

Middle School cagers win tournament openers

The Charlevoix Middle School basketball teams won their opening games in the Cheboygan Junior High Invitational tournament to advance in their respective winner's brackets.

The seventh graders defeated the Cheboygan Red team 38-18 and the eighth graders won over Gaylord St. Mary 39-36.

Charlevoix led the Cheboygan team 10-7; 19-8 and 33-10 by quarters before posting the lopsided win.

Scott DeYoung scored 14 points and Dan Drury 10 for Charlevoix. Bill DePaul had 11 for Cheboygan.

Charlevoix was scheduled to meet the winner of the Soo-Cheboygan Catholic game at 4:45 p.m. Monday.

After defeating Gaylord St. Mary's 39-36, the Charlevoix eighth graders will take on the winner of the Soo-Cheboygan Catholic Game at 4:45 p.m. Wednesday, March 2.

In their opening game in the tournament, Charlevoix played their opponent to an 8-8 first period tie before edging ahead to 18-16 and 29-27 leads at the half and third period. They then won by a three-point margin.

Terry Bonar had 15 points for Charlevoix. Schultz and Martin had 11 points each and Victor 10 for Gaylord St. Mary's.

JV team beats Hurons

The Charlevoix Rayder JVs came through with a 56-43 win over the young Rogers City Horons Friday night.

The Rayders took an early lead and were ahead of the Hurons 12-11 at the quarter; 27-20 at halftime and 34-30 going into the final eight minutes.

Charlevoix outscored the visitors 25 to 15 from the floor and had six of 14 free throws and 19 personal fouls. The Hurons had 13 of 24 from the charity line and 13 personal fouls.

Brent Cole with 20 topped the scoring for Charlevoix followed by Cris Havens with 15 points. Chris Molecha had 17 points and Chris Tulgetske had 11 for Rogers City.

A League scores

Depot Restaurant handed Townhouse its second loss of the season Thursday in action in the A League of the Charlevoix Independent Basketball League.

Depot restaurant won by a 70-65 score. In the second game, Ellsworth I.D.C. defeated Village Inn Pizza 68-64.

In the Depot-Townhouse game, the Depot Restaurant edged to a 16-15 first period lead before Townhouse went ahead 39-27 at the half only to lose the lead 52-48 going into the final period.

Tim Hartwick poured in 24 points, Tom Beyer 18 and Al Looze 12 for the winning cause. Steve Dunkelberg had 28 and Dan McKenzie 10 for Townhouse.

In the second game, Ellsworth IDC went ahead 47-41 at the third period after trailing Village Inn Pizza 13-9 at the quarter and 29-28 at halftime. Ellsworth rolled on to win the game by four points.

Tex Drenth had 20 points, Brian Farrell 14 and Jim Danbert 12 for the victors. Vince Left scored 28 points and Jerry Skippergosh 19 for V.I.P.

B League scores

Action in the B League of the Charlevoix Independent Basketball League saw Kit Carson/Charlevoix Garbage edge league leading Staley Hardware 36-35; Carlson Plumbing defeat Medusa 59-43 and Wojan Aluminum down Air Force 62-47 Wednesday night.

Earlier in the week, Kit Carson/Charlevoix Garbage defeated Medusa 56-54 in a double overtime; Staley Hardware defeated Wojan Aluminum 54-44 and First State Bank won over Air Force 78-53.

Staley Hardware played Kit Carson-/Charlevoix Garbge to a 10-10 first period tie before taking the lead 21-18 at halftime and 31-23 going into the last eight minutes. However, they were unable to hang on to the margin as the Carson five outscored them 8-4 for the victory.

Butch Klooster and Mike Crain had 10 points each for the victors. Scott Olmstead had 12 and Larry Skippergosh had 10 for the Hardware.

Carlson Plumbing rolled over Medusa 12-5; 20-17 and 37-31 by quarters before winning by a score of 59-43 over Medusa.

Randy Holecheck had 20 points and Bill Annon and Beano Archey 10 each for Carlson. Jim Parrish had 14 for Medusa.

After taking an 18-11 first period lead, Wojan's headed Air Force 32-21 at the half and 31-35 at the three-quarter mark.

Stan Martin had 24 points, Bernie DeVries 13 and Don Ward 12 for Wojan's, Chris Claytor had 11 for the Air Force.

On Monday Kit Carson/ Charlevoix Garbage had to go into a double overtime after playing Medusa to a 49-49 tie at the end of regulation play. Carson's had trailed Medusa 17-11; 25-22 and 38-36 by quarters before outscoring Medusa 13-11 to knot the score 49-all at the buzzer. In the first overtime each team scored three points for a 52-all tie. In the second overtime, Carson's had two buckets to one for Medusa for the win.

Dale Boss had 16 and Mike Crain 13 for the victors. Doug Winnell had 16 and Jim Parrish 13 for Medusa.

Staley Hardware breezed past Wojan Aluminum 12-8; 24-21 and 46-31 before posting the win.

Scott Olmstead with 19 points, Larry Skippergosh with 14 and Mark Schaberg with 13 paced the victors. Dave Swanson and Stan Martin had 10 each for Wojan's.

Kevin Swanson with 26 points, Steve Martinus with 22 and Tim Carey with 18 led First State Bank to 19-12; 34-29 and 54-37 quarter leads over Air Force before coasting to victory.

Tony Starr had 33 points for Air Force.

ORDER TO RESTRICT SPEARING SEASON

The Natural Resources Commission, at its meeting on October 8, 1982 under authority of Act 230, P.A. 1925, as amended, ordered that for a period of five years beginning April 1, 1983, through March 31, 1988, it shall be unlawful during the month of April of each year to take any fish by spearing or bow and arrow north of Highway M-72 in the Lower Peninsula and from April 1 to April 14, inclusive, of each year between Highways M-46 and M-72 in the Lower Peninsula.

P.A.T. group has problems, but that's just what they want

By ANNE KELLY

-If you were to be chosen, in the year 2013, to live in a "dome" community 3000 feet under the sea, what problems would you face? What solutions might you offer to solve those problems? On what criteria would you base your solutions?

This is an abbreviated description of one of three hypothetical situations provided for participants in this year's Michigan Future Problem Solving Program (MFPSP). The MFPSP has been operating out of the University of Michigan since 1980. Its concept was originally developed by Dr. E. Paul Torrence, an internationally known expert in creative thinking. Fifth grade students the Program for the Academically Talented (PAT), in two teams under the direction of instructor coach Carol Elliot, have already completed two of the three situation-scenarios presented to participating students this year. Problems are: I. Weather Control, II. Ocean Community Living and III. Robotics.

Mrs. Elliot is proud to announce that one of the two teams in her fifth grade P.A.T. group has placed 13th out of 150 participating teams in the state of Michigan. They are presently undergoing the research phase for the third problem this year. It will be due at the U. of M. on March 4th.

"It's a challenging problem," reports Mrs. Elliot who is quite enthused about the opportunity to participate. "The kids found that they did not do very well on the first practice problem because they did not do adequate research on the problem. So on the second problem (on ocean community living) they went deeply into research and did surprisingly well." Mrs. Elliot evaluated the primary difficulty as being that the students felt they would be able to formulate answers off the top of their heads. Then they found "that there wasn't enough on the top of their heads." On the next try, research paid off, as well as a knowledge of the techniques U. of M. evaluators were seeking in their problems and solutions.

Students are allowed a 6-8 week period preceeding the completion of the problem packet in which to research and analyze the problem area. They are guided in their research by Mrs. Elliot who serves as coach for the teams. She reads and evaluates books and articles on each subject right along with them. When the deadline for each problem nears, the students prepare themselves to work in their three or four member team to present the series of problems and solutions required in the allotted 90 minutes. In that brief time period they must: 1) brainstorm the problem to clarify the nature of the problem 2) synthesize these into one key problem 3) brainstorm 20 solutions for that problem, 4) select 5 criteria on which to evaluate the solutions, 5) evaluate their solutions in relation to the criteria chosen, and 6) to select the best solution and elaborate on it. All this, and using correct grammatical sentence structure to boot.

Here are some problems related to life in the underwater community, these talented fifth graders came up with:

"What might be a problem is people who are originally screened for claustrophobia might pass the test, but once they are there trapped in the dome for 5 years, they might develop claustrophobia."

"Since some (dome residents) have appliances (toilets, faucets etc.) & all need some sort of drainage, the storage or doing away with these products might be a problem."

And some solutions:

-one of 20 by one team who came up with the problem of maintaining the health of dome residents to be crucial:

"We must use Tremix, a mixture of helium, nitrogen and oxygen for good air and breathing."

-for the problem chosen by the other team, that of dome maintenance, one of 20 stated solutions was:

"We will pass a law to only allow certain industrial equipment that has passed our pollution standards test to be allowed in the dome."

It's a combination of "hard core research and a general knowledge of situations" that makes the problems and solutions stand out in the evaluator's opinion, says Mrs. Elliot. If her teams do well on the final situation "Robotics", by placing in the top 20% (as one team did on the last round) they will be invited to attend the Problem Solving Bowl on April 16th at the U. of M. The subject of that Bowl will be "Computers."

Place or not, Mrs. Elliot feels that these students have been intellectually stimulated to the maximum through the program. They have learned how to follow a course of action in a logical pattern directed towards problem solving. Their course led them through the fine points of discovery, research and development on a difficult problem.

These are life long skills which will benefit the students in investigating problems and in making knowledgeable solutions when confronted with any future "fuzzy" situations life might have in store for them along the way.

Members of the fifth grade P.A.T. group brainstorm for a solution.

Basketball Contest winners

May Ladd of Charlevoix won the *Courier* Basketball Contest and the first prize of a $15 gift certificate last week when she missed only one game.

Second place, a $10 certificate, was kept in the family as May's husband Harry missed two games but came the closest of six other entrants to the tie breaker.

SMALL ADS COMMAND ATTENTION!

CITY OF CHARLEVOIX COUNCIL MINUTES

February 21, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time in Council Chambers, 210 State Street, Charlevoix, Michigan with Mayor Staley presiding

Present: Councilmembers Timms, Roloff, Wood, and Porter, Absent: Councilmembers Whitley and Olach.

The Minutes of the February 7, 1983 regular Council meeting were approved as presented in writing and as recorded in the Council Minutes Book.

A Public Hearing was held regarding a proposed amendment to the City Zoning Ordinance to rezone the Finn Lumber Company property from Marina-Commercial-Scenic to Motel-Hotel. The Amendment was requested by the Developers of the proposed Weathervane/Fochtman/Finn project for a hotel/restaurant/parking structure/conference center complex. William McTaggart, Attorney, representing Tom Duka, asked Council to delay any action on the rezoning until something can be worked out to separate the entrance/exit drive to the hotel from the drive used by the residents of Thistledown Lane. Mr. McTaggart also objected to the site proposed for refuse collection at the hotel. Paul Burlew, a member of the General Public present, asked that a stipulation be included in any approval of the project requiring the use of local labor. Joel Altman, one of the Developers of the project, stated that his general contractors always attempt to use local labor on their projects. He also stated that accommodations for garbage had been changed on the revised site plan.

The following Ordinance was offered and moved for its adoption by Councilman Timms and supported by Councilman Wood.

(See Ordinance No. 423 published elsewhere in this edition of the Courier.)

Ordinance was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter, Nays: None. Absent: Councilmembers Whitley and Olach.

Joel Altman presented the revised site plan for the Weathervane/Fochtman/Finn project which incorporated several changes as recommended by the City Planning Commission and the City Manager. Some of the changes included lining up the Bay Queen access drive with Pine River Lane, changing the roof line of the conference center to lessen the obstruction of the view from the Weathervane Terrace, altering the driveway to the hotel to provide a sharp turn to the private drive leading to Thistledown residences, thereby directing hotel traffic to the facility's office, and revising the site for garbage collection on the hotel grounds. Mr. Altman stated that a State Highway Department official had indicated that another curb cut along the street to allow a private entrance to Thistledown Lane was not desirable. Mr. McTaggart stated that the proposed driveway plan was excellent. He then requested that residents of Thistledown be given a permanent easement to their drive, that they be allowed to install pillars with signage designating the entrance to the private drive and that parking be banned along the hotel driveway. Mr. Altman offered no objection to Mr. McTaggart's proposals provided his firm retained architectural approval of any signage and/or pillars. Various other aspects of the proposed site plan were discussed at length by the Council and members of the General Public present

Moved by Councilman Porter and supported by Councilwoman Roloff that the revised site plan presented by the partnership of Water's Edge and Altman Development Corporation for a motel-hotel, conference center, parking structure, and restaurant located at 101-111 and 104 Michigan Avenue be approved contingent upon the following conditions:

1. Minimum of five feet horizontal clearance between the Pine River Channel sidewalk seating wall and the restaurant deck or deck structure
2. Intensive mature landscaping installed between the Michigan Avenue sidewalk and the parking structure.
3. Pedestrian access be provided (not necessarily at Developer's expense) between the Weathervane Terrace game room and the proposed conference center, and between the Weathervane Terrace addition and the proposed parking structure.
4. Final design of structures and site layout subject to Fire Chief's approval for access, fire flows, and hydrant locations.
5. A written easement shall be granted to the City for access to the existing sanitary sewer lift station and sewer line adjoining the northeast hotel property boundary.
6. Head-in parking be provided on both sides of Pine River Lane, west of the restaurant, provided the Developer can secure title to the necessary property between Pine River Lane and the Channel; and, that a revocable license for head-in parking on Pine River Lane be granted by the City to the Developer.
7. Removal of all non-conforming signs and compliance of all new signs with the City Ordinance.
8. Height of the conference center not to exceed 6 feet above the height of the existing Fochtman Building.
9. No parking to be allowed on the hotel access drive. Signage of Thistledown Lane as a private drive (not necessarily at Developer's expense).

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter, Nays: None. Absent: Councilmembers Whitley and Olach.

Moved by Councilman Wood and supported by Councilman Porter that the site plan presented by Peter A. Phillips of Phillips' Northside Standard Service for relocation of existing gas pumps, providing a second bay of gas pumps, and construction of a car wash facility on the west side of his existing building be approved contingent upon the following conditions:

1. The exterior of the existing building and additions will include a brick or other decorative facade.
2. Screening of cars waiting to enter the car wash be provided.
3. Flower boxes or other decorative landscaping be provided, in the island adjoining Petoskey Avenue, at least during the Summer months,

Motion was adopted by the following yea and nay vote

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Moved by Councilman Porter and supported by Councilman Wood that the site plan presented by Thomas DeKorta for conversion of an existing house at 1404 Bridge Street into a professional office building be approved.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Council denied a proposal presented by Bruce MacArthur, President of the Keep Charlevoix Beautiful organization, for construction of a wood chip walkway adjacent to the highway in the area of the DeKorta building.

Moved by Councilman Porter and supported by Councilman Timms to award a contract for the design and engineering of the proposed water treatment plant to the firm of McNamee, Porter and Seelye and that a "Notice to Proceed" with the design of Phase I of the project be issued.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Mike Greeley, Chairman of the Charlevoix Downtown Development Authority, presented a proposed budget of $3,000 for the Authority. He stated that revenues would be obtained from Public donations with expenditures to fund the cost of securing cost estimates for right-of-way improvements for the Weathervane/Fochtman/Finn project and through the remainder of Downtown along Bridge Street. No funds of the City of Charlevoix were included in the proposed budget.

The following Resolution was offered and moved for its adoption by Councilman Wood and supported by Councilman Porter.

RESOLUTION NO. 83-2-1

WHEREAS, the Charlevoix Downtown-Development Authority has prepared and submitted for approval a budget for the operation of the Authority for the ensuing fiscal year, and

WHEREAS, the proposed budget is prepared in the manner and form required by Public Act 197, 1975.

NOW, THEREFORE BE IT RESOLVED, that the budget proposed and submitted by the Charlevoix Downtown Development Authority is hereby approved by the Charlevoix City Council.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Council generally agreed with the concept of allowing Charles Anglin of Executive Air Transport to fund construction of an addition to the Municipal Airport Terminal for use as an air taxi service office for Executive and directed the City Manager to work out the details of such an arrangement.

Moved by Councilman Porter and supported by Councilwoman Roloff that the following City residents be permanently appointed to the City Board of Appeals in accordance with Ordinance No. 422 with terms to expire as designated:

Name	Term Expires
Barry Wood	December 31, 1983
Theodora Falter	December 31, 1984
Charles Scherping	December 31, 1984
Susan Erber	December 31, 1985
Donald Seelye	December 31, 1985

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Moved by Councilwoman Roloff and supported by Councilman Porter to reject the determination of the City Compensation Commission dated February 8, 1983 setting the salaries of the City's elected officials.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Council agreed that the Harbor Master be directed to enforce the provisions of Chapter 34 of the City Code regarding the loading and unloading of freight at the City docks as well as enforcing the off season rate for dockage at said docks.

Council generally agreed to deny winter boat storage at Ferry Avenue Beach Parking Lot as requested by Ethel Wood of 525 Park Avenue.

Council approved the payment of bills totaling $656,778.27.

Moved by Councilman Timms and supported by Councilman Porter to adjourn to an Executive Session for the purpose of discussing litigation regarding the Chicago Club tax appeal with the City Attorney.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Timms, Roloff, Wood, and Porter. Nays: None. Absent: Councilmembers Whitley and Olach.

Council adjourned to the Executive Session.

Immediately following the Executive Session, Council adjourned.

Deanne Balch, City Clerk

Court

Circuit

The following case was filed in Circuit Court last week:

John E. Fitzpatrick and Marilyn Fitzpatrick vs. George Staffan, Pamela Fochtman f-k-a Pamela Staffan.

District

The following cases were recently decided by Judge Harvey C. Varnum in the 90th District Court, Charlevoix County.

David A. Lambert, 18, Boyne City, breaking and entering in a building, preliminary examination waived, bound over to Circuit Court.

Glenn L. McSauby, 30, Charlevoix, uttering and publishing, preliminary examination waived, bound over to Circuit Court.

Gregory A. Kruskie, 19, Charlevoix, breaking and entering with intent to commit larceny in a building (three charges), preliminary examination waived, bound over to Circuit Court.

Richard E. Avery, 29, Traverse City, driving while license suspended, $145 fines and costs.

Robert P. Parent, 19, Birmingham, driving while license suspended, $145 fines and costs, three days in jail.

Kyle J. Payton, 23, Vanderbilt, driving while license suspended, $145 fines and costs.

Jeffrey J. Kaake, 24, East Jordan, fraudulent use of electricity and tampering, $100 fines and costs.

Edward L. Peters, 19, Gaylord, breaking and entering, preliminary examination waived, bound over to Circuit Court.

Joe E. Peters, 20, Vanderbilt, breaking and entering, preliminary examination waived, bound over to Circuit Court.

Assumed Names

The following assumed names were recently filed with the Charlevoix County Clerk:

Basket Case by Rosetta E. Chase, 118 E. Water St., Boyne City.

Charlevoix Maintenance by Ronald Lee Brown, 314 Mason St., Charlevoix.

Char-Kay Realty Co. (Charles F. Themm, Broker) by Charles Frederick Themm, 1002 S. Bridge St., Charlevoix.

Building

The following building permits were recently issued by the Charlevoix County Department of Building Inspection:

Rich Delamater, St. James, construct new residence on lakeside intersection of Indian Woods and Garden View Roads.

C. Price Construction, for Albert Houghton, construct chimney, Pincherry Rd., Hayes Township.

Marriages

The following marriage licenses were recently issued by the Charlevoix County Clerk:

Christopher V. Gibbs, 19, and Helena Kay Hillbocker, 19, both of Boyne City.

Ronald J. Himebauch, 28, and Myra A. Miller, 35, both of Charlevoix.

David P. Geno, 29, of Jackson, Michigan, and Thelma J. Thompson, 30, of Charlevoix.

Arthur W. Neer, 30, and Debra L. Middleton, 27, Boyne City.

Births

The following births were recorded last week at the Charlevoix Area Hospital:

A son, Derek Bernhard Alm, was born on February 17, to Bernhard and Janice Alm of Petoskey.

A son, Jason Kristofer Garst, was born on February 18, to Chris and Cindy Garst of Charlevoix.

A daughter, Ruth Eamon Howell, was born on February 21 to Tommy and Laurie Howell of Boyne Falls.

A son, Ethan Richard Phillips, was born on February 21 to Peter and Constance Phillips of Charlevoix.

A son, Robert Keith LaVanway, Jr. was born on February 22 to Robert and Janice LaVanway of Boyne City.

Fire calls

The Charlevoix Fire Department responded to one call last week:

Thursday, February 24, 3:22 p.m.: Chimney fire at the Joseph Vogelheim residence in Norwood Township.

Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment Plant:

Date	High	Low	Precip.
Feb. 21	32	20	0
Feb. 22	32	24	0
Feb. 23	40	22	3" snow
Feb. 24	24	8	Tr. snow
Feb. 25	24	3	Tr. snow
Feb. 26	39	8	Tr. snow
Feb. 27	46	28	0

PUBLIC NOTICE

The following Ordinance was adopted by the Common Council of the City of Charlevoix at a regular meeting held on February 21, 1983

ORDINANCE NO. 423

THE CITY OF CHARLEVOIX ORDAINS THAT:

The City of Charlevoix Zoning Ordinance be amended so that the following legally described parcel of land, located in the City of Charlevoix, County of Charlevoix, and State of Michigan, to wit

In the City of Charlevoix, Charlevoix County, Michigan, Commencing at an iron stake at the Southwest corner of Section 26, Township 34 North, Range 8 West, thence North 0° 01' 24" West along the West line of said section 2649.47 feet to the West quarter corner of said section; thence North 0° 14' 17" East along said section line 1553.26 feet to a T-iron stake on the Southerly line of Pine River Lane (also known as River Street), thence South 76° 34' 33" East (recorded as South 77 East) along the Southerly line of said lane 200.94 feet to a T-iron stake; thence North 89° 29' 24" East (recorded as East) along the Southerly line of said lane 247.09 feet (recorded as 247 feet) to a T-iron stake on the West line of Michigan Avenue (Highway U.S. 31), thence North 18° 13' 42" East 270.73 feet to a T-iron stake on the East line of said avenue, as existing, recorded as being 20 feet East and 198 feet South of the intersection of the South line of Dixon Avenue and the East line of Michigan Avenue as existed prior to June, 1941, being the point of beginning of this description; thence South 0° 13' 05" East (recorded as South) along the East line of said avenue 290 feet to a T-iron stake at the Northwest corner of the City of Charlevoix property described in Liber 126, Page 20, Charlevoix County Records; thence South 73° 13' 05" East (recorded as South 73 East) along the Northeasterly line of said city property 114 feet to a T-iron stake at the Northeasterly corner of said city property; thence South 0° 13' 05" East (recorded as South) along the East line of said city property 20.17 feet (recorded as 28 feet more or less) to the shore of Round Lake; thence along said shore the following courses: North 79° 11' 33" East 52.30 feet; North 79° 07' 48" East 41.24 feet, North 65° 56' 54" East 42.52 feet; North 49° 15' 48" East 81.45 feet; North 49° 29' 38" East 89.54 feet; North 1° 38' 28" East 34.94 feet to a T-iron stake on the Northeasterly line of the E. James Hiller property described in Liber 187, Page 382, Charlevoix County Records; thence leaving said shore North 52° 08' 25" West along said Northeasterly line of the Hiller property 261.9 feet (recorded as 261.90 feet, more or less) to a T-iron stake on the North line of said Hiller property recorded as being 198 feet South and East parallel with said South line of Dixon Avenue 184.8 feet from the intersection of South line of Dixon Avenue and East Line of Michigan Avenue as existed prior to June, 1941; thence North 89° 35' 05" West (recorded as West, parallel with said Dixon Avenue) along the North line of said Hiller property 165.06 feet (recorded as 164.8 feet) to the point of beginning; being a part of Government Lot 2, Section 26, Township 34 North, Range 8 West. The above described parcel includes all land to the water's edge of Round Lake Southerly of the courses described as along said shores.

be and the same is hereby re-classified from Marine-Commercial-Scenic District (MCS) to Motel-Hotel (M-H); and,

That the zoning map of the City of Charlevoix be amended to reflect said Zoning District re-classification.

Names In The News

Among the 240 Adrian College students named to the Dean's List for the 1982-83 fall semester were, from Charlevoix, INGRID WIEMER, a sophomore teacher education major, and GILBERT NOIROT, a senior biology-psychology major.

DENNIS W. BATDORFF of Charlevoix has been named to the Dean's List at Huntington College, Huntington, Indiana.

On the fall semester Dean's List of the Grand Valley State College of Arts and Sciences in Allendale, Michigan is MARIE BUDAY of Charlevoix.

DUWAYNE A. DOUGHERTY, son of Duwayne A. and Virginia J. Dougherty of Route 3, East Jordan, Mich., has been assigned to Sheppard Air Force Base, Texas, after completing Air Force basic training.

During the six weeks at Lackland Air Force Base, Texas, the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree in applied science through the Community College of the Air Force.

The airman will now receive specialized instruction in the aircraft maintenance field.

He is a 1981 graduate of East Jordan High School.

At 90, Mike Hamlin remembers much about old Charlevoix

By FRAN MARTIN

Louis "Mike" Hamlin observed his ninetieth birthday anniversary recently at a party on the date of the memorable occasion, February 6.

"It's something to be 90" Mike, as he is affectionately called by everyone who knows him, said. "I really didn't expect much but it was a great party.. So many people stopped in, called or sent cards. I want you to thank them for me."

Mike is probably the oldest native resident of the community, having been born in Charlevoix Feb. 6, 1893, in a house at 305 Antrim St. that his father, Arthur M. Hamlin, a carpenter, had built.

"That part of town had been part of the sand dunes near Lake Michigan and in the area behind our house that faced what is now Mason Street was all woods" he recalled. At that time, Antrim street was the main highway that was eventually to become US 31. It was later re-located. He said there were no paved streets in those days. Because Antrim Street was a highway it was sprinkled every morning and afternoon with a sprinkler drawn by a team of horses. "Kids did the same things then as they might do now. On hot summer days we'd run behind the sprinkler in our bare feet to cool off".

He recalled that the superintendent of the City Water Works, a man named Lou Guard, lived across from his parents on Antrim Street and had the first indoor plumbing in the area. "That sure caused a lot of excitement on our street" he added.

He didn't have far to go to school because the Central School was located in the middle of the block where the present Middle School is. The two-story white brick building which has since been razed, had a belfry on it. "I was a student there when it was struck by lightning. It was a frightening experience. The plaster in the rooms came tumbling down and there were bricks strewn on the ground outside the building" he reminisced.

He said he was just 12 when he got his first job delivering meat in a two-wheel cart drawn by a horse for the late Horace Fowler who had a meat market in Bridge St. Later, he said, Mr. Fowler bought one of the first touring cars in town, a one-cylinder Cadillac, that would go 20 miles an hour. "Highways weren't what they are now for they were full of chuck holes that filled with water after a rain." He said, he recalled accepting an invitation to drive to Petoskey with Mr. Fowler one afternoon. "It was after a rain and the water kept coming up through the floor boards. We remedied that by putting a piece of oil cloth on the floor under our feet in order to keep dry" he continued.

Mr. Hamlin said he played baseball and football. He remembered going to Petoskey and Harbor Springs for games one weekend. "We left here by horse and wagon at 4 a.m. Saturday played in Petoskey that morning, went to Harbor Springs for a game Saturday afternoon and returned home during the night, arriving in Charlevoix at 6 a.m. Sunday.

He said he grew up during the lumbering era. He said that Mont Withers brought in the largest load of logs ever delivered to Nicholls mill at the site of Finn Lumber. "There should be a picture of that some place in the community" he remarked. He also said that in the spring, when logs were floated to the mill via Lake Charlevoix, the kids in the community would play on the logs floating in the lake, jumping from one to the other. "I fell in once and Jim Krulik pulled me out", he grinned.

In 1919, he and his brother Charley started their own grocery store. "Charlie became ill and left the business. I sold to Milt Block in 1925 and went to Elkhart, Ind., where I again went into business." he said. However, in 1940 he returned to Charlevoix, worked briefly as a butcher for Milton Block before purchasing the Model Home Laundry which he operated until retiring.

He has lived alone at his home at 813 State Street since the death of his wife, Ellen, in 197.

Mr. Hamlin has one son, Alcedo of Portage and three daughters, Mrs. Ted (Naomi) Plank of Elkhart, Ind., Mrs. Richard (Janice) Stump of Cassopolis and Mrs. Herbert (Virginia) Cummings of Charlevoix. He also has eight grandchildren and eight great-grandchildren.

Among his most treasured greetings is one on the stationary of the White House bearing the presidential seal and signed by President Ronald Reagan with who he shares a birthday. The message reads: Dear Mr. Hamlin:

My birthday celebration is brightened by the knowledge that you and I share the same special day on February 6 – Happy Birthday! Nancy and I are happy to offer our best wishes for the occasion. God bless and keep you for many more.

Sincerely,
Ronald Reagan

But Mr. Hamlin is never alone for long. There's always a friend dropping in, he's invited out to eat, spends time with his daughter, Ginny and her family or they come to visit him and every week there's the card playing session. "We either go out to Dick Farmer's or, in the summer, to my shack at Norwood, for the day." Mike explained. The card players? his neighbor, Charlie Heise, George Sarasin, Gordon Neff and Farmer.

Louis "Mike" Hamlin

EDC elects new officers

Dennis Jason of East Jordan was elected president of the Charlevoix County Economic Development Corporation at the annual meeting held recently.

He succeeds Lee Moerland who had headed the corporation since it was organized in 1980. Moerland will now serve as secretary.

Casimir Toton was named vice president and Don Voisin treasurer.

Other members are Arthur Rouse and Ray Towne of Boyne City, Charles Sherk of East Jordan, Richard Sayward and Oscar W. Ward of Charlevoix.

Offer new Dance Slimnastics series

Dance Slimnastics, Ltd. will offer area residents an opportunity to shape up for spring in an eight-week series of acrobic dance classes scheduled to begin the week of March 7.

Classes will be held at the following locations and times: Boyne City Middle School on Tuesday and Thursday at 7:30 p.m.; Boyne City Elementary School on Monday and Thursday at 4 p.m.; Boyne City Lanes on Tuesday and Thursday at 5:30 p.m.; Charlevoix High School on Tuesday and Thursday at 4:30 p.m. and also Monday and Wednesday at 6:30 p.m.

To pre-register or obtain more information, those interested may call 547-4559 evenings in Charlevoix or 582-6322 in Boyne City.

The new spring session, titled "American Heartbeat" will give participants the chance to work out aerobically as many times per week as desired.

The dance routines are set to a variety of musical tempos. No previous dance or athletic experience is required.

Ground Zero to sponsor educational game of war and peace in April

During the month of April Ground Zero will sponsor an educational War/Peace Game called "Firebreaks". Thousands of local groups across the country will participate, including groups in Charlevoix and Petoskey. It is a learning game in which ordinary citizens play the role of advisors to world leaders in a hypothetical international crisis. They will explore the sort of events which might lead to a nuclear war and ways to prevent it.

Last year Ground Zero Week activities were designed to alert people to the danger of nuclear war and to get them to confront the problem. 1983 Ground Zero activities will emphasize prevention of nuclear war and the importance of citizen involvement. "Firebreaks" will not focus on weapons as much as on the broader context of international relations.

The game is designed for four weekly sessions beginning the first week in April. The final week will be the most critical and will emphasize the importance of U.S.-Soviet relations, regardless of where and how the crisis begins. The meetings will take the form of discussions or symposiums on how to deal with a mock international crisis as it develops, helping people to understand the complexities of the problem and the need for prompt and wise decisions by world leaders. Groups participating in the "Firebreaks" game will receive background information about a possible, but fictional international situation and weekly updates as the crisis develops. They also receive information about steps which might be taken to resolve the conflict. Anyone can play. It is designed as a game "for non-experts". No special expertise or advanced study is required.

Ground Zero is a non-partisan, non-advocacy nuclear war project committed to educating and involving the American public in the debate on effective national policies to prevent nuclear war. In "Firebreaks", Ground Zero does not recommend "right" or "wrong" choices to the players.

The Firebreaks War/Peace Game will be played on four successive Tuesday evenings in April at the First Congregational Church in Charlevoix. Anyone interested may join this group. Other organizations are encouraged to sponsor groups also. Leading a Firebreaks group does not call for any special skill or knowledge as the necessary information is provided in a Firebreaks Kit. One $10.00 Kit ($5.00 for School Groups) is sufficient for a group of up to 30 players. An individual may even conduct a Firebreaks group of friends and neighbors in his own home if he wishes. The object is to reach as many people as possible.

Anyone interested in starting a Firebreaks Group or in participating in one of the groups, or just wanting more information about "Firebreaks" may call Charlevoix contact person Margaret Duerr, 547-2603.

Vol. 99 No. 11 12 Pages PLUS ONE SUPPLEMENT Serving Charlevoix County (Mich) Since 1883 Wednesday, March 9, 1983 25¢

Tim LaBlance gives Chris Putman the high five in Charlevoix's 20th straight win Friday night.

Rayders cap 20-0 season at St. Ignace

St. Ignace, Charlevoix's only serious threat to the Michigan-Huron Shores Conference championship, had been eliminated from the race. They had nothing to gain from Friday night's final regular season basketball game other than pride. They should have been loose.

Charlevoix, on the other hand, came into the contest with 19 straight wins and faced the pressure of having to win one more to cap the first undefeated Rayder season in 15 years. They should have been tight.

Thus the stage was set for what should have been a close game.

In the end, however, it was a patented Charlevoix second half stampede that sealed a 75-51 victory and preserved the coveted 20-0 mark for the red-hot Rayders.

First half action saw the Rayders behind most of the time. Three top scorers, Craig Klooster, Tim LaBlance and George Smith, were completely shut out in the first quarter as the Saints moved quickly from a 12-12 tie to a 22-12 advantage by the end of the quarter.

By midway in the second quarter, however, Charlevoix started to gain momentum and, with help from a six-for-six team performance at the free throw line, edged to within two, 32-30, by the intermission.

It was largely the steady, persistent play by Chris Putman, both offensively and defensively, that kept the Rayders in the game during the first half. In addition to putting the clamps on high-scoring center Jon Olsen, Putman managed to put up 23 points in the game himself to lead all scoring.

The lead was still a see-saw affair through most of the third quarter but toward the end of the period, the Charlevoix offensive giant awakened and they burst to 51-45 lead in the closing minutes. That was an accurate preview of the rest of the game as Charlevoix never looked back while outscoring the Saints 24-6 in the final quarter and firmly establishing themselves as indeed worthy of the M-HSC undisputed crown.

Said Coach Dave Smith, "This team set high goals this year and they have worked hard to reach them."

Other high scorers for Charlevoix in the game included George Smith with 18 and Klooster with 13. Klooster's team high of 11 rebounds helped the Rayders to a 38-29 advantage under the boards for the game.

Charlevoix begins Class C District tournament action in Boyne City this Thursday night when they play the winner of Tuesday's Kalkaska-East Jordan game. Tip off is at 7:30 p.m. with the finals scheduled to start at the same time Saturday night.

Rail freight may soon return to Charlevoix

by DAVE KNIGHT

Freight trains may soon be regularly rolling through Charlevoix again.

Michigan Northern Railroad is in the process of finalizing a purchase agreement involving trackage from the end of the state-owned right of way at approximately the former depot southward to the Medusa Cement Company plant.

According to MNRR marketing chief Bob Redman, an agreement may be reached within one to two weeks that will initially provide the shipment of raw materials such as sand and coal to Medusa and may eventually allow shipment of cement from the plant.

Redman said that another Charlevoix manufacturing firm has expressed interest in rail service but would not identify the firm.

According to Medusa plant manager Robert Thimm, one of the first commodities the plant may receive by rail is a dust-soppressant liquid which is produced in Northern Wisconsin as a byproduct of paper mills. The liquid is applied to roads on Medusa grounds to settle fugitive dust.

Details on the arrangement being sought by Michigan Northern, such as how many miles of trackage are involved and other specifics of the purchase, were not available as of early this week.

Redman did say, however, that the depot property, owned by the Chesapeake and Ohio Railroad and leased to the Charlevoix Yacht Club, is not included in the purchase.

He also said that the venerable swing bridge over the Pine River Channel, which has been idle since last year, will be restored and put back into use when a few minor parts removed by C&O are replaced.

There were also indications last week that work will begin soon on re-installing the railroad crossing on M-66 just south of Charlevoix. The M-66 crossing was only recently removed and paved over.

Redman said that the frequency of trains through Charlevoix, should the purchase agreement be reached, has not yet been determined.

$1.65 million bond to be on May 2 ballot

by DAVE KNIGHT

Charlevoix voters will determine the fate of a $1.65 million bond issue for construction of a lake water treatment plant following action by City Council Monday night placing the question on the May 2 ballot.

The May 2 election will also pose the question to city and Charlevoix Township residents on whether a charter commission to study consolidation shall be formed.

City Manager Robert Hunt explained that total cost of the proposed plant, prompted by the contamination of Charlevoix's existing groundwater system by trichloroethylene (TCE), is estimated to be about $1.9 million.

He put the chances of the city receiving a $400,000 federal grant for the project at about "50-50" and advised the council to explain clearly to voters the possibility that additional sums may have to be borrowed should the grant fall through.

Hunt further proposed that the debt be retired solely through property taxes and not user rates thus allowing citizens who have the ability to do so to deduct the extra expenses from their taxes. Hunt estimated that an average tax increase of 1.25 mills would be necessary over 15 years though intially the rate could jump to three mills and later drop to around one.

He also said that although approval of the $1.65 million bonding could be granted by voters at once, actual construction of the plant could be phased over a number of years thus lessening the tax burden.

On another water related subject, the council opted not to purchase water from the township at this time to dilute the TCE contamination in city water. Council expressed satisfaction with recent progress on the aeration system which has resulted in TCE levels averaging around 30 parts per billion in latest testing. Under some conditions, levels dropped to as low as 5 ppb and Hunt said that ongoing adjustments may well be able to stabilize the contamination at that level.

Council made it clear in their action, however, that they wished negotiations to continue on water rate disputes between city and township in case future cooperation on water service is required.

In other action, the council:

-Held the appropriate public hearings and passed the 1983-84 city budget with no additions or corrections to the proposed budget draft.

-Approved the closing of Bridge St. from Mason to Clinton to all vehicle traffic for the 25th annual Waterfront Art Fair on August 13.

Tom's Mom's cookies are new Charlevoix industry

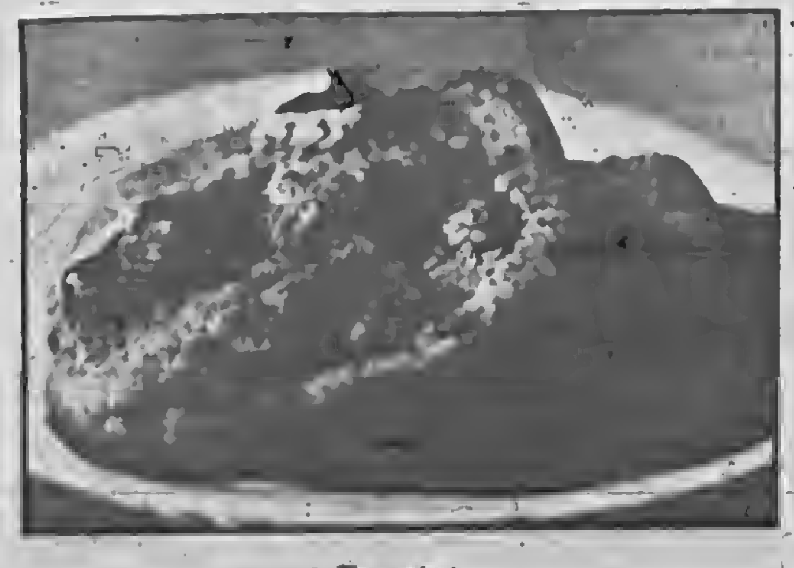
If you bake a better cookie, will the world beat a path to your door?

by BARBARA MACARTHUR

Charlevoix chocoholics beware! There's a new industry in town preparing to tempt chocolate addicts here and everywhere.

Tom's Mom's Cookie Company already is turning out 135 dozen chocolate chip cookies on weekends for sale as a quick energy snack to skiers shopping in area Bahnhof stores.

Promotion of the cookies by word of mouth garnered a "phenomenal" response, says Tom Kneeland, owner of the Yellow Submarine Restaurant and bakery where he bakes the cookies. So he decided to go in for cookie making in a big way with the help of his new partner, Dan Larkin, another Charlevoix resident.



The product.

Tom's Mom.

"Once people taste them, we got 'em," Larkin claims with glee.

What's different about this perennial American favorite? The company's slogan, "The chewier cookier with the bigger chunk" provides a clue. The cookie actually is a cross between a cookie and confection.

Instead of using chocolate chips, the pair chop big blocks of chocolate into chunks. They emphasize the top quality of their chocolate plus the fact that no artifical preservatives or flavorings are used.

There are several versions of the chunky cookie - some with whole pecans or walnuts added, some with coconut or minted chocolate and a redundant version (chocolate with chocolate chip). Prices range from $.40 to $.50 a cookie depending on the variety.

Kneeland and Larkin prophesy they'll be baking up to 400 dozen a week by late summer. This coincides with the busiest time in the restaurant which employs 15 people during the 'season' so the cookie baking eventually may outgrow the Yellow Submarine kitchen and need more space.

Larkin, 35, hopes his marketing strategy will boost the business and provide more employment in Charlevoix. Already he has commissioned three local artists, Barbara Godwin, Todd Warner and Jo Moffit, to design cookie jars for gift packages.

Colorful sacks designed by Grand Rapids graphic artist Daniel Murdock to hold either a single or a dozen cookies are expected to be an eye catcher thereby promoting awareness of the company's

Enterpreneurs Tom Kneeland, left, and Dan Larkin.

For Saints and Sinners

by Pastor James Plackner
Bethany Lutheran Church

"It Really Happened"

As strange as it may sound this really happened.

In 1829 George Wilson was sentenced to hang in Pennsylvania by a US court for mail robbery and murder. After the trail President Andrew Jackson pardoned him. Wilson refused the pardon, saying, "It's not a pardon unless I accept it and I refuse".

President Jackson took ti to the Supreme Court. After deliberation Chief Justice John Marshall wrote: "A pardon is a paper, the value of which depends on its acceptance by the person implicated. It is hardly to be supposed that one under the sentence of death would refuse to accept the pardon, but if it is refused, it is no pardon. George Wilson must be hanged."

And he was so hanged.

It really happened. I mean this: God gave his only Son to die for the sins of all people in the world. Christ, the perfect Son of God, died in the place of all sinners. Sinners should die but now that Christ has died for them, sinners get to live - and live forever.

That is God's pardon.

That pardon is there for you. For you! But you have to take it. You have to ask God for this forgiveness in Christ. If you ask Him, you have it. If you take it, you have it. You do! Then you are free to be forgiven and free to live.

Yet there are those people who do not want to live. George Wilson - and others. They refuse the pardon.

It really happens....

New Chx. County Hospice names first director

Kathleen Smith of Boyne City has been chosen as Director of Charlevoix County Hospice, it was announced by the organization's Board of Directors this week.

Charlevoix County Hospice, founded in 1981 and formally organized with a Board of Directors last fall, hopes to begin serving the terminally ill and their families by early summer.

The selection of a Director has been a priority with the organization, despite the fact that it is operating entirely under volunteer direction.

Mrs. Smith, who has been acting as Interim Administrator for the organization since its conception, agreed to continue serving in a volunteer capacity, until enough funds are raised to provide a director's salary.

"The first funds we raise will go toward necessary office expenses and establishing our training program for volunteers," the new director pointed out during a recent interview.

Since moving to Boyne City in 1978, Mrs. Smith has served as a discussion leader for the "Coping?" group. "Coping?" is a discussion group organized for people with a life threatening disease.

She also serves on the Boyne City Board of Review, and was President of the Boyne City Library Advisory Board from 1979 to 1980. She was a co-founder and member of the Governing Board of the Boyne Valley Natural Foods Cooperative and Superintendent of Youth Education for the Universal Center of Awareness Corp., of Vacaville, California.

A Chicago area native, Mrs. Smith worked previously as office supervisor and supervisor of computer operations for the Household Finance Company, Niles, Illinois.

She is currently enrolled in a Bachelor of Science program through North Central Michigan College, studying psychology and gerontology. She received Certification as a Hospice Volunteer after 22 hours of classes through the Hospice of Alpena, and has attended innumerable workshops and study sessions sponsored by the Michigan Hospice Organization and the Michigan League for Nursing. She received an Associate's Degree from Solano Community College in Suisun, California, and is an ordained Minister with the Universal Center of Awareness of Vacaville, California.

Kathleen Smith

One of her first objectives as Director of Charlevoix County Hospice will be assisting the organization obtain its tax exempt status so that it may begin raising funds and training volunteers.

As Hospice Director, Mrs. Smith says she considers herself an "advocate for terminally ill patients."

She explained that the Charlevoix County Hospice program will serve such patients and their families through home-based programs. The primary purpose of the organization will be to enable the terminally ill to receive care in their homes, while stressing the quality of life.

The Hospice Director said the core of Hospice is the volunteers who will be trained to assist the families, with daily routines, in order to minimize the family's burdens. Two groups of volunteers will be part of Charlevoix County's Hospice. One will consist of lay volunteers who perform "good neighbor" type activities. The other will include professional volunteers from such agencies as counseling, mental health, social services, law offices, insurance companies and the like. The professional volunteers will form an interdisciplinary team directly overseeing each individual's care.

All volunteers will receive up to 22 hours of training, Mrs. Smith explained. This training will focus on dealing with death and dieing and the arts of communication and listening.

The director pointed out that the Hospice concept is world-wide. It is a concept of "alternative care for the terminally ill, which maximizes the quality of life, when the quantity of life cannot be extended," she said quoting Dr. Josefina B. Mango, former executive director of the National Hospice organization.

Charlevoix County Hospice hopes to begin bringing its services to the homes of the terminally ill by this summer.

A NEW STORE MANAGER took over February 25 at Glen's Market of Charlevoix following the promotion of current manager Ray Gilmore to another position with the Glen's Market firm in Gaylord. Harold Miller, center, accepting the store keys from Gilmore, is the new manager. Miller started with Glen's in East Jordan in 1970 as a high school service clerk and held various managerial positions with Glen's stores in Mancelona, Grayling-Rose City before becoming assistant manager at the Charlevoix store in 1978. Moving into the assistant manager position in Charlevoix is Robert Westfall, right, who has worked at both Charlevoix and East Jordan Glen's stores since joining the company in 1978. Gilmore has been transferred to Gaylord where he will become director of bakeries and delis for Glen's Inc. of Michigan.

Obituaries

ROGER R. ROZNOSKI

CDR. Roger R. Roznoski, 48, former skipper of the U.S. Coast Guard Cutter Sundew, died March 2 at the U.S. Air Force Regional Hospital at Scott Air Force Base, Ill., following a long illness.

CDR. Roznoski, a veteran of 30 years in the U.S. Coast Guard, was Chief of the Marine Environmental Protection branch at the Second Coast Guard District, St. Louis, Mo., at the time of his death.

A memorial service was held at noon March 2 at the Scott Air Force Base Chapel. Interment with full military rites was at the Nashville National Cemetery at Nashville, Tenn. Friday.

CDR. Roznoski had been transferred to the Second Coast Guard District in August. He had previously been the Commanding Officer at the Marine Safety office in Duluth, Minn.

A native of Green Bay, Wis., where be as born in October, 1934, CDR. Roznoski was graduated from DePere High School near Green Bay in 1952 and enlisted in the U.S. Coast Guard. After recruit training at Cape May, N.J., he was assigned to the Air Station at San Diego, Calif., Marquette, Munising, the C.G.C. Woodrush and the Coast Guard Recruiting Station at Green Bay Wis.

After graduating from Officers' Candidate School at Yorktown, Va, in 1964, he came to the U.S. Coast Guard Cutter Sundew at Charlevoix as Operations' Officer. The following year he was named Executive Officer of the Point Grey in Vietnam. Upon his return from Vietnam, he entered the Marine Safety Division and served in the Marine Safety Office in Seattle, Wash. as Executive Officer of the Marine Inspection offices in Nashville, Tenn., and Chicago, Ill., and also as Executive Officer of the U.S.C.G.C. Sweetbrier at Juneau, Alaska. He was Commanding Officer of the U.S.C.G.C. Sundew from 1974 until 1978.

Surviving are his wife, the former Carol Combes; three daughters, Mrs. Warren (Molly) Denney of Nashville, Mrs. Kelly Elzinga of Charlevoix and Mrs. Steven (Linda) Jones of Shreveport, La.; two sons, David of St. Paul, Minn., and John of Manchester, Mo.; five grandchildren; his parents, Mr. and Mrs. Philip Roznoski of Green Bay, Wis., three brothers, Richard of Sylmar, Calif., Steven of Green Bay and Carl of Denver, Colo.; and a sister, Mrs. Gail Krosnicki of Green Bay, Wis.

The address at the family home is 980 Chestnut Ridge Road, Manchester, Mo. 63011.

HERBERT B. SCHOFIELD

Funeral services for a former resident, Herbert B. Schofield, 71, who died March 3 at his Springvale Township home near Petoskey, were held Sunday at the Stone Funeral Home under the auspices of the Petoskey B.P.O.E. Lodge No. 629. Interment was in Greenwood Cemetery.

Born in Bridgeport, Conn., June 23, 1911, Mr. Schofield had attended school in Connecticut and Massachusetts and had lived in the Detroit area before coming to Charlevoix in 1948.

He was employed at Brown motors here until moving to Petoskey in 1960.

On Sept. 24, 1964, he was married to the former Mary Ann Kioglma at Petoskey where they had always made their home.

Mr. Schofield was an active member of B.P.O.E. Lodge No. 629 in Petoskey and was a former member of the Fraternal Order of Eagles No. 2462, Charlevoix Lodge No. 282, F. & A.M., and the Charlevoix Kiwanis Club.

Besides his wife, he is survived by six daughters, Mrs. Thomas (Julie) Heddle of Fort Kent, Maine, Mrs. George (Janet) Dircks of Spokane, Wash., Mrs. James (Roth) McKinney and Mrs. Gary (Linda) Moore, both of Charlevoix, Andrea and Joanne Schofield, at home; three sons, Kenneth of Wherli, N.J., Robert of Charlevoix and Charles, at home, and 18 grandchildren.

The family suggests memorials to B.P.O.E. Lodge No. 629 in Petoskey.

VERA A. KELLY

Funeral services for Mrs. Samuel (Vera A.) Kelly, 70, who died March 3 at her Marion Township home, were held Saturday at the Winchester Funeral Home. The Rev. Harold Kruse of the Ironton Congregational Church officiated. Interment was in Brookside Cemetery.

Born in the Pleasant Valley area of Antrim County, the former Vera Anne Campbell moved to Detroit with her parents at the age of seven years. On May 29, 1937, she was married to Mr. Kelly at Hazel Park. They came to Marion Township in 1948 to make their home. She was a member of the Ironton Congregational Church.

Besides her husband, she is survived by three sons, Donald D. and Delbert W. of Charlevoix and Paul E. of Plainwell; two daughters, Mrs. Beverly Bennett of Ironton and Mrs. Gary (Gail) Smith of Charlevoix; 13 grandchildren and three great-grandchildren.

F. IVAN WHITLEY

Funeral services for F. Ivan Whitley, 47, second ward alderman who died March 1 at his home, were held Thursday at the Winchester Funeral Home. The Rev. David W. Yingling of the United Methodist Church, officiated. Interment was in Brookside Cemetery.

Born in Charlevoix Nov. 14, 1935, F. Ivan Whitley was graduated from the Charlevoix High School in 1954. On Sept. 24, 1955, he was married to the former Elaine J. Poole. They always made their home here. He served in the U.S. Army from 1960 until 1962. He was a partner in Whitley Floor Covering. He had completed five years as second ward alderman and was in the first year of a two year term at the time of his death. He was a member of the Leslie T. Shapton Post No. 226, American Legion.

Surviving are his wife; four sons, Dane M. of Boyne City, Patrick V., Dennis L., and Kevin J., all of Charlevoix; three grandchildren and four brothers, Stanley J., Donald L., Kenneth G., and David L., all of Charlevoix.

The family suggests memorials to the American Cancer Fund.

MARVIN WYNSMA

Funeral services for Marvin Wynsma, 58, of Ellsworth who died Saturday at Little Traverse Hospital, were held at the Ellsworth Christian Reformed Church Tuesday afternoon. The Rev. Bruce Persenaire officiated. Interment was in Brookside Cemetery at Charlevoix.

Mr. Wynsma was born in Banks Township Nov. 4, 1924, and was graduated from the Ellsworth High School. On March 3, 1944, he was married to the former Sybil Balch in Detroit. They returned to Ellsworth to make their home. He was employed in the sales division of Erber Auto Co. in Charlevoix for the past 10 years, retiring in 1982 for reasons of health. He was a veteran of World War II.

He was a member of the Ellsworth Christian Reformed Church; had been a member of the Ellsworth Village Council for 17 years; was president of the Village Council for 14 years and a member of the Ellsworth Volunteer Fire Department.

Besides his wife, he is survived by three daughters, Mrs. Chester (Marlene) Drenth and Mrs. Ronald (Jan) Boss, both of Ellsworth and Mrs. Steve (Nancy) Weber of East Jordan; five grandchildren; his mother, Mrs. Egbert (Jennie) Wynsma of Ellsworth; a sister, Mrs. Eva Padavana of Columbus, Ohio, and three brothers, Lawrence of East Jordan, John of Grand Rapids and Arthur of Grandville.

The family suggests memorials to the American Cancer Society.

The Hastings Funeral Home was in charge of arrangements.

Bob Gorkiewicz, center, physical therapist for the Charlevoix Area Hospital, demonstrates with student Blake Russell on his lap ways of helping students' physical movement during an inservice training session at Ottawa Elementary School in Petoskey. Listening are, from left, teacher Jill Newcombe and her aides, Jacie Kreig, Bev Mish, Ken Dulinski and Occupational Therapist Jackie Brennan.

Teachers hear physical therapist

Students and teachers at Petoskey's Ottawa Elementary School's classes for the multiply impaired received some special attention last week from Charlevoix Area Hospital Physical Therapist Bob Gorkiewicz.

Gorkiewicz had been asked by the Charlevoix-Emmet Intermediate District to assist the teachers of this special education group learn more about body mechanics, because their job involves considerable heavy lifting of their growing students.

Teacher Jill Newcombe and her aides were also eager to use Gorkiewicz's expertise to help increase their student's mobility and use of muscles.

Gorkiewicz's visit to the Ottawa School classroom is part of a new program, this year, through which Charlevoix Area Hospital makes the services of its Physical Therapy department available to the Intermediate District.

According to Pat Taylor, Deputy Superintendent of the Intermediate District, Gorkiewicz will evaluate all children with physical impairments each fall and assist with any special training throughout the school year.

"The hospital has been very cooperative in making Bob available to us," Mrs. Taylor observed.

She explained that the students in this program come by bus from throughout Charlevoix and Emmet Counties and Ellsworth and Central Lake in northern Antrim County.

Gorkiewicz explained that the program to bring the multiply impaired students into the schools is relatively new. Thus the teachers are eager for specific advice on body mechanics, modifying their special equipment, and what approach to use for each student.

Working with each student and his or her specific problems, Gorkiewicz showed Mrs. Newcombe and her assistants individualized techniques for helping the students move. He suggested some equipment modifications and demonstrated how to use simple devices to make moving heavier students less stressful for both student and teacher.

St. Mary's Church plans annual St. Patrick's Day dinner for this Sun.

St. Mary's Church will host its annual St. Patrick's dinner at St. Mary's school hall on Sunday, March 13 Julie Supernaw, co-chairperson with Pat Waknlat, has announced.

Serving will begin at 11:30 a.m. and continue until 2:30 p.m.

A traditional menu of ham, corned beef and cabbage, potatoes, a wide choice of vegetables, salad bar, homemade breads and desserts will be served.

Committee chairpersons will be Fritz Allard, kitchen; Arlene Blissett, dining room; Josephine Bindi, coffee; Judy Donnelly, breads; Edna Miller, desserts.

Others are Connie Pischner, set-up; Nancy Dixon, tickets; Sandy Puhl, decorations; Toni DeVries, dishwashers; Leigh Lovell, publicity; Julie Supernaw, advertising; Karen Campbell, soliciting; Sue Miller and Dawn Fletcher, take-outs; and Mike Barts, clean-up.

Prices for the dinner are: adults $4.50; senior citizens $3.50; children five-12 years, $3.00; under five years, free and a family ticket, $20.00.

Opinion

Knight on the Town

Help wanted

by Dave Knight

In a brief moment of indiscretion Monday night City Council authorized me to solicit applicants for the vacant position on the council representing the Second Ward. That seat was empty this week following the death last Tuesday of F. Ivan Whitley.

My first observation is that while the council will readily be able to fill the seat, they will not be able to replace Ivan Whitley.

Ivan was, well...Ivan.

He was a unique brand of public servant who never forgot whose money was being spent and was never shy about reminding others. No council meeting was consumated until Ivan blessed the week's bills. With his deer-hunting whiskers and a stovepipe hat, Ivan could have passed for Abe Lincoln in any parade but you'd best not have mentioned it to him; he was proud of his role as a Democratic Daniel in a Republican lionsden.

If anything, that role enhanced his self-image as a fighter for the people. Ivan was just not happy when he wasn't fighting.

At one of his last council meetings just weeks ago, one could tell it was not the real Ivan behind the nameplate on his desk. Emaciated from his futile battle against cancer and obviously in pain, Ivan was uncharacteristically quiet during a lively debate.

Suddenly, something was said that didn't sound right to him and in a flash the bushy eyebrows danced as the deep baritone rang out. And not everyone agreed...but they listened.

Later that evening, during a cigarette break, Ivan approached me in the lobby with a big grin.

"Didn't think I had it in me anymore, did you?" he said.

I laughed and shook his hand, as it turned out, for the last time.

But now onto the business of filling the empty seat. What, kind of person makes a Charlevoix City Councilperson?

Thickskinned. Of the many decisions made in City Hall on Monday nights, most turn out to be unpopular with somebody. Sometimes they are unpopular with everybody. Taking a seat on the council is akin to climbing up to a perch on the dunking stand; the only difference is potshots at the council are free and don't think people don't take advantage of that fact.

Frugal. Charlevoixians will let their city government have loose rein on some matters but not the pursestrings. Spendthrifts need not apply.

Broadshouldered. City Council is neither a civics class exercise nor a social function. It represents an important responsibility and is serious business. Future generations have as much riding on council decisions as those whose lives are affected today.

Patient. Democracy is often a clumsy way of getting things done. In fact, it can be downright exasperating at times (weekly?). Trying to figure out what is best for 3,000 people on the basis of a dozen or so shouting in your ear is an interesting experience.

Some other qualifications that come to mind include a dislike for Monday night football, a spouse that is public-service oriented (and who doesn't wait up) and a loud voice.

Those residents of the Second Ward who think they fit the above description are encouraged to file their name with the City Clerk this week. Council is expected to make an appointment within the next two weeks and they have indicated they are open to suggestion.

Oh, and did I mention that the pay is great?

Clockwise

Buy American

by Bob Clock

I may be crazy, but I like to buy American.

It bothers me that so much of the merchandise in my price range is produced in Taiwan, Hong Kong or Manila:

But I buy it because the quality is halfway decent and the price is right.

Danny celebrated his birthday last week and I was dismayed that the best buys in so many items on his list were foreign made — except one. That sole exception was a wooden model of a Model A Ford available at one of our local variety stores.

It wasn't awfully complicated and I was sure Danny could put it together with a minimum of parental interference. Furthermore, it was a product of Yarmouth, Maine, and if Yarmouth isn't pure Downeast Yankee-Doodle-Dandy American I don't know what is.

Danny put the model together Sunday up in his bedroom and emerged a couple of hours later with a very strange looking automobile.

"What's wrong with it?" I asked.

"They didn't send the roof or the steps," he said. "But I got an extra headlamp and a spare steering column."

"I never saw a Model A with three headlamps and two steering columns," I said. "Did you check the package? Maybe the roof and the running board fell out."

"This is all they sent," Danny said, holding up the little wooden model for my inspection.

I suspect I felt worse than he did, because I used to ride around in a Model A when I was a kid. Before the glue was dry on Danny's model I had dashed off a letter of complaint to the manufacturer, demanding the missing parts by return mail.

I simply cannot see how any company hoping to satisfy a nationwide market could tolerate such incompetency in its packaging department. The model had no more than two dozen parts in all, and the roof and the steps were among the largest components. I cannot imagine how they were overlooked.

Somewhere in these United States there must be another kid with a Model A with two roofs, two sets of steps, one headlamp and no steering column.

OF COURSE, Danny's problems with Yankee ingenuity had to surface only hours after two of our prized household appliances gave up the ghost. The tape recorder will play, but it no longer records; and the electric coffee pot has ceased to function.

I was getting to write additional nasty letters when Judy reminded me that the tape recorder is at least 10 years old and the coffee pot has been doing yeoman duty since it was given to us as a wedding present 20 years ago.

For the record, the tape recorder was made in Japan; the coffee pot in the United States. Both were excellent products — in their day.

JOHN BORTHS of M-66 called over the weekend to say he has crocuses in bloom. I checked out our meager plantings and discovered crocuses and daffodils are both up — but not yet in bloom.

Can you remember a more glorious winter? I can't.

Letters: Wells and thank-you

A Thonk-you

To the Editor:

Charlevoix should be extremely proud of the outstanding nursing staff at the Charlevoix Area Hospital headed by Mary Ann Cox. Each one exhibited warmth, compassion, and professionalism. Dr. Lindsay is a marvelous asset to the community and Kay Peck and her SRC staff at Grandvue Medical Care Facility are to be commended for the wonderful loving care they share with the residents. In behalf of Geoffery "Skip" Patrie, we give you all two wishes: a long full life and a big hug.

We would also like to express special appreciation to our family and firends, Father Magoon of St. Mary's Church, Tom and Sara Gay Dammann, Dave Knight and the Charlevoix Courier staff and countless others.

David and Barbara Patrie

City's wrong

To the Editor:

The present proposal as recommended by City Manager Mr. Hunt is to buy a water treatment plant as demonstrated by McNacmee, Porter and Seely. This is contrary to public policy as in this case there is no competitive bid.

The proposal would include a suction line of 1800 feet out into Lake Michigan. This would bring the end of this line very near the flow of water from the channel. This is also kept well churned up by the ships passing through. Other conditions such as the nearby discharge from sewage treatment and the flow of water as can be easily seen by the color trends to settle on this same side of the bay.

The general lay of the land which rises above the present well site forms a kind of ketch, that goes all the way to the in part covering several hundred acres also drains in to this same side of the bay.

There seems to be a plentiful supply of chemically contaminated water at a depth of 30 feet at the present pump station. Then why not put down 4 or 5 two inch test wells on the other side near the end of Michigan Avenue and Division St. Why not put a pump station over there which would be a good distance from the conditions that exist at the present site?

James Novotny

Tom's Mom's cookies

Continued from page 1

product.

The fledgling firm has a growing mail order business, says Kneeland. "We often send cookies to college students, for example."

Kneeland, 33, came to the area about five years ago from Battle Creek to be manager of the Charlevoix Bahnhof Shop. Two years ago he decided he "needed a change and a new challenge to meet" and purchased a Bridge Street deli.

It's a bit ironic that at first he planned to sell the baking equipment but was persuaded by Ron Fairbanks, equipment owner and veteran baker, that he should keep it. The first item baked was Fairbanks' chocolate chip cookie which was later adapted and improved by Kneeland and Larkin.

"We ate a lot and threw away a lot to get just the cookie we wanted," Larkin said somewhat ruefully as he munched on yet another cookie.

Large volume is possible because, unlike home bakers who drop cookie dough tediously by spoonfulls, Kneeland utilizes a large steel-bladed cookie wheel. After notching dough shaped into a long roll, he then uses a sharp knife to slice through the cookies.

Kneeland says the transition from retail store manager to restaurant owner and baker isn't so unusual. As a child he loved to watch his mother bake and helped her whenever he could. "My mom's a real good cook," he declared, "and my clerks always referred to Tom's Mom's pie, for instance, when they sold apple pie made from her recipe. We liked the sound of that and that's how we chose our name, " he explained.

Larkin, a native of Clarkston, Mich. with a business degree from Northwood Institute, is former owner of the Steinhaus restaurant in Petoskey. In addition to being a 'taster' he's learning from Kneeland how to bake while also carrying on sales promotion.

His research, he says, convinces him that there is little real competition nationally so he's contacting backers of Christmas shows featuring specialty stores and products. This, Larkin hopes, will pave the way to nation-wide sales.

Chocoholics - don't say you haven't been warned.

Out of the Blue

I want to lose some weight,
And lose it fast, so I'm
Going on vigorous diets—
Three of 'em at a time.

— Amos

Names In The News

ALVIN RANGER and his son ARTHUR RANGER attended the 42nd Annual Conference of the Michigan Society of Registered Land Surveyors held February 16, 17, 18, 1983 at the Amway Grand Plaza Hotel in Grand Rapids, Michigan.

The Seminar entitled "Surveying Is A Business Too" was kicked-off on Wednesday by Dr. Lawrence A. Pfaff of Kalamazoo who presented a session on "Hiring, Appraising and Firing". On Thursday, T.S. Madson II, P.L.S. of Gainesville, Florida stressed the practical applications of "Managing a Surveying Business, including People Management and Time Management". To wind-up the conference on Friday, Dr. Daniel E. Beardslee, P.L.S. of Oak Harbor, Washington presented a session on "Receivables Management for the Practicing Surveyor".

•

Marine Lance Cpl. ANDREW M. BIRDSALL, son of Frank M. and Doris E. Birdsall of East Jordan has reported for duty with 2nd Marine Division, Camp Lejeune, N.C.

•

Marine Lance Cpl. DAVID L. BRITTON, son of Charles E. and N. Kathren Britton of Charlevoix has returned from a deployment to Okinawa.

He is a member of 3rd Battalion, 4th Marines, Camp Lejeune, N.C.

His unit spent six months overseas as part of the Marine Corps unit deployment program. The concept is designed to rotate whole battalions or squadrons at a time instead of individuals at separate intervals. In this way, unit integrity is retained and the actual time spent overseas is shortened.

During the deployment his battalion conducted training exercises with other Marine forces, the U.S. 7th Fleet and allied forces.

•

The Board of Directors of the East Jordan Family Health Center announces that Ted. R. Scofield, M.D., above, will be joining Mitchell Carey, M.D. and Edwin Newington, physician assistant, in medical practice at the family health center. Dr. Scofield will be replacing Dr. Bruce Lindsay, who will be leaving in July to accept a fellowship in cardiology at Washington University in St. Louis, Missouri. Dr. Scofield is originally from Davison, Michigan. He attended Kalamazoo and earned his medical degree from St. Louis University. He then completed a residency in internal medicine at Memorial Sloan-Kettering Cancer Center in New York City. After completion of his residency, he agreed to stay on for an additional year as chief medical resident at Sloan-Kettering.

Dr. Scofield and his wife, Barbara, and their four week old son, Devlin will be visiting the area again in March and moving here in early July.

Masons gain

In the ninth night of play in the annual Masons-Oddfellows cribbage tournament, the Masons won by 50 points Robert C. Helse, tournament secretary, has announced. Though it trimmed the Oddfellows lead to 1618 points, it seems unlikely that the Masons can overcome the lead with only one night of play remaining, Helse added.

With 8½ tables in play, Sims Baker was high for the Oddfellows with 968 points. M.F. Herriman had 942 for the Masons.

The American Legion Post Home will be the site of the games on Thursday.

Charlevoix Area Hospital dietician Diane Charlebois explains her profession to a group of visiting students from the area.

Students learn about health careers

Some 60 students from Charlevoix, East Jordan, Boyne City, Ellsworth and Beaver Island schools spent Wednesday afternoon getting a first hand look at possible careers in the health field.

Annually, Charlevoix Area Hospital invites area students to visit the hospital and hear from hospital professionals about their work and what training is required for their jobs.

The 60 students were divided into small groups and given tours of the major departments, so that each student had an opportunity to see the hospital at work and ask questions.

Departments toured were: Nursing, Radiology, Physical and Respiratory Therapy, Dietary, Housekeeping and Maintenance, Administration and Business offices, Social Services, Pharmacy, Medical Records, Data Processing, and Laboratory.

Charlevoix Area Hospital Director of Patient Services R.N. Kathy Boss explained that individual students who wish further exposure to specific departments can make arrangements through their high school guidance counselor to visit the hospital and spend more time learning about health field careers.

Priestesses to meet

The Past High Priestesses and Past Watchmen of the Shepherds will meet at the Perry Davis Hotel in Petoskey for a luncheon meeting at 1:30 p.m. Wednesday, March 9.

Mrs. Harold Hamlin of Walloon Lake will host the meeting. Mrs. Herbert Goold of Boyne City will give the devotions.

At a recent meeting held at the Holiday Inn in Petoskey with 22 members and guests in attendance, Mrs. Hamlin, Worthy High Priestess-elect, discussed plans for the coming year. The meeting was hosted by Mr. and Mrs. Rod Saxton of Petoskey.

The birthdays of Leota Myer, Glena Sears and Hazel Harbaugh were honored. Mrs. Iola Holland of Grand Rapids attended as a guest with her sister, Mrs. Goold.

Gypsies were won by Ashdon Hayes of Petoskey and Virgie McClure of Boyne City.

Members were present from Wolverine, Petoskey, Boyne City, Walloon Lake, Torch Lake, Cheboygan and Charlevoix.

Gladys Dickelman, above, from Barrington, Illinois, will be the speaker on Good Friday, April 1, when the women of the Community Reformed Church in Charlevoix invite all the women of the community to join them for breakfast at 9:30 a.m. at the church. Mrs. Dickelman is an inspiring speaker, television personality and Bible study teacher. No reservations are neccessary. A free will offering will be taken. A preschool nursery will be available at the church.

Mrs. Wood president of Past Matrons

Mrs. Ray Wood was elected president of the Past Matrons Club at a recent meeting held at the home of Mrs. Melvin Plum.

Other officers are Mrs. Geneva Smith, vice president; Mrs. Pinm, secretary-treasurer; Mrs. Hazel Rehkopf and Janada Rehkopf, calling committee.

Mrs. Gary Spencer displayed a scrap book compiled by her grandmother showing pictures and articles relating to the Order of the Eastern Star that dated back to the early 1900s.

Eleven members were present at the meeting at which a gypsy, brought by Mrs. Spencer, was won by Mrs. Chester Belfy.

The next meeting will be hosted by Geneva Smith at 7:30 p.m. March 28. Members are asked to bring an item for the Women's Resource Center.

Mrs. Ingram to head Guild

Lucille Ingram has been named president of the Charlevoix Area Hospital Guild. She was elected recently to succeed Joanna Gunn who filled the position for the past two years. Virginia Rountree is secretary and Eleanor Schultz, treasurer.

The Guild, a service organization dedicated to serving the patients and the hospital, meet the second Monday of every month in the conference room on the lower level of the Lake Michigan wing of the hospital. Meetings begin at 7:30 p.m.

The Guild offers members and volunteers numerous opportunities to serve. Anyone wishing more information may call Mrs. Ingram.

MARCH BIRTHSTONE
The aquamarine & the bloodstone are birthstones for March. The aquamarine is a pale blue gem stone and is the more popular of the two.
It's soft color combined with the hardness of 8 and the fine qualities available add to its desirability. It is a cousin to the emerald as both are of the Beryl family of gems, however, the emerald is green Beryl.
The bloodstone is dark green with flecks of red color throughout. Much lore surrounds this ancient stone saying that if held in the hand or placed on the injured area, bleeding will be stopped.
For that special March birthday come to J. F. Reusch Jewelers. Now personally serving you in six locations making quality affordable.

Bergmann is state medalist placing sixth

Alan Bergmann

Alan Bergmann, Rayder wrestler in the 167 pound class, was a medal winner in the State Finals at Middleville Friday and Saturday his coach, Greg Bryan, reports.

Bergmann, who had a season record of 32 wins and six losses, placed sixth in his class in the state.

Wrestling six matches in two days he pinned Pat Grundy of Kelloggsville in 4:30; lost a close match, probably the best of his career by an 8-6 decision to Tom Toumi of Detroit Lutheran West who went on to take third place in the state.

In the consolation bracket, he pinned Steve Fournier of Capac in 4:30; decisioned Joe Trstnik of Williamston 13-0; lost to Dan Krupp of New Lathrop by a 13-2 decision and lost to Joe Wollet of Hudson 8-3.

Montrose placed first and the defending champion, New Lathrop second. Grayling placed fifth in the state in Class C. John Solomonson of Grayling placed first in the state in the 167 pound class.

Coach Bryan said that the best matches in the state were in the 167 pound class. "Few people realize how tough it is to place in state competition. The competition is topnotch and to even place is a great accomplishment. In just about all the classes, some of your opponents are former state champions. I am very proud of Alan and what he has done" he commented.

The Charlevoix Middle School seventh grade boys basketball team finished the season with an 8-1 record and went on to win the Cheboygan Invitational Junior High tournament.

Team members are: front row (l to r) Jim Tilton, Mark LaBlance, Jeff Skeel, Marty Joy, Gerald Field, Jeff Arnold, Chad Horn, Jason Titsworth.

Back row: Owen Phillips, Eric Voorheis, Roger Smith, Chad Devries, Dan Drury, Scott DeYoung, Mike Finley, Scott Denny, Coach Henry Wagner.

In year's best outing, VB team is tourney runner-up

The Charlevoix girls volleyball team, coached by Walt Drenth, were runners-up in the eight-team Class C District tournament held at Kalkaska Saturday.

Rogers City won the tournament and will advance to the Class C regional tourney.

Coach Drenth said the team played very well in the tournament, adding that it was their best performance all season.

Charlevoix won their first matches over Boyne City 15-8, 15-1 and East Jordan 9-15, 15-10 15-10 before going against Rogers City and losing 15-1, 15-11. Other teams were Traverse City St. Francis, Kalkaska, Grayling and Elk Rapids.

Seniors on the team are Laura Kemp, Treasure Drost and Connie Borths, tri-captains, Mary Ellen Ciuk and Chris Mitchell.

B-League basketball scores

Staley Hardware defeated Carlson Plumbing 49-44 to maintain the lead in the B League of the Charlevoix Recreation Department Independent Basketball League last week. In other games played Monday, Wojan Aluminum won over First State Bank 55-44 and Kit Carson-Charlevoix Garbage dumped Air Force 55-46.

In games played Wednesday, Air Force upset Carlson Plumbing 63-55; State Bank edged Kit Carson-Charlevoix Plumbing 62-62 and Staley Hardware squeaked past Medusa 65-62.

In winning over Carlson Plumbing, Staley Hardware headed the plumbers 12-11, 30-24 and 34-30 by quarters before posting the five-point win.

Larry Skippergosh with 16 and Terry Smith 12 paced the win. Randy Holecheck had 19 for Carlson's.

Wojan Aluminum had to overcome a 16-14 deficit at the final quarter before going ahead 30-28 at halftime and 41-39 going into the final period to defeat First State Bank 55-44.

Stan Martin scord 17 for the victors. Tim Carey had 19 points for the bankers.

Air Force played Kit Carson-Charlevoix Garbage to a 16-16 first period tie before the airmen lost the lead 21-22 at halftime and 44-32 at the three-quarter mark to lose by a score of 55-36.

Barney Way had 22 and Mike Crain 16 for the victors. Chris Claytor had 24 for Air Force.

Air Force jumped to a 13-12 first period lead over Carlson Plumbing, increased it to 26-23 at halftime and 43-33 at the three-quarter mark before posting its second win of the season.

Tony Starr with 24 points and Claytor with 17 lead the way to the win. Bill Annon had 21 points and Ray LaVoie 11 for Carlson Plumbing.

First State Bank handed Kit Carson-Charlevoix Garbage a loss after overcoming a 20-19 deficit at the quarter and trailing 36-32 at the half. The bankers outscored their opponent 17-10 to go ahead 49-46 going into the final period before coasting a victory.

Tim Carey had 21 points, Kevin Swanson 12, and Leroy Buchanan 10 for First State. Dale Boss had 16 and Mike Crain 13 for the losers.

In the third game of the night, Medusa outscored Staley Hardware 26-14 in the final period to cut Staley's winning margin to three points 65-62 after trailing 17-8, 36-24 and 51-36 by quarters.

Terry Smith had 21 points, Scott Olmstead 11 and Mark Schabert 10 for the winners. Jim Parrish had 26 and Robbie Hilton 10 for Medusa.

Chx. takes pistol shoot

In a recent pistol shoot between the Charlevoix Rod & Gun Club and the Emmet County Sportsmen's Club, Charlevoix took home the traveling trophy with a 1079-1057 victory.

Individual scores for Charlevoix were Jamie Waller, 284, Terry Gray, 281, Mike Westenbroek, 271 and Dale Terryberry, 263.

Emmet County scores were Bob Ball, 281, Riley Turcott, 279, Jerry Glaser, 255 and Steve Foster, 242.

The next meeting between the two teams will be at the Emmet County clubhouse on March 24.

JVs end at 14-6 for year

The Charlevoix Rayder Junior Varsity topped off its 1982-83 schedule with a 61-45 win over St. Ignace for a 14-6 record for the season.

The Rayders jumped off to a 15-12 first period lead, increased it to 34-24 at halftime and 44-28 going into the final eight minutes.

Charlevoix outscored St. Ignace 26-16 from the floor while connecting on seven of 20 from the line and collecting 16 personal fouls.

The Saints had nine of 15 charity shots and 16 personal fouls.

Brent Cole paced the game with 26 points including 12 field goals.

Stan Becker had 14 for the Saints.

7th graders place first, 8th graders second in Cheboygan tournament

The Charlevoix seventh grade basketball team took the title in its division and the eighth grade team was runner-up in its division of the Cheboygan Junior High Invitational basketball tournament held during the past two weeks.

The Charlevoix seventh graders defeated Cheboygan seventh grade team 39-24 in the finals after getting past the Soo 42-41 earlier in the week.

In Wednesday's game with Cheboygan, Charlevoix headed Cheboygan 10-6, 24-10 and 30-19 by quarters to take the finals by a 15-point margin. Dan Drury and Scott DeYoung had 12 points each for the victors. Jason Granoin had eight points for Cheboygan.

In the earlier game, Charlevoix trailed the Soo eight to four at the quarter and 22-16 at the half before taking over 29-21 at the three quarter mark. The Soo closed the gap to two points 42-41 at the buzzer.

Drury had 24 points including 10 of 10 from the free throw line. Randy Nelson had 15 for the Soo.

Charlevoix had defeated the Cheboygan Red team 39-18 in the opening game of the tournament.

In their game Saturday night, the Charlevoix eighth grade lost to Cheboygan 58-47 after defeating Cheboygan Catholic 34-24 in the semi-finals.

In the finals, Charlevoix trailed Cheboygan 16-10, 33-17 and 50-21 by quarters before outscoring Cheboygan 26-8 in the final period to cut the loss to 11 points.

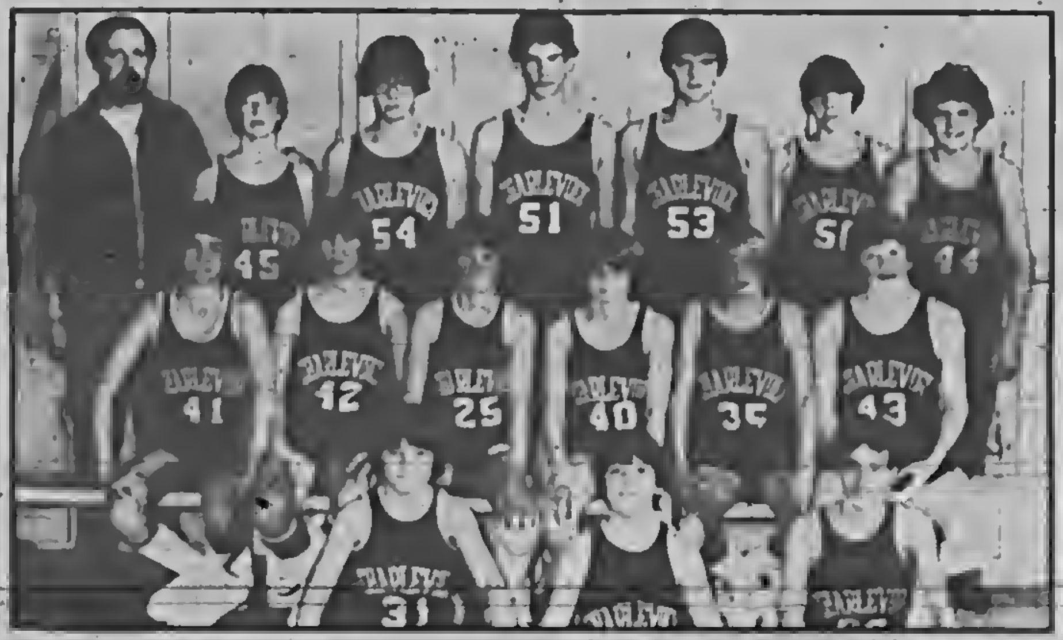
Terry Bonar had 19 points for Charlevoix. LaHaie had 19 and Chasse 12 for Cheboygan.

In the semi-finals, Charlevoix overcame an eight to six first period deficit to go ahead 18-12 at halftime and 27-21 going into the final period to win by 10 points, 34-24.

Bonar had 10 points. Kevin Shepard had eight points and played a fine game. Stempky had 10 points for Cheboygan.

Charlevoix had defeated Gaylord St. Mary's 39-36 in the opening game of the tournament.

Henry Wagner was the seventh grade coach and Barry Pierce the eighth grade mentor.



The Charlevoix Middle School eighth grade team finished its season with a 4-5 record and placed second in the Cheboygan tournament.

Team members are: front row (l to r) Quinton Walker, Ty Wagner, Harold Herriman.

Second row: James Spenceley, Mike Thompson, Jon Eakes, Darren Baldorff, Jim Ciuk, Mike Chew.

Third row: Coach Barry Pierce, Jim Gibbs, Kevin Shepard, Dan Staublin, Terry Bonar, Joey Miller, Kent Seymour.

BMX riders honored

The Charlevoix Township BMX Association held their second annual awards banquet recently at the Leslie Shapton Post of the American Legion Hall in Charlevoix.

About sixty people attended the affair to watch riders receive awards for being in the top 50 of Michigan ABA District 4. Michigan District 4 encompasses the largest geographic area of any district in the country. The district increased its population by over 50 percent from the 1981 season. Again Charlevoix was holding a good representation of riders in the top 50.

Finishing in the top 50 for 1982 are: John Helveston 9th, Pat Curtis 16th, Marvin Witthoeft 17th, Scott Raymond 22nd, Tim Wanek, 24th, Keith Hribek 29th, and Charlie Witthoeft 21st.

To become a top 50 rider is very difficult. Points are kept through the year and compiled at the end of the year. The rider with the most points is the number 1 rider. The second highest point total is the number 2 rider and so on until each rider is assigned a number. This number is then assigned to the bicycle for identification during the race.

There are well over 400 full member riders in the Mich.-4 and 12 tracks sanctioned.

The Charlevoix Township BMX Association thanked Oscar Strond and Charlevoix Township for support of the program saying that "Without their help this racing year in Charlevoix would not have been possible."

Anyone that would like to race BMX or volunteer some time to help by calling Tracy Curtis at 547-9857, Louis Raymond at 547-4206 or Dan Miller at 547-2968 or stop in at the Ben Franklin Store in Charlevix to see Dan.

BMX high point finishers display the numbers they will carry on their bikes this year.

B-League basketball

Village Inn Pizza posted its first win of the season Thursday night, defeating Boyne Auto 67-52, while Townhouse won over Ellsworth IDC 78-68.

Earlier in the week, Ellsworth IDC defeated Boyne Auto 64-50 to take over third place in league standings. In a second game, Depot Restaurant defeated V.I.P. 62-58.

In posting their first win, Vince Left and Jerry Skippargosh teamed up to score 23 points each and Woody Pearson added 10 to lead Boyne Auto 14-13, 27-22 and 43-26 by quarters.

Rob Spencer had 14 points, Hal Price 11 and Dale Tims 10 for the losers.

In the second game Thursday, Townhouse headed Ellsworth IDC 18-9, 40-27 and 58-48 by quarters as Steve Dunkelberg poured in 28 points, Rick Leslie 13, and Dan McKenzie and Don Trojanek 12 points each.

Tex Drenth had 19 points, Jim Danbert 16 and Brian Farrell 13 for IDC.

In their win on Monday, Ellsworth IDC had to come from behind after trailing 10-5 at the quarter and 22-21 at halftime to win over Boyne Auto. IDC surged to a 37-33 third period lead before winning by a 14 point margin 64-50.

Drenth had 19 and Danbert 12 for IDC. Tims had 14 and Bill Hoagland 10 for Boyne Auto.

Depot Restaurant had to come from behind to win over V.I.P, who, despite the fact that they had only four players, had led 16-12, 20-24 and 42-40 by quarters. Boyne Auto outscored V.I.P. 22-16 in the final period to win.

STATE OF MICHIGAN
IN THE CIRCUIT
COURT FOR THE
COUNTY OF
CHARLEVOIX

ALYNN L. O'ANGELO BALL,
a married woman,
Plaintiff,
vs.
COLLEEN TITSWORTH
and
MICHIGAN NATIONAL BANK - NORTH, a Federally chartered banking association,
Defendants.

File No. 82-38706-CH

NOTICE OF SALE

Pursuant to Judgment and Order for Sale rendered by the Honorable Martin B. Breighner, Circuit Judge, dated December 12, 1982, in favor of Plaintiff and against Defendants, which Judgment as of the date hereof remains unsatisfied, the following described property situate in the City of Charlevoix, County of Charlevoix, Michigan, will be sold by the undersigned at public auction to the highest bidder on the 21st day of March, 1983, commencing at 1:00 o'clock on the afternoon at the main entrance of the Charlevoix County Building, City of Charlevoix, County of Charlevoix, Michigan, that being the building where the sessions of the Charlevoix County Circuit Court are held.

The property to be sold is more particularly described as follows:

Land located in the City of Charlevoix, County of Charlevoix, State of Michigan, described as: A parcel of land located in Section 26, Town 34 North, Range 8 West; beginning at a point on the West line of Burns Street 445 feet North of the North line of Dixon Avenue; thence North 136 feet; thence West 156.25 feet; thence South 136 feet; thence East 156.25 feet to the point of beginning; being a part of Government Lot 2, Section 26, Town 34 North, Range 8 West.

As made and provided by law, the length of redemption from said sale is six (6) months.

Dated:

LEGAL NOTICES 207

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by Roger P. Shepard and Priscilla M. Shepard, his wife, Mortgagors, to GENESEE MERCHANTS BANK & TRUST CO., a Michigan banking corporation, Mortgagee, dated the 27th day of September, 1973, and recorded in the Office of the Register of Deeds for the County of Genesee and State of Michigan, on the 9th day of October, 1973, in Liber 137 of Mortgages, on pages 170-173 on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum Thirty-three Thousand, One hundred and Sixteen and 06-100 ($33,116.06) Dollars.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof and default having occurred whereby the power of sale has become operative.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, the 11th day of APRIL, 1983, at 10:00 o'clock, a.m., local time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the easterly front entrance to the County Building in Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at 9.25 percent per annum and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum or sums which may be paid by the undersigned, necessary to protect its interest in the premises, which said premises are described as follows:

All that certain piece or parcel of land situate in the Township of Norwood, in the County of Charlevoix and State of Michigan, and described as follows, to-wit:

Lot 79 of Clipper View Subdivision, a part of Sections 11 and 12, Town 33 North, Range 9 West

NOTICE IS FURTHER GIVEN, that the right of redemption from said sale shall expire six (6) months from the date thereof.

11:35 P.M.

The Common Council of the City of Charlevoix met on the above date and time in a Special Council Session called by Mayor Staley for the purpose of considering adjournment to an Executive Session to discuss litigation involving the Chicago Club Tax Appeal and related matters with the City Attorney. The meeting was held in the 2nd Floor Conference Room of City Hall, 210 State St., Charlevoix, Michigan with Mayor Staley presiding.

Present: Councilmembers Roloff, Wood, Porter, and Timme. Absent: Councilmembers Whitley and Olach.

Moved by Councilman Porter and supported by Councilman Timme to adjourn to an Executive Session to discuss the Chicago Club Tax Appeal with the City Attorney.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Roloff, Wood, Porter, and Timme. Nays: None. Absent: Councilmembers Whitley and Olach.

Council adjourned to the Executive Session.

Following the Executive Session, Council resumed the Special Council Meeting with Councilmembers Roloff, Wood, Porter, and Timme present; Absent: Councilmembers Whitley and Olach.

Moved by Councilman Timme and supported by Councilwoman Roloff to authorize the filing of a Claim of Appeal in the Chicago Club Tax Appeal matter.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Roloff, Wood, Porter, and Timme. Nays: None. Absent: Councilmembers Whitley and Olach.

Council adjourned.

Deanne Balch, City Clerk

Kenneth A. Staley, Mayor

These Middle School musicians are all business as they concentrate on a performance at the recent District Band Festival at which the eighth grade band received high ratings. See below.

Eighth grade band recieves II rating at Festival

The Charlevoix Eighth Grade Band received a II rating in the District II Michigan School Band and Orchestra Junior High Festival held here Friday evening, and Saturday Terry Isenbarger, festival host, reports.

The band received two II's and a I in concert and a I in sightreading for an overall II rating.

Band and orchestras that received the coveted I rating to qualify for state competition were: East Jordan, Traverse City Orchestra, Gaylord, Traverse City Symphonic Band, Elk Rapids, Central Lake, Posen and Petoskey.

Receiving II ratings were Harbor Springs, Inland Lakes, Traverse City Concert Band, Suttons Bay, Mancelona, Rogers City, Northport and Glen Lake.

Those bands receiving III ratings were Ellsworth, Cheboygan, Boyne City, Frankfort, Onaway, Bellaire, and Kalkaska.

Student blood drive set

The Student Council at the Charlevoix High School will sponsor its annual Blood Drive on Thursday, March 17, Bridget Noirot, president of the sponsoring organization, has announced.

The goal for the drive is 50 units Miss Noirot said.

The Bloodmobile will be at the Charlevoix High School library from 8:30 a.m. until 2 p.m. on March 17.

Donors to meet the quota are being sought. Anyone wishing to make an appointment may call the student council faculty advisor, Mrs. Gayle Gennett at 547-2811 between 7:30 a.m. and 4 p.m.

Any persons 18 years with parental consent to age 65 may give blood.

Plan Mothers' March

The 1983 Mother's March campaign will take place in the Charlevoix area March 7, 8, and 9, according to Mrs. Clara Loomer, chairman of the event.

Section leaders are: Kerr Talberg, Candy Smith, Bertha Smith, Ann Hanna, Karen Joy, Robin Maurer, Mary Towafey, Arlene Blissett, and Gayle Levengood.

Monies raised go for research and education, with 40 percent of the total collected remaining in the area. Equipment for neo-natal units, scholarship for student nurse at NCMC, genetics field clinic, a nutrition grant to Char-Em Alternative Ed. for Pregnant Teens are some of the ways funds have been spent in the area.

Pizza Hut is supporting the fund-raising drive by offering coupons good for $2.00 off on a large pizza and $1.00 on a medium size to those who contribute to March of Dimes.

Hopeful signs of a coming spring in northern Michigan are the cawing of crows and sap buckets hanging from maple trees.

People in bathing suits and T-Shirts usually follow much later.

"They say it's time to tap the maples when the crows get noisey," Terry Salmonson of Charlevoix said Monday morning, as he set buckets on the lone large and aged maple in his front yard.

"Actually," Salmonson said, "We began yesterday because we were inspired by friends out in the country who get a lot of gallons of sap out of seven or eight trees. When I heard the crows this morning, I knew we were on time."

The sap was running. By Monday noon, the Salmonsons had boiled down about 60 gallons of maple sap for a gallon and a half of syrup, in keeping with the traditional ration of 40 gallons of sap per gallon of syrup. Salmonson looks forward to a good season from his one tree, but admits that northern Michigan's unpredictable winter thus far may make for an unpredictable spring. He never dreamed he'd be in bathing suit and T-shirt on February 28.

Notice to Depositors of the Michigan National Corporation Banks

If you are a depositor of any of the Michigan National Corporation Banks listed below and you have a savings account with a balance of $10.00 or less that you have not made a deposit to or withdrawal from in the past two (2) years, please take note. The Bank will transfer the balance in the account to the Escheats Division, Department of Treasury, State of Michigan after March 15, 1983 if the account is not activated or closed by that date. For further information, please contact any branch of a Michigan National Corporation Bank.

CLOSURE OF STURGEON FISHING IN THE GREAT LAKES AND CONNECTING WATERS DURING SPAWNING SEASON

The Natural Resources Commission, at its December 3, 1982, meeting, under the authority of Act 230, P.A. 1925, as amended, closed sturgeon fishing in the Great Lakes and the connecting waters during the months of May and June for the period of five years, beginning April 1, 1983, through March 31, 1988.

ORDER TO RESTRICT SPEARING SEASON

The Natural Resources Commission, at its meeting on October 8, 1982 under authority of Act 230, P.A. 1925, as amended, ordered that for a period of five years beginning April 1, 1983, through March 31, 1988, it shall be unlawful during the month of April of each year to take any fish by spearing or bow and arrow north of Highway M-72 in the Lower Peninsula and from April 1 to April 14, inclusive, of each year between Highways M-46 and M-72 in the Lower Peninsula.

Isenbarger seeks to broaden musical exposure for students

by ANNE KELLY

Anticipating a two day district Junior High Band Festival, host Terry Isenbarger, Charlevoix Band director, is preparing his 8th grade band for competition. They will be playing three concert selections as well as performing two pieces of music which they've never seen before. "That can be a little shakey," Isenbarger explained, "but they just do the best they can after we've talked over the music for the allotted time."

Living in an area, where students lack extensive exposure to the more classical and traditional forms of band and orchestra music, a festival provides incouragement to participants "to broaden their musical horizons."

"The kids see others like themselves playing quality music and enjoying it. Then they don't feel like they're the only ones."

Receiving his degree in music education from Ohio University, Isenbarger went on for a Masters in Music from Ball State University. Before assuming his present position, he taught junior and senior high band in Tekonsha, Mich., four years at Roeper City and Country School for gifted students in Bloomfield Hills, was band director for three years in Mancelona and subsequently elementary principal there for another three years, and spent six years as band director in Bellaire.

Isenbarger joined the Charlevoix Schools in Jan. of the 1980-81 school year, and has been turning out fine musicians ever since. It was from "a good band director" in his own high school band program, that Isenbarder became interested in music himself. "I was not from a particularly musical family although my sister is also a musician with the Indianapolis Symphony," Isenbarger recalls. His annual message to parents of aspiring band students is perhaps the philosophy or backbone of his program: it's not worth the money or time of the parent or student if the commitment isn't there to practice beyond the band room.

Isenbarger's interest in music goes beyond the band room as well. He has participated for twelve years with four other area musicians in forming a brass quintet. The group plays both traditional and contemporary brass music for weddings, recitals and schools. They have performed for the Arts Festival in Petoskey, at the cathedral in Gaylord, and at St. Francis Church in Petoskey. This month they will be presenting a recital for the Arts Center.

Isenbarger is pleased with the revitalized support of the Band Boosters organization which has been raising money through community projects for middle school band uniforms, a portable band shell, scholarship funds for summer music camps, and medals and awards for festivals.

On March 19, Charlevoix will be participating in the Solo and Ensemble Festival in Bellaire.

Terry Isenbarger

CHS Band rates a I

The Charlevoix High School Symphonic Band received a First Division rating in the annual District II Michigan School Band and Orchestra Assoication Band Festival at Petoskey Saturday Terry Isenbarger, band director, has announced.

The band, the only Class C band in the festival to receive the I rating, received a I from two of the concert adjudicators and a II from a third judge. The band received a I from the sight-reading judge resulting in an overall I for the festival.

The three concert numbers played by the band were "The Pround and the Noble", a march by Ralph Herman, "Scenario" by Jared Spears, and "Three Old French Ballads", by William Rhoads.

A I rating qualified the band for state competition on April 30 Mr. Isenbarger said.

Other bands at the festival and their ratings follow: I rating: Indland Lakes, Onaway, Gaylord and the Petoskey Symphonic Band. II ratings: Petoskey Concert Band, Harbor Springs, Ellsworth, Mackinaw City, Posen, Rogers City, Boyne City, and Cheboygan. III rating: East Jordan and Johannesburg. IV rating: Boyne Falls.

Womens Club to meet Tuesday at high school

The Charlevoix Women's Club will meet at the Charlevoix High School at 7:30 p.m. Tuesday, March 15. Mrs. Connie Ford and Mrs. Fran Tollas will host the meeting at which the Ferensiks will entertain.

The Book Review group will meet with Mrs. Ethel Weisinger on Monday, Mrch 28. Mrs. Portia Crawford will present the book review.

At a recent meeting, the re-organization of the club was discussed. Meetings will be cut to three or four each year with the president and an executive board responsible for the main activities for the year. The annual membership tea, book sale, the tea honoring the Senior girl graduates and the annual meeting will continue to be held. The Book Review group will continue its regular monthly meetings.

The recent meeting was held at the Charlevoix County Sheriff's Department where Sheriff George Lasater spoke to the group on the duties and activities of the department. The Deputy Rangers program in which 22 boys and girls are involved was explained. A tour of the facility followed.

Mrs. Jack Cross, Jr., and Mrs. Gerald Muma hosted the meeting.

Panel discussion to focus on primary role of parents in sex education

"Parent's role as the primary sex educators of their children," will be the focus of a panel discussion at Charlevoix Area Hospital, March 16, at 7:30 p.m.

The panelists: Dr. Mitchell Carey, Family Practice Physician at the East Jordan Family Health Center, Mona Bradley, clinical psychologist at the East Jordan Counseling Center; Phil Simmons, Minister, United Methodist Church of East Jordan; Bonnie Willis, educator with the Northern Michigan Planned Parenthood; and Mary Biagini, Coordinator for the Alternative Program for School Age Parents, will discuss the parental approach to the issue of sex education.

Recognizing the increased focus on the topic of sex education, the Health Education Committee of Charlevoix Area Hospital gathered the panel of experts from various fields to discuss the parent's role in sex education.

All area parents are encouraged to attend this informative and important presentation.

"Some parents may feel uncomfortable in this role as primary sex educator," Debbie Rozek, panel moderator and Health Educator at the East Jordan Family Health Center, commented. "That is why we asked this panel of experts to present their experience and professional views."

Following brief presentations by the panelists, questions will be taken from the audience.

The panel discussion will take place in the classroom of the Lake Michigan wing at Charlevoix Area Hospital, at 7:30 p.m., Wednesday, March 16.

Reservations are advised for this evening session, for which there is no charge.

This panel discussion is part of the series of free monthly community health education sessions sponsored by the Health Education Committee of Charlevoix Area Hospital.

'Ransom of Red Chief' to play McCune

The Hutchinson Repertory Theatre is touring with "The Ransom of Red Chief" as its theatre for young audiences selection. Written by Brian Kral, and based on the famous short story by O. Henry, the play concerns the kidnapping of a young mischeifmaker by two 'criminals' who hold him for ransom. The kidnappers just want money, and the boy just wants to have some fun. The fun for the audience begins when it becomes apparent that the boy is much better at making mischief than his 'captors' are at making money. He nicknames himself Red Chief, goes on the warpath against the palefaces, and the slapstick abounds.

The performance will be at the McCune Arts Center in Petoskey on Saturday, March 12 at 2 p.m. Tickets are $2.00 and can be purchased at the Arts Center now, or by calling 347-3447. Last year's performance by Hutchinson was a sell-out, so come early or buy your tickets ahead of time.

The Hutchinson Theatre is a professional, non-profit touring company based in Hutchinson, Kansas. In addition to the play Crooked Tree Arts Council is also offering two workshops. The first is for grades four and five and is entitled Extending the Imagination. The workshop is based on student participation, and used creative dramatics to explore imagination and personality.

The second workshop is Improvisation. It is a participation workshop dealing with character development and group interaction. Pre-performance warm-ups, overcoming stage fright, and maintaining stage presence will all be covered. It will be for sixth, seventh and eighth graders. Both workshops are free and are limited to twenty-five students, who have been selected by their teachers from each school in Emmet and Charlevoix Counties, based on student population.

Educational workshops such as these and performances of live children's theatre are made possible by the Crooked Tree Arts Council which is supported by memberships and donations from interested persons in Emmet and Charlevoix Counties, as well as many summer residents, businesses, service clubs, and Michigan Council for the Arts.

Chairpersons for the Hutchinson Repertory Theatre Workshops and performance of "Ransom of Red Chief" on Saturday March 12 at 2 p.m. are Eileen Kosnik of Petoskey and Pat Stedman of Harbor Springs.

Good teams don't just happen; this one started last summer

by DAVE KNIGHT

They did it.

And it was not as much the fact that they did it - most fans knew the potential was there - but the ease with which it was done.

The Charlevoix Red Rayder varsity basketball team, with their victory at St. Ignace Friday night, became the first Charlevoix team to log an undefeated regular season since 1968.

The Raydars posted 20 consecutive wins in the 1982-83 campaign and took few prisoners along the way.

Their dominance of the Michigan-Huron Shores Conference was marked by an explosive offense and a hustling defense. Charlevoix scored a regular season total of 1,348 points while allowing their opponents only 915. That computes to an average 22 point spread per game.

Many games saw almost embarassing winning margins of 30 and 40 points or more.

The Rayders took very few foolish shots. Over the year they averaged a respectable 44 percent accuracy from the floor. Their free throw shooting, which gained importance as teams began gunning for them, improved as the season progressed. On the year they made 66 percent of their free throws.

Turnovers also gradually came under control as the team matured as a unit. At season's end, the Rayders averaged 16 turnovers a game, not bad on the high school level.

One territory seized early by the Red Rayders and never relinquished was under the basket. Even without a Big Man - a dominant center - the team's rebounding strength based on position and quickness was awesome.

Charlevoix snared 63 percent of all the rebounds in their 20 games. They outrebounded opponents 744-431, averaging about 38 boards a game.

And, more importantly, once the rebounds were secured, the team capitalized by turning them into points. On offense the three leading rebounders, Craig Klooster (171), Chris Putman (161) and George Smith (147), were also the three top scorers. On the defensive end of the court, sharp, accurate outlet passes keyed a running game that, once engaged, left many an opposing team wondering what hit them.

Typically, when the Rayders were running and applied the press, there was not a team on their schedule who could keep up. Sometimes it took a couple quarters to set the stage but when Charlevoix would shift into high gear, they meant business.

The momentum that carried the team to such heights was developing long before the December 7 conference opener against Boyne City, long before the season opener December 3 against Sault Ste. Marie, long before the first formal practices following football season in November and, in fact, long before school even started in September.

Coach Dave Smith

It was back in July, 1982 that the Rayder juggernaut actually started rolling.

Summer basketball has become an integral part of Coach Dave Smith's overall program and he used it to the fullest this season in reshaping a team that had been heavily dominated the year before by seniors.

Over the summer months, varsity prospects would report to practice two nights a week. The practices were highly structured, too; they were not fun games of one-on-one or pick-up affairs. Smith used the opportunity to work on the fundamentals of his offensive strategy and to see which players best acquiesced to that style of ball. He was able to evaluate underclassmen in terms of what contributions they might make to the varsity squad if given the chance.

"Summer basketball is also a great opportunity for the players to decide their own priorities," says Smith, "It is much easier for a player to decide whether he wants a shot at the team under these more informal circumstances, whether he wants to make the commitment, than when formal practices start in the fall."

A key factor in the success of the summer program was the busy tournament schedule that gave the team plenty of game experience and some pretty stiff competition. The Rayders traveled to tournaments almost every weekend typically leaving Friday night and returning Sunday.

Sometimes they would stay in motels, sometimes in host players' homes.

Over the course of the summer, Charlevoix acquitted itself surprisingly well against some teams of theoretically higher stature. The Class C Rayders beat such teams as Class A Adrian, Class B Corunna, Haslet and Chelsea and Class C White Pigeon.

They also played good games against Class A Romulus and Class C Williamston in mounting an 18-6 record over the summer schedule.

Thus the seeds of a successful season were sown.

Said Smith, "If we are going to start beating teams in summer league, we are going to keep beating them when the regular season rolls around."

But does Coach Smith expect year-round, undisturbed devotion to basketball from his players at the expense of other activities in their lives?

"In the overall picture, I think the kids should put basketball about third in their priorities," said Smith,

GEORGE SMITH, a 6'1", 160-pound senior, helped establish the Rayders' season-long dominance of the boards averaging over 7 rebounds per game in the regular season. Smith was also one of the team's most consistent offensive performers as he averaged over 12 points per game while racking up a total of 254 points. That output tied him with Chris Putman for the runner-up honors in individual scoring for the year. Smith was a deadly shooter from the field hitting about 55 percent of his shots over the year and he was not bad from the free throw line either from which he was shooting at 83 percent going into the last game. His rebound total for the year was 147 and Smith dished out 80 assists from his forward-guard position.

JEFF LEMERAND was another mid-season addition to the varsity squad. The 6', 160-pound junior was able to grab eight rebounds for the Rayders in regular season play.

CHRIS PUTMAN, a 6'2", 180-pound all around athlete in his four years a. Charlevoix High School, blossomed as a senior in his first regular starting opportunity for the Rayders. Putman joined Craig Klooster and George Smith in comprising a formidable senior threesome with awesome scoring, rebounding and defensive abilities. Putman's 254 points was the same regular season total as Smith but his rebounding total of 161 was second only to Klooster. He shot an eye-catching 51 percent from the floor and dealt 33 assists over the year.

KENT KETCHMAN, a 6'1", 185-pound center-forward, moved up from the junior varsity squad during the year to become the third sophomore player on Coach Dave Smith's varsity contingent. Ketchman managed to log 19 rebounds before the regular season ended and contributed eight points.

DANE TOLLAS, a 6', 160-pound junior forward, played a supporting role in the Rayders' unblemished 1982-83 regular season. Tollas' 35 points, 14 rebounds and nine assists for the year make him a likely candidate for a starting position next year.

TIM LABLANCE, known to teammates as "The General", was instrumental as a playmaker and backcourt strategist for the Rayders in their undefeated 1982-83 season. LaBlance led the team in assists for the year with 125, averaging over six per game. LaBlance also contributed 194 points over the year, shooting at 40 percent from the floor and 74 percent from the free throw line. From his guard position, LaBlance, at 6', 160 pounds, also grabbed 29 rebounds.

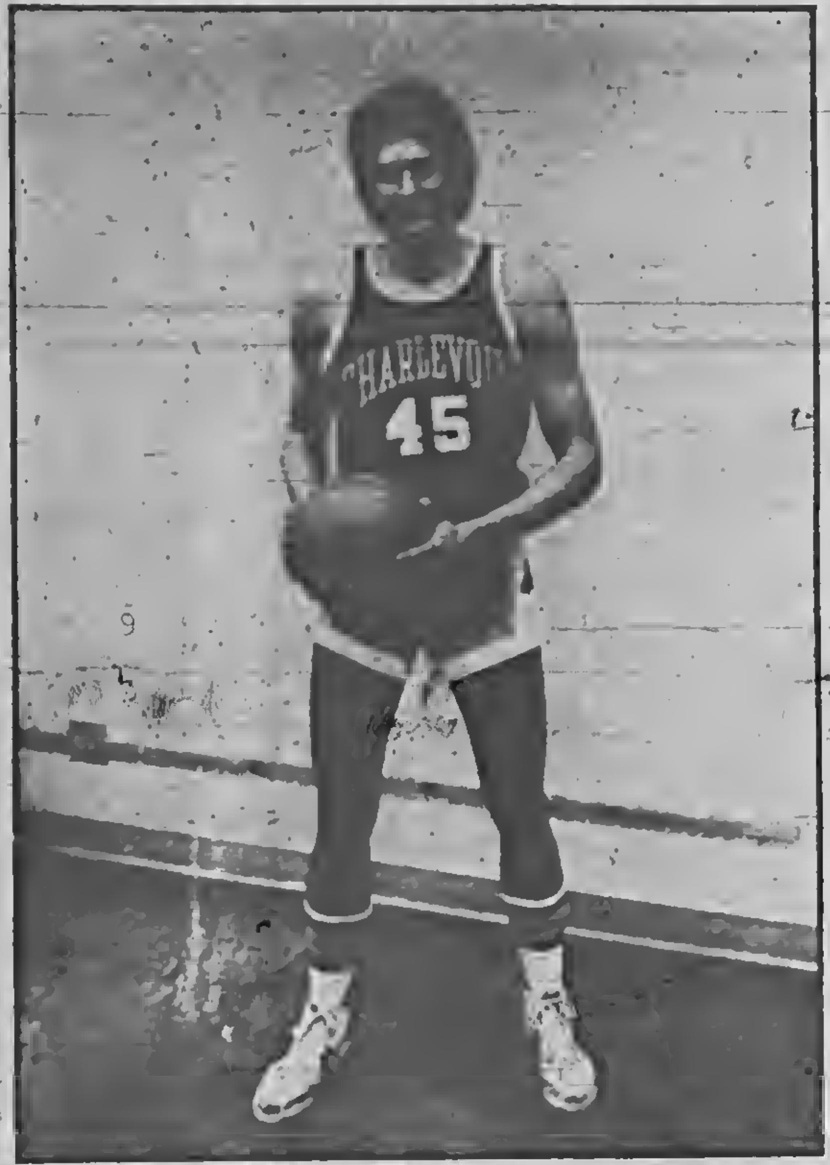
MARK OOSTMEYER, a 6'4" 190-pound senior, provided the muscle under the basket for the Rayders who otherwise fielded more finesse than brawn this season. Oostmeyer, playing in the center-forward position, hauled down 65 rebounds for the Rayders over the year and pumped in 54 points.



CRAIG KLOOSTER, 6'3", 170 pounds, finishes an illustrious basketball career at Charlevoix High School as leading scorer and rebounder for the team and leading scorer in the Michigan-Huron Shores conference. Klooster, playing out of a forward-guard position, tallied 372 points over the regular season, 171 rebounds and 85 assists. Going into the final game he was shooting 69 percent from the free throw line and 45 percent from the floor. Klooster averaged about 19.5 points per game in the 1982-83 season having missed one game because of illness.

DOUG SLOAN *started the season as sixth-man but won a starting position in the Rayder's first game after Christmas vacation and went on to make a valuable contribution to the team. The 6'3" 160-pound sophomore guard-forward hit 103 points over the year, grabbed 77 rebounds and dealt 31 assists. Sloan also figures heavily in Coach Dave Smith's future plans.*

Now, it's Tourney Time!

Continued from page 1

"It should come right after family and school."

Smith added that he likes his players to be well-rounded in the high school setting and points with pride to the fact that no fewer than seven of the eleven varsity players are on the Honor Roll.

To him, the fact that excellence on the court has been matched by excellence in the class room is no coincidence.

"If I can get my players to dedicate themselves to being good basketball players," said Smith, "They will dedicate themselves to other things in life with the same enthusiasm."

With the 20-0 regular season now history, the Rayders pick up the clean slate of tournament play. It is one of the accepted quirks of high school basketball that three and a half months of regular season success or failure can account for one big, fat zero when tourney time rolls around.

Anything can happen and it usually does.

The 1968 Rayders, undeafeated and seemingly headed for a long tournament experience, lost fairly early. Other Rayder teams not nearly as successful in conference action have gone surprisingly far.

Judging area Class C prospects - and courageously assuming they win the District at Boyne City this week - Charlevoix could very easily make it to the Class C quarter finals in Cheboygan with perhaps Iron Mountain being the toughest team standing between them and an appearance in Ann Arbor's Crisler Arena on Friday night, March 25.

Recent nemesis Reed City plays in Class B this year.

Tournament success aside, however, the 1982-83 Rayders have already proven to any early season skeptics what they have known all along. Perhaps Charlevoix Athletic Director Dale Burge summed it up best in his comment about the team this week.

Said Burge, "They are just plain good!"

Rayders roll on; 22-0!

by DAVE KNIGHT

Mrs. Joanne Grubaugh, secretary at Charlevoix High School, is not accustomed to much company when she arrives for work at about 7 a.m. Monday mornings. This week, however, she was welcomed by a crowd of Red Rayder backers who put her right to work.

By 8 a.m. Monday, Mrs. Grubaugh had sold over 900 tickets to Tuesday night's Regional basketball game in Gaylord.

The reason for all the excitement?

The Rayders tucked two more victories, their 21st and 22nd of the year, and a District championship trophy into their creel last week as they advanced confidently to the next level of March Madness.

Neither Kalkaska nor Trsverse City St. Francis, teams to whom the Rayders had had no prior exposure this season, could mount serious challenges to the Charlevoix team in Class C District action hosted by Boyne City.

The Rayders' 78-60 win over Kalkaska in Thursday night's game propelled Charlevoix into Saturday's finals against St. Francis which the Rayders won handily 76-63.

43
5
RAYDERS

The Rayders savor victory as they pose for the photographers with their District trophy.

Success at the District level propels the Rayders into Regional play Tuesday night at Gaylord where they will face Mason County Central in that tournament's opener at 7:30 p.m. Central, a consolidated district from the Scottville area, posted an impressive 19-3 record over its regular season, aversging just under 80 points a game.

According to Charlevoix Coach Dave Smith, who was able to scout the Central team last week, its running offense and balanced attack are similar to the Rayders'.

Other teams in the Gaylord Regional include Tawas Area (16-6) and Houghton Lake (7-15) who play each other Wednesday night at 7:30 p.m.

At Boyne City last Thursday night, Senior George Smith took advantage of the Kalkaska Blue Blazers' heavy coverage of teammates Craig Klooster and Chris Putman and exploded for an individual season high of 32 points to lead the

Sheriff to use $38,000 grant for alcohol safety programs

by FRAN MARTIN

Plans for utilizing grsnt monies were revealed by Sheriff George T. Lasater at a regular meeting of the Charlevoix Board of Commissioners recently.

Anticipated funds for Alcohol Safety Enforcement in the Amount of $38,000 through the Office of Highway Safety will be utilized for alcohol education for high school students, for equipment and for additional patrols during peak hours of possible violations Sheriff Lasater said.

Secondary Road Patrol monies in the amount of $28,000 will be used for an additional vehicle and one officer Lasater said. It was suggested that these monies be placed in a separate fund.

Reports were given on the Youth Diversionary Fund headed by Ray LaVoie and the Youth Activities program administered by Michael Davis. The former program, funded by the county, is aimed at helping to divert pre-delinqoent or first time offenders from the juvenile court system. It offers counseling, crisis intervention and agency coordination. It is for young people eight to 17 years of age who are not involved in juvenile court. Forty-five young people in the county have been involved in the program with the case load averaging from 22 to 26 and the time of involvement eight months or more.

The Youth Activities program offers a broad based recreation program to provide a positive experience for all youth with priority placed on predelinquent and delinquent youth. This program is funded by tbe Board of Commissioners and the Office of Children and Youth Services. More than 1300 young people in the county are involved in various programs it offers Davis' report revealed.

Following the sale of the county-owned Med-Evac plane for $18,000, a resolotion adopted at the meeting allocated $6,000 each to the two townships on the island, St. James and Peaine, and the same amount to the county to help underwrite expenses incurred by the units during the time the plane was in the county.

The board was shown samples of

Fact finding committee urges city-township cooperation

by ANNE KELLY

Earlier this year a fact-finding committee was established at the urging of Keep Charlevoix Beautiful to study the relationship between the City of Charlevoix and Charlevoix Township on municipal water-related matters. Members of the committee included city residents Marilyn Friedly, Anne Kelly and Shirley Lusk and township residents Pat Sherman, Pat Kenney and Mary O'Brien. The following is a summary of their findings and conclusions.

In the wake of recent TCE publicity, another issue, that of city-township cooperation on a joint water solotion, has been virtually lost in the shuffle.

However, time moves along and while city officials experiment with aerstion and embark upon Phase I of a lake water treatment plant, the township continues to explore their own solution to the problem of a long term water supply.

The city's water treatment plant will cost an estimated $1,766,000 in addition to the price of engineering studies and adjustments with the present equipment and aeration system. A sizeable grant is being sought through the Small Cities Block Grant program or the Environmentsl Protection Agency Superfund. But receiving these grants is doubtful so the burden of payment will probably fall on the taxpayers.

The township has applied for a $650,000 grant for their own water aolotion whicb includea the possibility of a water treatment plant. In the meantime township residents are looking at engineering study fees and a $100,000 holding tank needed to resolve a turbidity problem in one of their north side wells.

The geographic relationship of the city and township poses a uniqoe and often exaspersting situation for both partiea. Tha city finda itself completely flanked by the township while the township is split into two, noncontiguous portions with the city between.

As a result, the township must provide both its north and south sides with their own wells and back-up systems. Ta join the two systems, it would be neccessary to, as Township Supervisor Oscar Stroud puts it, "hang lines from the sky." The city is presently providing the township with water due to the collapse of its northside well. In other words, the city is the back-up system for the township.

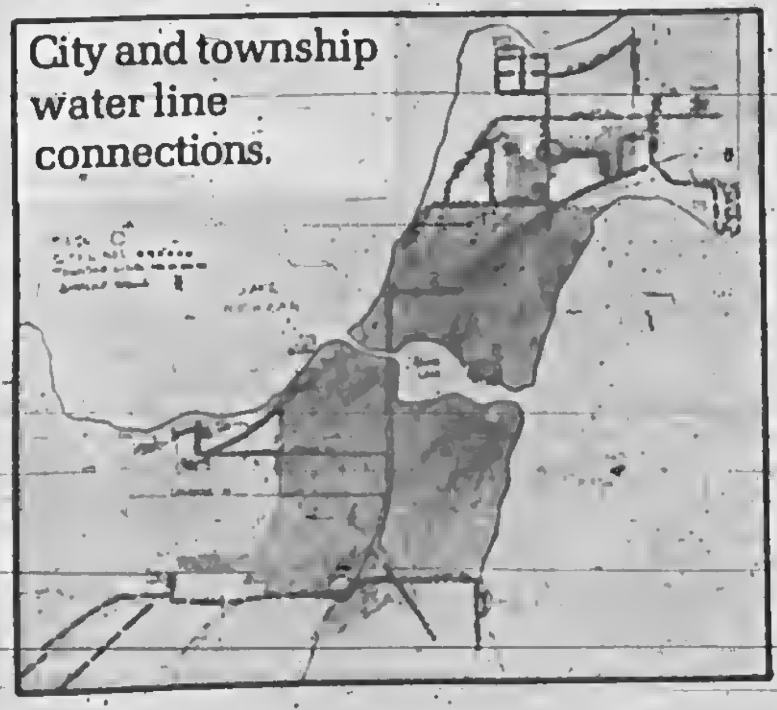
The city is currently considering the possibility of buying water from the township when the northside well is back in business. No TCE has yet been detected in township wells. Stroud bas offered townabip assistance to the city if aerstion attempts prove unsuccessful.

Both the city and township are obviously dependent opon one another. If both factions were amiable, interdependence just might work. But there are the old animosities of water rates to contend with. It is doubtful that officials will be able to come to an agreement on a fair price if the city decides to buy township water.

It is important for township residents to realize that one third of township residents are already on city water and another third on private wells. This means that all the present grant seeking and studying of solutions such as a township treatment plant are for the remaining third - 132 households.

City and township water lines are connected, to put it simply, by two

Continued on page 4



City and township water line connections.

Spent fuel hearing to re-open March 24

The issue of spent fuel storage capacity expansion at the Big Rock Point nuclear plant will be re-opened for oral arguments on March 24 in Bethesda, Maryland according to an announcement by the Nuclear Regulatory Commission.

At the session to be held in an NRC public hearing room, the Atomic Safety and Licensing Appeal Board will entertain oral testimony from Consumers Power Company, owners of the plant and petitioners for increased storsge capacity for spent fuel rods, representatives of citizen intervenors Christa-Maria, Jim Mills, Joanne Bier and John O'Neill and NRC staff members.

The oral arguments follow an October 29, 1982 partial decision by the ASLAB that questions remain pertaining to the effect of increased spent fuel storage on the criticality of the spent fuel pool. Consumers Power has appealed that decsion.

According to plaot officials, the March 24 arguments will not apply to Big Rock's request to temporarily store fuel rods in the pool during a scheduled refueling and maintenance shutdown beginning in May.

Corps changes its mind on erosion

The Army Corps of Engineers has reversed an earlier position and has indicated that it will now take responsibility for repairing erosion damage to the north bank of the Pine River Channel near the downtown drawbridge in Charlevoix.

The announcement was made Monday by the office of Congressman Bob Davis.

According to a spokesman for Davis, the Corps will initiate a $20,000 study "to redesign the channel area". That study is expected to be completed by the fall of 1983.

Following the study, it is expected that the Corps will seek the neccessary funding for repairs.

The damage to tha ateep embankment occurred in January, 1982, following one of that month's unusually heavy snowfalls. Initial attempts by the City of Charlevoix to have the Corps assume responsibilty for repairing the damage were unsuccessful as the Corps maintained that it was the City'a responsibility.

A request by the City for Congressman Davis to visit the site resulted in a meeting between Davis and Army Corps engineers.

According to Davis' office, final appropriations for the repair work will still have to be cleared in the legislature but, with the Army Corps' recent reversal, the Corps is expected to actively seek the necessary funds.

"HELPING TO BUILD A BETTER COMMUNITY TOGETHER"

L. Traverse Conservancy announces competition for art design

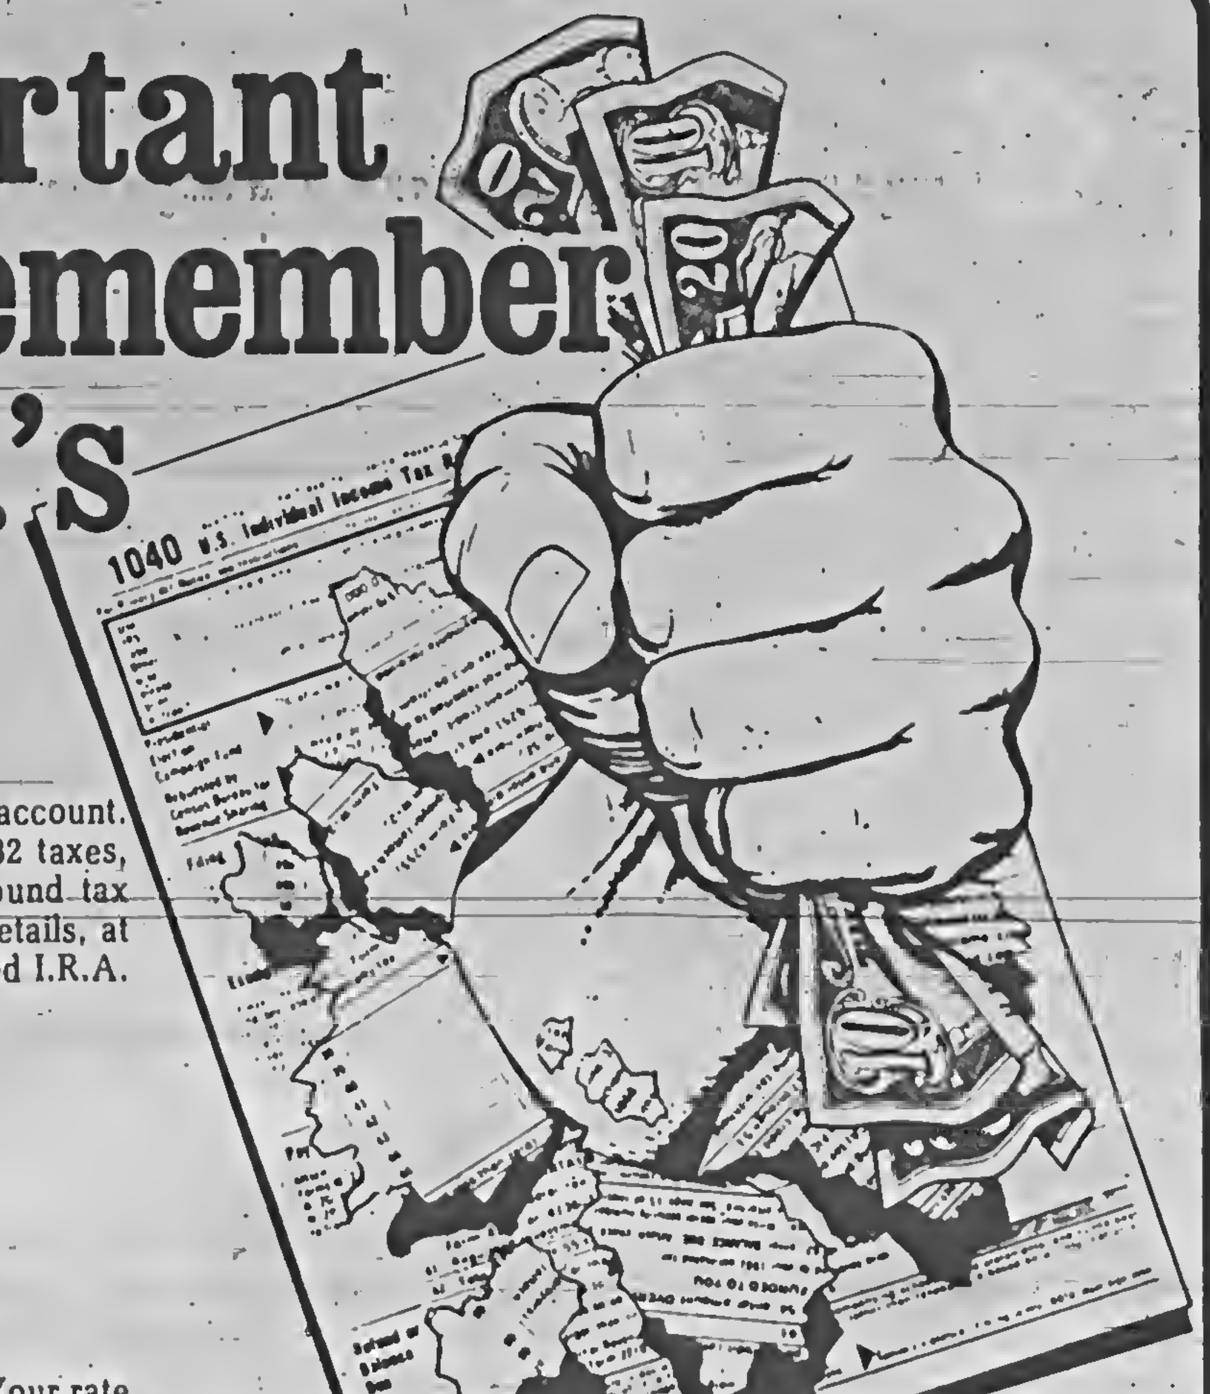
The Little Traverse Conservancy has announced its First Annual Competition for northern Michigan artists in conjunction with the 1983-1984 edition of the Conservancy's notecards and postcards.

Artists are invited to submit scenes of northern Michigan for consideration in the contest. Two entries will be chosen, one winter scene and one summer scene, for reproduction on Conservancy notecards and postcards, which are sold in northern Michigan shops and by mail through the Conservancy office.

The Conservancy is seeking winter and summer scenes from Petoskey and Charlevoix in particular, but any scene that is representative of northern Michigan will be considered. Entries must be original art work (no photographs), any medium (preferable water color), reducible to a 4"x6" format, and submitted to the Conservancy by June 15, 1983.

The winning entries will be announced by July 1, and the cards will be introduced in August. Winning entries will become the property of the Conservancy, and will be auctioned at its Annual Meeting for the benefit of the Conservancy. Winning and runner-up entries will be displayed at the McCune Arts Center in Petoskey.

For more information contact the Conservancy office at 347-0991.



2 important points to remember about I.R.A.'s

1 If you qualify for a 1982 I.R.A.

You still have time to open or add to your account. You may receive a deduction on your 1982 taxes, plus, your interest will grow and compound tax deferred. You're welcome to get all the details, at no obligation, from any of our experienced I.R.A. Account Executives.

2 Now is the best time to open your 1983 I.R.A.

Most workers now qualify to open an I.R.A. Your rate of return on this account will be very high, compared to previous months. You owe it to yourself to check and compare I.R.A.'s, and when you do, we'll be glad to give you complete details, at no obligation.

Forty year-old engines still performing well for Mesquite

by GREG CORNING

Engineers performing a routine engine overhaul on the Coast Guard buoy tender Mesquite found their Cooper-Bessemer engine in surprisingly good condition for its 9,000 hours of service since the previous overhaul, said the petty officer who supervised the work. That was the good news.

The bad news is that parts and technical information and advice are becoming difficult to find for the model of engine which powers the 180-foot buoy tender.

"For engines being 40 years old, there is very little wear," said Shane Gallaugher, the machinery technician first class who supervised the rebuilding of the Mesquite's starboard main diesel engine.

But, Gallangher said, parts are getting scarce for them because such engines are no longer manufactured. Some parts were on order nine months and were never received.

The fact that they were able to re-use most parts – rather than having to replace them as had ben espected – helped the Mesquite's engineers get around the parts supply problem.

"We measured everything," said Gallaugher. "If it was within tolerance (for wear), we put it back."

If locating parts was a problem, finding the technical expertise to advise them in rebuilding the engine gave Mesquite's engineers about as much trouble. Whether expert, esperienced advice will be available by the time the nest engine rebuild comes due seems questionable. Gallaugher tried during the overhaul to contact one technical advisor at Cooper-Bessemer, a man who had helped Mesquite's engineers before. But when he got hold of the company, said Gallaugher, it was too late: "They said he'd retired."

The crew of the Coast Goard buoy tender Mesquite accomplished the break-in of the rebuilt starboard engine through a process of closely monitored slow-speed cruising on a recent trip to Milwaukee, Wisconsin. The engine, which was rebuilt in February, had to be broken in prior to the start of the Mesquite's spring "buoy season", the one-and-a-half-month period of intense work in which the buoy tender prepares buoys and lighthouses for the commercial shipping and pleasure boating seasons.

No major problems with the rebuilt engine were encountered, said Chief Warrant Officer Lonnie Jones, the ship's engineering officer. By cruising slowly and then increasing speed in calculated increments, the piston rings and bearings of the overhauled engine were made to "seat", or fit, properly.

"The break-in went quite well," said Jones. Only two minor problems were encountered – a fuel leak and some trouble with an injector pump – and both problems were resolved on the way to Milwaukee.

Churches gather goods for needy

Several Charlevoix churches have joined in providing Emergency Cupboards and clothing for the needy of the area in these troubled economic times.

Sponsored by the Charlevoix Ministerial Association, emergency food and clothing supplies are available at the First Congregational Church, Christ Episcopal Church and Bethany Lutheran Church.

The Community Church of God and St. Mary's Catholic Church have emergency supplies of food. Food at the later is available at the convent on Garfield Avenue.

It was explained that this is food donated by parishioners of the various churches for those in need on an emergency basis.

Plan seminar on starting a small business

The Charlevoix, Emmet and Antrim County Cooperative Extension Service will be sponsoring a "How To Start A Small Business" seminar April 5, 6, 7, at the 4-H Building in Petoskey.

Local speakers and M.S.U. Extension Specialists will talk about where to get money to start a business, zoning laws, understanding taxes and tax forms, bookkeeping, record keeping, liabilities, insurance, partnerships, pricing, advertising, marketing and more.

Examples of saleable talents and money making ideas are: typing service, calligraphy, after school child watch, alterations, furniture refinishing, chimney sweep service, gourmet cooking classes — the list is endless. The cost for the three day program is $6.00. For a complete brochure and registration form, call the Charlevoix County Extension Office at 582-6232. Registration deadline is March 28, 1983.

Obituaries

FRANK M. OLEKSY

Funeral services for Frank M. Olesky, 75, who died March 9 at Tampa (Fla.) General Hospital, were held Saturday at St. Mary's Church. The Rev. R. Dale Magoon officiated. Interment was in St. Mary's Cemetery. The Rosary was recited at the Winchester Funeral Home Friday evening.

Born at Ironwood May 25, 1908, Mr. Oleksy was graduated from Northern Michigan University in 1936 with a major in Industrial Arts and came to Charlevoix that year as an instructor in shop at the Charlevoix High School. On June 27, 1936, he was married to the former Mary Ann (Marion) Brown of Mancelona. They always made their home here. Later he headed his own construction company, was employed as a school principal at the Littlefield Schools in Alanson and was employed as an instructor with the Bureau of Apprenticeship and Training, Vocational Division, Michigan Department of Labor.

He was a member of St. Mary's Church, Father Charlevoix Council, Knights of Columbus and a Knights of Columbus Council in St. Leo, Fla. and the Carpenter & Joiners Union Local 1461, Traverse City.

Besides his wife, he is survived by a son, Thomas of Charlevoix; three daughters, Mrs. Roger (Connie) Pischner and Mary Therese of Charlevoix and Mrs. Raymond (Katherine) Abracxinskas of Grand Rapids; 12 grandchildren; two sisters, Mrs. Herman (Martha) DeOrio of Orlando, Fla, and Mrs. Leocadia Zalewski of Ironwood and four brothers, John Oleksy of Potomac, Md., Herman Oleksy of Independence, Mo. Walter Olekay and Tony Alexander, both of Cleveland, Ohio.

HELEN M. BRISTOL

Mrs. Lynn (Helen M.) Bristol, 66, of Charlevoix, died March 10 at Halifax Medical Center at Daytona Beach, Fla., following a long illness.

Funeral services are pending. A full obituary will follow.

ARLIE B. KNIGHT

Funeral services for Arlie B. Knight, 95, who died Saturday at the Charlevoix Area Hospital, were held Monday at the Winchester Funeral Home. Rev. David W. Yingling of the United Methodist Church officiated. Interment was in the Brookside Cemetery.

Born in the Norwood area March 10, 1888, Miss Knight went to Chicago as a young woman and became a governess for a family, a position she held for many years. She returned to Charlevoix each summer and returned here in the 1960s to make her home.

She is survived by several cousins.

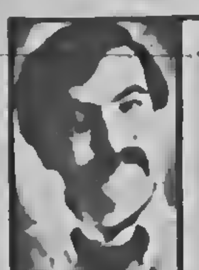
Opinion



Knight on the Town

A tradition continues

by Dave Knight

St. Patrick's Day will be observed Thursday in pubs throughout this heavily Irish-infiltrated county.

Naturally the suds will be flowing in such spots as Duffy's of Charlevoix where Sean Ryan's green blood pumps a little faster this day each year, and the Landing where Irish fare will join Chinese and Mexican on the most global menu of the North.

But perhaps the most unusual St. Pat's Day celebrating will be done on Beaver Island, America's Emerald Isle.

According to the *Courier's* Beaver Island bureau chief Fran Martin, the residents of St. James will be gathering Thursday as usual at the Shamrock Bar. But this year the party is designated as the Shamrock Closing Party.

"No," assures Fran, "The Shamrock restaurant and bar is not closing but has been sold and the party will mark the closing of the sale of the Shamrock, hub of Beaver Island's social life."

Barbara Beckers, owner of the Shamrock since 1973, will be present for the occasion as will Dr. and Mrs. Michael Macken of Kalamazoo, the new owners. Also on hand for the official signing of the papers will be Archie LaFreniere whose father established the business in 1933 and who kept the Shamrock in the family for those 40 years until it was sold to Ms. Beckers and Ed Wojan who handled the sale. Mr. and Mrs. Richard Moreno, formerly of Kalamazoo, will help the Mackens operate the business and they'll be there, too Thursday.

While the mugs are being hoisted in the Shamrock to christen the sale, I daresay some Beaver Island afficianados on the mainland should nod to the Northwest as they raise their glass as well. The Shamrock has been a welcome port during many a storm for those stranded on the Island and the assurance that it will remain so is welcome news to frequent Island visitors.

Next week, Fran promises a more complete history of this Beaver Island landmark.

Going for three

The plant manager at the Medusa Cement Company's Charlevoix plant is named Thomas Xavier Thimm. Actually that is not his real middle name but since I got his last name wrong last year and his first name wrong last week, I figured I might as well go for the hat trick.

Clockwise

Mourning doves turn up

by Bob Clock

UNTIL THIS winter, I can't recall ever clamping eyes on a mourning dove.

Now they are as common in Charlevoix — probably more so — then wrens and juncos.

Judy and I took a walk on the Chicago Club beach recently, and a family of mourning doves kept us company along the way.

Since then I have seen them throughout the North Side, including a mama, papa and a little fellow no more than two inches tall perched on an electric line on Burns Street. The baby didn't appear big enough to be out of the nest and his folks were keeping a watchful eye on him.

All of which brings up the mating practices of mourning doves. Most birds, it seems, have their young in the spring when the weather is mild. The Burns Street dove had to have been hatched in late January or February — which doesn't seem like very sound family planning.

WEBSTER doesn't have much to say about mourning doves: "A wild dove (riZenaidura macroura carolinensis) of the U.S. with a plaintiff call." That's it.

I would suspect that the mourning dove is related in some way to the pigeons that live in droves in our great cities, since they are shaped pretty much the same and walk with the same jerky waddle accompanied by a bobbing of the head. The pigeon, of course, is larger and more brilliantly colored, compared to the little grey doves that have invaded Charlevoix.

The dictionary doesn't make any connection between the two — so I suppose I shouldn't either. But they do look alike in certain respects.

I wonder if mourning doves will ever become as common in Northern Michigan as the passenger pigeon was in the last century, when literally millions of them were slaughtered to satisfy the palates of Eastern gourmets. The local gentry did such a fine job of meeting the demand that the passenger pigeon is now extinct.

THE CHARLEVOIX Volunteer Fire Department staged an impromtu water show at the city dock Saturday morning during testing of its new five-inch fire hose, which will be used to draw water lakes and rivers to fight fires.

At one point, the new line was supplying three hoses, the largest of which was cabable of sending a solid column of water from the dock to the Bay Queen parking lot across Pine River Channel.

The resulting rainbows were spectacular.

"If you write this up for the paper," one of the firemen told me, "you can say that we're aerating the water to get rid of the TCE."

Fire Chief John Martin says the department plans to install "dry hydrants" at various shoreline locations to simplify the task of tapping into our virtually limitless supply of lake water.

Letters: Rayders past, TCE

I remember...

To the Editor:

It has been with a great deal of pride and nostalgia that I have followed the 1982-83 edition of the Charlevoix Red Rayders basketball team. In the March 2nd edition of the Courier I read where they only needed one more victory and they would have an undefeated regular season.

I wasn't aware that the 1968 Rayders went through the regular season without a loss, but being a member of the 1960 Rayders I am proud to say we also went undefeated during the regular season. Some of the members of that team are living in Charlevoix; Joe Beaudoin, Bud Balch, Sam Supernaw, Stan Smith, maybe more, I'm not sure. Other members were myself, Dick VanRaaphorst, Bruce Pease, Ralph Brock, Butch Coleman, Jim Dennis, Perry Smith, and some I haven't mentioned.

I left Charlevoix in 1962 and other than a visit now and then I have lived away ever since. Everytime I return Charlevoix is a little different. But through the efforts of the 1982-83 Rayders I have seen that one thing is still the same; they still have a sound athletic program, which is supported by the town as well as the student body. Even some of the names are familiar: LaBixnce, Putman, Smith, and of course their coach, Dave Smith.

In closing I would like to extend my congratudations to the entire coaching staff, team, and everyone involved in compiling such an outstanding record and I would like to thank all of you for helping me relive some of the memories of our 1960 Rayder team.

Sincerely,
Dave Schuchard
Box 963
Aberdeen, N.C. 28315

P.S. An interesting sports story would be to profila all of the undefeated Rayder basketball teams, with pictures, etc. Also, as an added note one of my daughters, Jill, was a starting guard on her freshman team at Hoke High in Raeford, N.C. and they were 13-2 this year.

Reassurance

Dear Dave:

I would like to share a reply I received from my brother-in-law (a biochemist involved in cancer research at the University of Michigan) in response to the Courier and News Review articles, letters to the editor and pamphlets concerning our water problems that I sent him. I found it personally very reassuring and it reinforced my feeling that our council members and City Manager have indeed done their homework and have the welfare of the Charlevoix residents as a number one priority.

Marilyn Friedly

Dear Marilyn:

I've done a little research on trichloroethylene (TCE) here at the University of Michigan Libraries and would like to comment that I'm quite impressed with the great deal of effort, awareness and accuracy demonstrated in the articles you mailed with regard to the desription of the problems, possible health effects of TCE and possible solutions to the problem. I'm most impressed by the report from the City of Charlevoix "About Your Water" and most of my following comments are merely a reiteration of that report.

I feel that TCE is a carcinogen. However, we are all subjected to carcinogenic compounds at some point in our lives and the important factors are the carcinogenicity of the compound, level of exposure, duration of exposure, ability to metabolize these componds into non-carcinogenic substances, degree to which a carcinogenic compound is stored within the body tissues and ability of a compound to interact with another carcinogen to promote cancer growth.

As far as carcinogens go, TCE does not appear to be a highly carcinogenic compound. It is not stored in the body to any significant extent and is metabolized quite readily and efficiently into non-carcinogenic metabolites.

Most importantly among the considerations, the levels of TCE present in the Charlevoix water supply, 35-64 parts per billion, are extremely low and I personally feel that it is highly unlikely that the presence of these levels of TCE in the drinking water will be detrimental to one's health.

To ensure a restful conscience, it may be a prudent practice to boil drinking water for a minimum of 5 to 10 minutes which will reduce TCE levels in the water 95 to 99.9 percent of what they were prior to boiling (vapors above boiling water will contain TCE so use adequate ventilation.)

I would have absolutely no second thoughts of drinking this water. The boiling of drinking water may even be an escessive precaution but it's easy and inexpensive so why not?

From my brief exposure to the subject, aeration appears to be as efficient but more flexible over a broader contaminant range than carbon filters. Aeration should require less maintenance and be relatively non-inflationary and less expensive than carbon filters.

The psychological effect on the community as a result of TCE contamination is a much greater real problem than any potential health effects and can result in disintegration and disillusionment of a community. It is only through the efforts of individuals such as yourself to deal with the problem, understand its ramifications and do something to resolve the situation that the community will remain as such.

Good luck.

Ron L. Pisoni, PhD.

Appreciate support

To the Editor:

The Charlevoix Band Boosters have had 2 very successful fund raisers in the past 2 weeks.

A Bean Soup Supper was held prior to the last home Rayder game and it was a tremendous success. Due to the excellent help of many booster volunteers and some generous donations, a total of $500.00 was realized.

On Saturday, March 5, the Band Boosters manned a concession both at the High School during the Band Festival, which also was a great success. We would like to especially thank Karl's Bakery, Coca Cola Co., Oleson's, Eckrich, Made Rite Chips, and 7-Eleven for their donations. Without everyone's help, none of our efforts would have been a success.

A final thank you goes to the press, and the radio stations for the publicity given to our projects. Their assistance has been greatly appreciated.

Charlevoix Band Boosters

Committee urges cooperation

Continued from page 1

valves. One of these is located at the corner of Taylor Rd. and Mercer Blvd. and the other at Stover Rd. and Marion Center Rd. By turning these two valves and making a few minor adjustments, the whole system of city and township lines could flow together. The possibility of a joint water system becomes very realistic when examined in the light of the city's new water treatment plant which can be built to accomodate the whole city-township entity.

According to Mayor Kenneth Staley, the city "is at a crossroads as to how much service to estend to the township." He stresses the "long range outlook concept" of city planning. City Manager Robert Hunt encourages area-wide joint planning for water, sewer and utilities so as not to arrive at a hodge-podge of extensions. Township Supervisor Stroud admittedly would be open to a joint Water Authority if elected officials of the city and township could appoint members on the basis of equal representation.

So what's keeping cooperation from becoming reality?

There is, in fact, a prevailing atmosphere of mistrust between city and township officials which bringa the issue to an impasse every time. The city, in their long range planning, and the township in their short term solutions are like ships passing in the night.

What's worse, the dialogue between factions, when it happens, is guarded or loaded with innuendo, often over the old issues of fire protection, recreation, water, utilities and taxes. Adding fuel to the fire is the impending and much misunderstood "consolidation" vote on May 2.

It is difficult to discuss the joint water solution issue without addressing the issues of consolidation and annexation.

While the city proceeds with its plans, holding annexation like an ace in its back pocket, and the township, with its TCE-free wells, sits back with the attitude that it's doing just fine without the city, curious bystanders and misinformed residenta wonder.

They wonder about such things as:

1. Their right to a clean, long term water supply.
2. Water rates now and what they would be if there was a joint water system.
3. Whether the water treatment plant will be big enough to eventually accomodate both the city and the township.
4. Why there is a duplication of costs and grant-seeking.
5. Why south side residents will be paying for a northside holding tank.
6. What effect two water systems will have on industry looking into the area.
7. What the May 2 vote really means. Does it mean consolidation immediately or merely the approval to form a joint and equally represented commission to study and plan for consolidation?

There appears to be a great need for education of both city and township residents as to specifics. People understand issues better when they are spelled out in terms of cost and time schedules.

A joint effort in solving the water supply problem could provide the incentive for cooperation on other issues. Cooperation means dialogue even if a third party mediator becomes necessary.

Each side must make a committment to investigate the feasibility of a joint water solution as well as the possibility of getting together on other issues.

Residenta of both city and township have the right to clean water in ample supply and at a reasonable cost. They also have the right to know all the facts about related decisions that directly bear on the future of the community.

County board meeting...

Continued from page 1

mountings for house numbers in the rural area as part of the county-wide house numbering project now underway and quoted prices. However, no decision was made at the time.

Russell Geeck and Moira Martincbeck who made the presentation were advised to take the matter to the nest meeting of the Charlevoix County Township Association because these were residents of the county most affected by the project. It was also recommended that Emergency Services, fire department and ambulance service personnel be invited.

The board was advised that the Ironton Ferry remains at the Irish Boat Yard where it is undergoing its five-year check-up as required by the U.S. Coast Guard.

In other action, the board heard from Don Smith regarding the County Transit System which stands to lose federal funding which may be decreased from 31 downward to six percent and state funding from 60 to 40 percent. The ad hoc committee which he heads will continue to research the program and report at the May meeting be advised.

Heard from Larry Matthew that a 7.5 percent cut in funding for the Northern Michigan Community Medical Health Services Board was anticipated but that the board would attempt to continue the services it offers. He also reported on plans for the 1983 Emmet County Fair.

Heard a report from Lee Moerland that the Manpower Consortium is preparing to administer the Job Training Partnership Program for the 10 county area in the consortium.

Went on record as joining the Charlevoix School District, city of Charlevoix and the Char-Em Intermediate School District in an appeal to the Court of Appeals relating to the Chicago Club assessment. The Tax Tribunal had upheld the club's appeal in the issue.

Approved payment of an additional $425 for membership and advertising to the West Michigan Tourist Association. Earlier a payment of $1,000 had been made to the organization.

Approved an expenditure of $1420 by the Planning Department for a typewriter with the funds to come from the department's budget.

Approved a cleaning allotment for the sheriff and undersheriff. Other personnel at the department already receive the allotment.

Tabled a request for an additional clerical assistant for the Planning Department.

Scheduled the next meeting for 7 p.m. March 23.

Engagements

Karen L. Taylor and David A. Marsh

Taylor-Marsh

The announcement has been made of the engagement of Karen L. Taylor of Portage, Wisconsin and David A. Marsh of Pardeeville, Wisconsin. She is the daughter of Charles L. Taylor, formerly of Charlevoix and currently residing in Portage, and the late Nancy Burlie Taylor. He is the son of Mr. and Mrs. Richard Marsh of Pardeeville.

A June 11, 1983 wedding is planned at the United Methodist Church in Portage.

The bride-to-be is a 1981 graduate of Charlevoix High School and is attending the University of Wisconsin - Baraboo campus where she is in her second and final year of an Associate Arts degree program. The groom, a 1978 graduate of Pardeeville High School, also attends UW-Baraboo and plans to continue his education at UW-Madison where he plans to major in physical therapy. He is currently employed at Schoepps Motor of Middleton, Wisconsin.

Kickoff set for Community Concerts ticket sales push

Community Concerts will hold its kick-off for season ticket sales for the 1983-84 season on Friday evening, March 11, 1983.

The Crooked Tree Arts Council brings a number of visual and performing arts attractions to our northern Michigan area each year; however, none is a better bargain than our Community Concert series.

In its 36th year, the series in Petoskey has brought some of the leading performing artists of the world to our stage, including Rise Stevens, the Boston Pops, Dorothy Kirsten, and the Vienna Boys Choir.

This year's concerts included Solisti New York with well-known flutist, Ransom Wilson and American Ballet Comedie and yet to come, Keith and Rusty McNeil, Folksingers on April 14 and Metropolitan Opera Baritone, Stephen Dickson, recently seen on Public Television, on May 5.

The 1983-84 Season will include the Roger Wagner Chorale, Thomas Lorango, pianist, Dennis Karmazyn, cellist, and the Bill Snyder Trio.

Adult season tickets are $16, student tickets, $8, and season ticket for a whole family, $40.

The season tickets are sold by a large group of workers from all over Charlevoix and Emmet Counties, and new workers are always welcome. Call the Arts Center at 347-4337 for further information or if you would like to join the workers.

Oddfellows win!

The Oddfellows with a score of 1,465 were the winners in the fifty-third annual Masons-Oddfellows Cribbage tournament according to Robert C. Heise, tournament secretary.

With seven tables in play on the final night of the 10 week tourney, the Masons were able to trim the victors' lead by 153 points. Mike Reinhart had 961 points for the Masons. Ted Pennel, Sr., had 945 for the Oddfellows.

The Masons will host the victorious Oddfellows at a dinner at the Masonic Temple at 6:30 p.m. Thursday, March 17, to climax the annual event.

To present new local brass quintet

Members of the Sine Nomine include; left to right, Terry Isenbarger, James Schoensee, Beverly Isenbarger, Ralph Schweigert and James Bogetto.

The Crooked Tree Arts Council will present the Sine Nomine Brass Quintet in concert at 3:00 p.m. on Sunday, March 20, at the Virginia McCune Arts Center in Petoskey.

The members of Sine Nomine, all instrumental music teachers in Northern Michigan, will perform music ranging from the 16th centry "Earl of Osford March" by William Byrd, through Bach (Contrapunctus 1, from the "Art of the Fugue"), to Canadian Brass arrangementa of such tunes as "Ain't Misbehavin" and the theme from Masterpiece Theatre. The major work on the program will be the "Symphony for Brass Choir" by Russian composer Victor Ewald.

The Sine Nomine Brass Quintet has been playing throughout the northern lower peninsula since 1971.

Trumpeter James Bogetto received his bachelor's and master's degrees from Northern Michigan University and has taught in the Boyne City Public Schools since 1972. He has performed in numerous ensembles, including the Grosse Pointe Symphony Orchestra and the Dave Sporney Big Band.

Ralph Schweigert received his degree in music from Central Michigan University before serving as trumpeter with the U.S. Continental Army Band at Fort Monroe, Va. Since then he has taught in Mancelona and Gaylord, where he has been high school band director since 1979.

Trombonist James Schoensee has taught in the Central Lake Public Schools since 1976. He received his bachelor's and master's degrees in music from the University of Michigan, and is currently principal trombone with the Northwest Michigan Symphony.

Beverly Isenbarger, French horn, has bachelor's and master's degrees from Ball State and Michigan State Universities, respectively, and has played in the Muncie (Ind.) symphony, and the Kalamazoo Symphony. She teaches in the Mancelona Public Schools.

Terry Isenbarger, who plays both euphonium and tuba in the quintet, teaches in the Charlevoix Public Schools. He received is B.S. and M.A. degrees from Ohio University and Ball State, and pIayed in the Seventh Army Band in Germany.

For more information, contact the Crooked Tree Arts Council, 451 E. Mitchell, in Petoskey, (616) 347-4337. Admission will be a $1.00 donation at the door.

Plan workshop for coming flower show

Charlevoix Garden Club members will meet at the home of AnnaBelle Webb at 1 p.m. Tuesday, March 22, for another in a series of workshops in preparations for the club's first flower show scheduled for August.

Members are asked to bring forced branches, a basket for arrangements, a pin-point holder and containers as well as evergreens.

The workshops, to be held throughout the spring and early summer, are planned to demonstrate the various catagories of arrangements exemplifying the flower show theme "Beauty Surrounds Us."

At a recent meeting held at the home of Marge Dinwiddie, Sue Smith of Greenleaf Country Garden, demonstrated flower arrangements and explained how she achieved form and line through the use of flower arranging principles.

At the same meeting, Nancy Fowler, quilt chairperson, collected the blocks depicting birds of the area and informed members that the quilting of the quilt would begin in May at the home of Lucille Rower.

Mrs. Webb also assigned chairperson responsibilities for the flower show.

Wilma Stabnick was named renovation chairman for a section of the Memorial Gardens located in the island in Mercer Blvd. at the east end of Dixon Avenue.

It was announced that Nancy Wood and Carolyn had planned 125 tulip bulbs in the club garden in the island at the intersection of Michigan and Petoskey Avenues. The plantings were necessary at this time because the bulbs had started to root and bud as the result of the unseasonable weather.

Members were also advised that the site of the May meeting has been changed from the Ingram residence to the Charlevix Public Library.

A League basketball scores

Townhouse continues to lead the A League of the Independent Basketball League after defeating Boyne Auto 84-69 in action Thursday. In the second game, Depot Restaurant defeated Ellsworth I.D.C. 68-54.

Townhouse took an early lead and rolled over Boyne Auto 17-10, 36-30 and 63-47 at the quarters.

Steve Dunkelberg had 24 points, Rick Leslie 22 and Bud Klooster 16 for Townhouse. Hal Price had 23 and Jim Kondrat 12 for Boyne Auto.

The Depot Restaurant-Ellsworth game was a seesaw battle with the lead changing numerous times before Depot Restaurant outscored Ellsworth 21-14 in the final period for the victory. The Depot had led 15-14 at the quarter only to lose the advantage to IDC at halftime 27-23. As the second half got underway, the Depot came back strong to go ahead 47-39 going into the final period.

Tim Hartwick had 17 points, Ted Beyer 16 and Dean Hicks 12 for the victors. Tex Drenth had 25 points and Larry Taylor 18 for Ellsworth.

Rayders roll on

Continued from page 1

Charlevoix rout.

Kalkaska, obvious underdogs following a 6-15 regular season record, had upended East Jordan in overtime on Tuesday 73-71 to set up the Red Rayder-Blue Blazer confrontation.

After blasting off to a 23-10 lead in the first quarter of the game, Charlevoix allowed Kalkaska to creep back into the game, much on the strength of center Mark Samkowiac's 10 points in the second quarter alone. At halftime Charlevoix led by only three, 38-35.

In typical fashion, however, the Rayders came out hustling in the third quarter and held the Blazers' offense to two baskets and two free throws in the period while Smith hit five field goals alone to provide a more comfortable Charlevoix lead of 58-41 going into the final stanza. The fourth quarter saw Kalkaska outscore the Rayders 21-20, not nearly enough to mount a serious comeback.

Smith connected on an amazing 15 shots from the field and went to the line only three times, two of which he converted, enroute to his 32-point performance. He also hauled down 15 rebounds. Klooser ended up with 13 points and Tim LaBlance had 10.

Saturday night's game pitted Charlevoix against the Gladiators of Traverse City St. Francis who had made their way into the finals with a hard-fought 69-60 win over Boyne City Wednesday.

Coach Smith acknowledged after the game that he wanted to grab the momentum early against St. Francis, an unusual tactic for the Rayders, and that he did as the team burst to a 24-13 lead in the first quarter. Putman was instrumental on defense holding St. Francis' biggest scoring threat Rich Eikey to one point on a free throw in the period.

By the second quarter, it was evident that Klooster had the hottest hand for the Rayders as he hit repeatedly on outside jumpers while racking up a first half total of 16 points and helping the Rayders to a 43-29 halftime advantage.

Although the Gladiators were able to keep Charlevoix in their sights for most of the third quarter, reducing their deficit to seven at one point, the Rayders refused to buckle and, as they fell back into a more conservative zone defense, managed to mantain a 62-46 lead going into the fourth quarter.

Klooster's 29 points was good for individual scoring honors; Smith added 16, LaBlance 11 and Putman 10. The team shot a respectable 55 percent from the floor. Putman's 10 rebounds and LaBlance's 8 assists were tops in those categories.

B League basketball scores

First State Bank posted a 71-43 win over Carlson Plumbing; Medusa downed Air Force 63-59 and Kit Carson-Charlevoix Garbage carded a 59-53 victory over Wojan Aluminum as action in the B League of the Independent Basketball program runs down:

Four State Bank players hit in double figures as the team led Carson Plumbing 11-8, 32-16 and 53-30 by quarters.

Tim Carey scored 27 points; Dennis Dominic 18; Steve Martinus 14 and Roger Gowell 11 for the Bankers. Dave Cole had 18 for Carlson Plumbing.

Medusa had to overcome deficits of 11-7, 33-21 and 44-35 to defeat an inspired Air Force five 63-59.

Jim Parrish had 25 and Doug Winnell 14 for Medusa. Chris Claytor had 15; Tony Starr 14 and Mike Skippergosh 12 for Air Force.

After trailing 14-10 at the quarter, Kit Carson-Charlevoix Garbage gained momentum and headed Wojan Aluminum 24-22 and 40-32 at the intermissions before winning by six points.

Dale Boss with 20 points, Barney Way with 18 and Larry Brock with 17 accounted for the major part of the scoring. Stan Martin had 16 and Dava Swanson 14 for Wojan's.

The new tax laws. This year's No. 1 reason to go to H&R Block.
This year you're faced with over 100 changes in the tax laws and forms. Did you know that working married couples may deduct up to $1,500 for the first time? There's even a new entry for charitable deductions on the 1040A short form. And that's just the beginning! We know every change on every form.

NOTICE OF MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by Roger P. Shepard and Priscilla M. Shepard, his wife, Mortgagors, to GENESEE MERCHANTS BANK & TRUST CO., a Michigan banking corporation, Mortgagee, dated the 27th day of September, 1973, and recorded in the Office of the Register of Deeds for the County of Genesee and State of Michigan, on the 9th day of October, 1973, in Liber 137 of Mortgages, on pages 170-173 on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum Thirty-three Thousand, One hundred and Sixteen and 06-100 ($33,116.06) Dollars.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof and default having occurred whereby the power of sale has become operative.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, the 11th day of APRIL, 1983, at 10:00 o'clock, a.m., local time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the easterly front entrance to the County Building in Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at 8.25 percent per annum and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum or sums which may be paid by the undersigned, necessary to protect its interest in the premises, which said premises are described as follows:

All that certain piece or parcel of land situate in the Township of Norwood, in the County of Charlevoix and State of Michigan, and described as follows, to-wit:

Lot 70 of Clipper View Subdivision, a part of Sections 11 and 12, Town 33 North, Range 8 West

NOTICE IS FURTHER GIVEN, that the right of redemption from said sale shall expire six (6) months from the date thereof.

STATE OF MICHIGAN
IN THE CIRCUIT COURT FOR THE COUNTY OF CHARLEVOIX

ALYNN L. O'ANGELO BALL,
a married woman,
Plaintiff,

vs.

COLLEEN TITSWORTH
and
MICHIGAN NATIONAL BANK - NORTH, a Federally chartered banking association,
Defendants.

File No. 82-38706-CH

NOTICE OF SALE

Pursuant to Judgment and Order for Sale rendered by the Honorable Martin B. Breighner, Circuit Judge, dated December 13, 1982, in favor of Plaintiff and against Defendants, which Judgment as of the date hereof remains unsatisfied, the following described property situate in the City of Charlevoix, County of Charlevoix, Michigan, will be sold by the undersigned at public auction to the highest bidder on the 31st day of March, 1983, commencing at 1:00 o'clock on the afternoon at the main entrance of the Charlevoix County Building, City of Charlevoix, County of Charlevoix, Michigan, that being the building where the sessions of the Charlevoix County Circuit Court are held.

The property to be sold is more particularly described as follows:

Land located in the City of Charlevoix, County of Charlevoix, State of Michigan, described as: A parcel of land located in Section 26, Town 34 North, Range 8 West; beginning at a point on the West line of Bernes Street 445 feet North of the North line of Dixon Avenue; thence North 136 feet; thence West 154.25 feet; thence South 136 feet; thence East 154.25 feet to the point of beginning; being a part of Government Lot 2, Section 26, Town 34 North, Range 8 West.

As made and provided by law, the length of redemption from said sale is six (6) months.

NOTICE OF MORTGAGE SALE

Default having been made in the terms and conditions of a certain Mortgage made by KENNETH MOUSSEAU, a-k-a Kenneth L. Mousseau and wife, MARY ETTA MOUSSEAU, a-k-a Maryetta Mousseau, of Charlevoix, Michigan, Mortgagors, to MILES HOMES DIVISION OF INSILCO CORPORATION, Mortgagee, dated the 4th day of May, 1979, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan on the 14th day of May, 1979 in Liber 157, Page 348, which mortgage is presently held by Miles Homes Division of Insilco Corporation, through a series of assignments thereof, and on which Mortgage there is claimed to be due, at the date of this Notice, for principal and interest, late charges, taxes and insurance, the sum of Thirty-seven Thousand One Hundred Thirteen and 81-100 Dollars ($37,113.81), and no suit or proceedings at law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof.

Now, therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 14th day of April, 1983, at 10:00 o'clock in the forenoon, said Mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the main entrance to the Charlevoix County Building; Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held) of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said Mortgage, with interest thereon at the rate of nine and one-half percent (9½) per annum and all legal costs, charges and expenses, including the attorney fee allowed by law, and also any sum or sums for taxes and insurance which may be paid by the Mortgagee necessary to protect its interest in the premises.

Said mortgaged premises are situated in the Township of South Arm, County of Charlevoix and State of Michigan, to-wit:

The North 1320 feet of the Northeast fractional quarter of Section 6, Town 32 North, Range 7 West, lying Westerly of the center line of the County Road.

The redemption period shall be six (6) months from the date of sale pursuant to MSA 27A.3240.

Motor Pool	194,050	228,040

Fund balances at the beginning of the year will be used to balance the funds at the end of the year.

Deanna Balch
City Clerk

Concept of Family Practice has worked

In 1968 the American Medical Association officially recognized a new specialty - Family Practice - as an answer to the trend of increasing medical specialization.

Recently three Family Practice physicians - Dr. Dennis Joy, Dr. James Stewart and Dr. Mitchell Carey, members of the Charlevoix Area Hospital staff, discussed Family Practice and the training required.

"Family Practice was seen as a way of providing comprehensive care and continuity," Dr. Joy explained.

Since World War II, the trend had been toward increasing specialization in medicine. The number of General Practice physicians declined by the 1960's and few new medical students were going into General Practice.

The public began complaining of over-specialization and the American Academy of Family Physicians pressed for a new approach to training Family Physicians.

An Internship and Residency program in Family Practice was designed and approved by the AMA in 1968. The training includes three years' Residency and Internship in internal medicine, pediatrics, obstetrics, surgery, orthopedics, and numerous sub-specialities. Each new Family Physician receives training in all of these specialities with increasing levels of patient responsibility, each successive year.

The Residency Program includes an office practice for each physician in a Family Practice Clinic with responsibility for patients, and considerable emphasis on the behavorial aspects of medicine.

"Family Practice physicians are trained to experience a patient as a whole," Dr. Stewart observed. "We try to look at the patient in context, as more than sore finger or sore throat."

"Family physicians pick up problems in their early stages, when they are still minor problems," Dr. Carey, who is also a physician with the East Jordan Family Health Center, continued. "A lot of things can be treated by a Family Physician. If a specialist is necessary, the Family Physician relieves the patient of the guess work about which specialist to see."

The training for a Family Practice Physician is intensive.

Pediatrics training, for example, is continuous throughout the three years of Residency and Internship, with periods of work varying from hospital pediatric services and neo-natal intensive care units to out patient clinics.

Obstetrical training for Family Physicians includes intensive experience in labor, delivery and gynecological surgery with continuous exposure through hospital and office work.

Surgery (general and gynecological), orthopedics, dermatology, endocrinology, internal medicine, pyschiatry, and cardiology, are included in the training program for Family Physicians.

Recalling his decision to enter a Family Practice, Dr. Joy said, "I had worked in the paramedical field before going to medical school. I saw people jumping from one specialist to another. It seemed wasteful and expensive."

A University of Michigan Medical School graduate, Dr. Joy, like all Family Practice physicians, rotated through several hospitals to complete his Residency. At the University of Minnesota, the pediatric portion of his Residency was through St. Paul Children's Hospital. Bethesda Lutheran Hospital, also in St. Paul, and the University of Minnesota Hospital, were sites of his training in Neurological, General, Orthopedic and Cardio-Vascular surgery as well as other specialties.

A Wayne State Medical School graduate, Dr. Carey took his Residency through the Saginaw Cooperative Hospitals. Saginaw General was used for Obstetrics and Neo-Natology, St. Lukes and St. Mary's for Pediatrics, and Saginaw General and St. Lukes for Surgery.

Also a Wayne State Medical School graduate, Dr. Stewart took his Pediatric Residency at Children's Hospital in Detroit; General Surgery and Emergency Room training at Detroit General; Internal Medicine and Endocrinology through Hutzel Hospital and the Veteran's Hospital in Allen Park; Obstetrics at Sinai Hospital; and Orthopedics at Oakwood Hospital.

Announce scholarships

The Northern Michigan Hospitals Auxiliary today announced that twelve health career scholarships will be awarded this spring to eligible high school and college students.

Twelve scholarships, in the amount of $500, are given each year to students entering or enrolled in an accredited Health Services program. The Auxiliary funds ten awards and the Board of Trustees the remaining two.

The awards are to be administered by the Scholarship Committee of the NMH Auxiliary. Candidates must reside in Emmet, Charlevoix, Cheboygan or Antrim Counties.

For further information on these awards contact Scholarship Chairperson Lynda McKnight at (616) 526-2937 or the Auxiliary Volunteer Office at (616) 348-4568, 416 Connable, Petoskey, MI 49770.

Applications for the 1983-84 school year must be completed and returned by April 30, 1983.

Social skills help pre-school learning says Kids Corner's Mrs. Sheets

by ANNE KELLY

"I believe all children are good. They do come to us (parents and teachers) with different temperaments. The pre-school years are vital in learning to understand and be comfortable with one's self. With that feeling comes respect for self and others."

Sue Sheets, pre-school teacher at Kid's Corner Nursery thus described her role.

"I believe social and intellectual skills develop together," explained Mrs. Sheets. "As a child learns to verbalize with ease, he or she feels the growth and experiences and the fun of learning."

A graduate of Wright State University, Dayton, Ohio, Mrs. Sheets taught fourth grade in Boyne City for five years. She enjoys working with children and has definite ideas on their needs and abilities."

She describes the location of Kid's Corner Nursery as being ideal for taking short walks and field trips. One project the children are currently working on is a table street map of downtown Charlevoix depicting some of the buildings which have been highlights of their little excursions.

"It started out as a way of observing what they saw and turned out to be a way of bringing out related aspects like traffic safety and street names," Mrs. Sheets explained.

This spring, nursery children will be doing animal studies and visiting the Coast Guard ship among other activities. In all that is planned, nursery philosophy is dedicated to "guiding children rather than controlling them, helping them learn through play experiences and helping children develop self image."

It is geared toward the total social development of the small child. Established two years ago as a non-denominational Christian nursery school, Kid's Corner offers classes for 2-5 year olds in a combination of morning sessions.

Registration for the nursery will take place on March 24, from 6 to 8 p.m. For further information please contact Mary Lu Norton at 547-6874 or Debbie Pierce at 547-5629.

Tracy Curtis, Clerk

STURGEON SIZE LIMIT

The Natural Resources Commission, at its meeting on July 14, 1978, under authority of Act 230, P.A. 1925, as amended, renewed the order of August 10, 1973, that no sturgeon may be taken or possessed from the waters of this state of a length less than 50 inches for a period of five years beginning January 1, 1979.

CLOSURE OF STURGEON FISHING IN THE GREAT LAKES AND CONNECTING WATERS DURING SPAWNING SEASON

The Natural Resources Commission, at its December 3, 1982, meeting, under the authority of Act 230, P.A. 1925, as amended, closed sturgeon fishing in the Great Lakes and the connecting waters during the months of May and June for the period of five years, beginning April 1, 1983, through March 31, 1988.

Official Notice

PUBLIC NOTICE

The following Resolution was adopted by the Common Council of the City of Charlevoix on March 7, 1983.

RESOLUTION NO. 83-3-1
City of Charlevoix
County of Charlevoix
State of Michigan

WHEREAS, the City Council determines that it is necessary for the public health, safety and welfare of the City to acquire and construct improvements to the City's Water Supply System together with all necessary appurtenances and attachments thereto;

AND WHEREAS, the total cost of the aforesaid improvements, together with all legal fees and financial costs, has been estimated to be One Million Six Hundred Fifty Thousand Dollars ($1,650,000);

AND WHEREAS, the City Council has determined that the aforesaid improvements should be furnished by the issuance of general obligation bonds of the City in an amount not to exceed One Million Six Hundred Fifty Thousand Dollars (1,650,000);

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City Council of the City of Charlevoix does hereby determine that the aforesaid improvements are necessary for the public health, safety and welfare of the City:

2. The period of usefulness of the aforesaid public improvement is hereby estimated to be not less than forty (40) years.

3. At a special City election which is to be held in the City on Monday, May 2, 1983 between the hours of 7:00 o'clock a.m. and 8:00 o'clock p.m., there shall be submitted to vote of the qualified electors of said City the proposition of issuing said general obligation bonds.

4. The proposition to be submitted at said election shall be stated on a separate ballot, or as a separate proposition on voting machines, in substantially the following form:

WATER SUPPLY SYSTEM
BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and construction improvements to the City's Water Supply System consisting of a treatment plant, pumps, power, pump station, chlorine contact tank and all necessary attachments and appurtenances?

5. The City Clerk shall cause notice of last day for registration to be published at least twice in The Charlevoix Courier, a newspaper of general circulation in the City, prior to the last day for receiving registrations, the first publication to be not less than ten (10) full days prior to said last day for receiving registrations.

6. The notices of registration shall be in substantially the following form:

NOTICE OF THE LAST DAY FOR RECEIVING REGISTRATIONS FOR THE SPECIAL ELECTION TO BE HELD IN THE CITY OF CHARLEVOIX ON MONDAY, MAY 2, 1983.

PLEASE TAKE NOTICE that any qualified elector of the City of Charlevoix, County of Charlevoix, who is not already registered may register for the special City election to be held on the 2nd day of May, 1983 in said City.

The City Clerk will be at her office in the City Hall on each working day during regular working hours until and including Monday, April 4, 1983, for the purpose of receiving registrations of qualified electors of the City of Charlevoix not already registered.

On April 4, 1983, which is the last day for receiving registrations for said City election to be held on Monday, May 2, 1983, the City Clerk will be at her office between the hours of 8:00 o'clock a.m. and 8:00 o'clock p.m., Eastern Daylight Time, for the purpose of receiving registrations of qualified electors.

The purpose of said City election is to vote on the following proposition:

WATER SUPPLY SYSTEM
BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?

THE LAST DAY FOR RECEIVING REGISTRATIONS FOR SAID CITY ELECTION TO BE HELD MONDAY, MAY 2, 1983, WILL BE MONDAY, APRIL 4, 1983.

City Clerk

7. The City Clerk shall cause notice of the submission of said proposition to be published at least twice before the date of the election in The Charlevoix Courier, a newspaper of general circulation in the City, the first publication to be not less than ten (10) full days prior to the date of said election.

8. The notice of the submission of the said propositions shall be in substantially the following form:

NOTICE OF ELECTION
TO THE QUALIFIED ELECTORS OF THE CITY OF CHARLEVOIX:

PLEASE TAKE NOTICE that at an Election to be held in the City of Charlevoix, County of Charlevoix, Michigan, on the 2nd day of May, 1983, from 7:00 o'clock a.m. to 8:00 o'clock p.m., there will be submitted to vote of the qualified electors of said City the following proposition:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?

THE PRINCIPAL AND INTEREST OF SAID GENERAL OBLIGATION BONDS SHALL BE PAYABLE FROM THE GENERAL FUNDS OF THE CITY INCLUDING REVENUES GENERATED FROM SAID WATER SUPPLY SYSTEM IMPROVEMENTS, AND IN THE CASE OF THE INSUFFICIENCY OF SAID FUNDS, THE CITY IS REQUIRED BY LAW TO LEVY SUFFICIENT AD VALOREM TAXES ON ALL PROPERTY IN THE CITY WITHOUT LIMITATION AS TO RATE OR AMOUNT. SAID BONDS MAY BE ISSUED IN SERIES.

All qualified and registered electors may vote on the above bonding proposition.

The place of voting will be as follows:
City Hall Building
210 State Street
Charlevoix, Michigan

This notice is given by authority of the City Council of the City of Charlevoix, County of Charlevoix, Michigan.

City Clerk

9. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Deanna Balch
City Clerk

A son, Andrew Sven Hellstrom, was born March 6 to Bernard and Carol Hellstrom of Boyne City.

A daughter, Jennifer Ione Hall, was born March 8 to Mark and Cindy Hall of Boyne City.

A son, Adam Joseph Moore, was born March 8 to Daniel and Esther Moore of Boyne City.

A son, Scott Michael Fall, was born March 9 to Kenneth and Linda Fall of Boyne City.

V.F.W. Auxiliary plans spring luncheon, names delegates

Plans for a spring luncheon to be hosted by the V.F.W. Auxiliary April 6 were made and delegates to District meetings for 1983-84 were named at a recent meeting of the organization held at the post home.

The salad-casserole luncheon will be served at the post home and will feature hot and cold casseroles, meat and chicken dishes, all types of salads and desserts plus a choice of beverage.

Mrs. Joseph Seidel, president, named the following to luncheon committees: Mrs. Angela Borth, Mrs. Clarence Goldstick, Mrs. Kenneth Staley, Mrs. John Curtis, Mrs. Thomas Hodgkinson, Mrs. Larry Finck, Mrs. Clifford Johnson, Mrs. Melvin Plum and Mrs. Seidel. Further plans will be made at the March 17 meeting to be held at the post home and hosted by Mrs. Staley and Mrs. Keith Wagner.

Delegates to District meetings for 1983-84 will be Mrs. Gertrude Holt, Mrs. Hodgkinson, Mrs. Goldstick, Mrs. Albert Russell, Mrs. Johnson and Mrs. Seidel. Alternates will be Mrs. Curtis, Mrs. Finck, Mrs. Russell Dohm, Mrs. Jack Warner and Mrs. John Gilding. The next District meeting will be held on May 1 at Alpena.

Tentative plans have also been made for the annual V.F.W. Buddy Poppy Days May 19-21. Six thousand poppies have been ordered for sale on those days. The poppies are made by hospitalized veterans and monies derived from the sale are used for relief and rehabilitation of veterans and the needy veterans' families.

In addition to a recent donation to Bergmann Center to help finance those attending the Special Olympics, the Auxiliary voted to donate $25 to the National Special Olympics to be held in Louisiana this summer. The Special Olympics is the special project of the National V.F.W. Auxiliary this year. The Auxiliary will continue to support cancer research. The sale of mini-tomahawks recently netted $25 for this project.

To assist in community welfare and "Operation Bread Basket", members are asked to bring canned goods to future meetings. The food will be distributed to needy families in the community.

Two new members, Mrs. Joseph Elliott and Mrs. James Willis, were elected to membership at a recent meeting.

Reports were given on a recent meeting at which Ronald Geer, veterans' counselor for Charlevoix County, addressed the membership and on the recent Post-Auxiliary membership dinner attended by more than 60 at the post home. William Behrens and Joseph Seidel prepared the dinner. Post Commander Donald White was master of ceremonies.

Officers for the coming year will be elected at the April 7 business meeting to be held at the post home. Mrs. Borths and Mrs. Martha Resch will host the meeting at the post home.

Educ. Comm. to meet

There will be a meeting of the Education Committee of the Crooked Tree Arts Council on Friday, March 18 at 2 p.m. at Elm Point in East Jordan. The Committee is chaired by Pat Berlo of East Jordan, and formulates policy for the classes and workshops conducted by the Arts Council. They also serve as liasons between the Arts Council at the many schools in Charlevoix and Emmet Counties.

Other committee members are Eloise Rossler and Walter Midener of East Jordan, Betty Adgate from Boyne City, Lois Hodgson and Fran Tollas of Charlevoix, and Charlotte Ross-Lee and Louise Herlocher from Petoskey.

The Education Committee will host an Open House for all Music, Art and Gym teachers interested in dance, on April 10 from 3 to 5 p.m. at the Arts Center. Docents who conduct gallery tours at the Center and are available to go out to the schools will also be at the tea.

For Saints and Sinners

by Rev. Roger C. Ames
Christ Episcopal Church

TO GROW OR NOT TO GROW

"Sir, leave it another year...then perhaps it will bear fruit." (Luke 13:8) Please read Luke 13:1-9.

In an ancient legend, two brothers in a village in Central Europe were caught stealing sheep. Their punishment for the crime was to have the letters "ST" branded on their foreheads. "ST": Sheep Thief! They were to carry that mark for the rest of their lives.

For one of the brothers, life went from bad to worse. Some years later he died in jail. However, the other brother was deeply repentant. He turned his life around. Not only did he grow in self respect but also he became a caring person and earned the respect of others.

Years went by. A stranger came to the village. He noticed the "ST" on the man's forehead and asked one of the younger citizens what it meant.

"I really don't know the details," the young citizen replied, "It happened many years ago. But I think the letters "ST" on his forehead are an abbreviation for the word "Saint."

From "Sheep Thief" to "Saint". It can happen! This is the message of the Lenten Season.

A prophetic word (a charism of prophecy of the Holy Spirit) that was given recently in our congregation, expands the point of the story and confirms God's love for us and His intentions toward us - but also calls us to respond to Him in much deeper and committed fashion.

"I am your Father, I have made you to delight in me, even as I take great pleasure and delight in you - Your own mistrust and fears keep me from entering your life in a deeper way. I have called you into a deeper relationship with me. Come my beautiful children, come into the arms of your loving Father. It is here in my arms where you will find love eternal. That love will bring you peace, joy and security. It is in that love, my power will be unleashed in you to lay down your lives for me and each other. You are a royal priesthood, created for my glory. My beautiful children, let me take down the barriers that come between us. For as truly as I live, I have called you for a purpose and I am able to fulfill through you, the things which are impossible. Trust me my children - Let me have my way."

How is the Lord "having His way" with you?

COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

ELECTION NOTICE

TO THE ELECTORS OF THE COUNTY OF CHARLEVOIX, STATE OF MICHIGAN

NOTICE IS HEREBY GIVEN that at a special election to be held in the regular voting place in each election precinct in each City and Township in the County of Charlevoix, State of Michigan, on Thursday, the 7th day of April 1983, between the hours of 7:00 o'clock a.m. and 8:00 p.m., Eastern Standard Time, the following proposition will be submitted to the electors of said County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

All electors of the County of Charlevoix are entitled to vote on the above propositions.

All electors, however, must be registered with the Clerk of the City or Township in which they reside.

This proposition is being submitted in accordance with the following resolution adopted by the Board of Commissioners of said County on the 9th day of February 1983.

STATE OF MICHIGAN
COUNTY OF CHARLEVOIX

WHEREAS, in the judgment of the Board of Commissioners of Charlevoix County, Michigan (the "County"), it is in the public interest to further aeronautical progress by providing for the protection and promotion of safety in aeronautics; and

WHEREAS, the County has an opportunity to advance the aforementioned public interest by acquiring and constructing a Federal Aviation Administration Flight Service Station (the "Project"), which Project constitutes "aeronautical facilities" within the meaning of Act 327, Public Acts of Michigan, 1945, as amended ("Act 327") and which the County is authorized to acquire, establish, construct, improve, maintain, equip and operate pursuant to said Act 327; and

WHEREAS, pursuant to Act 118, Public Acts of Michigan, 1923, as amended ("Act 118"), the County is empowered to authorize and direct the borrowing of money and to issue and sell bonds in connection therewith for the purpose of defraying the cost and expense of permanent improvements such as the Project; and

WHEREAS, the cost of the Project, including financing and contingent costs incident thereto, is estimated not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), which estimate of cost is hereby declared to be the estimated cost of the Project;

WHEREAS, it will be necessary to borrow the sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000) and issue bonds of the County therefor, for the purpose of paying the cost of the Project;

WHEREAS, the Board of Commissioners does hereby determine and declare that the estimated period of usefulness of the Project is not less than 30 years;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Pursuant to Section 2 of Act 118, the County Board of Commissioners hereby directs the County Clerk to call a special election to be held on Thursday, April 7, 1983, at which special election the following proposition shall be submitted to the electors of the County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

2. Said proposition shall be stated on a separate ballot to be prepared and distributed by the County Clerk in the manner required by law, which ballot shall be in substantially the following form:

OFFICIAL BALLOT
COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

INSTRUCTIONS TO VOTER: Mark a cross (x) to the right of the word "YES" or "NO".

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

YES / /
NO / /

3. All public officials of the County of Charlevoix, State of Michigan, and all municipal units thereof, within such time as shall be required by law, be and they are directed to do and perform all things and acts which shall be necessary to be done or performed in order to submit the foregoing proposition to the electors of said County at the special election to be held therein on Thursday, April 7, 1983.

4. The foregoing resolution shall not become effective or binding on said County until and unless the proposition herein directed to be submitted shall be approved by the registered electors of said County at said special election to be held therein on Thursday, April 7, 1983.

A majority of the members elect of the Board of Commissioners having voted in favor of the adoption of the foregoing resolution, the Chairman thereupon declares that said resolution was duly adopted.

Jane E. Brennon
County Clerk

TAKE NOTICE that the County Board of Commissioners has estimated the expense of the aforesaid project to be Seven Hundred Fifty Thousand Dollars ($750,000), which it is necessary to raise by borrowing and issuing bonds of the County. Said bonds will be payable in annual installments which may not exceed thirty (30) in number and bear interest at a rate or rates to be determined at public sale. The maximum rate of interest, however, may not exceed the maximum rate per annum permitted by law on the principal amount of the bonds from time to time remaining unpaid.

THE PRINCIPAL AND INTEREST OF SAID BONDS SHALL BE PAYABLE FROM SUCH FUNDS OF THE COUNTY LAWFULLY AVAILABLE FOR SUCH PURPOSE AND THE COUNTY IS REQUIRED BY LAW TO LEVY SUFFICIENT AD VALOREM TAXES, IF NECESSARY, FOR THE PAYMENT THEREOF UPON ALL TAXABLE PROPERTY IN THE COUNTY, WITHOUT LIMITATION AS TO RATE OR AMOUNT.

THIS NOTICE IS GIVEN pursuant to the statutes of the State of Michigan in such case made and provided and pursuant to resolution of the Board of Commissioners herein set forth.

Annual Spring Break at all Charlevoix schools.

Irwin rep sets hours

Greg T. Long, State Senator - Mitch Irwin's District Representative, will be holding office hours in Charlevoix County on Thursday, March 17 and again on Tuesday, March 29. He has scheduled hours in Boyne Falls, East Jordan, Boyne City and Charlevoix for both visits.

He will be in Charlevoix at the County Building from 2 to 3 p.m. on March 17 and at the same location from 10 a.m. to 11 a.m. on March 29.

No appointments are neccessary for local citizens wishing to discuss problems or cut red tape in matters relating to state government.

Traveling exhibit of "CHAIRS" to visit McCune

CHAIRS, a national traveling exhibit from Central Michigan University, has opened at the McCune Arts Center in Petoskey, where it will be on display through April 1.

The exhibit consists of original works of art in various media, wherein the artists state their philosophy about chairs and the people who use them. It is a statement about chairs and what they do for people, and is thought-provoking as well as comical.

In an article in February 1983 "Psychology Today", Ralph Caplan says, "The function of a chair may be to fill out a corner, dress up a room, keep a table from looking unattended, organize space, impress people, depress people, intimidate or welcome people. Or consider the dentist's chair, the barber or beauty parlor chair, the electric chair, to hold people in place while something is being done to them, like a workbench vise holds an object."

Chairman of the docents, artist Jan Glass of Charlevoix, announces that docent guided tours of the exhibit at the McCune Arts Center in Petoskey will be available at the following times: Tuesday, March 15, 10:00 to 11:20; Thursday, March 17, 1:00 to 2:20; and Monday, March 21, 10:00 to 11:30. Groups of ten or more persons, from schools or clubs or other groups, are invited to take advantage of this opportunity to see the exhibit and the Arts Center. There is no charge, but it is requested that arrangements be made in advance by calling the Center at 347-4337 or Jan at 547-2256.

The exhibit on chairs will introduce the viewers to a whole new way of looking at chairs from the comic to the aesthetic. Hours at the Gallery are Mondays through Saturdays from 10 a.m. to 5 p.m. There is no charge. Further information can be obtained by calling 347-4337.

DO YOU HAVE A LARGE FAMILY?
Maybe it's time to think about moving into something larger, like this spacious 4 bedroom Ranch with family room, game room, two fireplaces, 2 car garage and many more pleasant surprises. The best surprise of all is it's priced under $60,000 and has a low interest, long term assumable mortgage. For details call SKI & SHORE CHARLEVOIX, Inc. - 616/547-9905.

CITY OF CHARLEVOIX COUNCIL MINUTES

March 7, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time in Council Chambers, 210 State Street, Charlevoix, Michigan with Mayor Staley presiding.

Present: Councilmembers Wood, Olach, Porter, Timms, and Roloff. Absent: None.

The Minutes of the February 21, 1983 regular meeting and the February 28, 1983 special meeting were approved as presented in writing and as recorded in the Council Minutes Book.

A Public Hearing was held regarding the use of $59,340 in Federal Revenue Sharing Funds the City will receive in fiscal 1983-84. The City Manager stated the funds are proposed to be allocated to the Local Street Fund. Bruce MacArthur, a member of the General Public present, expressed a concern that the Council arbitrarily assigns Revenue Sharing monies to the Street Fund each year. The City Manager explained that there are Federal Regulations governing the use of Revenue Sharing funds and that assigning them to the Street Fund meets all requirements.

In compliance with the Truth in Taxation Law, a Public Hearing was held regarding the increased tax revenue the City will receive due to the increase in the overall valuation of the City. Peter Phillips, a member of the General Public present stated he would like to see the millage cut when additional revenues are received due to an increase in valuation.

A Public Hearing was held regarding the proposed Ordinance to adopt the City's 1983-84 fiscal budget. Council generally agreed to provide funds in the budget for a flow-through at the Ferry Beach dock and to leave funds in the budget for Lake Michigan Beach with specific improvements there to be determined at a later date.

The following Ordinance was offered and moved for its adoption by Councilman Wood and supported by Councilman Olach.

(See Ordinance No. 424 published elsewhere in this edition of the Courier.)

Ordinance was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

Marilyn Friedly of the Water Improvements Fact Finding Committee presented the Committee's findings to the Council. Ms. Friedly stated that the Committee was initiated by the Keep Charlevoix Beautiful organization and was composed of three City residents and three Charlevoix Township residents. She reported that the committee had reached the conclusion that the City and Charlevoix Township should create a joint water system and recommended that efforts be made to improve communication between the two units. Bruce MacArthur, President of Keep Charlevoix Beautiful, read a letter directed to officials of the two units encouraging joint meetings and asked the City to provide an explanation of the water rate currently being charged to Charlevoix Township. The water problem and pending consolidation of the City and Charlevoix Township were discussed at length.

Moved by Councilman Timms and supported by Councilwoman Roloff to close Bridge Street from Mason to Clinton on August 13, 1983 from 7:00 A.M. to 5:00 P.M. as requested by Suzi Reis, Director of the Charlevoix Waterfront Art Fair.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

The following Resolution was offered and moved for its adoption by Councilman Porter and supported by Councilman Wood.

RESOLUTION NO. 83-3-1
City of Charlevoix
County of Charlevoix
State of Michigan

WHEREAS, the City Council determines that it is necessary for the public health, safety and welfare of the City to acquire and construct improvements to the City's Water Supply System together with all necessary appurtenances and attachments thereto;

AND WHEREAS, the total cost of the aforesaid improvements, together with all legal fees and financial costs, has been estimated to be One Million Six Hundred Fifty Thousand Dollars ($1,650,000);

AND WHEREAS, the City Council has determined that the aforesaid improvements should be furnished by the issuance of general obligation bonds of the City in an amount not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000);

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City Council of the City of Charlevoix does hereby determine that the aforesaid improvements are necessary for the public health, safety and welfare of the City;

2. The period of usefulness of the aforesaid public improvement is hereby estimated to be not less than forty (40) years.

3. At a special City election which is to be held in the City on Monday, May 2, 1983 between the hours of 7:00 o'clock a.m. and 8:00 o'clock p.m., there shall be submitted to vote of the qualified electors of said City the proposition of issuing said general obligation bonds.

4. The proposition to be submitted at said election shall be stated on a seperate ballot, or as a seperate proposition on voting machines, in substantially the following form:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and construction improvements to the City's Water Supply System consisting of a treatment plant, pumps, power, pump station, chlorine contact tank and all necessary attachments and appurtenances?

5. The City Clerk shall cause notice of last day for registration to be published at least twice in the Charlevoix Courier, a newspaper of general circulation in the City, prior to the last day for receiving registrations, the first publication to be not less than ten (10) full days prior to said last day for receiving registrations.

6. The notices of registration shall be in substantially the following form:

NOTICE OF THE LAST DAY FOR RECEIVING REGISTRATIONS FOR THE SPECIAL ELECTION TO BE HELD
IN THE CITY OF CHARLEVOIX ON MONDAY, MAY 2, 1983

PLEASE TAKE NOTICE that any qualified elector of the City of Charlevoix, County of Charlevoix, who is not already registered may register for the special City election to be held on the 2nd day of May, 1983 in said City.

The City Clerk will be at her office in the City Hall on each working day during regular working hours until and including Monday, April 4, 1983, for the purpose of receiving registrations of qualified electors of the City of Charlevoix not already registered.

On April 4, 1983, which is the last day for receiving registrations for said City election to be held on Monday, May 2, 1983, the City Clerk will be at her office between the hours of 8:00 o'clock a.m. and 8:00 o'clock p.m., Eastern Daylight Time, for the purpose of receiving registrations of qualified electors.

The purpose of said City election is to vote on the following proposition:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?

THE LAST DAY FOR RECEIVING REGISTRATIONS FOR SAID CITY ELECTION TO BE HELD MONDAY, MAY 2, 1983, WILL BE MONDAY, APRIL 4, 1983.

City Clerk

7. The City Clerk shall cause notice of the submission of said proposition to be published at least twice before the date of the election in The Charlevoix Courier, a newspaper of general circulation in the City, the first publication to be not less than ten (10) full days prior to the date of said election.

8. The notice of the submission of the said propositions shall be in substantially the following form:

NOTICE OF ELECTION

TO THE QUALIFIED ELECTORS OF THE CITY OF CHARLEVOIX:

PLEASE TAKE NOTICE that at an Election to be held in the City of Charlevoix, County of Charlevoix, Michigan, on the 2nd day of May, 1983, from 7:00 o'clock a.m. to 8:00 o'clock p.m., there will be submitted to vote of the qualified electors of said City the following proposition:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?

THE PRINCIPAL AND INTEREST OF SAID GENERAL OBLIGATION BONDS SHALL BE PAYABLE FROM THE GENERAL FUNDS OF THE CITY INCLUDING REVENUES GENERATED FROM SAID WATER SUPPLY SYSTEM IMPROVEMENTS, AND IN THE CASE OF THE INSUFFICIENCY OF SAID FUNDS, THE CITY IS REQUIRED BY LAW TO LEVY SUFFICIENT AD VALOREM TAXES ON ALL PROPERTY IN THE CITY WITHOUT LIMITATION AS TO RATE OR AMOUNT. SAID BONDS MAY BE ISSUED IN SERIES.

All qualified and registered electors may vote on the above bonding proposition.

The place of voting will be as follows:

City Hall Building
210 State Street
Charlevoix, Michigan

This notice is given by authority of the City Council of the City of Charlevoix, County of Charlevoix, Michigan.

City Clerk

9. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Porter, Timms, and Roloff. Nays: Councilman Olach. Absent: None.

Council discussed the proposed purchase of water from Charlevoix Township as a means of reducing the Trichloroethylene (TCE) contamination in the City water supply. It was generally agreed that, as the aeration system installed on the City water supply has brought the TCE levels under some degree of control, it will not be necessary to purchase water from the Township at this time.

The following Resolution was offered and moved for its adoption by Councilman Wood and supported by Councilman Timms.

RESOLUTION NO. 83-3-2
Establishing Off System Rates
Charlevoix Wastewater Treatment Plant

WHEREAS, the City operates a Wastewater Treatment Plant; and

WHEREAS, the plant has facilities for accepting sewage from septic tank haulers and other off-system sources, and

WHEREAS, the charges for treating system sewage were established in 1973 and have not been adjusted since, while on-system rates have been increased substantially since that time; and

WHEREAS, the off-system sewer charges no longer reflect the costs of providing this service;

NOW, THEREFORE BE IT RESOLVED, that the following schedule of rates for off-system wastewater treatment shall be established

Total Amount of Load (gallons)	Per Load Rate Effective April 1, 1983	Per Load Rate Effective April 1, 1984
0-800	$ 7.50	$10.00
801-1000	12.00	16.00
1001-1500	15.00	20.00
1501-2000	18.00	24.00
2001-2500	30.00	40.00

BE IT FURTHER RESOLVED THAT:

The City shall retain the right to inspect and sample, at the hauler's expense, any off-system effluent, and may require statements pertaining to the origin and qualities of the effluent, and shall reserve the right to refuse any load, or all loads from any source, establish terms and conditions for the acceptance of any load, and establish other such controls on the quality and quantity of off-system effluent accepted for treatment.

BE IT FURTHER RESOLVED THAT the Resolution approved September 10, 1973 pertaining to the septic tank dumping station is hereby rendered null and void.

RESOLVED, this 7th day of March, 1983, A.D.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

The following Resolution was offered and moved for its adoption by Councilman Timms and supported by Councilman Wood.

RESOLUTION NO. 83-3-3

WHEREAS, the Citizens and Officials of the City of Charlevoix are saddened by the death of F. Ivan Whitley who has served the City as Second Ward Councilman, and

WHEREAS, the City Council wishes to express its sorrow upon the passing of F. Ivan Whitley, its appreciation for his years of service to his City and to extend to his widow and family its most sincere condolences,

NOW, THEREFORE BE IT RESOLVED, that the City Clerk shall send a copy of this Resolution as spread upon the minutes of the meeting of the City Council to Mrs. Whitley.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Wood, Olach, Porter, Timms, and Roloff. Nays: None. Absent: None.

Council requested that Dave Knight, Editor of the Charlevoix Courier, place an article in the Courier asking Second Ward residents interested in filling the vacant Council seat created by the death of Ivan Whitley to contact the City Clerk.

Council approved the payment of bills totaling $204,851.39.

Council adjourned.

Deanne Balch, City Clerk

Kenneth A. Staley, Mayor

Test Mesquite engines

Continued from page 3

The trip to Milwaukee served a second purpose of giving the ship's crew additional experience in underway watchstanding and emergency drill responses, said Lieutenant Commander David Blomberg, commanding officer of the Mesquite.

Weather on the trip was favorable, Blomberg said. Although winds were 20 to 30 miles per hour most of the time, they were generally following the ship's direction and so allowed for a fairly smooth ride. No ice was encountered.

Milwaukee was chosen as the destination simply because the Mesquite had not been there with its present crew, said Blomberg.

New umpire group formed

A new umpires organization (Slo-pitch Umpires Federation) has recently been formed in northern Michigan. This group of men and women bring with them over 50 years of umpiring experience. This organization will be available to work local leagues and any area torunaments. The Board of Directors for this new group include: Lee Barta, Gordy Block, Lynda Christensen, Jim Ciuk, Bill Joy, Burt Matteson, Tom Micham, Debbie Peterson, Pat Price and Len Puroll. Information is available from any board member or you can contact Lynda Christensen at 616-582-9555 or at Box 1817 Marshall Road, Boyne City, Michigan 49712.

Phase III postponement unaccaptable

State won't let city lag on water plant

by DAVE KNIGHT

Making a special trip north to emphasize his agency's position, State Health Department District Engineer Timothy A. Benton told City Council members Monday night that there can be no waffling on the Council's stated intentions to build a complete lake water treatment plant.

The plant was City Council's choice in February to provide city water free of the industrial chemical and suspected health threat trichloroethylene (TCE) which presently contaminates the city's groundwater supply. In recent meetings, the Council had discussed postponing the third of three construction phases of the plant to ease the burden on city taxpayers.

The estimated cost for the plant is $1.9 million. On May 2, city voters will be asked to approve a $1.65 million bond issue which, along with a hoped-for $400,000 federal grant, would cover the construction costs.

Mayor Kenneth Staley suggested to Benton that the city proceed with the first two phases of construction, intake and chlorination equipment, but that "we take our time" on Phase III, mixed media filtration, until the local economy is in better shape.

Benton rejected any possibility of undue delay on the plant, however, saying, "There cannot be any mistake in your mind that we will allow anything less than a full treatment plant."

In a March 10 letter to the City Benton stated that no construction permits for any portion of the plant will be issued by his department until the Council makes its commitment clear.

Wrote Benton, "...A legally binding, irrevocable agreement will need to be executed between the city and the department that stipulates the timetable for completion of the project."

Phasing the construction of the plant, said Benton, was agreeable to the State Health Department only because it allowed for an immediate, short term means of providing less contaminated water while a long term solution was being developed.

"I was sorry to see the council interpret our flexibility on phasing that way," said Benton Monday night.

He added that arrangements for financing the plant will have to be in order before the State Health Department gives its approval.

Council member Ray Wood asked Benton, "What if the voters turn down the bond issue?"

"I'm afraid I don't have an answer to that question," he responded.

TCE levels remain low

Test samples received Monday by City Hall revealed levels of trichloroethylene (TCE) almost identical to the last series of tests. According to City Manager Robert Hunt, the most recent samples contained levels ranging from 7 to 30 parts per billion of TCE after aeration. Hunt said that the city's aeration system is still in the process of being improved and that he feels an average ppb range "in the teens" will be possible as further adjustments are made.

Want Township Board to do the same

Council seeks 'Yes' vote on charter ballot

by DAVE KNIGHT

By unanimous resolution Monday night, the Charlevoix City Council made its first formal entreaty to city and township voters to approve formation of a charter commission in the upcoming May 2 election. The resolution also calls upon the Charlevoix Township Board to endorse a "yes" vote in the balloting.

Voters in both city and township are being asked on the May 2 ballot to approve within each juristiction the creation of a charter commission to study the issue of consolidation. Should the question draw a majority of "yes" votes in both the city and township, a charter commission will be seated with equal representation from each unit.

Wrote Charlevoix City Manager Robert Hunt in a recent memo to Council: "Many of us have heard so many different stories about what might happen if consolidation occurred that we have a very foggy idea about what would actually happen to services, taxes, user fees and the government process if it were approved. Because we are not about to go ahead with something we don't understand, we seem to be ready to vote against it.

"I feel this is a tragedy because no one really knows what it is we'll be voting for or against on May 2nd. To go beyond playing this game of 'what if', an actual consolidation plan and charter would have to be worked out between representatives of the City and Township, which the voters could read and understand."

The May 2 election is the result of a petition distributed last June in the Township that gathered about 300 names asking that the question of whether to form a charter commission be voted upon. According to State Boundary Commission rules, should the voters approve creation of a charter commission, the next step would be election of commission members. Following a legislative initiative by the city last year, representation on the commission would be equal for both units instead of the previous one man-one vote arrangement which would have given the city an approximate 7-2 edge.

Hunt urged Council and the Township Board to endorse "yes" votes "...Not because consolidation is right. But because we still don't know if it's wrong."

As of Monday, it was unclear as to when the Township Board will next meet. Township Supervisor Oscar Stroud said last week that a special meeting this week may be scheduled to deliberate the matter of township involvement in the lake water treatment plant planned for construction by the city.

Resolution clarifies what voters will decide on May 2

The following is the complete text of the resolution passed unanimously by the Charlevoix City Council Monday night.

Whereas, cooperation between units of local government is increasingly important to preserving jobs, holding down the costs of government, and maintaining public service; and

Whereas, a proposal has been presented to the State Boundary Commission to consolidate the governments of the City of Charlevoix and Charlevoix Township; and

Whereas, consolidation is one of several means to co-ordinate local government services; and

Whereas, consolidation might have significant effects on the quantity, quality and costs of local public services; and

Whereas, voters will be asked on May 2nd whether the consolidation process should be continued; and

Whereas, if the voters say yes on May 2nd, the next step would be the formation of a consolidated charter commission to draft a charter and consolidation plan, containing the details of the government structure and the specifics of how each service would be consolidated; and

Whereas, this charter commission will have equal representatives from the City and Township; and

Whereas, the charter and consolidation plan must be approved by the voters, and can be turned down if it is not to their liking; and

Whereas, no one can tell whether consolidation will benefit the area's citizens and taxpayers until the charter and consolidation plan are drafted; and

Whereas, the voters deserve to know the specifics of the charter and consolidation plan before the proposal is put to rest;

Now therefore be it resolved by the Council of the City of Charlevoix that it shall ask City voters to "say yes on May 2nd" thereby allowing preparation of a detailed consolidation plan and charter for consideration by the voters; and

Be it further resolved that the City Council hereby calls upon the Charlevoix Township Board to adopt a similar resolution to encourage Township voters to allow the consolidation plan and charter to be drafted for voter consideration.

R-4 zoning requested for Dixon Ave. condo

Several East Dixon Avenue residents were on hand for a public hearing before City Council Monday night to hear a request to rezone the vacant property adjoining the Lodge Motel to accomodate a five-unit condominium complex.

No Council action was taken on the matter, however, because complications in the application procedure delayed review of the project by the Planning Commission. Council is expected to formally act on the request at its April 18 meeting.

Jack Uhrick, owner of the Lodge, and Hans Wiemer who is also involved in the project explained the rezoning request calling for a change from R-1, residential, to R-4, multiple family dwelling.

A similar request to rezone the property to R-4 failed last year when several East Dixon Ave. residents united to fight the project on grounds that it would detract from the residential nature of the neighborhood.

Uhrick told council Monday night that he had contacted several of those opposed to the project last year who had changed their minds. He added that he obtained 20 signatures of Dixon Ave. residents on a petition supporting the rezoning.

Mrs. Franklin Curtis, 201 E. Dixon Ave., voiced the fears of other nearby property owners that condominium development would eventually dominate the south side of East Dixon, which overlooks Round Lake, should one lot be rezoned.

Wiemer pointed out that under the city code requirements the rezoning of the lot in question would have no bearing on subsequent rezoning requests, on East Dixon or otherwise.

"Each request must be handled on its own merits," he said.

Said Wiemer, "We have to provide housing in these highly desirable areas other than R-1. Otherwise we will end up with huge, single family homes available only to the very, very wealthy."

Wiemer also mentioned that the restrictions, such as 40-foot front yard setbacks, are much more stringent for R-4 than R-1 and that neighbors enjoy considerably more protection under such zoning.

City Manager Robert Hunt explained the position of the Master Plan saying that no "site-specific" zoning recommendations are made in the plan but that a low density development such as proposed would fit into the general land use recommendations made in the plan for the area.

In another zoning matter, Council approved the change from I-1, industrial, to C-1, commercial of the property formerly occupied by the State Liquor Control Commission on Highway 31 South next to the airport.

The rezoning, recommended by the Planning Commission, came at the request of David Murray of Charlevoix who plans to operate a marine sales and service business on the site.

Additonal arrangements for storing boats at the facility were tabled.

Block to fill Whitley's term

James F. Block, who decided last year not to seek re-election to a second term as City Council member, found himself back in office Monday.

Block was named by the Council to fill the unexpired term of Second Ward representative F. Ivan who died March 1. Ironically, it was Block who was elected in November, 1980 to fill the seat vacated at the time by Whitley who decided not to run for re-election. When Block bowed out of the race last year, it was Whitley who was elected to fill the spot.

Block, 219 W. Hurlbut, was one of four Second Ward residents who applied for the appointment. Other candidates included William Bellows, 507 State St., Melvin Renaud, 503 W. Hurlbut and Larry D. Martin, 320 W. Upright.

When all four nominations had been made at Monday night's council meeting, a secret ballot was conducted. Block won with three votes to two for Bellows and none for the other two candidates.

Block's term will run until December, 1984.

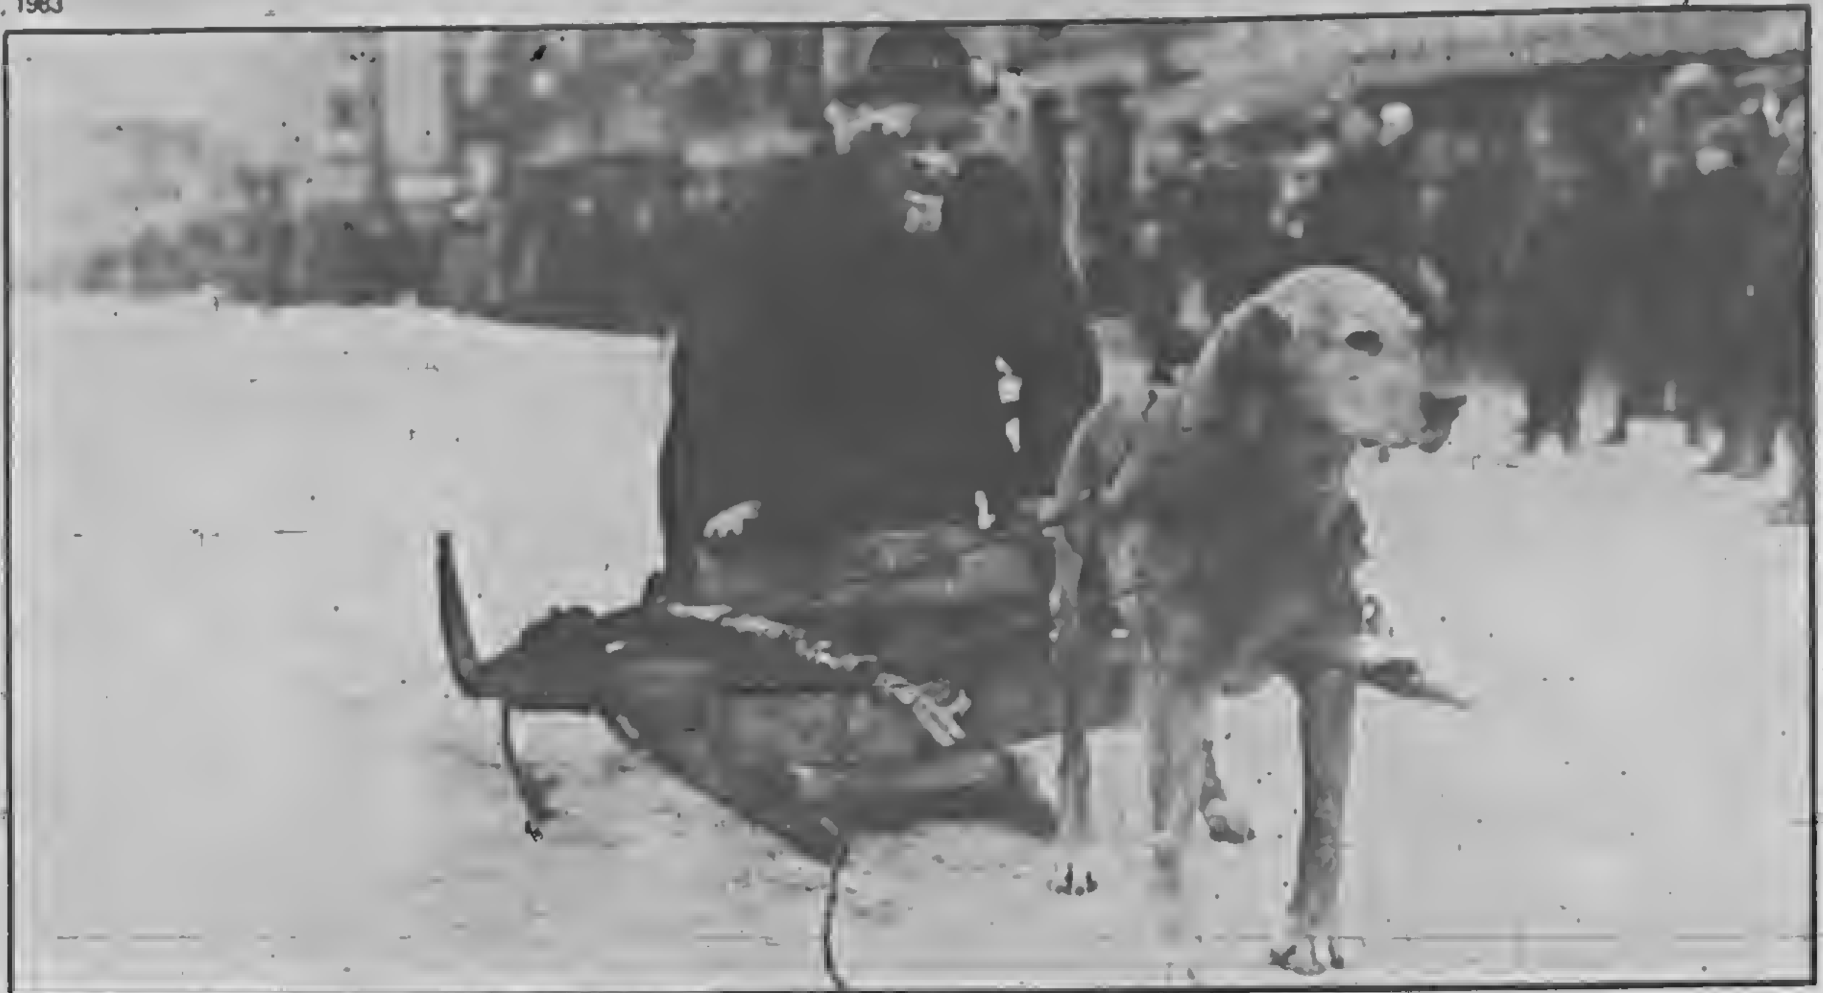
•

Navy Lt. j.g. **EUGENE W. SMITH**, son of Elwyn R. and Rosemary Smith of East Jordan, has completed the Lawyers' Military Justice Course.

During the eight-week curriculum at the Naval Justice School in Newport R.I., newly commissioned Navy, Marine Corps and Coast Guard lawyers study the application of their prior law school training and legal knowledge to the military community. The instruction is designed to provide a thorough working knowledge of the Uniform Code of Military Justice. During classroom sessions, seminars, case studies and individual research, future military advocates study the rules of evidence, inservice legal assistance programs and the procedures for courts martial, boards of inquiry and investigations.



Charlevoix Yesterday

Allie Moore was a legendary Charlevoix native who became a professional roller skater and performed throughout the world, often appearing before royalty. When he returned to Charlevoix, he used his showmanship skills in driving a dog sled. He was known to have as many as eight dogs in a team, but sometimes only one was enough to pull his sled while he executed his clown tricks. (Photo courtesy of Tinker Kirby.)

CHS industrial arts fair set

The Charlevoix High School Industrial Arts Department will sponsor its own Fair at the high school cafeteria Thursday, March 24 Brian Certa, Industrial Arts instructor, has announced.

On exhibit will be wood, metal and drafting projects done by students in the ninth through twelfth grades under the direction of Certa and John Mills.

"Students will be exhibiting their projects at the Region 14 Industrial Arts Fair next month but the exhibit on Thursday will give parents and interested persons an opportunity to see what the students have accomplished during the current year in the various fields of Industrial Arts that we offer. Not everyone has an opportunity to send his or her work to the regional fair. By having our own Fair everyone has a chance to have his or her work on exhibit" Certa said in announcing the exhibit.

The Fair will be open to the students throughout the day on Thursday and to the public from 7 until 9 p.m.

The wood and drafting projects have been done under the direction of Certa and the metal and drafting under Mills who also heads the Building Trades program.

The Region 14 Fair will be held at Kalkaska April 21. The State Fair sponsored by the Michigan Society of Industrial Arts will be held in Grand Rapids April 28-29.

KCs to hawk Tootsie Rolls this week

The Pere Charlevoix Council of the Knights of Columbus will conduct its annual Tootsie Roll drive to aid the mentally retarded on Friday and Saturday Jack Gebott, the council's Grand Knight, has announced.

At that time, members of the Knights of Columbus will be at Edwards IGA, Oleson's and Glen's to collect contributions which will be used for the mentally retarded. George Loehnew has been named chairman of the event. Contributors receive a Tootsie Roll for their donation. In 1982, Knights of Columbus in Michigan collected $703,200. Locally, $751.86 was collected and donated to Charlevoix House and Bergmann Center. Charlevoix House is a residence for mentally retarded clients. Bergmann Center is a sheltered workshop.

Eighty percent of the net income from the donations is retained by the local council and distributed to area organizations serving the mentally retarded. The remainder is forwarded to the State Council of the Knights of Columbus to meet the expenses of the program and make donations in behalf of the 70,000 Knights of Columbus in Michigan.

A principal beneficiary of the State Council, funds is the Michigan Association for Mentally Retarded Citizens. Other donations are given to organizations which assist the mentally retarded.

Citizens will recognize the Knights and their helpers who will be wearing colorful hats, carrying cannisters and wearing bright yellow aprons emblazoned with "K of C help the mentally retarded."

Attending the safety award ceremony at the Big Rock nuclear plant recently were, from left, Russell DeWitt, vice-president of nuclear operations, Gary LaForrest, general safety advisor, plant superintendent David Hoffman who is shown receiving a plaque from executive vice president Jack Reynolds, and Jim Feahr, corporate safety director.

Big Rock wins safety award

Employees at the Big Rock Point nuclear plant recently received a Consumers Power Company Safety Achievement Award for having worked two consecutive years without an injury requiring medical treatment.

Jack W. Reynolds, Consumers Power executive vice president for energy supply, presented the award and congratulated plant employees for personnel safety performance that is considered outstanding in the utility industry.

Big Rock Point employees have worked more than five years and seven months without suffering an on-the-job injury—that caused an employee to miss work. Plant employees have worked more than 1.3 million hours during that period.

The plant has 152 Consumers Power employees.

Plant Superintendent David P. Hoffman praised employees for their safety consciousness and encouraged them to continue making safety the plant's priority.

"When personnel safety is a high priority among employees, other aspects of plant operations are affected," Hoffman said. "Big Rock Point is in good condition and it has an excellent operating record and I think this can be attributed to our employees' attention to safety."

Elem. School conferences reset

Charlevoix Elementary School Parent-Teacher Conference scheduled for this week March 23-24-25 have been postponed to the week following Spring Break because of scheduling conflicts Ralph Raymer, K-5 principal has announced.

The conference times will remain the same as previously scheduled for conferences to be held during the evening Wednesday and Thursday, April 6 and 7 and during the afternoon Friday, April 8.

Classes will be dismissed at noon and the students transported to their homes Friday. There will be no lunch served at the cafeteria on Friday Mr. Raymer added.

Mrs. Tollas heads BC workshop

Fifty Boyne City students from the cast of Guys and Dolls along with other music students and members of the band recently participated in a mini-workshop conducted by Fran Tollas of Charlevoix.

Voice control through breathing was a major topic of the workshop. Mrs. Tollas concentrated on music of the musical Guys and Dolls which is to be presented at Boyne City High School April 21, 22 and 23.

The workshop was given as part of the requirements of a grant awarded to Mrs. Tollas by the Michigan Council of the Arts through CHIP Counseling Center of Charlevoix.

The purpose of the grant is to teach and encourage singing as a tool to better emotional health. Mrs. Tollas has recently received a second degree in Vocal Performance from Grand Valley State College. She teaches singing for the Crooked Tree Arts Council.

NON-TRADITIONAL CAREERS was the theme of a recent program sponsored by the Charlevoix-Emmet Intermediate School District in which teams of district high school students, along with faculty advisors, met for workshop sessions on how to expand career options and explore vocations traditionally associated with one sex or the other. Shown working at the session held in Charlevoix are Charlevoix High School students, from left, Alan Bergmann, Shelly Davis and Lisa Mosher along with advisor Mrs. Mary Seaman. Each team in "Project ASETS" (Achieving Sex Equity Through Students) went back to their respective high school and worked with sophomore students using the material gained from the workshops.

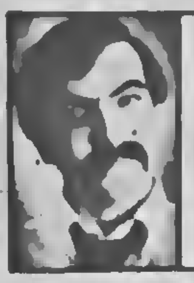
Opinion



Knight on the Town

Time for healing

by Dave Knight

Like a big, bald giant sleeping along the Lake Michigan shore on Charlevoix's north side, Mt. McSauba has provided generations of local residents with a hill for skiing, trails for hiking, beaches for picnicking and, in general, a place where one can conveniently abandon the cares of everyday day life without even leaving the city.

The same fine, white sand that adds to its allure, however, makes the dunes of Mt. McSauba a most fragile natural treasure.

Just as the tides that flow and the clouds that drift, sand dunes are constantly changing. The action of wind, rain and snow along with the establishment of grass and trees have been nature's ways of shaping and reshaping the dunes over the centuries. That change has been gradual.

In recent decades, however, man has stepped into the process creating trails and tracks that alter the ways nature shapes the dunes. That change has been rapid. Too rapid, in fact, for nature to compensate with its stabilizing measures. The result has been heavy erosion that threatens the dunes and the recreational mecca they provide for city residents and visitors alike.

Three years ago, the City Council authorized the development of a plan through the Northwest Michigan Resource Conservation and Development Program to combat erosion at Mt. McSauba. This week, Council committed the first funds to that plan and actual work is expected to begin this summer.

The project is a joint venture involving the Soil Conservation Service (SCS) and the city on a 75-25 basis. Of a total project cost of $46,300, the SCS will provide $33,500 and the city $12,800. At least $4,000 of the city's share will be in the form of "in kind" services such as city manager and recreation director salaries.

Work involved includes planting of beach grass to stabilize some areas, planting of trees as windbreaks, trail surfacing, and the construction of access gates and vehicle barriers to direct pedestrian and traffic flows.

Wooden vehicle barriers consisting of posts with cross bars are planned along 370 feet of the eastern boundary of the park. Another 150 feet of barriers will seal four traditional access points. The north and south sides of the beach will be defined by 450 feet of rock vehicle barrier. Wood chips will cover 3,100 feet of recreational trails and 5.5 acres will be seeded and 7 acres planted in beach grass. A 600-foot wind break of red pines will protect the ski hill.

For a patient long in need of intensive care, the healing has finally begun.

Clockwise

After cheaters

by Bob Clock

I CAN'T RECALL a single money-related government proposal since Social Security was adopted almost 50 years that has caused quite the uproar as the planned withholding of taxes from bank interest and stock dividends, starting July 1.

The financial community is staging an all-out battle to have the law repealed — and both the House and Senate seems to be falling in line, despite objections from such disparate personalities as President Reagan, Democratic House Speaker Thomas 'Tip' O'Neill and Republican Sen. Bob Dole.

In fact, backers of repeal claims they have enough votes not only to kill the withholding law, but also enough to override a presidential veto.

Why was the interest-withholding law passed in the first place?

Apparently the federal government felt that it was being cheated of taxes it should have been receiving on interest and dividends — despite an elaborate reporting system that has been in place for many years. If you have any kind of bank account you are familiar with those little notices sent out at the close of every calendar year telling you how much interest you have been paid during the preceding 12 months. The same information is passed along to the Internal Revenue Service — giving agents all the ammunition they need to go after cheaters.

How bad is cheating on interest and dividends?

Not all that serious, according to the IRS itself. As recently as 1981, federal tax people reported the compliance rate as high as 97 percent — and it's hard to do much better than that.

In addition to the costly paper work the new law requires of bankers and investment houses, the withholding provisions are bound to hurt some small investors who otherwise would be exampt from paying anything at all. It is possible under the law to file for an exemption — but some bankers feel many small investors won't even bother — and they are probably right.

Another problem arises when invidivuals have interest and dividends coming in from several sources. Unless they file an exemption form with each one, they may find themselves making fat, interest-free loans to the federal government.

All these problems, of course, will be solved if Congress repeals the withholding law.

IS THE COLD, snowy weather we have endured this week all that unusual for late March?

Not at all.

As a long-time weather observer, I can attest to the fact that Michigan *usually* has a snowstorm on or about St. Patrick's Day and another on the first day of spring. After that, winter is definitely on the lam for another year.

By next weekend, the crocuses and daffs can pick op where they left off.

If anything, the recent cold snap is a blessing — because it should have slowed down the budding of fruit trees until continuous warm weather is more likely.

Mayor asks for 'Yes' vote

To the Residents of the Charlevoix area:

The question of consolidating the City of Charlevoix and the Township of Charlevoix will be presented to voters on May 2nd. A double Yes vote is needed to study township and city services. This would provide for an in-depth study and ultimate proposal being presented to the voters of each unit of government. Again a double Yes for the Charter proposal would be needed before consolidation could be realized.

I believe both the City and Township need to gain more insight into the role each will be expected to play in providing monicipal services. We should look objectively at the situation as it relates to these services on both sides of the boundary. The City and Township residents could then intelligently evaluate a charter and the advantages and disadvantages of consolidation.

The early vote, before the formation of a Charter Commission to study joint services, is asking you to vote on something very little is known about. We do know the township and city residents have more in common than in conflict.

Ignorance due to a lack of communication can serve no useful purpose. The communication lines should be kept open and the edocation process allowed to proceed. As cities and townships grow, th tendency of administrative and elected officials is to take care of the "here and now". Too often community needs that transcend the present are "put on the back burner", the result of short run decisions ae abundant. Triplication of effort, dependency on things over which we have no control, loss of job intensive employment opportunities are but a few of the inherent results of the absence of long range goals.

A Charter Commission and its committees could:

1. Provide the skills neccessary for group effectiveness and conflict resolution.
2. Provide a liason between township and city officials, staffs and residents.
3. Concentrate and focus on City-Township needs and planning for the future.
4. Engage in activites leading to community educational development.
5. Identify and deal (constructively) with those factors and behaviors that contribute to implementation gaps between Township and City.

In order to stop the "drift" of governing without direction and disapointments inherent therein, let's make a "valne committment" to investigate our future and the "options" we have. THERE IS NOTHING MORE DEVASTATING THAN IGNORANCE.

I made several trips to Lansing to get the State Law changed from the unsatisfactory 7 to 2 representation on a Charter Commission. The Boundary Act provides for annexation of areas less than 100 people without a vote — a short sighted piece meal procedure not in the best interests of the community. Other alternatives are totally unacceptable because they would be "fragmented decision making" not considering long range problems — maybe even contributing to them.

Charlevoix is more than a City, it is a Community. Its beauty is enhanced by the citizens of the area. Mother Nature did her part. Good Government doesn't just happen. Will you do your part on May 2nd? A Yes vote on May 2nd will lead to creation of a Charter Commission of 4 or 5 members from the City and the same number from the Township.

A Yes vote is for informed Government and good attitudes. A Yes vote is for a skillful disciplined approach to the community's interests by you and your friends and neighbors. Please help make the area growth orderly and more acceptable for years to come.

Ken Staley, Mayor
Charlevoix the Beautiful

Letters: Arms, athletes

Shouldn't disarm

To the Editor:

I would like to comment on the Ray E. Peitz letter in the Courier of Mach 2, 1983, entitled Disarmament. Why should the Soviets disarm when they have a tremendous lead over this country in all military categories? In 1964, we had a huge strategic weapons lead, but by 1980, the picture had changed radically. In his book entitled "The 1980's, Countdown to Armageddon", Hal Lindsay has charts complied from our Department of Defense showing tremendous leads now enjoyed by the Soviets in most nuclear missile categories and in conventional military strength. The leadership of this country must have been hypnotized or brainwashed to permit this to happen. Because U.S. administrations from Kennedy to Carter have followed the McNamara Theory - namely that the Russians really want peace and will disarm if America does so first - the very survival of the U.S. is now in mortal danger.

According to an article in Time magazine, Western technology has helped the terrifying power of the communist world. One example of this is the Kama River truck factory recently built in Russia. Two U.S. financial institutions, the Chase Manhatton Bank and the Export-Import Bank, pot up 90 percent of the 2 billion dollar loan needed to construct the plant. Those loans are guaranteed by the U.S. government. Should the Russians decide not to pay back the loans, our taxes will pay off their debts. The facility has the largest industrial computer system in the world, thanks to U.S. technology. The plant can produce between 150,000 and 200,000 vehicles annually; anything from military cars to tanks to troop carriers to rocket launchers. Some Pentagon officials urged that the U.S. refuse to help construct it, but according to a Defense Department source, the State Department overruled these objections. The benefit to detente was decided to be "well worth the risk." How dumb can we be? We feed them every year and now our technology will help them to build their gas pipeline.

I lived in Detroit during the 1930's and I was mesmerized by reading about the cruelties by a man named Stalin. When WWII started, I could not understand how we could fight to help him. I thought Stalin was no better than Hitler. In fact, I didn't think there was a more evil man on earth. The whole world knew of the 7 million peasants murdered by Stalin and also the millions more shot in his purges. We should have destroyed communism along with fascism and Nazism.

In the March 2, 1983 copy of the Detroit News, there is an article written by Frances B. Randall reviewing a book titled "The Dragon and the Bear", by Philip Short. Quoting Randall "He deals with Stalin through statistics relating how the Soviet dictator murdered 7 million during the collectivization of the farms, shot a million people in the purges, and murdered 12 million more in his slave camps until he died in 1953."

Also quoting Randall "There is a concluding chapter on Communist foreign policies in which Short summarizes, 'Ultimately, the future of the Western world depends on its will to resist Soviet expansion.' "

I think the U.S. has been the most charitable and decent nation in the history of man but I think we have let over 2 billion people down by standing by as communism overwhelmed them. The Bible teaches us that the one you fear is he that can destroy both body and soul. The Communist system has been the destroyer of man's body and soul and it behooves us to see they expand no further.

In Matthew 10:28 Jesus said "and fear not them which kill the body, but are not able to kill the soul, but rather fear him which is able to destroy both soul and body in Hell."

Thank you,
Robert L. Olson

Young wrestlers

To the Editor:

Many times you read or hear stories about young men in a community doing something terrible. This is a story with a different kind of ending.

Three young all staters, a father and a dozen volunteers gave time and energy to host a middle school wrestling tournament last Saturday. There were 91 youngsters participating from Northern Michigan.

There were fifteen weight classes. Bill Marquardt at 6'3" and 196 pounds was the heaviest while Toby Young at 63 pounds was the lightest. Toby took a first place and Bill took second.

Other young men sharing in the participation were Jason Tilsworth, Eric Meilleur, Chuck Myers, Coy Groves, Phil Young, Jim Tilton, Jason Whitley, Rick Andrews, Bobby Sharrow, Eric Voorheis, Robin Mervyn, Bob Herriman and Chad Thorp. These boys have been putting in many long hours of hard practice for this tough, intensive sport.

One hundred twenty-seven matches were wrestled during the tournament, with one boy feeling the joy of victory and the other knowing he needs more practice before participating at Grayling the next weekend.

Only a few parents and fans were in attendance to see the efforts of these young men.

The community of Charlevoix can be proud of the unselfish efforts of Dennis Whitley, Greg Whitley and Ed Linse and Alan Bergmann, along with a dozen varsity wrestlers, for helping our youth.

Norm Probert

Adds congrats

To the Editor:

I, too, want to congratulate the 1983 Charlevoix High School Basketball Team for their outstanding success this year.

Referring to Dave Schuchard's letter in last week's Courier I would like to add the names of Terry DeYong, Don Nowland, Jim Ladd, Stanley Martin, and Tom Martin to the 1960 basketball squad. That was an outstanding squad and we were all happy with them.

My son, Jim Ladd, is a math teach at Novi High School. He has been a basketball coach and is currently a girl's track coach. He gives a lot of credit to his coach, Don Carey.

Sincerely,
Harry W. Ladd

Letters: Soil conservation

To the Editor:

Michigan's economy is becoming more and more dependent on its Agricultural Production. With this added pressure being applied to an industry that is controlled by varying conditions such as weather, water availability, soil conditions, decline of prime farmlands, etc. maybe we should become concerned about declining soil productivity because of erosion, escalating pressures for farmland conversion, growing competition for available water, maintenance of water quality, wetlands protection, reclamation of distrubed lands, and the wise use of forest and wildlands. If these problems concern you then you belong in the Soil Conservation Society of America (SCSA).

No one science, profession, or interest can lay claim to exclusive expertise in land and water conservation. Today's complex land and water conservation challenges demand the multidisciplinary efforts of skilled scientists, administrators, managers, educators, and laymen. SCSA serves as a focal point for these efforts.

As a private, nonprofit scientific and educational organization for the past 38 years, SCSA identifies and analyzes land and water conservation issues, informs its members and others about these issues, uses the combined talents of members to translate research into action, developes policy guidelines that can help resolve land and water problems and provides members with an opportunity to develop leadership qualities.

SCSA invites you to lend your talents and influence to the critical task of caring for the world's land and water resources. Become a partner with us in this vital work. Together we can make a difference. Becoming a partner with SCSA in its vital work offers a number of benefits and opportunities. For additional information and membership application contact:

Engagements

Marvin T. Carter and Theresa Ann Russell

Russell-Carter

Mr. and Mrs. Robert Russell of Charlevoix and Mr. and Mrs. Marvin T. Carter, Sr., of Rose Hill, N.C., have announced the engagement of their children, Theresa Ann Russell and Marvin Thomas Carter, Jr., U.S. Coast Guard.

The bride-elect is a graduate of the Charlevoix High School and Northwestern Michigan College. She is employed at the office of Dr. Jeffrey B. Ricks.

The prospective bridegroom is a graduate of Wallace-Rose Hill High School and is now on active duty with the U.S. Coast Guard aboard the U.S. Coast Goard Cutter Mesquite stationed at Charlevoix.

The wedding will be an event of June 25 at the United Methodist Church.

Picture by Aartvark Studio.

Lisa M. Michael and Ronald J. Hillis

Michael-Hillis

The engagement has been announced of Lisa M. Michael and Ronald J. Hillis, both of Charlevoix. She is the daughter of Mr. and Mrs. John Michael, 210 Park Ave., Charlevoix, and he is the son of Mr. and Mrs. John Hillis, Madison, Wisconsin.

A fall wedding is planned.

The bride-to-be is employed at LexaLite International. The groom is a member of the U.S. Coast Guard and is currently stationed on the U.S.C.G. Cutter Mesquite. (Photo by Aartvark Studio.)

Aerobic dance classes planned

by ANNE KELLY

Beginning April 4, for 10 weeks and offered at 4:30 p.m. Monday and Wednesday in the high school cafeteria and at 7:30 p.m. Monday and Thursday in the Elementary School gym, the original Aerobic Dance class will resume sessions. This session will be called "Celebrate Life", which is just what aerobic dancers are doing when they commit themselves to an exercise program designed with looking and feeling good in mind.

Aerobic Dance instructor Peggy Potter described the class activities of each session:

1) First are pre-warm up exercises, followed by 2) flexibility sit ups, 3) warm-ups, 4) the aerobic dance phase, 5) the cool down and 6) the post cool down.

Aerobic Dance, a nationwide program developed by Jackie Sorenson is a cardiovascular program which is an enjoyable as it is beneficial. For further information contact Peggy Potter 547-6846.

Spring fashions on tap

A fashion show, "Spring At Last", will be held Thursday, March 24, at 7 p.m. at the Pery DAvis Hotel. The show, commentated by Mary Lee Huber, will feature spring apparel from many area shops. Music will be provided by Don Large. Dessert and beverage will be served. Cash bar will be available and door prizes awarded.

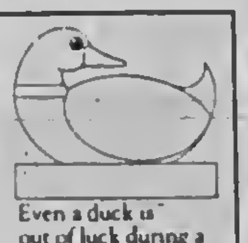
All proceeds will benefit the scholarship fund of the Northern Tri-County District of the Michigan Nurses Association.

Tickets are $6 per person or $10 a couple. Tickets may be purchased at the Photo Art Shop in Petoskey or reserved by calling 347-3186.

Family stress is topic at St. Mary's lecture

The third in a series of lectures on "Stresses in the Modern Family" will be presented by Robert Sell, education specialist at CHIP Counseling Center at 7:30 p.m. Tuesday at St. Mary's hall.

The lectures, which touch on the stresses on families in these unsettled times, are given without charge. The public is welcome.



Even a duck is out of luck during a forest fire.

Klooster named UPI All-State in Class C

At 24-0, Rayders make final eight

It's on to Cheboygan for the Charlevoix Rayders who will make their first quarterfinal appearance this week in 13 years following a rousing Regional sweep that leaves them at the lofty 24-0 mark.

Stephenson will be the opponent Wednesday evening when the Rayder cagers make a bid for a trip to Ann Arbor and a berth in the semifinals at Crisler Arena.

The already burgeoning prestige of the local team received another boost Tuesday with the news that senior forward Craig Klooster has been named to the first team of the UPI All-State basketball squad.

While Friday night's Regional championship game against Tawas Area at Gaylord was the one for which the Rayders got a trophy, Tuesday night's battle with Mason County Central was the for which they deserved it.

In what many spectators compared to "college basketball" the Rayders of Charlevoix and the Spartans of Mason County put on an offensive display few will forget. Five Charlevoix players scored in double figures. It was run and gun from the opening tipoff.

By the end of the first quarter, it was 29-26 Rayders but the tempo showed no signs of slowing as the second quarter opened and by halftime, the two teams had poured in an amazing 100 points with Charlevoix leading 54-46.

In third quarter action the Rayders were outscored 16-12 as Mason County slowly climbed back into the game. It was with about three minutes to play that the Scottville team made a final move.

At the :19 second mark, sophomore Doug Sloan went to the line with Charlevoix clinging to a 81-79 lead. Even after time outs called by the Spartans before each one, Sloan calmly converted the two free throws to put the Rayders up by four.

Another Spartan basket cut the lead to two with nine seconds left but, after another time out, Sloan found Mark Oostmeyer charging down the lane and hit him with a perfect pass which Oostmeye layed up for the 85-81 winning margin.

For Charlevoix, George Smith had 20 points to lead the team. High scorers for the game were Frank Tuka with 26 and Kevin Glamzi with 21 for the Spartans. Other Rayders scoring in double figures were Sloan with 17, Putman with 15, LaBlance with 14 and Klooster with 11. Oostmeyer had eight.

Charlevoix's most distinctive statistical advantage, as usual, was rebounding which they dominated 35-17; Klooster and Putman each had ten.

Against Tawas, there was never any question.

Charlevoix bounded to a 29-18 first quarter lead, stretched it to 55-34 by halftime, were ahead 75-53 at the three quarter mark and cruised to the 97-62 victory with the first team sitting out much of the final quarter.

This time it was six players hitting double figures in the rout; Smith was again high man with 20, Putman had 19, Klooster 16, LaBlance and Sloan 12 apiece and Oostmeyer 10.

Getting tickets for Ann Arbor is involved

The process by which tickets will be made available should the Charlevoix Rayders win the quarterfinals at Cheboygan Wednesday night was explained at length by Vane H. Smith, high school principal, at the regular meeting of the Charlevoix Board of Education Monday night.

Smith explained first, that only tokens will be sold to determine the number of tickets that will be sold. That number of tickets will then be purchased in Lansing and returned to Charlevoix where the tokens will then be exchanged for tickets to the semi-finals to be played at Crisler Arena in Ann Arbor at 8:30 p.m. Friday. Sales will be limited to a maximum of six per adult and two per student. All will be $3.00 each.

He also outlined the process for the sale of tokens should Charlevoix go to the finals to be played at 8:30 p.m. Saturday.

Should Charlevoix win the quarter finals at Cheboygan and advance to the semi-finals, tokens for season ticket holders and the families of Rayder players and cheerleaders will go on sale at the high school between 7 and 8:30 a.m. Thursday. All sales are for cash.

Tokens for the general public and for students will be sold at the high

LEGAL NOTICES 207

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by Roger P. Shepard and Priscilla M. Shepard, his wife, Mortgagors, to GENESEE MERCHANTS BANK & TRUST CO., a Michigan banking corporation, Mortgagee, dated the 27th day of September, 1973, and recorded in the Office of the Register of Deeds for the County of Genesee and State of Michigan, on the 9th day of October, 1973, in Liber 137 of Mortgages, on pages 170-173 on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum Thirty-three Thousand, One hundred and Sixteen and 06-100 ($33,116.06) Dollars.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof and default having occurred whereby the power of sale has become operative.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan to such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, the 11th day of APRIL, 1983, at 10:00 o'clock, a.m., local time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the easterly front entrance to the County Building in Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held), of the premises described to said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at 9.25 percent per annum and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum or sums which may be paid by the undersigned, necessary to protect its interest to the premises, which said premises are described as follows:

All that certain piece or parcel of land situate in the Township of Norwood, in the County of Charlevoix and State of Michigan, and described as follows, to-wit:

Lot 70 of Clipper View Subdivision, a part of Sections 11 and 12, Town 33 North, Range 9 West.

NOTICE IS FURTHER GIVEN, that the right of redemption from said sale shall expire six (6) months from the date thereof.

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain Mortgage made by KENNETH MOUSSEAU, a-k-a Kenneth L. Mousseau and wife, MARY ETTA MOUSSEAU, a-k-a Maryetta Mousseau, of Charlevoix, Michigan, Mortgagors, to MILES HOMES DIVISION OF INSILCO CORPORATION, Mortgagee, dated the 4th day of May, 1979, and recorded to the office of the Register of Deeds for the County of Charlevoix and State of Michigan on the 14th day of May, 1979 in Liber 157, Page 348, which mortgage is presently held by Miles Homes Division of Insilco Corporation, through a series of assignments thereof, and on which Mortgage there is claimed to be due, at the date of this Notice, for principal and interest, late charges, taxes and insurance, the sum of Thirty-seven Thousand One Hundred Thirteen and 01-100 Dollars ($37,113.01), and no suit or proceedings at law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof.

Now, therefore, by virtue of the power of sale contained to said Mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 14th day of April, 1983, at 10:00 o'clock in the forenoon, said Mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the main entrance to the Charlevoix County Building, Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held) of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said Mortgage, with interest thereon at the rate of nine and one-half percent (9½) per annum and all legal costs, charges and expenses, including the attorney fee allowed by law, and also any sum or sums for taxes and insurance which may be paid by the Mortgagee necessary to protect its interest in the premises.

Said mortgaged premises are situated in the Township of South Arm, County of Charlevoix and State of Michigan, to-wit:

The North 1320 feet of the Northeast fractional quarter of Section 6, Town 32 North, Range 7 West, lying Westerly of the center line of the County Road.

The redemption period shall be six (6) months from the date of sale pursuant to MSA 27A.3240.

Official Notice

PUBLIC NOTICE

The Fisheries Division of the Department of Natural Resources has conducted preliminary surveys on the Jordan River in Charlevoix County to locate a feasible site for constructing a low-head barrier dam. The purpose of the barrier is to prevent the upstream migration of spawning adult sea lamprey and will greatly reduce or eliminate the need for periodical chemical treatments.

Although a number of sites were investigated, it appears the most feasible site is located in Section 35, T32N, R7W (South Arm Township). Preliminary engineering plans and cost estimates are being developed for this site. It is contemplated that the dam will be constructed of concrete, 50 feet long and with a head of six feet (18" above the average April-May flows). The structure will be designed so that it can be drawn down, after the lamprey run, to allow for the free passage of fish during the summer months. Fish passage considerations will be incorporated in the design of the dam, if needed, to allow for the passage of steelhead. A canoe portage will be provided to accommodate canoeists during operation of the barrier.

If you have comments or questions concerning the proposed barrier dam, please contact Bruce Vollmer, Department of Natural Resources, Fisheries Division, P.O. Box 30028, Lansing, MI 48909. Phone: 517-373-6668.

Official Notice

Hayes Township
March 7, 1982

The Regular Meeting of the Hayes Township Board was called to order by Supervisor, Lee Sneathen at 8:00 P.M.

All the Board Members were present for the meeting.

Discussed road work to be done in 1983. Should do the re-gravel project at Susan Shores. Cost Estimate $8,000.00.

Discussed Cemetery fencing project. Trustee, Leah Green, to get some information on this, to discuss at Annual Meeting.

A Resolution was approved to set April 4th; 7:00 P.M. as the date and time of the Annual Meeting. The Regular Meeting will follow.

The Bills were approved for payment on a Roll Call Vote of the Board. Total Bills $2152.79.

By Motion the meeting was adjourned.

Sandra Somerville
Hayes Township Clerk

Official Notice

EVELINE TOWNSHIP

The regular meeting of the Eveline Township Board was called to order by Supervisor, David Willson at 8:00 p.m. on March 8, 1983 at the township hall. All board members were present.

The minutes of the previous meeting were read and approved as read.

The Federal Revenue Sharing Proposed Use Hearing was held. Motion by Eric Beishlag to use Federal Revenue Sharing for wages again this year; supported by Linda Hilderbrant; motion carried unanimously. (1983-84 Fiscal Year)

John Smith made a motion to turn down an application for a Farmland Agreement (P.A. 116) from Stella Hott as it is below the minimum acreage and is not a specialty farm; supported by Wayne Saunders; motion carried.

Motion by John Smith to table the Boyne City Fire and Ambulance Contract until the next meeting to avoid paying twice in one fiscal year; supported by Wayne Saunders; motion carried.

Linda Hilderbrant made a motion to table the East Jordan Library Contract until the next meeting to avoid paying twice in one fiscal year; supported by Wayne Saunders; motion carried.

A treasurer's report was received. Motion by Wayne Saunders to pay the bills on hand with check #888 through check #908 amounting to $5,486.14; supported by Eric Beishlag; motion carried unanimously.

The budget for 1983-84 was prepared.

Motion by John Smith to adjourn; supported by Wayne Saunders; motion carried. Adjournment at 10:40 P.M.

Eric Beishlag, Clerk

Members of the Edward Olach family gathered recently at the family home for a four-generation picture.

They are Edward Olach, 95, holding his great-great-grandson, Jeremy, who was two months old at the time, Clement Olach, the baby's grandfather and Jeremy's father, Frank Olach, all of Charlevoix.

Jim Shepard steers Char-Em ISD ship

by ANNE KELLY

The Char-Em Intermediate School District (ISD) is a multi-discipline educational service center for our area. As such, the ISD serves a two-fold function in the community: administering to the special needs of children and aiding in general educational programs as well.

Behind the main administrative desk at Char-Em is Jim Shepard who has served as ISD superintendent since 1972.

"Education is going through a most dramatic change right now and we're in the middle of it," explained Shepard. "Our function is to help students, teachers and administrators adapt to this change."

Shepard feels that the change is a technological one in which computers, visual techniques (i.e. educational T.V.) and the Master Teacher concept are evolving as a result of "the economics of the times and the need to know."

"We need to continually improve and upgrade our curriculum," Shepard continued, "but the funds aren't always there." Shepard foresees the movement of teachers and-or students and the utilization of educational T.V. as an alternative to curriculum reduction, especially in small schools.

Shepard, along with his position as Intermediate superintendent, is also the superintendent of the Beaver Island and Cross Village Schools.

A native of East Jordan, Shepard received his initial degree in Agricultural Education from Michigan State University. Subsequently he earned an M.A. in Vocational Administration and has completed advanced work in the same subject area from the University of Michigan.

Shepard's teaching experience includes a year in Alanson-Littlefield where Shepard taught a variety of subjects from agricultural ed. to general math to physics. Shepard then spent seven years with East Jordan Schools. From 1962-69, Shepard taught agricultural education, helped develop the Co-operative Education Program and the Adult Education Program. An extension of the Adult Education Program, later certified by the Bureau of Apprentice Training was the Tool-Die Apprentice Training Program. Shepard saw 100 young men trained and turned out into active roles in the machine trades area while in East Jordan.

In 1969, Shepard joined the staff at the ISD as intermediate Consultant for Vocational-Technical Education. In 1972 he succeeded Charles Robinson as superintendent, a position he has held ever since. The expansion of his horizons as ISD chief admittedly gave Shepard "a deeper view" of education and of special services and their role in the total educational picture. A grasp of finance and the encouragement of his colleagues made the transition to administration a successful and a rewarding one.

James Shepard

"It's the people that make the organization operate and make it successful or not successful," Shepard remarked in reference to his staff. The ISD staff includes, in Special Education, social workers, psychologists, speech and language therapists, teacher consultants, pre-school consultants, a home-bound-hospitalized consultant, occupational therapists, special needs consultants, an In-Home program, a Developmental Needs High Scope Program, a Hearing Impaired Program and a Highly Individualized Program (HIP). In General Education, the ISD staffs an instructional materials center, an Alternative Education Program, administrative assistants, a Gifted-Talented Program and a vocational education program.

"We encourage the hiring of top-notch people and then we work at keeping them. It's our role to continually encourage them to do their best and help the community be aware of program needs and the needs of kids."

From farming to education in the administration of special education, Jim Shepard's career has been a progression which he has found rewarding and challanging.

Ticket info

Continued from page 6

school from 8:30 until 9:30 a.m. Thursday. Again, all sales are cash sales.

The number of tokens sold will determine the number of tickets that will be purchased at the office of the Michigan High School Athletic Association in Lansing and returned to Charlevoix where token holders will exchange the tokens for tickets.

Season ticket holders and the families of players and cheerleaders will exchange their tokens purchased earlier for tickets between 2 and 3:30 p.m. Thursday.

The general public and students will exchange their tokens for tickets between 4 and 5:30 p.m. Thursday.

At the same time, tokens will be sold for the finals at 8:30 p.m. Saturday. These will be exchanged for tickets at a designated site at Crisler Arena following the semi-final game. The tokens will be good for tickets to the finals only if Charlevoix wins the semi finals. In the event Charlevoix loses the semifinals, tokens may be turned in at the high school here the week of April 4 following spring break for a refund.

Election date set

By FRAN MARTIN

The Charlevoix Board of Education, at its regular meeting Monday, set June 13 as the date of the annual school election.

At that time, voters in the school district will elect one trustee to the board of education. Other issues to be placed on the ballot will be determined later. The term of Robert Drenth will expire June 30.

A decision relating to what to do about school should the Charlevoix Rayders win the quarterfinals Wednesday night and advance to the semi-finals was reached after a lengthy discussion. Since the closing of school is a negotiable issue, the Charlevoix Education Association will be asked to take a vote of its membership Tuesday on whether to close school Friday, should the team win, and make up the day on June 10 or to keep school in session. A simple majority vote will determine the decision.

Ralph Raymer advised the board that the Carey Boot Shop had donated 65 pairs of children's shoes to the K-5 school for distribution among children needing shoes. The secretary was asked to acknowledge the donation and to thank Mr. Carey for his generous act.

In other action, the board approved a request for an overnight trip for the Charlevoix Symphonic Band which will compete in the State School Band and Orchestra Festival at Lansing April 30. A second request for an overnight for the academically talented students in the elementary school so they may participate in a Problem-Solving Bowl at Ann Arbor was made by their teacher, Carol Elliott. The request was granted. The students qualified for state competition by participating in the bowl event in recent weeks.

Basketball tournament tickets distribution also came in for discussion. See separate story.

Walter Drenth, girls volleyball coach, reported on the results of the volleyball season.

The next meeting of the board is scheduled for April 4.

Official Notice

NOTICE TO BIDDERS

The Charlevoix County Road Commission will receive sealed proposals at their offices at 1061 East Division Street, Boyne City, Michigan 49712, until 10:00 A.M. on Monday, April 11, 1983 for the following:

SELL: #29-1971 GMC, 30,000 G.V.W.
#143 & 143A - International TD-14 Crawler Dozer
#159 - G3400 Hercules Gas Engine complete
#144 - 1967 LaTourneau C 222A Elevator Scraper Loader and all parts
#80 & 171 - 1962 Austin Western Power Grader and 1968 Roanoke Brush Cutter, attached
#80 - 1962 Wing Plow
#148 - 1968 Jersey Gravel Spreader Measuring bowl
1976 Val 6 Sign Face Applicator

Further information and specifications may be obtained at the Commission offices.

All bids must be on forms supplied by the Road Commission.

All Proposals must be in sealed envelopes, plainly marked as to the item bid upon and the name of the bidder.

The Charlevoix County Road Commission reserves the right to waive the irregularity of any bid, or to reject any or all bids or to split the award by items, or to make the award in whole or in part, as may be deemed to be in its own interest.

Harbour Club is sold

In one of the largest single real estate transactions in Charlevoix in recent years, the Harbour Club condominium complex on Round Lake was bought last week by John and Carol Hisey.

According to Ski & Shore realtor Rik Lobenherz, the selling price was "well over $1 million". Upon closing the transaction Friday, a check for over $55,000 in back taxes was delivered to the Charlevoix County Clerk.

A former boathouse and historic Charlevoix landmark extending on pilings over Round Lake from the southern shore off Belvedere Ave., the Harbour Club was converted to eight condominium units about three years ago. Only two of the units had been finished, however, by former owner Frank Vaydick.

Lobenherz said that Hisey plans to finish the remaining six units immediately with hopes of having them ready for sale and occupancy by May 18.

Hisey, a regular summer resident in Charlevoix, is a licensed builder and constructed the Lakehouse Condominium on Pine River Lane.

A site plan for eight additional units on the shoreline property was previously approved by City Council. However, Hisey has indicated that no specific plans for additonal units have been finalized and that he may present a different site plan for such expansion.

CLOSURE OF STURGEON FISHING IN THE GREAT LAKES AND CONNECTING WATERS DURING SPAWNING SEASON

The Natural Resources Commission, at its December 3, 1982, meeting, under the authority of Act 230, P.A. 1925, as amended, closed sturgeon fishing in the Great Lakes and the connecting waters during the months of May and June for the period of five years, beginning April 1, 1983, through March 31, 1988.

Official Notice

NOTICE OF THE LAST DAY FOR RECEIVING REGISTRATIONS FOR THE SPECIAL ELECTION TO BE HELD IN THE CITY OF CHARLEVOIX ON MONDAY, MAY 2, 1983

PLEASE TAKE NOTICE that any qualified elector of the City of Charlevoix, County of Charlevoix who is not already registered may register for the special City election to be held on the 2nd day of May, 1983 in said City.

The City Clerk will be at her office in the City Hall on each working day during regular working hours until and including Monday, April 4, 1983, for the purpose of receiving registrations of qualified electors of the City of Charlevoix not already registered.

On April 4, 1983, which is the last day for receiving registrations for said City elections to be held on Monday, May 2, 1983, the City Clerk will be at her office between the hours of 8:00 o'clock a.m. and 8:00 o'clock p.m., Eastern Daylight Time, for the purpose of receiving registrations of qualified electors.

The purpose of said City election is to vote on the following propositions:

FOR THE PROPOSED CONSOLIDATION OF THE CITY OF CHARLEVOIX AND CHARLEVOIX TOWNSHIP AS A NEW HOME RULE CITY, CHARLEVOIX COUNTY, MICHIGAN

For consolidation of the City of Charlevoix and Charlevoix Township as a new Home Rule City.
Yes
No

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Nine Hundred Fifty Thousand Dollars ($1,950,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?
Yes
No

THE LAST DAY FOR RECEIVING REGISTRATIONS FOR SAID CITY ELECTION TO BE HELD MONDAY, MAY 2, 1983, WILL BE MONDAY, APRIL 4, 1983.

Deanne Balch,
City Clerk

COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

ELECTION NOTICE

TO THE ELECTORS OF THE COUNTY OF CHARLEVOIX, STATE OF MICHIGAN

NOTICE IS HEREBY GIVEN that at a special election to be held in the regular voting place in each election precinct in each City and Township in the County of Charlevoix, State of Michigan, on Thursday, the 7th day of April 1983, between the hours of 7:00 o'clock a.m. and 8:00 p.m., Eastern Standard Time, the following proposition will be submitted to the electors of said County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

All electors of the County of Charlevoix are entitled to vote on the above propositions.

All electors, however, must be registered with the Clerk of the City or Township in which they reside.

This proposition is being submitted in accordance with the following resolution adopted by the Board of Commissioners of said County on the 9th day of February 1983.

STATE OF MICHIGAN
COUNTY OF CHARLEVOIX

WHEREAS, in the judgment of the Board of Commissioners of Charlevoix County, Michigan (the "County"), it is in the public interest to further aeronautical progress by providing for the protection and promotion of safety in aeronautics; and

WHEREAS, the County has an opportunity to advance the aforementioned public interest by acquiring and constructing a Federal Aviation Administration Flight Service Station (the "Project"), which Project constitutes "aeronautical facilities" within the meaning of Act 327, Public Acts of Michigan, 1945, as amended ("Act 327") and which the County is authorized to acquire, establish, construct, improve, maintain, equip and operate pursuant to said Act 327, and

WHEREAS, pursuant to Act 118, Public Acts of Michigan, 1923, as amended ("Act 118"), the County is empowered to authorize and direct the borrowing of money and to issue and sell bonds in connection therewith for the purpose of defraying the cost and expense of permanent improvements such as the Project; and

WHEREAS, the cost of the Project, including financing and contingent costs incident thereto, is estimated not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), which estimate of cost is hereby declared to be the estimated cost of the Project,

WHEREAS, it will be necessary to borrow the sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000) and issue bonds of the County therefor, for the purpose of paying the cost of the Project;

WHEREAS, the Board of Commissioners does hereby determine and declare that the estimated period of usefulness of the Project is not less than 30 years.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Pursuant to Section 2 of Act 118, the County Board of Commissioners hereby directs the County Clerk to call a special election to be held on Thursday, April 7, 1983, at which special election the following proposition shall be submitted to the electors of the County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

2. Shall proposition shall be stated on a separate ballot to be prepared and distributed by the County Clerk in the manner required by law, which ballot shall be in substantially the following form:

OFFICIAL BALLOT
COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

INSTRUCTIONS TO VOTER. Mark a cross (x) to the right of the word "YES" or "NO".

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

YES / /
NO / /

3. All public officials of the County of Charlevoix, State of Michigan, and all municipal units thereof, within such time as shall be required by law, be and they are directed to do and perform all things and acts which shall be necessary to be done or performed in order to submit the foregoing proposition to the electors of said County at the special election to be held therein on Thursday, April 7, 1983.

4. The foregoing resolution shall not become effective or binding on said County until and unless the proposition herein directed to be submitted shall be approved by the registered electors of said County at said special election to be held therein on Thursday, April 7, 1983.

A majority of the members elect of the Board of Commissioners having voted in favor of the adoption of the foregoing resolution, the Chairman thereupon declares that said resolution was duly adopted.

Jane E. Brannon
County Clerk

TAKE NOTICE that the County Board of Commissioners has estimated the expense of the aforesaid project to be Seven Hundred Fifty Thousand Dollars ($750,000), which it is necessary to raise by borrowing and issuing bonds of the County. Said bonds will be payable in annual installments which may not exceed thirty (30) in number and bear interest at a rate or rates to be determined at public sale. The maximum rate of interest, however, may not exceed the maximum rate per annum permitted by law on the principal amount of the bonds from time to time remaining unpaid.

THE PRINCIPAL AND INTEREST OF SAID BONDS SHALL BE PAYABLE FROM SUCH FUNDS OF THE COUNTY LAWFULLY AVAILABLE FOR SUCH PURPOSE AND THE COUNTY IS REQUIRED BY LAW TO LEVY SUFFICIENT AD VALOREM TAXES, IF NECESSARY, FOR THE PAYMENT THEREOF UPON ALL TAXABLE PROPERTY IN THE COUNTY, WITHOUT LIMITATION AS TO RATE OR AMOUNT.

THIS NOTICE IS GIVEN pursuant to the statutes of the State of Michigan in such case made and provided and pursuant to resolution of the Board of Commissioners herein set forth.

COLORING WINNERS in a contest sponsored recently by the Charlevoix Fire Department included Stacey Resch, left, and Becky Bellairs, right, shown holding their winning posters with Fire Chief John Martin. Absent for the photo was Kathryn Campbell. The Charlevoix Elementary School third graders colored posters for Fire Prevention Week to enter in the contest.

Local Girl Scouts adopt a distant friend

Junior Girl Scout 264 whose leader is Carolyn Olinger has announced the adoption of a child through the "Save the Children" program.

"We decided we wanted to do something worthwhile not only to expand our interests but our hearts" Mrs. Olinger said of the project undertaken by the troop.

Their adoptee's name is LaVerne Francisco who is 14 years old and a ninth grade student at Santa Rosa Boarding and Day School at Sells, Arizona. LaVerne is a Papago Indian and lives in the village of Kaka with her parents Emilio and Irene Francisco. Her father is employed though she did not mention what he does. They live in a papago adobe house. Both the Papago and English languages are spoken in the home.

"We have received letters from LaVerne and she is pleased to have so many sisters. Her interests include sports and music," Mrs. Olinger said.

She went on to explain that through the Save the Children program, communities are developing projects that will provide for a better environment in which children will grow up. Emphases are placed on economic, social and cultural aspects.

Through the Save the Children program, the members of Troop 264 have learned the responsibility of raising money to help LaVerne and to appreciate the love they receive in return for caring for the welfare of another person.

The troop's chief fundraiser is through the collection of Glen's green slips. Those who do not use their green slips are asked to contact Mrs. Olinger at 547-5577 or leave them at 501 E. Dixon Ave.

"Our dream is to bring LaVerne to Charlevoix for a visit," Mrs. Olinger said in conclusion.

LaVerne Francisco

Obituaries

JOHN M. GAVLAS

Funeral services for John M. Gavlas, 79, who died March 14 at Grandvue Medical Care Facility, were held Thursday at Mother of Our Saviour Church in Detroit. The Rev. Robert Humlix officiated. Interment was in Holy Sepulchre Cemetery in Southfield.

Born in Arcadia, Pa., Nov. 28, 1903, Mr. Gavlas came to Detroit in 1921. He returned to Arcadia to marry the former Theresa Humlix on Jan. 6, 1930. They returned to Detroit to make their home. He was a Hi-Lo operator at the Ford Dearborn Steel plant from 1928 until he retired in 1965. Mrs. Gavlas preceded him in death Dec. 15, 1976. He came to Charlevoix to live with his son-in-law and daughter, Mr. and Mrs. Louis J. Hollow in 1977. He had been a member of St. Suzanne's Church in Detroit and St. Mary's Church in Charlevoix. He was also a member of Ford Local 600 U.A.W.-C.I.O. and the Gednota Lodge of Pennsylvania.

Surviving are his daughter, Mrs. Louis J. (Barbara) Hollow; five grandchildren; three sister, Theresa Gavlas of Arcadia, Mrs. Anna Greenwood of Detroit and Mrs. James (Emily) Matten of Avis, Pa. and a brother, Steve of Arcadia, Pa.

The Rosary was recited at the Winchester Funeral Home Wednesday evening.

The family suggests memorials to the Charlevoix Area Hospital.

HELEN M. BRISTOL

Funeral services for Mrs. Helen M. Bristol, 66, who died March 10 at Halifax Medical Center in Daytona Beach, Fla., were held Saturday at the Winchester Funeral Home. The Rev. James Raum of the Church of the Nazarene officiated. Interment was in Brookside Cemetery.

Born at Side Lake, Minn., June 22, 1918, the former Helen Mary Oldham lived there until her marriage to Lynden L. Bristol at Hibbing, Minn., on Nov. 8, 1949. They came to Charlevoix to make their home in the early 1950s.

Surviving is her husband.

Memorials to the American Cancer Society are suggested.

H. JACK GEIKEN

Funeral services for H. Jack Geiken, 57, who died March 14 at the V.A. Facility at Grand Rapids, were held Saturday at the Winchester Funeral Home. The Rev. Roger Ames of Christ Episcopal Church officiated. Interment was in Brookside Cemetery.

Born in Charlevoix July 29, 1925, Mr. Geiken was raised in Dayton, Ohio. He was graduated from Middlebury (Vt.) College and from Harvard University Graduate School. He went to Palo Alto, Calif., in 1957 and was the Administrative Director of the General Clinical Research Center at Stanford Medical Center from 1962 until 1979.

He is survived by two sons, Stacy H. of Palo Alto, Calif., and Brooks W. of Oakland, Calif; a daughter, Paris W. of Santa Fe., N.M. and his mother, Mrs. Harold (Ruth) Geiken of Charlevoix.

The family suggests memorials to the Alzheimer's Support Group at the Friendship Center in Petoskey.

For Saints and Sinners

by Sister Ellen Mary Lopez
St. Mary's Catholic Church

Lent is a time for penance, as well as a time for listening, for spiritual renewal, for reflection on the deeper meaning of life. Lent is a period of conversion of the mind, heart and soul to God. It is a time of intense preparation for the Easter mystery of our dying and rising with Christ.

As we approach Holy Week our thoughts turn to the most sacred days of the year.

As a christian community, as individual christians how have we taken the opportunity of the season to deepen our spiritual lives?

We live in a beautiful city and we spend much time and energy to keep it that way externally. But it is the generous people living out christian lives that add the beautiful spiritual dimension to Charlevoix. Each individual has the potential to enrich Charlevoix with the Lord's goodness by reaching out through friendships, gracious hospitality and christian fellowship.

Charlevoix is rich with talented and gifted people who add beauty to our city as they use their giftd in the service of others. In this way a newness of life is emerging in the community.

However, we as a christian community are still on the way. There are still many lonely, alienated and hurting people around us. They need to know that someone cares. There are many wounds that need healing and we as christians have the power to heal by touching their lives with kindness and compassion. We might reflect on our Lord's familiar words, "As often as you did it for one of my least brothers, you did it for me." Matt. 25:40.

As we continue our journey through Lent we meet Christ in disguise in the next person we meet.

LIBERTY
DIME

WE TURN ON FOR YOU!

When other sources are drying up you'll find us still going strong. As a major financial institution in this community you can count on us when it comes to money management.

Traditionally we offer services that many banks ignoré, services like:

- **High interest savings**
- **Investment counseling**
- **Low interest loans**

In a tight economy it just makes sense to bank where your interests come first.

Monday, March 14, 6:45 p.m.: Chimney fire at the Tim Rice residence, Bayshore.

Saturday, March 19, 1:45 a.m.: False alarm on reported car fire at Duffy's of Charlevoix.

Saturday, March 19, 10:19 a.m.: Washdown following car accident on U.S. 31 North.

Weather statistics

The following weather statistics were compiled for the National Weather Service by Lloyd Kuebler at the Charlevoix Waste Water Treatment plant:

Date	High	Low	Precip.
March 14	36	24	0
March 15	37	21	Tr.
March 16	38	25	0
March 17	39	30	0
March 18	39	25	0
March 19	30	17	2.5" snow
March 20	27	11	.5" snow

A NEW TEAM has been formed with the recent merger of two Charlevoix-based real estate firms, Charlevoix Properties and The Real Estate Place. Shown above, seated from left to right, are associate Don Snizik, support staff members Lynda Bolduc and Jackie Carey, and president-general manager Gene Steele; standing from left are associates Bill Dietrich, Jack Beatty, C.T. Martin, Brian Seymour, Steve Andreae and Joe Voglebeim. Corporate officers include Steele, Snizik, Dietrich, Martin and Art Bond who is not shown.

Charlevoix Properties-The Real Estate Place, located at 101 Park, is a member of the Antrim Charlevoix Board of Realtors, the Michigan Association of Realtors, the National Association of Realtors and the Antrim Charlevoix Emmet Multiple Listing Service. It is also now a member of RELO, a national relocation service involving brokers from around the country.

A full service agency, the new firm offers home owners warranty, investment counseling, development services and appraisals in addition to traditional brokerage services. It is also a dealer for National Homes and Wausau Homes.

Said Steele, "By combining the varied talents of the two firms, we should be able to provide our customers with better and more diversified services."

Char-Em Shootout schedule announced

The Char-Em Shootout II featuring the teams of Charlevoix's B League and Petoskey Senior (30 and over) League opened Monday at the Charlevoix High School gym with 13 teams involved Dwight Boss, Charlevoix Recreation director, has announced.

After three games on Monday, Carlson Plumbing of Charlevoix will meet Hooker's Cleaners of Petoskey at 6:30 p.m. Tuesday followed by Nawrot-Pendleton-WMBN vs Medusa at 7:30 p.m. and Staley Hardware vs the winner of the NORMAC-First State Bank game at 8:30 p.m.

Action will be suspended Wednesday because of the Class C quarter-final basketball game involving the Charlevoix Rayders with games to be continued Thursday with Kit Carson-Charlevoix Garbage entering the tournament against the winner of the Wojan Aluminum-Holiday Inn game at 6:30 p.m.; winners of the Air Force-Holiday Inn and Carlson-Hooker game meeting at 7:30 p.m. and PBR Farms of Petoskey seeing action for the first time against the winner of the Pendleton-WMBN Medusa game at 6:30 p.m. Thursday.

The semi-finals will be played at 6:30 and 7:30 Monday with the finals scheduled for 6:30 p.m. Tuesday.

Bonding package for flight station is now up to voters

by DAVE KNIGHT

Charlevoix County voters will be asked Thursday, April 7 to help sweeten the bid submitted by the county to the Federal Aviation Administration (FAA) for a sophisticated flight service station that will provide weather information and coordinate flight plans for the entire Lower Peninsula of Michigan plus three counties in the eastern Upper Peninsula.

The bonding proposal on next week's ballot seeks voter approval of the issuance of $750,000 in genral obligation bonds "for the purpose of paying the cost of acquiring, constructing, equipping and furnishing" the flight station.

Competition among several Michigan communities began last year when the FAA announced that the operations of eight existing flight service stations in the state would be consolidated into one new facility. The proposed consolidation is an economic measure designed to upgrade service by utilizing a more computerized, automated system.

It is believed that about 13 bids in addition to Charlevoix County's have been received by the FAA. Details of the Charlevoix County bid have not been revealed though it is believed to be similar to that submitted by Hulman Regional Airport in Terre Haute, Indiana in which the finished facility was offered to the FAA for $1 a year on a 20-year lease.

According to Charlevoix County planner Larry Sullivan, coordinator of the county's bid to attract the station, a sliding scale penalty has been included in the bid that will require the FAA to pay a substantial penalty should it not remain in the facility for the 20-year period.

The movement to bid for the station was begun last year by a local citizen ad hoc committee organized by Charlevoix engineer Alvin Ranger. It was decided that the county, under the auspice of its Economic Development Corporation (EDC), be the bidding agency.

The bid submitted to the FAA proposes that the flight station be located on a triangular plot of land on U.S. 31 South between the Charlevoix Municipal Airport runway and the Harbor Industries plant. In a 61-page booklet of specifications supplied to bidders, the FAA describes everything required from the square footage of the building (10,000 sq. ft.) to how often ash trays are to be emptied (daily).

Sullivan estimates construction of the building to cost about $700,000. Should county voters approve the borrowing of $750,000 to build the flight station and should Charlevoix County be subsequently awarded the bid, Sullivan foresees a probable tax increase of one-half mil over five to six years as the cost to county taxpayers.

"I own a moderately priced home in the City of Charlevoix. One-half of a mil over five or six years would probably cost me about $25 to $30 total," said Sullivan who believes

Panel to discuss local problem of sexual assault

The issue of sexual assault will be the topic of a special panel discussion at 7 p.m. Thursday, April 7 at the Charlevoix County Building's main court room.

The discussion, sponsored by the Women's Resource Center of Northern Michigan, Inc., is the result of a growing concern in the county over recent increases in rape and sexual assault cases. Four such cases have been prosecuted in Charlevoix County alone over the past year according to Cheryl Wilde, WRC rape and sexual assault counselor.

In the most recent case, Cecil R. Hawkins, 29, of Charlevoix was sentenced March 16 to one year in prison and five years probation for the rape of a Charlevoix woman. The incident took place November 21, 1982 when Hawkins threatened the victim with a knife in her home. He was later apprehended by Charlevoix city police through a phone tap when he called the victim's home.

Joining Wilde in the April 7 panel discussion will be Charlevoix Police Chief Jack Mol, Charlevoix County Sheriff George Lasater, Rev. David Yingling, president of the Charlevoix Ministerial Association, Dr. William Mosher, OB-GYN specialist and Georgia Jones, WRC Sexual Assault Advocate and previous victim.

The public is encouraged to attend.

The Medusa Challenger eases into its slip at the Medusa plant on South Point Friday following its first visit to Charlevoix of the 1983 shipping season.

Shipping season open

by FRAN MARTIN

An early opening of navigation is the result of the unseasonable weather enjoyed in northern Michigan during the winter of 1982-83.

The first boat to enter the harbor was the motorship South Shore of the Beaver Island Navigation Co. which was berthed at St. James harbor during the winter.

Russell Green, who brought the vessel to the Charlevoix harbor Wednesday, said it would undergo annual inspection while in port.

On Thursday, Green skippered the motorship Beaver Islander, which had been berthed here for the winter, to Beaver Island on its first trip of the season, three weeks earlier than in 1982. Included in the cargo were groceries for the island stores and building supplies. The motorship will remain at the island, unless an emergency arises, until April 4 when it will begin its spring schedule, operating three days a week out of the port at St. James. The Beaver Islander made its last trip in 1982 on Dec. 22.

On Friday, the Medusa Challenger, which had been tied up at Manitowoc, Wis., for the winter, arrived at its South Point slip to take on approximately 95,000 tons of cement for the company's terminal at Cleveland. The ship had delivered a cargo of cement, which had been aboard the ship during the winter, to the Chicago terminal before making its first trip to Charlevoix from its winter quarters.

It marked the first time the Challenger had opened its season without assistance from the U.S. Coast Guard to reach its slip at South Point.

The Medusa Cement Company's South Point plant is now in full operation according to plant superintendent, Tom Thimm.

The plant began its 1983 operation two weeks ago with a brief shutdown at midweek last week for maintenance on equipment.

The return to full operation resulted in the recall of its 112 hourly workers and 24 salaried personnel, Thimm said.

To begin search for cable break

by FRAN MARTIN

Wolverine Power Supply Cooperative, Inc. personnel have begun the task of locating the break in the 23.9 mile cable that lies on the bottom of Lake Michigan between Cross Village and Beaver Island and that supplies the island with power.

The break occurred late on the afternoon of December 13, 1982, throwing Beaver Island into darkness until emergency generators on the island could be placed on line. The power outage lasted about seven hours.

At the time, the power company devoted its efforts to locating a generator to supplement the existing equipment to assure the island an adequate power supply for the winter months. A generator from Pekin, Illinois was eventually assembled and shipped to the island and placed in operation December 24.

Richard Chappel, company engineer, said at the time that obtaining the generator was more important than finding the break in the cable because, in all likelihood, the weather would not have permitted repairs.

Unseasonably mild winter weather has allowed the search for the break in the cable to begin earlier than expected, however. Chappel said Monday a cable radar unit and other equipment developed by the company since the cable was laid in 1972 would be utilized in locating the point wher it is damaged before the last phase of the project, the actual repair of the damage, can be accomplished.

"At the present time we think it (the break) is approximately 7.89 miles off the mainland about one half mile south and west of Ile Aux Galets (Skillagalee) and east of the Grays Reef Passage shipping lane," Chappel said.

The cable lies on the lake bottom at depths of from 30 to 150 feet.

"Bringing the cable up and repairing it is a costly operation which necessitates bringing in a diver, his equipment and personnel plus a tug. We want to pinpoint the break closer than this before bringing in the diver. Added to that, you can't depend on Lake Michigan this time of year. We have to know more about the location and weather conditions have to be better before we do anything," Chappel explained.

a

MAR

For Saints and Sinners

by Rev. Larry Grooters
Community Reformed Church

Our children at dinner the other night were remembering a fort they had built in Airzona. That triggered some memories of my own of a tree house in a cluster of trees in the middle of a swamp at a lake we had vacationed at as a family. Five of us grade-schoolers formed a club and we had a very official meeting where we made rules. I can't recall them all, but one was that there were to be no visitors unless a club member was present. We set up dues, and penalties for not paying the dues on time. I recall that every Tuesday there was to be an official officers' meeting at the club house. We had a good time one whole afternoon setting up the rules.

Then we proceeded to not keep any of them. There never was an officers' meeting after that first time. Dues were never collected. But no matter, they were just "our" rules anyway. We made them up so we figured we could abandon them too - for no better reason than we didn't really "feel" like keeping them.

We all sometimes tend to behave the same way. We live by our own rules, make up the guidelines for our lives as we go along, establish our own values and priorities and morality. And many times we build on premises that have as little chance of succeeding as a neighborhood club of six or eight year olds.

The Bible says there is one rock on which to build our lives. Everything else is sand.

To discover that rock for yourself is a great experience.

Obituaries

HOWARD O. EVANS

Funeral services for Howard O. Evans, 65, of East Jordan, will be held Tuesday at 3:30 p.m. at the East Jordan Missionary Church. Rev. Dale Turner will officiate and burial will be in Cedar Creek Cemetery, Hope Township.

Mr. Evans died in a house fire March 26 in Central Lake.

He was born April 30, 1917 in East Jordan, the son of Robert and Antonia (Hillmau) Evans. He had lived in the East Jordan area since 1974 and had served in the U.S. Navy during World War II and the U.S. Army during the Korean Conflict.

Mr. Evans is survived by two sons, Dale of Muskegon and David of Grand Rapids; two daughters, Mrs. Thomas (Wanda) Muriset of Montague and Tina Evans of Muskegon; one brother, Kurt Evans of East Jordan; one sister, Mrs. Dean (Evelyn) Fiedler of Traverse City; 10 grandchildren; five great-grandchildren; many nieces and nephews.

Arrangements were handled by the Central Lake Chapel of the Mortensen Funeral Home.

JAMES H. FLOYD

Funeral services for James H. Floyd, 91, who died Friday at Grandvue Medical Care Facility, were held Monday at Holy Cross Church at St. James, Beaver Island. The Rev. Gabriel Fox officiated. Interment was in Holy Cross Cemetery.

Born on Beaver Island Feb. 22, 1892, Mr. Floyd had been a lumberjack on Beaver Island and a commercial fisherman on the Great Lakes and in Alaska. He had lived in Charlevoix for the past 20 years. He was a member of Holy Cross Church.

Surviving is a sister, Mrs. Catherine (Kitty) McCauley of Orlando, Fla.

The Winchester Funeral Home was in charge of arrangements.

Kite fly-in held

More than 40 youngsters participated in the first Kite Fly-In held Saturday at the Ferry Ave. beach under the sponsorship of the Junior Youth Group of Christ Episcopal Church.

The majority of those entered had joined a kite-building session at the Charlevoix Public Library a week earlier in preparation for the fly-in on Saturday.

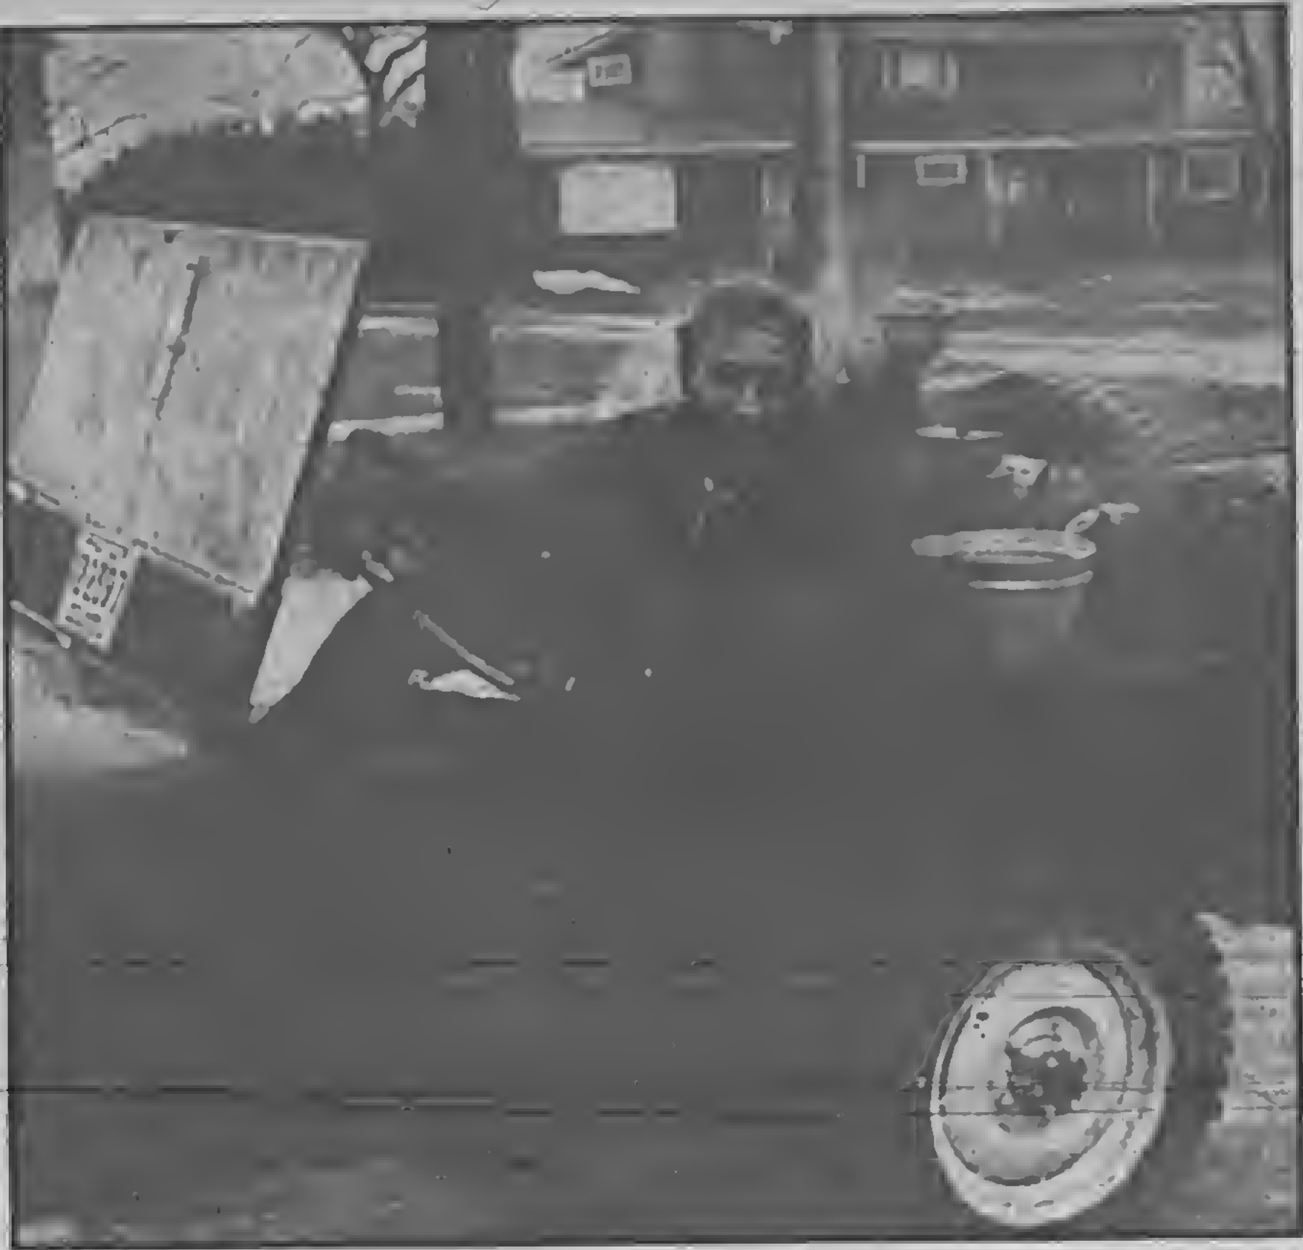
Saturday turned out to be a great day for kite flying. "The fly-in resulted in a fun day with brothers helping little brothers, dads giving their sons a hand and spectators joining in to help others who needed assistance," Jim Tank, adult advisor to the youth group that sponsored the event said. The youth group was composed of nine boys for the church who planned and executed the entire event with a limited amount of adult supervision.

In the under 12 years age group, Wally Knjawaki won the prize, a camping knife, for the highest flying kite; Greg Holmen, a $10 gift certificate at Literary News Center for the most creative kite; Herbie Pines, the Charlie Brown award, a Charlevoix sweatshirt.

Boby Sharrow won the prize for the kite which flew the highest in the over 12 year age group. His prize was a fishing pole. James White, the most creative kite, a free pizza and Mark Patrie, the Charlie Brown award, a sun visor.

Prizes were donated by the Bridge Street Ace Hardware, fishing pole; Clothing Company, Charlevoix sweatshirt; Staley Hardware, camping knife; Literary News Center, $10 gift certificate; Village Inn Pizza, a pizza and Tom's Mom's Cookies, cookies.

A concession stand netted profits for the project. Proceeds will go the Heifer Project International, a non-profit organization which provides food-producing animals and training in their care to needy families in the United States as well as overseas.



Charlevoix Yesterday

Charlevoix Kiwanians had the sap buckets out early this year when the winter started to fade in early March. In 1966, when this photo was taken, buckets were being emptied in early March also. Don Anders is shown at the wheel of the jeep with an air compressor in the rear to power the drill used to tap the maple trees.

Karl's Pastry Shop combines old favorites with new ideas

"My philosophy is that if you're going to consume all those calories, they had better taste good."

It is with that attitude that Karl Gilewicz goes to work at 9 p.m. six nights a week and bakes rolls, breads, doughnuts and cookies until 6 a.m. so they're fresh when the first customers show up a half hour later.

Such is the dedicated life of a pastry chef, the life Gilewicz has chosen since purchasing the familiar bakery on the corner of Bridge and Antrim St. operated for many years by Jim Boggs.

Renamed Karl's Pastry Shop, the business has a completely new facade, interior remodeling job and even new waitress uniforms to go along with the new name.

Gilewicz, 26, is a native Detroiter who migrated north about ten years ago. He has had extensive local experience in food preparation having worked at Leutheusers and the Chicago Club among other area restaurants.

Like many chefs, his first exposure to the business came at a young age as a dishwasher. His interest was stimulated enough so that by the time he was 21, he decided to attend a cooking program at Northwest Michigan College in Traverse City.

That led to an application to the prestigious Culinary Arts program of Livonia's Schoolcraft College, regarded as one of the top three cooking schools in the country. After being accepted, he completed the two-year course at Schoolcraft.

In his new venture, Gilewicz has retained many of the shop's traditional favorites such as the doughnuts and sweet rolls. He has also added some new recipes as well including some new lines of pastries and breads.

Well aware of the current trends in prepared foods toward fewer calories and more nutritional value, Gilewicz has tailored his products accordingly.

"I am leaning toward more natural recipes, lighter and less sugary. I use no mixes, nothing is frozen and there are no preservatives in any of my pastries," he says.

Where in the past, the shop has dabbled in sandwiches and other lunch-type items, Karl's will be dedicated solely to pastries.

"To me, a bakery is a bakery. I don't want to dilute it with other kinds of food. There are plenty of other restaurants in town for that sort of business," said Gilewicz.

Karl's Pastry Shop, open from 6:30 a.m. to 4:40 p.m. Monday through Saturday, will also prepare special orders such as decorated cakes, rolls ("from one dozen to a hundred") and breads.

Karl Gilewicz, owner of the new Karl's Pastry Shop, and waitress Lori Trost.

New board will oversee operation of Ironton ferry

A Charlevoix County Transportation Authority Board is in the process of being established prior to assuming the job of overseeing the operation of the Ironton Ferry following action taken by the Charlevoix County Board of Commissioners.

Utilizing the format of the Urban Cooperation Act of 1967, the guidelines for the Transportation Authority Board calls for a three member organization which will include one each from the Charlevoix County Road Commission and the County Board of Commissioners and a third member at large to be named by the board of commissioners. The board would then be charged with the responsibility of operating the Ironton Ferry. In the past the Road Commission was in charge of the operation.

The establishment of the Transportation Authority Board is the outgrowth of a request by the Road Commission to remove the marine workmen on the ferry from the ranks of other employees because Workman's Compensation Insurance on these workers necessitated the higher insurance rate on all its workers. Under the new Transportation Authority Board, the employees who are on the ferry will be under a separate entity. This will result in a savings of from $15 to $25,000 by the Road Commission in insurance costs.

The transportation Authority Board will assume its duties as soon as the charter has the approval of the Governor and the Attorney General. While no state monies are available at this time, it was decided to obtain the approval by these officials in the event state funds should, at some future date, become available.

The guidelines for the new board are being drawn up in readiness for the appointment of the three member board at the April 13 meeting of the Board of Commissioners.

The Ironton Ferry, which transports traffic across the South Arm of Lake Charlevoix at Ironton, is the property of the county under the jurisdiction of the Board of Commissioners. Until now it has been operated by the Charlevoix County Road Commission.

At the same meeting, Ralph Harmon advised the board that the work on the ferry, presently in drydock at Irish Marina, would be completed by March 28, and weather permitting, should be returned to the water by April 2.

The ferry had been removed from the water in early November to be readied for its five year inspection by the U.S Coast Guard.

Opinion

Knight on the Town

Proud to be a Rayder fan

by Dave Knight

The sun came up after all Thursday morning.

In fact, it was bright and beautiful.

It would have been a cold but lovely morning to stand in line at the high school for state basketball tournament tickets. Queueing up at the high school office in the early morning hours after another Rayder tournament victory had become a regular routine over the past couple weeks.

It was a pleasant time to chat with neighbors about the team and the weather. The weather and the team. Snow and Smith. Crocuses and Klooster. Actually it was hard to find, in the barber shops, taverns, beauty parlors, church steps, coffee shops and grocery lines, people talking about much of anything else this month.

It was generally held that the Rayders would make the trip to Ann Arbor and get an opportunity to play a downstate team. Past a Friday night semifinal appearance, most fans put the team's fate in the hands of the gods. But as tourney victories began to pile up faster than cord wood in October, the glimmer of the ultimate miracle flashed in more and more local minds.

Ah, the beauty of small town high school sports.

No contracts, no unions, no recruiting. No trades, no redshirting, no agents.

Many of our players dribble their first basketball in first grade gym class on the north side and shoot their last free throw before 2,000 fans on the south side. The players we watch on the high school court are products of an amazing system combining the efforts of parents, educators, coaches and fans.

On no other level of sports is there such coordination of effort. No pro team in any sport - not even the Dodgers - has a player development system as closely knit. No alumini organization at any university is as loyal in their support.

That team out there is us. When they win we feel good and when they lose we feel bad.

But while we might have felt bad for a few moments last Wednesday night, it didn't last for long.

What we saw was a bunch of dedicated young men who worked hard to accomplish what they did and who made us proud, even in defeat, to be from Charlevoix.

This team has given us a winter that will be remembered for more than its paltry snowfall. Their successes came at a time when some good news was sorely needed around here to balance that of the other sort.

I'm sure Coach Dave Smith is already juggling lineups in his mind for next year's campaign because he knows the sun will come up tomorrow ...and the next day.

What's more, it may be even brighter than yesterday.

Letters: Thank you, Rayders!

Great season

To the Editor:

Thank you Dan Buday, Brent Cole, Dane Tollas, Tim LaBlance, John Pearl, Goerge Smith, Jeff Lemerand, Chris Putman, Kent Ketchman, Craig Klooster, Doug Sloan, Mark Oostermeyer and Coach Dave Smith for an ENJOYABLE, EXCITING AND WONDERFUL basketball season.

Tom & Sue Erber
and Family

Lot of class

To the Editor:

Would you stand in the cold rain at night to cheer on a winning basketball team? Most of you might answer yes, but would you do it for another town's team?

Well, that is just what the students at Boyne Falls did last Friday night. In Boyne City we saw more cheering basketball fans. Yes, they were cheering, and it was for our Charlevoix Rayders!

We saw a lot of support and spirit in that jammed Gaylord gym, but what a great feeling when we saw those students at the corner of 131 and 32 and all those people who were dripping wet and cheering in Boyne City.

To all of you who stood in the cold rain, THANK YOU...WE LOVED IT. YOU SHOWED A LOT OF CLASS!!!

Basketball Fans from the faculty and staff of the Charlevoix Public Schools

No to DSO

To the Editor:

You asked what we think about inviting the Detroit Symphony Orchestra to appear at Castle Farms.

My personal opinion is that, until Castle Farms "cleans up their act" dramatically, I have and will continue to boycott any group that appears there, no matter who they are.

I am a business person in Charlevoix, and no one is more interested in improving the business climate here than I am. However, some alliances can hurt us far more than they'd help.

I say, unless Castle Farms has substantially upgraded all phases of their program and shows meaningful intentions of being something we can be proud of, we should avoid them like the plague.

Name witheld for obvious reasons.

Clockwise

See Tootsie

by Bob Clock

EVEN IF YOU haven't seen a movie in years, you won't want to miss "Tootsie," now playing at Cinema III.

You won't crack up at every line — at least I didn't — but you'll find yourself chuckling at the foibles of Dustin Hoffman, who finds himself locked into the role of a female impersonator in a daytime soap opera.

"Tootsie" has been nominated for 10 Academy Awards — and if there's any justice in the world it should connect on some of them.

Parental Guidance is recommended, but I didn't find the language — or the action — offensive in the least. I'm sure our little munchkins hear worse during recess.

THERE IS STILL some doubt as to who had the most fun at the first annual Kite Fly-in Saturday morning at Ferry Beach — the kids or their dads.

The real little fellows, of course, needed some help getting their kites aloft. But it seems some of the fathers held onto the strings long after the kites were airborne and the task of playing out the line legitimately could have been turned over to their offspring.

There's something about a kite in a brisk March wind that makes kids of us all...

BARNARD GRANGE is on the move.

Work is under way to expand the old building to make room for lavatories and a larger kitchen and meeting room.

Such Grange activity is unusual at a time when many Granges throughout Michigan and the nation are struggling just to stay alive.

As you know, the Grange movement started in the last century as a farmers' organization. One of the principal goals was the extension of rail lines into agricultural communities for more rapid and economical transport of farm products.

Ironically, the railroads have come and gone — but the Grange continues.

Today, Granges are more social than they were in the beginning — although membership consists largely of rural families.

WHETHER YOU LIKE it or not, the Michigan Legislature has increased the state income tax by something like 38 percent, retroactive to the first of the year. Michigan's flat rate income tax, incidentally, is now the highest in the nation.

The alternative, if you can call it that, was a virtual dismantling of state government until the economic climate improves.

As it is, the Legislature still faces the difficult task of lopping another $225 million from the state budget when it returns from the Easter recess. Even the new revenue won't be enough to permit the state to continue playing "business as usual."

Gov. Jim Blanchard and the Legislature are hoping that the tax will allow Michigan to weather the ongoing storm.

Of course, with Michigan's economy on the ropes, any tax increase is fraught with danger — since it could stifle the very economic activity so desperately needed for recovery.

Flight station...

Continued from page 1

the potential monetary benefits to the county from the flight station would far outweigh the cost.

Initially, the flight station will employ from 50 to 60 people. As the other flight stations around the state are phased out, however, more employees will be added. By two to three years after opening, the station is expected to have a full complement of about 90 employees.

While almost all of the personnel to staff the facility will initially be transferred from other existing stations, it is expected that eventually qualified county residents will be able to apply for jobs at the station.

Based on 90 employees, Sullivan estimates the following extrapolated benefits to the county:

-A direct payroll of up to $2.25 million.

-New home mortgages amounting to $4.5 million.

-Additional bank deposits of up to $1.9 million.

-Additional retail sales of up to $1,012,000.

-As many as 23 additional retail jobs.

-Additional vehicles to replace or repair numbering about 207.

-Up to 150,000 hours of construction work.

Questions have been raised in the eastern sectors of the county as to how outlying areas will benefit from such a facility located in Charlevoix.

Sullivan points out that several large firms in the Charlevoix area draw emloyees from a wide radius - some from as far away as Traverse City and Cheboygan - and that many of the flight service station employees would probably seek homes outside of the immediate Charlevoix vicinity.

Attraction of the highly computerized flight service station to the county has also been touted by supporters as a valuable introduction of "high tech" industry to an area badly in need of industrial renewal.

Next week's vote was described by Sullivan at a recent press conference as "very important" to the county's bid for the station. He pointed out that, while no requirement is made by the FAA to secure such public financing before awarding of the bid, several other bidding agencies have included successful bonding votes in their packages. Voters in Otsego County, for example, recently approved overwhelmingly a bonding program similar to that proposed in Charlevoix County.

Other bidders, such as Antrim County, have collected private pledges for funds to build the facility.

The decision on where to build the flight station will follow a staff recommendation from the FAA regional office in Des Plains, Illinois. That recommendation will be forwarded to FAA headquarters in Washington, D.C. where the ultimate decision will be made.

According to Charlevoix City Manager Robert Hunt, the siting of the new, automated flight stations in other states has not appeared to have involved political pressures. He points out that since many of the communities seeking the award are in the same congressional districts, representatives in Washington are not taking stands on where the facility is to be located.

It is unclear when the bid will be awarded. The deadline for additions to bids already submitted is May 1. According to Sullivan, a decision could come as early as June but possibly much later this summer.

Out of the Blue

Last week I versified, did I,
On knowing how and knowing why–
I don't know why, but Holy Cow!
In print it read 'know how'...'know how'!

– Amos

Coming Up

Tuesday, March 29

Jewish Passover begins....

Overeaters Anonymous will meet at the United Methodist Church, 7:30 p.m.

Weddings

Mr. and Mrs. Vincent James Harr

Ditlow-Harr

The Prairie Chapel Methodist Church in Coshocton, Ohio was the site of the March 12, 1983 wedding of Kyle Renee Ditlow and Vincent James Harr, both of Houston, Texas.

She is the daughter of Mr. and Mrs. Edward Ditlow of Charlevoix and he is the son of Mr. and Mrs. Vincent Harr of Coshocton.

The bride was given in marriage by her father in a ceremony officiated by Rev. Richard S. Ziegler. She wore her mother's gown, a waltz length princess style with ivory silk shantung, lace edged scoop neckline, three quarter sleeves gathered at the elbow, a fitted bodice with cumberbun and flared skirt.

She carried three ivory roses and wore babies' breath in her hair.

Kari Stewart, sister of the bride, was matron of honor. She wore a waltz length mauve print chiffon gown with long sleeves, cumberbun and a flared skirt. She carried a single mauve rose.

Best man was Michael T. Harr, brother of the groom. Larry K. Tracey and Rick Arnett were ushers.

The bride's mother wore a cocktail length gown of cream siesta featuring long sleeves and a flared skirt. Her corsage was of ivory roses.

The groom's mother wore a blue flowered dress of polyester with long sleeves and accordian pleated skirt. Her corsage was ivory roses.

A reception was held at the L&K Inn with Theresa Harr, sister of the groom, presiding at the guest book and the bride's sisters in law Darlene Ditlow and Linda Ditlow cutting and serving the cake.

The new Mrs. Harr holds a Bachelor of Science degree in Education and is an eighth grade math teacher at Northbrook Jr. High in Houston. The groom has a Bachelor of Arts degree in Psycology and is a driver for United Parcel Service.

Following a wedding trip to New York City and Corpus Christi, Texas, the couple is at home at 5300 Desolo Drive, Houston, 77091. (Photo by Barth Photography).

SANDY BONELLO, *left, is the owner of a quilt she won in a contest held to raise funds for the Bergmann Center. The quilt was made by members of the Hens and Chicks Extension Club, some of whom were on hand for the presentation. Shown above, from left, are Mrs. Bonello, Helen Buckler, Betty Currey, Beatrice Straw, Jennie Martinchek and Frances Joliffe. Standing in back is Jessie Cunningham, representative of the Bergmann Center. Others who worked on the quilt included Wilma Swartout, Terri Parsons, Rita Dohm, Pauline Russell, Louise Thomson, Lois Lewis, Katherine Lord, Nancy Lord, Billie Welliver and Pam Smith. The project raised $647 for the Bergmann Center.*

Shirley and Leveron Davis

Assembly of God to host Alabama couple for special services

Evangelist Leveron Davis and Shirley Davis of Pell City, Alabama will be ministering at the Assembly of God Church, M-66 South, April 3-5, 7:00 p.m. nightly.

The Davises have been involved in full time ministry for over 15 years. For 14½ years they were involved in full time Pastoral ministry and besides this, they also ministered at youth camps, retreats and revivals.

Leveron began preaching at age 16. He was ordained by the Free Will Baptist at age 18. After being baptized in the Holy Spirit he and his wife became affiliated with the Assemblies of God. He attended Central Bible College in Detroit for a number of years before he entered full time ministry. In 1980 he went to Nashville, Tennessee and recorded his first album titled "Songs of Home".

Shirley also began her ministry at an early age and has been involved in a wide range of ministeries She shares a few minutes in most services, something especially for women.

In these special services there will be prayer for the sick, special music, and the preaching of the word of God.

Paster Mike Mitchell extends a personal invitation to everyone to attend.

Four-week course to study diabetes

The Community Education Committee of the Charlevoix Area Hospital will sponsor a four-week course designed to enhance and update the knowledge of diabetes and its treatment.

Family members and friends of diabetics are encouraged to attend. Classes will be held in the hospital classroom at 7 p.m. on four consecutive Wednesday evenings.

Those interested in participating are asked to call 547-4024 to reserve a seat.

The first session on April 6 will include an introduction to diabetes with information on history of the disease, causes and tests to detect it.

The second session on April 13 is entitled "Living with Diabetes" and will cover emotional and psycological aspects and coping with some of the complications diabetes creates in everyday life. The first two sessions will be presented by Michelle Bonneville, RN, Inservice Director.

On April 20, Anne McCarthy, RD, Food Service Manager, will speak on the "Basics of Diabetic Meal Planning" which will include information on meal planning, food preparation, shopping and reading labels.

The final session April 27 will feature Ann Ogden, Food Service Assistant Manager, speaking on "Advanced Diabetic Meal Planning" and will cover exercise, eating out, alcohol and other reference materials.

Themm, former local banker, opens Char-Kay Realty Co.

Charles F. Themm

A conviction that the Northern counties, such as Antrim, Charlevoix, and Emmet counties, are ready for more Residential and Second Home development has inspired Charles F. Themm, 52, to open Char-Kay Realty Co. at 1002 S. Bridge Street (opposite St. Mary's Church) in Charlevoix.

Themm says "I think now is the time. I find many indications that the area's economy is beginning to perk again, after the last few years of a recession era". He added that he "already has received inquiries, taken some listings, and is now working on the new company's first sale closings."

Chuck is in a good position to observe, having been in the banking business the last two decades, and more recently involved in insurance and real estate sales in the Bellaire, Central Lake and Charlevoix areas.

He explained his company will deal largely with Residential, Commercial and Farm Real Estate sales.

He added that "It's rather expensive to have industry here in our northern area, however this same area has so much to offer, that with good planning and some thought, we have a terrific opportunity. If we can come up with more small, light industries, such as LexaLite, Texas Instruments, Dover Industries, and the like, it would be good for our total population and area. The north provides the executives and the company engineers the clean air, fine lakes and streams, forests and hilly surroundings that make good living up here, and that is appealing to such persons.

"However, I do think in the long run, the second home, and the resort industry has proven to be our largest solid economic element for our northern communities."

Mr. Themm and his wife, Kay, live at Island View, south of Charlevoix with two of their children, Cynthia and Geoffry, both in Charlevoix High School. The eldest son, Dale, is married and lives near Bellaire.

Themm attended Michigan State University, M.S.U. Insurance School, the Graduate School of Banking at the U. of Wisconsin, and Holloway Institute for Real Estate Brokers preparation. He has held a real estate license since 1972 and has a background of 22 years of banking and finance.

The Themms came to (Kay's hometown) Charlevoix in 1969 from Imlay City, Michigan, to assume the duties of Vice President and Loan Officer at First State Bank of Charlevoix. From 1972 to 1981 he served as the Vice President of Bellaire State Bank, and as branch Manager of the bank's branch at Central Lake, where he became very involved in community affairs.

He is a former member of the Mortgage Committee of the Michigan Bankers Association, was a director and Vice President of the Northern Chapter of the Bank Administration Institute. He has served as a director of the Charlevoix Chamber of Commerce in the early 70's, is now President (for the second time) of the Central Lake Chamber of Commerce where he was instrumental in the Torn-of-the-Century Renovation in 1978. He has served as a Trustee for the Romeo-Almont Community Hospital in the states before moving North, among many other civic groups.

He is also a licensed (Independent) Insurance Agent, affiliated with the Keith Fischer Agency, Inc. of Bellair and Central Lake.

Viewing his new enterprise of Char-Kay Realty Co., Themm says "I am an energetic, positive thinking person. We need faith and compassion to succeed in business today. I am a strong believer that

'Tough Times Don't Last – but Tough People (those who care and are determined) Do'.

"I feel business conditions are getting better. I feel our American people are more positive thinking now. It is our way."

Themm invites all to stop in to say hello at the new office of Char-Kay Realty Co. in Charlevoix.

'Free to be You and Me' is title of musical

by ANNE KELLY

Fifth grade students, rehearsing for their upcoming musical, dance to the theme song, "Free to be You and Me."

It's spring musical time again at the Charlevoix Elementary School.

The children have already been working hard on this year's production which will be "Free to be You and Me."

Costumed for the show, the children will be dressed up in whatever they like, or as what they'd like to be when they grow up.

The musical, which Marlo Thomas immortalized several years ago, will feature singing, dancing, skits, and school-wide participation.

There will be a matinee performance at the high school gym at 9:30 a.m. April 14 and an evening performance at 7:30 p.m. at the high school gym the same day.

'Seven Last Words' is theme for Good Friday service

"The Seven Last Words" will be the theme of the traditional Good Friday service to be held at the Community Reformed Church under the sponsorship of the Charlevoix Ministerial Association.

The hours of the service will be from 12:30 until 2:20 p.m.

Presenting the seven last words with a brief sermon on them will be the Rev. Walter Hastings of the Community Church of God; the Rev. Robert Smith of the First Baptist Church; the Rev. Larry Grooters of the host church; the Rev. Roger Ames of Christ Episcopal Church; the Rev. David W. Yingling of the United Methodist Church; the Rev. James Plackner of Bethany Lutheran Church and the Rev. James Raum of the Church of the Nazarene.

The Rev. Charles Hastie of the First Congregational Church will give the invocation and benediction.

Special music will be presented by the participating churches.

No offering will be taken during the service. However, an offering plate will be at the door. Any funds will be used to support the work of the Charlevoix Ministerial Association which at this time includes food cupboards at three locations and a clothing outlet that will be established in the near future for the benefit of those in need.

Worshippers of all denominations are invited to participate in the Good Friday Service.

Winners named in Farm Bureau Insurance essay contest

Farm Bureau Insurance Group representative Charlie Elzinga presents a first place award to Michelle North, sitting. Also on hand were English teacher Mr. Robinson, left, and the second and third place winners Kristin Holmes and Renee Kane.

Three students from the Charlevoix Middle School have been named local winners in the 14th annual America & Me Essay Contest, sponsored by Farm Bureau Insurance Group.

The three, who earned the first, second and third place awards for their school, are April Michelle North, first; Kristen D. Holmes, second; and Renee' L. Kane, third.

All three received award certificates for their achievement. As the school's first place winner, Michelle's name will also be engraved on a plaque for permanent display in the school.

Michelle's first place essay now advances to the state level competition, from which the top ten essays in Michigan will be selected.

The top ten statewide winners, who will be announce in March, will receive plaques and U.S. savings bonds ranging in value from $200 to $1,000, totaling $4,000 in prizes for the top ten essayists. In addition, the top ten winners will be honored at a banquet in Lansing and a meeting with Michigan's top governmental leaders.

A team of finalist judges that will include Michigan political leaders and other dignitaries will determine the top statewide winners.

Several thousand eighth grade students from nearly 500 Michigan schools participated in the 1982-83 America & Me Essay Contest, which was conducted with the help of Farm Bureau Insurance agents across the state.

The topic of the 1982-83 contest was "Why I Am Important to America's Future".

Started in 1968 and open to all Michigan eighth grade students, the contest encourages Michigan youngsters to explore their roles in America's future.

As sponsor of the contest, Farm Bureau Insurance Group has earned 11 national awards from the Freedoms Foundation at Valley Forge.

LAKE CHARLEVOIX
A striking Acorn contemporary vacation home. Three bedrooms and a loft. Two full baths, 8x12 upper deck overlooks Lake Charlevoix. Fireplace. Includes appliances and draperies. 117 feet of sandy lake front is shared with three families. Beautifully maintained inside and out. Contact Bill Carey for an appointment.

CLIPPERVIEW COTTAGE
Custom built cottage nestled on the sand dunes of Lake Michigan near Charlevoix. (Could be readily converted to a year 'round home.) Two bedrooms and 1½ car garage. Listed at $40,000. It's a perfect recreation home away from home. Contact Dick Wendt for more details.

SPRINGBROOK HILLS
Beautiful, fully furnished chalet, in one of Northern Michigan's most popular planned vacation communities. Over 3,000 sq. ft. of luxury living. Four bedrooms, a large family room, 2 fireplaces and a wrap around deck are features. Can sleep as many as 13 and would be an ideal investment. Rentals brought in over $8,000 last year. Terms available. Give Dick Wendt a call.

SUGARBUSH KNOLL
5 year old, 3 bedroom ranch home in a popular subdivision, 2 car attached garage, full basement, natural gas heat and hot water. Full carpeting, drapes and all kitchen appliances are included. Heavily insulated and triple glazed windows make for unbelievably low utility bills. Get in touch with Paul Sansek on this truly exceptional value.

GREAT FAMILY HOME
Great buy at only $46,900. 3 bedroom ranch with 2 car attached garage. On a big 100'x200' lot in Charlevoix Township with all city utilities. Full walk-out basement. New carpeting and JennAire range. Views Lake Michigan. Call Bill Carey for more information.

PRICE REDUCTION
85 rolling acres and bubbly Monroe Creek accompanies this unfurnished 2-3 bedroom home. Will have 1,900 sq. ft. of living space on 2 levels. New 32'x40' pole barn. Now specially offered: 330'x430' including house and barn for only $38,000. Call Jim Carbin for the specifics.

Charlevoix finishes with stellar 24-1 record

Stephenson ends Rayder state tourney hopes

No other varsity basketball team in the annals of Charlevoix High School had accumulated 24 victories in one season and no other Rayder basketball team had won a state championship.

Thus with the one distinction under their belts and the other seemingly within their grasp, the Rayders took the floor last Wednesday night against Stephenson in the state Class C quarterfinals in Cheboygan.

The trip to Ann Arbor was not to be, however, as the Rayders found themselves in the unfamiliar position of playing catch-up most of the game and being consistently overpowered under the boards.

When the buzzer sounded, it was 58-56 Stephenson and Charlevoix's brilliantly successful 1982-83 season was over.

The Rayders had several chances to pull away as they have so many times in the second half this year and in fact had time for a shot to tie the game in the closing seconds. But the potent Rayder offense sputtered in key situations and, with Stephenson's rebounding strength, could not seem to be able to build any momentum.

It was an early lapse that forbode potential problems for Charlevoix. After springing to a 6-4 lead in the early going of the first quarter, the Rayders were handcuffed by a pesky Stephenson man-to-man defense. Before they knew it, the quarter was over and Charlevoix was down 20-8.

With guard Tim LaBlance beginning to hit from the outside, the Rayders gradually hit stride again in the second period, outscoring Stephenson 17-12 and climbing to within seven, 32-25, by halftime.

Things still seemed to go Charlevoix's way as second half action started. All State forward Craig Klooster went into action with some nifty moves down the lane and his three-point play tied the game at 42 apiece as the third quarter ended and almost 2,000 excited Charlevoix fans roared their support.

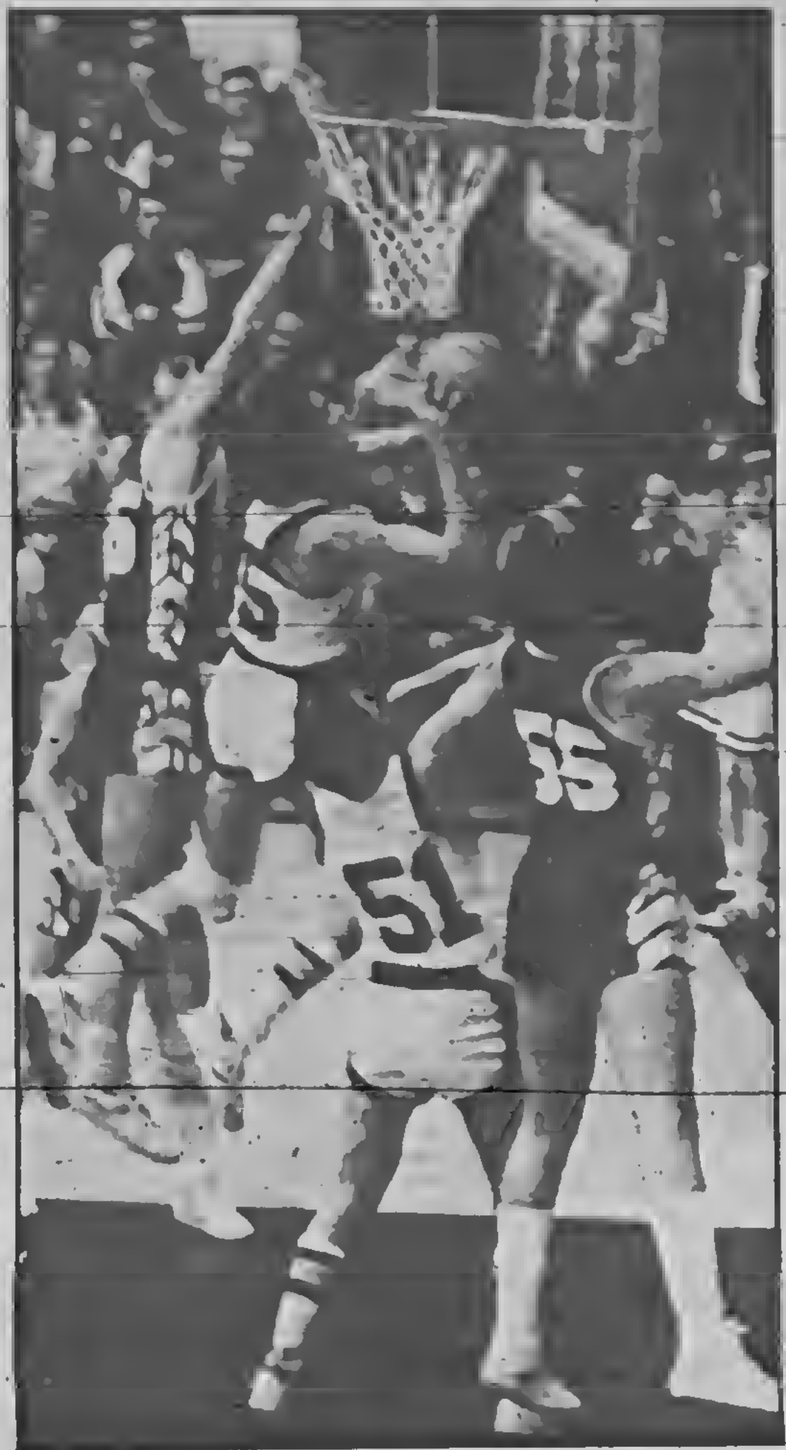
The battle continued to see-saw and Charlevoix was in the thick of it, holding a two-point lead, 50-48, with about four minutes to play. That was the last time they enjoyed a lead, however, as a couple deadly accurate outside shots by Stephenson's Dan Marchalk took their toll. Still, with 1:30 to go, sophomore Doug Sloan sank two free throws to tie the game again at 54-54. But Marchalk struck again from 20 feet out to make it 56-54 and, following a center jump, Tim Kuntze scored his only two points of the night on a layup to make it 58-54.

A LaBlance jumper drew the Rayders within two at the :30 second mark and a missed free throw by Stephenson set the stage for a last-shot opportunity for Charlevoix. George Smith's attempt was just off the mark, however, and Stephenson grabbed the final rebound sealing the victory.

For the first time this season, Charlevoix found itself outrebounded by its opponents as Stephenson, behind burly 6-6 center Mike Tyrrell, snagged 31 rebounds to Charlevoix's 27. Individually for the Rayders, Klooster led the team in rebounds with 13.

Klooster was also leading scorer in the game with 20; for the Rayders, Putman and LaBlance each had 12, Smith had 10 and Sloan two.

Turnovers were relatively even as Charlevoix had 15 to Stephenson's 16.



Klooster reaps more All State accolades

Three more All-State honors came Craig Klooster's way last week as the 6'3" Charlevoix forward was named to the Associated Press Class C All State team, the Detroit News All State first team and the Detroit Free Press All State second team. Klooster had previously been named to the United Press International All State team. Klooster, who averaged 20 points a game and played a vital role in the Rayders' 24-1 season this year, was also named to the Basketball Coaches Association of Michigan Northern Lower Peninsula All Star Team which is selected from all classes of schools.

Joining Klooster on the Michigan-Huron Shores Most Valuable Player roster which was recently announced were seniors George Smith and Chris Putman and junior Tim LaBlance. In girls volleyball MVP listings for the M-HSC, Charlevoix's Laura Kemp was named to the first team and Treasure Drost received honorable mention.

COLWELL YOUR KEY TO BETTER LIVING CO REALTORS DOWNTOWN CHARLEVOIX 547-4444

COLWELL HAS BUILDING SITES
HARWOOD LAKE. A selection of 1 acre, plus, wooded lots with natural shoreline. Known as a great fishing lake. Priced from only $7,000 with terms.
PINCHERRY ROAD. One-of-a-kind 3.7 acre wooded parcel with plenty of road frontage. Boyne City schools. Just an excellent buy at $5,800 on L/C.
BOYNE CITY-CHARLEVOIX ROAD. Maple covered 160'x297' lot only 4 miles from Boyne City near Villa de Charlevoix. Truly a gorgeous building site and just $4,700.

TAKE ANOTHER LOOK, NOW!
CHARLEVOIX AREA. 10 acre parcel is crossed by Loeb Creek. Has southerly exposed hillside for solar homesite. Off M-66. Priced at $12,500 with good terms.
HAYES TOWNSHIP. 20 acre tract and well over half wooded, with hardtop road frontage galore. Can be split into 2-tens at $8,500 each. Excellent terms available.

VILLA DE CHARLEVOIX
GOOD BUILDING SITE. Close to beach and clubhouse. In the midst of attractive vacation homes. Only $6,500.
DOUBLE LOT COMBO. Health Department approval and frontage on two roads. Best of all, priced at just $6,900.
DEEP 85'x281' LOT. On Concorda South offering a fine building site in Villa de Charlevoix. Worth considering at $6,000.
SPECIAL OPPORTUNITY. Owner says bring me a $2,000 offer on this corner Villa de Charlevoix lot — 85'x186'. Don't wait!

CONSIDER BUILDING THIS YEAR
CHARLEVOIX NORTHSIDE. A rare chance to buy a northside lot. 50'x133' on Prospect Street with all city utilities available.
MARION CENTER ROAD. 711' of road frontage by 267' deep. High and rolling with lots of trees. Has several unique building site possibilities. Owner anxious for a fast sale.
SOUTH OF CHARLEVOIX. Open 3 acre parcel with 310' on Marion Center Road. Listed at $4,900, but owner wants an offer.
CHARLEVOIX SCHOOL DISTRICT. 5 acres of Lord Road (just off Richardson Road) with pretty views. Area of new homes. Just $6,000 with L/C available.

NOW'S THE TIME TO BUILD
FANTASTIC WOODLOT. 100% wooded (mostly maple trees) on a blacktop road northwest of East Jordan. Perfect spot for a home, too. Assume an 8½% L/C. Full price $7,500.
GORGEOUS LAKE CHARLEVOIX VIEWS. 14 very high acres and only 1,000 feet from the lake. Has 3 acres of woods and could be developed. Available on a contract.
28 ACRES IN EAST JORDAN. 820 feet of M-66 frontage at the south city limit with public water onsite. Views the Jordan River.

BUY NOW BUILD LATER
EAST JORDAN-DEER LAKE ROAD. A high and rolling 22 acre parcel only minutes from Boyne Mt. Good acreage for just $15,000. Terms.
HOLY ISLAND ROAD. A very special 40 acres near Ironton with ¼ mile of road frontage. Has beautiful stands of mature maples. May consider splitting into two 20 acre parcels. L/C terms.
CLIPPERVIEW SUBDIVISION. A heavily wooded 5 acre building site with frontage on two roads. Has great possibilities.
LAKE MICHIGAN LOT. 100% wooded and with sandy beach. Could be a real sleeper. Come in and talk to us about this possibility.

LEGAL NOTICES 207

NOTICE OF
MORTGAGE
FORECLOSURE SALE

TO: GARY GILLESPIE, OF 434 N.E. STREET, BOYNE CITY, MICHIGAN 49712, MORTGAGOR: RUBY GILLESPIE, OF P.O. BOX 233, LONGDALE, OKLAHOMA 73755, MORTGAGOR; ROBERT W. EAGLESON, JR., OF P.O. BOX 502, GRAND BLANC, MICHIGAN 48439, LAND CONTRACT PURCHASER: AND ALL PERSONS CLAIMING UNDER AND THROUGH THEM:

Default having been made in the terms and conditions of a certain real estate mortgage by Gary Gillespie and Ruby Gillespie, his wife, of Boyne City, Charlevoix County, Michigan, as Mortgagors, to First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated April 7, 1978 and recorded April 12, 1978 in Liber 153, pages 19-22, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage and Mortgage Note, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal and accrued interest the sum of $10,615.89, and further default having occured by reason of the nonpayment of real property taxes for the years 1979, 1980, 1981, and 1982, contrary to the terms, conditions and covenants in said Mortgage contained, in the amount of $4,852.80, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan, in such case made and provided, notice is hereby given that on Thursday, May 5, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at 9 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may subsequent to the date of this Notice be paid by the undersigned, necessary to protect its interests in the premises. The premises to be foreclosed, described in said Mortgage, is as follows:

City of Boyne City, Charlevoix County, Michigan;

Parcel 1: Lot 1 of Calbert's Addition to the Village of South Boyne, according to the recorded plat thereof, EXCEPT the South 54 feet thereof, also described as: The North 78 feet of Lot 1 of Calbert's Addition to South Boyne (now City of Boyne City) according to the recorded plat thereof. ALSO: The North 78 feet of Lot 2, Calbert's Addition to South Boyne (now City of Boyne City).

Parcel 2: Lot 5, Block A, Assessor's Terrace Addition to the City of Boyne City, according to the plat thereof.

The redemptive period afforded Mortgagors by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 24th day of March, 1983.

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain Mortgage made by KENNETH MOUSSEAU, a-k-a Kenneth L. Mousseau and wife, MARY ETTA MOUSSEAU, a-k-a Maryetta Mousseau, of Charlevoix, Michigan, Mortgagors, to MILES HOMES DIVISION OF INSILCO CORPORATION, Mortgagee, dated the 4th day of May, 1979, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan on the 14th day of May, 1979 in Liber 157, Page 348, which mortgage is presently held by Miles Homes Division of Insilco Corporation, through a series of assignments thereof, and on which Mortgage there is claimed to be due, at the date of this Notice, for principal and interest, late charges, taxes and insurance, the sum of Thirty-seven Thousand One Hundred Thirteen and 81-100 Dollars ($37,113.81), and no suit or proceedings at law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof.

Now, therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 14th day of April, 1983, at 10:00 o'clock in the forenoon, said Mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the main entrance to the Charlevoix County Building, Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held) of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said Mortgage, with interest thereon at the rate of nine and one-half percent (9½) per annum and all legal costs, charges and expenses, including the attorney fee allowed by law, and also any sum or sums for taxes and insurance which may be paid by the Mortgagee necessary to protect its interest in the premises.

Said mortgaged premises are situated in the Township of South Arm, County of Charlevoix and State of Michigan, to-wit:

The North 1320 feet of the Northeast fractional quarter of Section 8, Town 32 North, Range 7 West, lying Westerly of the center line of the County Road.

The redemption period shall be six (6) months from the date of sale pursuant to MSA 27A.3240.

Dated: March 15, 1983

NOTICE OF
MORTGAGE SALE

Default having been made in the terms and conditions of a certain mortgage made by Roger P. Shepard and Priscilla M. Shepard, his wife, Mortgagors, to GENESEE MERCHANTS BANK & TRUST CO., a Michigan banking corporation, Mortgagee, dated the 27th day of September, 1973, and recorded in the Office of the Register of Deeds for the County of Genesee and State of Michigan, on the 9th day of October, 1973, in Liber 137 of Mortgages, on pages 170-173 on which mortgage there is claimed to be due at the date of this notice, for principal and interest, the sum Thirty-three Thousand, One hundred and Sixteen and 06-100 ($33,116.06) Dollars.

And no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof and default having occurred whereby the power of sale has become operative.

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on Monday, the 11th day of APRIL, 1983, at 10:00 o'clock, a.m., local time, said mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the easterly front entrance to the County Building in Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage, with the interest thereon at 9.25 percent per annum and all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sum or sums which may be paid by the undersigned, necessary to protect its interest in the premises, which said premises are described as follows:

All that certain piece or parcel of land situate in the Township of Norwood, in the County of Charlevoix and State of Michigan, and described as follows, to-wit:

Lot 70 of Clipper View Subdivision, a part of Sections 11 and 12, Town 33 North, Range 9 West.

NOTICE IS FURTHER GIVEN, that the right of redemption from said sale shall expire six (6) months from the date thereof.

City Clerk

Official Notice

PUBLIC NOTICE

The following Ordinance was adopted by the Common Council of the City of Charlevoix at a regular meeting held on March 21, 1983.

ORDINANCE NO. 425

THE CITY OF CHARLEVOIX ORDAINS THAT:

The City of Charlevoix Zoning Ordinance be amended so that the following legally described parcel of land, located in the City of Charlevoix, County of Charlevoix, and State of Michigan, to-wit:

Commencing at a point 105 rods (1732.6 feet) South of the Northeast corner Section 34, Town 34 North, Range 8 West; thence West 552 feet for the point of beginning; thence continuing West 72.85 feet; thence South 123.75 feet; thence East 72.85 feet; thence North 123.75 feet to the point of beginning, being part of the Southeast Quarter (SE-¼) of the Northeast Quarter (NE-¼) of Section 34, Town 34 North, Range 8 West.

be and the same is hereby re-classified from Industrial District(I) to Commercial District(C-II); and,

That the zoning map of the City of Charlevoix be amended to reflect said Zoning District re-classification.

Deanne Balch
City Clerk

WINNERS *have been named in the Courier Special People Contest in which readers were asked to identify the faces of store employees around town. Otto Yemmans, above, won first place and will receive $50 for his efforts. In the photo to the right, Sally Nye, seated right, won the second place prize of $25, Harry Ladd, standing, won third place and $15, and Danya Drost, seated left, won the fourth place prize of $10.*

'Firebreaks' game to begin next week

"Firebreaks", Ground Zero's War-Peace game will begin the first week in April. In addition to Charlevoix High School students who will be playing "Firebreaks" under the leadership of teachers Nelson Green and Charles Bentley, Firebreaks will be played at the following locations:

In Charlevoix on Tuesdays, April 5, 12, 19, and 26 at the First Congregational Church at 7:30. Call Margaret Doerr, 547-2603 for information.

In East Jordan starting Tuesday April 12, Friday April 15 and Tuesdays April 19 and 26 at the Presbyterian Church. Call Rev. Donald W. Ferguson at 536-2941 or 536-2635 for information. Also in East Jordan, a group will meet at the home of Joe Spaulding on Monday nights at 7:30 p.m. April 4, 11, 18, 25. Call Joe Spaulding, 536-7412 for information.

In Petoskey on Wednesdays, April 6, 13, 20, 27 at 7:00 p.m. at the Presbyterian Church. Call Julie McGarvey, 549-2997 for information.

In this area, "Firebreaks" is being promoted by the Peace Education Network of Northern Michigan. All sessions are open to the public. There is no charge. All materials are furnished by Ground Zero. It is not necessary to register in advance. However, if you call one of the group leaders listed above, indicating your intention to attend one or more sessions, you may obtain a summary sheet detailing the fictional world situation in April 1988, which sets the stage for playing "Firebreaks". It can be helpful to look this over before coming to the first session. Otherwise, you will receive this information when you arrive for the first meeting.

Firebreaks is designed to be played in four sessions, but "updates" will be provided for those who miss a session. If it is only possible to attend one session, the final one will be the most critical. Based on the hypothetical world situation at the beginning of April 1988, players will consider how national interests in both the U.S. and the U.S.S.R. are affected and how leaders in each country might react. Players will then discuss what options might be adopted to avert nuclear confrontation. At the close of each session the group will be told the options that presumably were chosen by both countries in the hypothetical crisis. The next session will deal with the world situation in the light of these decisions and players will explore new options or "Firebreaks" to head off nuclear disaster as events become more critical.

Ground Zero's purpose in designing "Firebreaks" is to educate people about what could happen and get them to think about what might be done to prevent a crisis from escalating. It is patterned after the "worst case" scenarios used by the Pentagon in planning for national defense, and is not to be regarded as a prediction of events to come. Ground Zero does not tell players which are "right" or "wrong" decisions. Individual players may express their own ideas about national security policy, but they will also be asked to consider national security policy from the viewpoint of a Soviet or Warsaw Pact country citizen.

Official Notice

PUBLIC NOTICE

The Fisheries Division of the Department of Natural Resources has conducted preliminary surveys on the Jordan River in Charlevoix County to locate a feasible site for constructing a low-head barrier dam. The purpose of the barrier is to prevent the upstream migration of spawning adult sea lamprey and will greatly reduce or eliminate the need for periodical chemical treatments.

Although a number of sites were investigated, it appears the most feasible site is located in Section 35, T32N, R7W (South Arm Township). Preliminary engineering plans and cost estimates are being developed for this site. It is contemplated that the dam will be constructed of concrete, 50 feet long and with a head of six feet (18" above the average April-May flows). The structure will be designed so that it can be drawn down, after the lamprey run, to allow for the free passage of fish during the summer months. Fish passage considerations will be incorporated in the design of the dam, if needed, to allow for the passage of steelhead. A canoe portage will be provided to accommodate canoeists during operation of the barrier.

If you have comments or questions concerning the proposed barrier dam, please contact Bruce Vollmer, Department of Natural Resources, Fisheries Division, P.O. Box 30028, Lansing, MI 48909. Phone: 517-373-8808.

NOTICE

Nominating petitions for the one vacancy on the Charlevoix Board of Education must be filed with the secretary of the board of education or in the Superintendent's office at 208 Clinton Street by 4:00 o'clock P.M. on Monday, April 11, 1983. The vacancy is for a four year term.

Official Notice

Norwood Township Special
Zoning Board Meeting
Public Hearing
April 20, 1983, at 7:30 P.M.
Norwood Township Hall
Village of Norwood

Agenda

1. To consider the request of Crescent Stone Company (Medusa) to adopt an amendment to the Norwood Township Zoning Ordinance to provide for a Mineral Resource District. The proposed Mineral Resource District Ordinance would establish and zone lands for the preservation, protection and extraction of minerals, prevent non-compatible land uses from denying the use of minerals, protect mineral deposits, provide for the orderly economic growth of Norwood Township and Charlevoix County, provide for proper environmental management during the site planning, operational and reclamation stages of the extraction process, and provide Norwood Township with information important to the overall planning process.

2. To consider the request of Crescent Stone Company (Medusa) to rezone the following described land (approximately 335 acres) from Agricultural (A) to Mineral Resource District (MRD):

In Township of Norwood, Charlevoix County, Michigan, Beginning at the Northwest corner of Section 5, Township 33 North, Range 8 West; thence East along the North line of said Section 5 to the North quarter corner of said Section 5; thence South along the North and South quarter line of said Section 5 to the South line of the North 15 acres of the East Half of the Southwest Quarter of said Section 5; thence West along said South line of the North 15 acres of the East Half of the Southwest Quarter of the West eighth line of said Section 5; thence North along the West eighth line of said Section 5 to the East and West quarter line of said Section 5; thence West along said last mentioned East and West quarter line to a point 650 feet East of the quarter corner common to Sections 5 and 6 of said town and range; thence Southwesterly to a point on the line common to said Sections 5 and 6, being 650 feet South of said last quarter corner; thence South along said last mentioned North and South quarter line to a point 650 feet North of the corner common to Sections 5, 6, 7 and 8, said town and range; thence Southwesterly to a point on the line common to said Sections 6 and 7, being 650 feet West of said last mentioned section corner; thence West along said line common to Sections 6 and 7 to the North and South Quarter line of said Section 6, thence North along said last mentioned North and South quarter line to the East and West quarter line of said Section 6; thence East along said last mentioned East and West quarter line of the quarter corner common to said Sections 5 and 6; thence North along said line common to Sections 5 and 6 to the point of beginning: being the Northwest Quarter, the North 15 acres of the Northeast Quarter of the Southwest Quarter and part of the Northwest Quarter of the Southwest Quarter in Section 6 and all of the North Half of the Southeast Quarter, all of the Southwest Quarter of the Southeast Quarter, and Part of the Southeast Quarter of the Southeast Quarter of Section 6, all in Township 33 North, Range 8 West.

All pertinent data may be examined at the home of the Township Supervisor, Richard Fochtman, Route 1 Box 80, Charlevoix, Michigan.

Elaine Tompkins, Clerk
Norwood Township Zoning Board

Official Notice

PUBLIC NOTICE
Budget Hearing

The Hayes Township Board will hold a public budget hearing on April 4 at 7:00 P.M. in conjunction with the Annual Meeting of the Township. This meeting will be held at the Township Hall on Old US 31. All citizens are invited to attend and ask questions concerning the entire proposed budget and the relationship of Revenue Sharing funds to that budget. Copies of the proposed budget will be available at the Annual Meeting or may be seen at the Clerk's home. For appointment call 347-9618. The Township has proposed that the Revenue Sharing funds for 1983-1984 be budgeted for Fire Protection, Ambulance Service and Salaries.

Sandra Somerville
Hayes Township Clerk

Char-Em shootout finals set

The finals in the B-League Char-Em Shootout tournament played here during the past week will be played at the Charlevoix Middle School gymnasium at 6:30 p.m. Thuesday.

The game, the finals in the 13-team tourney, will pit the winners of the First State Bank-Kit Carson-Charlevoix Garbage game against the winner of the McDonald's-PBR Farms game. These games were to have been played Monday night.

These teams made it to the semi-finals and finals after winning in close encounters during the early nights of the tournament.

First State Bank got to the semi-finals by upsetting Staley Hardware in an overtime game by a score of 82-78; Kit Carson-Charlevoix Garbage won over Wojan Aluminum 53-48; McDonald's downed Carlson Plumbing 65-56 and PBR Farms edged Medusa 54-45 in the quarter finals on Tuesday and Thursday.

In the First State Bank-Staley Hardware game, the Bankers led 20-19 at the quarter before losing the advantage 34-31 at halftime and regaining it 53-51 going into the final period when Staley's came back strong to tie the score 73-all at the buzzer. In the overtime First State outscored Staley's 9-5 for the victory.

Tim Carey's 32 points was one of the deciding factors in the game which saw team-mates Kevin Swanson and Dennis Dominic add 13 and 10 points each. Terry Smith had 20 points, Scott Olmstead 16 and Larry Skippergosh 16 for Staley's.

After trailing 14-8 at the quarter, Kit Carson-Charlevoix Garbage grabbed the lead by a two point margin 21-19 at the quarter and 38-31 at the three quarter mark before coasting to a five-point victory.

Barney Way had 13 points, Mike Crain 11 and Larry Brock 10 for the winners. Stan Martin had 24 for Wojans.

In the McDonald-Carlson Plumbing meeting, McDonald's snatched a 15-10 lead at the quarter stayed ahead 34-25 and 49-31 at the quarters.

Harry Rinko had 18 and Barney Aspenliter 16 for the winners. Ray LaVole and Beano Archey had 12 points each and Jim Marsh 11 for the Plumbers.

In the fourth game of the quarter finals, PBR Farms led Medusa 15-8, 20-19 and 33-31 before winning by a score of 54-45.

John Murphy had 19 and Jim Harris 17 for the Farmers; Dick Putman accounted for 13 and Doug Winnell 10 of Medusa's points.

Charlevoix's Scott Kelly, above, is a member of the Ferris State College baseball team, coached by Walt Piggott. The 1982 Charlevoix High School graduate is attempting to crack the Bulldogs' lineup as an infielder for the season-openers, March 24 at Western Kentucky and March 25 at Louisville. While in high school, Scott earned nine letters in baseball, football and basketball, taking all-conference honors in baseball his junior and senior seasons. At Ferris, Scott is a freshman business administration major, and is the son of Don and Lorraine Kelly of Charlevoix.

Sports Boosters Hoe Down set

Plans for the third annual Sports Boosters Hoe Down have been announced.

The event will be held Saturday, April 9, at the V.F.W. post home with Jasper and his Tag-alongs furnishing the music for dancing.

The Hoe Down will open at 6 p.m. with a buffet supper followed by dancing beginning at 9 p.m.

Tickets will be available at the door. The price will be $15 per couple.

The annual Hoe Down is one of the Sports Boosters major fund-raising projects.

Little League sign-up is April 7-8

Sign-ups for Little League have been scheduled for Thursday and Friday, April 7 and 8, at the Charlevoix High School gymnasium Dr. Don Trimper, has announced.

All boys ages eight through 15 years planning to play Little League baseball must register at the high school gymnasium between the hours of 6 and 8 p.m. on those days. Everyone must register even if he has played with Little League earlier Dr. Trimper said.

Those planning to register must bring a copy of his birth certificate, be accompanied by a parent and be prepared to pay the $5.00 registration fee.

It is important that all boys planning to play in the Little League program register at this time, Dr. Trimper added.

Emmet wins pistol shoot

In a pistol shoot held last week at the Emmet County Sportsman's Club grounds, the host team defeated a contingent from the Charlevoix Rod & Gun Club 1532-1448.

Individual scores for Emmet were: Riley Turcott 277 (high score for the meet), Bob Ball 270, Carl Mumma 249, Errol Beckett 168, Kurt Glasser 239 and Jeff Bodett 229.

For Charlevoix, individual scores were: Terry Gray 289, Frank Zednicek 267, Dale Terryberry 256, Gary Plain 212, Harold Lang 227 and Bob Sharrow 217.

The next shoot will be held at the Charlevoix Rod & Gun Club at 7 p.m. April 19.

Members of the A-League championship Townhouse team included, left to right, Gayr Drury, Steve Dunkleberg, Bernie Ward, LeRoy Buchanan, Rick Leslie, Bud Klooster, Don Trojanek and Dan McKenzie. Missing are Steve Smith and kevin Griffen.

Staley Hardware are B-League champs

Staley Hardware wrapped up the B League title two weeks ago with a 53-48 win over the Air Force to conclude the season with a 15 win-three loss season.

In other games, Wojan Aluminum defeated Carlson Plumbing 64-61 and First State Bank won over Medusa 70-67.

Staley Hardware jumped to an early lead over Air Force and headed the airmen 14-12, 30-16 and 45-30 by quarters before the Air Force outscored Staley's 16-8 to cut the winning margin to seven points.

Mark Schaberg had 16 and Larry Skippergosh 11 for the victors. Chris Claytor and Tony Starr shared scoring honors with 16 points each for the Air Force.

Wojan Aluminum trailed Carlson Plumbing 20-8 and 32-28 before catching fire and outscoring the plumbers 17-10 to go ahead 45-42 at the third period and coast on to a win.

Stan Martin set the pace with 28 points with Don Smith adding 12 for Wojans. Jim Marsh and Beano Archey had 15 points each, Ray LaVole 12 and Randy Holecheck 10 for Carlsons.

First State Bank had one of its best nights of play as they headed Medusa 22-12, 46-28 and 54-45 by quarters before posting a win.

Tim Carey had 21, LeRoy Buchanan 16, Dennis Dominic 16 and Roger Gowell 12 for the Bankers. Jim Parrish hit for 18 points, Bill Gengle 16 and Doug Winnell 15 for Medusa.

The final B League standings are Staley Hardware 15-3; Kit Carson-Charlevoix Garbage 13-5; Carlson Plumbing 11-7; Wojan Aluminum 9-9; First State Bank 8-10; Medusa 5-13 and Air Force 2-16.

Members of the B-League champs Staley Hardware are, front row left to right, Larry Skippergosh, Ron Siwarga and Scott Olmstead. In back are Jim Werner, Terry Smith, Bill Hoagland, Mark Schaberg and Dave McIntosh.

Townhouse takes A-League

The A League of the Independent Basketball League sponsored by the Charlevoix Recreation Department closed out its season two weeks ago with Townhouse capturing the title with a 14-2 record.

The final games on the schedule saw Townhouse defeating Village Inn Pizza 68-55 and Boyne Auto winning by forfeit over Depot Restaurant.

Townhouse was in command all the way as they led Village Inn Pizza 14-12, 36-22 and 51-40 by quarters.

Rick Leslie paced the scoring with 28 points followed by Bud Klooster with 22 and Dan McKenzie with 12. Woody Peirson with 16 points, Vince left with 14, Jerry Skippergosh with 11 and Darren VanLeo with 10 shared scoring honors for V.I.P.

The final A League standings are Townhouse 14-2; Depot Restaurant 11-5; Ellsworth I.D.C. 7-9; Boyne Auto 7-9 and Village Inn Pizza 1-15.

COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

ELECTION NOTICE

TO THE ELECTORS OF THE COUNTY OF CHARLEVOIX, STATE OF MICHIGAN

NOTICE IS HEREBY GIVEN that at a special election to be held in the regular voting place in each election precinct in each City and Township in the County of Charlevoix, State of Michigan, on Thursday, the 7th day of April 1983, between the hours of 7:00 o'clock a.m and 8:00 p.m., Eastern Standard Time, the following proposition will be submitted to the electors of said County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

All electors of the County of Charlevoix are entitled to vote on the above propositions.

All electors, however, must be registered with the Clerk of the City or Township in which they reside.

This proposition is being submitted in accordance with the following resolution adopted by the Board of Commissioners of said County on the 9th day of February 1983.

STATE OF MICHIGAN
COUNTY OF CHARLEVOIX

WHEREAS, in the judgment of the Board of Commissioners of Charlevoix County, Michigan (the "County"), it is in the public interest to further aeronautical progress by providing for the protection and promotion of safety in aeronautics, and

WHEREAS, the County has an opportunity to advance the aforementioned public interest by acquiring and constructing a Federal Aviation Administration Flight Service Station (the "Project"), which Project constitutes "aeronautical facilities" within the meaning of Act 327, Public Acts of Michigan, 1945, as amended ("Act 327") and which the County is authorized to acquire, establish, construct, improve, maintain, equip and operate pursuant to said Act 327; and

WHEREAS, pursuant to Act 118, Public Acts of Michigan, 1923, as amended ("Act 118"), the County is empowered to authorize and direct the borrowing of money and to issue and sell bonds in connection therewith for the purpose of defraying the cost and expense of permanent improvements such as the Project; and

WHEREAS, the cost of the Project, including financing and contingent costs incident thereto, is estimated not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), which estimate of cost is hereby declared to be the estimated cost of the Project;

WHEREAS, it will be necessary to borrow the sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000) and issue bonds of the County therefor, for the purpose of paying the cost of the Project;

WHEREAS, the Board of Commissioners does hereby determine and declare that the estimated period of usefulness of the Project is not less than 30 years;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Pursuant to Section 2 of Act 118, the County Board of Commissioners hereby directs the County Clerk to call a special election to be held on Thursday, April 7, 1983, at which special election the following proposition shall be submitted to the electors of the County:

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

2. Shall proposition shall be stated on a separate ballot to be prepared and distributed by the County Clerk in the manner required by law, which ballot shall be in substantially the following form

OFFICIAL BALLOT
COUNTY OF CHARLEVOIX
STATE OF MICHIGAN

INSTRUCTIONS TO VOTER: Mark a cross (x) to the right of the word "YES" or "NO".

Bonding Proposition

Shall the County of Charlevoix, State of Michigan borrow the principal sum of not to exceed Seven Hundred Fifty Thousand Dollars ($750,000), and issue and sell its general obligation unlimited tax bonds therefor, for the purpose of paying the cost of acquiring, constructing, equipping and furnishing a Federal Aviation Administration Service Station in said County?

YES / /
NO / /

3. All public officials of the County of Charlevoix, State of Michigan, and all municipal units thereof, within such time as shall be required by law, be and they are directed to do and perform all things and acts which shall be necessary to be done or performed in order to submit the foregoing proposition to the electors of said County at the special election to be held therein on Thursday, April 7, 1983

4. The foregoing resolution shall not become effective or binding on said County until and unless the proposition herein directed to be submitted shall be approved by the registered electors of said County at said special election to be held therein on Thursday, April 7, 1983

A majority of the members-elect of the Board of Commissioners having voted in favor of the adoption of the foregoing resolution, the Chairman thereupon declares that said resolution was duly adopted

Jane E. Brennon
County Clerk

TAKE NOTICE that the County Board of Commissioners has estimated the expense of the aforesaid project to be Seven Hundred Fifty Thousand Dollars ($750,000), which it is necessary to raise by borrowing and issuing bonds of the County. Said bonds will be payable in annual installments which may not exceed thirty (30) in number and bear interest at a rate or rates to be determined at public sale. The maximum rate of interest, however, may not exceed the maximum rate per annum permitted by law on the principal amount of the bonds from time to time remaining unpaid

THE PRINCIPAL AND INTEREST OF SAID BONDS SHALL BE PAYABLE FROM SUCH FUNDS OF THE COUNTY LAWFULLY AVAILABLE FOR SUCH PURPOSE AND THE COUNTY IS REQUIRED BY LAW TO LEVY SUFFICIENT AD VALOREM TAXES, IF NECESSARY, FOR THE PAYMENT THEREOF UPON ALL TAXABLE PROPERTY IN THE COUNTY, WITHOUT LIMITATION AS TO RATE OR AMOUNT.

THIS NOTICE IS GIVEN pursuant to the statutes of the State of Michigan in such case made and provided and pursuant to resolution of the Board of Commissioners herein set forth.

County Board allots $3500 to Big Brothers - Big Sisters in one-time grant

The Charlevoix County Board of Commissioners, at its regular meeting Wednesday, took action on serveral issues.

The board gave approval to a $3500 appropriation to Big Brothers-Big Sisters of Charlevoix County, a one-time grant.

Approved an Animal Control budget of $22,819.

Agreed to enter into a contract with the Office of Highway Safety for an Alcohol Enforcement grant of $31,400 which will be made available to law enforcement agencies in the county to purchase hardware and supplies and overtime payments for the enforcement of new legislation relating to drunk drivers.

Approved the Secondary Road Patrol account which will be administered by the County Treasurer, Anah Potter, in an effort to get a more accurate accountability of funds expended for this purpose. Certain line items were taken from the Sheriff's budget to supplement $28,441 in state funds to support the program.

Referred a request for accumulated vacation pay by Undersheriff Dale Boehm to the Ways and Means committee. Boehm was present to answer questions relating to the request. The issue will be resolved at the April 13 meeting he was advised.

Made corrections and additions to the county map now being drawn in preparation for printing later this spring.

Heard a letter from Scott Beatty, prosecutor, relating to dual representation of the Board of Commissioners and the EDC and advising the commissioners that should a conflict of interest develop he would ask to be excused.

Approved a bill in the amount of $426 for repairs on the vehicle assigned to the county-wide house numbering team from the Building Codes Department. The money is to come from the contingency fund.

Heard a communication from Vivian Visscher, Clerk of St. James Township written in behalf of St. James and Peaine Townships, listing the monies in the amount of $16,567 expended for the med-evac plane located on the island until it was sold recently for $18,000. At the time each township was awarded $6,000 with the remainder going to the county for the expenses it had incurred in bringing the plane to the county and underwriting the insurance and other expenses.

CITY OF CHARLEVOIX COUNCIL MINUTES

March 21, 1983
8:00 P.M.

The Common Council of the City of Charlevoix met on the above date and time in Council Chambers, 210 State Street, Charlevoix, Michigan with Mayor Staley presiding.

Present: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Absent: None.

The Minutes of March 7, 1983 were amended as follows:

Resolution 83-3-1, item 4, paragraph 2 was printed incorrectly to read:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and construction improvements to the City's Water Supply System consisting of a treatment plant, pumps, power, pump station, chlorine contact tank and all necessary attachments and appurtenances?

and was corrected to read:

WATER SUPPLY SYSTEM BOND PROPOSITION

Shall the City of Charlevoix, County of Charlevoix, Michigan, borrow the principal sum of not to exceed One Million Six Hundred Fifty Thousand Dollars ($1,650,000) and issue its general obligation unlimited tax bonds therefor, for the purpose of acquiring and constructing improvements to the City's Water Supply System consisting of a treatment plant, pumps, pump station, chlorine contact tank and all necessary attachments and appurtenances?

The Minutes of March 7, 1983 were approved as amended.

A Public Hearing was held regarding a request by Jack Uhrick to rezone the property at 102 East Dixon from R-1 to R-4 to allow construction of a five or six unit condominium. The City Manager stated that the Council would not be making a decision on the matter at this time as the Planning Commission had not completed their review of the proposed project. Mr. Uhrick and Hans Wiemer, architect for the project, pointed out that other multiple uses currently exist in the area of the proposed project and that the R-4 zoning would require larger setbacks and more restrictions than R-1. Mr. Wiemer also stated that the project would not require any variances and would abide by R-4 requirements. Several property owners in the area objected to the project on the grounds that approval may set a precedent for further R-4 development along Dixon Avenue, that it would add additional stress to the sewer system in the area, which is already a problem, and that the project may be a deviation from the proposed use of this property in the City's Master Plan.

Moved by Councilman Olach and supported by Councilman Porter to adjourn the Public Hearing regarding the rezoning of the property at 102 East Dixon from R-1 to R-4, as requested by Jack Uhrick, to the April 18, 1983 regular Council meeting, pending completion of the review of the proposal by the Planning Commission.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

A Public Hearing was held regarding a request by David Murray to rezone the property at 1505 Bridge Street from Industrial (I) to Commercial (C-1) to allow a marine sales and service on the site. Council discussed Mr. Murray's proposal to display boats on City Airport property and in the setback areas on the site. Mr. Murray stated that Harbor Industries, the adjoining property owner, will allow him to store boats on their property. The City Attorney stated that the City Zoning Ordinance prohibits storage of recreational vehicles in side or front yard setback areas and the restriction applies to all zoned districts not just residential.

The following Amendment to the City Zoning Ordinance was offered and moved for its adoption by Councilman Olach and supported by Councilman Wood.

(See Ordinance No. 425 published elsewhere in this edition of the Courier.)

Ordinance was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

The Site Plan and proposed use of City Airport property for David Murray's marine sales and service were returned to the Planning Commission for further study in the following areas:

1. Determination of lot dimensions and where the building is situated on the lot.
2. Determination of how many boats may be stored on the lot and location of such storage.
3. Feasibility of changing the Zoning Ordinance to allow storage of moveable objects in commercially zoned setbacks.
4. Long term results of Mr. Murray's lease.
5. Feasibility of use Airport property and how much would be required.
6. Effect of City's previous commitment to provide parking on the Airport for Freedman Aircraft. (Now Harbor Industries.)

The following Resolution was offered and moved for its adoption by Councilmen Wood and supported by Councilman Porter.

RESOLUTION NO. 83-3-4

WHEREAS, co-operation between units of local government is increasingly important to preserving jobs, holding down the costs of government, and maintaining public services; and

WHEREAS, a proposal has been presented to the State Boundary Commission to consolidate the governments of the City of Charlevoix and Charlevoix Township; and

WHEREAS, consolidation is one of several means to co-ordinate local government services; and

WHEREAS, consolidation might have significant effects on the quantity, quality, and costs of local public services, and

WHEREAS, voters will be asked on May 2nd whether the consolidation process should be continued, and

WHEREAS, if the voters say yes on May 2nd, the next step would be the formation of a consolidated charter commission to draft a charter and consolidation plan, containing the details of the government structure and the specifics of how each service would be consolidated, and

WHEREAS, this charter commission will have equal representatives from the City and Township, and

WHEREAS, the charter and consolidation plan must be approved by the voters, and can be turned-down if it is not to their liking, and

WHEREAS, no one can tell whether consolidation will benefit the area's citizens and taxpayers until the charter and consolidation plan are drafted; and

WHEREAS, the voters deserve to know the specifics of the charter and consolidation plan before the proposal is put to rest,

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Charlevoix that it shall ask City voters to "say yes on May 2nd", thereby allowing preparation of a detailed consolidation plan and charter for consideration by the voters, and

BE IT FURTHER RESOLVED, that the City Council hereby calls upon the Charlevoix Township Board to adopt a similar resolution, to encourage Township voters to allow the consolidation plan and charter to be drafted for voter consideration.

RESOLVED, this 21st day of March, 1983 A.D.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

The following Resolution was offered and moved for its adoption by Councilman Porter and supported by Councilman Wood.

RESOLUTION NO. 83-3-5
MT. McSAUBA SOIL EROSION PROJECT
City of Charlevoix, Michigan

WHEREAS, the City Council on May 5, 1980, authorized the preparation of a Measure Plan through the Northwest Michigan Resource Conservation and Development Program (RC & D) to prevent soil erosion at the Mt. McSauba Recreation Area; and

WHEREAS, a measure plan has been developed which would prevent erosion by establishing vehicle barriers and windbreakers, by erecting access gates and surfacing trails, and by planting beach grass and other erosion control measures; and

WHEREAS, the total cost of these improvements has been estimated at $46,300, of which the Federal government through the RC & D program, will contribute $33,500.

NOW THEREFORE BE IT RESOLVED, by the Council of the City of Charlevoix that it hereby authorizes execution of a contract between the City and Soil and Water Conservation Services to undertake the Mt. McSauba Soil Erosion Project, and

BE IT FURTHER RESOLVED, that the Council does hereby commit $12,800 in required local matching funds, of which at least $4,000 shall be in the form of in kind services.

RESOLVED this 21st day of March, 1983, A.D.:

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

Tim Benton, District Engineer with the Water Quality Division, State Health Department, discussed the phased construction of the City's proposed water treatment plant with the Council. Mr. Benton reiterated the Health Department's earlier position that construction permits will not be issued for any portion of the plant until the Council gives a complete commitment to constructing the entire plant. The phased construction in relation to the financing of the plant and capacity of the plant were also discussed at length.

Council generally agreed to allow a kite flying contest to be held at Ferry Beach Park on March 26, 1983 as requested by the Episcopal Church, contingent upon certain conditions as established by the City Manager.

Moved by Councilman Wood and supported by Councilman Timms that fire and ambulance service contracts with Marion Township for 1982-83 be approved retroactively at the rates of .0004 x the valuation for fire protection and .0001 x the valuation for ambulance service.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

Moved by Councilman Olach and supported by Councilmen Timms to approve a dental insurance contract for the City's CWA public works employees with Blue Cross/Blue Shield.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

The City Manager stated that a proposed sewer extension to provide sanitary sewer service to areas in South Charlevoix Township is being reviewed by Dick Force of the engineering firm of McNamee, Porter, and Seeley at no charge to the City.

The following Resolution was offered and moved for its adoption by Councilman Timms and supported by Councilman Wood.

RESOLUTION NO. 83-3-6

WHEREAS, the City Attorney has rendered an opinion that lot splits are more appropriately reviewed by the City Council then the Board of Appeals:

NOW THEREFORE BE IT RESOLVED, by the Council of the City of Charlevoix that the following procedure is hereby established for the processing of lot split applications:

Lot Split
1. Application to be filled out.
2. Legal description of property and legal description of property after lot split.
3. Sketch of all buildings on property, distances from lot lines and distances from proposed lot lines.
4. Fee paid to Treasurer.
5. Notification of property owners within 300 feet of the proposed lot split, 14 days prior to City Council meeting.
6. City Planning Commission for recommendation.
7. City Council.
8. If approved, change all maps, and notify County Equalization and Assessor.

BE IT FURTHER RESOLVED, that this Resolution shall take affect upon adoption by the Board of Appeals of a Resolution absolving the Board's involvement in lot split reviews.

RESOLVED, this 21st day of March, 1983, A.D.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

William Bellows, James Block, Melvin Renaud, and Larry Martin were each nominated by members of the Council to fill the vacant Council seat in the Second Ward created by the death of F. Ivan Whitley.

Moved by Councilman Timms and supported by Councilman Olach that nominations be closed.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, and Wood. Nays: None. Absent: None.

Council voted to fill the position by secret ballot with James Block receiving the majority of votes cast. The appointment of Mr. Block was unanimously endorsed by voice vote. Mr. Block took the Oath of Office as administered by the City Clerk.

Council nominated Melvin Renaud and Frank Cook to serve on the Charlevoix County Economic Development Commission's project committee for the proposed Weathervane/Fochtman/Finn project.

The Compensation Commission's determination of March 8, 1983, setting the City Clerk's salary at $20,900 and proposing no change in the salaries of the Mayor and Councilmembers was presented for Council's perusal.

The following Resolution was offered and moved for its adoption by Councilman Olach and supported by Councilman Wood.

RESOLUTION NO. 83-3-7
CREDIT CARD
City of Charlevoix, Michigan

WHEREAS, a Master Charge Credit Card is less costly to maintain than oil company credit cards:

NOW THEREFORE BE IT RESOLVED, that the City Treasurer is authorized to obtain a Master Charge card for authorized out of town travel by City officials, and to discontinue any oil company credit cards.

RESOLVED, this 21st day of March, 1983 A.D.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, Wood, and Block. Nays: None. Absent: None.

Moved by Councilman Porter and supported by Councilwoman Roloff to approve the following policy for use of the Council Chambers/Community Room in City Hall by outside groups:

Use Policy
COMMUNITY ROOM
City of Charlevoix, Michigan

1. Use by local non-profit local community organizations only.
2. Not to be used by private businesses or other groups or individuals for personal or financial gain.
3. If used during City Hall business hours, must not be of a disruptive nature.
4. Not to be used by other governmental agencies that have meeting facilities.
5. No food, alcoholic beverages, or smoking in the room.
6. All meetings are to be scheduled in advance with the Fire Department.
7. A fee of $5.00 per meeting will be imposed to cover janitorial duties for non-City meetings.
8. Room to be used as an occasional meeting room only, and not on a regularly scheduled basis, except for official City business.
9. The City reserves the right to deny usage or to cancel usage without notice.
10. Fixtures are not to be left in City Hall.
11. Groups are to leave the room in the same condition as they found it.

Motion was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, Wood, and Block. Nays: None. Absent: None.

Council made no decision at this time regarding the possible cancellation of the March 28, 1983 Committee of the Whole meeting when the City Manager will be on vacation.

The following Resolution was offered and moved for its adoption by Councilman Timms and supported by Councilman Olach.

RESOLUTION NO. 83-3-8

The City of Charlevoix supports Big Rock Nuclear Plant in its effort to expand the capacity of its spent fuel pool.

Resolution was adopted by the following yea and nay vote.

Yeas: Councilmembers Olach, Porter, Timms, Roloff, Wood, and Block. Nays: None. Absent: None.

Council approved the payment of bills totaling $242,500.52.

Council adjourned.

Deanne Balch, City Clerk

Kenneth A. Staley, Mayor

March 25	36	3	0
March 26	44	15	0
March 27	34	23	0

Names In The News

Pvt. PATTI-KAYE M. POLK, daughter of Harold E. and Edith L. Covert of Boyne City, has completed basic training at Fort Dix, N.J.

During the training, students received instruction in drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

She is a 1980 graduate of Chippewa Valley High School, Mount Clemens, Mich.

●

Helen Emmons (left), Assistant Cashier at the First State Bank of Charlevoix, and W. Michael Zinn (right), Assistant Cashier at the Charlevoix County State Bank, Charlevoix, have completed the second year session of the Northern Michigan School of Banking at Northern Michigan University. Shown with them is NMU President John X. Jamrich. The banking school, which has completed its nineteenth year, is attended by bankers from both peninsulas of Michigan and from northern Wisconsin. It is sponsored by Groups I and II of the Michigan Bankers Association and Northern.

KRISTY MATHEWS, an Alma College junior from Charlevoix, is one of 14 Alma students selected this year for membership in Phi Beta Kappa, America's most pretigious scholastic honorary society. Phi Beta Kappa members are selected on the basis of their outstanding academic achievement in the traditional arts, sciences and humanities.

To be eligible, students must have 90 credits in liberal subjects among the 136 credits needed for graduation. Eligibility also requires at least a 3.75 grade point average (GPA) for a junior and a 3.50 GPA for a senior in liberal subjects and studies (excluding grades in applied or professional areas), and generally, a year of college mathematics and proficiency in a foreign language through the intermediate level.

Nationwide, approximately eight percent of the eligible students are selected for membership by the 234 chapters. Phi Beta Kappa, founded in 1776, has as its purpose "to encourage excellence in liberal arts education." Alma's Phi Beta Kappa chapter, Eta of Michigan, was installed in April 1980 and this is the fourth year new members have been selected at Alma.

Kristy, a 1980 graduate of Charlevoix High School, is the daughter of Vernon and Andrea Mathews of Charlevoix. She is majoring in economics at Alma College.

●

SCOTT BOOCHER, 1982 graduate of Charlevoix High School has completed the Freshman year at De Vry Institute of Technology of Phoenix, Arizona.

He was named to the Presidential Honor Society with a grade point average for both semesters of 4.0. He is majoring in Computer Science.

TERRY SALMONSON, above, owner of the Aartvark Studio in Charlevoix, has been awarded the designation of Certified Professional Photographer. The honor came at the recent annual meeting of the Professional Photographers of Michigan (PPM) in Battle Creek. To be named as such, applicants must be members of the PPM for three years, submit ten samples of their work and meet certain other professional standards. Applications are judged by five members of the PPM certification committee. Photography awards won by Salmonson at the convention included one Excellence award, two Honor awards and a Merit award.

CRAIG BOSS of Charlevoix is a member of the 61-voice Hope College Chapel Choir which is conducting its annual spring trip with concerts planned in six states. The choir, under the direction of Roger Rietburg, will appear in Illinois, Indiana, Iowa, Minnesota and Wisconsin as well as Michigan.

●

The following students from this area were recently included on the Dean's List at Lake Superior State College for the term just ended: SHELLEY KEVELDER of Charlevoix and JEFFREY CHANDA, BEN GRIFFIN and TOM PETERS of East Jordan.

●

U.S. Navy Electrician's Mate Fireman EDWARD J. FRYE, son of James and Beverly Frye of Charlevoix, was recently named Junior Sailor of the Quarter by the officers and crew of the U.S.S. Camden stationed in Seattle, Washington. He is the grandson of Claude and Doris Pearsall and the great grandson of Ethyl Pearsall, all of Charlevoix. Frye is a 1978 graduate of Charlevoix High School and was an employee of the City of Charlevoix before entering the Navy.

●

LEWIS "Scrappy" MOORE, son of Owen and Arlene Moore of Boyne City, graduated March 12 from Michigan State University with a degree in Engineering. He is a 1977 graduate of Boyne City High School.

Cheryl Thayer accepts Scouting leadership awards for herself and Gloria Kirk.

Two CHS soloists receive Is at State contest

Two Charlevoix High School instrumentalists received top I ratings in Proficiency I and two others received II ratings in the same category at the State Solo and Ensemble festival at Cheboygan Saturday their director, Terry Isenberger, has announced.

Peter Plagge and Andre Fiedler each received I ratings in Proficiency I for their solo performances on the trombone.

Tom Graf, with a trumpet solo, and Stephanie Balch, with an alto saxophone solo, were awarded II ratings for their performances in Proficiency I.

A clarinet quartet composed of Kim Brosofske, Kathy Dohm, Cheryl Aull and Laurie Moore received a II rating.

The students had qualified earlier for state competition by receiving top ratings in District competition sponsored by District II of the Michigan School Band and Orchestra Association.

Seven Middle Schoolers honored

Seven of 12 Charlevoix Middle School entries in the District II Michigan School Band and Orchestra Festival Junior High Solo and Ensemble Festival at Harbor Springs recently received the top I rating their director, Terry Isenbarger, has announced.

The other five received II ratings.

Receiving I ratings were Michelle North, flute solo; Ember Spencer, flute solo; Ellen Pearl, clarinet solo; Laura Reibel, piano solo; Susan Kang, piano solo; Dan Stanblin, snare drum solo; Michelle North, Ember Spencer and Michelle Louiselle, flute trio.

Entries that received II ratings were Jill Austin for an oboe solo; Sandy Brosofske, alto saxophone solo; Mindy Hand, flute solo; Kim Parks and Kristen McLelland, alto saxophone duet; Kaye Stoneham, Tricia Blissett, Amy Kelly and Jennifer Bonar, flute quartet.

Junior high students do not advance to a state festival.

Middle School student Ember Spencer plays her flute solo for which she received a I rating.

Scout leaders honored

Local adults in Boy Scouting were honored at an Annual Recognition Dinner held at the Methodist Church in Petoskey, March 19, 1983. Tony Gardner of Central Lake, a veteran of 47 years in various positions in the Scouting program was the recipient of the 1983 Award of Merit, the group's top award.

Others recognized for their outstanding leadership and assistance were Vic Amey, Alanson, Scoutmaster, Carl Robinson, Gaylord, Commissioner, Roger Clark, Alanson, Assistant Scoutmaster, Mary Carpenter and Bonnie Jaslove, Harbor Springs, Den Leaders, Sallie Gardner, Central Lake and Gloria Kirk, Charlevoix. Committee Members, Ken Kory, Petroskey, District Committee Member and Lynn Stephens, Gaylord and Al Reynolds, Boyne Falls, Special Recognition.

Trainer awards were presented to: Norm Keiser, Levering; Jack Jakab, Marlon Kaminski, Dr. Beverly Zelt and Bob Akins of Petoskey; Tom Dubry, Jerry Matthews, Dick Walker and Marvin Kelso of Gaylord; Dave Johnston and Carol Smith of Harbor Springs; Roger Clark of Alanson and Cheryl Thayer of Charlevoix.

Cub Training Award was given to Roger Clark; Organizers awards were given to Marvin Kelso, Dick Brown, Jery Matthews, Norm Keiser, and Dick Brown of Petoskey, Jan Kimbler of Vanderbilt and Jerry Greves of Gaylord.

Scouter Keys were awarded to Dick Walker and Carl Robinson.

Arrowhead honors were awarded to Ken Kary, Dick Brown and Mario Kaminski.

Approximately 175 people attended the event.

Bay Queen will apparently be back in Charlevoix

by DAVE KNIGHT

After a flurry of recent speculation, indications are that the Bay Queen dinner cruise vessel will be back in Charlevoix for the summer.

As recently as last Wednesday, the management of the Bay Queen - Sea Hawk cruises was reportedly deliberating the purchase or renovation of a different vessel to serve Charlevoix this summer. The Bay Queen has operated out of its Round Lake headquarters the past two summers. Its overwhelming success - over 30,000 meals served last year alone - has been cited as a major contributor to Charlevoix's important summer tourist trade.

Ann Hendricks, manager of the Bay Queen's operation last year, said last Wednesday that Bay Queen owner John McGoff was contemplating leaving the Bay Queen at its present quarters of Sanford, Florida because of its great success there this past winter.

Ms. Hendricks said that another dinner cruise operation is planned by McGoff for Chicago this season but that there were never plans to leave Charlevoix without a dinner cruise boat, even if the Bay Queen was not to return.

On Friday, however, Robert Leipprandt, also associated with the Bay Queen cruises, contacted both acting city manager Robert Muma (city manager Robert Hunt was on vacation) and Charlevoix Chamber of Commerce executive director Jacquie Merta with the assurance that the Bay Queen will indeed be returning to Charlevoix this summer.

Leipprandt could not be reached early this week for further confirmation.

Ms. Hendricks said last week that the dinner cruise boat to be stationed in Chicago is being built in Warren, Rhode Island and will be named the "Star of Chicago". It will have a seating capacity of 450 with enclosed dining on both decks.

"This is what we'd like to have in Charlevoix if the Bay Queen would stay in Florida," she said, "It would be called the 'Star of Charlevoix'."

Fall rail tours to pay visit here

Forlow Tours, the John McGoff-owned travel agency responsible for the Bay Rail Express train tours initiated between Charlevoix and Petoskey last year, plans a series of 12 rail tours to Charlevoix this fall originating from the Chicago area.

Forlow spokesman Cy Kennedy said last week that arrangements have been finalized with Michigan Northern Railroad for 12 three-day trips, with capacity for 200 passengers on each one, that will feature a luncheon cruise on the Bay Queen dinner boat and an afternoon of shopping in Charlevoix. The first trip arrives in Charlevoix September 19 with the rest arriving every two to three days until October 13.

Dubbed the "Bay Rail Fall Foliage Express", the three-day package begins in Chicago where passengers board motorcoaches for a trip to Mancelona. After two nights at the Schuss Mountain Resort, the tour boards the Bay Rail Express and travels north through densely wooded areas to Petoskey. Tour members will have about an hour to explore the Gaslight District and other points of interest in downtown Petoskey before boarding the train for the trip along Little Traverse Bay to Charlevoix.

Upon arrival in Charlevoix, tour members will be shuttled to the luncheon cruise on the Bay Queen and later allowed time to shop in the downtown area. The Bay Rail Express will feature at least nine cars including a steam generator car to provide heat and air conditioning, a crew dormitory and baggage car, two local passenger cars, a diner-bar lounge car, two long haul coaches and two dome cars.

While the Bay Rail Express is planning no service to Charlevoix this summer, a series of three-day package tours are being planned to Mackinac Island with basically the same itinerary as the Fall Foliage trips but with Mackinaw City as a final destination rather than Charlevoix.

According to Kennedy, the summer and fall rail tours will be the first series of passenger trains to travel through Northern Michigan since 1963.

TO BE INDUCTED *into the Michigan High School Football Coaches' Association Hall of Fame this Saturday is Don Carey, coach of the Charlevoix High School Rayder football team for 27 years. A coach must have at least 100 career wins or have coached for 20 years or more to be considered for the honor by the association's selection committee. Carey has won 152 games at Charlevoix, lost 65 and tied 11. He will be among the first 30 coaches inducted in the Hall of Fame; the 13 now in the Hall were the founders of the association. The ceremony will be held at Crisler Arena on the University of Michigan campus in Ann Arbor. Guest speakers will be U of M coach Bo Schembechler and former Ohio State coach Woody Hayes.*

Transit employees air ideas to panel

by FRAN MARTIN

Employees of the Charlevoix County Transit System were invited recently to meet with the ad hoc committee named by the Charlevoix County Board of Commissioners to reveiw the operation of the system.

The meeting resulted in the airing of criticisms of the management of the operation and recommendations for improving it.

Chief among the recommendations was that the operation of the transit system be separated from the Commission on Aging because the employees felt they are incompatable.

Among the issues presented for consideration by the ad hoc committee were lack of training for new drivers, the need of a qualified mechanic to keep the buses in proper repair, lack of consistent decisions regarding policies, abuses by the public that are permitted such as ordering buses and then failing to cancel a call thus having the driver travel miles only to be told the bus is no longer needed, unreasonable demands by the public that are condoned by management, and poor utilization of personnel, routes and hours among others.

Equally as many suggestions to solve some of the above mentioned criticisms were presented by the drivers and dispatchers who were present. The committee said it would take their recommendations under advisement.

Spokespersons for the seven employees were Gene Beer, Barbara Syfert, Kelly Stackus, George Kraft and James Erhke.

Earlier in the meeting Art Saworski, director of the system, was questioned by members of the committee regarding his record keeping methods, the manner in which the state is billed for is 75 per cent of the operation, the schedule for these payments, and other information relating to the operation of the system.

The transit system is presently financed on a 75-25 basis by the state and the county with the latter supplementing the fare box to make up the 25 per cent. Effective July 31, 1983, the financing will be on a 50-50 basis with the county supplementing the fare bos with monies from a millage levy approved in November 1982. Prior to July, 1982, the system was financed by the state with the exception of monies from the fare box.

Members of the ad hoc committee are Donald Smith of the Board of Commissioners, chairman; Fred Welch, manager of the Charelvoix County Road Commission; Vincent Church, business manager of the Charelvoix School district; Marvin Loding of the Commission on Aging and Ralph Richardson, representative at large.

Gone but not forgotten; Winter of '82-'83 was conspicuous in its absence

by DAVE KNIGHT

It was just about this time last year that folks around Charlevoix were shaking their heads over some unforgettable winter weather...the harshest in recent memory.

This year, folks around Charlevoix are shaking their heads over some unforgettable winter weather again...the mildest in recent memory.

A meager total of 39.1 inches of snow had fallen in Charlevoix as of the end of March and that includes every snowflake of the season going back to November, 1982 when the first flurries of winter appeared.

Last year at the same time about 102 inches of snow had fallen.

According to Lloyd Kuebler, supervisor of the Charlevoix Waste Water Treatment Plant who keeps records of precipitation and temperature for the National Weather Service, the cumulative snowfall for the winter of 1982-83 is the lowest on record and records go back as far as 1948.

The lowest total until this year was logged in 1957-58 when 48.7 inches were measured. In 1978-79, by contrast, 181.5 inches of snow fell over the winter.

By Christmas, 1982, just the time local ski slopes were hoping for optimum conditions for the vacationing crowds, only six and half inches of natural snow had fallen. That is not to say that there was no precipitation, however. December saw about three and a half inches of rain wash away whatever snow there was. Had the temperature been cooler at the right times, that rain could have been over 30 inches of snow.

Christmas Day was a portent of the weird winter that was to follow; balmy temperatures in the 50's that day prompted Charlevoixians to desert the Christmas tree for a day of jogging and backyard barbeques.

Actually the mean temperatures of December, January and February do not appear as abnormal as one might expect. The average highs for those three months were 35, 27 and 33, not far off the norm according to Kuebler. The average lows, however, were 21, 14 and 16 for those three months respectively, with very few days below zero compared to normal years.

The extremes were the oddities. On February 20, for example, the high temperature hit an unbelievable 56 degrees. Kuebler thinks the fact that Lake Michigan did not freeze was a major contributor to the mild temperatures on the mainland.

The climatic abnormalities had varying impacts on crops, livestock and wildlife in the area.

Cooperative Extension horticulturist Chuck Kesner said that fruit trees in Northwestern Michigan, while still at a vulnerable stage, have not shown much sign of severe damage as yet. Although some media reports have indicated that Michigan's cherry crop could be threatened, Kesner said that the those reports refer primarily to areas south of Charlevoix County.

The cold snap of two weeks ago prompted some nervousness as temeratures dipped below ten degrees, said Kesner, but at this point fruit trees appear to be about ten days to two weeks ahead of schedule. More cold weather, however, could stall the budding process and put them right back on a normal schedule.

Most of the fruit crop in the Charlevoix area is devoted to apples and Kesner believes that if any crops are especially vulnerable right now, it is the peach and sweet cherry crops.

Wildlife biologist Doug Whitcomb of the Gaylord Department of Natural Resources office said that the mild winter was easy on the area's deer herd but that hunters should not expect to see that many more deer this coming season.

Whitcomb said that after the harsh winter of last year which was hard on deer, this year's fawn production should eventually bring the herd back to a normal level. In fact, the deer population in Charlevoix County has been considerably down and may prompt the elimination of an antlerless hunt this season, Whitcomb said.

Cooperative extension agent Rod Cortwright said that thanks to a wet fall, the water balance in the Charlevoix County soil is adequate even without the normal snowfall over the winter. Unless the area experiences a dry spring, he said, farmers should be able to get into the fields early and enjoy a good growing season.

Shamrock Bar lives on with new owners

by FRAN MARTIN

"It was a great St. Patrick's Day. And it was wonderful meeting the new people" was the consensus of island residents who gathered at the Shamrock to celebrate the anniversary of the patron saint of the Irish and to greet the new owners of the bar that is the hub of social life on America's Emerald Isle.

Most island families were represented at the celebration which also introduced Dr. and Mrs. Michael F. Macken of Kalamazoo to those who had not met them earlier.

But first, a little about the Shamrock which definitely is not the run-of-the-mill bar. "It's more like a real Irish pub, a place where people gather to socialize, to share the news of the day, a central meeting place to spend time with old friends and to meet new ones" Archie LaFreniere, the former owner who was among those gathered for the special event, described the place.

Dr. Macken, a cardiologist, and his wife, Virginia, have assured everyone that they'll not change the atmosphere of the Shamrock which, through the years, has been a meeting place for not only old and young alike but the site of several weddings, numerous wedding and anniversary receptions, the annual Christmas party for the youngsters on the island and, on one occasion, a courtroom for a murder trail. In fact, island residents boast that the Shamrock is probably the only bar in the country, certainly one of a few, that was given space on the front page of the New York Times for its uniqueness rather than as the site of a violent crime.

The Mackens who have purchased the Shamrock from Barbara Beckers, its owner for the past 10 years, realize that the place has become an institution and are not about to change it anymore than Ms. Beckers did when she acquired the property.

Just as Ms. Beckers took over

For Saints and Sinners

by Pastor Walt Hastings
Community Church of God

Author Jamie Buckingham tells of two elderly aunts on his mother's side of the family. Several times a year they made a pilgrimage from their home in Florida to a mountain home in North Carolina. They had an old Ford which they jointly owned, but Aunt Bertie would never let Aunt Beulah drive it because she said Beulah drove too slowly. Aunt Bertie herself usually drove at the breakneck speed of thirty-five miles an hour.

One summer, driving through Georgia, they lost their direction and couldn't tell where they were. Aunt Bertie said they had already passed through Waycross and Aunt Beulah said they hadn't reached Waycross yet. Spotting an old Georgia farmer standing by the side of the road they pulled to a stop beside him.

Aunt Bertie, who always took charge, said, "Now, mister, we need help and we want a straight anawer from yon! Do you understand?"

The old fellow looked kind of blank and nodded his head, afraid to do otherwise. Bertie continued, "Now, I'm going to ask you a sensible qnestion and I want a direct answer. Are we on this side of Waycross or the other side?"

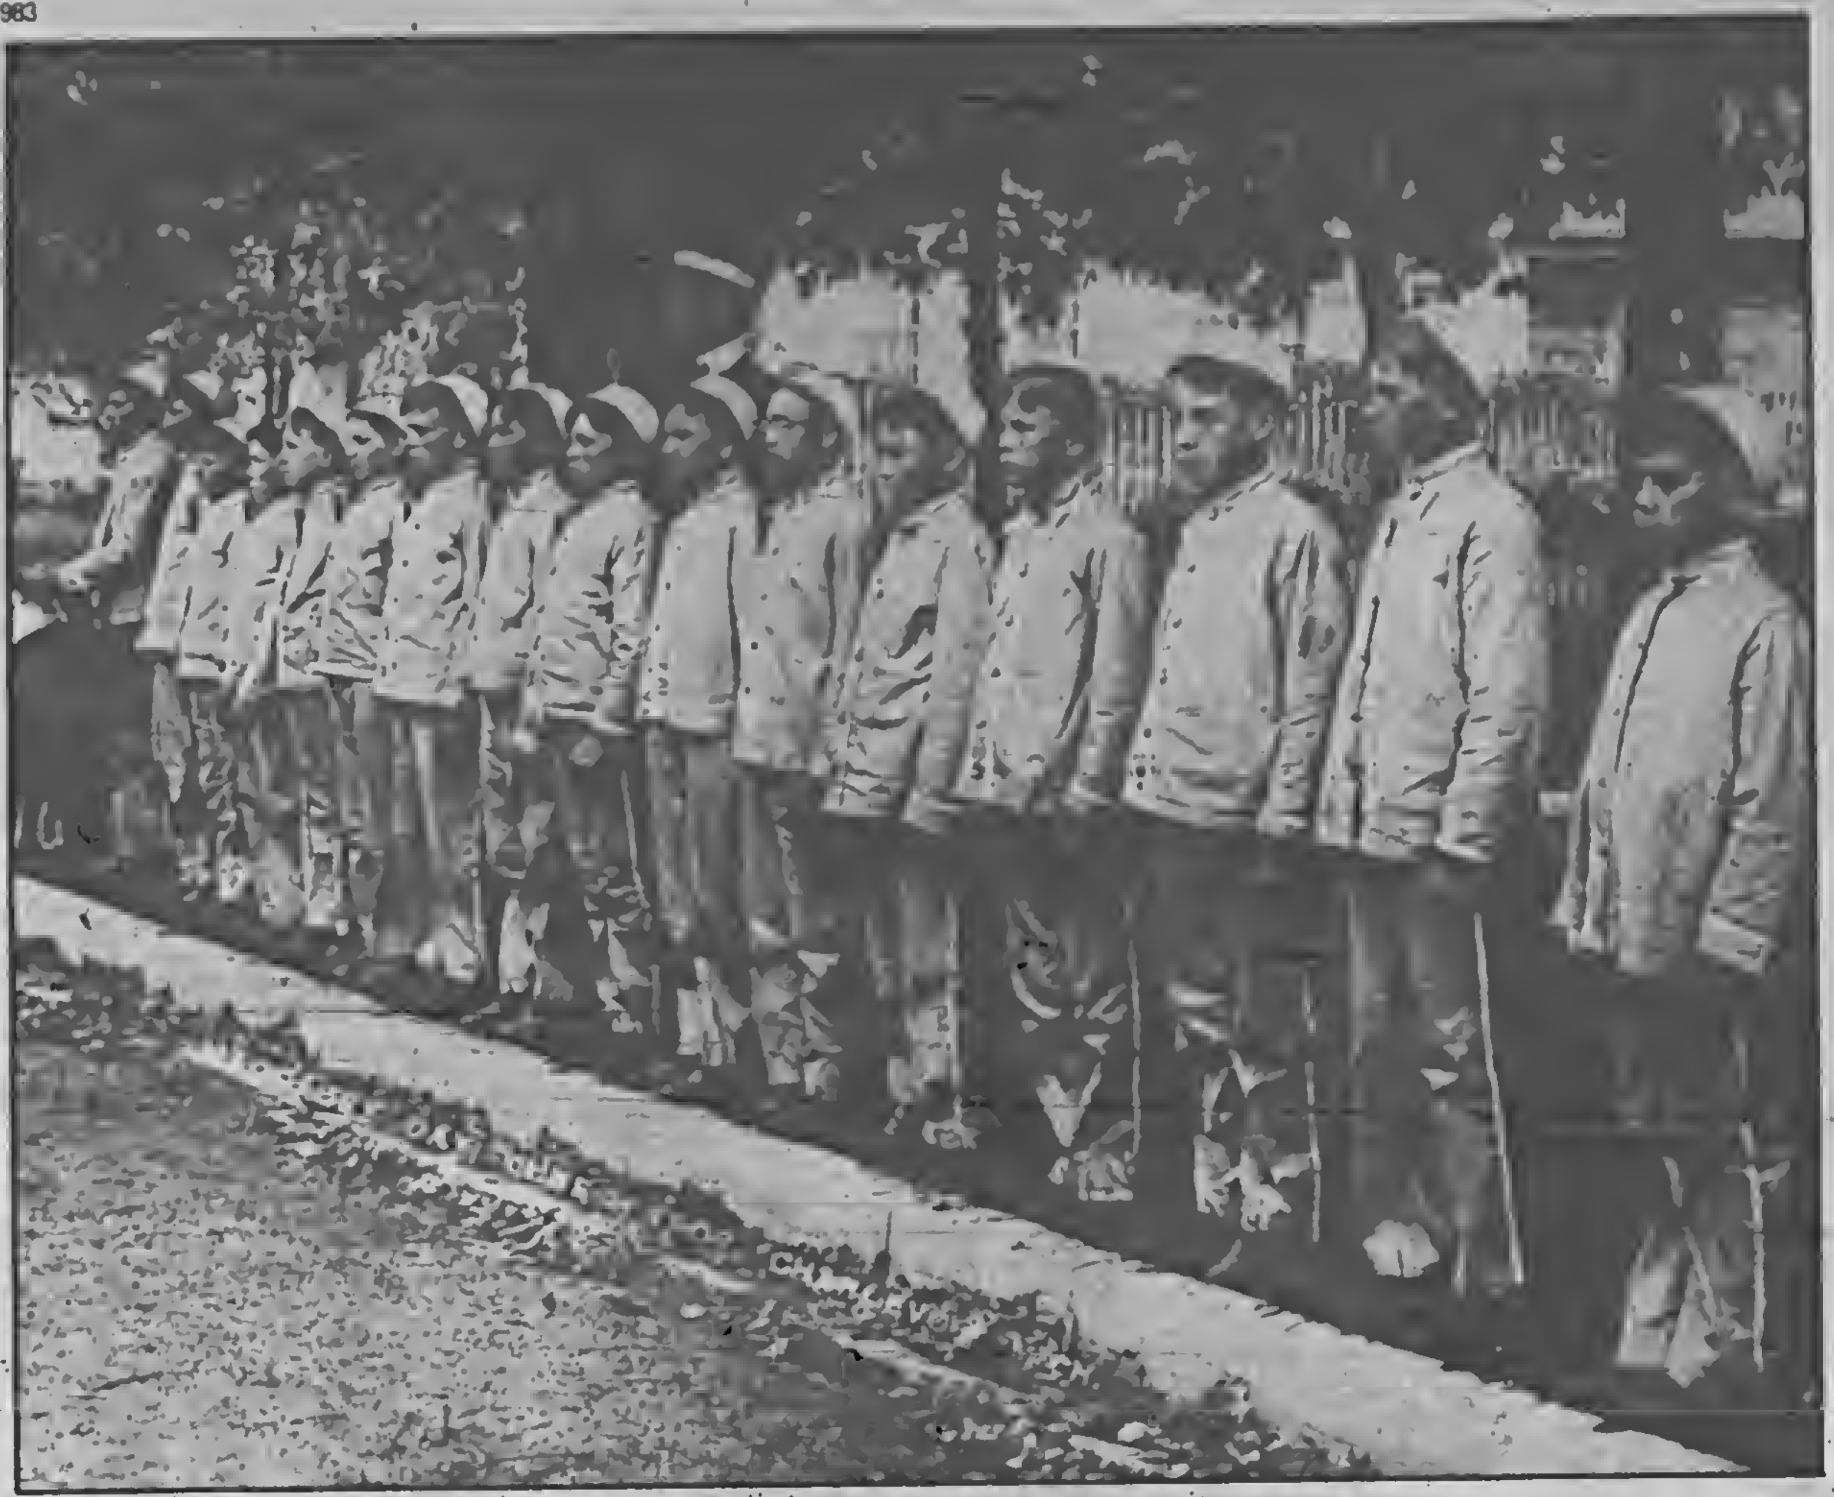
The old man scratched his head for a moment, then answered, "Why, lady, you're on this side, of course."

"See," Bertie shouted a Beulah, "I told you so!" And off they drove, leaving the old fellow still scratching his head, more perplexed than ever.

Is that the kind of reaction your life and conversations have on othera? Do you leave them perplexed, wondering which side of the resurrection you're on? We have just celebrated Easter and the resurrection of Jesus from the dead. He died so that we could have new life and the assurance that there is more beyond the scope of our existence.

A rare Spanish coin was minted in the 15th century, which bore the imprint of a drawing of the narrow strait between Europe and Africa near Gibralter, called the Pillars of Hercules. Inscribed at the bottom were the Latin words "Ne Plus Ultra" - meaning "No More Beyond". To the Spanish of that time, that was it. There was nothing else out there. Then came Columbus, and when he proved that a new would lay beyond, they had to remove the "ne" from all the coins. From that time on they read "Plus Ultra" - "More Beyond".

The resurrection of Christ declares that there is more beyond this earthly existence. May your life show which side of the resurrection yon're on, and may it shout loudly, "There's more beyond!"



Charlevoix Yesterday

This drill squad of young Charlevoix boys was was assembled for what appears to be "Maggabee Day" on June 21, 1907. (Photo courtesy of Tinker Kirby.)

Mrs. Priest writes

Mrs. Rosella Priest, a former resident, in a recent letter to Mrs. C.D. Geiken, asked to be remembered to her many friends here.

Mrs. Priest, 92, now lives in Ottawa, Ohio, with her niece, Kate Diehl.

DeMott to be guest speaker

Harold DeMott

Dr. Harold DeMott, pastor of the Church of the Nazarene at Three Rivers, Michigan, will be the guest speaker at a series of revival meetings to be held at the Church of the Nazarene on Waller Road the week of April 12 through April 17 the Rev. James Raum, pastor of the local church, has announced.

The local revival services will be a part of a world wide observance of the 75th anniversary of the denomination.

Dr. DeMott will deliver revival messages at the local church at 7:30 p.m. nightly Tnesday, April 12, through the following Saturday evening and at the 11 a.m. worship service and the 6:30 p.m. service on Sunday, April 17.

A graduate of Olivet Nazarene College and Nazarene Theological Seminary, Pastor DeMott holds the Doctor of Ministry degree, also from the Nasarene Theological Seminary. He served churches in Indiana and Georgia before assuming his present pastorate.

In addition to his pastoral dutiea, Dr. DeMott aerves on several boards and committees of the Michigan District Church of the Nazarene. He is the anthor of several articles published in the Herald of Holiness.

Dr. DeMott and his wife, Sheila, are the parents of three children, sons 13 and 11 years and a daughter, six yeara of age.

In announcing the anniveraary year revival meetings, the Rev. Raum has extended an invitation to the public to attend the meetings.

Tim Matter and his new store.

Matter hopes success will come 'naturally' to his new food store

If it were a soap opera, the plot of Tim's Natural Foods might read something like, "Can a town raised on fudge find true happiness with mung beans and coconut milk?"

Tim Matter thinks the answer to that question is "yes" and to prove himself right he has transformed the former Standard station and produce stand on the corner of State and Antrim Streets into Charlevoix's only business specializing in natural health foods.

"The foods most people eat today are too highly processed and contain too many chemical additives," says Matter, "I think that's why the cancer rate has increased so much."

Matter, (rhymes with potter), was first exposed to natural foods when in college and is now a disciple of the concept. He is primarily a vegetarian - "though not a strict one" - and believes strongly that living right means eating right.

Tim's Natural Foods carries a wide variety of items including grains, seeds, nuts, dried fruits, cereals, flours, beans and trail mixes, all sold in bulk. He also carries vitamins, organic foods, unfiltered, unprocessed juices, teas, healthful snack itema and personal care items such as non-allergenic make-up.

"I try to provide as healthy a product as possible," he says and guarantees there are no preservatives or additives in any of his foods and no sugars or salts in many of them. He stocks as many organic foods as possible though the prices are sometimes higher than most people like to pay.

Matter, 26, is a native of Houghton Lake. He holds a Bachelor of Science degree in Wildlife Ecology from the University of Wisconsin - Madison but, after a couple years working in that field, became somewhat disenchanted. He also worked in the lumber business for a while before deciding to settle in Northern Michigan and open a natural food store.

It was during his years in college that Matter got involved with natural foods when he participated in several food cooperatives.

"When I atarted eating natural foods, I went cold turkey and ate nothing else," he remembers. "The first thing I did was lose ten pounds. Bnt it felt good."

Asked how a person ahould best wean himself from the processed, sugared and chemically treated foods to which most people are accustomed to a more natural diet, Matter suggests, "gradually."

There ara many natural foods, he points out, that taste similar to and can be substituted for their less-healthful counterparts.

Carob, which Tim's carries, for instance, tastes very much like chocolate but without the sugar. He has a grain beverage that tastes like coffee but without the caffeine.

Tim's also has a selection of informational literature including several books on health foods and nutrition. He is considering a line of appliances snch as juicers and possibly equipment for people who like to make their own wine and beer.

"My inventory will be on a trial and error basis," he says, "I'll stock the items people ask for and phase out the ones they don't want."

For the time being, Tim's Natural Foods is open from 9:30 a.m. to 6:30 p.m. Monday through Saturday. This summer he may open Sundaya as well.

Federal grant to aid sheriff, police depts. in enforcement of drunk driving laws

Enforcement of the strict new state laws on drunk driving, which went into effect last week, will be aided in Charlevoix County by a $31,400 federal grant announced recently by Charlevoix County Sheriff George Lasater.

According to Lasater, the grant will be shared by his department, the Boyne City Police Department, East Jordan Police Department and Charlevoix County Prosecutor's Office.

The grant, administered through the office of Highway Safety, was offered to all police agencies in the county along with the Prosecutor's Office. It will be distributed for the year starting this past April 1 and will be coordinated by the Sheriff's Department and the Charlevoix County Treasurer.

With the additional funds, Lasater hopes to:

-Increase the number of drunk driver arrests by 100 percent.

-Rednce alcohol related traffic accidents county wide.

-Increase liquor establishment inspections.

-Develop educational material for dirvers' ed programs and for the general public.

-Increase investigations of establishments and adults selling alcohol to minors.

-Increase the number of deputies and patrolmen on highways, roads and streets during prime accident times and in high accident areas.

Of the $31,400, the Sheriff's Department is allocated $18,658. Of that amount, $10,648 will pay wages for 800 hours of extra road patrol, $2,000 will pay for the gas, $1,260 will pay for training for breathalyzer operators and $4,750 will be used to purchase four hand-held portable pre-arrest alcohol testers, one radar unit and other miscellaneous equipment.

The Prosecutor's Office will use $5,000 for a word processor.

The Boyne City and East Jordan Police Departments will receive allotments of $5,935 and $1,504 respectively to be used for wages for extra patrolling.

Hist. Soc. looking for local artifacts

The Charlevoix Area Historical Society is preaently soliciting artifacts and-or memorabilia of the area for the Charlevoix Historical Society Museum at 103 State St. in Charlevoix.

More than 75 letters have already been mailed to residents and former residents soliciting material suitable for exhibit in a museum on either a permanent or a loan basis.

If anyone is in need of a pick-up they may call the following residents for assictance: Louis S. Orlowski, Bill Price, Bob Miles, and Mrs. C.D. Geiken in Charlevoix, and Betty Zipp at 547-6350.

A WELCOME DONATION *of about $200 worth of Glen's slips was made to Big Brothers-Big Sisters of Charlevoix County last week by the Xi Epsilon Gamma chapter of the Beta Sigma Phi sorority in Charlevoix. Project chairman Dianne Coolman, right, made the presentation to George Ebenhoeh, treasurer of Big Brothers.*

Opinion

Knight on the Town

Let's play to win

by Dave Knight

I am planning to vote "yes" on Thursday's FAA flight station bond proposition and think you should, too.

The proposition, if passed, will authorize the issuance by Charlevoix County of up to $750,000 in general obligation bonds to build the automated flight station if Charlevoix is awarded the bid by the FAA.

Since the effort to secure the bid began last year, many legitimate questions have been raised about the propriety of handing over to the government a gift-wrapped package for $1 a year. It has been argued that such deal would never be offered to a private firm.

Probably not.

The county is not into venture capitalism and for good reason. If the county were to lend a private firm $750,000 to build a new plant, there is the inherent chance of the firm's collapse or withdrawal and a total loss of the county's investment. There is no such possibility with the flight station deal, however. Written into the bid is a guarantee that the government occupy the facility for 20 years and, if for some reason it should not, it would pay a substantial penalty on a sliding scale. There's no risk involved.

Some people lament the loss of taxes on the property. What taxes? The plot is not generating a tax base now and with several other, more attractive industrial sites being developed in the area, this particular site on airport property does not appear to be in line for private development in the foreseeable future. Frankly, all it's really good for right now is a flight station.

Those in the outlying areas of Charlevoix County see the flight station as benefiting the City of Charlevoix alone and thus say they don't want to foot the bill. If this parochial attitude prevails, the county might as well dissolve its Economic Development Corporation and give up hope of promoting development anywhere in the county. Let each community print its own currency if they think dollars never cross city or township boundaries. Let those communities who think they can promote economic development more effectively by themselves do it.

I don't think they can.

The projected infusion of millions of dollars - over $2 million in eventual payroll alone - into the Charlevoix County economy, I think, is a clearly satisfactory return on the taxpayers' investment.

There's principle involved, too. Regardless of Charlevoix County's chances of actually being awarded the flight station, a "yes" vote on Thursday would be strong affirmation of the county's desire to play hardball in the increasingly competitive game of economic development.

And you can't win if you don't play the game.

Clockwise

Looking out for No. 1

by Bob Clock

I am always surprised when a highly respected publication — such as *Parade* magazine — comes out with articles on beating the Internal Revenue Service.

At first blush, such features seem almost anti-American. After all, how would the government function at all without your tax dollars and my tax dollars.

But the space war shenanigans announced recently by President Regan certainly indicate we all should take a long, hard look at how the federal government spends *our* money.

If there is any way to trim back the government's bounty, I'm all for it. Perhaps the only way to curb foolish federal spending is to lock the till.

I, for one, would like to take my share of the trillions of dollars Ronald Reagan's interstellar defense system will cost and put it into a few modest consumer goods — like a new car and a coat of paint for the old manse.

(Incidentally, Employment Research Associates of Lansing — which specializes in examining the impact of military spending on the economy — reported Monday that every $1 billion spent by the Pentagon means a net loss of 14,000 jobs in private industry — the difference between jobs created and those destroyed by defense spending.

(If this money (totaling $20 billion in 1981) had not been transferred from the taxpayer to the Pentagon, 745,000 jobs in industry, agriculture, mining, commerce and the service industries would have been generated by consumer purchases," the study said. The defense spending generated only 475,000 jobs — for a net loss of 270,000 jobs.)

WHILE THESE figures sink in, let us turn to attorney Roy Cohn who contributed an article to Sunday's *Parade* magazine about his decades-old battle with the Internal Revenue Service. Cohn, mind you, is not your average taxpayer. His law firm is into megabucks and, despite his problems with the IRS, he pays many times more in taxes than most of us earn. Cohn claims he filed his tax forms and paid heavy taxes since 1959, but the IRS insists he owes more than $4 million in additional taxes, interest and penalties.

The IRS has assigned battalions of tax wizards to his case over the years and the long struggle apparently is far from over.

"I do *not* and never will advocate any kind intentional violation of IRS laws. The service has its lawful obligationn to collect taxes," Cohn writes. "I am not condemning the entire system and everyone in it. I am, however, talking about various inequities that often seem to be the rule rather than the exception and about the arbitrary actions of certain personnel in the IRS that affect the lives of many taxpayers."

Cohn says he believes many Americans suffer guilt feelings about minimizing their tax burden. However he quotes the late Judge Learned Hand:

"Anyone can arrange his affairs to that his taxes shall be as low as possible. He is not bound to choose that pattern which will best pay the Treasury."

OF COURSE, neither Cohn nor Judge Hand would dream of cheating the government. But the self-interest they recommend when one files one's tax returns makes better sense every day — particularly since the administration has failed to show even a modicum of restrait about how the money is spent.

IF YOU APPRECIATE the thoughtful, lively and entertaining articles now appearing in *Parade* magazine, a good deal of the credit goes to a former Charlevoixan — Larry Smith, who is managing editor. Smith has lived in the New York City area for many years and is author of *The Original*, a gripping novel about the early days in the Norwood area.

Letters: Support for Waldner

To the Editor:

I have seldom endorsed Karl Waldner's proposals or his concepts of how he thinks things should be done. However I do approve 100 percent with his latest one. I can find absolutely nothing wrong with a county wide vote to find out just how the electorate really feels about a tax cut at this time. We should be allowed to voice our opinions more often on these matters at the ballot boxes. We all know that we must pay for the services we get but we are also well aware of the fact that there is room to exerise some economics as well.

Mr. Waldner has already accomplished one thing by doing what many private citizens have been trying to do for years. He has got the attention of our city fathers, supervisors and administrators at least. Their screams of protest can be heard coming from every nook and cranny of the county. Emmet county is running scared too.

At this particular time I have not decided just how I will vote on this issue, but one thing is for sure - I shall damn will vote - and urge every registered voter to do the same. Let's send a message. I may have more to say on this proposal later on. I also hope the news media covering the county can remain objective and be fair in their coverage. This could very well be a landmark vote.

Karl - I salute you - and win or lose, I give you points on this one. Good luck.

Everett K. Sayles
Boyne City

Out of the Blue

Who'll regulate EPA the more?
The question seems to be
Whether to bet on the regulator —
Or on the regulatee!

— Amos

Letters: Taxes, rape sent.

Can we afford it?

Open Letter to Charlevoix Taxpayers:

Before you vote on any of the upcoming ballot proposals for this year, consider how much can you afford in increased property taxes in the future years.

Remember that increases in millage over a period of years are also subject to increases in property evaluation and assessment, which do occur every year. Therefore, when you vote for a millage increase over a period of future years, you also vote to compound your tax increase over the same period of years.

As we view the proposed millage increases which will be presented to the Voters this year, we must consider: first, the necessity; secondly, the overall benefits to all taxpayers; and last, but no least, can we really afford the ultimate cost.

The first proposeal to be voted on is the Flight Station. The cost will be .5 mil increase over 5-6 years...a mere pittance according to Charlevoix County Planner Larry Sullivan. The necessity, extremely debatable. The total benefits, as reported in the Courier, would be for businesses, i.e.: retailers, real estate offices, service bus., banks, etc. To the average homeowner-taxpayer - nothing! You have to consider the additional demand on schools, fire dept., police dept., and related city services which are taxpayer-supported. Can we afford the cost? No. Initially there would be more people creating an increased demand on city and county services because, initially they would either rent or buy properties which are already included in the tax base. This would not produce any additional tax dollars until these people decide to build. However, there is little or no guarantee that when they did decide, that they would opt to do so in Charlevoix county. Also, all the projections of benefits are based more on wishful thinking than on fact.

Next - we will be asked to finance a new water treatment plant, which will cost 1.25 mils over a 15 year period. However, according to the City Manager, R. Hunt, the cost could be as high as 3 mils for the initial 1-3 years. The necessity is to provide clean pure water now and for the future of Charlevoix City and Township. The benefits would be for all including future residents. Can we afford it? The real question is can we afford not to afford it at this time, considering that it will be an absolute necessity in the near future. Construction costs escalate each year. Therefore, it will never be less expensive than now.

In addition to the above ballot proposals consider where our tax dollars will in probability be expected to be expended.

The Altman-McGoff development requires downtown improvements: i.e. sidewalks, traffic signals, street lights, benches, etc. Whether the City or the Downtown Development Authority assnmes the responsibility, all the taxpayers will pay to finance the project.

The school system is still contemplating mid-year tax collections and possibly a slight millage increase.

The residential taxpayer is still looking forward to street and sidewalk repairs and improvements.

Fortunately most visitors do not tour our older residential areas or we could not promote "Charlevoix the Beautiful". There is more to the beauty of Charlevoix than the downtown area, the harbor or the petunias. There is also the people who live here day after day and year after year.

In conclusion consider before casting your vote or expressing your opinions that, in Orange County, California, which is a very prosperous socio-economic area, taxes on comparably valued properties are one-third of that which is assessed in Charlevoix. We need many things to make our City and County more attractive. But, higher taxes and increases in millage for non-essentials is not conducive to improving our city or our own individual situation. We have thrown $9,000 plus into the Flight Station pot. Can we as intelligent persons agree to throw in another $750,000 plus many extra concessions which have not been divulged, into the quicksand of a few individuals idea of constructive development. At some point in time each of us must agree that we are not against progress or development but, let those who will benefit the most assume the major portion of the cost.

Paul O. Burlew

Penalty too light

To the Editor:

Rape is a serious, violent crime. Rape not only physically threatens its victims' lives, but is also emotionally humiliating and traumatic. Since this issue has been brought ino the open, I have been startled by the number of women who have told me they have been raped. Fear, self-blame and emotional trauma have kept them silent. Our community is not exempt from this ugly horror of violence and humiliation. We prefer to view our world through rose colored glasses, to close our eyes to that which is not presant; however, it is no longer possible to do so.

The recent Charlevoix Case, reported in the March 17 issue of the Petoskey News-Review serves as a reminder of this atrocity as it exists in our community. First degree sexual assault is a crime punishable by a maximum life sentence. In this particular case, the defendant was charged with first degree criminal sexual conduct. Through the plea bargain process, the defendant was able to plead guilty to 3rd degree criminal sexual conduct, a crime punishable by a maximum fifteen years. Plea bargaining has become the norm in our society to expediate the court process. This defendant received a one year sentence in the county jail. A one year sentence, especially in relation to the facts surrounding this crime, hardly speaks to the magnitude of the violent act.

Repeat offenders for these crimes are extremely high. Are women and children, the highest percentage of victims of sexual assault, to be continually left vulnerable to this violent act? What deterrent is a one year sentence or probation, as was given the last child sexual assault case tried in Charlevoix County? Is our community willing to accept the slap on the hand method of punishment for violent, life threatening acts of our citizens?

The message from our courts, in regards to rape and child sexual assault, is that these violent felonies are punishable to the same extent as B&E's and larceny. Our laws distinguish between violent and non-violent crimes and set maximum and minimum sentences. I find it frightening that in our community there seems to be little distinction between the sentencing for larceny and theft and those were the victims have been violently assaulted and had their lives threatened.

Janet M. Mancinelli,
Director
Women's Resource Center

Congrats, Raydersǃ

Dear Mr. Knight:

Having grown up in the north country, I have had an opportunity to see many exciting High School basketball seasons come and go, first as a player and now as a fan.

I cannot, however, remember a more exciting season then the one we just experienced. I am very pleased to have the opportunity to congratulate the Charlevoix Rayders on their outstanding year.

The Rayders brought the City of Charlevoix many great moments during the 1982-83 season, with an exciting brand of basketball that saw them go 24-1 and into the quarter finals.

They brought the people of Charlevoix closer together and all of northern Michigan can be proud of the fine year the Rayders enjoyed.

Mitch Irwin
State Senator

Missing the issue

Dear Dave:

I have just concluded reading a considerable pile of letters and articles from the region's newspapers, all dealing with one problem, that of drunk driving. It is not difficult to find statistics supporting that alcoholism and drunk driving are key factors in our highway fatalities and in the loss of billions of dollars annually to business, however we find many of these letters and articles arguing for the rights and protection of the drunken driver.

I find this incredible as while I understand civil rights and that there comes a time to bury the dead and to end the suffering associated with the needless loss of lives, I also feel we must understand and focus on the consequences of drunken driving. We are an intelligent society and for the most part are aware of the problems that drunken driving can cause, yet daily we read articles in our newspapers of the many arrests, accidents and deaths resulting from this problem. When one considers that these incidents and accidents represent possibly one in 500 drunken drivers on the road, the magnitude of the problem is more than significant and more than cause for grave concern on our parts. We as citizens must address the problem to keep people aware of it and to attempt to resolve it to the greatest extent possible.

We spend more time criticizing an accurate account of an accident and questioning civil liberties infringement of an individual being subjected to breath or blood alcohol tests than we do with contributing to effective prevention programming and addressing ways to reduce or avert the needless carnage associated with drunk driving. If we could only channel that energy into prevention and treatment, as the only way to address the problem is for our entire community to get together; for parents, students and teachers to sit down together to integrate effective prevention into the schools to develop a concerted effort toward desensationalizing drinking and creating responsible attitudes toward alcohol use. The dedication must be tremendous and the work will be hard, but I am confident that if we address this problem constructively we can avert some of the many needless youthful deaths which occur every spring throughout Northern Michigan as a result of irresponsible drinking.

So let's spend less of our energy worrying about the rights of those who have already broken our laws and more on those who will be faced with decisions to drink or drive so that they can for many years exercise their good judgement rather than needlessly be laid to rest and remembered as they were.

Residents of Pine River Place participated in the annual Cancer Crusade by placing daffodils, the symbol of hope, in conatiners decorated by the Girls Scouts for delivery to retail merchants in the city of Charlevoix to kick off the annual Cancer Crusade.

Pictured are Betty Anderson, Gertrude Holt, Betty Taylor and Wanda Scheff arranging daffodils in containers gathered and decorated by the Girl Scout troops of Charlevoix. They were among the more than 15 residents of Pine River Place who joined the Cancer Crusade by arranging flowers in containers.

Cancer Crusade begins

The Charlevoix County Chapter of the American Cancer Society has kicked off its annual fund campaign with the traditional Daffodil Days, the daffodil being the symbol of hope, Mrs. Joanne Curtis, local chairperson, has announced.

Dozens of daffodils were placed in containers decorated by girl scouts and delivered to retail stores in the Charlevoix area where they were offered for sale or given by the retailers to their customers.

The "Share the Cost of Living; Knock on Every Door" Campaign which was also initiated April 1 will continue through April 18 Mrs. Curtis said.

Joining the adults in the annual campaign to raise a quota of $13,750 in the county were the Girls Scouts and Boy Scouts of Charlevoix.

The girl scouts gathered and decorated more than 50 containers in which the residents of Pine River Place placed the daffodils for delivery to the retailers. Mrs. Carolyn Olinger, Girl Scout coordinator, delivered the daffodils to the retailers.

The Boy Scouts of Troop 11 under Scout Master Louis Edwards had sorted and packaged all the American Cancer Society literature to be used in the door-to-door campaign as their part in the annual Cancer Crusade. More than 300 kits were packaged by the scouts.

Further information may be obtained by calling Mrs. Curtis at 547-5494 or Linda Christensen at 582-9555.

Boy Scouts of Troop 11 under Scout Master Louis Edwards participated in the annual Cancer Crusade by packaging more than 300 information kits to be distributed during the door-to-door fund campaign now underway in Charlevoix County.

Pictured are (l to r) Jason Wiser, Robert Norman, John Norman and James Gaskin packing information kits to be distributed in the local fund campaign.

Plans made for Poppy Days

Mrs. George Lochner, Poppy Chairman for the American Legion Auxiliary, announced plans for the forthcoming Poppy Days in May and solicited workers for the event at a recent meeting of the organization held at the post home following the monthly potluck dinner. This event is held in cooperation with the members of the Leslie T. Shapton Post No. 226, American Legion.

At the same time it was announced that Mrs. Clarence Goldstick had been endorsed by the district as secretary-treasurer for the coming year.

A report was given on the recent district meeting held in Petoskey and attended by Mr. and Mrs. Ray Wood, Mr. and Mrs. Lochner, Mrs. William Farkas, Mrs. Lester Smith and Mrs. Goldstick. At this meeting, the district president, Mrs. Madeline Taylor, honored past district presidents and presented each with a carnation. She also stressed the importance of submitting annual reports promptly.

It was announced that scarves and handerchiefs would be sent to V.A. Medical Center at Battle Creek for the benefit of patients who could give them as Mother's Day gifts.

That the local auxiliary would contribute up to $50 for transportation of Bergmann Center clients to the National Special Olympics.

That the local Auxiliary would sponsor three Charlevoix High School junior girls at the annual Girls State at which 506 girls from throughout the state would be attending.

That 14 Valentine and 17 other cards had been sent to members by chaplain, Josephine Bindi.

Mrs. Witthoeft is new Womens Club president

Mrs. Ivan Witthoeft was elected president of the Charlevoix Women's Club for the 1983-84 club year at the recent meeting held at the Charlevoix High School cafeteria.

She succeeds Mrs. Ray Wood in the office.

Other officers elected at the same time are: Mrs. Frank Mikulski, first vice president; Mrs. Marge Dinwiddie, second vice president; Mrs. Joseph Morris, Jr., third vice president; Mrs. Robert G. Martin, fourth vice president; Mrs. Arthur Stoel, secretary; Mrs. Edward Leedy, treasurer, and Mrs. Wood, publicity.

The annual meeting of the club will be held at Duffy's at 12:30 p.m. April 19.

The Book Review group will meet April 25 at a site to be announced.

At the recent meeting, the Forensics class at the high school presented an entertaining program for club members under the direction of Connie Ford. Mrs. Witthoeft hosted the meeting.

Past High Priestesses set April meeting

The April 13th luncheon meeting of the Past High Priestesses and Watchmen of the Shepherds will be held at the Masonic Temple in Charlevoix with Mrs. Ray Wood as hostess.

At the recent meeting of the orgaization held at the Perry Davis Hotel in Petoskey, it was announced that the Western Michigan District Association of the organization would be meeting in Battle Creek April 14. Mrs. Harold Hamlin hosted the recent meeting.

It was also announced that get well cards were sent to Mr. and Mrs. Ashton Hayes of Petoskey, Mrs. William Roy and Mrs. Floy Robinson of Central Lake and a sympathy card to Mrs. Emory Nyman.

Duffy's with a record of 54-3 in the Women's 14-team Volley ball League sponsored by the Charlevoix Recreation Department won the 1983 title.

Members of the championship team were: front row (l to r) Cookie Borths, Carol Ward, Jackie Skeel.

Back row: Ann Willis, Pauline Young, Donna Himebauch, Kathy Lawson.

Missing: Nancy DeHollander, Cindy Martin.

The Charlevoix Players won the title in the Men's Volleyball League sponsored by the Charlevoix Recreation Department.

Present for the trophy presentation were: front row (l to r) Ken Swan, Mike Burnett, John Reynolds.

Back row: Scott Groves, Charles Wilmot, Curt Meixsell.

Missing from photo: Terry Smith, Tom Caldwell.

The First State Bank of Charlevoix independent basketball team was the winner of the B League Char-Em Shootout tournament played at Charlevoix.

The First State Bank captured the title by defeating McDonald's of Petoskey 65-56 in the final game Tuesday night.

Members of the championship team are: front row (l to r) Dennis Dominic, Leroy Buchanan, Steve Martinus.

Back row. Roger Gowell, Kevin Swanson, Ike Boss, Tim Carey.

Runners up in the Char-Em Shootout were the McDonald's team which included, front row left to right, Bob Doctor, Tom Rosel, Bob Bucher and John Heiselman; in the back row are Barry Aspenliter, Bruce Dickenga, Bill McClutchey and John Dickman.

1st State Bank wins Char-Em Shootout

The First State Bank of Charlevoix came through the upper bracket of the B League with four victories to capture the title of the Char-Em Shootout played at the Middle School gym. In the finals Tuesday, First State defeated the lower bracket winner, McDonald's of Petoskey, 65-56 to capture the title.

In the championship game played Tuesday night, First State trailed McDonald's 20-16 before going ahead 33-28 at halftime and 51-42 going into the final period.

Dennis Dominic with a hot hand canned 29 points to top the team's scoring. Kevin Swanson and Tim Carey had 11 points each.

John Hazelman had 20 points and Bob Bucher 12 for McDonald's.

In the semi-finals on Monday, First State edged Kit Carson-Charlevoix Garbage 51-50 and McDonald's defeated PBR Farms 42-38 to win berths in the finals.

First State had to come from behind to knot the score 37-all before outscoring their opponents 14-13 in the final period for the win. Kit Carson-Charlevoix-Garbage had led 16-10 at the quarter and 31-25 at the half before being outscored 12-6 as the second half got underway, resulting in a 37-37 tie as the game went into the final period.

Carey paced the scoring for First State with 23 points with Dominic adding 14. Butch Klooster had 14 for the losers.

In the second game, McDonald's trailed 7-6 at the quarter before taking the lead 18-13 at the half and 31-30 at the three quarter mark for the win over PBR Farms.

Bob Doctor had 10 points for the victors. Dan Bower with 14 points and Bernie Kondrat with 12 shared scoring honors for PBR Farms.

Thirteen teams from Charlevoix and Petoskey were entered in the tournament.

"Make sure you replace your divot!"

'Memory Lanes' is a fun look at bowling

It's pretty hard for even the most avid bowler to take the sport *too* seriously. But for those who do, relief is on the way in the form of a new book of cartoons published by Robert C. Siegle.

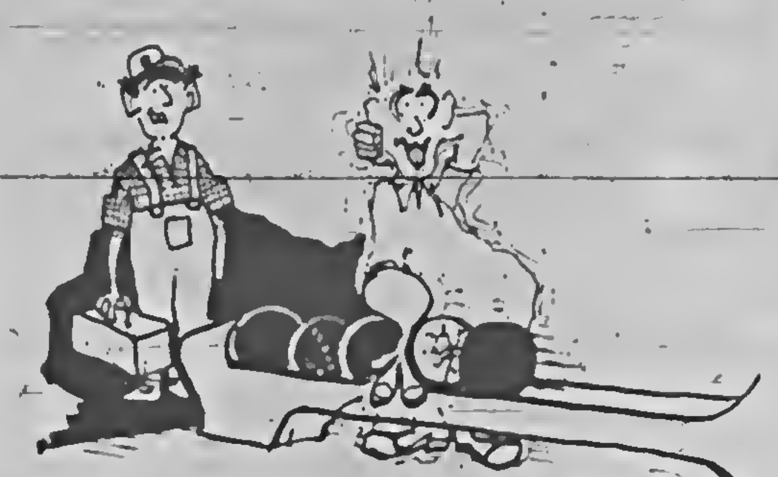
Siegie, owner of the Action House Design Center in Traverse City, summered with his parents for many years on Torch Lake and worked for at least one summer at the Lodge in Charlevoix.

His new book "Memory Lanes" is sub-titled, "A Fun Look at Bowling" and it is just that. The book contains 72 pages of whimsical cartoons featuring characters familiar to almost any bowler. Siegle both wrote and illustrated the book which has been published by the Brunswick Publishing Co.

Some of the characters include Funnel, the heavy beer drinker, Phantom, the teammate who never shows up on time and other common bowling alley denisons.

A bowler since age 12 who has bowled in youth traveling leagues, mens leagues, mixed doubles and many tournaments, Siegle draws from his own experiences, some of which are based in truth and others slightly exagerated.

"Memory Lanes" is $11.95 in hardback, $5.95 in paperback and can be ordered from Brunswick Publishing, P.O. Box 555, Lawrenceville, VA 23868. Mail orders should include $2 for postage and handling.



"Is this the lane that's returning 'em too fast?"

LEGAL NOTICES 207

NOTICE OF MORTGAGE FORECLOSURE SALE

TO: GARY GILLESPIE, OF 434 N.E. STREET, BOYNE CITY, MICHIGAN 49712, MORTGAGOR: RUBY GILLESPIE, OF P.O. BOX 222, LONGDALE, OKLAHOMA 73755, MORTGAGOR; ROBERT W. EAGLESON, JR., OF P.O. BOX 502, GRAND BLANC, MICHIGAN 48439, LAND CONTRACT PURCHASER: AND ALL PERSONS CLAIMING UNDER AND THROUGH THEM:

Default having been made in the terms and conditions of a certain real estate mortgage by Gary Gillespie and Ruby Gillespie, his wife, of Boyne City, Charlevoix County, Michigan, as Mortgagors, to First National Bank and Trust Company, a corporation organized and existing under the laws of the United States, of Howard & Mitchell Streets, Petoskey, Emmet County, Michigan, as Mortgagee, which Mortgage was dated April 7, 1978 and recorded April 12, 1978 in Liber 153, pages 19-22, Charlevoix County Records, and the entire balance secured by said Mortgage having become due and payable by reason of the continuance of said default for a period exceeding the period specified in said Mortgage and Mortgage Note, and upon which Mortgage there is claimed to be due, at the date of this Notice, for principal and accrued interest the sum of $10,015.95, and further default having occured by reason of the nonpayment of real property taxes for the years 1979, 1980, 1981, and 1982, contrary to the terms, conditions and covenants in said Mortgage contained, in the amount of $4,802.89, and no suit or proceeding in law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof;

Now, Therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statutes of the State of Michigan, in such case made and provided, notice is hereby given that on Thursday, May 5, 1983 at 10:30 o'clock a.m., said Mortgage will be foreclosed by a sale at public auction to the highest bidder at the main lobby entrance of the Charlevoix County Building in the City of Charlevoix, Charlevoix County, Michigan, that being the building where the Circuit Court for the County of Charlevoix is held, of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amounts due, as aforesaid, on said Mortgage with interest thereon at 9 percent per annum, together with all legal costs, charges and expenses, including the attorney fees allowed by law, and also any sums which may subsequent to the date of this Notice be paid by the undersigned, necessary to protect its interests in the premises. The premises to be foreclosed, described in said Mortgage, is as follows:

City of Boyne City, Charlevoix County, Michigan;

Parcel 1: Lot 1 of Calbert's Addition to the Village of South Boyne, according to the recorded plat thereof, EXCEPT the South 54 feet thereof, also described as: The North 78 feet of Lot 1 of Calbert's Addition to South Boyne (now City of Boyne City) according to the recorded plat thereof. ALSO: The North 78 feet of Lot 2, Calbert's Addition to South Boyne (now City of Boyne City).

Parcel 3: Lot 5, Block A, Assessor's Terrace Addition to the City of Boyne City, according to the plat thereof.

The redemptive period afforded Mortgagors by statute is one (1) year from date of foreclosure sale.

Dated at Petoskey, Michigan, this 24th day of March, 1983.

LEGAL NOTICES 207

NOTICE OF MORTGAGE SALE

Default having been made in the terms and conditions of a certain Mortgage made by KENNETH MOUSSEAU, a-k-a Kenneth L. Mousseau and wife, MARY ETTA MOUSSEAU, a-k-a Maryetta Mousseau, of Charlevoix, Michigan, Mortgagors, to MILES HOMES DIVISION OF INSILCO CORPORATION, Mortgagee, dated the 4th day of May, 1979, and recorded in the office of the Register of Deeds for the County of Charlevoix and State of Michigan on the 14th day of May, 1979 in Liber 157, Page 348, which mortgage is presently held by Miles Homes Division of Insilco Corporation, through a series of assignments thereof, and on which Mortgage there is claimed to be due, at the date of this Notice, for principal and interest, late charges, taxes and insurance, the sum of Thirty-seven Thousand One Hundred Thirteen and 01-100 Dollars ($37,113.01), and no suit or proceedings at law or in equity having been instituted to recover the debt secured by said Mortgage, or any part thereof.

Now, therefore, by virtue of the power of sale contained in said Mortgage, and pursuant to the statute of the State of Michigan in such case made and provided, notice is hereby given that on Thursday, the 14th day of April, 1983, at 10:00 o'clock in the forenoon, said Mortgage will be foreclosed by a sale at public auction, to the highest bidder, at the main entrance to the Charlevoix County Building, Charlevoix, Michigan (that being the building where the Circuit Court for the County of Charlevoix is held) of the premises described in said Mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said Mortgage, with interest thereon at the rate of nine and one-half percent (9½%) per annum and all legal costs, charges and expenses, including the attorney fee allowed by law, and also any sum or sums for taxes and insurance which may be paid by the Mortgagee necessary to protect its interest in the premises.

Said mortgaged premises are situated in the Township of South Arm, County of Charlevoix and State of Michigan, to-wit:

The North 1320 feet of the Northeast fractional quarter of Section 8, Town 32 North, Range 7 West, lying Westerly of the center line of the County Road.

The redemption period shall be six (6) months from the date of sale pursuant to MSA 27A.3240.

Dated: March 15, 1983

Obituaries

MELVIN L. FISHER

Melvin L. Fisher, 52, died March 29 at the Charlevoix Area Hospital of a stroke following injuries received in a house fire on March 28 in Central Lake. Funeral services were held Wednesday at the Central Lake Grace Community Church in conjunction with services for his daughter, Jeannie, 13, and Carolyn Everett, 10, who also died in the fire. Rev. Alan Leese officiated. Burial was in Southern Cemetery, Central Lake Township.

Mr. Fisher was born May 1, 1930 in Dryden, Michigan, the son of David and Jane (Bennett) Fisher. He had resided in Central Lake for the past five years, moving there from East Jordan where he had lived for eight years.

Mr. Fisher had served in the U.S. Army during the Korean Conflict and had worked at the Sherman Canning Factory in East Jordan.

On Dec. 18, 1956, he married the former Betty Stockstell in Lapeer County.

In addition to his wife, Mr. Fisher is survived by one son, Alvin Fisher, and two daughters, Jewel Frances Fisher and Melvia Dee Fisher, all at home; one brother, George Fisher of St. Helen.

HERBERT F. TAGGART

Herbert F. Taggart, 84, died March 28 at St. Joseph Mercy Hospital in Ann Arbor. Mr. Taggart, a professor of cost accounting and assistant dean of the University of Michigan School of Business Administration, lived in Charlevoix as a young boy and was a graduate of Charlevoix High School. His father, Charles E. Taggart, was a minister at the First Congregational Church from 1912 to 1919.

He was born April 5, 1898, in Elk Point, South Dakota to Charles E. and Alma Estalla Hart Taggart. He was married to Jessie McCall who preceded him in death August 23, 1963. On September 24, 1977 he was married to Beatrice Tuttle.

After receiving his BA, MBA and PhD from the University of Michigan, he was called to Washington to help set up the OPA during the Roosevelt administration. He entered the U.S. Army in 1943 and served until 1946 when he retired a Lt. Colonel.

Survivors include his wife, Beatrice; a son, Herbert M. of Ann Arbor, a daughter, Jane Blodgett of Oberlin, Ohio and six grandchildren.

FLOYD F. WEBSTER

Funeral services were held March 30 for Floyd Frank Webster, 86, who died last week in Belmont. Webster was an auto mechanic for Brown Motors before moving to Belmont in 1946. He was a member of the Charlevoix City Band for 20 years.

He is survived a daughter, Patricia Townes, of Belmont; two sisters, Mrs. Al (Neva) Smith of Charlevoix and Lottie Pierce of Peoria, Illinois; five grandchildren and 12 great grandchildren.

JOAN V. VETTING

Funeral services for Mrs. Joan V. Vetting, 53, who died March 28 at Little Traverse Hospital following a long illness, were held Saturday at Redeemer Lutheran Church in Manitowoc, Wis. The Rev. James Plackner of Bethany Lutheran Church of Charlevoix officiated. Interment was in Knollwood Memorial Gardens at Manitowoc.

Visitation was the Winchester Funeral Home here Wednesday and at the Urbaek-Schlei Funeral Home in Manitowoc, Friday.

The former Joan V. Broeker was born at Manitowoc, Wis., Oct. 22, 1929. In 1947 she was graduated from Lincoln High School and Nov. 12, 1949, was married to Edward L. Vetting at Manitowoc where they lived until coming to Charlevoix in 1967. She was a member of Bethany Lutheran Church here and a former member of Emanuel Lutheran Church in Manitowoc. She was also active in numerous volunteer organizations in Charlevoix.

Besides her husband, she is survived by two sons, Barry and Jeffery, both of Charlevoix; her father, Walter Broeker of Manitowoc and a sister, Mrs. Jane Pellgrom of Rockford, Mi.

The family suggests memorials to the American Cancer Fund.

LLOYD J. HIMEBAUCH

Funeral services for Lloyd J. Himebauch, 93, who died April 1 at the Charlevoix Area Hospital, were held Monday at the Winchester Funeral Home. The Rev. Cecil Drost officiated. Interment was in Brookside Cemetery.

Born in Marion Township Aug. 11, 1889, Mr. Himebauch was married to the former AnnaBelle Campbell Feb. 3, 1914. A short time later they moved to Detroit where they lived until returning to Charlevoix in 1931. He was a carpenter by trade and for many years was employed at the Hamilton Boat Yards. Mrs. Himebauch preceded him in death Aug. 31, 1981.

He is survived by two sons, Carl C. of Indiantown, Fla, and Archie R. of Charlevoix; two daughters, Mrs. Earl (Katherine) Denny and Mrs. Enos (Anna Mae) VanderSlik, both of Ellsworth; 24 grandchildren; several great-grandchildren and a sister, Mrs. Mary Baich of Ellsworth.

The family suggests memorials to the Crippled Children's Foundation.

MARGARET E. GENNETT

Funeral services for Mrs. Margaret E. Gennett, 73, who died April 1 at the Charlevoix Area Hospital, were held Monday at the Winchester Funeral Home. The Rev. Walter Hastings of the Community Church of God officiated. Interment was in Brookside Cemetery.
